REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2022

Dear Investor,

On behalf of the Board of Directors, we are pleased to present **MCB Pakistan Sovereign Fund** accounts review for the year ended June 30, 2022.

Economy and Money Market Review

Fiscal year 2022 (FY22) remained a difficult year for Pakistan as the country faced multiple challenges on macroeconomic front along with political uncertainty. While the economy weathered the Covid challenge relatively well, reopening of global economies and supply chain disruptions stimulated a spike in global commodity prices increasing pressure on trade deficit. Russia- Ukraine war pushed the commodity prices even further, exacerbating the already widening trade deficit with highest ever import bill during the year. A spike in energy and food prices coupled with a weak exchange rate led to a sharp pickup in domestic inflation. Commodity price led Inflationary trends were also visible in global economies particularly US and Eurozone and consequent tightening has raised fears of a broader recession.

Pakistan's economy was already coping with macroeconomic challenges and the political upheaval further aggravated the situation. The elevated political noise led to populist measures like fuel and power subsidies undermining the much needed fiscal adjustments. In addition, an unscheduled change of country's leadership and ensuring political uncertainty led to delay in policy actions and adjustments needed for IMF program.

The country posted a current account deficit of USD 15.2bn in 11MFY22 compared to a deficit of USD 1.1bn in the corresponding period last year. This was the largest CAD since FY18, when country witnessed a deficit of USD 15.9bn in first eleven months of the fiscal year. The deterioration came in primarily on the back of higher imports which grew by 36.5% in 11MFY22 compared to export growth of 26.7%. Trade Deficit increased by 45.5% to USD 36.1bn compared to USD 24.8bn in the same period last year. The unprecedented increase in imports mainly came from historic high prices of our commodity basket including crude oil, palm oil, coal coupled with one time vaccines imports.

Foreign exchange reserves of central bank declined by USD 7.4bn in FY22 on account of higher current account deficit and debt repayments. In addition, delay in IMF program led to slowdown in other foreign inflows which dragged the reserves to USD 9.8bn, implying an import cover of 1.7 months. These outflows coupled with widening current account deficit led PKR to weaken by 23.0% against USD since start of the fiscal year.

Inflation remained highly concerning as rising commodities continued to create challenges for policy makers. Headline inflation represented by CPI averaged 12.1% in FY22 compared to 8.9% in FY21. The rise mainly came from higher food prices, elevated energy costs (both electricity and fuel) and second round impact of PKR depreciation, which kept the prices of imported commodities high. Core inflation as measured by Non Food Non Energy also depicted an upwards trend with an increase of 12.3% in June 2022 compared to 6.9% in June 2021. Expectations of above 20% in the next fiscal year along with weak fiscal framework, led SBP to increase policy rate by a cumulative 625bps to 13.75% in the fiscal year to counter inflationary pressures and slowdown the overall aggregate demand. It further increased policy rate by 125 basis points to 15% in July-22.

On the fiscal side, FBR tax collection increased by 29.1% in FY22 to PKR 6,125bn compared to PKR 4,744bn during the same period last year. This exceeded the target by 25bn. The improved tax collection was primarily on the back of higher customs duty and sales tax collected due to higher imports.

Secondary markets yields have increased significantly in FY22 as SBP started the monetary tightening cycle. The depreciation in the rupee along with persistently high energy prices will add pressure to inflation and we expect average inflation numbers to remain elevated in medium term.

REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2022

Bond yields for tenors of 3 years, 5 years and 10 years witnessed a rise of 4.5%, 3.4% and 3.0%, respectively during the period.

FUND PERFORMANCE

During the period under review, the fund generated an annualized return of 9.79% as against its benchmark return of 11.26%. At period-end, the fund decreased its exposure in cash to 56.4% from 57.2%.

The Net Assets of the Fund as at June 30, 2022 stood at Rs. 610 million as compared to Rs. 738 million as at June 30, 2021 registering a decline of 17.34%.

The Net Asset Value (NAV) per unit as at June 30, 2022 was Rs. 53.46 as compared to opening NAV of Rs. 53.32 per unit as at June 30, 2021 registering an increase of Rs. 0.14 per unit.

Economy & Market – Future Outlook

The government has taken several harsh steps including increasing petroleum, electricity and gas prices to meet the IMF prior conditions. It has also increased interest rate to 15% and made changes in the FY23 Budget to targets primary fiscal surplus in FY23. These steps have led to a successful staff level agreement with IMF and should pave the way for the disbursement of USD 1.2bn from the fund under the combined 7th and 8th review of the Extended Fund Facility (EFF). The government was also able to convince IMF to increase funding by USD 1 billion to USD 7 billion and extend the duration till June 2023 compared to September 2022 earlier. IMF program shall provide stability to the external account and provide a window to policy makers requiring continued fiscal discipline and measured trade account policies in the short term while focus on the economic policies that can support sustainable growth in the long term.

Pakistan GDP growth clocked at 6.0% in FY22 with Agricultural, Industrial and Services sector grew by 4.4%, 7.2% and 6.2% respectively. However, we expect GDP growth to sharply decline to a range of 2.5-3.0% in FY23. The monetary tightening and rupee devaluation would lead to slowdown in economy and would impact industrial growth. The government is also focusing on controlling imports to curtail current account deficit which would affect services sector growth.

The international commodities have eased from their recent high but energy prices remain stubbornly high. We expect the government to keep a tight leash on imports and discourage unnecessary dollar outflows. The imports are expected to decrease by 14% YoY to USD 63bn as we will witness volumetric compression in several segments of the economy. Thus we expect the current account deficit to ease to USD 7.6bn (2.0% of GDP) in FY23 compared to expected current account deficit of USD 16.5bn (4.2% of GDP) in FY22.

Successful resumption of the IMF program will be a key prerequisite to keep the financial account in positive zone as we await funding commitment from friendly countries. Sustaining remittances along with bilateral and multilateral flows would also be crucial in managing our external position. USD/PKR is trading in a range of 225-230 due to ensuing political uncertainty and delay in IMF tranche. We expect Rupee to recover post disbursement of IMF tranche along with receipts from friendly countries. We expect however USD/PKR to depreciate by the close of fiscal year to 235.

CPI based inflation for June 2022 clocked at 21.3% on the back of increase in petroleum and electricity prices as the relief measures announced by the previous government were reversed. We will witness the second round impact of currency devaluation and petroleum price increase which will keep inflation elevated for the remainder of the year. We expect FY23 average inflation to clock at 21.8%. SBP increased the policy rate to 15% to slowdown aggregate demand and ward off inflationary pressures. Increasing interest rate to unnecessarily higher level impacts fiscal position and does little to tame cost push inflation. We thus SBP to balance monetary tightening and fiscal costs by maintaining negative interest rates

REPORT OF THE DIRECTOR OF THE MANAGEMENT COMPANY FOR THE YEAR ENDED JUNE 30, 2022

From capital market perspective, particularly equities, the correction in stock prices has further opened up valuation. The market has priced in the interest rate increase and currency depreciation. Market cap to GDP ratio has declined to 10.1%, a discount of 52% from its historical average. Similarly, risk premiums are close to 8.3%, compared to historical average of 2.2% signifying deep discount at which market is trading. We believe a micro view of sectors and stock will remain important and investment selection should focus on companies which trade at a deep discount to their intrinsic value. The market is currently trading at PER of 4.7x, while offering a dividend yield of 9.5%.

For debt holders, we expect Money Market Funds to continue to seamlessly mirror policy rates throughout the year. On the other hand, government bonds yields may continue to remain at elevated levels given inflationary pressure. We remain cautious at the current levels of bond yields and would continue to monitor the data points to capitalize on opportunities.

Mutual Fund Industry Review

The Net Assets of the open end mutual fund industry increased by about 19.2% during FY22 to PKR 1,214bn. Total money market funds grew by about 43.8% since June 2021. Within the money market sphere, the conventional funds dominated with a growth of about 56.4% to PKR 446bn while Islamic funds increased by 24.1% to PKR 225bn. In addition, the total fixed Income funds increased by about 21.9% since June 2021, as the conventional income funds rose by 27.9% to PKR 161bn. Equity and related funds declined by 23.1% as market witnessed a decline in FY22 eroding AUMS as concern over macroeconomic and geopolitical factors kept investors at bay.

In terms of the segment share, Money Market funds were the leader with a share of around 55.3%, followed by Income funds with a share of 24.6% and Equity and Equity related funds having a share of 18.9% as at the end of FY22.

Mutual Fund Industry Outlook

Increase in interest rates would encourage higher flows in the money market funds. Recent changes in Finance Act 2023 also incentivize investors to save and invest through Mutual funds. Prevailing yields of near 15% in fixed income funds are ideal for investors with a short term horizon and low risk profile. However recent correction in stock prices has opened up valuations and long term investors would look to add equity exposure at these highly attractive levels. Our operations remained seamless and given our competitive edge due to aggressive investment in digital access and online customer experience, the environment provides an opportunity with growing number of investors available online.

فیصد اور 6.2 فیصد ترقی کی۔ تاہم ہم سمجھتے ہیں کہ مالی سال 2023ء میں جی ڈی پی کی ترقی میں 2.5 سے 3.0 فیصد تک کی بڑی کمی آئے گی۔ مالیاتی سختی اور روپے کی قدر میں کمی کے نتیجے میں معیشت میں سست رفتاری آئے گی اور اس کا اثر صنعتی ترقی پر پڑے گا۔ مزید برآں حکومت درآمدات میں کمی پر توجہ مرکوز کر رہی ہے تاکہ کرنٹ اکاؤنٹ خسارہ کم کیا جاسکے جس سے خدمات کے شعبے کی ترقی متاثر ہوگی۔

بین الاقوامی اشیاء اپنی حالیہ بلندی سے نیچے آگئی ہیں لیکن توانائی کی قیمتیں بلندی پر ڈٹی ہوئی ہیں۔ ہم امید کرتے ہیں کہ حکومت درآمدات پر مضبوط لگام دے کر رکھے گی اور ڈالر کے غیر ضروری خارجی بہاؤ کی حوصلہ شکنی کرے گی۔ درآمدات متوقع طور پر 14 فیصد YoY کم ہو کر 63 بلین ڈالر ہو جائیں گی کیونکہ ہم دیکھیں گے کہ معیشت کے متعدد شعبوں کے حجم سکڑ جائیں گے۔ چنانچہ ہمیں امید ہے کہ مالی سال 2023ء میں کرنٹ اکاؤنٹ خسارہ 7.6 بلین ڈالر (جی ڈی پی کا 2.0 فیصد) کم ہوگا جبکہ اس کے بالقابل مالی سال 2022ء میں متوقع کرنٹ اکاؤنٹ خسارہ 16.5 بلین ڈالر (جی ڈی پی کا 4.2 فیصد) تھا۔

آئی ایم ایف پروگرام کی کامیابی مالیاتی اکاؤنٹ کو مثبت حدود میں رکھنے کے لیے کلیدی شرط ہوگی، اور ہم دوست ممالک سے فنڈنگ کے مختصر بھی ہیں۔ باقاعدگی کے ساتھ ہونے والی ترسیلات اور اس کے ساتھ ساتھ دوطرفہ اور کثیرالجہتی بہاؤ بھی ہماری خارجی صورتحال کو سنبھالنے میں اہم کردار ادا کریں گے۔ ڈالر/روپے کی تجارت 225-230 کی حدود میں ہو رہی ہے جس کی وجہ متوقع سیاسی غیر یقینی حالات اور آئی ایم ایف کی قسط میں تاخیر ہے۔ ہم سمجھتے ہیں کہ آئی ایم ایف کی قسط کے اجراء اور دوست ممالک سے حصول کے بعد روپیہ کی قدر بحال ہوگی۔ تاہم مالی سال کے اختتام تک روپے کی ڈالر کے مقابلے میں قدر میں متوقع طور پر کمی آئے گی اور یہ 235 تک پہنچ سکتا ہے۔

سی پی آئی پر مبنی مہنگائی جون 2022ء کے لیے 21.3 فیصد کی سطح پر تھی جس کی وجہ پٹرول اور بجلی کی قیمتوں میں اضافہ تھا کیونکہ سابقہ حکومت کے اعلان کردہ امدادی اقدامات روک دیے گئے۔ ہم روپے کی قدر میں کمی کے اثر کا دوسرا دور دیکھیں گے اور پٹرول کی قیمت میں اضافہ بھی ہوگا جس کے باعث سال کے بقیہ حصے میں مہنگائی بلند رہے گی۔ مالی سال 2023ء میں مہنگائی کا اوسط 21.8 فیصد متوقع ہے۔ ایس پی پی نے پالیسی شرح کو بڑھا کر 15 فیصد کر دیا تاکہ مجموعی مانگ کی رفتار اور مہنگائی کے دباؤ میں کمی لائی جاسکے۔ سود کی شرحوں میں غیر ضروری بلند سطح تک اضافے سے مالیاتی صورتحال متاثر ہوتی ہے اور cost-push مہنگائی کو قابو کرنے میں کوئی قابل ذکر مدد نہیں ملتی۔ چنانچہ ہم امید کرتے ہیں کہ ایس پی پی منفی شروع سود برقرار رکھنے کے ذریعے مالیاتی سختی اور لاگتوں کو متوازن کرے گا۔

کمپنیل مارکیٹ، خصوصاً ایکویٹیز، کے نقطہ نظر سے اسٹاک کی قیمتوں میں تصحیح سے تعین قدر مزید کھل گئی ہے۔ مارکیٹ نے شرح سود میں اضافے اور روپے کی قدر میں کمی کو مد نظر رکھا ہے۔ مارکیٹ cap کا جی ڈی پی کے ساتھ تناسب کم ہو کر 10.1 فیصد ہو گیا ہے جو اس کے تاریخی اوسط سے 52 فیصد کی ہے۔ اسی طرح، خطرات کے پرمینم 8.3 فیصد کے قریب ہیں، اور ان کے قدیم اوسط 2.2 فیصد سے موازنہ کرنے پر اس بھرپور کمی کا پتہ چلتا ہے جس پر مارکیٹ میں تجارت ہو رہی ہے۔ ہم سمجھتے ہیں کہ اسٹاک اور شعبہ جات کا مجموعی تناظر اہم رہے گا اور سرمایہ کاری کے انتخاب کے لیے ان کمپنیز پر توجہ مرکوز کی جانی چاہیے جو اپنی اندرونی قدر میں بھرپور کمی پر تجارت کرتی ہیں۔ موجودہ طور پر مارکیٹ میں 4.7x PER پر تجارت ہو رہی ہے جبکہ ڈیویڈنڈ کی سطح 9.5 فیصد پر ہے۔

حاصلین قرض کے لیے ہم توقع کرتے ہیں کہ بازار زر کے فنڈ سال بھر بلار کاوت پالیسی شرحوں کی عکاسی جاری رکھیں گے۔ دوسری جانب حکومتی بانڈز متوقع پیداواری ٹم میں شامل ہو چکے ہیں۔ ہم بانڈز کے منافع جات کی موجودہ سطحوں پر محتاط ہیں اور ڈیٹا پوائنٹس کی نگرانی جاری رکھیں گے تاکہ مواقع سے فائدہ اٹھایا جاسکے۔

ڈائریکٹر رپورٹ

نظر آیا اور جون 2022ء میں 12.3 فیصد اضافہ ہوا جبکہ جون 2021ء میں 6.9 فیصد تھا۔ اگلے مالی سال میں 20 فیصد سے زائد کی توقعات کے ساتھ ساتھ کمزور مالیاتی ڈھانچے کے نتیجے میں SBP نے پالیسی شرح میں زیر چارہ مالی سال میں مجموعی طور پر 625 بیسیس پوائنٹس (bps) کا اضافہ کر کے اسے 13.75 فیصد کر دیا تاکہ مہنگائی کے دباؤ کا مقابلہ کیا جاسکے اور مجموعی طور پر سکل مانگ کی رفتار میں کمی لائی جاسکے۔ جولائی 2022ء میں SBP نے پالیسی شرح میں مزید 125 bps کا اضافہ کر کے اسے 15 فیصد کر دیا۔

مالیاتی جہت میں ایف بی آر کی ٹیکس وصولی مالی سال 2022ء میں 29.1 فیصد بڑھ کر 6,125 بلین روپے ہوئی جبکہ گزشتہ سال مماثل مدت کے دوران 4,744 بلین روپے تھی۔ یہ ہدف سے 25 بلین زائد تھا۔ ٹیکس وصولی میں بہتری کی بنیادی وجہ درآمدات میں اضافے کی بدولت کسٹمز ڈیوٹی میں اضافہ اور زیادہ سیلز ٹیکس کی وصولی ہے۔

دوسری بات یہ کہ بازاروں کے منافع میں مالی سال 2022ء میں قابل ذکر اضافہ ہوا ہے کیونکہ SBP نے مالیاتی سختی کا پتھر شروع کر دیا تھا۔ روپے کی قدر میں کمی کے ساتھ ساتھ توانائی کی مسلسل بلند قیمتوں سے مہنگائی پر دباؤ میں اضافہ ہوگا، اور ہماری توقع کے مطابق مہنگائی کا اوسط درمیانی مدت میں بلند رہے گا۔ تین سالہ، پانچ سالہ اور دس سالہ بانڈز کے منافعوں میں دوران مدت بالترتیب 4.5 فیصد، 3.4 فیصد اور 3.0 فیصد اضافہ ہوا۔

فنڈ کی کارکردگی

زیر چارہ مدت کے دوران فنڈ کا ایک سال پر محیط منافع 9.79 فیصد تھا، جبکہ مقررہ معیار کا منافع 11.26 فیصد تھا۔ اختتام مدت پر فنڈ نے نقد کی شمولیت میں 57.2 فیصد سے 56.4 فیصد کر دی۔

30 جون 2022ء کو فنڈ کے net اثاثہ جات 610 ملین روپے تھے جو 30 جون 2021ء کی سطح 738 ملین روپے کے مقابلے میں 17.34 فیصد کمی ہے۔

30 جون 2022ء کو net اثاثہ جاتی قدر (این اے وی) فی یونٹ 53.46 روپے تھی جو 30 جون 2022ء کو ابتدائی این اے وی 53.32 روپے فی یونٹ کے مقابلے میں 0.14 روپے فی یونٹ اضافہ ہے۔

معیشت اور مارکیٹ - مستقبل کا منظر نامہ

حکومت نے متعدد سخت فیصلے کیے ہیں بشمول پٹرول، بجلی اور گیس کی قیمتوں میں اضافہ، تاکہ آئی ایم ایف کی شرائط پوری کی جاسکیں۔ علاوہ ازیں، سود کی شرح کو بڑھا کر 15 فیصد کیا ہے اور مالی سال 2023ء کے بجٹ میں تبدیلیاں کی ہیں تاکہ مالی سال 2023ء میں بنیادی مالیاتی surplus کو ہدف بنایا جاسکے۔ ان اقدامات کے نتیجے میں آئی ایم ایف کے ساتھ اسٹاف سطح کا ایک کامیاب معاہدہ ہو گیا ہے جس کے بعد ایکسٹینڈڈ فنڈ فیسلٹی (ای ایف ایف) کے مشن کے ساتویں اور آٹھویں جائزے کے تحت فنڈ سے 1.2 بلین ڈالر کے اجراء کی راہیں ہموار ہوں گی۔ مزید برآں، حکومت آئی ایم ایف کو اس بات کے لیے قائل کرنے میں کامیاب ہوئی ہے کہ فنڈنگ کو 1 بلین ڈالر سے 7 بلین ڈالر کیا جائے اور ستمبر 2022ء کی بجائے جون 2023ء تک مدت کی توسیع کی جائے۔ آئی ایم ایف پروگرام سے خارجی اکاؤنٹ مستحکم ہوگا اور پالیسی سازوں کو دور کار مختصر مدت میں بلا رکاوٹ مالیاتی نظم و ضبط اور پینالٹس شدہ تجارتی اکاؤنٹ پالیسیوں اور طویل مدت میں قابل بقاء ترقی کے لیے معاشی پالیسیوں پر ارتکاز تو جہ کے لیے راہ فراہم ہوگی۔

پاکستان کی مجموعی ملکی پیداوار (جی ڈی پی) مالی سال 2022ء میں 6.0 فیصد تھی۔ زرعی، صنعتی اور خدمات کے شعبوں نے بالترتیب 4.4 فیصد، 7.2

یورڈ آف ڈائریکٹرز کی طرف سے ایم سی بی پاکستان Sovereign فنڈ کے گوشواروں کا جائزہ برائے سال مختصہ 30 جون 2022ء پیش خدمت ہے۔

معیشت اور بازار زر کا جائزہ

مالی سال 2022ء پاکستان کے لیے مشکل سال رہا کیونکہ ملک کو مجموعی معاشیاتی جہت میں متعدد چیلنج درپیش رہے اور ساتھ ساتھ سیاسی صورتحال بھی غیر یقینی رہی۔ اگرچہ معیشت نے کووڈ چیلنج کا بہتر انداز میں مقابلہ کیا لیکن عالمی معیشتوں کی بحالی اور زنجیر رسد میں رکاوٹوں کے باعث عالمی سطح پر اشیاء کی قیمتوں میں اضافہ ہوا جس سے تجارتی خسارے پر دباؤ میں بھی اضافہ ہوا۔ روس یوکرین جنگ کے نتیجے میں اشیاء کی قیمتیں مزید بڑھ گئیں جس کے باعث دوران سال اب تک کے سب سے بڑے درآمداتی بل نے پہلے سے پھیلنے والے تجارتی خسارے کو مزید متاثر کیا۔ توانائی اور اشیائے خورد و نوش کی قیمتوں میں اضافے کے ساتھ ساتھ زرمبادلہ کی کمزور شرح کے نتیجے میں مقامی سطح پر مہنگائی میں تیزی سے اضافہ ہوا۔ اشیاء کی قیمتوں سے ہونے والی مہنگائی کے رجحانات بھی عالمی معیشتوں میں واضح نظر آئے، خصوصاً امریکا اور یورپی خطے میں، اور اس کے نتیجے میں ہونے والی مالیاتی سختی کے باعث وسیع تر کساد بازاری کا خوف پیدا ہو گیا ہے۔

پاکستان کی معیشت پہلے ہی مجموعی معاشیاتی چیلنجوں سے نہر آزا ماہور رہی تھی اور سیاسی افراتفری نے حالات میں مزید بگاڑ پیدا کر دیا۔ بڑھتی ہوئی سیاسی بائبل کے نتیجے میں عوامی سطح کے اقدامات کیے گئے، مثلاً ایندھن اور بجلی کی سبسڈیز جس سے مطلوبہ مالیاتی ترامیم کرنا مشکل ہو گیا۔ علاوہ ازیں، ملکی قیادت میں غیر متوقع تبدیلی اور اس سے پیدا ہونے والی سیاسی غیر یقینی صورتحال کے نتیجے میں آئی ایم ایف پروگرام کے لیے درکار پالیسی اقدامات اور ترامیم میں تاخیر ہوئی۔

مالی سال 2022ء کے ابتدائی گیارہ ماہ میں ملک کا CAD یعنی کرنٹ اکاؤنٹ خسارہ 15.2 بلین ڈالر تھا جبکہ گزشتہ سال مائش مدت میں 1.1 بلین ڈالر تھا۔ یہ مالی سال 2018ء کے ابتدائی گیارہ ماہ میں ہونے والے 15.9 CAD بلین ڈالر کے بعد اب تک کا سب سے بڑا خسارہ تھا۔ اس فنڈ کی بنیادی وجہ مالی سال 2022ء کے ابتدائی گیارہ ماہ میں درآمدات میں 36.5 فیصد اضافہ تھا جبکہ اس کے بالمقابل برآمدات میں اضافہ 26.7 فیصد تھا۔ تجارتی خسارہ 45.5 فیصد بڑھ کر 36.1 بلین ڈالر ہو گیا جبکہ گزشتہ سال مائش مدت میں 24.8 بلین ڈالر تھا۔ درآمدات میں اس بے قابو اضافے کی بنیادی وجہ ہماری اشیاء کے دائرہ کار بشمول خام مل، پامیل اور کونسل کی تاریخی بلند قیمتیں اور اس کے ساتھ ساتھ یکبارہ یکسین درآمدات تھی۔

مالی سال 2022ء میں مرکزی بینک کے زرمبادلہ کے ذخائر میں 7.4 بلین ڈالر کمی ہوئی جس کی وجہ کرنٹ اکاؤنٹ خسارہ اور قرضوں کی ادائیگیوں میں اضافہ ہے۔ علاوہ ازیں، آئی ایم ایف پروگرام میں تاخیر کے نتیجے میں دیگر غیر ملکی آمدات سے رفتاری کاٹکار ہو گئیں اور اس کے باعث زرمبادلہ کے ذخائر کم ہو کر 9.8 بلین ڈالر ہو گئے جس کا مطلب 1.7 ماہ کا درآمداتی cover بنتا ہے۔ اس اخراجی بہاؤ اور اس کے ساتھ ساتھ پھیلنے ہوئے کرنٹ اکاؤنٹ خسارے کے نتیجے میں مالی سال کے آغاز سے لے کر اب تک روپیہ ڈالر کے مقابلے میں 23.0 فیصد کمزور ہو گیا۔

مہنگائی بے حد تشویشناک رہی کیونکہ اشیاء کی بڑھتی ہوئی قیمتوں نے پالیسی سازوں کے لیے متعدد چیلنج پیدا کرنے کا سلسلہ جاری رکھا۔ ہیڈ لائن مہنگائی، جس کی ترجمانی CPI سے ہوتی ہے، کا اوسط مالی سال 2022ء میں 12.1 فیصد تھا جبکہ مالی سال 2021ء میں 8.9 فیصد تھا۔ اس اضافے کی بنیادی وجہ اشیائے خورد و نوش کی قیمتوں میں اضافہ، توانائی (بجلی اور ایندھن، دونوں) کی لاگتوں میں اضافہ، اور روپے کی قدر میں کمی کا دوسرا دور تھا جس کے باعث درآمد شدہ اشیاء کی قیمتیں بلند رہیں۔ بنیادی مہنگائی، جس کی پیمائش اشیائے خورد و نوش اور توانائی کے علاوہ سے ہوتی ہے، میں بھی اضافے کا رجحان

INDEPENDENT AUDITOR'S REPORT

To The Unit Holders of MCB Pakistan Sovereign Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **MCB Pakistan Sovereign Fund** (the Fund), which comprise the statement of assets and liabilities as at June 30, 2022, and the income statement, statement of comprehensive income, statement of movement in unit holders' fund and statement of cash flows for the year then ended and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2022, and of its financial performance and its cash flows for the year then ended in accordance with accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund and Management Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted by the Institute of Chartered Accountants of Pakistan together with the ethical requirements that are relevant to our audit of the financial statements in Pakistan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Information Other than the Financial Statements and Auditor's Report Thereon

Management Company is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management Company and Those Charged with Governance for the Financial Statements

Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, and for such internal control as the Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those Charged with Governance of the Management Company are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Company.
- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Those Charged with Governance of the Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Those Charged with Governance of the Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Those Charged with Governance of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the financial statements have been prepared in accordance with the relevant provisions of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Hena Sadiq.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

- IFRS 1 – First Time Adoption of International Financial Reporting Standards
- IFRS 17 – Insurance Contracts

2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, income and expenses. It also requires the management to exercise judgment in the application of its accounting policies. The estimates, judgments and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. These estimates and underlying assumptions are reviewed on an ongoing basis.

The areas involving a degree of judgment or complexity, or areas where estimates and assumptions are significant to the financial statements are as follows:

- Classification and measurement of financial assets (notes 3.1.1.1 and 5)
- Impairment of financial assets (note 3.1.1.3)
- Taxation (notes 3.4 and 14)
- Classification and measurement of financial liabilities (notes 3.1.2.1)

The revisions to accounting estimates are recognised in the year in which the estimate is revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

2.5 Basis of measurement

These financial statements have been prepared under the historical cost convention except for investments that are measured at fair value.

2.6 Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the Fund operates. These financial statements are presented in Pakistani Rupees which is the Fund's functional and presentation currency. Amounts presented in the financial statements have been rounded off to the nearest thousand rupees, unless otherwise stated.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

3.1 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial assets and financial liabilities are recognised in the Fund's statement of assets and liabilities when the Fund becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the income statement.

3.1.1 Financial Assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

3.1.1.1 Classification and measurement of financial assets

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the entity's business model for managing them.

All recognised financial assets are measured subsequently in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. For purposes of subsequent measurement, financial assets are classified in following categories:

Financial assets at amortised cost (debt instruments)

Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method and are subject to impairment. Gains and losses are recognised in the income statement when the asset is derecognised, modified or impaired.

Financial assets at fair value through other comprehensive income (debt instruments)

For debt instruments at fair value through other comprehensive income (FVOCI), interest income, foreign exchange revaluation and impairment losses or reversals are recognised in the income statement and computed in the same manner as for financial assets measured at amortised cost. The remaining fair value changes are recognised in OCI. Upon derecognition, the cumulative fair value change recognised in OCI is reclassified to the income statement.

Financial assets at fair value through profit or loss (debt instruments)

Debt instruments that do not meet the amortised cost criteria or the FVOCI criteria are classified as at fair value through profit or loss (FVTPL). In addition, debt instruments that meet either the amortised cost criteria or the FVOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency (so called 'accounting mismatch') that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

3.1.1.2 Fair value measurement principles

The fair value of financial instruments is determined as follows:

Basis of valuation of government debt securities:

The government debt securities not listed on a stock exchange and traded in the interbank market are valued at the average rates quoted on a widely used electronic quotation system (PKRV / PKFRV rates) which are based on the remaining tenor of the securities.

Basis of valuation of debt securities:

The fair value of debt securities (other than government debt securities) is based on the value determined and announced by Mutual Funds association of Pakistan (MUFAP) in accordance with the criteria laid down in Circular No. 1 of 2009 and Circular No. 33 of 2012 issued by Securities and Exchange Commission of Pakistan (SECP). In the determination of the rates, MUFAP takes into account the holding pattern of these securities and categorises them as traded, thinly traded and non-traded securities. The aforementioned circular also specifies the valuation process to be followed for each category as well as the criteria for the provisioning of non-performing debt securities.

3.1.1.3 Impairment of financial assets

The Management Company assesses at each reporting date whether there is objective evidence that the Fund's financial assets or a group of financial assets are impaired. If any such indication exists, the recoverable amount of such assets is estimated. An impairment loss is recognised whenever the carrying value of an asset exceeds its recoverable amount.

The SECP/Commission has through its letter no. SCD/AMCW/RS/MUFAP/2017-148 dated November 21, 2017 has deferred the applicability of the impairment requirements of IFRS 9 for debt securities on mutual funds. Therefore, the Fund will not be subject to the impairment provisions of IFRS 9.

For financial assets other than debt securities measured at amortised cost, IFRS 9 requires recognition of impairment based on expected credit loss (ECL) model. Under IFRS 9, the Fund is required to measure loss allowance equal to an amount equal to lifetime ECL or 12 months ECL based on credit risk.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECLs, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

However, majority of the assets of the Fund exposed to credit risk pertain to counter parties which have high credit rating or where credit risk has not been increased since initial recognition. Therefore, management believes that the impact of ECL would be very minimal and hence, the same has not been accounted for in these financial statements.

3.1.1.4 Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Fund's statement of assets and liabilities) when:

- the rights to receive cash flows from the asset have expired; or
- the Fund has transferred its rights to receive cash flows from the asset and substantially all the risks and rewards of the asset;

3.1.2 Financial liabilities

3.1.2.1 Classification and measurement of financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at fair value through profit or loss.

Financial liabilities are measured at amortised cost, unless they are required to be measured at fair value through profit or loss (such as instruments held for trading or derivatives) or the Fund has opted to measure them at fair value through profit or loss.

3.1.2.2 Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the income statement.

3.1.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

The Management Company assesses at each reporting date whether there is an objective evidence that the financial assets or a group of financial assets are impaired. The carrying value of the Fund's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount.

3.2 Cash and cash equivalents

Cash and cash equivalents comprise of bank balances and short term highly liquid investments with original maturity of three months or less, which are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value.

3.3 Provisions

Provisions are recognised when the Fund has a present, legal or constructive, obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of the obligation can be made. Provisions, if any, are regularly reviewed and adjusted to reflect the current best estimate.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

3.4 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed to the unit holders as cash dividend.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

3.5 Dividend distribution and appropriations

Dividend distributions and appropriations are recorded in the period in which these are approved by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the year also includes portion of income already paid on units redeemed during the year.

Regulation 63 of the NBFC Regulations requires the Fund to distribute 90% of the net accounting income other than capital gains to the unit holders.

Distributions declared subsequent to the year end / reporting date are considered as non-adjusting events and are recognised in the financial statements of the period in which such distributions are declared and approved by the Board of Directors of the Management Company.

3.6 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the distributors during business hours on that date. The offer price represents the net asset value per unit as of the close of the business day plus the allowable sales load and any provision for duties and charges, if applicable. The sales load is payable to investment facilitators, distributors and the Management Company.

Units redeemed are recorded at the redemption price, applicable to units for which the distributors receive redemption applications during business hours of that day. The redemption price represents the net asset value per unit as of the close of the business day less any back-end load, any duties, taxes, and charges on redemption, if applicable.

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

3.7 Net asset value per unit

The Net Asset Value (NAV) per unit as disclosed in the Statement of Assets and Liabilities is calculated by dividing the net assets of the Fund by the number of units in issue at the year end.

3.8 Revenue recognition

- Gain or loss on sale of investment is accounted for in the income statement in the period in which it arises.
- Unrealised appreciation / diminution arising on revaluation of investments classified as 'at fair value through profit or loss' is included in the income statement in the period in which it arises.
- Income from investments in government securities is recognised on a time proportionate basis using effective interest rate method.
- Profit on bank balances is recognised on a time proportionate basis using bank's approved rates.
- Dividend income from equity securities is recognised when the right to receive dividend is established.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

3.9 Expenses

All expenses chargeable to the Fund including remuneration of the Management Company, Trustee fee and annual fee of the SECP are recognised in the Income Statement on an accrual basis.

3.10 Earnings per unit

Earnings per unit (EPU) has not been disclosed as in the opinion of the management, determination of weighted average units for calculating EPU is not practicable.

8.1	As per regulation 61 of the NBFC and Notified Entities Regulations, 2008, the Management Company is entitled to a remuneration equal to an amount not exceeding the maximum rate of the management fee as disclosed in the Offering Document subject to the total expense ratio limit. As per offering document, the Management Company can charge management fee up to 10% of the gross earnings of the fund, calculated on daily basis. Provided that fund is subject to a minimum fee of 0.5% of the averagedaily net asset of the scheme. The remuneration is payable to the Management Company monthly in arrears.		
	During the year, with effect from January 07, 2022, the minimum fee of 0.5% has been removed through supplement offering document dated December 31, 2021		
8.2	Sales tax on management remuneration has been charged at the rate of 13% (2021: 13%).		
8.3	In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses related to registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).		
	Till June 19, 2019 there was a maximum cap of 0.1% of the average annual net assets of the scheme or actual whichever is less, for allocation of such expense to the Fund. However, the SECP vide its SRO 639 dated June 20, 2019 removed the maximum cap of 0.1%.		
	The Management Company has allocated expenses to the Fund based on its discretion subject to not being higher than actual expense.		
8.4	The SECP has allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except fund of funds) initially for a period of three years (i.e. from January 1, 2017 till December 31, 2019). The maximum cap of selling and marketing expense was 0.4% per annum of the net assets of the Fund or actual expenses whichever is lower.		

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

In the financial year 2019-20, the SECP through its circular 11 dated July 5, 2019 has revised the conditions for charging of selling and marketing expenses to a Fund. As per the revised guidelines, the maximum cap of 0.4% per annum has been lifted and now the asset management company can charge selling and marketing expenses to the Fund based on its discretion subject to the approval of Board of Directors and not being higher than actual expenses. Furthermore, the time limit of three years has also been removed in the revised condition.

11.1 Provision for Sindh Workers' Welfare Fund (SWWF)

During the year, SRB through its letter dated August 12, 2021 has intimated MUFAP that the mutual funds do not qualify as Financial Institutions / Industrial Establishments and are therefore, not liable to pay the SWWF contributions. Accordingly all Asset Management Companies reversed the cumulative provision for SWWF, on August 13, 2021.

11.2 Federal Excise Duty and related tax payable

The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) with effect from June 13, 2013. As the asset management services rendered by the Management Company of the Fund were already subject to provincial sales tax on services levied by the Sindh Revenue Board, which is being charged to the Fund, the Management Company was of the view that further levy of FED was not justified.

On September 4, 2013, a Constitutional Petition was filed in the Sindh High Court (SHC) jointly by various asset management companies, together with their representative Collective Investment Schemes through their trustees, challenging the levy of FED.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

On July 16, 2016, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company and sales load with effect from July 1, 2016. However, the provision for FED made prior to this period has been maintained by the Fund which at June 30, 2022 aggregates to Rs. 33.198 (June 30, 2021: Rs. 33.198) million. Had the provision for FED not been recorded in the financial statements of the Fund, the net assets value of the Fund as at June 30, 2022 would have been higher by Rs. 2.91 (June 30, 2021: Rs. 2.4) per unit.

12. CONTINGENCIES AND COMMITMENTS

12.1 CONTINGENCIES

During the year, an ex-parte income tax order was passed for tax year 2015 through which a tax demand of Rs. 309,896,010 was raised by the concerned Additional Commissioner Inland Revenue (ACIR) of Federal Board of Revenue (FBR) by rejecting the Fund's claim for income tax exemption under clause (99) contained in Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Management Company on behalf of the Fund filed Appeal and Stay Application in front of Commissioner Appeals (CIRA). Stay order was duly granted by CIRA.

On November 25, 2021, the Assessment order as issued by ACIR was remanded back by Commissioner Appeals (CIRA). Since then, no notice/ order has yet been issued from FBR.

14. TAXATION

The Fund's income is exempt from income tax as per clause (99) of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income available for distribution for the year as reduced by capital gains whether realised or unrealised is distributed amongst the unit holders by way of cash dividend. Furthermore, as per regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulation, 2008, the Fund is required to distribute 90% of the net accounting income available for distribution other than capital gains to the unit holders in cash. The Fund is also exempt from the provision of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. Since the management has distributed the income available for distribution by the Fund to the unit holders in cash in the manner as explained above. Accordingly, no provision for taxation has been made in these financial statements.

15. TOTAL EXPENSE RATIO

Total Expense Ratio of the Fund is 2.09% as on June 30, 2022 (June 30, 2021: 1.64%) and this includes 0.16% (June 30, 2021: 0.26%) representing Government Levy, Sindh Worker's Welfare Fund and SECP Fee. This ratio is within the maximum limit of 2.50% (June 30, 2021: 2.50%) prescribed under the NBFC Regulation 60 (5) for a collective investment scheme categorised as an income scheme.

18. FAIR VALUE OF FINANCIAL INSTRUMENTS		
IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).		
Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. period end date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.		
The following table shows financial instruments recognised at fair value based on:		
Level 1:	quoted prices in active markets for identical assets or liabilities;	
Level 2:	those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and	
Level 3:	those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

19. FINANCIAL RISK MANAGEMENT

The Fund's objective in managing risk is the creation and protection of unit holders' value. Risk is inherent in the Fund's activities, but it is managed through monitoring and controlling activities which are primarily set up to be performed based on limits established by the Management Company, the constitutive documents of the Fund and the regulations and directives of the SECP. These limits reflect the business strategy and market environment of the Fund as well as the level of the risk that the Fund is willing to accept. The Board of Directors of the Management Company supervises the overall risk management approach within the Fund. The Fund is exposed to market risk, liquidity risk and credit risk arising from the financial instruments it holds.

19.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices.

The Management Company manages market risk by monitoring exposure on marketable securities by following the internal risk management policies and investment guidelines approved by the Board and the regulations laid down by the SECP, the NBFC regulations and the NBFC rules.

Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

19.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. At present, the Fund is not exposed to currency risk as all the transactions are carried out in Pakistan Rupees.

19.1.2 Yield / Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. As of June 30, 2022, the Fund is exposed to such risks on bank balances and investments in government securities. The Investment Committee of the Fund reviews the portfolio of the Fund on a regular basis to ensure that the risk is managed within the acceptable limits.

As of June 30, 2022 details of Fund's interest bearing financial instruments were as follows:

	Note	June 30, 2022 ----- (Rupees in '000) -----	June 30, 2021
Variable rate instruments (financial asset)			
Bank balance	4	633,349	775,093
Pakistan investment bonds (FRB)	5.1.2	387,630	191,092
		<u>1,020,979</u>	<u>966,185</u>

Market treasury bills	5.1.3	-	372,397
		<u>86,024</u>	<u>378,040</u>

a) Sensitivity analysis for variable rate instruments

Presently, the Fund holds Government securities which are variable rate instruments exposing the fund to cash flow interest rate risk. In case of 100 basis points increase/decrease in applicable rates on the last repricing date with all other variables held constant, the net income / loss for the year and net assets of the Fund would have been higher/lower by Rs 10.21 million (2021: Rs 9.66 million).

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

b) Sensitivity analysis for fixed rate instruments

As at June 30, 2022, the Fund holds Pakistan Investment Bond exposing the Fund to fair value interest rate risk. In case of 100 basis points increase / decrease in rates announced by the Financial Market Association of Pakistan (FMAP) on June 30, 2022, the net income for the year and net assets would be lower / higher by Rs. 0.86 million (June 30, 2021: Rs. 5.63 million).

Yield / interest rate sensitivity position for on-balance sheet financial instruments is based on the earlier of contractual repricing or maturity date. The composition of the Fund investment may change over time. Accordingly, the sensitivity analysis prepared as at June 30, 2022 is not necessarily indicative of the impact on the Fund's net assets of future movements in interest rates.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

19.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from profit rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. Since the Fund is not allowed to invest in equity securities, hence it is not exposed to equity price risk.

19.2 Credit risk

Credit risk represents the risk of loss if counterparties fail to perform as contracted. The Fund is exposed to counter party credit risks on bank balances and other financial assets at amortised cost. The credit risk on the fund is limited because the counterparties are financial institutions with reasonably high credit ratings. Investments in Pakistan investment bond and market treasury bills are government backed and hence considered as secured.

The Fund has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. This information is supplied by independent rating agencies, where available, and if not available, the Fund uses other publicly available financial information and its own trading records to rate its major customers. The Fund's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Credit risk from balances with banks and financial institutions is managed in accordance with the Fund's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are approved by the Board of Directors. The limits are set to minimise the concentration of risk and therefore mitigate financial loss through potential counterparty failure.

The Fund's maximum exposure to credit risk is the carrying amounts of following financial assets.

	June 30, 2022		June 30, 2021	
	Balance as per statement of assets and liabilities	Maximum exposure	Balance as per statement of assets and liabilities	Maximum exposure
----- (Rupees in '000) -----

Other receivables	1	1	-	-
	1,127,647	639,630	1,352,974	777,694

Difference in the balance as per the statement of assets and liabilities and maximum exposure is due to the fact that investments in Government securities of Rs. 473.654 million (June 30, 2021: Rs. 569.132 million) and profit receivable on government securities of Rs. 14.363 million (June 30, 2021: Rs. 6.148 million)

The analysis below summaries the credit rating quality of the Fund's financial assets with banks as at June 30, 2022.

NOTES TO AND FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2022

Above ratings are on the basis of available ratings assigned by PACRA and VIS Credit Rating Company Limited as of June 30, 2022.

Investment in fixed income securities

Investments in market treasury bills and pakistan investment bonds do not expose the Fund to credit risk as the counter party to the investment is the Government of Pakistan and management does not expect to incur any credit loss on such investment.

Concentration of credit risk

Concentration is the relative sensitivity of the Fund's performance to developments affecting a particular industry or geographical location. Concentration of risks arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions.

Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of an entity to honour its obligations to deliver cash, securities or other assets as contractually agreed.

For the vast majority of transactions the Fund mitigates this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations.

19.3 Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting its obligations arising from its financial liabilities that are settled by delivering cash or other financial assets or that such obligations will have to be settled in a manner disadvantageous to the Funds. Liquidity risk also arises because of the possibility that the Fund could be required to pay its liabilities earlier than expected. The Fund is exposed to cash redemptions of its units on a regular basis. Units are redeemable at the holder's option based on the Fund's applicable redemption price calculated in accordance with the Fund's constitutive documents and guidelines laid down by the SECP.

Units of the Fund are redeemable on demand at the holder's option, however, the Fund does not anticipate significant redemption of units.

The table below analyses the Fund's financial assets and financial liabilities into relevant maturity groupings based on the remaining period at the statement of assets and liabilities date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

24. UNIT HOLDERS' FUND RISK MANAGEMENT

The Fund's capital is represented by redeemable units. The Fund is required by the NBFC Regulations, to maintain a minimum fund size of Rs.100 million, to be maintained all the time during the life of the scheme. The units issued by the Fund provides an investor with the right to require redemption for cash at a value proportionate to the unit holder's share in the Fund's net assets at the redemption date.

The Fund's objective in managing the unit holders' fund is to ensure a stable base to maximise returns to all investors and to manage liquidity risk arising from redemption. In accordance with the risk management policies, the Fund endeavors to invest the subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemption, such liquidity being augmented by disposal of investments.
