12.1 The Finance Act. 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 1, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 3.497 million is being retained in the financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provision not been made, the net aseet value of the Fund would have been higher by Re 1.692 (2022: Rs. 1.354)

#### 13 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments as at September 30, 2022 and June 30, 2022.

#### 14 TOTAL EXPENSE RATIO

The Total Expense Ratio (TER) of the Fund as at September 30, 2022 is 4.97% (2021 is 4.76%) which includes 0.59% (2021: 0.36%) representing government levies on the Fund such as provision for Sindh Workers' Welfare Fund, sales taxes, federal excise duties, annual fee to the SECP, etc. This ratio is within the maximum limit of 4.5% prescribed under the NBFC Regulations for a collective investment scheme categorised as an asset allocation scheme.

#### 15 **TAXATION**

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management has distributed the required minimum percentage of income earned by the Fund for the period ended September 30, 2022 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

#### 16 **EARNINGS PER UNIT**

Earnings per unit (EPU) has not been disclosed as in the opinion of the management, determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

#### 18 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are traded in an open market are revalued at the market prices prevailing on the reporting

The fair value of all financial assets and financial liabilities of the Fund approximate their carrying amounts due to short term maturities of these instruments.

#### 18.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair value measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using guoted price (unadjusted) in an active market for identical assets or

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurement using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).
