# REVIEW REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY FOR THE NINE MONTHS ENDED MARCH 31, 2023.

## REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of HBL Asset Management Limited is pleased to present its report together with Financial Statements of HBL Income Fund, HBL Government Securities Fund, HBL Money Market Fund, HBL Cash Fund, HBL Stock Fund, HBL Equity Fund, HBL Energy Fund, HBL Multi Asset Fund, HBL Financial Planning Fund, HBL Growth Fund, HBL Investment Fund, HBL Financial Sector Income Fund – Plan-1 and HBL Total Treasury Exchange Traded Fund (the Funds) for the period ended March 31, 2023.

### ECONOMIC REVIEW

Pakistan continued to face severe economic challenges during 9MFY23 as rising inflation, low FX reserves, import restrictions, and delay in IMF program remained key concern for investors. CPI inflation in March-2023 rose to a multi-decade high of 35% taking 9MFY23 inflation to 27.2% as against 10.7% same period last year. The sharp rise in inflation could be attributed to 1) currency devaluation, 2) higher petroleum prices, 4) impact of floods on crops, and 3) import restrictions leading to supply shortages.

SBP, keeping in view rising inflationary pressures and rising interest rates globally, adopted a very aggressive monetary policy stance. In FYTD, SBP has cumulatively raised the policy rate by 725bps to 21%. In its monetary policy statements, SBP highlighted that growing inflationary expectations and increased external account challenges as key drivers of monetary tightening.

On the external front, SBP foreign exchange reserves were down from USD 8.4bn in July-2022 to USD 4.0bn as of April 7, 2023. This was due to large debt repayments and lower foreign inflows during this period. Due to the depleting reserves, Pak rupee depreciated by 28% against USD as PKR-USD parity closed at PKR 284 against the USD. Lower Current Account Deficit (CAD) though provided some cushion as it dropped by 74% to USD 3.4bn in 9MFY23 driven by import restriction and lower trade deficit. Trade deficit during 9MFY23 was down 30% to USD 20.4bn led by 21% fall in imports.

Slowdown in aggregate demand, floods, high interest rates, and import restrictions have significantly impacted growth outlook for the country. Large Scale Manufacturing Index (LSM) was down 5.56% in 8MFY23 indicating sharp slowdown in economy. World Bank has also recently revised down Pakistan's GDP growth forecast to 0.4% in FY23 considering these factors.

### STOCK MARKET REVIEW

KSE-100 index during 9MFY23 dropped by 4% to 40,000 index level as investors remained skeptical over the prevailing economic and political uncertainty. Key factors that contributed to this decline included 1) delay in ninth review of IMF, 2) sharp fall in foreign exchange reserves, 3) sharp rise in interest rates, 4), import restrictions impacting listed companies profitability, and 5) increase in political noise specially over the possible timing of general elections.

Due to these uncertain times, total traded volume and traded value were down 33% and 37% to 204mn shares and PKR 6.6bn, respectively. Foreigners were net buyers during 9MFY23 to the tune of USD 7mn. Amongst local investors, Mutual Funds and Insurance Companies were net sellers of USD 111mn and USD 105mn, respectively. Companies and Commercial Banks buyers were net buyers of USD 82mn and USD 60mn, respectively. Technology, Power and E&P sectors remained top performers whereas Pharma, Automobiles, and Consumer Sector contributed negatively to the index during 9MFY23.

### MONEY MARKET REVIEW

SBP conducted 6 monetary policies during 9MFY23 where it raised policy rates by 625bps to 20% by March end which is one of the highest rate increases in a span of 9 months. Given imminent inflationary pressures, SBP further raised rates to 21% in April-2023. SBP also linked Export Finance Scheme (EFS) and Long Term Financing Facility (LTFF) to the policy rate instead of fixed rate during 9MFY23 in order to improve monetary policy transmission.

Owing to rising inflationary pressures and expectations of higher interest rates, secondary market bond yields saw an increasing trend. Yields on shorter tenor 6M and 1Y TBills were up ~600bps in 9MFY23 to 21.1% and 21.2%, respectively. Similarly, longer tenor bond yields also went up with 3Y bond yields increasing by 479bps to 18.2% and 5Y bond yields going up 226bps to 15.19%. During 9MFY23, government raised PKR 15.5trn against target of PKR 16.1trn. Similarly, government raised PKR 966bn through fixed PIBs in 9MFY23.

## **FUTURE OUTLOOK**

Pakistan has now secured external financing assurances of USD 3bn from Saudi Arabia and UAE which was a key requirement for revival of IMF program. Pakistan is also in talks with Saudi Arabia & China for additional deposits and Commercial loans. It is likely that government is able to convince IMF on the remaining financing arrangement soon which will ensure signing of staff level agreement, going ahead. Furthermore, once the staff level agreement is signed with IMF, flows from multi-lateral donor agencies like World Bank and Asian Development Bank (ADB) will also unlock which will improve FX reserves position and give comfort to equity and fx markets.

In its last monetary policy statement, SBP had also highlighted that inflation will start coming down from June 2023 onwards which indicates that interest rates have almost peaked or they are near its peak. We anticipate CPI inflation to average 29% in FY23 and then fall to 18% in FY24 due to high base and expected fall in commodity prices. This expected drop in inflation rates from FY24 propels case for interest rate cut from later part of 2023. This will provide a major boost to equity markets.

Our long term view on market remain positive given IMF program is round the corner, political instability is expected to subside gradually with elections scheduled this year and interest rate are likely to fall from FY24. The market trades at all time low PE of less than 4x with dividend yield of around 10%.

## اقتصادی جائزہ

پاکستان کو 9MFY23 کے دوران شدید اقتصادی چیلنجوں کا سامنا کرنا پڑا کیونکہ بڑھتی ہوئی افراط زر، کم FX ذخائر، درآمدی پابندیاں، اور IMF پروگرام میں تاخیر سرمایہ کاروں کے لیے اہم خدشات رہے ہیں۔ مارچ 2023 میں CPI افراط زر بڑھ کر 35 فیصد کی کثیردہائی کی بلند ترین سطح پر پہنچ گیا جس سے 9MFY23 میں افراط زر 2.27 فیصد ہو گیا جو گزشتہ سال کی اسی مدت میں 7.10 فیصد تھا۔ مہنگائی میں تیزی سے اضافے کی وجہ سے (1) کرنسی کی قدر میں کمی، (2) پٹرولیم کی قیمتوں میں اضافہ، (4) فصلوں پر سیلاب کے اثرات، اور (3) درآمدی پابندیاں ہیں جن کی وجہ سے سپلائی میں کمی واقع ہوئی ہے۔

اسٹیٹ بینک نے عالمی سطح پر بڑھتے ہوئے افراط زر کے دباؤ اور بڑھتی ہوئی شرح سود کو مد نظر رکھتے ہوئے ایک انتہائی جارحانہ مانیٹری پالیسی کا موقف اپنایا۔ FYTD میں، SBP نے مجموعی طور پر پالیسی ریٹ کو 725bps سے بڑھا کر 21 فیصد کر دیا ہے۔ اپنی مانیٹری پالیسی کے بیانات میں، SBP نے اس بات پر روشنی ڈالی کہ بڑھتی ہوئی افراط زر کی توقعات اور بڑھتے ہوئے بیرونی کھاتوں کے چیلنجز مانیٹری سختی کے کلیدی محرک ہیں۔

بیرونی محاذ پر، SBP کے زرمبادلہ کے ذخائر جولائی 2022 میں 8.4 بلین امریکی ڈالر سے کم ہو کر 7 اپریل 2023 تک 4.0 بلین امریکی ڈالر رہ گئے تھے۔ اس کی وجہ اس عرصے کے دوران قرضوں کی بڑی ادائیگی اور غیر ملکی آمدن میں کمی تھی۔ کم ہوتے ذخائر کی وجہ سے پاکستانی روپے کی قدر امریکی ڈالر کے مقابلے میں 28 فیصد تک گر گئی، ایک امریکی ڈالر 284 پاکستانی روپے پر بند ہوا۔ لوئر کرنٹ اکاؤنٹ خسارہ (CAD) اگرچہ درآمدی پابندی اور کم تجارتی خسارے کی وجہ سے 9MFY23 میں 74 فیصد کم ہو کر 3.4 بلین امریکی ڈالر تک پہنچ گیا۔ 9MFY23 کے دوران تجارتی خسارہ 30 فیصد کم ہو کر 20.4 بلین امریکی ڈالر ہو گیا جس کی وجہ سے درآمدات میں 21 فیصد کمی ہوئی۔

مجموعی طلب میں سست روی، سیلاب، بلند شرح سود اور درآمدی پابندیوں نے ملک کی ترقی کے نقطہ نظر کو نمایاں طور پر متاثر کیا ہے۔ بڑے پیمانے پر مینیوفیکچرنگ انڈیکس (LSM) 8MFY23 میں 5.56 فیصد گر گیا جو معیشت میں تیزی سے سست روی کی نشاندہی کرتا ہے۔ ورلڈ بینک نے بھی حال ہی میں ان عوامل کو مد نظر رکھتے ہوئے مالی سال 23 میں پاکستان کی جی ڈی پی کی شرح نمو 0.4 فیصد پر رکھا ہے۔

## اسٹاک مارکیٹ کا جائزہ

9MFY23 کے دوران KSE-100 انڈیکس 4 فیصد گر کر 40,000 انڈیکس کی سطح پر آ گیا کیونکہ سرمایہ کار موجودہ معاشی اور سیاسی غیر یقینی صورتحال پر شکوک کا شکار رہے ہیں۔ اس کمی کے اہم عوامل میں (1) آئی ایم ایف کے نوٹس جائزے میں تاخیر، (2) زرمبادلہ کے ذخائر میں تیزی سے گراؤ، (3) شرح سود میں تیزی سے اضافہ، (4) درآمدی پابندیاں درج کمپنیوں کے منافع پر اثر انداز ہوئیں، اور (5) سیاسی بحران میں اضافہ، خاص طور پر عام انتخابات کے ممکنہ انعقاد کے حوالے سے تناؤ۔

ان غیر یقینی صورتحال کی وجہ سے، کل تجارت شدہ حجم اور تجارت کی قدر بالترتیب 33 فیصد اور 37 فیصد کم ہو کر 204mn حصص اور 6.6 بلین روپے ہو گئی۔ 9MFY23 کے دوران غیر ملکی خریداروں نے 7mn امریکی ڈالر کی خریداری کی۔ مقامی سرمایہ کاروں میں، میوچل فنڈز اور انشورنس کمپنیاں بالترتیب 111mn امریکی ڈالر اور 105mn امریکی ڈالر کی خالص فروخت کنندہ تھیں۔ کمپنیاں اور کمرشل بینکوں کے خریدار بالترتیب 82mn امریکی ڈالر اور 60mn امریکی ڈالر کے خالص خریدار تھے۔ ٹیکنالوجی، پاور اور ای اینڈ پی کے شعبے سرفہرست رہے جبکہ فارما، آٹوموبائلز اور کنزیومر سیلٹرز نے 9MFY23 کے دوران انڈیکس میں منفی کردار ادا کیا۔

## منی مارکیٹ کا جائزہ

SBP نے 9MFY23 کے دوران 6 ماہی پالیسیاں جاری کیں، اس نے مارچ کے آخر تک پالیسی ریٹ کو 625bps سے بڑھا کر 20 فیصد کر دیا جو کہ 9 ماہ کے عرصے میں شرح میں سب سے زیادہ اضافہ ہے۔ آنے والے مہنگائی کے دباؤ کو دیکھتے ہوئے، SBP نے اپریل 2023 میں شرح کو مزید بڑھا کر 21 فیصد کر دیا۔ ایس بی پی نے مالیاتی پالیسی کی ترسیل کو بہتر بنانے کے لیے ایکسپورٹ فنانس اسکیم (EFS) اور لانگ ٹرم فنانسنگ فیسیلٹی (LTFF) کو بھی 9MFY23 کے دوران مقررہ شرح کے بجائے پالیسی ریٹ سے منسلک کیا۔ بڑھتے ہوئے افراط زر کے دباؤ اور بلند شرح سود کی توقعات کی وجہ سے، سیکنڈری مارکیٹ بانڈ کی پیداوار میں اضافہ کارجمان دیکھا گیا۔ مختصر مدت کے 6M اور 1Y TBills کی پیداوار 9MFY23 میں 600bps تک بالترتیب 21.1 فیصد اور 21.2 فیصد بڑھ گئی۔ اسی طرح طویل مدتی بانڈ کی پیداوار میں بھی 3Y بانڈ کی پیداوار 479bps سے 18.2 فیصد تک بڑھ گئی اور 5Y بانڈ کی پیداوار 226bps سے 15.19 فیصد تک بڑھ گئی۔ 9MFY23 کے دوران، حکومت نے 16.1 trn روپے کے ہدف کے مقابلے میں 15.5 trn روپے اکٹھا کیے۔ اسی طرح، حکومت نے 9MFY23 میں فیکسڈ PIBs کے ذریعے 966 بلین روپے اکٹھا کیے۔

## مستقبل کا آؤٹ لک

پاکستان نے اب سعودی عرب اور متحدہ عرب امارات سے 3 بلین امریکی ڈالر کی بیرونی فنانسنگ کی یقین دہانی حاصل کر لی ہے جو آئی ایم ایف پروگرام کی بحالی کے لیے ایک اہم ضرورت تھی۔ پاکستان اضافی ڈپازٹس اور تجارتی قرضوں کے لیے سعودی عرب اور چین سے بھی بات چیت کر رہا ہے۔ امکان ہے کہ حکومت آئی ایم ایف کو بقیہ فنانسنگ انتظامات پر جلد قائل کرنے میں کامیاب ہو جائے گی جو اسٹاف لیول معاہدے پر دستخط کو یقینی بنائے گی۔ مزید برآں، IMF کے ساتھ اسٹاف لیول معاہدے پر دستخط ہونے کے بعد، عالمی بینک اور ایشیائی ترقیاتی بینک (ADB) جیسی کثیر الجہتی عطیہ دہندگان کی طرف سے رقوم بھی ملنا شروع ہو جائیگی جس سے FX کے ذخائر کی پوزیشن میں بہتری آئے گی اور ایکویٹی اور FX مارکیٹوں کو سکون ملے گا۔

اپنے آخری ماہی پالیسی بیان میں اسٹیٹ بینک نے اس بات پر بھی روشنی ڈالی تھی کہ جون 2023 کے بعد سے افراط زر میں کمی آنا شروع ہو جائے گی جس سے ظاہر ہوتا ہے کہ شرح سود تقریباً عروج پر ہے یا وہ اپنے عروج کے قریب ہیں۔ ہم توقع کرتے ہیں کہ مالی سال 23 میں CPI افراط زر اوسطاً 29 فیصد رہے گی اور پھر FY24 میں 18 فیصد تک گرجائے گی جس کی وجہ اعلیٰ بنیاد اور اجناس کی قیمتوں میں متوقع کمی ہے۔ FY24 سے افراط زر کی شرح میں یہ متوقع کمی 2023 کے بعد کے حصے سے شرح سود میں کمی کے معاملے کو آگے بڑھاتی ہے۔ یہ ایکویٹی مارکیٹوں کو ایک بڑا فروغ فراہم کرے گا۔

مارکیٹ کے بارے میں ہمارا طویل مدتی نقطہ نظر مثبت رہتا ہے کیونکہ IMF پروگرام کو نونے نونے میں ہے، اس سال شیڈول انتخابات کے ساتھ سیاسی عدم استحکام بتدریج کم ہونے کی امید ہے اور FY24 سے شرح سود میں کمی کا امکان ہے۔ مارکیٹ تقریباً 10 فیصد کے ڈیویڈنڈ کی پیداوار کے ساتھ 4x سے کم

ہو کر Low PE پر ٹریڈ کر رہی ہے۔

During the year, SRB through its letter dated August 12, 2021 intimated MUFAP that the mutual funds do not qualify as Financial Institutions / Industrial Establishments and are therefore, not liable to pay the SWWF contributions. This development was discussed at MUFAP level and was also taken up with the SECP and all the Asset Management Companies, in consultation with the SECP, have reversed the cumulative provision for SWWF recognised in the financial statements of the Funds, for the period from July 1, 2014 to August 12, 2021, on August 13, 2021. The SECP also gave its concurrence for prospective reversal of provision for SWWF. Going forward, no provision for SWWF has been recognised in the financial statements of the Fund.

The Fund is also exempt from the provision of Section 113 (minimum tax) under Clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. The Fund has not recorded a tax liability in the current period, as the Management Company intends to distribute more than 90 percent of the Fund's accounting income as reduced by capital gains (whether realised or unrealised) for the year June 30, 2022 to its unit holders.

13. Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

International Financial Reporting Standard (IFRS) 13, "Fair Value Measurement" requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- Fair value measurements using Inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

## 11. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets are based on the quoted market prices at the close of trading on the period end date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- Fair value measurements using inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

## 11. TOTAL EXPENSE RATIO

In accordance with the directive 23 of 2016 dated July 20, 2016 issued by the Securities and Exchange Commission of Pakistan, the total expense ratio of the Fund for the nine months ended March 31, 2023 is 1.50% (March 31, 2022: 0.53%) which includes 0.08% (March 31, 2022: 0.06%) representing government levies and SECP fee.

## 12. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid or transfer a liability in an orderly transaction between market participants and measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

International Financial Reporting Standard (IFRS) 13, "Fair Value Measurement" requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

As at March 31, 2023 the fund held the following financial instruments measured at:

5.1.1 Investments include shares having market value aggregating to Rs. 44.59 million (June 30, 2022: Rs. 121.21 million) that have been pledged with National Clearing Company of Pakistan Limited for guaranteeing settlement of the Fund's trades in terms of Circular No. 11 dated October 23, 2007 issued by the SECP.

5.1.2 This includes gross bonus shares as per Fund's entitlement declared by the investee company. Finance Act, 2014 has brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5 percent is to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax is to be collected at source by the investee company which shall be considered as final discharge of tax liability on such income. However, the Management Company of the Fund jointly with other asset management companies and Mutual Fund Association of Pakistan (MUFAP), has filed a petition in Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under Clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Sindh High Court has granted stay order till the final outcome of the case. However, the investee company(s) has withheld the share equivalent to 5% of bonus announcement of the Fund having aggregate fair market value of Rs. 2.62 million at March 31, 2022 (June 30, 2022: Rs. 3.45 million) and not yet deposited in CDC account of department of Income tax. Management is of the view that the decision will be in the favor and accordingly has recorded the bonus shares on gross basis at fair value in its investments at period end.

7.1 Under the provisions of the Non-Banking Finance Companies & Notified Entities Regulations 2008, the Management Company of the Fund is entitled to a remuneration during the first five years of the Fund, of an amount not exceeding 3% of the average annual net assets of the Fund and thereafter of an amount equal to 2% of such assets of the Fund. Currently, the management fee is charged at the rate of 2% of average annual net assets of the fund (June 30, 2022: 2%) during the period.

7.2 The Sindh Government has levied Sindh Sales Tax at the rate of 13% (June 30, 2022: 13%) on the remuneration of the Management Company through Sindh Sales Tax on Services Act, 2011.

7.3 The SECP has allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except fund of funds) initially for a period of three years (i.e. from January 1, 2017 till December 31, 2019). The maximum cap of selling and marketing expense was 0.4% per annum of the net assets of the Fund or actual expenses whichever is lower.

During the year ended June 30, 2020, the SECP through its Circular 11 dated July 5, 2019 has revised the conditions for charging of selling and marketing expenses to a Fund. As per the revised guidelines, the maximum cap of 0.4% per annum has been lifted and now the asset management company is required to set a maximum limit for charging of such expense to the Fund and the same should be approved by the Board of Directors of the Management Company as part of annual plan. Furthermore, the time limit of three years has also been removed in the revised conditions.

Accordingly, the Management Company based on its discretion has currently determined a capping of 1.05% (June 30, 2022, 0.08% to 1.05%) of the average annual net assets of the Fund for charging of selling and marketing expenses which has also been approved by the Board of Directors of the Management Company.

- 7.4 In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses related to registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).

The Management Company based on its discretion has charged 0.55% of the average annual net assets of the Fund during the period ended March 31, 2022 (June 30, 2022: 0.55%).

Had the provision not been retained, NAV per unit of the Fund as at March 31, 2022 would have been higher by Rs. 15.01 per unit (June 30, 2022: 11.55 per unit).

#### 9. CONTINGENCIES AND COMMITMENTS

There are no contingencies and commitments outstanding as at March 31, 2023 and June 30, 2022.

The Fund is also exempt from the provision of Section 113 (minimum tax) under Clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. The Fund has not recorded a tax liability in the current period, as the Management Company intends to distribute more than 90 percent of the Fund's accounting income as reduced by capital gains (whether realised or unrealised) for the year June 30, 2022 to its unit holders.

#### 11. EARNINGS PER UNIT

### 13. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets (i.e. listed equity shares) are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

- 5.1.1 The above investments include shares with market value aggregating to Rs. 127.74 million (June 2021: Rs. 154.6 million) which have been pledged with the National Clearing Company of Pakistan Limited (NCCPL) as collateral for guaranteeing settlement of the fund's trades in accordance with Circular No. 11 dated October 23, 2007 issued by the SECP.

However, the Management Company of the Fund jointly with other asset management companies and Mutual Fund Association of Pakistan, has filed a petition in Honorable Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Honorable Sindh High Court has granted stay order till the final outcome of the case. However, the investee company(s) has withheld the share equivalent to 5% of bonus announcement of the Fund having aggregate fair market value of Rs. 1.994 million at March 31, 2022 (June 30, 2022: Rs. 1.806 million) and not yet deposited on CDC account of department of Income tax. Management is of the view that the decision will be in the favor and accordingly has recorded the bonus shares on gross basis at fair value in its investments at period end.

- 7.1 The legal status of applicability of Federal Excise Duty on the Fund is same as that disclosed in note 12.1 to the annual audited financial statements of the Fund for the year ended June 30, 2021, and the appeal filed by tax authorities against the order by Honourable Supreme Court of Pakistan dated July 16, 2016, is pending for decision.

In view of above, the Management Company, as a matter of abundant caution, is carrying provision for FED for the period from January 13, 2013 to June 30, 2016 aggregating to Rs. 5.685 million. Had the provision not been retained, NAV per unit of the Fund as at March 31, 2023 would have been higher by Re. 1.099 per unit (June 30, 2022: Re. 0.5341 per unit).

## **8. CONTINGENCIES AND COMMITMENTS**

There were no contingencies and commitments outstanding as at March 31, 2023 and June 30, 2022.

## **9. TAXATION**

The Fund's income is exempt from income tax as per clause 99 of Part 1 of the Second Schedule to the Income Tax Ordinance, 2001, subject to the condition that not less than 90 percent of its accounting income for the year, as reduced by the capital gains whether realised or unrealised, is distributed to the unit holders in cash. The Fund is also exempt from the provision of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. The Fund has not recorded a tax liability in the current period, as the Management Company intends to distribute more than 90 percent of the Fund's accounting income as reduced by capital gains (whether realised or unrealised) for the year June 30, 2023 to its unit holders.

## **10. EARNINGS PER UNIT**

Earnings per unit has not been disclosed as in the opinion of the management determination of cumulative weighted average number of outstanding units for calculating earnings per unit is not practicable.

## **11. TRANSACTIONS WITH CONNECTED PERSONS / RELATED PARTIES**

## 12. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets (i.e. listed equity shares) are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

#### **1. LEGAL STATUS AND NATURE OF BUSINESS**

HBL Energy Fund ("the Fund") was established in 2006 as a closed-end scheme under a Trust Deed executed between PICIC Asset Management Company Limited as the Management Company and Central Depository Company of Pakistan Limited (CDC) as the Trustee.

The Trust Act, 1882 has been repealed due to the promulgation of Provincial Trust Act namely "Sindh Trusts Act, 2020" (the Sindh Trust Act) as empowered under the Eighteenth Amendment to the Constitution of Pakistan. The Fund required to be registered under the Sindh Trust Act. Accordingly, on August 24, 2021, the above-mentioned Trust Deed had been registered under the Sindh Trust Act.

In accordance with clause 65(1) of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, a meeting of the certificate holders of the Fund was held on January 31, 2013 whereby the conversion of the Fund into an open-end scheme was duly approved through a resolution passed by the majority of the certificate holders present in the meeting who were entitled to vote. The Securities and Exchange Commission of Pakistan accorded its final approval for conversion of the Fund into an open-end scheme through its letter dated May 3, 2013. The second supplemental Trust Deed and replacement Offering Document were approved by SECP vide its letter no D/PRDD/AMCW/PEF/567/2013 dated May 31, 2013 and letter no SCD/PRDD/AMCW/PEF/606/2013 dated June 24, 2013 respectively. The conversion of the Fund from a closed end fund to an open-end fund was authorised by the Securities and Exchange Commission of Pakistan (SECP) vide its letter No. SCD/PRDD/AMCW/PEF/607/2013 dated June 24, 2013. The Fund converted into an open end scheme on the effective date i.e. June 25, 2013. The certificates of the closed-end fund were cancelled on the effective date and were exchanged with the units of the open-end scheme in the swap ratio of 1:1. Each certificate holder was allotted units according to their respective holdings as at that date on the basis of a ratio of 1 certificate to 1 unit. Accordingly 100,000,000 units were issued on the date of conversion.

Since the effective date of conversion, the certificates of the closed-end scheme were de-listed from Pakistan Stock Exchange. Units of the open-end scheme are listed on the Pakistan Stock Exchange Limited. The units are offered to the public for subscription on a continuous basis and are transferable and redeemable by surrendering them to the Fund.

The Management Company of the Fund has been registered as a Non-Banking Finance Company (NBFC) under the NBFC Rules, 2003 and has obtained the requisite license from the SECP to undertake Asset Management Services. The registered office of the Management Company is located at 7th Floor, Emerald Tower, G-19, Block 5, Main Clifton Road, Clifton, Karachi.

5.2 These above investments include shares having market value of Rs. 57.80 million that have been pledged with National Clearing Company of Pakistan Limited for guaranteeing settlement of the Fund's trades in terms of Circular 11 dated October 23, 2007 issued by the SECP.

- Oil and Gas Development Company Limited (326,000 shares)

- Pakistan Petroleum Limited (255,000 shares)

The Hub Power Company Limited (100,000 shares)

Mari Petroleum Company Limited (5,000 shares)

5.3 These investments include gross bonus shares as per Fund's entitlement declared by the investee companies. Finance Act, 2014 has brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5% is to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax is to be collected at source by the investee company which shall be considered as final discharge of tax liability on such income. However, the Management Company of the Fund jointly with other asset management companies and Mutual Fund Association of Pakistan, has filed a petition in Honorable High Court of Sindh to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Honorable High Court of Sindh has granted stay order till the final outcome of the case. However, the investee companies has withheld the share equivalent to 5% of bonus announcement of the Fund having aggregate fair market value of Rs. 0.28 million at March 31, 2023 (June 30, 2022: Rs.0.411 million) and not yet deposited on CDC account of department of Income tax. Management is of the view that the decision will be in the favor of the Fund and accordingly has recorded the bonus shares on gross basis at fair value in its investments at period end.

7.1 The legal status of applicability of Federal Excise Duty (FED) on the Fund is the same as that disclosed in note 12.1 to the annual audited financial statements of the Fund for the year ended June 30, 2021, and the appeal filed by tax authorities with Honorable Supreme Court of Pakistan is pending for decision.

In view of the above, the Management Company, as a matter of abundant caution, is carrying provision for FED for the period from January 13, 2013 to June 30, 2016 aggregating to Rs. 13.920 million. Had the provision not been retained, NAV per unit of the Fund as at March 31, 2023 would have been higher by Rs. 0.53 per unit (June 30, 2022: Rs. 0.32 per unit).

## 8 CONTINGENCIES AND COMMITMENTS

**11 EARNINGS PER UNIT**

Earnings per unit has not been disclosed as in the opinion of the management determination of cumulative weighted average number of outstanding units for calculating earnings per unit is not practicable.

**12 FAIR VALUE OF FINANCIAL INSTRUMENTS**

Fair value is the price that would be received to sell an asset or paid or transfer a liability in an orderly transaction between market participants and measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

7.1.1 Investments include shares having market value aggregating to Rs. 19.836 million (June 30, 2022: 30.695 million) that have been pledged with National Clearing Company of Pakistan Limited for guaranteeing settlement of the Fund's trades in terms of Circular No. 11 dated October 23, 2007 issued by the SECP.

7.1.2 These investments include gross bonus shares as per Fund's entitlement declared by the investee companies. Finance Act, 2014 has brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5% is to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax is to be collected at source by the investee company which shall be considered as final discharge of tax liability on such income. However, the Management Company of the Fund jointly with other asset management companies and Mutual Fund Association of Pakistan (MUFAP), has filed a petition in Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under Clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Sindh High Court has granted stay order till the final outcome of the case. However, the investee company(s) has withheld the share equivalent to 5% of bonus announcement of the Fund having aggregate fair market value of Rs. 274,593 at March 31, 2023 (June 30, 2022: Rs 371,924 ) and not yet deposited in CDC account of department of Income tax. Management is of the view that the decision will be in the favor and accordingly has recorded the bonus shares on gross basis at fair value in its investments at period end.

#### 14. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets (i.e. listed equity shares) are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table shows the carrying amount and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

**12 FAIR VALUE AND CATEGORIES OF FINANCIAL INSTRUMENTS**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. units of the mutual funds, are based on the quoted NAVs at the close of the period end date. The quoted NAVs used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency and those prices represent actual and regularly occurring market transactions on an arm's length basis.

As per the requirements of IFRS 13 (Fair Value Measurements), the Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- Fair value measurements using inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

5.1.1 These investments includes shares having market value of 97.26 million (June 30, 2022: 127.81 million) have been pledged with National Clearing Company of Pakistan Limited (NCCPL) as collateral against trading facility in the Pakistan Stock Exchange.

5.1.2 These investments include gross bonus shares as per Fund's entitlement declared by the investee companies. Finance Act, 2014 has brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5% is to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax is to be collected at source by the investee company which shall be considered as final discharge of tax liability on such income. However, the Management Company of the Fund jointly with other asset management companies and Mutual Fund Association of Pakistan (MUFAP), has filed a petition in Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under Clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Sindh High Court has granted stay order till the final outcome of the case. However, the investee company(s) has withheld the share equivalent to 5% of bonus announcement of the Fund having aggregate fair market value of Rs. 0.66 million at March 31, 2023 (June 30, 2022: Rs. 0.867 million) and not yet deposited on CDC account of department of Income tax. Management is of the view that the decision will be in the favor and accordingly has recorded the bonus shares on gross basis at fair value in its investments at period end.

- 6.1 Under the provisions of the Non-Banking Finance Companies & Notified Entities Regulations 2008, the Management Company of the Fund is entitled to a remuneration during the first five years of the Fund, of an amount not exceeding 3% of the average annual net assets of the Fund and thereafter of an amount equal to 2% of such assets of the Fund. As per the instructions of SECP via letter No. SCD/AMCW/HBLAML/9/2020 dated October 19, 2020, it was advised to HBL AMC to take up the matter at their Board level for lowering the rate of management fee keeping in view the passive nature of investments in Class A units of HBL Investment Fund and in the best interest of the certificate holders. Subsequently, management of HBL AMC in its 83rd Board meeting held on February 10, 2021 has approved the reduction in rate of 2% to 1.5% effective from February 10, 2021. Currently, the management fee is charged at the rate of 1.5% to 2% (June 30, 2022: 1.5% and 2%) of average annual net assets of the fund for Class A and Class B, respectively.
- 6.2 The Sindh Provincial Government has levied Sindh Sales Tax (SST) at the rate of 13% (June 30, 2022: 13%) on the remuneration of the Management Company through Sindh Sales Tax on Services Act, 2011.
- 6.3 In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses related to registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).  
The Management Company based on its discretion has charged 0.55% of the average annual net assets of the Fund during the period ended March 31, 2023 (June 30, 2022: 0.55% for Class A and 0.55% to 1.35% for Class B) for Class A and Class B. respectively.
- 6.4 The SECP has allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except fund of funds) initially for a period of three years (i.e. from January 1, 2017 till December 31, 2019). The maximum cap of selling and marketing expense was 0.4% per annum of the net assets of the Fund or actual expenses whichever is lower.

During the year ended June 30, 2020, the SECP through its Circular 11 dated July 5, 2019 has revised the conditions for charging of selling and marketing expenses to a Fund. As per the revised guidelines, the maximum cap of 0.4% per annum has been lifted and now the asset management company is required to set a maximum limit for charging of such expense to the Fund and the same should be approved by the Board of Directors of the Management Company as part of annual plan. Furthermore, the time limit of three years has also been removed in the revised conditions.

Accordingly, the Management Company based on its discretion has currently determined at the rates nil (June 30, 2022: nil) for Class A and 1.05% (June 30, 2022: 1.05% to 1.85%) for Class B of the average annual net assets) of the Fund for charging of selling and marketing expenses which has also been approved by the Board of Directors of the Management Company. However, as per the instructions of SECP via letter No. SCD/AMCW/HBLAML/9/2020 dated October 19, 2020, Management Company ceased to charge selling and marketing expenses to the certificate holders of Class A with effect from November 01, 2020.

### 13. Fair Value Of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the period end date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements: Disclosures' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted price (unadjusted) in active markets for identical assets or liabilities (level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

5.1.1 Investments include shares having market value aggregating to Rs: 73.23 million (June 30, 2022 : Rs 115.672 million) that have been pledged with National Clearing Company of Pakistan Limited for guaranteeing settlement of the Funds's trades in terms of Circular No. 11 dated October 23, 2007 issued by SECP.

5.1.2 These investments include gross bonus shares as per Fund's entitlement declared by the investee companies. Finance Act, 2014 has brought amendments in the Income Tax Ordinance, 2001 whereby the bonus shares received by the shareholder are to be treated as income and a tax at the rate of 5 percent is to be applied on value of bonus shares determined on the basis of day end price on the first day of closure of books. The tax is to be collected at source by the investee company which shall be considered as final discharge of tax liability on such income. However, the Management Company of the Fund jointly with other asset management companies and Mutual Fund Association of Pakistan (MUFAP), has filed a petition in Sindh High Court to declare the amendments brought in Income Tax Ordinance, 2001 with reference to tax on bonus shares for collective investment schemes as null and void and not applicable on the funds based on the premise of exemption given to mutual funds under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001. The Sindh High Court has granted stay order till the final outcome of the case. However, the investee company(s) has withheld the share equivalent to 5% of bonus announcement of the Fund having aggregate fair market value of Rs. 0.329 million at March 31, 2022 (June 30, 2022: Rs.0.428 million) and not yet deposited in CDC account of department of Income tax. Management is of the view that the decision will be in the favor and accordingly has recorded the bonus shares on gross basis at fair value in its investments at period end.

6.1 Under the provisions of the Non-Banking Finance Companies & Notified Entities Regulations 2008, the Management Company of the Fund is entitled to a remuneration during the first five years of the Fund, of an amount not exceeding 3% of the average annual net assets of the Fund and thereafter of an amount equal to 2% of such assets of the Fund. As per the instructions of SECP via letter No. SCD/AMCW/HBLAML/9/2020 dated October 19, 2020, it was advised to HBL AMC to take up the matter at their Board level for lowering the rate of management fee keeping in view the passive nature of investments in Class A units of HBL Investment Fund and in the best interest of the certificate holders. Subsequently, management of HBL AMC in its 83rd Board meeting held on February 10, 2021 has approved the reduction in rate of 2% to 1.5% effective from February 10, 2021. Currently, the management fee is charged at the rate of 1.5% to 2% (June 30, 2022: 1.5% and 2%) of average annual net assets of the fund for Class A and Class B, respectively.

6.2 The Sindh Provincial Government has levied Sindh Sales Tax (SST) at the rate of 13% (June 30, 2022: 13%) on the remuneration of the Management Company through Sindh Sales Tax on Services Act, 2011.

6.3 In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses related to registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).

The Management Company based on its discretion has charged 0.55% of the average annual net assets of the Fund during the period ended March 31, 2023 (June 30, 2022: 0.55% for Class A and 0.55% to 1.35% for Class B) for Class A and Class B. respectively.

6.4 The SECP has allowed the Asset Management Companies to charge selling and marketing expenses to all categories of open-end mutual funds (except fund of funds) initially for a period of three years (i.e. from January 1, 2017 till December 31, 2019). The maximum cap of selling and marketing expense was 0.4% per annum of the net assets of the Fund or actual expenses whichever is lower.

During the year ended June 30, 2020, the SECP through its Circular 11 dated July 5, 2019 has revised the conditions for charging of selling and marketing expenses to a Fund. As per the revised guidelines, the maximum cap of 0.4% per annum has been lifted and now the asset management company is required to set a maximum limit for charging of such expense to the Fund and the same should be approved by the Board of Directors of the Management Company as part of annual plan. Furthermore, the time limit of three years has also been removed in the revised conditions.

Accordingly, the Management Company based on its discretion has currently determined at the rates nil (June 30, 2022: nil) for Class A and 1.05% (June 30, 2022: 1.05% to 1.85%) for Class B of the average annual net assets) of the Fund for charging of selling and marketing expenses which has also been approved by the Board of Directors of the Management Company. However, as per the instructions of SECP via letter No. SCD/AMCW/HBLAML/9/2020 dated October 19, 2020, Management Company ceased to charge selling and marketing expenses to the certificate holders of Class A with effect from November 01, 2020.

### 13 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets are based on the quoted market prices at the close of trading on the period end date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);

Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and

Inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

### 13. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants and measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets i.e. listed equity shares are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

International Financial Reporting Standard (IFRS) 13, "Fair Value Measurement" requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- Fair value measurements using Inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

### 2.4 Use of judgments and estimates

The preparation of financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

## 14. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The fair value of financial assets and liabilities traded in active markets (i.e. listed equity shares) are based on the quoted market prices at the close of trading on the reporting date. The quoted market price used for financial assets held by the Fund is current bid price.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13, 'Fair Value Measurements' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).
- Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy:
