DIRECTORS' REPORT TO THE UNIT HOLDERS

The Board of Directors of JS Investments Limited has the pleasure in presenting to you the un-audited Financial Statements of **JS Large Cap. Fund** (the Fund) for the nine months period ended March 31, 2021.

Economic review

Since July 2020, Pakistan witnessed two Corona virus waves and is currently undergoing the third wave, the severity of which has heightened the risk of city wide lockdowns and economic activity slowdown. In an effort to overcome the Corona virus situation, the government has initiated a vaccine drive targeting 50+ population and is expected to expand the drive to the lower age groups in the coming months. Therefore, this could be the last major Corona virus wave and the return to normalcy seems closer than ever.

Similarly, the IMF program has also resumed after a year long suspension with another disbursement of USD 500 million. The performance targets remain largely unchanged and the government is expected to achieve the set targets barring any political distraction and escalation of the Corona virus situation.

The Current Account improved considerably during the nine months of the fiscal year 2021. The country reported a surplus of USD 748 million in the period under review compared to USD 2,911 million deficit in the same period last year. The improvement was on account of 24% growth in remittances that outweighed the 22% rise in the trade deficit. As a result, foreign reserves continued to strengthen and PKR/USD parity also improved with the PKR trading at 153 to the dollar in March 2021.

Lastly, CPI inflation eased off from 9.3% in July 2020 to 5.7% in January 2021. However, the inflation has increased to 9% levels from February onwards due to the low base effect. The State Bank of Pakistan continues to maintain a dovish policy stance with a higher focus towards economic recovery stimulation.

Equity Market Review:

The KSE 100 returned 29.5% during the nine months of the fiscal year 2021 and closed at 44,588 points. The KMI 30 recorded a slightly higher return of 32.8% while the KSE 30 returned 22.9%. The market's daily traded value improved from PKR 6.1 billion at the start of the fiscal year to PKR 14.8 billion in March 2021 as investor confidence grew on the back of improving macroeconomic conditions. However, foreigners continued to remain net sellers in Pakistan equities with USD 295.1 million outflow during the period under review compared to USD 130.2 million of outflow in the same period last year.

The KSE 100 index increased by 10,166 points during the nine months of the fiscal year due to improving Corona virus situation, the launch of several vaccines and strong corporate profitability in December 2020 earnings season. Cements were the largest contributors to the index at 1,957 points, followed by Commercial Banks at 1,938 points and Technology & Communication at 1,872 points. The rally in the index was broad based with all other sectors contributing positively to the index during the period.

Review of Fund Performance

The Fund return was 32.31% for the nine months period ended March 31, 2021, against the benchmark return of 28,90%. Net Assets moved from PKR 351.76 million (June 30, 2020) to PKR 492.81 million as of March 31, 2021. The total expense ratio (TER) of the Fund is 3.71% which includes 0.77% representing government levies on the Fund

Merger of Equity Funds

The Board of Directors of the Management Company in their meeting held on February 21, 2020 had approved the Scheme of Merger ("the Scheme"), whereby JS Value Fund ("JS VF") and JS Large Cap. Fund ("JS LCF") were to be merged into JS Growth Fund ("JS GF"). This merger was subject to the approval by the Unit Holders' and Trustees of the Scheme and fulfillment of requirements as imposed by the Securities and Exchange Commission of Pakistan. The meetings for the approval of Unit Holders of the respective Funds were initially called on April 09, 2020, but were postponed due to COVID and no date was announced subsequently for such meetings. After evaluating the investors' intention especially post COVID outbreak, the Management proposed the revocation of earlier proposal of merger. The Board of Directors of the Management Company, in their meeting held on Friday, April 23, 2021 approved the revocation of the proposal of merger.

Asset Manager Rating

The Pakistan Credit Rating Agency Limited (PACRA) has assigned JS Investments' Management Quality Rating of AM2 (AM-Two) with a stable outlook. The rating denotes High Management Quality

Acknowledgment

The Directors express their gratitude to the Securities and Exchange Commission of Pakistan and Central Depository Company of Pakistan Limited (CDC) for their valuable support, assistance, and guidance. 17 FAIR VALUE OF FINANCIAL INSTRUMENTS

^{**} Paid / payable to the Trustee for onward payment to the Government.

^{16.2.1} This represents the amount of brokerage paid to the related party.

^{16.4} Purchase and redemption of the Fund's unit by related parties / connected persons are recorded at the applicable net asset value per unit. Other transactions are at

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the period end date. The quoted market prices used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices in active markets for identical assets.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

As at March 31, 2021, the Fund held the following financial instruments measured at fair value:
