We are pleased to report that the company's (Consolidated & Standalone) nine months ending September 30, 2025 results with the shareholders

Avanceon Limited:

For the nine-month period ended September 2025, the Company reported revenues of Rs. 1.8 billion, reflecting a marginal decline of 7.1% compared to the corresponding period of 2024. However, the revenue for the third quarter of 2025 is more or less same as compared to the same quarter last year 2024.

The decrease in cumulative revenue is primarily attributable to timing delays in the execution and delivery of a few major projects currently in the pipeline. The management is confident that this gap will be covered in the final quarter of 2025, enabling to meet its annual revenue target.

Gross margin is reported at Rs. 476 million i.e., 26%, also showed a downward trend primarily also due to the timing lag in the execution of several large projects, as well as the presence of high margin projects in the comparable period last year.

Administrative expenses and selling expenses increased by 9% to Rs. 342 million, this increase is in line with the bandwidth of annual fixed cost increments and inflation.

4

During the nine months September 2025 reported, the Company's other operating expenses/income benefited from a favorable exchange gain, driven by currency fluctuations. However, a stability in USD to PKR rate the gain has decreased from the half year 2025. This resulted in bottom line operating profit increased to Rs. 133 million i.e., by 252% as compared to the corresponding reported nine months 2024.

Finance cost increased to Rs. 147 million, up by about 23%, mainly due to higher average borrowing rates. The Company is working to improve its funding structure to reduce the impact on profitability.

The net profit of the company closed at Rs. 133 million (2025: EPS Rs. 0.32) as compared to Rs. 53 million (2024: EPS Rs. 0.13 – restated) in the corresponding reported period 2024, with a support of low tax charge for the nine months thereby reporting an increase of 250%.

The Company remains focused on achieving its annual targets and is actively pursuing opportunities in key markets. The current order pipeline and ongoing projects are sufficient to meet the annual revenue goal. It is expected that we would enter the year 2026 with a huge opening back log of orders in hand. Management is confident that these efforts will lead to a strong operational and financial performance by year-end, contributing positively to profitability and shareholder value.

Avanceon Group:

Avanceon Limited consolidated financial results present below:

The group revenues showed a declined trend by almost 19% to Rs. 7.4 billion from Rs. 9.13 billion as compared to the corresponding reported nine months 2024. This drop is mainly due to the fact of low revenue recognition in the regions of Dubai and Qatar. Management is focused on these areas and remains optimistic about recovering the shortfall by the end of 2025.

The gross profit reported at Rs. 1.98 billion compared to Rs. 2.55 billion as compared to the corresponding reported nine months 2024, mainly because of low revenue recognition in Dubai and Qatar. However, the gross margin percentage remained almost intact. Management is confident of increasing overall revenue and gross margins in the final quarter to achieve the annual targets for 2025.

Administrative and selling expenses stood at Rs. 1.8 billion, remaining largely unchanged compared to the corresponding nine-month period of 2024. This stability reflects the Company's effective cost control and strict performance monitoring practices.

Other expenses decreased to Rs. 84 million from Rs. 111 million, while other income rose significantly to Rs. 124 million from Rs. 39 million in the same period last year, helping to reduce overall costs. Finance costs, however, increased by about 21% to Rs. 351 million compared to Rs. 290 million in 2024.

Lastly, taxation resulted in a lower incidence at the group level, however, there is a new corporate tax introduced in Dubai region during the year 2025. With all the above factors the group sustained a loss of Rs. 149 million as compared to Rs. 337 million profits for the nine months 2024. The loss is mainly due to a shortfall in top line revenue. Management views this as a temporary timing issue and remains confident of recovering achieve the shortfall in the final quarter to the annual targets.
