### Notes to and forming part of the Condensed Interim Financial Statements

For The Quater Ended September 30, 2022 (Un-audited)

#### 1 LEGAL STATUS AND NATURE OF BUSINESS

- 1.1 Faysal Islamic Stock Fund (the Fund) is an open-ended collective investment scheme established under a Trust Deed entered into on February 25, 2019 between Faysal Asset Management Limited as the Management Company and the Central Depository Company of Pakistan Limited (CDC) as the Trustee. The investment activities and administration of the Fund are managed by the Management Company.
- 1.2 The Management Company of the Fund has been licensed by the SECP to act as an Asset Management Company under the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 through a certificate of registration issued by the Securities and Exchange Commission of Pakistan (SECP). The registered office of the Management Company is situated at 7th Floor, Faysal House, ST-02, Main Shahrah-e-Faisal, Karachi, Pakistan. The Management Company is a member of the Mutual Funds Association of Pakistan (MUFAP).
- 1.3 The Fund has been categorised as a shariah compliant equity scheme by the Board of Directors of the Management Company pursuant to the provisions contained in Circular 7 of 2009 issued by the SECP. The units of the Fund were initially offered for public subscription at a par value of Rs.100 per unit. Thereafter, the units were being offered for public subscription on a continuous basis from July 24, 2020 and are transferable and redeemable by surrendering them to the Fund.
- 1.4 The objective of the Fund is to provide long term capital growth by investing primarily in Shariah compliant listed equity securities, with prudent and professional management.
- 1.5 VIS Credit Rating Company Limited has assigned the rating of "AM2+" to the Management Company as at December 31, 2021 (2021: "AM2" dated December 31, 2020). The rating reflects the Company's experienced management team, structured investment process and sound quality of systems and processes.
- 1.6 The Trust Act, 1882 has been repealed due to promulgation of Provincial Trust Act "Sindh Trusts Act, 2020" (the Trust Act) as empowered under the Eighteenth Amendment to the Constitution of Pakistan. Various new requirements including registration under the Trust Act have been introduced. The Management Company has submitted Collective Investment Scheme Trust Deed to Registrar (acting under the Trust Act) for registration to fulfill the requirement for registration of Trust Deed under the Trust Act.

### 2 STATEMENT OF COMPLIANCE

These condensed interim financial statements have been prepared in accordance with the requirements of International Accounting Standard 34: 'Interim Financial Reporting', the Trust Deed, the NBFC Rules, Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and directives issued by SECP. In case where requirements differ, the requirements of the Trust Deed, the NBFC Rules, the NBFC Regulations or the directives issued by the SECP prevail.

In compliance with Schedule V of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the directors of the Management Company hereby declare that these condensed interim financial statements give a true and fair view of the state of the Fund's affairs as at September 30, 2022.

#### 3 BASIS OF PREPARATION

These condensed interim financial statements does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the annual financial statements of the Fund for the year ended June 30, 2022.

### 10 Faysal Funds

## Notes to and forming part of the Condensed Interim Financial Statements

For The Quater Ended September 30, 2022 (Un-audited)

The comparatives in the condensed interim statement of assets and liabilities presented in the condensed interim financial statements as at September 30, 2022 have been extracted from the annual published audited financial statements of the Fund for the year ended June 30, 2022, whereas, the comparatives to report for in the condensed interim income statement, condensed interim statement of comprehensive income, condensed interim statement of movement in unit holders' fund and condensed interim cash flow statement extracted from the condensed interim financial statements of the fund for the quarter ended September 30, 2021.

#### 4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and methods of computation adopted in the preparation of this condensed interim financial information and the significant judgements made by the management in applying the accounting policies and key sources of estimation uncertainty are the same as those applied in the preparation of the financial statements as at and for the year ended June 30, 2022.

The Fund's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended June 30, 2022.

### Notes to and forming part of the Condensed Interim Financial Statements

For The Quater Ended September 30, 2022 (Un-audited)

- As per regulation 61 of the NBFC Regulations, the Management Company is entitled to a remuneration equal to an amount not exceeding the maximum rate of management fee as disclosed in the offering document subject to the total expense ratio limit.
  - Keeping in view the maximum allowable threshold, the Management Company has charged remuneration at the rate '2.5% of average annual net assets which is payable monthly in arrears.
- 9.2 The Provincial Government of Sindh has levied Sindh sales tax at the rate of 13% on the remuneration of the Management Company through the Sindh Sales Tax on Services Act, 2011.
- 9.3 The SECP had allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except fund of funds) upto a maximum limit approved by the Board of Directors of the Management Company as part of annual plan.

Accordingly, the Management Company has charged selling and marketing expenses based on its discretion (duly authorised by the Board of Directors) while keeping in view the annual plan, overall return and the total expense ratio limit of the Fund as defined under the NBFC Regulations at the rate of '1.5% of average annual net assets from July 01, 2022 to September 30, 2022.

#### 14 TAXATION

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management has distributed the required minimum percentage of income earned by the Fund for the period from July 1, 2021 to September 30, 2021 to the unit holders in the manner as explained above, accordingly, no provision for taxation has been made in these financial

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

#### **EARNINGS PER UNIT** 15

Earnings per unit (EPU) has not been disclosed as, in the opinion of the management, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

#### 16 **TOTAL EXPENSE RATIO**

The Total Expense Ratio (TER) of the Fund for the period from July 1, 2022 to September 30, 2022 is 4.92% which includes 0.48% representing government levies on the Fund such as provision for Sindh Workers' Welfare Fund (if any), sales taxes, federal excise duties, annual fee to the SECP, etc. The TER excluding government levies is 4.5% which is within the maximum limit of 4.5% prescribed under the NBFC Regulations for a collective investment scheme categorised as an Equity Scheme.

#### 18 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a

Financial assets which are traded in an open market are revalued at the market prices prevailing on

The fair value of all financial assets and financial liabilities of the Fund approximate their carrying amounts due to short term maturities of these instruments.

19 19.1

20

## Notes to and forming part of the Condensed Interim Financial Statements

For The Quater Ended September 30, 2022 (Un-audited)

#### 18.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair value measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using quoted price (unadjusted) in an active market for identical assets or liabilities:

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurement using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair values:

		As at September 30, 2022			
		Level 1	Level 2	Level 3	Total

  - o Debt Sub Fund
  - Equity Sub Fund
  - Money Market Sub Fund

### **ECONOMIC REVIEW**

The Country's external account posted a sharp improvement in 2MFY23 on Year-over-Year (YoY) basis as the Current Account Deficit (CAD) dropped to USD 1.92bn vs. USD 2.37bn in Same-Period-Last-Year (SPLY), a decline of 19% on the back of 11% YoY increase in exports which have remained resilient despite signs of slowdown in major export destinations amidst monetary tightening. Moreover, the imports bill declined by 2% on YoY basis to reduce the overall trade deficit by 11%. Going forward, we expected a sharp curtailment in CAD in FY23 on YoY basis owing to the decline in imports amidst restrictive measures and tight fiscal and monetary policy, however, floods in the country has brought massive destruction to agriculture and livestock which could possibly result in higher import bill (food commodity) and lower exports (textile, rice, and sugar) resulting in upside risk to our estimates

Despite the reduction in CAD, the foreign exchange reserves of the country declined by 5.3% on Quarter-over-Quarter (QoQ) basis to USD 13.59bn in 1QFY23 owing to debt repayments. During the month of September, PKR depreciated by 9.6% to a low of PKR 239.71 / USD amidst expectations of higher food imports due to the destruction in crops post heavy floods in the country. However, the PKR witnessed a sharp recovery of 4.43% to close at PKR 228.45 / USD towards the end of the quarter as Former Finance Minister Ishaq Dar returned to the country and took oath as Finance Minister of the country. Overall, the PKR depreciated by 11.5% in 1QFY23.

Headline inflation has continued to elevate in 1QFY23 on YoY basis to 25.1% vs. 16.15% in 4QFY22 (8.58% in 1QFY22) on the back of higher food, transport, and energy and fuel index. However, on Month-over-Month (MoM) basis, inflation has declined for the first time in the seventh months (Headline inflation for the month of Sep'22 stood at 23.2% on a YoY basis vs. 27.3% in Aug'22). This MoM decline is attributed to a 65% MoM reduction in electricity charges during the month which led to a 17.7% MoM decline in Housing, Water, Electricity & other indices. State Bank of Pakistan in its Monetary Policy Committee (MPC) meeting held in October has guided for FY23 inflation to be higher than its earlier range of 18 - 20%.

In 1QFY23, cumulative tax collection stood at PKR 1,635bn, up by 17% on YoY basis, and surpassed the quarterly target of PKR 1,609bn. Going forward, despite measures aiming for fiscal consolidation, expenditure on smooth rehabilitation of flood-affected areas might result in a fiscal deficit higher than budgetary estimates.

#### **EQUITY MARKET REVIEW**

The KSE-100 Index declined by 0.99% in 1QFY23 to 41,129 points, a decline of 412 points. In 9MCY22, the decline stood at 7.78% (-3,467 points). The quarter started on a positive note with the completion of the Staff Level Agreement with IMF for the resumption of the Extended Fund Facility (EFF). However, the increase in Policy Rate by the Central bank to 15%, PKR depreciation against the USD amidst declining foreign exchange reserves and political uncertainty, production shut down by corporates due to import restrictions and higher inflationary readings kept the stock market under pressure. Later, the sentiment improved owing to the revival of the IMF program with loan disbursement of USD 1.17bn coupled with improvement in the external account, shunning concerns over elevated headline inflation and political turmoil in the country.

The bull run was soon halted by extended monsoon season coupled with floods in the country as havoc caused by floods was estimated to be at ~USD 30bn as the country faced its worst flood situation in the past 30 years. Officials estimate that more than 800,000 hectares of farmland have been wiped out by the flooding. Pakistan is a major producer of rice and cotton, and both crops have been damaged. Heavy rains and floods also threaten the upcoming wheat planting season, at a time when global wheat supplies are already tight. As a result, it is expected that the import bill might remain elevated to address the food security of the country. The government has revised its growth forecast from 5% presented in budgetary estimates to 2% for FY23.

During the outgoing quarter, Foreigners remained net buyers with a net inflow of USD 16.70bn with major buying concentrated in the Technology, Other, and Oil & Gas Exploration Sector. On the local front, Individuals (USD 22.97mn), Others (USD 10.32mn), and Banks (USD 9.23mn) remained as net buyers whereas Insurance companies (USD 41.44mn) and Mutual Funds (USD 35.22mn) remained as net sellers.

Sector-wise, Technology (763 points), Cement (254 points), and Power Generation (63 points) were the major positive contributors in 1QFY23 while Fertilizers (-404 points), Miscellaneous (-296 points), and Commercial Banks (-268 points) remained as major negative contributors.

Going forward, market momentum would be driven by smooth and swift rehabilitation of flood-affected areas in the country, inflationary pressures, international commodity prices, and political stability in the country.

#### MONEY MARKET REVIEW

During 1QFY23, the Government borrowed PKR 4.79trn and PKR 517bn from Treasury Bills and

Pakistan Investment Bonds, respectively. The weighted average yields of T-bills in the last auction held in 1QFY23 on September 21, 2022, clocked in at 15.97%, 15.95% and 15.99% for 3M, 6M and 12M tenors, respectively vs. 15.08%, 14.89% and 14.95% in the auction held on June 29, 2022. The weighted average yields of PIBs in last auction held in 1QFY23 on September 15, 2022 clocked in at 13.89%, 13.31%, and 12.92% for 3Yr, 5Yr, and 10Yr tenors, respectively vs. 13.96%, 13.07% and 13.03% in the auction held on June 23, 2022. Owing to inflationary pressures, the central bank in its MPC held in July'22 increased Policy Rate further by 1.25% to 15% to further cool the overheating economy and contain the current account deficit. However, the Policy Rate was left unchanged in the MPC held in Aug'22 as overall demand in the economy started to moderate coupled with signs of improvement in the external account. As of September 30, 2022, the shorter tenor yields continue to remain higher than the longer term due to higher inflationary estimates in the short run.

#### **EQUITY AND ASSET ALLOCATION FUNDS PERFORMANCE**

#### **Favsal Asset Allocation Fund**
