**INDEPENDENT AUDITOR'S REVIEW REPORT
TO THE MEMBERS OF ASKARI LIFE ASSURANCE COMPANY LIMITED
(FORMERLY EAST WEST LIFE ASSURANCE COMPANY LIMITED)
REPORT ON REVIEW OF INTERIM FINANCIAL STATEMENTS**

Introduction

We have reviewed the accompanying condensed interim balance sheet of Askari Life Assurance Company Limited (formerly East West Life Assurance Company Limited) as at June 30, 2018 and the related condensed interim statement of profit or loss and other comprehensive income, condensed interim statement of changes in equity, and condensed interim statement of cash flows, and notes to the condensed interim financial information for the six-month period then ended (here-in-after referred to as the "condensed interim financial information"). Management is responsible for the preparation and presentation of these condensed interim financial information in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these condensed interim financial information based on our review.

Scope of review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statement is not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

Emphasis of matter

We draw attention to note 1.2 to the financial statements, which elaborate going concern issue and its mitigating factors. Our conclusion is not qualified in this respect.

Other Matters

The figures of the condensed interim profit and loss account and condensed interim statement of comprehensive income for the three months period ended June 30, 2018 and June 30, 2017 have not been reviewed, as we are required to review only the cumulative figures for the six months period ended June 30, 2018.

The engagement partner on this review resulting in this independent auditor's review report is Muhammad Shaukat Naseeb.

Change in accounting policy - adoption of insurance accounting regulations, 2017

As referred to in note 2, the Insurance Accounting Regulations 2017 have become effective from January 1, 2018. These regulations have introduced a single balance sheet, profit and loss account, cash flow, done away with the separate presentation of revenue account of the statutory fund, incorporated ledger account D balances (retained earnings on other than participating business) in capital and reserves attributable to company equity holders, and require all investments to be valued in accordance with the requirements of the International Financial Reporting Framework and introduced the concept of other comprehensive income. As a consequence of the revised presentation the balance in the retained earning of the revenue account, principally maintained in accordance with the Insurance Rules, 2017 and the repealed SEC (Insurance) Rules 2002 principally to meet solvency margins including surplus retained in the current quarter, are reflected in the statement of shareholder equity.

There change in accounting policy has been applied retrospectively. There is no significant/ material effect of changes in accounting policies on the prior period financial statements.

24.1 Fair value hierarchy

The level in the fair value hierarchy within which the financial asset or financial liability is categorized is determined on the basis of the lowest level input that is significant to the fair value measurement.

Financial assets and financial liabilities are classified in their entirety into only one of the three levels.

The fair value hierarchy has the following levels:

- Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)
- Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

24.2 Fair value of financial assets

The fair value of all financial assets and financial liabilities is estimated to approximate their carrying value.
