### REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of ABL Asset Management Company Limited, the management company of ABL Islamic Stock Fund (ABL-ISF), is pleased to present the Condensed Interim Financial Statements (un-audited) of ABL Islamic Stock Fund for the quarter ended September 30, 2021.

## **ECONOMIC PERFORMANCE REVIEW**

The average NCPI during the period settled at 8.58%YoY against 8.85%YoY in the same quarter last year. Despite the higher base effect, the inflation only manages to decline slightly as a result of rising housing costs, electricity tariff adjustments, and higher food prices. We estimate the average NCPI for FY22 to settle between 8.5-9.0%YoY.

The country reported a current account deficit of USD 2.2bn in the two months of FY22 compared to a surplus of USD 838mn for SPLY. This increase in imports came due to a recovering economy driven by consumption as it came roaring back. The country imported goods worth USD 13.03bn up by 62.2% for the period under consideration compared to SPLY when it imported USD 8.03bn. On the export front, the country exported USD 5.60bn compared to USD 4.19bn, up by 33.6% YoY. Remittances, on the other hand, clocked in at USD 5.36bn up by 10.4% YoY, remittances are expected to continue the upward trend in coming months. Portfolio investments came in at USD 962bn inflows compared to outflows of USD 135mn in the SPLY. Pakistan also managed to increase its foreign reserves in the period under review due to inflows from the SDR release by the IMF to support global growth. SBP reported its reserves at USD 19.92bn enough to support imports cover of ~3.21 months. On the fiscal side, FBR reported collecting PKR 1.39tr taxes in the 1QFY22 compared to PKR 593bn collected SPLY.

The Large Scale Manufacturing (LSM) grew by 2.25% in July, reflecting a slowdown in industrial output. This slowdown came on the back of growth in LSM during the second half of the FY21 as the economy recovered from the covid-19 lockdowns. Sector-wise, production of 11 items under the Oil Companies Advisory Committee fell by 3.57% YoY in July. The 36 items under the Ministry of Industries and Production rose by 1.40%, while 65 items reported by the provincial bureaus of statistics were up by 5.22%.

### **EQUITY MARKET REVIEW**

During the 1QFY22, the KMI-30 experienced its worst quarter, falling nearly 4,305 points (~5.6%) and closed the period at 72,315 points. During the period, average traded volume and value decreased by ~71%YOY to 49mn and ~49%YOY to USD 26mn respectively. Investors lost their confidence amid i) Increase in policy rate ii) rapid currency depreciation iii) significant heave in trade deficit iv) MSCI reclassified Pakistan to frontier market and, v) widening gap between PAK-US relations. Foreign investors continued their selling spree by offloading shares worth USD 83mn. On the domestic front, individuals, other organizations and banks bought massively with a net buying of USD 32mn, USD 27mn, and USD 21mn respectively. A sectorwise analysis shows that commercial banks and cement marked a massive foreign outflow of USD 46mn, and USD 12mn respectively.

### **MUTUAL FUND INDUSTRY REVIEW**

Total Assets under management (AUMs) of open end mutual fund posted growth of 1.89% during 3MFY22 (From PKR 1074bn to PKR 1094bn). Fixed income funds (conventional & Islamic) which surged by 15% while, money market (conventional & Islamic) which swelled by 2% to close the period at PKR 268bn and 486bn respectively. AUMs of equity funds (conventional & Islamic) declined by 12% during the said period. Growth in fixed income and money market funds can be attributed on the basis of investor demand for less risky assets amid volatile equity market backed by higher commodity prices in international market and uncertainty regarding the IMF program. ABL Asset Management Company's market share stood at 8.02%.

#### **FUND PERFORMANCE**

ABL Islamic Stock Fund's AUM increased by 1.32% to Rs. 2,914.69 million as on September 30, 2021 compared to Rs. 2,876.64 million on June 30, 2021. The fund posted a return of -6.49% against the benchmark return of -5.62%. When measured from its inception, ABL-ISF has posted a return of 91.91% against its benchmark return of 90.57% outpacing the benchmark by 1.34%

### **AUDITORS**

M/s. A.F. Ferguson & Co. (Chartered Accountants), have been appointed as auditors for the year ending June 30, 2022 for ABL Islamic Stock Fund (ABL-ISF).

### MANAGEMENT QUALITY RATING

On December 31, 2020: VIS Credit Rating Company Limited (VIS) has maintained the Management Quality Rating (MQR) of ABL Asset Management Company (ABL AMC) at 'AM2++' (AM-Two-Double Plus). Outlook on the assigned rating has been revised from 'Stable' to 'Positive'.

#### **EQUITY MARKET OUTLOOK**

Despite of improving the economic numbers and business confidence uncertainty created by the commodities super cycle resulted in higher inflation and current account deficit. As a result, the Pak rupee depreciated rapidly and the policy rate increased by 25 bps points in the recent monetary policy statement (MPS). However, Remittances showed a stable growth throughout the given period to support the external account.

Official staff-level discussion with the IMF team is scheduled in the next month, whereby some headway will be made on the resumption of the EFF program. Some disagreements were observed previously regarding electricity tariff hike, circular debt management and elimination of tax exemptions given by the government; however, a midway solution is expected to come on the conclusion of this meeting. Currently market is trading at a significant discount compared to its regional peers but pressure on external account and expected hike in upcoming monetary policy will keep the index range bound in months to come.

## **ACKNOWLEDGEMENT**

We thank our valued investors who have placed their confidence in us. The Board is also thankful to Securities & Exchange Commission of Pakistan, the Trustee (Digital Custodian Company Limited Formerly MCB Financial Services Limited) and the management of Pakistan Stock Exchange Limited for their continued guidance and support. The Finance Act, 2014 introduced amendments to the Income Tax Ordinance 2001. As a result of these amendments, companies are liable to withhold bonus shares at the rate of 5 percent. In accordance with the requirement of the Ordinance these shares shall only be released if the fund deposit tax equivalent to 5% of the value of the bonus shares issued. The value of tax is computed on the basis of day-end price on the first day of book closure.

In this regard, a constitution petition has been filed by Collective Investment Schemes (CISs) through their Trustees in the High Court of Sindh, challenging the applicability of withholding tax provisions on bonus shares received by CISs, which is pending adjudication. The petition is based on the fact that because CISs are exempt from deduction of income tax under Clause 99 Part I to the Second Schedule of the Income Tax Ordinance 2001, the withholding tax provision should not be applicable on bonus shares received by CISs. A stay order has been granted by the High Court of Sindh in favour of CISs.

During the vear ended June 30, 2018, the Supreme Court of Pakistan passed a judgement on June 27, 2018 whereby the suits which are already pending or shall be filed in future must only be continued / entertained on the condition that a minimum of 50 percent of the tax calculated by the tax authorities is deposited with the authorities. Accordingly, the CISs were required to pay minimum 50% of the tax calculated by the tax authorities for the case to remain continued. The CISs failed to deposit the minimum 50% of the tax liability and accordingly the stay got vacated automatically during the year ended June 30, 2019. Subsequent to the year ended June 30, 2019, the CISs have filed a fresh constitutional petition via CP 4653 dated July 11, 2019. In this regard, on July 15, 2019, the SHC has issued notices to the relevant parties and has ordered that no third party interest on bonus shares issued to the Funds in lieu of their investments be created in the meantime. The matter is still pending adjudication and the Funds have included these shares in their portfolio, as the management is confident that the decision of the constitutional petition will be in favour of the CISs.

Further, the Finance Act, 2018 effective from July 1, 2018 has omitted Section 236M of Income Tax Ordinance, 2001 requiring every company quoted on Pakistan Stock Exchange Limited issuing bonus shares to the shareholders, to withhold five percent of the bonus shares to be issued. Therefore, bonus shares issued to the Fund on or after July 1, 2018 were not withheld by the investee companies.

As at September 30, 2021, the following bonus shares of the Fund were withheld by certain companies at the time of bonus declaration. The Fund has included these shares in its portfolio, as the management believes that the decision of the constitutional petition will be in favour of the CISs.

- 7.1 As per NBFC Regulations, 2008, the Management Company is entitled to a remuneration equal to an amount not exceeding 2% of the average annual net assets in case of islamic equity schemes. Keeping in view the maximum allowable threshold, the Management Company has charged its remuneration at the rate of 2% per annum of the average net assets of the Fund during the year ended June 30, 2021. The remuneration is payable to the Management Company monthly in arrears.
- 7.2 The Government of Punjab has levied Punjab Sales Tax at the rate of 16% (June 30, 2021: 16%) on the remuneration of the Management Company through the Punjab Sales Tax on Services Act, 2012 (as amended from time to time).
- 7.3 The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 01, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 26.584 million is being retained in these financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provision for FED not been made, the Net Asset Value of the Fund as at September 30, 2021 would have been higher by Re 0.14 (June 30, 2021: Re 0.15) per unit.

7.4 In accordance with Regulation 60 of the NBFC Regulations, the Management Company has charged expenses at the rate of 0.1% of the average net assets of the Fund being lower than actual expenses chargeable to the Fund for the period.

Until June 19, 2019 there was a maximum cap of 0.1% of the average annual net assets of the scheme or actual whichever is less, for allocation of such expense to the Fund. However, the SECP vide its SRO (I) / 639 dated June 20, 2019 removed the maximum cap of 0.1%.

The Management Company based on its own discretion has currently fixed a maximum capping of 0.1% of the average annual net assets of the scheme for allocation of such expenses to the Fund.

7.5 The SECP has allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except fund of funds) initially for a period of three years (i.e. from January 1, 2017 till December 31, 2019). The maximum cap of selling and marketing expense was 0.4% per annum of the net assets of the Fund or actual expenses whichever is lower.

During year ended June 30, 2020, the SECP through its circular 11 dated July 5, 2019 has revised the conditions for charging of selling and marketing expenses to a Fund. As per the revised guidelines, the maximum cap of 0.4% per annum has been lifted and now the asset management company is required to set a maximum limit for charging of such expense to the Fund and the same should be approved by the Board of Directors of the Management Company

as part of annual plan. Furthermore, the time limit of three years has also been removed in the revised conditions.

Accordingly, the Management Company based on its own discretion has currently determined a capping of 1.40% during current period which is applied to average annual net assets of the Fund. This has also been approved by the Board of Directors of the Management Company.

8.1 During period, SRB through its letter dated August 12, 2021 has intimated MUFAP that the mutual funds do not qualify as Financial Institutions / Industrial Establishments and are therefore, not liable to pay the SWWF contributions. This development was discussed at MUFAP level and has also been taken up with the SECP and all the Asset Management Companies, in consultation with SECP, have reversed the cumulative provision for SWWF recognised in the financial statements of the Funds, for the period from May 21, 2015 to June 30, 2017, on August 13, 2021. The SECP has also given its concurrence for prospective reversal of provision for SWWF.

During the month of August 2021, provisioning against Sindh Workers' Welfare Fund amounting to Rs.24.604 million has been reversed. This reversal of provision has contributed towards an unusual increase in NAV of Fund by 0.79%. This is one-off event and is not likely to be repeated in the future.

# 8.2 According to the instructions of the Shariah Advisor, income earned by the Fund from prohibited sources should be donated to charitable purposes.

During the period ended September 30, 2021, Non-shariah compliant income amounting to Rs Rs 9.843 Million (June 30, 2021: Rs 8.050 Million) was determined by the management. This will be distributed as charity after the approval of the Shariah Advisor. The dividend income is recorded net of amount given as charity.

### 9 CONTINGENCIES AND COMMITMENTS

There are no contingencies and commitments outstanding as at September 30, 2021 and June 30, 2021.

### 10 TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unitholders. Since the management intends to distribute the required minimum percentage of income earned by the Fund for the year ending June 30, 2021 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements during the period.

## 11 EARNINGS PER UNIT

#### FAIR VALUE OF FINANCIAL INSTRUMENTS 14

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are traded in an open market are revalued at the market prices prevailing on the reporting date. Investments of the Fund in equity securities are revalued on the basis of closing quoted market prices available at the stock exchange.

#### 14.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using quoted price (unadjusted) in an active market for identical assets or liabilities:

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurement using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at September 30, 2021 and June 30, 2021, the Fund held the following financial instruments measured at fair value:
