# Directors' Report To The Members

We are pleased to present the reviewed financial statements of JS Bank Limited ("JSBL") along with the reviewed consolidated financial statements of its subsidiaries JS Global Capital Limited and JS Investments Limited for the half year ended June 30, 2018.

## The Economy

As the year progresses, economic growth has slowed down. Almost all major macro indicators such as the consumer price index (CPI), fiscal debt-to-GDP ratio and local interest rates show worrisome signs. On the macroeconomic front, the twin deficits (current account deficit and budget deficit) continue to grow at a challenging rate.

Inflation has started to inch up with the average for the second quarter of the calendar year (2QCY18) standing at 4.36% (3.82% in 1QCY18) with higher increases expected going forward due to a rise in international crude oil prices and the substantial devaluation of the Pakistani Rupee (PKR). Without any meaningful inflows in the country's financial accounts, the country's foreign exchange reserves have depleted over the year. By the end of the second quarter (2QCY18), the foreign exchange reserves held by the State Bank of Pakistan (SBP) fell to a low of USD 16.4 billion.

During financial year 2018 (FY18), trade deficit continued to increase (+16% Year-on-Year (YoY) to USD 37,670 million) as growth in imports (+15% YoY to USD 60,898 million) outpaced exports growth (+14% YoY to USD 23,228 million). Apart from an increasing deficit, growth in foreign remittances was below expectations settling at USD 18,028 million during the year (up 3% YoY only). This resulted in a massive current account deficit of USD 15,961 million (up +43% YoY) or 5.5% of GDP during the first 11 month of FY18 (11MFY18) as compared to 4.0% recorded in the corresponding period of the previous year. The resulting consequences have had an impact on the currency exchange rate as the PKR continued to slide against the USD in the interbank market, depreciating by ~15% during FY18.

## Banking sector review

In the first half of calendar year 2018, SBP increased the policy rate by a cumulative 75 basis points (bps), taking it to 6.50% and continuing the monetary tightening cycle. However, banking spreads during the first five months of CY2018 (5MCY18) further dropped to an average of 4.78%, marking a 15 bps YoY decline. As per SBP, banking deposits touched PKR 13,063 billion during the same period, registering a growth of 9% YoY by the end of the quarter. Advances also continued their upward trajectory with 19% YoY growth to PKR 7,362 billion owing to a steady increase in project financing and consumer loan demand while growth in private sector credit was 17% YoY by the end of June 2018. As a result, the Advances-to-Deposit Ratio (ADR) for the industry increased to 56%. The non-performing loans (NPLs) for the industry declined to PKR 600 billion (as of March 2018), while the infection ratio for the industry improved to 9%. Overall investments remained at PKR 8,179 billion similar to the period last year. As a result, the Investment-to-Deposit Ratio (IDR) decreased to 63%.

## Financial Performance

During the period under review, the Bank earned profit before tax of PKR 1,109 million (profit after tax of PKR 684 million) for the half year ended June 30, 2018 as compared to profit before tax of PKR 621 million (profit after tax of PKR 284 million) in the corresponding period last year. The increase in profit was mainly due to healthy growth in advances and an increase in business of advisory services and trade volumes. However, the administrative expenses increased due to expansion of the branch network and embarking on new initiatives as compared to the corresponding period of last year.

Deposits and advances increased from PKR 290.1 billion and PKR 184.5 billion to PKR 310.9 billion and PKR 228.5 billion respectively during the half year, which reflects continued focus of the Bank on core business activities.

## Business Overview

JS Bank continued with its impressive balance sheet growth largely on the back of aggressive deposit mobilization. The Bank's strategy is based on identifying and fulfilling customer needs through product innovation, alliances and automation of service delivery. Customer accessibility was strengthened through an expansion in the branch network, digital channels and branchless banking agents to provide customers an efficient and satisfying banking experience. JS Bank operates 323 branches and 294 ATMs across 161 cities including one overseas wholesale banking branch in Manama, Bahrain.

The Bank remained focused on core deposit mobilization, particularly targeting growth in low cost deposits (Current and Savings Accounts – CASA). Significant growth in the CASA deposit base has been augmented by establishment of sales channels and segments dedicated to deposit growth, providing greater stability and strength to the Bank.

The Bank has embarked on several initiatives to strengthen its product line including variants of value-added current accounts to expand its deposit relationships in several segments including business accounts, employee banking, private banking, cash management relationships, corporate deposits and technology-based solutions.

On the assets side, there was increased focus on prudent expansion in advances with a holistic product range designed around customer needs with diversified growth in public sector lending (GoP backed), corporate, commercial, Small and Medium Enterprises (SME) and consumer banking. In addition to traditional lending segments, the Bank enhanced its focus on the SME landscape through a relationship lending model, operating through several SME hub branches. Furthermore, the secured consumer lending volumes picked up substantially through 2018. The leasing business has also developed a healthy portfolio catering to most industrial sectors of the economy. The Bank grew its Prime Minister's Youth Business Loans (PMYBL) portfolio by forming multiple alliances with Pakistan's leading businesses in order to promote self-employment within their value chains. JS Bank exceeded its SBP-assigned Agriculture Credit targets with a clean portfolio, paving the way for sustainable expansion in the coming years. The Bank continued to develop its gold finance portfolio and extended the proposition to its agri-based customers.

# Directors' Report To The Members

The Bank is making concerted efforts to optimize the revenue mix between mark-up and fee-based income. In addition to growing traditional fee income streams, the Bank has increased focus on cross selling various fee-based products to existing and new customers.

### معاشی جائزہ

سال گزرنے کے ساتھ ساتھ معاشی صورتحال سست روی کا شکار ہو رہی ہے۔ مجموعی طور پر معاشی حوالے سے نشاندہی کرنے والے بنیادی عناصر جیسا کہ کنزیومر پرائز انڈیکس (CPI)، ملک کی مجموعی پیداوار اور قرضوں کی شرح اور ملکی سطح پر انٹرسٹ کی شرح تشویش ناک صورتحال ظاہر کرتے ہیں۔ معاشی حوالے سے دو برسے خسارے (کرنٹ اکاؤنٹ اور بجٹ کا خسارہ) میں اضافہ جاری ہے۔

مالی سال 2018 کی دوسری سہ ماہی (2QCY18) کے دوران افراط زر میں اوسط معمولی اضافے کا آغاز ہوا جو عالمی سطح پر خام آئل کی قیمتوں میں اضافے اور پاکستانی روپے کی قدر میں غیر معمولی کمی کے باعث 4.36 فیصد (سال 2018 کی پہلی سہ ماہی میں 3.82 فیصد) کے ساتھ زائد اضافے کی توقع کی جا رہی ہے۔ ملک کے مالیاتی اکاؤنٹس میں خاطر خواہ اضافے کے بغیر غیر ملکی زرمبادلہ کے ذخائر کا استعمال سال گزرنے کے ساتھ تشویش ناک صورتحال اختیار کر چکا ہے۔ سال 2018 کی دوسری سہ ماہی (2QCY18) کے اختتام تک اسٹیٹ بینک آف پاکستان میں زرمبادلہ کے ذخائر 16.4 بلین امریکی ڈالرز کی کم سطح پر آ گئے۔

مالی سال 2018 کے دوران (FY18) تجارتی خسارہ مسلسل جاری رہا (یعنی سال بسال 16+ فیصد جو 37,670 بلین امریکی ڈالرز ہیں) جس کی وجہ درآمدات میں اضافے کی شرح (سال بسال 15 فیصد جو 60,898 بلین امریکی ڈالرز ہیں) برآمداتی شرح (سال بسال 14 فیصد جو 23,228 بلین امریکی ڈالرز ہیں) سے تجاوز کر چکی ہے۔ بڑھتے ہوئے خسارے کے علاوہ غیر ملکی ترسیلات زر میں بھی اضافے کی شرح بہتر نہیں رہی جو دو درجن سال 1,028 بلین امریکی ڈالرز رہے (یعنی سال بسال صرف 3 فیصد اضافہ)۔ اس کے نتیجے میں مالی سال 2018 کے پہلے 11 ماہ کے دوران (11MFY18) کرنٹ اکاؤنٹ کا خسارہ 15,961 بلین امریکی ڈالرز (سال بسال 43 فیصد اضافہ) یا ملک کی مجموعی پیداوار کا 5.5 فیصد کا خسارہ ہوا جو گزشتہ سال اسی مدت کے دوران 4.0 فیصد ریکارڈ ہوا۔ اس کے تمام اثرات کرنی کے چالے کی شرح پر ہے کیونکہ انٹرنیٹ مارکیٹ میں امریکی ڈالر کے مقابلے میں روپے کی قدر میں کمی جاری رہی جو مالی سال 2018 کے دوران 15 فیصد تک پہنچ گئی۔

### شعبہ بینکاری کا جائزہ

کلینڈر سال 2018 کی اوّل ششماہی میں اسٹیٹ بینک آف پاکستان نے پالیسی کی شرح میں مجموعی طور پر 75 بیس پوائنٹس (bps) کا اضافہ کیا جو 6.50 فیصد تک پہنچ گئی اور مانیٹرنگ سائیکل میں سختی برقرار رہی۔ تاہم شعبہ بینکاری میں مالی سال 2018 کے پہلے پانچ ماہ (5MCY18) میں توسیع کی شرح میں مزید کمی ہوئی جو اوسطاً 4.78 فیصد ہوئی یعنی سال بسال 15 میں پوائنٹس کی کمی واقع ہوئی۔ اسٹیٹ بینک آف پاکستان کے تحت بینکنگ ڈپازٹس اسی مدت کے دوران 13,063 بلین روپے کی سطح پر پہنچ گئے جو سہ ماہی کے اختتام تک سال بسال 9 فیصد اضافے کو ظاہر کرتی ہے۔ پروجیکٹ فنانسنگ اور کنزیومر لوانڈ مینڈ میں بتدریج اضافے کے باعث قرضہ جات بھی اضافہ ہوا جو سال بسال 19 فیصد اضافے کے ساتھ 7,362 بلین روپے رہے جبکہ نجی شعبہ جات کے حوالے سے جون 2018 کے اختتام تک اضافے کی شرح سال بسال 17 فیصد تک رہی، جس کے نتیجے میں بینکنگ شعبہ جات میں قرضوں اور ڈپازٹ کی شرح میں 56 فیصد اضافہ ہوا۔ قرضوں کی عدم ادائیگی میں 600 بلین روپے (مارچ 2018 کے مطابق) کی کمی واقع ہوئی جبکہ شعبہ بینکاری میں انفلکشن کی شرح (غیر ادائیگ قرضوں اور کل قرضوں کی شرح) میں 9 فیصد اضافہ ہوا۔ گزشتہ سال کی طرح اس سال بھی مجموعی سرمایہ کاری 8,179 بلین

- 2.1 These unconsolidated condensed interim financial statements of the Bank have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:
- International Accounting Standards (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
  - Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and

# Notes to the Unconsolidated Condensed Interim Financial Statements

For the half year ended June 30, 2018

- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP)

Whenever the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IAS 34, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives, shall prevail.

- 2.2 The SBP vide BSD Circular No. 10, dated August 26, 2002 has deferred the applicability of International Accounting Standard 39, Financial Instruments: Recognition and Measurement (IAS 39) and International Accounting Standard 40, Investment Property (IAS 40) for Banking companies till further instructions. Further, according to the notification of the Securities and Exchange Commission of Pakistan (SECP) dated April 28, 2008, the IFRS - 7 "Financial Instruments: Disclosures" has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated condensed interim financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.
- 2.3 IFRS 8, 'Operating Segments' is effective for the Bank's accounting period beginning on or after January 01, 2009. All banking companies in Pakistan are required to prepare their annual financial statements in line with the format prescribed under BSD Circular No. 4 dated February 17, 2006, 'Revised Forms of Annual Financial Statements', effective from the accounting year ended December 31, 2006. The management of the Bank believes that as the SBP has defined the segment categorization in the above mentioned circular, the SBP's requirements prevail over the requirements specified in IFRS 8. Accordingly, segment information disclosed in these unconsolidated condensed interim financial statements is based on the requirements laid down by the SBP.
- 2.4 IFRS10 "Consolidated Financial Statements" was made applicable from period beginning on or after January 01, 2015 vide S.R.O 633(I)/2014 dated July 10, 2014 by SECP. However, SECP has directed that the requirements of consolidation under section 237 of the Companies Ordinance 1984 and IFRS-10 "Consolidated Financial Statements" are not applicable in case of investment by companies in mutual funds established under trust structure, through S.R.O 56(I) /2016 dated January 28, 2016. Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated condensed interim financial statements.
- 2.5 The disclosures made in this unconsolidated condensed interim financial information have been limited based on the format prescribed by the SBP vide BSD Circular No. 2 dated May 12, 2004 and International Accounting Standard 34, 'Interim Financial Reporting' and do not include all the disclosures required in the annual financial statements. Accordingly, these unconsolidated condensed interim financial statements should be read in conjunction with the annual audited financial statements of the Bank for the year ended December 31, 2017.

# Notes to the Unconsolidated Condensed Interim Financial Statements

For the half year ended June 30, 2018

## 3. BASIS OF MEASUREMENT

These unconsolidated condensed interim financial statements have been prepared under the historical cost convention except that certain assets are stated at revalued amounts / fair value as disclosed in the respective notes of the annual audited financial statements for the year ended December 31, 2017.

## 4. ACCOUNTING ESTIMATES AND JUDGMENTS

The estimates / judgments and associated assumptions used in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the annual financial statements of the Bank for the year ended December 31, 2017.

## 5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the annual audited financial statements for the year ended December 31, 2017 except as below.

### 5.1 Surplus / Deficit on Revaluation of Operating Fixed Assets

The Companies Ordinance, 1984 (the repealed Ordinance) was repealed through the enactment of the Companies Act, 2017 on May 30, 2017. However, as directed by the Securities and Exchange Commission of Pakistan vide circular number 23 dated Oct 4, 2017, the financial reporting requirements of the Companies Act, 2017 were only made applicable for reporting periods starting from January 1, 2018.

The repealed Ordinance specified the accounting treatment for the surplus on revaluation on fixed assets, wherein, a deficit arising on revaluation of a particular property was to be adjusted against the total balance in the surplus account or, if no surplus existed, was to be charged to the profit and loss account as an impairment of the asset. However, the Companies Act, 2017 removed the specific provisions allowing the above treatment and hence, a deficit arising on revaluation of a particular property is now to be accounted for in accordance with applicable financial reporting standards, which requires that such deficit is to be taken to the profit and loss account as an impairment.

Consequently, the Bank has changed its policy for accounting for a deficit arising on revaluation of fixed assets and accordingly, any surplus/deficit arising on revaluation of owned property and non-banking assets acquired in satisfaction of claims is accounted for at individual assets level. The above change in accounting policy did not have any effect on these unconsolidated condensed interim financial statements.

# Notes to the Unconsolidated Condensed Interim Financial Statements

For the half year ended June 30, 2018

## 5.2 Adoption of IFRS 9 by foreign operations (Bahrain Branch)

During the current period, the Bank's Bahrain Operations, in line with their locally applicable regulatory framework, has adopted IFRS 9 'Financial Instruments'. As permitted by the transitional provisions of IFRS 9, the Branch elected not to restate comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the profit and loss account of the current period.

The financial effects due to the adoption of IFRS 9 by the Bahrain branch on these interim condensed financial statements are as follows:

## 16. Other provision - net

This includes additional provision made during the period on account of adoption of IFRS 9 by Bahrain branch of the Bank (see note 5.2), and reversal of provision against other assets of Rs. 42.368 million.

## 17. Taxation

During the period, the Additional Commissioner Inland Revenue (ACIR) has allowed the appeal effects of tax years 2008-2013, in the light of appeal orders given by Commissioner Inland Revenue – Appeals (the CIRA), as a result thereof effect of certain significant issues have been allowed (i.e. accrued markup income, repair and maintenance expense, provision against advances under Rule 1(c) of seventh schedule of the Income Tax Ordinance, 2001, dividend income and partial reliefs given in reversal of provision against advances and contract wages). Appeal effect of certain issues (amortisation of Goodwill and withholding tax on contract wages) for which appeals of the tax department are pending at higher appellate forums are kept pending and will be decided on outcome of such department appeals. Appeal effect order is pending in respect of tax year 2014 and 2015

For tax year 2008, ACIR has allowed the appeal effect after consideration of the CIRA decision that assessment in the year had become barred by time limitation and hence additions or disallowances made through the first amendment order had not legal effect. As a result of passing of appeal effect order, the income and tax liability have been reverted to position as per the return filed.

For tax year 2010-2013, the Bank has not accepted the appeal effects in which benefits are not allowed on the direction of the CIRA and filed further appeals with CIRA and ACIR is directed to re-examine the issues in the light of directions of predecessor CIRA's decision and issue revise appeal effect orders after duly adjudicating as per law ensuring adequate opportunity of being heard to the Bank.

The management of Bank is confident that the appeals filed above and which are already pending at Appellate Tribunal on matters where relief has not been allowed at CIRA level will be decided in the Bank's favor and accordingly no demand for payment would arise.

## 19. FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 "Fair Value Measurement" defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Fair value of fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 6.9 to the annual audited financial statements for the year ended December 31, 2017

Management is of the view that the fair value of the remaining financial assets and financial liabilities are not significantly different from their carrying values since assets and liabilities are either short term in nature or in the case of customer loans and deposits are frequently repriced.

# Notes to the Unconsolidated Condensed Interim Financial Statements

For the half year ended June 30, 2018

## Fair value hierarchy

IFRS 13 requires the Bank to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has following levels:

- Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3:** Unobservable inputs for the asset or liability.

## 19.1 Valuation techniques used in determination of fair values

Item	Valuation approach and input used
Shares of listed companies	Fair values of investments in listed equity securities are valued on the basis of closing quoted market prices available at the Pakistan Stock Exchange.
Units of mutual funds	Fair values of investments in units of mutual funds are determined based on redemption prices disclosed at the Mutual Funds Association of Pakistan (MUFAP) as at the close of the business days.
Pakistan Investment Bonds / Market Treasury Bills	Fair values of Pakistan Investment Bonds and Market Treasury Bills are derived using PKRV rates (Reuters page).
Term Finance Certificates and Bonds	Investments in debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) and Bloomberg in case of foreign bonds, in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Derivatives	The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant underlying parameters including foreign currencies involved, interest rates, yield curves, volatilities, contracts duration, etc.

## INDEPENDENT AUDITOR'S REVIEW REPORT

To the members of JS Bank Limited

### Report on review of Interim Financial Statements

#### *Introduction*

We have reviewed the accompanying consolidated condensed interim statement of financial position of **JS Bank Limited** as at **30 June 2018**, the related consolidated condensed interim statement of profit and loss and other comprehensive income, consolidated condensed interim statement of changes in equity, and consolidated condensed interim statement of cash flows, and notes to the financial statements for the six-month period then ended (herein-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of this interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on the financial statements based on our review. The figures of the condensed interim profit and loss account and condensed interim statement of comprehensive income for the three months ended 30 June 2018 and 30 June 2017 have not been reviewed, as we are required to review only the cumulative figures for the six months period ended 30 June 2018.

#### *Scope of review*

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the audit resulting in this independent auditor's review report is Shaikh Ahmed Salman.

## 4. BASIS OF MEASUREMENT

These consolidated condensed interim financial statements have been prepared under the historical cost convention except that certain assets are stated at revalued amounts / fair value as disclosed in the respective notes of the consolidated annual audited financial statements for the year ended December 31, 2017.

## 5. ACCOUNTING ESTIMATES AND JUDGMENTS

The estimates / judgments and associated assumptions used in the preparation of these consolidated condensed interim financial statements are consistent with those applied in the preparation of the consolidated annual audited financial statements of the Group for the year ended December 31, 2017.

## 6. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies and the methods of computation adopted in the preparation of these consolidated condensed interim financial statements are the same as those applied in the preparation of the consolidated annual audited financial statements of the Group for the year ended December 31, 2017.

### 6.1 Surplus / Deficit on Revaluation of Operating Fixed Assets

The Companies Ordinance, 1984 (the repealed Ordinance) was repealed through the enactment of the Companies Act, 2017 on May 30, 2017. However, as directed by the Securities and Exchange Commission of Pakistan vide circular number 23 dated Oct 4, 2017, the financial reporting requirements of the Companies Act, 2017 were only made applicable for reporting periods starting from January 1, 2018.

The repealed Ordinance specified the accounting treatment for the surplus on revaluation on fixed assets, wherein, a deficit arising on revaluation of a particular property was to be adjusted against the total balance in the surplus account or, if no surplus existed, was to be charged to the profit and loss account as an impairment of the asset. However, the Companies Act, 2017 removed the specific provisions allowing the above treatment and hence, a deficit arising on revaluation of a particular property is now to be accounted for in accordance with applicable financial reporting standards, which requires that such deficit is to be taken to the profit and loss account as an impairment.

Consequently, the Group has changed its policy for accounting for a deficit arising on revaluation of fixed assets and accordingly, any surplus/deficit arising on revaluation of owned property and non-banking assets acquired in satisfaction of claims is accounted for at individual assets level. The above change in accounting policy did not have any effect on these consolidated condensed interim financial statements.

## 6.2 Adoption of IFRS-9 by Foreign Operations (Bahrain branch)

During the current period, the Bank's Bahrain Operations, in line with their locally applicable regulatory framework, has adopted IFRS 9 'Financial Instruments'. As permitted by the transitional provisions of IFRS 9, the Branch elected not to restate comparative figures. Any adjustments to the carrying amounts of financial assets and liabilities at the date of transition were recognised in the profit and loss account of the current period.

The financial effects due to the adoption of IFRS 9 by the Bahrain branch on these consolidated condensed interim financial statements are as follows:

For tax year 2008, ACIR has allowed the appeal effect after consideration of the CIRA decision that assessment in the year had become barred by time limitation and hence additions or disallowances made through the first amendment order had not legal effect. As a result of passing of appeal effect order, the income and tax liability have been reverted to position as per the return filed

For tax year 2010-2013, the Bank has not accepted the appeal effects in which benefits are not allowed on the direction of the CIRA and filed further appeals with CIRA and ACIR is directed to re-examine the issues in the light of directions of predecessor CIRA's decision and issue revise appeal effect orders after duly adjudicating as per law ensuring adequate opportunity of being heard to the Bank.

The management of Bank is confident that the appeals filed above and which are already pending at Appellate Tribunal on matters where relief has not been allowed at CIRA level will be decided in the Bank's favor and accordingly no demand for payment would arise.

## 20 FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 "Fair Value Measurement" defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Fair value of fixed term loans, other assets, other liabilities and fixed term deposits cannot be calculated with sufficient reliability due to absence of current and active market for assets and liabilities and reliable data regarding market rates for similar instruments. The provision for impairment of loans and advances has been calculated in accordance with the Bank's accounting policy as stated in note 7.10 to the consolidated annual audited financial statements for the year ended December 31, 2017.

Management is of the view that the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since assets and liabilities are either short term in nature or in the case of customer loans and deposits are frequently repriced.

# Notes to the Consolidated Condensed Interim Financial Statements

For the half year ended June 30, 2018

## Fair value hierarchy

IFRS 13 requires the Group to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has following levels:

- Level 1:** Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.
- Level 2:** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3:** Unobservable inputs for the asset or liability.

## 20.1 Valuation techniques used in determination of fair values

Item	Valuation approach and input used
Units of mutual funds	Fair values of investments in units of mutual funds are determined based on redemption prices disclosed at the Mutual Funds Association of Pakistan (MUFAP) as at the close of the business days.
Shares of listed companies	Fair values of investments in listed equity securities are valued on the basis of closing quoted market prices available at the Pakistan Stock Exchange.
Pakistan Investment Bonds / Market Treasury Bills	Fair values of Pakistan Investment Bonds and Market Treasury Bills are derived using PKRV rates (Reuters page).
Term Finance Certificates and Bonds	Investments in debt securities (comprising Term Finance Certificates, Bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the SECP.
Derivatives	The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant underlying parameters including foreign currencies involved, interest rates, yield curves, volatilities, contracts duration, etc.

## 20.2 The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.
