NOTICE OF 58TH ANNUAL GENERAL MEETING

NOTICE is hereby given that the 58th Annual General Meeting (AGM) of Adamjee Insurance Company Limited (the "Company") will be held at The Nishat Hotel, Trade and Finance Centre Block, Near Expo Centre, Abdul Haq Road, Johar Town, Lahore on Monday, 29th April, 2019 at 11:00 a.m. to transact the following business:

ORDINARY

1. To receive, consider and adopt the Standalone and Consolidated Audited Financial Statements of the Company for the year ended December 31, 2018, Directors' and Auditors' reports thereon and the Chairman's Review Report.
2. To declare and approve, as recommended by the directors, the payment of final cash dividend of Rs. 1.50 per share i.e. @ 15% in addition to 10% interim cash dividend already declared and paid i.e., total 25% for the year ended December 31, 2018.
3. To appoint auditors and fix their remuneration. The members are hereby notified that the Board of Directors and the Audit Committee have recommended the name of M/s Deloitte Yousuf Adil Chartered Accountants for appointment as auditors of the Company in place of retiring auditors, M/s KPMG Taseer Hadi & Co. Chartered Accountants after completion of five years.

SPECIAL

4. To consider and if thought fit, to pass the following resolution as special resolution with or without modification(s), addition(s) or deletion(s).

RESOLVED THAT "the validity of special resolution passed in the Extraordinary General Meeting of the Company held on May 28, 2016 for investment of up to Rs. 625 million for purchase of 5,000,000 ordinary shares of Nishat Mills Limited, an associated company be and is hereby extended for further three years till May 28, 2022 to allow the Company to make balance investment till May 28, 2022 with other terms and conditions of the investment to remain unchanged".

RESOLVED FURTHER THAT "the Chief Executive and/or Company Secretary (the "Authorized Officers") of the Company be and are hereby authorized and empowered on behalf of the Company to take all steps and actions necessary, ancillary and incidental for making the investment(s) in Nishat Mills Limited and sign, execute and amend such documents, papers, instruments, etc., as may be necessary or expedient for the purpose of giving effect to the spirit and intent of the aforesaid resolution".

By Order of the Board
Tameez-ul-Haque
Secretary

08 April, 2019

NOTES:

1. The financial statements and reports have been placed on the website of the Company www.adamjeeinsurance.com.
2. The share transfer books of the Company will remain closed from 19 April, 2019 to 29 April, 2019 (both days inclusive). Transfers received in order at the office of the Company's Independent Share Registrar, M/s Central Depository Company of Pakistan Ltd., CDC House, 99- B, S.M.C.H.S, Main Shahrah e Faisal, Karachi by the close of business (5:00 PM) on 18 April, 2019 will be treated in time for the purposes of entitlement of members to the final cash dividend and for attending and voting at the Annual General Meeting.
3. A member entitled to attend and vote at this meeting may appoint any other member as his/her proxy to attend and vote. The Instrument appointing a proxy and the power of attorney or other authority under which it is signed or a notarial attested copy of the power of attorney must be deposited at the registered office of the Company at least 48 hours before the time of the meeting. A proxy must be a member of the company. A Company or a Corporation being a member of the Company may appoint a representative through a resolution of board of directors for attending and voting at the meeting.
4. Members, who have deposited their shares into Central Depository Company of Pakistan Limited, are being advised to bring their original National Identity Cards along with CDC Participant ID and account number at the meeting venue.
5. Members who have deposited their shares into Central Depository Company of Pakistan Limited ("CDC") will further have to follow the under mentioned guidelines as laid down by the Securities and Exchange Commission of Pakistan in Circular No 1 of 2000.

A. For Attending the Meeting

- a. In case of Individuals, the account holder and/or sub-account holder whose registration details are uploaded as per the CDC Regulations, shall authenticate his/her identity by showing his/her original CNIC or, original Passport at the time of attending the Meeting.
- b. In case of corporate entity, the Board's resolution / power of attorney with specimen signature of the nominee shall be produced (unless it has been provided earlier) at the time of the Meeting.

B. For Appointing Proxies

- a. In case of individuals, the account holder and/or sub-account holder whose registration details are uploaded as per the CDC Regulations, shall submit the proxy form as per above requirements.
- b. The proxy form shall be witnessed by two persons, whose names, addresses and CNIC numbers shall be mentioned on the form.
- c. Attested copies of the CNIC or the passport of beneficial owners and the proxy shall be furnished with the proxy form.
- d. The proxy shall produce his original CNIC or original passport at the time of the Meeting.

- e. In case of corporate entity, the Board's resolution / power of attorney with specimen signature shall be furnished (unless it has been provided earlier) along with proxy form to the Company.

6. Members are requested to timely notify any change in their addresses.

7. Notice to Shareholders who have not provided CNIC:

The shareholders who have not yet provided their CNICs are once again advised to provide the attested copies of their CNICs (if not already provided) directly to our Independent Share Registrar at the address given hereinafter without any further delay.

8. Payment of Cash Dividend Electronically:

Under the provision of Section 242 of Companies Act, 2017 and Companies (Distribution of Dividends) Regulations, 2017, it is mandatory for a listed company to pay cash dividend to their shareholders only through electronic mode directly into the bank account designated by the entitled shareholders instead of issuing physical dividend warrant.

In order to receive cash dividend directly into the designated bank account shareholders are requested to fill and sign the "Mandate Form for e-dividend" available on the Company's website link: http://www.adamjeeinsurance.com/pak/investors/downloads/shareholder_useful_documents/Mandate_for_e_dividend.pdf, and send to the relevant Broker/Participants/Investor Account Services of the CDC/Share Registrar of the Company (as the case may be) before April 19, 2019 along with a copy of their valid CNICs. The aforesaid form is also available at the end of Annual Report of the Company. The form has also been provided with CDs to the shareholders.

In case of non-receipt or incorrect International Bank Account Number (IBAN) with other related details or non-availability of CNICs, the Company will withhold cash dividend of such members in terms of Section 242 of the Companies Act, 2017.

9. Circulation of Annual Financials through E-mail:

Section 223 of the Companies Act, 2017 allows the companies to send the audited financial statements together with the reports electronically. The Securities and Exchange Commission of Pakistan vide SRO 787(1)/2014 dated September 08 2014 has allowed companies to circulate annual balance sheet, profit & loss account, auditors report and directors report along with notice of Annual General Meeting to its members through email.

The Company has also placed the Audited Financial Statements for the year ended December 31, 2018 along with Chairman's review report, Directors and Auditors Reports thereon on its website: <http://www.adamjeeinsurance.com/>

10. Deduction of Withholding Tax on the amount of Dividend:

Pursuant to Circular No.19/2014 dated October 24, 2014, SECP has directed all companies to inform shareholders about changes made in the Section 150 of the Income Tax Ordinance, 2001. The Company, hereby advise to its shareholders, the important amendments, as under:

The Government of Pakistan through Finance Act, 2017 has made certain amendments in Section 150 of the Income Tax Ordinance, 2001 whereby different rates are prescribed for deduction of withholding tax on the amount of dividend paid by the companies. These tax rates are as under:

- | | |
|---|-----|
| a. For filers of income tax returns | 15% |
| b. For non-filers of income tax returns | 20% |

To enable the company to make tax deduction on the amount of cash dividend @ 15% instead of 20%, all the shareholders whose names are not entered into the Active Taxpayers List (ATL) provided on the website of Federal Board of Revenue, despite the fact that they are filers, are advised to make sure that their names are entered into ATL before the date for payment of the cash dividend otherwise tax on their cash dividend will be deducted @ 20% instead @ 15%.

In the case of shares registered in the name of two or more shareholders, each joint-holder is to be treated individually as either a filer or non-filer and tax will be deducted by the Company on the basis of shareholding of each joint-holder as may be notified to the Company in writing. The joint-holders are, therefore, requested to submit their shareholdings otherwise each joint holder shall be presumed to have an equal number of shares.

The corporate shareholders having CDC accounts are required to have their National Tax Number (NTN) updated with their respective participants, whereas corporate physical shareholders should send a copy of their NTN certificate to the Company or its Independent Share Registrar at the below mentioned address. The shareholders while sending NTN or NTN certificates, as the case may be, must quote company name and their respective folio numbers.

11. Consent for Video-Link Facilities:

Pursuant to the provisions of the Companies Act, 2017, the shareholders residing in a city and holding at least 10% of the total paid up share capital may demand the Company to provide the facility of video-link for participating in the meeting. The demand for video-link facility shall be received by the Share Registrar at the address given herein below at least 7 (seven) days prior to the date of the meeting on the Standard Form which can be downloaded from the company's website: www.adamjeeinsurance.com

Address of Independent Share Registrar of the Company:

Name : Central Depository Company of Pakistan Ltd.

Address: CDC House, 99- B, S.M.C.H.S, Main Shahrah e Faisal, Karachi

Phone: +92-21-111-111-500

Statement under Section 134(3) of The Companies Act 2017

This statement sets out the material facts pertaining to the special business to be transacted at the Annual General Meeting of the Company to be held on April 29, 2019.

Item 4 of agenda: Revalidation of period of investment in Nishat Mills Limited

The members of the Company in their Extraordinary General Meeting held on 28 May 2016 had approved investment in the shares of Nishat Mills Limited, an associated company up to an amount of Rs.625 million for the purchase of up to 5 million shares. The company has so far invested only Rs. 161.053 million.

Regulation 6 of Companies (Investment in Associated Companies or Associated Undertakings) Regulation 2017 issued vide SRO 1240 (1)/2017 dated 6 December 2017 requires that special resolution authorizing investment in associated companies or undertakings shall be valid for a period of twelve months unless specifically authorized by the members in the general meeting.

The members in Extraordinary General Meeting of the Company held on 28 May, 2016 approved the investment to be made up to 28 May 2019. It is now proposed to further extend the period of investment for three years up to 28 May 2022. Section 199 of the Companies Act 2017 requires that no change in the terms and conditions of the investment shall be made except under the authority of a special resolution. Accordingly, the change in the period of investment is being presented to the shareholders for approval through passing of special resolution.

Adamjee Insurance Co. Limited is an associated company of Nishat Mills Limited due to common directorship of Mr. Umer Mansha.

The directors of the Company are not directly or indirectly concerned or interested in the aforesaid business except to the extent of Mr. Umer Mansha who holds 12.60% shareholding in Nishat Mills Limited.

He served as member of IAP's Fire Section Committee & Engineering Insurance Sub-committee in 2009-10 and was also a member of Marine Technical Committee of Emirates Insurance Association from 1997 till 2005.

CHAIRMAN'S REVIEW

It is a matter of great pride for me to present this year's Annual Report of your Company.

I pledged to uphold the values and foundations of this worthy Company when I was entrusted with the Chairmanship of the Board of Directors of Adamjee Insurance.

I am pleased to announce that once again we have witnessed one of the highest growths in written premiums in the industry, taking Adamjee Insurance at Rs. 21.4 billion including Takaful business. The growth was observed in most of the areas including conventional insurance business, Window Takaful Operations and foreign operations. The underwriting profit increased to Rs. 816 million while profit after tax stood at at Rs. 1.239 billion.

With sound governance from the Board of Directors throughout the year, the Company has managed to instill a singular direction in all affairs helping it achieve the bigger picture. At the beginning of the year, we created new benchmarks, and through challenging times we have not strayed from achieving them.

Adamjee Insurance has always adhered to the principles dictated by integrity, reliability, and professionalism. It is these ideologies that have helped us maintain individual and strategic collaborations with clients as well as other reliable partners.

With emerging necessities that stem from an evolving landscape in the insurance industry we have employed diversity in methods and approach when it comes to developing insurance products and how we communicate and gauge potential business prospects.

Adamjee Insurance has always been at the forefront of pioneering new trends in international and domestic markets by developing innovative solutions and effective interventions, where necessary. As we welcome a new financial year, under the able leadership of our Board of Directors and the management team, we are well equipped to revolutionize the customer experience by addressing challenges and demands of this new age.

As always, it has been our privilege to serve our valuable customers, with whom we have gained experience and learnt new ways to service them better. I would not miss this opportunity to appreciate our employees without whom we would not have reached this unassailable landmark. I would also like to thank our stakeholders, business partners, reinsurers and The Securities and Exchange Commission of Pakistan for their support and guidance that has facilitated Adamjee Insurance to regain its leading status in Pakistan.

Umer Mansha
Chairman

چیئر مین کا جائزہ

یہ میرے لیے انتہائی فخر کی بات ہے کہ میں آپ کے ادارے کی اس سال کی سالانہ رپورٹ پیش کر رہا ہوں۔

جب مجھے آدھی انشورنس کے بورڈ آف ڈائریکٹرز کی چیئر مین شپ تفویض کی گئی تو میرا آپ سے وعدہ تھا کہ میں اس باوقار ادارے کی اقدار اور بنیادوں کا تحفظ کروں گا۔

مجھے یہ اعلان کرتے ہوئے خوشی ہو رہی ہے کہ ہم نے ایک بار پھر اس صنعت میں تحریر شدہ پریمیمز میں بلند ترین نمو حاصل کرتے ہوئے آدھی انشورنس کو 21.4 بلین روپے تک پہنچا دیا ہے جس میں تکافل کا کاروبار بھی شامل ہے۔ تقریباً سب ہی شعبہ جات میں نمو حاصل کیا گیا ہے جس میں روایتی کاروبار بیمہ، درستی، تکافل، امور کار (ونڈو تکافل آپریشنز) اور بیرون ملکی امور کار بھی شامل ہیں۔ انڈر رائٹنگ (ضمانتوں) کا منافع 816 ملین روپے تک بڑھ گیا ہے جبکہ منافع بعد از ٹیکس 1.239 بلین روپے تک رہا۔

پورے سال بورڈ آف ڈائریکٹرز کی جانب سے مستحکم نظم و نسق کے ساتھ اس ادارے نے تمام ہی امور کار میں یکسوئی کو برقرار رکھتے ہوئے ایک عظیم تر صورت حاصل کر لی ہے۔ اس سال کے آغاز پر ہم نے نئے اہداف مقرر کیے اور مشکلات کے باوجود بھی ہم انہیں حاصل کرنے سے ہرگز غافل نہیں ہوئے۔

آدھی انشورنس ہمیشہ اُن اصولوں سے وابستہ ہے جو سچائی، اعتماد اور پیشہ ورانہ مہارت سے عبارت ہیں۔ یہ وہی نظریات ہیں کہ جس نے ہمیں صارفین کے ساتھ ساتھ دیگر با اعتماد پارٹنرز کے ساتھ انفرادی اور باحکمت اشتراکات باہمی کو برقرار رکھنے میں مدد فراہم کی ہے۔

صنعت بیمہ میں ارتقا پذیر منظر نامے سے تشکیل پذیر ابھرتی ضروریات کے پیش نظر ہم نے نئی مصنوعات کے فروغ اور مستقبل کے لیے کاروبار کے امکانات کی ترویج و اشاعت اور قیاس کی صورت میں ہمیشہ طریقہ کار اور سوچ میں تنوع کو مد نظر رکھا ہے۔

آدھی انشورنس نے جہاں بھی ضروری ہوتی ہے، جدت طراز حل اور موثر اختراعات کی نشوونما سے بین الاقوامی اور ملکی مارکیٹس میں نئے رجحانات کی تشکیل کے محاذ پر ہمیشہ سب کی رہنمائی کی ہے۔ جیسا کہ ہم نئے مالی سال کا خیر مقدم اپنی مینجمنٹ ٹیم اور بورڈ آف ڈائریکٹرز کی اہل قیادت کی زیر نگرانی کر رہے ہیں اور اس نئے دور کے تقاضوں اور مشکلات کو مد نظر رکھتے ہوئے صارفین کی خدمت کے لیے آراستہ ہیں۔

ہمارے لیے اعزاز ہے کہ ہم ہمیشہ کی طرح اپنے قابل قدر صارفین کی خدمت کرتے رہیں کہ جن کے ساتھ ہم نے تجربہ حاصل کیا اور خدمت کو بہتر سے بہتر بنانے کے نئے طریقے سیکھے۔ میں اس موقع کو ہرگز ضائع نہیں کروں گا کہ میں اپنے ملازمین کی خدمات کا اعتراف کروں اور انہیں داؤتخسین دوں جن کے بغیر ہم اس ناقابل حصول سنگ میل کو عبور نہیں کر سکتے تھے۔ میں اپنے تمام اسٹیک ہولڈرز، بزنس پارٹنرز، ری۔ انشوررز اور سیوریٹی اینڈ ایکسچینج کمیشن آف پاکستان کا بھی اُن کے تعاون و رہنمائی کیلئے شکریہ ادا کرنا چاہوں گا کہ جس نے آدھی انشورنس کو پاکستان میں اس کے قائدانہ مرتبے کو دوبارہ حاصل کرنے میں سہولیات بہم پہنچائیں۔

QUALITY POLICY

The management and employees of Adamjee Insurance demonstrate commitment to satisfying customer needs by managing risk assessment in General Insurance.

In alignment with satisfaction of customer needs, processes are established to support the vision and values of the Company. We use QMS-9001:2015 as a tool to continually review and improve the effectiveness of our implemented systems.

We regularly assess our processes and practices to build on our relationship with all our stakeholders including customers, shareholders, strategic partners and employees.

ORGANIZATIONAL STRUCTURE

SOARING ALTITUDE

Company Profile

COMPANY PROFILE

Adamjee Insurance Company Limited (AICL) is the largest general insurance company in Pakistan, incorporated as a Public Limited Company on September 28, 1960 and is listed on Pakistan Stock Exchange Limited. AICL has a unique advantage of having regional presence in United Arab Emirates (UAE) and maintains its standing through an unwavering commitment to its corporate philosophy. AICL's competitive advantage is achieved by a combination of having the largest paid-up capital and reserves, and a well-diversified business portfolio.

A Truly Dynamic Business Setting

AICL aims to deliver innovative customer solutions, owing to its wide-ranging line of products. Its employees are dedicated to performing their best for its valued customers, trained with all the skills necessary for a truly outstanding customer service. The Company's focus on strengthening and expanding its global presence is reflected in its tapping the growth potential available in the UAE market. AICL in collaboration with Hollard International, a South African company, has life assurance operations under a separate entity namely, Adamjee Life Assurance Company Limited.

Delivering Value to Customers

Adamjee Insurance is broadly involved in underwriting the following classes of business:

- Fire and Property
- Marine Aviation and Transport
- Motor
- Accident & Health
- Miscellaneous Insurance

As a pioneer in the coverage of Oil & Gas (upstream & midstream), Wind and Thermal Energy Risks, AICL has successfully assumed the role of the leading player in Pakistan's insurance industry. The Company has also managed to secure business being brought in by foreign investors entering Pakistan to execute construction or infrastructure development projects. AICL's confidence lies in the large number of banking and financial sector clients that AICL insures. Some of AICL's high risk-value projects include risk-coverage provision to Petrochemical Factories and Industrial Risk projects. AICL also specializes in insuring Engineering and Telecom concerns.

Alternatively, AICL serves Pakistan's primary industry by providing coverage to the Textile and Sugar sectors. AICL is proud to be the premier insurer of Kidnap & Ransom, Professional Indemnity, Product Liability and other specialized lines in Pakistan.

A wide range of Shariah-compliant Takaful Products are also offered through AICL's top-of-the-line Window Takaful Operations, serving customers from all walks of life, on a much larger scale.

AICL's customer-centric approach drives it forward in customer care. The Company's financial strength allows the timely remuneration and settlement of hefty claims. A competent team of professionals works tirelessly to ensure comprehensive customer satisfaction and a 24/7 dedicated customer care call center is always on call.

Achievements Through the Year

- IFS rating of AA+ (Double 'AA' Plus) by PACRA
- IFS rating of B + ('B' Plus) by AM Best, UK
- Certificate of ISO 9001:2015 by Lloyd's Register Quality Assurance

SEEKING GREATER HEIGHTS

Corporate Social Responsibility

CORPORATE SOCIAL RESPONSIBILITY

Adamjee Insurance's Corporate Social Responsibility (CSR) Program aims to address key concerns in society, such as health and education. The Company also stresses on reassuring its chief stakeholders of overall sustainability through compliance, ethics and corporate citizenship. These elements combined form the basis of AICL's corporate philosophy and CSR.

AICL's CSR is primarily focused on achieving compliance, upholding ethical standards, actively participating in corporate citizenship and maintaining overall sustainability. AICL has undertaken an array of initiatives, including improved communication and extensive training, to cultivate these aspects of its operations.

Compliance and Ethics

Regulations are becoming increasingly complex in light of high transparency prerequisites being enforced globally. AICL has continually striven to develop its capabilities until it can be at par with international players in the global insurance industry, meeting all necessary standards and checks. AICL's edge in the market at home lies in its strict and efficient compliance of international standards.

AICL has incessantly reiterated that its Compliance Performance Standards are applied to all areas of business. AICL ensures to increase compliance and ethical understanding throughout its management hierarchy. Initiatives taken include internal awareness campaigns, specific trainings in detailed regulatory areas and focused efforts on sensitive areas such as conflict of interest.

Health, Safety & Environment

Health, Safety and Environmental (HSE) responsibilities constitute an essential part of Adamjee Insurance's operations. These become the core of the Company's activities. Adamjee Insurance's management and

employees share the belief that good HSE contributes positively and productively to business development and success.

It is this belief that urges Adamjee Insurance to increase team efforts, endeavor for better HSE for employees, customers and neighbors. The Company also hopes to safeguard people's health and minimize the environmental impact of their jobs. AICL's HSE policy observes all existing laws, regulations and amendments.

Committed to Excellence

In an era of intense hectic competition, AICL stays afloat with its unwavering commitment to operational and financial discipline in producing unparalleled results; keeping its promises and continually fulfilling its customers' needs.

During the year, Adamjee Insurance was engaged in various activities with organizations including Rehman Keyani Memorial Foundation, Rehman Medical Institute, Hussaini Haematology and Oncology Trust, SAFCO Support Foundation, Noor Medical Center, Pakistan Agricultural Coalition, Special Olympics Pakistan and others.

Adamjee Insurance Re-creational Club organized extra-curricular activities including cricket tournaments, badminton, and tennis competition for the promotion of healthy activities among Employees and also take active participation in the insurance associations events. Annual Picnics in Pakistan & United Arab Emirates were also arranged.

The company has implemented green office initiative across its offices in Karachi and Lahore in the year 2018 and successfully conducted its first audit.

DIRECTORS' REPORT

to the Members on Unconsolidated Financial Statements

On behalf of the Board of Directors, we are pleased to present the 58th Annual Report of your Company together with the audited unconsolidated financial statements for the year ended 31 December 2018.

ECONOMIC OVERVIEW

Pakistan has seen a notable economic turnaround over the last five years. The growth momentum remained above 5% for the last two years in a row and reached 5.8% in FY2018 which is 13 years high on account of a strong performance in agriculture, industry and services sectors which grew by 3.81%, 5.80% and 6.43%, respectively.

Agriculture sector recorded a significant growth of 3.81%. Large Scale Manufacturing also recorded a growth of 6.13% highest in ten years. Industrial sector growth improved by 5.80%, highest in ten years. Manufacturing grew by 6.24% highest in 11 years. The performance of services sector witnessed a stable growth of 6.4% in last two years.

Core inflation showed an upward trend and was recorded at 5.45% p.a. against 5.07% p.a. in the corresponding year. Rising domestic demand as well as soaring commodity prices further dented the external position in FY18, stretching country's trade deficit to US\$37.5 billion. Capital inflows and worker remittances were insufficient to bridge the trade deficit, which resulted in depletion of Pakistan foreign exchange reserves from US\$20.2 billion at the start of 2018 to US\$13.8 billion by December 2018.

Concerning Pakistan Stock Exchange (PSX), the KSE-100 Index posted an absolute negative return of 8.4%, closing at 37,067 in the year 2018 as compared to 40,471 in 2017.

Standard & Poor's downgraded Pakistan's long-term credit rating to 'B-Negative' from 'B' with stable outlook.

COMPANY PERFORMANCE REVIEW

The Company's performance for 2018 remained impressive as we closed the year delivering sound financial results with a premium growth of 10% per annum. We continued to follow the strategy of sustainable growth by focusing on further strengthening the risk and compliance management.

In 2018, the gross premium increased to Rs. 20,387 million (excluding Rs. 1,101.5 million of premiums

generated through Window Takaful Operations) as compared to Rs. 18,522 million in 2017. The net premium retention was 68% amounting Rs. 13,806 million of total gross premium underwritten as compared to the net premium retention of 62% amounting Rs. 11,535 million last year.

The net claims ratio decreased to 61% from the corresponding last year ratio of 64% per annum.

The underwriting profit increased to Rs. 815.9 million from Rs. 556.8 million in the preceding year.

However, the return on investment portfolio has decreased to 6% as compared to 8% last year owing to depressed stock market conditions.

Profit before tax is reported at Rs. 2,173.5 million compared to profit before tax of Rs. 2,121 million. While the Profit after tax amounted to Rs. 1,239 million as against a Profit after tax of Rs. 1,221 million in 2017.

PORTFOLIO ANALYSIS

Fire & Property

Fire and property class of business constitutes 30% of the total portfolio. During the year, the Company has underwritten a gross premium of Rs. 6,028 million (2017: Rs. 4,947.4 million). The ratio of net claims to net premium is 32% this year as compared to 43% last year. The Company earned an underwriting profit of Rs. 175.5 million as compared to Rs. 121 million in 2017.

Marine, Aviation & Transport

This class of business constitutes 6% of the total portfolio. The Company has underwritten a gross premium of Rs. 1,341 million in current year as compared to Rs. 881 million in the last year. The net claims ratio has increased to 44% as against 26% last year, which resulted in an underwriting profit of Rs. 41.4 million against Rs. 156.2 million in 2017.

Motor

This class of business constitutes 48% of the total portfolio. During the year, the Company has underwritten a gross premium of Rs. 9,727 million as compared to Rs. 9,110 million in 2017. The ratio of net claims to net premium for the current year is 62% as compared to 69% in 2017. The portfolio showed an underwriting profit of Rs. 238 million as compared to profit of Rs. 2.3 million in 2017.

Accident & Health

The Accident & Health class of business constitutes 8% of the total portfolio. During the year, the Company has underwritten a gross premium of Rs. 1,658 million (2017: Rs. 2,039 million). The ratio of net claims to net premium was 86% as against 85% last year. This portfolio performed well and showed an underwriting profit of Rs. 84 million in the current year against Rs. 33 million in 2017.

Miscellaneous

The miscellaneous class of business constitutes 8% of the total portfolio. The gross premium showed an increase of 5.8% over last year with a gross premium written of Rs. 1,633 million (2017: Rs. 1,544 million). The ratio of net claims to net premium was 40% as against 43% last year. The portfolio showed an underwriting profit of Rs. 277 million in the current year as compared to Rs. 244 million in 2017.

INVESTMENT INCOME

Pakistan's stock market remained turbulent with a declining trend for the second year in a row. The KSE-100 index posted an absolute negative return of 8.4% during the year.

Consequently, Income from investments decreased from Rs. 1,494 million to Rs. 1,285 million.

The break-up of investment income is as under:

	2018 (Rupees in million)	2017
Dividend income	1,295	1,455
Return on fixed income securities	31	46
Income from term deposits	82	12
Gain/(Loss) on sale of 'available-for-sale' investments (net of impairment)	(123)	(19)
Net investment income	<u>1,285</u>	<u>1,494</u>

COMPANY'S ASSETS

Total assets of the Company as on 31 December 2018 stood at Rs. 47,845 million against Rs. 47,388 million (restated) last year. Total investments stood at Rs. 24,114 million as compared to Rs. 23,749 million in 2017. The management's strategy is to optimize utilization of funds to maximize investment returns.

WINDOW TAKAFUL OPERATIONS

Company's Window Takaful Operations (WTO) have completed its second full year of operations with a growth of 48% in gross written contribution at Rs. 1,101.5 million as compared to Rs. 743.4 million in the year 2017 and has made a profit after tax of Rs. 52.5 million as compared to profit of Rs. 47 million last year.

U.A.E. OPERATIONS

The Company has three fully functional branches located in Dubai, Sharjah and Abu Dhabi. The UAE branches are regulated under the relevant UAE laws applicable to the local insurance companies.

UAE operations' Profits showed an increase of 85% amounting to Rs. 207.5 million as compared to Rs.112 million in 2017 with the written gross premium of Rs. 6,973.5 million in the current financial year as against Rs. 6,546 million in 2017.

PROSPECTS FOR 2019

Insurance Industry in Pakistan has seen several peaks and troughs in the recent years. From the market performance, it is evident that insurance industry has kept pace with the development of the economy and other sectors of the industry.

2018 has been a rewarding year to us at Adamjee Insurance Co. Ltd. (AICL) as we continued on our journey of delivering sustainable and solid financial results while meeting our valuable customer's expectations.

Window Takaful Operations continued to show promising growth and results in 2018. The demand for Shariah compliant products has widely increased in most lines of business, especially, in Motor and Health and is expected to increase at healthy rates in the upcoming years.

Looking ahead, AICL is well positioned for sustainable growth and building long-term shareholder value. We will continue to invest in Digital transformation, in our technology infrastructure, in human capital and strengthening our compliance and controls environment.

China Pakistan Economic Corridor (CPEC) worth \$45.6 billion is also expected to initially facilitate growth in engineering and marine classes of general insurance industry on account of infrastructure projects. Work on projects is already underway with timelines of such projects being 5 to 15 years. CPEC comprises the following initiatives:

- 24 energy projects worth US\$ 34.4billion;
- 4 infrastructure projects worth US\$ 9.8 billion;
- Development of Gwadar port worth US\$ 800 million; and
- Formation of over 30 Special Economic Zones.

In line with our mission, we will always look to put our customers and their needs first. AICL values a strong workplace and culture that keeps people safe, rewards excellence and empowers employees to learn and contribute their best.

RISK MITIGATION

One of the vital functions in risk mitigation at Adamjee Insurance is the Physical Risk Management of fixed assets being offered for insurance, whether Industrial, Infra-structure, Commercial or Private Dwellings. In fact, the underwriters would like to have an insight about the risk crossing certain thresholds, even before issuing an insurance quotation and/or an insurance policy. This is the reason why we have a dedicated team of well qualified and experienced risk engineers who carry out the largest number of risk-surveys every year in the industry. The underwriters equipped with maximum know how can accept or reject the risk with more conviction and confidence. On accepted risks, a right price and appropriate terms are provided for the benefit of our valued customers. The recommendations made by the risk engineers help the customers in improving their processes and operations, thus mitigating the risk exposures significantly.

The Company pays particular attention to the underwriting controls. Each class of insurance is headed by qualified and experienced underwriters, who manage and control the underwriting in their respective class of business. The utmost aim in any underwriting process is to protect the bottom-line of the Company. This is achieved by accurately estimating the exposures and the

probability of future losses and thereby developing appropriate terms and conditions for each proposed risk for insurance.

Underwriting involves a number of technical controlling protocols. These protocols include, Risk Categorization Grid, defined underwriting authorities, Check Lists for underwriters, guidelines by class of business, rate monitoring mechanism, underwriting peer reviews and practice for seeking guidance on large and intricate risks from Risk Exposure Group (REG). This Group is represented by Executive Director Technical, Executive Director Commercial, Head of Claims and Compliance and Executive Director Re-Insurance. The Risk Categorization Grid defines Very High Risks, High Risks, Medium Risks and Low Risks Categories.

The Company has a very effective Reinsurance Treaty Programme in place, which along with Facultative Risk Wise arrangements provide a bespoke protection to the Company against different types of risks. Both Reinsurance and Coinsurance arrangements are effectively used as risk mitigating tools against all types of risk exposures and to augment Company's risk appetite.

MODIFICATION IN AUDITORS' REPORT

The external auditors of the Company, Messrs KPMG Taseer Hadi & Co., Chartered Accountants have issued qualified opinions in their independent auditors' reports to the members of the Company on the following audited financial statements of the Company for the year ended 31 December 2018 on account of Sales Tax on Health Insurance Premiums:

1. Unconsolidated Financial statements of the Company; and
2. Financial Statements of Window Takaful Operations of the Company; and
3. Consolidated Financial Statements of the Company.

Company's Response to modification in Auditors' report on Unconsolidated Financial statements of the Company:

As explained in detail in Note 23.1(a) to the financial statements of the Company, under the Sindh Sales Tax Act, 2011, sales tax is payable on premium on corporate health insurance policies written in the province of Sindh. 'The Insurance Association of Pakistan' (IAP) on behalf of the insurance companies has taken up the matter with the Sindh Revenue Board (SRB) and has also approached the Honorable Chief Minister, Sindh, for a favorable resolution of the matter. The matter is still in the process of review. The Company and other insurance companies carrying out corporate health insurance have not yet billed their customers for the Sindh Sales Tax since the

matter of the renewal of exemption is under discussion with sales tax authorities. The amount not yet billed by the Company, works out at Rs. 130.10 million and Rs. 93.68 million for the period from 1 July 2016 to 31 December 2017 and from 1 January 2018 to 31 December 2018, respectively (collectively Rs. 223.78 million).

Company's Response to modification in Auditors' report on Financial Statements of Window Takaful Operations of the Company:

As explained in detail in Note 15.1 to the financial statements of the Company's Window Takaful Operations, under the Sindh Sales Tax Act, 2011, sales tax is payable on contribution on corporate health insurance policies/ PMD written in the province of Sindh. 'The Insurance Association of Pakistan' (IAP) on behalf of the insurance companies has taken up the matter with the Sindh Revenue Board (SRB) and has also approached the Honorable Chief Minister, Sindh, for a favorable resolution of the matter. The matter is still in the process of review. The Operator and other insurance companies carrying out corporate health insurance have not yet billed their customers for the Sindh Sales Tax since the matter of the renewal of exemption is under discussion with sales tax authorities. The amount not yet billed by the Operator, works out at Rs. 19.87 million and Rs. 15.55 million for the period from 1 July 2016 to 31 December 2017 and from 1 January 2018 to 31 December 2018, respectively (collectively Rs.35.42 million).

Company's Response on modification in Auditor's report on Consolidated Financial Statements of the Company is provided in the Director's report to the members on Consolidated Financial Statements.

PATTERN OF SHAREHOLDING

The pattern of shareholding is annexed in the Annual Report. The format of reporting, Form 34, has been slightly amended to comply with the reporting requirements under the Code of Corporate Governance for Insurers 2016.

For the category of 'Executive', the Board of Directors has set the threshold for the year 2018. Officers in the cadre of Executive Director and above are included in the 'Executive' category, in addition to the CEO, CFO, Head of Internal Audit and Company Secretary. The threshold is reviewed by the Board annually.

EARNINGS PER SHARE

During the year under review, earnings per share was Rs.3.54 (2017: Rs. 3.49). Detailed working has been reported in Note 32 to the financial statements in this regard.

INTERNAL FINANCIAL CONTROLS AND ITS ADEQUACY

The Board has adopted policies and procedures for ensuring orderly and efficient conduct of its business including adherence to the Company's Policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records and the timely preparation of reliable financial disclosures. The system provides reasonable, though not absolute, assurance that adequate control mechanisms have been established within the operational businesses.

The Company's internal control system is commensurate with its size, scale and complexities of its operations. The Audit Committee of the Board of Directors actively reviews the adequacy and effectiveness of the internal control system and suggests improvements to strengthen the same. It also reviews the quarterly Internal Audit Reports. Internal financial controls deployed within the Company have been satisfactory throughout the year.

CSR activities

The CSR initiatives taken during the year 2018 have been separately mentioned in the annual report.

HUMAN RESOURCE

At Adamjee Insurance "It's all about People", as we truly believe that our employees are the greatest strength we have. Talent Management is a continuous process and we ensure that we hire right people on right jobs. Rewards are based on performance culture, culture is engaging and based on ethical values and ample career growth opportunities are provided to our employees.

As a result, all key employee satisfaction indicators i.e. employee productivity, engagement index, employee turnover and female diversity for 2018 are encouraging.

ISO 9001:2015 CERTIFICATION

Adamjee Insurance has always strived to enhance customer satisfaction through continually improving in its quality management system practices, processes and standards. By upgrading our system to ISO 9001:2015, Adamjee Insurance has once again assured customers that it will continue to fulfill their insurance, regulatory and quality requirements, adding even more value to its customer services. This is an upgrade from the previous version of ISO 9001:2008 standard and conferred by Lloyd's Register Quality Assurance.

There are many changes that characterize the new ISO 9001:2015, a key objective is to have a simpler, more

applicable standard, a common format and language. Furthermore, more flexibility with the core elements of ISO 14001, ISO 22000, ISO 45000, etc.

The certification has a continuation of our adherence to internationally established standards for quality system.

At Adamjee Insurance, we are fully aware of how beneficial this new standard (ISO 9001:2015) is for us which includes but not limited to enhanced organized operating environment, better working conditions, increased job satisfaction and enhanced customer satisfaction.

We have successfully achieved this Certification of ISO 9001: 2015 in August 2018.

IFS Ratings

During the year, The Pakistan Credit Rating Agency Limited (PACRA) has maintained the Insurer Financial Strength (IFS) rating of the Company as "AA+" (Double A plus). This rating denotes a very strong capacity to meet policyholder and contract obligations. Risk factors are considered modest and the impact of any adverse business and economic factors is expected to be very limited.

AM Best has also maintained "B +" IFS Rating for the Company with stable outlook which denotes a strong risk-adjusted capitalization maintained by the Company.

SUBSIDIARY COMPANY

The Company has annexed its consolidated financial statements along with its separate financial statements.

Adamjee Life Assurance Company Limited (ALACL) is a subsidiary company of Adamjee Insurance Company Ltd. (AICL) and a brief description of ALACL is given below.

ALACL was incorporated in Pakistan under the Repealed Companies Ordinance 1984 on August 4, 2008 as a public unlisted company and commenced operations from April 24, 2009. ALACL is a subsidiary of AICL and an associate of IVM Inter-surer BV who have 74.28% and 25.72% holding respectively in the capital of ALACL.

Financial performance and position of ALACL is given in the consolidated financial statements annexed to the Annual Report.

EVENTS AFTER BALANCE SHEET DATE

Post balance sheet date, the management of IVM Intersurer BV decided to exit Pakistan market and offered its stake of 25.72% in Adamjee Life Assurance Company Limited (ALACL) to the Company.

The shareholders of the Company, in its Extraordinary General Meeting held on 25 February 2019, approved the acquisition of 25.72% stake i.e. 24,059,855 ordinary shares at par value of Rs 10/- each held in the paid up capital of ALACL by IVM Intersurer BV and its 3 nominee directors at a per share price of Rs.16.68, approximately. The applicable legal and regulatory requirements/approvals are being completed/sought for the acquisition of the above referred shares and once completed, ALACL shall become a wholly owned subsidiary of Adamjee Insurance Company Limited.

RECOMMENDATION FOR DIVIDEND

An interim dividend @ 10% (Rupees 1.00 per share) (2017: @ 15% [Rupees 1.50 per share]) was paid during the year. The Board recommended final cash dividend @15% (Rupee(s) 1.50 per share) (2017: @10% [Rupees 1.00 per share]).

STATEMENT OF CORPORATE AND FINANCIAL REPORTING FRAMEWORK

The Corporate laws, rules and regulations framed there under spell out the overall functions of the Board of Directors of the Company. The Board is fully aware of its corporate responsibilities as envisaged under The Companies Act 2017, the Code of Corporate Governance for Insurers 2016 and the Listed Companies (Code of Corporate Governance) Regulations 2017 (Codes) and is pleased to give following statement:

- The financial statements, prepared by the Company, present fairly its state of affairs, the results of its operation, cash flows and changes in equity.
- The Company has maintained proper books of accounts as required under The Companies Act 2017.
- The Company has followed consistently appropriate accounting policies in preparation of the financial statements. Changes wherever made, have been disclosed and accounting estimates are on the basis of prudent and reasonable judgment.
- Financial Statements have been prepared by the Company in accordance with the International Financial Reporting Standards as applicable in Pakistan. The departure therefrom (if any), is disclosed adequately and explained.
- The system of internal control is sound and is being implemented and monitored. However, such a system is designed to manage rather than eliminate the risk of failure to achieve objectives and provide reasonable but not absolute assurance against material misstatements or loss.

- The fundamentals of the Company are strong and there are no doubts about its ability to continue as a going concern.
- Key operating and financial data for the last six years in summarized form, is included in this annual report.
- There are no statutory payments on account of taxes, duties, levies and charges which are outstanding as at 31 December 2018, except as those disclosed in the financial statements.
- The value of investments including accrued income of provident and gratuity funds on the basis of un-audited accounts as on 31 December 2018 is as follows:

	(Rupees in '000')
Provident Fund	951,849
Gratuity Fund	193,756

ACKNOWLEDGEMENT

The Company would like to thank its shareholders for the confidence they have shown in us. We express our sincere thanks to the employees, strategic partners, vendors, suppliers and customers.

AUDITORS

The present auditors, namely, Messrs KPMG Taseer Hadi & Company, Chartered Accountants, have completed its five (5) years tenure in 2018. The Board of Directors on the recommendation of the Audit Committee has proposed the appointment of Messrs Deloitte Yousuf Adil Chartered Accountants as statutory auditors for the next term.

We also appreciate the support and guidance provided by the Securities and Exchange and Commission of Pakistan and the State Bank of Pakistan.

For and on behalf of the Board

منافع منقسمہ کیلئے سفارشات

اس سال کے دوران ایک عبوری منافع منقسمہ 10% کی شرح (ایک روپیہ فی شیئر) (2017: 15% [1.50 روپے فی شیئر]) ادا کیا گیا تھا۔ بورڈ نے 15 فیصد یعنی 1.5 روپے فی شیئر کے حتمی نقد منافع منقسمہ (2017: 10% [1.00 روپے فی شیئر]) کی تجویز دی ہے۔

کارپوریٹ اور فنانشل رپورٹنگ فریم ورک اسٹیٹمنٹ

کمپنی کے بورڈ آف ڈائریکٹرز کے مجموعی افعال کارپوریٹ قوانین، قواعد و ضوابط کے تحت ہوتے ہیں۔ آپ کا بورڈ کوڈ آف کارپوریٹ گورننس فار انشوررز 2016ء اور کوڈ آف کارپوریٹ گورننس 2017ء کے تحت اپنی کاروباری ذمہ داریوں سے پوری طرح باخبر اور عمل پیرا ہے اور بصدر مسرت درج ذیل گزارشات پیش کرتا ہے:

- کمپنی کی طرف سے تیار کردہ مالیاتی گوشوارے اس کے معاملات، اس کی کاروباری سرگرمیوں کے نتائج، کیش فلو اور ایکویٹی میں تبدیلی کی مناسب عکاسی کرتے ہیں
- کمپنی نے اپنے اکاؤنٹس کے باقاعدہ کھاتے درست انداز میں برقرار رکھے جیسا کہ کمپنیز ایکٹ 2017ء کے تحت مطلوب ہے
- کمپنی نے مالیاتی گوشواروں کی تیاری میں اکاؤٹنگ کی مناسب پالیسیز کی مسلسل پیروی کی ہے۔ جہاں کہیں بھی تبدیلیاں کی گئی ہیں، ان کی نشان دہی کردی گئی ہے اور شاریاتی تخمینے مناسب اور معقول نظریات پر مبنی ہیں
- کمپنی کی طرف سے تیار کردہ مالیاتی گوشوارے اکاؤٹنگ کے بین الاقوامی معیار کے

اعتراف

کمپنی اپنے شیئر ہولڈرز کی اُن کے اعتماد کیلئے جو انھوں نے ہم پر ظاہر کیا ہے شکر گزار ہے۔ ہم ملازمین، اسٹریٹجک پارٹنرز، ویڈرز، سپلائرز اور صارفین کو اپنا پر خلوص بدیہ تشکر پیش کرتے ہیں۔

مطابق ہے، جہاں تک وہ پاکستان میں قابل اطلاق ہیں۔ اس حوالے سے کی گئی پہلو تہی کی (اگر کوئی ہو) مناسب انداز میں نشاندہی اور وضاحت کر دی گئی ہے

- انٹرل کنٹرول کا نظام مستحکم ہے اور اس کا اطلاق کیا جاتا ہے۔ رسک کا جائزہ لیا جاتا رہتا ہے تاکہ ممکنہ حد تک بڑے نقصان سے بچا جاسکے تاہم نقصان کے مکمل خاتمے کی یقین دہانی ممکن نہیں

- کمپنی کے بنیادی اصول مضبوط ہیں اور اس کے رواں دواں رہنے کے بارے میں کوئی شکوک و شبہات نہیں ہیں

- گزشتہ 6 سال کا ہم آپریٹنگ اور فنانشل ڈیٹا اس سالانہ رپورٹ میں شامل ہے
- 31 دسمبر 2018ء کو واجب الادا ڈیٹیکسز، ڈیویڈز، لیویز اور چارجز کے حوالے سے کوئی قانونی ذمہ داری نہیں، ماسوائے ان کے جو مالیاتی گوشواروں میں ظاہر کی جا چکی ہیں
- غیر آڈٹ شدہ اکاؤنٹس کی بنیاد پر انویسٹمنٹس کی قدر بشمول پروڈیونٹ اور گریجویٹ فنڈز کی جمع شدہ آمدنی 31 دسمبر 2018ء کو درج ذیل ہے:

(روپے '000 میں)	
951,849	پروڈیونٹ فنڈ
193,756	گریجویٹ فنڈ

آڈیٹرز

موجودہ آڈیٹرز بنام میسرز KPMG تاثر ہادی اینڈ کمپنی چارٹرڈ اکاؤنٹنٹس نے 2018ء میں اپنے 5 سال مکمل کر لیے ہیں۔ بورڈ آف ڈائریکٹرز نے آڈٹ کمپنی کی سفارش پر ڈیلاٹ یوسف عادل، چارٹرڈ اکاؤنٹنٹس کی آئندہ مدت کیلئے قانونی آڈیٹرز کے طور پر تقرری کی تجویز رکھی ہے۔

ہم سیکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان اور اسٹیٹ بینک آف پاکستان کی جانب سے فراہم کردہ تعاون اور رہنمائی کو بھی سراہتے ہیں۔

منجانب و برائے بورڈ

سماجی اور معاشرتی سرگرمیاں

سال 2018ء میں سماجی اور معاشرتی امور سے متعلق اقدامات سالانہ رپورٹ میں الگ سے دیے گئے ہیں۔

افراد و مسائل

آدجی میں ہم حقیقی معنوں میں یقین رکھتے ہیں کہ ہمارے تمام کارکن ہماری سب سے عظیم طاقت ہیں اور سب کچھ ”نہی کی کاوشوں کا“ نتیجہ ہے۔ ٹیلنٹ مینجمنٹ ایک مسلسل عمل ہے اور ہم ہر کام کیلئے موزون افراد کی خدمات کا حصول یقینی بناتے ہیں۔ مشاہرے اور ترقی کا دارو مدار کارکردگی سے منسلک ہیں اور ہمارے ہاں لوگوں کی شمولیت کا کلچر ہے جس کی بنیاد اخلاقی اقدار ہیں اور ہمارے کارکنان کو اپنے کیریئر کو ترقی دینے کے وافر مواقع فراہم کیے جاتے ہیں۔

نتیجے کے طور پر، تمام اہم ملازمین کے تمام تر اشارے یعنی ملازمین کی استعداد، وابستگی کی فہرست، ملازمین کی مدت میں خواتین کا تنوع برائے سال 2018ء باعث حوصلہ افزائی ہے۔

ISO 9001:2015 سرٹیفیکیشن

آدجی انشورنس کی ہمیشہ کوشش رہی ہے کہ کوالٹی مینجمنٹ سسٹم کے طور طریقوں، طریقہ کار اور معیارات کو مسلسل بہتر بناتے ہوئے اطمینان صارف کو بڑھایا جائے۔ ہمارے سسٹم کو ISO 9001:2015 تک اپ گریڈ کر کے آدجی انشورنس ایک بار پھر صارفین کو یقین دلا چکی ہے کہ وہ ان کے انشورنس، انضباطی، اور معیار کی ضروریات و شرائط کی تکمیل کے تسلسل کو نہ صرف جاری رکھے گی بلکہ اپنی صارف خدمات میں مزید بہتری لائے گی۔ یہ لائسنسڈ رجسٹرڈ کوالٹی انشورنس کی جانب سے عطا کردہ اور ISO 9001:2015 کے پچھلے ورژن سے درجہ اوپر ہے۔

کئی تبدیلیاں ہیں کہ جس سے نئے ISO 9001:2015 کو ممتاز و ممتاز کیا جاتا ہے، ایک کلیدی مقصد یہ ہے کہ ایک آسان تر، زیادہ قابل اعتماد اسٹینڈرڈ، مشترکہ عام فارمیٹ اور زبان رکھی جائے۔ مزید یہ کہ ISO 14001، ISO 22000، ISO 45000 وغیرہ کے بنیادی عناصر کے ساتھ زیادہ چمک ہو۔

یہ سند یعنی سرٹیفیکیشن کوالٹی سسٹم کیلئے بین الاقوامی طور پر قائم شدہ اسٹینڈرڈ یعنی معیارات سے ہماری وابستگی کا تسلسل رکھتی ہے۔

آدجی انشورنس میں ہم مکمل طور پر آگاہ ہیں کہ یہ نیا اسٹینڈرڈ (ISO 9001:2015) ہمارے لیے کیسے مفید ہوگا جس میں زیادہ بڑا منظم عملی ماحول، کام کرنے کیلئے بہتر صورتحال، روزگار کا زیادہ اطمینان اور زیادہ صارف اطمینان شامل ہیں لیکن یہ صرف اسی تک محدود نہیں ہے۔

ہم ISO 9001:2015 کی یہ سرٹیفیکیشن اگست 2018ء میں کامیابی سے حاصل کر چکے ہیں۔

IFS ریٹنگ

زیر جائزہ سال کے دوران پاکستان کریڈٹ ریٹنگ ایجنسی لمیٹڈ (PACRA) نے کمپنی کی انشورنس فنانسئل اسٹریٹجی (IFS) ریٹنگ "AA+" (ڈبل اے پلس) برقرار رکھی ہے۔ یہ ریٹنگ پالیسی ہولڈر اور کنٹریکٹ کے حوالے سے ذمے داریوں کی تکمیل کی انتہائی زبردست صلاحیت کی نشاندہی کرتی ہے۔ خطرات کے عوامل معمولی تصور کیے گئے اور کاروبار اور معاشی عوامل کے کسی منفی اثرات کے امکانات بہت محدود رہنے کی توقع ہے۔

AM بیٹ نے بھی کمپنی کیلئے اسٹیل آؤٹ لگ کے ساتھ "B+" IFS ریٹنگ برقرار رکھی ہے جو کمپنی کی طرف سے قائم کی گئی اسٹریٹجک رسک۔ ایڈجسٹڈ کپٹال ریزرویشن کی عکاس ہے۔

ذیلی کمپنی

کمپنی نے اپنے کچھ حتمی مالیاتی گوشوارے، اپنے مالیاتی گوشواروں کے ہمراہ منسلک کر دیے ہیں۔

آدجی لائف انشورنس کمپنی لمیٹڈ (ALAC)، آدم انشورنس کمپنی لمیٹڈ (AIC) کی ایک ذیلی کمپنی ہے اور ALAC کا مختصر تعارف درج ذیل ہے۔

ALAC 04 اگست 2008ء کیلینڈر آؤٹینس 1984ء (اب منسوخ) کے تحت پاکستان میں ایک پبلک آن لیسٹ کمپنی کے طور پر قائم کیا گیا اور اس نے 24 اپریل 2009ء سے کاروبار کا آغاز کیا۔ ALAC، AIC کا ایک ذیلی ادارہ اور IVM انشورنس BV کی ایک ایسوسی ایٹ ہے جو ALAC کے کپٹل میں بالترتیب 74.28 فیصد اور 25.72 فیصد ہولڈنگ کی حامل ہے۔

ALAC کی فنانشل پرفارمنس اور پوزیشن سالانہ رپورٹ کے مالیاتی گوشواروں کے ضمیموں میں دی گئی ہے۔

تاریخ میزانیہ کے بعد کے واقعات

تاریخ میزانیہ کے بعد، آئی وی ایم انٹرسیورر بی وی (IVM Intersurer BV) کی انتظامیہ نے پاکستان مارکیٹ سے اخراج کا فیصلہ کیا اور آدجی لائف انشورنس کمپنی لمیٹڈ (ALACL) میں 25.72 فیصد کے حصے کو آپ کی کمپنی کو پیش کر دیا۔

کمپنی کے شیئر ہولڈرز نے مورخہ 25 فروری 2019ء کو منعقدہ اس کے غیر معمولی اجلاس عام میں 25.72 فیصد یعنی 24,059,855 عمومی شیئرز - 10 روپے فی شیئر کی پارولیو آئی وی ایم انٹرسیورر بی وی اور اس کے 3 نامزد کردہ ڈائریکٹرز کی جانب سے تقریباً 16.68 روپے فی شیئر کی قیمت پر ALACL کے ادا شدہ سرمائے میں رکھے شیئرز کے حصول کی منظوری دے دی۔ لاگو قانونی اور انضباطی شرائط منظور کیا حوالہ شدہ درج بالا شیئرز کے حصول کیلئے مکمل کی جارہی ہیں اور ایک بار جب عمل تکمیل پا گیا تو ALACL آدجی انشورنس کمپنی لمیٹڈ کا مکمل ملکیتی ذیلی ادارہ بن جائے گا۔

کے لحاظ سے انتظامات کے ساتھ خطرات کی مختلف اقسام کے خلاف کمپنی کو سفارش کردہ حفظ فراہم کرتا ہے۔ ری۔ انشورنس اور کو۔ انشورنس انتظامات دونوں اقسام کے خطرات کے سامنے کے خلاف خطرات کی تخفیف کے آلات کے طور پر مؤثر انداز سے استعمال کیے جاتے ہیں۔

آڈیٹرز رپورٹ میں ترمیم

کمپنی کے ایکسٹرنل آڈیٹرز، میسرز کے پی ایم جی تاثیر ہادی اینڈ کمپنی چارٹرڈ اکاؤنٹنٹس نے اپنی آزادانہ رپورٹس میں جو کہ انھوں نے کمپنی کے ممبرز کو مشروط خیالات، ہیلیتھ انشورنس پریکٹس پر سلیکٹس کے سلسلے میں 31 دسمبر 2018ء کو ختم شدہ سال کیلئے کمپنی کے درج ذیل آڈٹ شدہ مالیاتی گوشواروں پر جاری کیے ہیں:

1. کمپنی کے غیر حتمی مالیاتی گوشوارے
2. کمپنی کے ونڈ وکفال آپریشنز کے مالیاتی گوشوارے، اور
3. کمپنی کے یکجا حتمی مالیاتی گوشوارے

کمپنی کے غیر حتمی مالیاتی گوشواروں پر آڈیٹرز رپورٹ میں ترمیم پر کمپنی کا رد عمل:

سندھ سلیکٹس ایکٹ، 2011ء کے تحت کمپنی کے مالیاتی گوشواروں کی طرف نوٹ (a) 23.1 میں موجود وضاحت کردہ تفصیل کے مطابق، سلیکٹس صوبہ سندھ میں تحریر کردہ کارپوریٹ ہیلیتھ انشورنس پالیسیز پر بیمہ پروا واجب الادا ہے۔ انشورنس کمپنیز کی طرف سے انشورنس ایسوسی ایشن آف پاکستان (آئی اے پی) نے یہ مسئلہ سندھ ریونیو بورڈ (ایس آر بی) میں اٹھایا ہے اور جناب وزیر اعلیٰ سندھ سے بھی رجوع کیا ہے تاکہ مسئلہ کا سازگار حل حاصل ہو۔ یہ مسئلہ اب تک زیر غور ہے۔ کمپنی اور دیگر انشورنس کمپنیز جو کارپوریٹ ہیلیتھ انشورنس کی قیاد کر رہے ہیں، سندھ سلیکٹس کیلئے اُن کے صارفین کو اب تک بل ارسال نہیں کیے گئے ہیں کیونکہ استثناء کی تجدید کا معاملہ سلیکٹس حکام کے ساتھ زیر بحث ہے۔ کمپنی کی جانب اب تک صارفین کو یکم جولائی 2016ء تا 31 دسمبر 2017ء 130.10 ملین روپے اور یکم جنوری 2018ء تا 31 دسمبر 2018ء 93.68 ملین روپے (کل رقم 223.78 ملین روپے) ادا کرنے کا نہیں کہا ہے۔

کمپنی کے ونڈ وکفال آپریشنز کے مالیاتی گوشواروں پر آڈیٹرز رپورٹ میں ترمیم پر کمپنی کا رد عمل:

سندھ سلیکٹس ایکٹ، 2011ء کے تحت کمپنی کے ونڈ وکفال آپریشنز کے مالیاتی گوشواروں کی طرف نوٹ 15.1 میں موجود وضاحت کردہ تفصیل کے مطابق، صوبہ سندھ میں تحریر کردہ کارپوریٹ ہیلیتھ انشورنس پالیسیز/ پی ایم ڈی پرجع کی جانے والی رقم پر سلیکٹس واجب الادا ہے۔ انشورنس کمپنیز کی جانب سے انشورنس ایسوسی ایشن آف پاکستان نے یہ معاملہ سندھ ریونیو بورڈ کے ساتھ اٹھایا ہے اور اس کے سازگار اور موافق حل کیلئے جناب وزیر اعلیٰ سندھ سے بھی رجوع کیا ہے۔ یہ معاملہ اب تک جائزے کے عمل سے گزر رہا ہے۔ آپریٹرز اور دیگر انشورنس کمپنیز جو کارپوریٹ ہیلیتھ انشورنس کی قیاد کرتے ہیں نے سندھ سلیکٹس کیلئے اُن کے صارفین کو اب تک بل

ارسال نہیں کیے ہیں کیونکہ استثناء کی تجدید کا معاملہ سلیکٹس حکام کے ساتھ زیر بحث ہے۔ آپریٹرز کی جانب سے بل نہیں کیے گئے کی مالیت یکم جولائی 2016ء سے 31 دسمبر 2017ء تک کے عرصے کیلئے 19.87 ملین روپے اور یکم جنوری 2018ء سے 31 دسمبر 2018ء تک 15.56 ملین روپے (مجموعی طور پر 35.42 ملین روپے) بنتی ہے۔

کمپنی کے یکجا حتمی مالیاتی گوشواروں پر آڈیٹرز رپورٹ میں ترمیم پر کمپنی کا رد عمل یکجا حتمی مالیاتی گوشواروں پر ممبرز کی طرف ڈائریکٹرز رپورٹ میں فراہم کردی گئی ہے۔

شیئر ہولڈنگ کا اسلوب

کوڈ آف کارپوریٹ گورننس فار انشوررز 2016ء کے تحت رپورٹنگ شرائط کے ساتھ مطابقت کی غرض سے رپورٹنگ کے فارمیٹ، فارم 34 میں معمولی سی ترمیم کی جارہی ہے۔ شیئر ہولڈنگ کا اسلوب اس سالانہ رپورٹ میں منسلک کر دیا گیا ہے۔

”ایگزیکٹو“ کی کیلگری کیلئے، بورڈ آف ڈائریکٹرز نے سال 2018ء کیلئے حد کا تعین کر دیا ہے۔ ایگزیکٹو ڈائریکٹرز اور اُس سے اوپر کے منصب کے افسران، ایگزیکٹو کیلگری میں شامل ہوں گے۔ اس کے علاوہ سی ای او، سی ایف او، ہیڈ آف انٹرل آڈٹ اور کمپنی سیکریٹری بھی اس میں شامل ہیں۔ اس حد کو سالانہ بورڈ کی جانب سے زیر جائزہ لایا جاتا ہے۔

فی شیئر آمدنی

زیر جائزہ سال کے دوران فی شیئر آمدنی 3.52 روپے رہی (2017ء میں 3.49 روپے)۔ اس حوالے سے تفصیل ورکنگ مالیاتی گوشواروں کے نوٹ 31 میں درج ہے۔

اندرونی مالیاتی نظم و نسق

بورڈ نے اس کے کاروبار کے منظم اور مؤثر طور پر رواں رکھنے کیلئے حکمت ہائے عملی اور طریق ہائے کار کو اختیار کیا ہے جس میں کمپنی کی حکمت ہائے عملی سے وابستگی، اس کے اثاثہ جات کی حفاظت، فراڈ اور غلطیوں کا تدارک اور کھوج، اکاؤنٹنگ ریکارڈز کی درستگی اور مکمل اور قابل اعتبار مالیاتی افشاء کی بروقت تیاری شامل ہیں۔ یہ نظام معقول یقین دہانی کراتا ہے کہ کاروبار ہائے عملی کے اندر مناسب کنٹرول میکانزم قائم کر دیئے گئے ہیں۔

کمپنی کا انٹرل کنٹرول سسٹم (اندرونی نظام اختیار) اس کی سرگرمیوں اور افعال کی جسامت، پیمانے اور پیچیدگیوں سے مطابقت رکھتا ہے۔ بورڈ آف ڈائریکٹرز کی آڈٹ کمیٹی اندرونی نظام اختیار کی موثریت اور مؤثریت کا فعال طور پر جائزہ لیتی ہے اور اسے مزید بہتر بنانے کی تجویز پیش کرتی ہے تاکہ اسے مستحکم کیا جائے۔ وہ سہ ماہی انٹرل آڈٹ رپورٹس کی نظر ثانی بھی کرتی ہے۔ کمپنی میں اندرونی مالیاتی اختیارات جو بروئے کار لائے گئے وہ پورے سال اطمینان بخش رہے۔

بورڈ کمیٹیز کے ممبرز

بورڈ کمیٹیز کے ممبرز درج ذیل ہیں:

خطرے کی تخفیف (Risk Mitigation):

آدجی انشورنس میں اہم ترین امور میں سے ایک خطرے کی تخفیف میں مقررہ اثاثہ جات کے طبعی خطرات کی نظم کاری ہے جسے بیمہ یعنی انشورنس کیلئے پیش کیا جاتا ہے۔ چاہے وہ صنعتی ہو، انفراسٹرکچر ہو، تجارتی ہو یا نجی رہائش ہو۔ حقیقتاً انڈر رائٹرز (یعنی ضامن) پسند کریں گے کہ وہ خطرات سے متعلق کچھ حدود کا علم حاصل کر لیں اس سے قبل کہ وہ کوئی انشورنس کوٹیشن اور/یا کوئی انشورنس پالیسی جاری کریں۔ یہی وجہ ہے کہ ہمارے پاس انتہائی قابل اور تجربہ کار رسک انجینئرز کی مخصوص ٹیم موجود ہے جو اس صنعت میں ہر سال بہت بڑی تعداد میں رسک سروسز کرتی ہے۔ انڈر رائٹرز جو زیادہ سے زیادہ معلومات سے آراستہ ہوں وہی زیادہ یقین اور اعتماد کے ساتھ خطرات کو قبول یا مسترد کر سکتے ہیں۔ قبول کردہ خطرات پر، درست قیمت اور مناسب شرائط ہمارے قابل قدر صارفین کے مفاد کیلئے فراہم کیے جاتے ہیں۔ رسک انجینئرز کی جانب سے گئی سفارشات صارفین کو ان کے پروسیسز اور آپریشنز کو بہتر بنانے میں مدد دیتی ہیں۔ لہذا خطرات میں کمی و تخفیف کیلئے اچھی خاصی مدد کی جاتی ہے۔

کمپنی انڈر رائٹنگ کنٹرولز پر خاص توجہ مرکوز کرتی ہے۔ انشورنس کی ہر قسم کی سربراہی مستند اور تجربہ کار انڈر رائٹرز کرتے ہیں جو ان کے متعلقہ قسم کے کاروبار میں انڈر رائٹنگ کو کنٹرول اور منیج کرتے ہیں۔ کسی بھی انڈر رائٹنگ پروسیس کا سب سے اہم مقصد کمپنی کی ضمانت کی حفاظت ہے۔ یہ خطرات کے درست تخمینے اور مستقبل میں نقصانات کے امکان کی صحیح جانچ سے حاصل کیا جاتا ہے اور اس کے ذریعے انشورنس کیلئے ہر مجوزہ خطرے کیلئے مناسب شرائط و ضوابط کی تشکیل دی جاتی ہیں۔

انڈر رائٹنگ میں کئی ٹیکنیکل کنٹرولنگ پروڈکٹس شامل ہوتے ہیں۔ ان پروڈکٹس میں رسک کیلکولیشن گروڈ، واضح شدہ انڈر رائٹنگ اتھارٹیز، انڈر رائٹرز کیلئے چیک لسٹس، کاروباری قسم کے حساب سے گائیڈ لائنز، ریٹ مانیٹرنگ میکانزم، انڈر رائٹنگ ہیئر ریویوز اور رسک ایکسپوزر گروپ (آر ای جی) کی طرف سے بڑے بڑے اور پیچیدہ خطرات پر رہنمائی کے حصول کیلئے مشق شامل ہیں۔ اس گروپ کی ترہائی ایگزیکٹو ڈائریکٹریٹیکل، ایگزیکٹو ڈائریکٹر کرشل، ہیڈ آف گلوبل اور کمپلائنس اینڈ ایگزیکٹو ڈائریکٹری۔ انشورنس کی جانب سے کی جاتی ہے۔ رسک کیلکولیشن بلنڈ خطرات، بلنڈ خطرات درمیانے خطرات اور کم خطرات کیلکولیشن کی نشاندہی کرتی ہے۔

کمپنی کے پاس ایک انتہائی مؤثر ری۔ انشورنس ٹریٹی پروگرام نافذ ہے، جو کہ اختیاری خطرات

ونڈوٹکافل آپریشنز

کمپنی کے ونڈوٹکافل آپریشن (WTO) نے سال 2017ء میں 743.4 ملین روپے کے مقابلے میں 1,101.5 ملین روپے پر مجموعی تحریر کردہ شراکت میں 48 فیصد کے اضافے کے ساتھ اپنی سرگرمیوں اور اُمور کار کے دو مکمل برسوں کی تکمیل کر لی ہے اور پچھلے سال 47 ملین روپے کے منافع کے مقابلے میں 52.5 ملین روپے کا بعد از ٹیکس منافع حاصل کیا۔

متحدہ عرب امارات کے اُمور کار

کمپنی کی دی، شارجہ اور ابوظہبی میں تین مکمل طور پر فعال برانچز واقع ہیں۔ متحدہ عرب امارات برانچز مقامی بینکنیز پر لاگو متحدہ عرب امارات کے متعلقہ قوانین کے تحت منضبط کی جاتی ہیں۔

متحدہ عرب امارات کے منافع میں پچھلے سال کے 112 ملین روپے سے 85 فیصد اضافہ ہوا یعنی 207.5 ملین روپے کا منافع 2018ء میں ہوا۔ مجموعی پریمیم 2018ء میں 6973.5 ملین روپے تحریر ہوا جو کہ گزشتہ سال 6,546 ملین روپے تھا۔

2019ء کیلئے امکانات

پاکستان میں بیمہ صنعت نے حالیہ برسوں میں کئی نشیب و فراز دیکھے ہیں۔ مارکیٹ کی کارکردگی سے یہ واضح ہے کہ بیمہ صنعت نے معیشت اور صنعت کے دیگر شعبہ جات کی نشوونما کے ساتھ قدم سے قدم ملا رکھا ہے۔

2018ء آدھی انشورنس کمپنی لمیٹڈ کے لیے کافی نفع بخش سال ثابت ہوا ہے کیونکہ ہم نے اپنے قابل قدر صارفین کی توقعات کی تکمیل کرتے ہوئے پائیدار اور ٹھوس مالیاتی نتائج کی فراہمی کے اپنے سفر کو تسلسل کے ساتھ جاری رکھا ہوا ہے۔

ونڈوٹکافل آپریشنز نے 2018ء میں اُمید افزا نمو اور نتائج جاری رکھے۔ شریعہ موافق پروڈکٹس کیلئے طلب کاروں کے زیادہ تر شعبوں میں وسیع طور پر بڑھی ہے خاص طور پر گاڑیوں اور صحت کے شعبے میں اور آئندہ برسوں میں توقع ہے کہ وہ صحت مندانہ شراکتوں سے بڑھتی رہے گی۔

مستقبل میں، آدھی انشورنس پائیدار نمو اور طویل مدتی شیئر ہولڈروں کی تعمیر و تشکیل کرنے کیلئے موجود ہے۔ ہم ڈیجیٹل ٹرانسفارمیشن، ٹیکنالوجی، انفراسٹرکچر، انسانی سرمائے میں مسلسل سرمایہ کاری کرتے رہیں گے۔ اور ہمارے کمپلائنس اینڈ کنٹرول ماحول کو مزید مستحکم کریں گے۔

45.6 بلین ڈالر مالیت کی پاک چین اقتصادی راہداری (سی پیک) سے بھی توقع ہے کہ وہ انجینئرنگ اور انفراسٹرکچر منصوبوں کے سبب ہنزل انشورنس انڈسٹری کی میرین کلاسز میں ترقی و نمو کیلئے ابتدائی طور پر سہولت بہم پہنچائے گی۔ منصوبوں پر کام کا آغاز پہلے ہی ہو چکا ہے اور ایسے منصوبوں کی مدت 5 سے 15 سال تک ہے۔ سی پیک درج ذیل منصوبوں پر مشتمل ہے:

- 34.4 بلین ڈالر کے 24 توانائی کے منصوبے
- 9.8 بلین ڈالر مالیت کے 4 انفراسٹرکچر منصوبے
- 800 ملین ڈالر مالیت کے گوادریورٹ کی تعمیر و ترقی، اور
- 30 خصوصی اقتصادی زونز سے زائد کی تشکیل

ہمارے مشن سے ہم آہنگ، ہم ہمیشہ اپنے صارفین اور ان کی ضروریات کو اولین ترجیح دیتے رہیں گے۔ آدھی انشورنس مستحکم جائے روزگار کو اہمیت دیتی ہے اور ایسے کلچر کی قدر کرتی ہے کہ جو لوگوں کو محفوظ رکھے، اچھے کاموں پر بہت افزائی کرے اور ملازمین کو سیکھنے کا اختیار دے اور ان کی بہتری میں حصے دار بنے۔

ڈائریکٹرز

انویسٹمنٹ انکم کی بریک آپ حسب ذیل ہے:

2017	2018	
(ملین روپے میں)		
1,455	1,295	ڈیویڈنڈ سے انکم
46	31	فلسفہ انکم سیوریٹیز پر منافع
12	82	ٹرم ڈپازٹس سے آمدن
(19)	(123)	”دستیاب برائے فروخت“ کی فروخت پر منافع / (نقصان) (تخفیف کے بعد)
1,494	1,285	انویسٹمنٹ سے خالص انکم

کمپنی کے اثاثے

31 دسمبر 2018ء کو کمپنی کے مجموعی اثاثے 47,845 ملین روپے رہے جو گزشتہ سال 47,388 ملین روپے (نومرتب شدہ) تھے۔ مجموعی انویسٹمنٹ 2017ء میں 23,749 ملین روپے کے مقابلے میں 24,114 ملین روپے رہی۔ انتظامیہ کی حکمت عملی ہوگی کہ فنڈز کو زیادہ سے زیادہ استعمال میں لاکر سرمایہ کاری پر منافع جات کو زیادہ سے زیادہ بڑھایا جائے۔

متفرق

بزنس کی متفرق کلاس مجموعی پورٹ فولیو کے 8 فیصد پر مشتمل ہے۔ 1,633 ملین روپے کے مجموعی پرییم کے ساتھ گزشتہ سال کے مقابلے میں 5.8 فیصد اضافہ ظاہر کیا (2017ء: 1,544 ملین روپے)۔ خالص پرییم پر خالص کلیمز کی شرح پچھلے سال کے 43 فیصد کے مقابلے میں 40 فیصد ہے۔ اس پورٹ فولیو نے 2017ء میں 244 ملین روپے کے منافع کے مقابلے میں موجودہ سال 277 ملین روپے کا انڈر رائٹنگ منافع ظاہر کیا۔

انویسٹمنٹ سے آمدنی

پاکستان کی اسٹاک مارکیٹ لگاتار دوسرے سال میں بھی کمی کے رجحان کے ساتھ مشکلات سے دوچار رہی۔ کے ایس ای-100 انڈیکس دوران سال 8.4 فیصد کے مطابق منفی رجحان ظاہر کر چکا ہے۔

نتیجتاً سرمایہ کاریوں سے آمدن 1,494 ملین روپے سے کم ہو کر 1,285 ملین روپے ہو گئی۔

تاہم انویسٹمنٹ پورٹ فولیو پر منافع پچھلے سال کے 8 فیصد کے مقابلے میں اس سال کم ہو کر 6 فیصد ہو گیا جس کی وجہ اسٹاک مارکیٹ میں مایوس کن صورتحال تھی۔

منافع قبل از ٹیکس گزشتہ سال 2,121 ملین روپے کے مقابلے میں 2,173.5 ملین روپے ظاہر کیا گیا۔ جبکہ منافع بعد از ٹیکس کی مالیت 2017ء میں 1,221 ملین روپے کے مقابلے میں 1,239 ملین روپے رہی۔

پورٹ فولیو کا تجزیہ

فائز ایڈز پراپرٹی

فائز ایڈز پراپرٹی کلاس کا برنس مجموعی پورٹ فولیو کے 30 فیصد پر مشتمل ہے۔ اس سال کے دوران کمپنی نے 6,028 ملین روپے کا مجموعی پرییم انڈر رائٹ کیا ہے (2017: 4,947.4 ملین روپے)۔ اس سال خالص پرییم پر خالص کلیمز کی شرح گزشتہ سال کے 43 فیصد کے مقابلے میں 32 فیصد رہی۔ کمپنی نے 2017ء میں 121 ملین روپے کے انڈر رائٹنگ منافع کے مقابلے میں 175.5 ملین روپے انڈر رائٹنگ منافع حاصل کیا۔

موٹر

برنس کی یہ کلاس مجموعی پورٹ فولیو کے 48 فیصد پر مشتمل ہے۔ اس سال کے دوران کمپنی نے 2017ء میں 9,110 ملین روپے کے مقابلے میں 9,727 ملین روپے کا مجموعی پرییم انڈر رائٹ کیا ہے۔ خالص پرییم پر خالص کلیمز کی شرح 2017ء میں 69 فیصد کے مقابلے میں 62 فیصد رہی۔ پورٹ فولیو نے 2017ء میں 2.3 ملین روپے کے مقابلے میں 238 ملین روپے کا انڈر رائٹنگ منافع ظاہر کیا۔

میرین، ایوی ایشن ایڈز ٹرانسپورٹ

برنس کی یہ کلاس مجموعی پورٹ فولیو کے 6 فیصد پر مشتمل ہے۔ اس سال کے دوران کمپنی نے گزشتہ سال میں 881 ملین روپے کے مقابلے میں 1,341 ملین روپے کا مجموعی پرییم انڈر رائٹ کیا ہے۔ خالص پرییم پر خالص کلیمز کی شرح گزشتہ سال کی 26 فیصد شرح کے مقابلے میں 44 فیصد تک بڑھی، جس کے نتیجے میں 2017ء میں 156.2 ملین روپے کے مقابلے میں اس سال انڈر رائٹنگ منافع 41.4 ملین روپے رہا۔

ایکسیڈنٹ اینڈ ہیلتھ

ایکسیڈنٹ اینڈ ہیلتھ کلاس مجموعی پورٹ فولیو کے 8 فیصد پر مشتمل ہے۔ اس سال کے دوران کمپنی نے 1,658 ملین روپے (2017: 2,039 ملین روپے) کا مجموعی پرییم انڈر رائٹ کیا ہے۔ خالص پرییم پر خالص کلیمز کی شرح پچھلے سال کے 85 فیصد کے مقابلے میں 86 فیصد ہے۔ اس پورٹ فولیو نے 2017ء میں 33 ملین روپے کے مقابلے میں موجودہ سال 84 ملین روپے کا انڈر رائٹنگ منافع ظاہر کیا۔

ڈائریکٹرز کی رپورٹ

غیر حتمی مالیاتی گوشواروں پر ارکان کے لیے ڈائریکٹرز کی رپورٹ

2018ء میں مجموعی پرییم 20,387 ملین تک پہنچا (ونڈ وٹاکفل آپریشنز سے حاصل کردہ 1,101.5 ملین روپے پرییم کے علاوہ) جو کہ سال 2017ء میں 18,522 ملین تھا۔ خالص برقراری پرییم (Net premium retention) 13,806 ملین روپے مالیت کے ساتھ انڈر رائٹ کیے جانے والے مجموعی پرییم کا 68 فیصد تھا، جب کہ اس کے مقابلے میں پچھلے سال کا خالص برقراری پرییم 11,535 ملین روپے تھا جو کہ مجموعی پرییم کا 62 فیصد تھا۔

بورڈ آف ڈائریکٹرز کی جانب سے 31 دسمبر 2018ء کو ختم ہونے والے سال کے لیے کمپنی کی 58 ویں سالانہ رپورٹ آڈٹ شدہ غیر حتمی مالیاتی گوشواروں کے ساتھ پیش کرنا ہمارے لیے باعث مسرت ہے۔

معاشی جائزہ

پچھلے پانچ برسوں کے دوران پاکستان میں خاطر خواہ معاشی و اقتصادی تبدیلیاں رونما ہوئی ہیں۔ گزشتہ مسلسل دو برسوں کیلئے ترقی کی رفتار 5 فیصد رہی اور مالی سال 2018ء میں 5.8 فیصد پر پہنچ گئی جو کہ 13 برسوں میں سب سے زیادہ تھی جس کی وجہ زراعت، صنعت اور خدمات کے شعبوں میں مستحکم کارکردگی تھی جو بالترتیب 3.81 فیصد، 5.8 فیصد اور 6.43 فیصد تک بڑھ گئی۔

زراعت کے شعبے میں 3.81 فیصد کی نمایاں شرح نمو ظاہر کی گئی ہے۔ بڑے پیمانے پر اشیاء سازی (لارج اسکیل مینوفیکچرنگ) میں دس برسوں کی بلند ترین 6.13 فیصد کی شرح نمو ریکارڈ کی گئی ہے۔ صنعتی شعبے کی ترقی بھی دس برسوں میں بلند ترین 5.8 فیصد سطح تک بہتر ہوئی ہے۔ اشیاء سازی (مینوفیکچرنگ) 11 برسوں کی بلند ترین 6.24 فیصد سطح تک بڑھی۔ خدمات کے شعبے کی کارکردگی میں پچھلے دو برسوں میں 6.4 فیصد کی مستحکم شرح نمو ریکارڈ کی گئی۔

بنیادی افراط زر میں تیزی کا رجحان دیکھا گیا اور مطابقتی سال میں 5.07 فیصد سالانہ کے مقابلے میں 5.45 فیصد سالانہ ریکارڈ کیا گیا۔ بڑھتی ہوئی ملکی طلب کے ساتھ ساتھ اشیاء خورد و نوش کی بڑھتی قیمتوں نے مالی سال 18ء میں بیرونی صورتحال کو مزید دھچکا پہنچاتے ہوئے ملک کے تجارتی خسارے کو 37.5 بلین ڈالر تک پہنچا دیا۔ سرمائے کی ملک میں آمد اور محنت کشوں کی ترسیلات زر بھی تجارتی خسارے کو کم کرنے میں ناکافی رہے جس کا نتیجہ یہ نکلا کہ پاکستان کے غیر ملکی زر مبادلہ کے ذخائر 2018ء کے آغاز میں 20.2 بلین امریکی ڈالر سے کم ہو کر دسمبر 2018ء تک 13.8 بلین امریکی ڈالر رہ گئے۔

جہاں تک پاکستان اسٹاک ایکسچینج (پی ایس ایکس) کا تعلق ہے، کے ایس ای-100 انڈیکس میں 2017ء میں 40,471 کے مقابلے میں اس سال 2018ء میں 37,067 پر اختتام ہوا یعنی 8.4 فیصد کا مطلق منفی رجحان رہا۔

اسٹینڈرڈ اینڈ پورز نے پاکستان کی طویل مدتی کریڈٹ ریٹنگ مستحکم توقع کے ساتھ ”B“ (بی) سے ”B-ve“ (منفی بی) کر دی۔

کمپنی کی کارکردگی کا جائزہ

2018ء میں کمپنی کی کارکردگی متاثر کن رہی جیسا کہ ہم نے سال کے اختتام پر پرییم میں سالانہ 10 فیصد کے حساب سے اضافے کے ساتھ اچھے مالی نتائج فراہم کیے۔ ہم نے رسک اور کمپلائنس مینجمنٹ کے مزید استحکام پر توجہ دیتے ہوئے پائیدار نمو کی حکمت عملی کی پیروی کے تسلسل کو برقرار رکھا۔

نیٹ کلیمز ریشٹو (یعنی دعوؤں کا خالص تناسب) پچھلے سال کے مقابلے میں 64 فیصد سالانہ سے کم ہو کر 61 فیصد سالانہ ہو گیا۔

انڈر رائٹنگ کا منافع گزشتہ سال کے 556.8 ملین روپے سے بڑھ کر 815.9 ملین روپے تک ہو گیا۔

Independent Auditor's Report

TO THE MEMBERS OF ADAMJEE INSURANCE COMPANY LIMITED REVIEW REPORT TO THE STATEMENT OF COMPLIANCE CONTAINED IN CODE OF CORPORATE GOVERNANCE FOR INSURERS, 2016 AND LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2017

We have reviewed the enclosed Statement of Compliance with the Code of Corporate Governance for Insurers, 2016 and the Listed Companies (Code of Corporate Governance) Regulations, 2017 (the Regulations) prepared by the Board of Directors of Adamjee Insurance Company Limited for the year ended 31 December 2018 in accordance with the requirements of regulation 40 of the Regulations. The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended 31 December 2018.

UNCONSOLIDATED

Financial Statements
for the Year ended
31 December 2018

INDEPENDENT AUDITORS' REPORT

To the members of Adamjee Insurance Company Limited (the Company)

Report on the Audit of the Unconsolidated Financial Statements

Qualified Opinion

We have audited the annexed unconsolidated financial statements of **Adamjee Insurance Company Limited (the "Company")**, which comprise the unconsolidated statement of financial position as at 31 December 2018, and the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement for the year then ended, and notes to the unconsolidated financial statements, including a summary of significant accounting policies and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement together with the notes forming part thereof, conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of Company's affairs as at 31 December 2018 and of the profit, total comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Qualified Opinion

As more fully explained in note 23.1 (a) to the unconsolidated financial statements, sales tax liability of Rs. 223.78 million has not been recorded in the unconsolidated financial statements as of 31 December 2018. This amount has not been charged by the Company to its customers since the matter of the renewal of exemption is under discussion with the sales tax authorities. IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' requires that provision should be recognized when the entity has a present legal obligation as a result of past event. Accordingly, had the sales tax liability been recorded, profit after tax for the year and equity of the Company as of 31 December 2018 would have reduced by Rs. 223.78 million, while the sales tax liability as of the year end would have increased by the same amount (excluding the amount of penalty, if levied).

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of the Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements for the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section we have determined the matters described below to be the key audit matters to be communicated in our report.

Following are the key audit matters:

S. #	Key audit matter(s)	How the matter was addressed in our audit
1	Changes in accounting policies due to introduction of Insurance Rules, 2017 and Insurance Accounting Regulations, 2017 Refer note 3.1.1 to the unconsolidated financial statements for changes in accounting policies due to introduction of Insurance Rules, 2017 and Insurance Accounting Regulations, 2017. Insurance Rules, 2017 and Insurance Accounting Regulations, 2017 became effective for the year ended 31 December 2018. These regulations contained a new format of unconsolidated financial statements and changed the presentation basis. These changes also required changes in basis of valuation of various investments. Because of the significance of the ‘change’, this was identified as key audit matter.	Our audit procedures in respect of this matter included the following: • Evaluated the adequacy and completeness of the disclosures relating to changes in accounting policies and adjustments required in accordance with accounting and reporting standards as applicable in Pakistan; and • Evaluated the adequacy and completeness of additional disclosures as required under new accounting regulations.
2	Classification, Valuation and Impairment of Investments Refer note 3.13, 8, 9 and 10 to the unconsolidated financial statements relating to classification, Valuation and Impairment of Investments. The Company’s investment portfolio comprise of government debt securities, equity securities (quoted and unquoted), other fixed income securities and term deposits. Investments classified as available for sale represent 79.79 % of the total investments while investments classified as held to maturity represent 20.21 % of total investments. We identified the classification, valuation and impairment of investments as key audit matter because of the significance of investments and management’s judgment involved in classification, valuation (for unquoted investment only) and impairment.	Our audit procedures in respect of this matter included the following: • Obtained an understanding, evaluated the design and tested the operating effectiveness of controls designed for classification and valuation of investments and for impairment of investments classified as available for sale; • Tested, on a sample basis, specific investments buying and selling transactions and classification recorded with underlying documentation; • Assessed the methodology used and evaluated the valuation of debt securities using the market yield pricing methodology based on interpolation of relevant rates and valuation of quoted equity securities and mutual fund units by comparing the quoted prices of Pakistan Stock Exchange and Mutual Fund Association of Pakistan (MUFAP) respectively for the securities; • Evaluated the professional valuer’s competence, capabilities and objectivity and assessed the appropriation of methodology used by the professional valuer engaged by the Company to estimate the fair value of unquoted investment; • Assessed the reasonableness of the input data provided by management to the professional valuer and tested the mathematical accuracy of the model; • Involved our internal valuation specialist to assist us in evaluating the assumptions and judgements adopted by the professional valuer in its discounted cash flow analysis used to derive the fair value of investment in unquoted equity; and • Assessed the appropriateness of impairment in the value of available for sale securities held by the Company in accordance with

S. #	Key audit matter(s)	How the matter was addressed in our audit
		accounting and reporting standards as applicable in Pakistan.
3	Revenue Recognition Risk Refer note 3.12, 24 and 28 to the unconsolidated financial statements relating to revenue recognition. The Company receives its revenue primarily from two main sources namely; premiums and investments income. Premiums from insurance policies comprise of 90.37 % of the total revenue. We identified revenue recognition as a key audit matter as it is one of the key performance indicators of the Company and because of the potential risk that revenue transactions may not be recognized in the appropriate period.	Our audit procedures in respect of this matter included the following: • Obtained the understanding, evaluated the design and tested the controls over the process of capturing, processing and recording of premiums and investment income; • Assessed the appropriateness of the Company's accounting policy for recording of premiums and investment income in line with requirements of applicable accounting and reporting standards; Tested the policies on sample basis where premium was recorded close to year end and subsequent to year end, and evaluated that these were recorded in the appropriate accounting period; and • Tested the investment income transaction on sample basis where investment income was recorded close to year end and subsequent to year end, and evaluated that these were recorded in the appropriate period.
4	Valuation of Claim Liabilities Refer note 3.16 and 25 to the unconsolidated financial statements for accounting policies and details in respect of claim liabilities. . The Company's claim liabilities represents 37.12 % of its total liabilities. Valuation of these claim liabilities involves significant management judgment regarding uncertainty in the estimation of claims payments and assessment of frequency and severity of claims. Claim liabilities are recognized on intimation of the insured event based on management judgment and estimate. The Company maintains provision for claims incurred but not reported (IBNR) based on the advice of an independent actuary. The actuarial valuation process involves significant judgment and the use of actuarial assumptions. We have identified the valuation of claim liabilities as key audit matter because estimation of claims liabilities involves a significant degree of judgment.	Our audit procedures in respect of this matter included the following: • Obtained an understanding, evaluate the design and test the controls over the process of capturing, processing and recording of information related to the claims; • Obtained an understanding, evaluated the design and tested the controls related to recoveries from reinsurance arrangements; • Inspected significant arrangements with reinsurer to obtain an understanding of contracts terms and assessed on sample a basis that recoveries from reinsurance on account of claims reported has been accounted for based on terms and conditions; • Assessed the appropriateness of the Company's accounting policy for recording of claims in line with requirements of applicable accounting and reporting standards; • Tested claims transactions on a sample basis with underlying documentation to evaluate whether the claims reported during the year are recorded in accordance with the requirements of the Company's policy and insurance regulations; • Assessed the sufficiency of reserving of claim liabilities, by testing calculations on a sample basis the relevant data including recoveries from reinsurers based on their respective arrangements; • Tested specific claims transactions on sample basis recorded close to year end and subsequent to year end with underlying documentation to assess whether claims had

S. #	Key audit matter(s)	How the matter was addressed in our audit
		been recognized in the appropriate accounting period; - Used an external actuarial specialist to assist us in evaluation of general principles, actuarial assumptions and methods adopted for actuarial valuations by the actuary of the Company for determination of IBNR; and - Considered the adequacy of Company's disclosures about the estimates used and the sensitivity to key assumptions.
5	Valuation of insurance / reinsurance receivables Refer note 3.9 and 12 to the unconsolidated financial statements for accounting policies and details in respect of Valuation of insurance / reinsurance receivables. The Company's insurance / reinsurance receivables represents 14.70 % of its total assets which are stated net of provision for impairment of Rs. 830.97 million. Valuation of these receivables involves significant judgement regarding uncertainty in determining impairment / provisions. We identified the valuation of insurance / reinsurance receivables as a key audit matter as the estimation involves a significant degree of judgment.	Our audit procedures in respect of this matter included the following: - Obtained an understanding, evaluated the design and tested the operating effectiveness of controls designed for the recognition and valuation of receivables; - Tested the accuracy of insurance / reinsurance receivables aging report, on a sample basis, by comparing individual balances in the report with underlying documentation to evaluate that the balances appearing in the ageing report were classified within appropriate ageing bucket; - Assessed the appropriateness of assumptions and estimates made by the management for the provision for impairment by comparing, on a sample basis, past experience and historical trends of collection, the financial circumstances of counter parties; their credit ratings; and actual write offs and receipts and settlement from/with customers and reinsurer subsequent to the financial year end; - Assessed on a sample basis the reinsurance share of claims outstanding against the terms of the reinsurance contracts and the related recorded liabilities; and - Assessed the historical accuracy of provisions for bad debt recorded by examining the utilization or release of previously recorded provisions.

Information Other than the Unconsolidated Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Company's Annual Report but does not include the unconsolidated financial statements and our auditors' report thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have concluded that the Other Information

is materially misstated for the same reason with respect to the amounts or other items in the Company's Annual Report affected by the matter described in the Basis for Qualified Opinion section of our report.

Responsibilities of Management and Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the requirements of Insurance Ordinance, 2000 and, Companies Act, 2017 (XIX of 2017), and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit, in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017);
- b) the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement together with the notes thereon have been drawn up in conformity with the Insurance Ordinance, 2000, the Companies Act, 2017 (XIX of 2017), and are in agreement with the books of account;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the company's business; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditors' report is Bilal Ali.

Adamjee Insurance Company Limited

Notes to the Unconsolidated Financial Statements

For the year ended 31 December 2018

1 Legal status and nature of business

Adamjee Insurance Company Limited ("the Company") is a public limited Company incorporated in Pakistan on 28 September 1960 under the Companies Act, 1913 (now the Companies Act, 2017). The Company is listed on Pakistan Stock Exchange and is engaged in the general insurance business. The registered office of the Company is situated at Tanveer Building, 27-C-III, MM Alam Road, Gulberg III, Lahore.

The Company also operates branches in the United Arab Emirates (UAE) and the Export Processing Zone (EPZ).

The Company was granted authorization on 23 December 2015 under Rule 6 of the Takaful Rules, 2012 to undertake Window Takaful Operations in respect of general takaful products by Securities and Exchange Commission of Pakistan (SECP) and commenced Window Takaful Operations on 01 January 2016.

2 Basis of preparation and statement of compliance

2.1 These unconsolidated financial statements have been prepared in accordance with accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017 and the Insurance Ordinance, 2000, the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017 and the Takaful Rules, 2012.

In case requirements differ, the provision of and directives issued under the Companies Act, 2017, the Insurance Ordinance, 2000 the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017 and the Takaful Rules, 2012 shall prevail.

The Security and Exchange Commission of Pakistan (SECP) vide its S.R.O 89(1) 2017 dated 9 February 2017 has prescribed format of the presentation of annual financial statements for general insurance companies. These financial statements have been prepared in accordance with the format prescribed by the SECP (note 3.1.1).

These financial statements represent separate unconsolidated financial statements of Adamjee Insurance Company Limited, prepared in accordance with the format of financial statements prescribed under Insurance Rules and Accounting Regulations, 2017. The consolidated financial statements of the group are issued separately.

As per the requirements of the SECP Takaful Rules, 2012 and SECP Circular No. 25 of 2015 dated 09 July 2015, the assets, liabilities and profit and loss account of the Operator's Fund of the General Takaful Operations of the Company have been presented as a single line item in the statement of financial position and profit and loss account of the Company respectively. A separate set of financial statements of the General Window Takaful Operations has been annexed to these unconsolidated financial statements as per the requirements of the Takaful Rules, 2012.

2.2 Basis of measurement

These unconsolidated financial statements have been prepared under historical cost convention except for certain foreign currency translation adjustments, certain financial instruments carried at fair value, and defined benefit obligations under employees benefits carried at present value. All transactions reflected in these financial statements are on accrual basis except for those reflected in cash flow statements.

2.3 Functional and presentation currency

Items included in the unconsolidated financial statements are measured using the currency of the primary economic environment in which the Company operates ("the functional currency"). The financial statements are presented in Pak Rupees, which is the Company's functional and presentation currency. All the financial information presented in Rupees has been rounded off to the nearest thousand in rupee, unless otherwise stated.

2.4 Standards, interpretations and amendments to accounting and reporting standards as applicable in Pakistan that are effective in current year

There are certain new and amended standards, interpretations and amendments that are mandatory for the Company's accounting periods beginning on or after 01 January 2018 but are considered not to be relevant or do not have any significant effect on the Company's operations and therefore not stated in these unconsolidated financial statements.

Securities and Exchange Commission of Pakistan ("SECP") vide S.R.O 88(1)/2017 and S.R.O 89(1)/2017 dated 9 February 2017 has issued the Insurance Rules, 2017 Insurance Accounting Regulations, 2017 (the Rules and Accounting Regulations 2017). The application of these Rules and Accounting Regulations, 2017 for the purpose of preparation and presentation of the financial statements was effective from 1 April 2017. SECP vide letter ID/OSM/Adamjee/2017/12269 dated 11 October 2017 has granted exemption from application of Rules and Accounting Regulations 2017 to the Company till 31 December 2017. Therefore, the application of Rules and Accounting Regulations 2017 became effective from the accounting year commencing from 01 January 2018.

The Rules and Accounting Regulations 2017 require significant disclosures / requirements, which are relevant to the Company includes but not limited to: Presentation and disclosure of financial statements prescribed in Annexure II of the Insurance Rules, 2017, recognition of available-for-sale investments at fair value as per IAS 39 "Financial Instruments: Recognition and Measurement", recognition of premium receivable under an insurance policy / cover note as written from the date of attachment of risk to the policy / cover note.

The Company has adopted these Rules and Accounting Regulations 2017 and accordingly has changed its accounting policies refer note 3.1.

In addition, Companies Act 2017 also became effective for the financial statements for the year ended 31 December 2018. As the Company's unconsolidated financial statements are prepared in accordance with the format prescribed by SECP, it did not have a direct impact on the unconsolidated financial statements.

2.5 Standards, interpretations and amendments to accounting and reporting standards as applicable in Pakistan that are not yet effective

2.5.1 The following standards, amendments and interpretations of accounting and reporting standards as applicable in Pakistan will be effective for accounting periods beginning on or after 01 January 2019:

- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after 1 January 2019) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The application of interpretation is not likely to have an impact on Company's unconsolidated financial statements.
- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after 1 July 2018). IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 'Revenue', IAS 11 'Construction Contracts' and IFRIC 13 'Customer Loyalty

Programmes'. The Company is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.

- IFRS 9 'Financial Instruments' and amendment - Prepayment Features with Negative Compensation (effective for annual periods beginning on or after 1 July 2018 and 1 January 2019 respectively). IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. The Company is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.
- IFRS 16 'Leases' (effective for annual period beginning on or after 1 January 2019). IFRS 16 replaces existing leasing guidance, including IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC-15 'Operating Leases- Incentives' and SIC-27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases. The Company is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.
- Amendment to IAS 28 'Investments in Associates and Joint Ventures' - Long Term Interests in Associates and Joint Ventures (effective for annual period beginning on or after 1 January 2019). The amendment will affect companies that finance such entities with preference shares or with loans for which repayment is not expected in the foreseeable future (referred to as long-term interests or 'LTI'). The amendment and accompanying example state that LTI are in the scope of both IFRS 9 and IAS 28 and explain the annual sequence in which both standards are to be applied. The amendments are not likely to have an impact on Company's unconsolidated financial statements.
- Amendments to IAS 19 'Employee Benefits'- Plan Amendment, Curtailment or Settlement (effective for annual periods beginning on or after 1 January 2019). The amendments clarify that on amendment, curtailment or settlement of a defined benefit plan, a company now uses updated actuarial assumptions to determine its current service cost and net interest for the period; and the effect of the asset ceiling is disregarded when calculating the gain or loss on any settlement of the plan and is dealt with separately in other comprehensive income. The application of amendments is not likely to have an impact on Company's unconsolidated financial statements.
- Amendment to IFRS 3 'Business Combinations' - Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 1 January 2020). The IASB has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test. The standard is effective for transactions in the future and therefore would not have an impact on past unconsolidated financial statements.

- Amendment to IFRS 4 'Insurance Contracts'- Applying IFRS 9 'Financial Instruments' with IFRS 4 (effective for annual periods beginning on or after 1 July 2018). The amendment address issue arising from the different effective dates of IFRS 9 and the forthcoming new standard IFRS 17 'Insurance Contracts'. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9. The overlay approach allows an entity applying IFRS 9 from 1 July 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied. The Company has adopted the temporary exemption which allows the Company to defer the application of both IFRS 9 and IFRS 17 until 31 December 2021.
- Amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (effective for annual periods beginning on or after 1 January 2020). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the IASB has also issued guidance on how to make materiality judgments when preparing their general purpose financial statements in accordance with IFRS Standards.

Annual Improvements to IFRS Standards 2015-2017 Cycle - the improvements address amendments to following approved accounting standards:

- IFRS 3 Business Combinations and IFRS 11 Joint Arrangement - the amendment aims to clarify the accounting treatment when a company increases its interest in a joint operation that meets the definition of a business. A company remeasures its previously held interest in a joint operation when it obtains control of the business. A Company does not remeasure its previously held interest in a joint operation when it obtains joint control of the business.
- IAS 12 Income Taxes - the amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognized consistently with the transaction that generates the distributable profits.
- IAS 23 Borrowing Costs - the amendment clarifies that a company treats as part of general borrowings any borrowing originally made to develop an asset when the asset is ready for its intended use or sale.

The above amendments are effective from annual period beginning on or after 1 January 2019 and are not likely to have an impact on Company's unconsolidated financial statements.

3 Summary of significant accounting policies

The significant accounting policies set out below have been applied consistently to all periods presented in these unconsolidated financial statements, except for change in accounting policies as disclosed in notes below.

3.1 Change in accounting policies

3.1.1 Application of Insurance Rules 2017 and Insurance Accounting Regulation 2017

Securities and Exchange Commission of Pakistan ("SECP") vide S.R.O 88(1)/2017 and S.R.O 89 (1) / 2017 dated 9 February 2017 has issued the Insurance Rules, 2017, Insurance Accounting Regulations, 2017 ("the Rules and Accounting Regulations, 2017"). The application of these Rules and Accounting Regulations, 2017 for the purpose of preparation and presentation of the financial statements was effective from 1 April 2017. SECP had granted Company exemption from application of Rules and Accounting Regulations 2017 to the Company till 31 December 2017. Therefore, the application of Rules and Accounting Regulations 2017 became effective from the accounting year commencing from 01 January 2018.

The Rules and Accounting Regulations, 2017 require significant disclosures / requirements, which are relevant to the Company, includes but not limited to: Presentation and disclosure of financial statements prescribed in Annexure II of the Insurance Rules, 2017, recognition of available-for-sale investments at fair value as per IAS 39 "Financial Instruments: Recognition and Measurement", recognition of premium receivable under an insurance policy / cover note as written from the date of attachment of risk to the policy / cover note.

The effect of each of the above change is given below:

3.1.1.1 Available for sale investments

Previously, the Company recorded its 'available for sale' investments at cost and remeasured them at lower of cost or market value (market value being taken as lower of the reduction other than temporary) in accordance with the requirements of the SEC (Insurance) Rules, 2002. As per Insurance Rules 2017, 'available for sale' investments are now initially measured at cost and subsequently remeasured at fair value at each reporting date. The unrealized gains and losses arising from changes in fair values are directly recognized in equity in the year in which these arise. When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognized in equity are included in the profit and loss account as gains and losses from investment securities.

The Company assesses at each statement of financial position date whether there is an objective evidence that the financial asset is impaired. If any such evidence exists for an 'available for sale' asset, the accumulated loss is removed from equity and recognized in the profit and loss account. Impairment loss recognized in the profit and loss account on equity instruments is not reversed through the profit and loss account. The said change in accounting policy has been made in accordance with the requirements of IAS 8 'Accounting Policies, change in accounting estimates and errors' as disclosed in note 3.1.1.4 of this unconsolidated financial statements.

3.1.1.2 Presentation of financial statements

The Company has adopted format for preparation and presentation of its unconsolidated financial statements in line with the requirements of the Rules and Accounting Regulations, 2017. Significant changes in presentation are rearrangements in sequence of assets / liabilities in the statement of financial position; presentation of single profit or loss account instead of segment wise (classes of business) presentation and discontinuation of separate statements of Premiums, Claims, Expense and Investment Income. The segment wise premiums, claims and expenses and investment income is now included in notes to the unconsolidated financial statements. Furthermore term deposits are now included in investments instead of cash and cash equivalent in line with the requirements of Insurance Rules and Accounting Regulations, 2017.

3.1.1.3 Premium income

The Insurance Accounting Regulations, 2017, requires the Company, to recognize premium receivable under an insurance policy/ cover note as written from the date of attachment of risk to the policy/ cover note. Accordingly, the Company is required to account for cover notes which are effective as at reporting date. In previous years, the Company recognized premium under a policy as written at the time of issuance of policy in accordance with the SEC (Insurance) Rules, 2002. The change is considered to be a change in accounting policy in accordance with IAS - 8. The impact of the same is not considered to be material to the unconsolidated financial statements and accordingly the comparative restated unconsolidated financial statements has not been restated for this change.

3.1.1.4 Financial impact of change in accounting policy

The significant effects of changes in accounting policies as stated above has been applied retrospectively in accordance with the requirement of IAS - 8 'Accounting Policy, Change in Accounting Estimates and Error' and comparatives have been restated to conform to the changed policies. The summary of the effects are as follows:

	31 December 2017			1 January 2017		
	As previously reported	Adjustment	After adjustment	As previously reported	Adjustment	After adjustment
<u>Effect on statement of financial position</u>	----- (Rupees in thousand) -----					
Assets						
Investments in equity securities	15,481,839	5,100,270	20,582,109	15,656,914	7,059,665	22,716,579
Total assets from takaful operations - OTF	241,121	128	241,249	99,157	121	99,278
Liability						
Deferred taxation	37,302	1,530,081	1,567,383	34,549	2,188,496	2,223,045
Total liabilities from takaful operations - OTF	141,312	38	141,350	46,366	38	46,404
Equity:						
Fair value reserves	-	3,570,279	3,570,279	-	4,871,252	4,871,252

There is no impact on profit before tax, profit after tax and earning per share of the Company for the year ended on 31 December 2017.

3.2 Property and equipment

Owned fixed assets, other than freehold land which is not depreciated and capital work-in-progress, are stated at cost, signifying historical cost, less accumulated depreciation and any provision for accumulated impairment. Freehold land and capital work-in-progress are carried at cost less accumulated impairment losses, if any. Depreciation is charged to income applying reducing balance method depending upon the nature of the asset, at the rates specified for calculation of depreciation after taking into account residual value, if any. The useful lives, residual values and depreciation method are reviewed, and adjusted if appropriate, at each reporting date.

Assets subject to finance lease are accounted for by recording the assets at the lower of present value of minimum lease payments under lease agreements and the fair value of asset at the inception of the lease contract. The related obligation under the lease is accounted for as liability. Finance charges are allocated to accounting period in a manner so as to provide a constant periodic rate of charge on the outstanding liability.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to profit and loss account as and when incurred.

Depreciation on additions is charged from the month the assets are available for use while on disposals, depreciation is charged up to the month in which the assets are disposed off.

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate that this carrying value may not be recoverable. If any such indications exist and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount of the assets disposed off. These are taken to profit and loss account.

3.3 Intangible assets

These are stated at cost less accumulated amortization and any provision for accumulated impairment, if any.

Amortization is calculated from the month the assets are available for use using the straight-line method, whereby the cost of the intangible asset is amortized over its estimated useful life over which economic benefits are expected to flow to the Company. The useful life and amortization methods are reviewed, and adjusted if appropriate, at each reporting date.

Software development costs are only capitalized to the extent that future economic benefits are expected to be derived by the Company.

The carrying values of intangible assets are reviewed for impairment when events or changes in circumstances indicate that this carrying value may not be recoverable. If any such indications exist and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amount.

3.4 Insurance contracts

Insurance contracts are those contracts where the Company (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its life time, even if the insurance risk reduces significantly during this period, unless all rights and liabilities are extinguished or expired.

Insurance contracts issued by the Company are generally classified in five basic categories i.e. Fire and property, Marine, Aviation and transport, Motor, Accident and health and Miscellaneous, and are issued to multiple types of clients with businesses in engineering, automobiles, cement, power, textiles, paper, agriculture, services and trading sectors etc. and individuals as well. The tenure of these insurance contracts depends upon terms of the policies written and vary accordingly.

- Fire and property insurance contracts generally cover the assets of the policy holders against damages by fire, earthquake, riots and strike, explosion, atmospheric disturbance, flood, electric fluctuation and impact, burglary, loss of profit followed by the incident of fire, contractor's all risk, erection all risk, machinery breakdown and boiler damage, etc.
- Marine aviation and transport insurance contracts generally provide cover for loss or damage to cargo while in transit to and from foreign land and inland transit due to various insured perils including loss of or damage to carrying vessel, etc.
- Motor insurance contracts provide indemnity for accidental damage to or loss of insured vehicle including loss of or damage to third party and other comprehensive car coverage.
- Accident and health insurance contracts mainly compensate hospitalization and out patient medical coverage to the insured.
- Miscellaneous insurance contracts provide variety of coverage including cover against burglary, loss of cash in safe, cash in transit and cash on counter, fidelity guarantee, personal accident, workmen compensation, travel and crop, etc.

In addition to direct insurance, the Company also participates in risks under co-insurance contracts from other companies and also accepts risks through re-insurance inward by way of facultative acceptance on case to case basis provided such risks are within the underwriting policies of the company. The nature of the risks undertaken under such arrangement is consistent with the risks in each class of business as stated above.

3.5 Deferred commission expense / acquisition cost

Commission expense incurred in obtaining and recording policies is deferred and recognized as an expense in accordance with pattern of recognition of premium revenue.

Other acquisition costs are charged to profit and loss account at the time the policies are accepted.

3.6 Unearned premium

As explained in 4.2 of these unconsolidated financial statements, the Company has changed its methodology for determining unearned premium whereby instead of 1/365 method, premium income under a policy is determined as the ratio of the unexpired period of the policy and the total policy period, both measured to the nearest day except:

- for marine cargo, as a ratio of the unexpired shipment period to the total expected shipment period, both measured to the nearest day.
- for crop business, as a ratio of the unexpired crop period to the total expected crop period, both measured to the nearest day.

Administrative surcharge is recognized as premium at the time the policies are written and is included in above mentioned calculations.

3.7 Premium deficiency

The Company maintains a provision in respect of premium deficiency (also called unexpired risk reserve) for the class of business where the unearned premium liability is not adequate to meet the expected future liability, after reinsurance, from claims and other supplementary expenses expected to be incurred after the statement of financial position date in respect of the unexpired policies in that class of business at the reporting date.

For this purpose, premium deficiency reserve is determined by independent actuaries. The actuary determines the prospective loss ratios for each class of business and applies factors of unearned and earned premiums and uses assumptions appropriate to arrive at the expected claims settlement cost which when compared with unearned premium reserve (UPR) shows whether UPR is adequate to cover the unexpired risks. If these ratios are adverse, premium deficiency is determined.

Based on actuary's advice the management creates a reserve for the same in these unconsolidated financial statements. The movement in the premium deficiency reserve is recorded as an expense / income in profit and loss account for the year.

3.8 Reinsurance contracts held

The Company enters into reinsurance contracts in the normal course of business in order to limit the potential for losses arising from certain exposures. Outward reinsurance premiums are accounted for in the same period as the related premiums for the direct or accepted reinsurance business being reinsured.

Reinsurance liabilities represent balances due to reinsurance companies. Amounts payable are estimated in a manner consistent with the related reinsurance contract. Reinsurance assets represent balances due from reinsurance companies. Amounts recoverable from reinsurers are estimated in a manner consistent with the provision for outstanding claims or settled claims associated with the reinsurance policies and are in accordance with the related reinsurance contract.

Reinsurance assets are not offset against related insurance liabilities. Income or expenses from reinsurance contract are not off set against income or expenses from related insurance assets.

Reinsurance assets or liabilities are derecognized when the contractual rights or obligations are extinguished or expired.

The Company assesses its reinsurance assets for impairment on reporting date. If there is an objective evidence that the reinsurance asset is impaired, the Company reduces the carrying amount of the reinsurance asset to its recoverable amount and recognizes the impairment loss in the profit and loss account.

The portion of reinsurance premium not recognized as an expense is shown as a prepayment.

Commission income from reinsurers is recognized at the time of issuance of the underlying insurance policy by the Company. This income is deferred and brought to profit and loss account as revenue in accordance with the pattern of recognition of the reinsurance premium to which it relates. Profit commission, if any, which the Company may be entitled to under the terms of reinsurance, is recognized on accrual basis.

3.9 Receivables and payables related to insurance contracts

Receivables including premium due but unpaid, relating to insurance contracts are recognized when due. The claim payable is recorded when intimation is received. These are recognized at cost, which is the fair value of the consideration given less provision for impairment, if any. Premium received in advance is recognized as liability till the time of issuance of insurance contract there against.

If there is an objective evidence that any premium due but unpaid is impaired, the Company reduces the carrying amount of that insurance receivable and recognizes the loss in profit and loss account.

3.10 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker who is responsible for allocating resources and assessing performance of the operating segments.

The Company accounts for segment reporting using the classes of business as specified under the Insurance Ordinance, 2000 and Insurance Rules, 2017 as primary reporting format based on the Company's practice of reporting to the management on the same basis.

Assets, liabilities and capital expenditures that are directly attributable to segments have been assigned to them while the carrying amount of certain assets used jointly by two or more segments have been allocated to segments on a reasonable basis. Those assets and liabilities which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated corporate assets and liabilities.

3.11 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand, policy stamps and bank balances and excludes bank balance held under lien.

3.12 Revenue recognition

3.12.1 Premiums

Premiums including administrative surcharge under an insurance contract are recognized as written from date of issuance to the date of attachment of risk to the policy / cover note. Where premium for a policy is payable in installments, full premium for the duration of the policy is recognized as written at the inception of the policy and related asset is recognized for premium receivable.

Revenue from premiums is determined after taking into account the unearned portion of premiums. The unearned portion of premium income is recognized as a liability.

Reinsurance premium is recognized as expense after taking into account the proportion of deferred premium expense which is recognized as a proportion of the gross reinsurance premium of each policy, determined as the ratio of the unexpired period of the policy and the total period, both measured to the nearest day. The deferred portion of premium expense is recognized as a prepayment.

3.12.2 Commission Income

Commission and other forms of revenue (apart from recoveries) from reinsurers are deferred and recognized as liability and recognized in the profit and loss account as revenue in accordance with the pattern of recognition of the reinsurance premiums.

3.12.3 Investment income

- Income from held to maturity investments is recognized on a time proportion basis taking into account the effective yield on the investments. The difference between the redemption value and the purchase price of the held to maturity investments is amortized and taken to the profit and loss account over the term of the investment.
- Dividend income is recognized when the Company's right to receive the dividend is established.

- Gain / loss on sale of available-for-sale investments is recognized in profit and loss account in the year of sale.
- Return on fixed income securities classified as available for sale is recognized on a time proportion basis taking into account the effective yield on the investments.
- Return on bank deposits is recognized on a time proportion basis taking into account the effective yield.

3.13 Investments

All investments are initially recognized at cost, being the fair value of the consideration given and include transaction costs. These are recognized and classified as follows:

- Investment at fair value through profit and loss account
- Held to maturity
- Available-for-sale

The classification depends on the purpose for which the financial assets were acquired. The Company does not have any "investment at fair value through profit and loss account" at the statement of financial position date.

3.13.1 Held to maturity

Investments with fixed determinable payments and fixed maturity, where management has both the intent and the ability to hold to maturity, are classified as held to maturity.

Subsequently, these are measured at amortized cost less provision for impairment, if any.

Any premium paid or discount availed on government securities and term finance certificates is deferred and amortized over the period to maturity of investment using the effective yield.

3.13.2 Available-for-sale

Investments which are not eligible to be classified as "fair value through profit or loss" or "held to maturity" are classified as 'available-for-sale'. These investments are intended to be held for an indefinite period of time which may be sold in response to the need for liquidity, changes in interest rates, equity prices or exchange rates are classified as available-for-sale.

Quoted

Subsequent to initial recognition, these investments are remeasured at fair value. Gains or losses on investments on remeasurement of these investments are recognized in statement of comprehensive income.

Unquoted

Fair value of unquoted investments is determined on the basis of appropriate valuation techniques as allowed by IAS 39 'Financial Instruments: Recognition and Measurement'. Where fair value cannot be measured reliably, these are carried at cost.

3.13.3 Fair / market value measurements

For investments in Government securities, fair / market value is determined by reference to rates quoted by Mutual Fund Association of Pakistan (MUFAP). For investments in quoted marketable securities, other than Term Finance Certificates, fair / market value is determined by reference to Stock Exchange quoted market price at the close of business on reporting date. The fair market value of Term Finance Certificates is as per the rates issued by the Mutual Funds Association of Pakistan (MUFAP).

3.13.4 Date of recognition

Regular way purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognized at the trade date. Trade date is the date on which the Company commits to purchase or sell the investment.

3.14 Off setting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount is reported in the statement of financial position when the Company has a legally enforceable right to set-off the recognized amounts and it intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.15 Provisions

Provision are recognized when the Company has a present, legal or constructive obligation as a result of past events and, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

3.16 Provision for outstanding claims including IBNR

The Company recognizes liability in respect of all claims incurred up to the reporting date which is measured at the undiscounted value of the expected future payments. The claims are considered to be incurred at the time of the incident giving rise to the claim except as otherwise expressly indicated in the insurance contract. The liability for claims include amounts relating to unpaid reported claims, claims incurred but not reported (IBNR), expected claims settlement costs, a reduction for the value of salvage and other recoveries, and any adjustments to claims outstanding from previous years.

Securities and Exchange Commission of Pakistan through its circular 9 of 2016 dated 9 March 2016 issued "Guidelines for estimation of incurred but not reported (IBNR) claims reserve 2016" for non-life insurance Companies and required to comply with all provisions of these guidelines with effect from 1 July 2016.

The Guidelines require that estimation for provision for claims incurred but not reported (IBNR) for each class of business, by using prescribed Method "Chain Ladder Method" and other alternate method as allowed under the provisions of the Guidelines. The Chain Ladder Method involves determination of development factors or link ratios for each period. These are then subsequently combined to determine Cumulative Development Factor (CDF) which represents the extent of future development of claims to reach their ultimate level to derive an IBNR estimate.

The actuarial valuation as at 31 December 2018 has been carried out by independent firm of actuaries for determination of IBNR for each class of business. The actuarial valuation is based on a range of standard actuarial claim projection techniques, based on empirical data and current assumptions as explained in preceding paragraph that may include a margin for adverse deviation as required / allowed by the circular 9 of 2016. The methods used, and the estimates made, are reviewed regularly.

3.17 Taxation

Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. The charge for current tax also include adjustments, where considered necessary, to provision for tax made in previous years arising from assessments finalized during the current year for such years.

Deferred

Deferred tax is accounted for using the statement of financial position liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the unconsolidated financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the profit and loss account, except in the case of items credited or charged to statement of comprehensive income in which case it is included in statement of comprehensive income.

3.18 Staff retirement benefits

3.18.1 Defined contribution plan

The Company operates an approved contributory provident fund scheme for all its eligible employees. Equal monthly contributions to the fund are made by the Company and the employees at the rate of 8.33% of basic salary.

3.18.2 Defined benefit plans

The Company operates the following defined benefit plans:

- (a) an approved funded gratuity scheme for all its permanent employees in Pakistan. Annual contribution are made to this scheme on the basis of actuarial recommendations. The Company recognizes expense in accordance with IAS 19 'Employee Benefits'. The contributions have been made to gratuity fund in accordance with the actuary's recommendations based on the actuarial valuation of these funds as at 31 December 2018.
- (b) unfunded gratuity scheme covering the employees in the UAE branches as per the requirements of the applicable regulations. Provision is made in these unconsolidated financial statements on the basis of the actuarial valuation carried out by an independent actuary using the projected unit credit method. The latest valuation has been carried at 31 December 2018.

Past-service costs are recognized immediately in profit and loss account, unless the changes to the plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortized on a straight-line basis over the vesting period.

The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit and loss account.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit and loss account. The Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

3.18.3 Employees' compensated absences

The Company accounts for these benefits in the period in which the absences are earned.

3.19 Impairment of assets

Financial assets

A financial asset is considered to be impaired if objective evidence indicate that one or more events had a negative effect on the estimated future cash flow of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as a difference between its carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of available for sale financial asset is calculated with reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

Non financial assets

The carrying amounts of Company's non-financial assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized wherever the

carrying amount of asset exceeds its recoverable amount. Impairment losses are recognized in profit and loss account. A previously recognized impairment loss is reversed only if there has been change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit and loss account.

3.20 Dividend distribution

Dividend distribution to the Company's shareholders and other appropriations are recognized in the Company's financial statements in the period in which these are approved.

3.21 Management expenses

Expenses of management both direct and indirect are allocated on the basis of activity in each class of business. Expenses not allocable to the underwriting business are charged as other expenses.

3.22 Foreign currencies

Transactions in foreign currencies (other than the result of foreign branches) are accounted for in Pak Rupees at the rates prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Pak Rupees at the rates of exchange prevailing at the reporting date. Exchange differences are taken to the profit and loss account currently.

The assets and liabilities of foreign branches are translated to Pak Rupees at exchange rates prevailing at the reporting date. The results of the foreign branches are translated to Pak Rupees at the average rate of exchange for the year. Translation gains and losses are included in the profit and loss account, except those arising on the translation of the Company net investments in foreign branches, which are taken to the capital reserves (exchange translation reserve).

3.23 Financial instruments

Financial assets and liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument and de-recognized when the Company loses control of contractual rights that comprise the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on the de-recognition of the financial assets and liabilities is included in the profit and loss account.

Financial instruments carried in the statement of financial position include cash and bank, loans, investments, premiums due but unpaid, amount due from other insurers / reinsurers, premium and claim reserves retained by cedants, accrued investment income, reinsurance recoveries against outstanding claims, sundry receivables, provision for outstanding claims, amounts due to other insurers / reinsurers, accrued expenses, other creditors and accruals, liabilities against asset subject to finance lease and unclaimed dividends. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

3.24 Earnings per share

The Company presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is calculated if there is any potential dilutive effect on the Company's reported net profits.

3.25 Window Takaful Operations

The accounting policies followed by Window Takaful Operations are stated in the annexed financial statements of Window Takaful Operations for the year ended 31 December 2018.

4 Critical accounting estimates and judgments

4.1 Use of estimates and judgments

The preparation of these unconsolidated financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future

The areas involving a higher degree of judgment and complexity, or areas where assumptions and estimates are significant to these financial statements or judgment was exercised in application of accounting policies, are as follows:

	<i>Note</i>
- Provision for Unearned Premium	3.6
- Provision for doubtful receivables	3.9
- Provision for outstanding claim including claims incurred but not reported (IBNR)	3.16
- Premium deficiency	3.7
- Defined benefit plans	3.18
- Provision for taxation including the amount relating to tax contingency	3.17
- Useful lives, pattern of economic benefits and impairments - Property and Equipment	3.2
- Allocation of management expenses	3.21
- Impairment of assets	3.19
- Segment Reporting	3.1

4.2 Change in accounting estimate

'During the year, the Company has changed its methodology for premium income earned whereby instead of 1/365 method, premium income under a policy is determined as the ratio of the expired period of the policy and the total policy period, both measured to the nearest day. This change has been accounted for as change in accounting estimate in accordance with the "IAS 8 Accounting Policies and Changes in Accounting Estimates and Errors" whereby the change has been applied prospectively. Had the Company's accounting estimate not been changed, unearned premium reserve would have been higher by approximately Rs. 91 million, prepaid reinsurance would have been higher by approximately Rs. 4 million and premium revenue would have been lowered by approximately Rs. 87 million during the year.

30,000,000	-	10	Hyundai Nishat Motors (Private) Limited (note 8.2.1)	300,726	-	300,726	-

8.2.1 This represents investment in the ordinary shares of Hyundai Nishat Motors (Private) Limited ("HNMPL") which is in the process of setting vehicle assembly plant in Pakistan. Since HNMP's ordinary shares are not listed and it has not yet started commercial production, the fair value of HNMP's ordinary shares through other valuation techniques cannot be measured reliably as at 31 December 2018 and, hence, it is carried at cost.

No. of shares		Face value Rupees	Company's Name	Cost		Market value	
2018	2017			2018	2017	2018	2017
-----Rupees in thousand-----							
9,681,374	9,681,374	10	Security General Insurance Company Limited [Equity held 14.224% (2017: 14.224%)] - note 8.4.1	925,360	925,360	1,926,884	2,338,633

8.4.1 This represents investment in the ordinary shares of Security General Insurance Company Limited ("SGI") which is principally engaged in general insurance business. Since SGI's ordinary shares are not listed, an independent valuer engaged by the Company has estimated a fair value of Rs. 199.03 per ordinary share as at 31 December 2018 (Rs. 241.56 per ordinary share as at 31 December 2017) through a valuation technique based on discounted cash flow analysis of SGI. Hence, it has been classified under level 3 of the fair value hierarchy as further explained in note 39 to these unconsolidated financial statements. The fair value decline of Rs. 411.75 million is included in the fair value reserve (net of deferred tax) recognized during the year in other comprehensive income.

The main level 3 inputs used by the Company are derived and evaluated as follows:

- Discount rate is determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessment of the time value of money and the risk to SGI.
- Long term growth rate is estimated based in historical performance of SGI and current market information for similar type of companies.

The significant assumptions used in this valuation technique are as follows:

- Discount rate of 16% per annum.
- Growth rate in premium revenue of 8% per annum.
- Annual growth in cost is estimated @ 11 % per annum.

16 Share capital

16.1 Authorized share capital

	2018 ----- Number of shares-----	2017	2018 ----- Rupees in thousand-----	2017
Ordinary shares of Rs. 10 each	375,000,000	375,000,000	3,750,000	3,750,000

16.2 Issued, subscribed and paid up capital

Ordinary shares of Rs. 10 each fully paid in cash	250,000	250,000	2,500	2,500
Ordinary shares of Rs. 10 each issued as fully paid bonus shares	349,750,000	349,750,000	3,497,500	3,497,500
	350,000,000	350,000,000	3,500,000	3,500,000

16.3 As at 31 December 2018, MCB Bank Limited, Nishat Mills Limited and D.G. Khan Cement Company Limited, associated undertakings held 70,861,241 (2017: 76,022,665), 102,809 (2017: 102,809) and 27,229,235 (2017: Nil) ordinary shares of the Company of Rs. 10 each, respectively.

	2018 ----- (Rupees in thousand) -----	2017 (Restated)
17 Reserves		
Capital reserves		
Reserves for exceptional losses	17.1 22,859	22,859
Investment fluctuation reserves	17.2 3,764	3,764
Exchange translation reserves	17.3 614,062	467,100
Fair value reserves	17.4 2,207,015	3,570,278
Revenue reserves		
General reserves	936,500	936,500
	3,784,200	5,000,501

17.1 The reserve for exceptional losses represents the amount set aside by the Company in prior years up to 31 December 1978, in order to avail the deduction while computing the taxable income under the old Income Tax Act of 1922. Subsequent to the introduction of repealed Income Tax Ordinance, 1979, which did not permit such deduction, the Company discontinued the setting aside of reserves for exceptional losses.

17.2 This amount has been set aside by the Company in prior years for utilization against possible diminution in the value of investments.

17.3 The exchange translation reserve represents the gain resulted from the translation of foreign branches (having business in foreign currencies) of Company into Pak Rupees. For the purpose of exchange translation reserve, the UAE and Export Processing Zone branches are treated as foreign branches since their functional currencies are AED and US Dollars, respectively.

17.4 The fair value reserve represents the net cumulative unrealized gain/(loss) on available for sale investments held by the Company as at 31 December 2018.

		2018	2017
	Note	---- Rupees in thousand----	
18 Staff retirement benefit			
Unfunded gratuity scheme	18.1	65,854	69,953
Funded gratuity scheme	18.2	133,127	84,443
		<u>198,981</u>	<u>154,396</u>

Gratuity plan entitles an eligible employee to receive a lump sum amount equal to last drawn eligible salary multiply by number of eligible years of service with the Company at the time of cessation of employment. An eligible employee means a permanent employee who has successfully completed minimum five years of service with the Company. Eligible salary means monthly basic salary of the eligible employee at the time of cessation of employment.

Gratuity plan is administered through separate fund that is legally separated from the Company. The Trust of the fund comprises of four employees, out of which one employee is the Chair. The Trustees of the funds are required by law to act in the best interests of the plan participants and are responsible for making all the investments and disbursements out of the funds.

These defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market (investment) risk.

These defined benefit plan is fully funded by the Company. The funding requirements are evaluated by the management using the funds' actuarial measurement framework set out in the funding policies of the plans. The funding is based on a separate actuarial valuation for funding purposes for which the assumptions may differ from time to time. Employees are not required to contribute to gratuity plan.

The Company is responsible to manage the deficit in the defined benefit obligation towards fair value of the plan assets. The Company has devised an effective periodic contribution plan to maintain sufficient level of plan assets to meet its obligations. Further, the Company also performs regular maturity analysis of the defined benefit obligation and manage its contributions accordingly.

18.1 Unfunded gratuity scheme

18.1.1 This provision relates to the Company's operations in UAE branches. The latest actuarial valuation of gratuity scheme was carried out as at 31 December 2018 under the Projected Unit Credit Method as per the requirements of approved accounting standard - International Accounting Standard 19, the details of which are as follows:

18.1.2 Movement in the net assets / (liabilities) recognized in the balance sheet are as follows:

	2018	2017
	---- Rupees in thousand----	
Present value of defined benefit obligation		
at the start of the year	69,953	55,655
Charge for the year	12,388	8,645
Benefits paid	(26,015)	(6,889)
Remeasurement loss on obligation	(5,771)	9,011
Exchange loss / (gain)	15,299	3,531
Present value of defined benefit obligation		
at the end of the year	<u>65,854</u>	<u>69,953</u>

18.1.3 The following significant assumptions have been used for the valuation of this scheme:

	2018	2017
	-----Rate per annum-----	
- Valuation discount rate	2.20%	2.20%
- Expected rate of increase in salary level	2.00%	2.00%

18.1.4 The amount charged in profit and loss is as follows:

	2018	2017
	---- Rupees in thousand----	
Current service cost	10,975	7,487
Interest on obligation	1,413	1,158
Expense for the year	<u>12,388</u>	<u>8,645</u>

18.1.5 The amounts charged to other comprehensive income are as follows:

Remeasurement of the present value of defined benefit obligation due to:

- Changes in financial assumptions	(7,380)	6,843
- Experience adjustments	1,609	2,168
	<u>(5,771)</u>	<u>9,011</u>

18.2 Funded gratuity scheme

18.2.1 The Company operates an approved funded gratuity scheme for all eligible employees. The latest actuarial valuation of gratuity scheme was carried out as at 31 December 2018 under the Projected Unit Credit Method as per the requirements of approved accounting standard - International Accounting Standard 19, the details of which are as follows:

18.2.2 The following significant assumptions have been used for valuation of this

	2018	2017
	-----Rate per annum-----	
- Discount rate & expected return on plan assets	12.25%	7.25%
- Expected rate of increase in salary level	10.25%	5.25%

18.2.3 Movement in the net assets/ (liabilities) recognized in the balance sheet are as follows:

	2018	2017
	---- Rupees in thousand----	
Net liabilities/ assets at the beginning of the year	84,443	25,744
Expenses recognized	22,107	16,677
Contribution paid during the year	(3,000)	-
Remeasurement (gain) / loss recognized - net	29,577	42,022
Net liabilities at the end of the year	<u>133,127</u>	<u>84,443</u>

18.2.4 The amounts recognized in the profit and loss account are as follows:

Current service cost	16,094	15,003
Interest cost	20,171	16,779
Interest income on plan assets	(14,158)	(15,105)
	<u>22,107</u>	<u>16,677</u>

18.2.5 The amounts recognized in other comprehensive income are as follows:

	2018	2017
	---- Rupees in thousand----	
<i>Remeasurement of plan obligation from:</i>		
- Experience on obligation	18,105	3,589
<i>Remeasurement of plan assets:</i>		
- Actual net return on plan assets	(2,686)	23,328
- Interest income on plan assets	14,158	15,105
	11,472	38,433
	29,577	42,022

18.2.6 The amounts recognized in the balance sheet are as follows:

Fair value of plan assets	(193,756)	(199,482)
Present value of the obligation	326,883	283,925
Net asset	133,127	84,443

18.2.7 Movement in present value of defined benefit obligation

Present value of defined benefit obligation as at the beginning of the year	283,925	267,714
Current service cost	16,094	15,003
Interest cost	20,171	16,779
Actual benefits paid during the year	(11,412)	(19,160)
Remeasurement loss on obligation	18,105	3,589
Present value of defined benefit obligation as at the end of the year	326,883	283,925

18.2.8 Movement in fair value of plan assets

Fair value of plan asset as at the beginning of the year	199,482	241,970
Interest income on plan assets	14,158	15,105
Actual benefits paid during the year	(11,412)	(19,160)
Contributions made during the year	3,000	-
Net return on plan assets over interest income	(11,472)	(38,433)
Fair value of plan asset as at the end of the year	193,756	199,482

18.2.9 Actual return on plan assets

Expected return on plan assets	14,158	15,105
Net return on plan assets over interest income	(11,472)	(38,433)
	2,686	(23,328)

18.2.10 Comparison for five years funded & unfunded gratuity schemes

Funded gratuity schemes

	2018	2017	2016	2015	2014
	-----Rupees in thousand-----				
Fair value of defined obligation	326,883	283,925	267,714	243,203	218,736
Fair value of plan assets	193,756	199,482	241,970	183,444	157,260
Deficit	<u>133,127</u>	<u>84,443</u>	<u>25,744</u>	<u>59,759</u>	<u>61,476</u>

Experience adjustments

Gain / (loss) on plan assets (% age of plan assets)	<u>-5.92%</u>	<u>-19.27%</u>	<u>5.48%</u>	<u>4.13%</u>	<u>14.55%</u>
Gain / (loss) on obligations (% age of obligation)	<u>5.54%</u>	<u>-1.26%</u>	<u>-4.91%</u>	<u>-3.35%</u>	<u>-3.77%</u>

Unfunded gratuity schemes

	2018	2017	2016	2015	2014
	-----Rupees in thousand-----				
Fair value of defined obligation	65,854	69,953	55,655	56,693	44,772
Deficit	<u>65,854</u>	<u>69,953</u>	<u>55,655</u>	<u>56,693</u>	<u>44,772</u>

Experience adjustments

Gain / (loss) on obligations (% age of obligation)	<u>2.44%</u>	<u>-3.10%</u>	<u>-10.89%</u>	<u>-2.51%</u>	<u>-2.58%</u>
---	--------------	---------------	----------------	---------------	---------------

18.2.11 Plan assets consist of the following:

	2018 ---- (Percentage)----	2017	2018 ---- Rupees in thousand----	2017
Government Bonds	43.66%	41.92%	84,595	83,627
Shares and deposits	22.60%	24.87%	43,790	49,606
Unit Trusts	35.04%	34.75%	67,894	69,314
Benefits due	-1.30%	-1.54%	(2,523)	(3,065)
	<u>100.00%</u>	<u>100.00%</u>	<u>193,756</u>	<u>199,482</u>

18.2.12 Plan assets do not include any investment in the Company's ordinary shares as at 31 December 2018 (2017: Nil).

18.2.13 Expected contribution to gratuity fund for the year ending 31 December 2019 is Rs. 33,642 thousands.

18.2.14 The expected return on plan assets is based on the market expectations and depends upon the asset portfolio of the fund, at the beginning of the year.

18.2.16 The weighted average duration of the defined benefit obligation for gratuity plan is 3.3 years (2017: 3.4 years).

These defined benefit plans expose the Company to actuarial risks, such as longevity risk, currency risk, interest rate risk and market (investment) risk.

18.2.17 The main features of the gratuity schemes are as follows:

- The normal retirement age for all employees is 60 years.
- A member shall be entitled to gratuity on resignation, termination, retirement, early retirement, retrenchment, death and dismissal based on the Company's Service rules.
- The scheme is subject to the regulations laid down under the Income Tax Rules, 2002.

18.2.18 The implicit objective is that the contribution to the gratuity schemes should remain reasonably stable as a percentage of salaries, under the actuarial cost method employed.

18.2.19 Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal

		Impact on Gratuity plans			
		Unfunded		Funded	
Change in assumptions		Increase in assumption	Decrease in assumption	Increase in assumption	Decrease in assumption
------(Rupees in thousands)-----					
Discount rate	1%	(2,415)	2,663	(9,109)	9,699
Salary growth rate	1%	2,612	(2,443)	9,789	(9,351)

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit obligation recognized within the statement of financial position.

19 Deferred taxation

2018 2017
------(Rupees in thousand) -----
(Restated)

Deferred tax debits arising in respect of:

Provision for gratuity **19,098** 20,985

Deferred tax credits arising in respect of:

Tax depreciation allowance	(62,092)	(58,287)
Investments	(901,452)	(1,530,081)
	(963,544)	(1,588,368)
	(944,446)	(1,567,383)

19.1 Movement in deferred tax balances is as follows:

At beginning of the year **1,567,383** 2,223,045

Recognized in profit and loss account:

- provision for gratuity	1,888	(4,288)
- tax depreciation allowance	3,805	7,041
	5,693	2,753

Recognized in other comprehensive income:

- investments	(628,630)	(658,415)
	944,446	1,567,383

20 Insurance/reinsurance payables

Due to other insurers / reinsurers **2,709,714** 1,668,516

This amount represents amount payable to other insurers and reinsurers.

		2018	2017

21.1 Workers' welfare fund

Balance as at 01 January	391,437	328,163
Provision for the year	52,571	63,274
Reversal during the year	(11,762)	-
Balance as at 31 December	<u>432,246</u>	<u>391,437</u>

21.1.1 The Finance Act 2008 introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged at various levels and conflicting judgments were rendered by the Honorable Lahore High Court, the Honorable Sindh High Court and the Honorable Peshawar High Court.

The Honorable Supreme Court of Pakistan vide its judgment dated 10 November 2016, has upheld the view of Honorable Lahore High Court and decided that WWF is not a tax and hence the amendments introduced through Finance Act, 2008 are ultra-vires to the Constitution.

The Federal Board of Revenue has filed Civil Review Petitions in respect of above judgment with the prayer that the judgment dated 10 November 2016 passed in the Civil Appeal may kindly be reviewed in the interest of justice.

The Company has held a reserve of Rs. 432,246 thousands as at 31 December 2018 against WWF until the outcome of the filed Civil Review Petition.

21.2 During the year, an amount of Rs. 30,977 thousands (2017 : Rs. 29,038 thousands) has been charged to the profit and loss account in respect of the Company's contribution to the employees' provident fund.

		2018	2017

		<u>692,086</u>	<u>652,075</u>

22.1 This represents margin deposit on account of performance and other bond policies issued by the Company.

23 Contingencies and commitments

23.1 Contingencies

The Company has filed appeals in respect of certain assessment years mainly on account of the following:

Sales tax

- (a) Under the Sindh Sales Tax Act, 2011, sales tax is payable on premium on corporate health insurance policies written in the province of Sindh. 'The Insurance Association of Pakistan' (IAP) on behalf of the insurance companies has taken up the matter with the SRB and has also approached the Honorable Chief Minister, Sindh, for a favorable resolution of the matter. The matter is still under the process of review. The Company and other insurance companies carrying out corporate health insurance have not yet billed their customers for SST. The amount not yet billed by the Company, works out to Rs. 130,106 thousands and 93,675 thousands for the period from 1 July 2016 to 31 December 2017 and from 1 January to 31 December 2018 respectively (cumulatively Rs. 223,782 thousands).

Income tax

- (b) Deputy Commissioner Inland Revenue passed order u/s 161/205 of the Ordinance for tax year 2013 raising an income tax demand of Rs. 9,066 thousands. The Company agitated the order before Commissioner Inland Revenue (Appeals). Commissioner Inland Revenue (Appeals) decided the case in the favor of the Company. Following the said order, the learned DCIR has passed an appeal effect order in which certain directions of the learned CIR-Appeals have not been followed for which a rectification appeal under section 221 of the Ordinance has been filed before learned DCIR which is still to be processed.
- (c) The Company received a notice from Additional Commissioner Inland Revenue pertaining to the amendment of tax year 2008. Amongst others, the Additional Commissioner raised an issue with respect to the claim of exemption claimed on capital gains on listed securities by way of incorrect application of the provisions of law. The Company preferred to contest this matter by way of filing a constitutional petition before the Honorable Sindh High Court. The Court has ordered for stay of proceedings.
- (d) The Taxation Officer has passed an order in the tax years 2005 and 2006 under section 221 of the Income Tax Ordinance, 2001 (the Ordinance) levying minimum tax liability aggregating to Rs. 38,360 thousands. An appeal was filed before the Commissioner Inland Revenue (Appeals) who upheld the order of the Taxation Officer. The Company has filed an appeal before the ATIR which is yet to be heard.
- (e) The Tax Authorities amended the assessments for tax years 2003 to 2005 on the ground that the Company has not apportioned management and general administration expenses against capital gain and dividend income. The Company filed constitutional petition in the Honorable Sindh High Court against the amendment in the assessment order. The Company may be liable to pay Rs. 5,880 thousands in the event of decision against the Company, out of which Rs. 2,730 thousands have been provided resulting in a shortfall of Rs. 3,150 thousands.
- (f) Learned Deputy Commissioner Inland Revenue has passed an order under section 161/205 of the Ordinance for tax year 2017 creating a demand of Rs. 22,105 thousands on Account of Non-Deduction of Income Tax while making payments. The Company has paid partial payment of Rs. 9,065 thousands under protest and agitated the order before learned Commissioner Inland Revenue Appeals - I and the appeal has not yet been fixed.

Pending resolution of the above-mentioned appeals filed by the Company, no provision has been made in these unconsolidated financial statements for the aggregate amount of Rs. 54,550 thousands (2017: Rs. 77,030 thousands) as the management is confident that the eventual outcome of the above matters will be in favor of the Company.

23.2 Commitments

The Company has issued letter of guarantees amounting to AED 501,000 amounting to Rs. 18,940 thousands (2017: AED 832,250 amounting to Rs. 24,992 thousands) relating to UAE branch.

37 Management of insurance and financial risk

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest / mark-up rate risk, price risk and currency risk). The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall risks arising from the Company's financial assets and liabilities are limited. The Company consistently manages its exposure to financial risk without any material change from previous period in the manner described in notes below. The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing the Company's risk management policies.

The individual risk wise analysis is given below :

37.1 Insurance risk

The principal risk that the Company faces under insurance contracts is that the actual claims and benefit payments or the timing thereof may differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the Company is to ensure that sufficient reserves are available to cover these liabilities. The above risk exposure is mitigated by diversification across a large portfolio of insurance contracts and geographical areas. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements. Further, strict claims review policies to assess all new and ongoing claims, regular detailed review of claims handling procedures and frequent investigation of possible fraudulent claims and similar procedures are put in place to reduce the risk exposure of the Company. The Company further enforces a policy of actively managing and prompt pursuing of claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the Company.

Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts.

Although the Company has reinsurance arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to ceded insurance, to the extent that any reinsurer is unable to meet its obligations assumed under such reinsurance agreements. The Company's placement of reinsurance is diversified such that it is neither dependent on a single reinsurer nor are the operations of the Company substantially dependent upon any single reinsurance contract. Reinsurance policies are written with approved reinsurers on either a proportionate basis or non-proportionate basis. The reinsurers are carefully selected and approved and are dispersed over several geographical regions.

Experience shows that larger the portfolio is in similar reinsurance contracts, smaller will be the relative variability about the expected outcome. In addition, a more diversified portfolio is less likely to be affected across the board by a change in any subset of the portfolio. The Company has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome.

The Company principally issues the general insurance contracts e.g. property, marine and aviation, motor, and accident and health. Risks under non-life insurance policies usually cover twelve month or lesser duration. For general insurance contracts the most significant risks arise from accidental fire, atmospheric disaster and terrorist activities. Insurance contracts at times also cover risk for single incidents that expose the Company to multiple insurance risks.

37.1.1 Geographical concentration of insurance risk

To optimize benefits from the principle of average and law of large numbers, geographical spread of risk is of extreme importance. There are a number of parameters which are significant in assessing the accumulation of risks with reference to the geographical location, the most important of which is risk survey.

37.1.2 Reinsurance arrangements

Keeping in view the maximum exposure in respect of key zone aggregate, a number of proportional and non-proportional reinsurance arrangements are in place to protect the net account in case of a major catastrophe. Apart from the adequate event limit which is the multiple of the treaty capacity or the primary recovery from the proportional treaty, any loss over and above limit would be recovered from the non-proportional treaty which is very much in line with the risk management philosophy of the Company.

37.1.3 Sources of uncertainty in estimation of future claim payments

The key source of estimation uncertainty at the balance sheet date relates to valuation of outstanding claims, whether reported or not, and includes expected claims settlement costs. Considerable judgment by management is required in the estimation of amounts due to policyholders arising from claims made under insurance contracts. Such estimates are necessary based on assumptions about several factors involving varying and possibly significant degrees of judgment and uncertainty, and actual results may differ from management's estimates resulting in future changes in estimated liabilities. Qualitative judgments are used to assess the extent to which past trends may not apply in the future, for example one-off occurrence, changes in market factors such as judicial decisions and government legislation affect the estimates.

In particular, estimates have to be made both for the expected ultimate cost of claims reported at the balance sheet date and for the expected ultimate cost of claims incurred but not reported (IBNR) at the balance sheet date.

37.1.4 Key assumptions for claim estimation

The process used to determine the assumptions for calculating the outstanding claim reserves is intended to result in neutral estimates of the most likely or expected outcome. The nature of the business makes it very difficult to predict with certainty the likely outcome of any particular claim and the ultimate cost of notified claims. Each notified claim is assessed in separate, case to case basis, with due regard to claim circumstances, information available from surveyors and historical evidence of the size of similar claims. Case estimates are reviewed regularly and updated as and when new information is available.

The estimation of IBNR is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the Company, in which case the information about the claim event is available. IBNR provision is initially estimated at a gross level and a separate calculation is carried out to estimate the size of the reinsurance recoveries.

The estimation process takes into account the past claims reporting pattern and details of reinsurance programs. The premium liabilities have been determined such that the total premium liability provisions (unearned premium reserve and premium deficiency reserve) would be sufficient to service the future expected claims and expenses likely to occur on the unexpired policies as of reporting date. The expected future liability is determined using estimates and assumptions based on the experience during the expired period of the contracts and expectations of future events that are believed to be reasonable.

37.1.5 Sensitivity analysis

The risks associated with the insurance contracts are complex and subject to a number of variables which complicate quantitative sensitivity analysis. The Company makes various assumptions and techniques based on past claims development experience. This includes indications such as average claims cost, ultimate claims numbers and expected loss ratios. The Company considers that the liability for insurance claims recognized in the balance sheet is adequate. However, actual experience may differ from the expected outcome.

As the Company enters into short term insurance contracts, it does not assume any significant impact of changes in market conditions on unexpired risks. However, some results of sensitivity testing are set out below, showing the impact on profit / (loss) before tax, net of reinsurance.

Interest / mark - up rate risk

Interest / mark-up rate risk is the risk that the value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest / mark - up rates. Sensitivity to interest / mark-up rate risk arises from mismatching of financial assets and liabilities that mature or repaid in a given period. The Company manages this mismatch through risk management strategies where significant changes in gap position can be adjusted. At the reporting date the interest / mark-up rate profile of the Company's significant interest / mark-up bearing financial instruments was as follows:

	Effective interest rate (%)		Carrying amounts	
	2018	2017	2018	2017
			-----Rupees in thousand----	
<u>Fixed rate of financial instruments</u>				
<i>Financial assets:</i>				
Investments- PIBs and Treasury Bills	5.93% - 8.80%	5.91% - 12.28 %	378,029	380,738
Loans	5%	5%	5,644	7,014
<u>Floating rate financial instruments</u>				
<i>Financial assets:</i>				
Bank and term deposits	3.75% - 9.50%	3.75% - 5.90%	4,683,153	2,786,006
Investments - TFCs	-	7.72% - 9.26%	-	71,218

Sensitivity analysis

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate will not affect the fair value of any financial instruments. For cash flow sensitivity analysis of variable rate instruments, a hypothetical change of 100 basis points in interest rates at the reporting date would have decreased / (increased) profit for the year by the amounts shown below. It is assumed that the changes occur immediately and uniformly to each category of instrument containing interest rate risk. Variation in market interest rates could produce significant changes at the time of early repayments. For these reasons, actual results might differ from those reflected in the details specified below. The analysis assumes that all other variables remain constant.

	Effect on profit before tax		Effect on equity	
	Increase	Decrease	Increase	Decrease
	-----Rupees in thousand----		-----Rupees in thousand----	
As at 31 December 2018 - Fluctuation of 100 bps				
Cash flow sensitivity - variable rate financial liabilities	-	-	-	-
Cash flow sensitivity - variable rate financial assets	46,881	(46,881)	33,286	(33,286)
As at 31 December 2017 - Fluctuation of 100 bps				
Cash flow sensitivity - variable rate financial liabilities	-	-	-	-
Cash flow sensitivity - variable rate financial assets	28,839	(28,839)	20,187	(20,187)

Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's principal transactions are carried out in Pak Rupees and its exposure to foreign exchange risk arises primarily with respect to AED and US dollars in respect of foreign branches. Financial assets and liabilities exposed to foreign exchange risk amounted to Rs. 11,331,852 thousands (2017: Rs. 8,971,953 thousands) and Rs. 10,416,407 thousands (2017: Rs. 8,643,425 thousands), respectively, at the end of the year.

The following significant exchange rates were applied during the year:

	2018	2017
	-----Rupees in thousand-----	
Rupees per US Dollar		
Average rate	121.8473	105.3792
Reporting date rate	138.8619	110.3000
Rupees per AED		
Average rate	33.1730	28.6900
Reporting date rate	37.8046	30.0300

Price risk

Price risk represents the risk that the fair value of financial instruments will fluctuate because of changes in the market prices (other than those arising from interest / mark-up rate risk or currency risk), whether those changes are caused by factors specific to individual financial instrument or its issuer, or factors affecting all or similar financial instrument traded in the market. The Company is exposed to equity price risk that arises as a result of changes in the levels of PSE - Index and the value of individual shares. The equity price risk arises from the Company's investment in equity securities for which the prices in the future are uncertain. The Company policy is to manage price risk through selection of blue chip securities.

The Company's strategy is to hold its strategic equity investments on a long term basis. Thus, Company is not affected significantly by short term fluctuation in its strategic investments provided that the underlying business, economic and management characteristics of the investees remain favorable. The Company strives to maintain above average levels of shareholders' capital to provide a margin of safety against short term equity volatility. The Company manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

The Company has investments in quoted equity securities amounting to Rs. 18,685,087 thousands (2017: Rs. 20,582,109 thousands) at the reporting date. The carrying value of investments subject to equity price risk are, in almost all instances, based on quoted market prices as of the reporting date. Market prices are subject to fluctuation which may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions.

Sensitivity analysis

As the entire investment portfolio has been classified in the 'available-for-sale' category, a 10% increase / decrease in redemption value and share prices at year end would have increased / decreased impairment loss of investment recognized in profit and loss account as follows:

	Impact on profit before tax	Impact on equity
	-----Rupees in thousand-----	
2018		
Effect of increase in share price	667,792	474,132
Effect of decrease in share price	(510,619)	(362,540)
2017		
Effect of increase in share price	311,405	217,983
Effect of decrease in share price	(597,241)	(418,068)

37.3 Credit risk and concentration of credit risk

Credit risk is the risk that arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposure by undertaking transactions with a large number of counterparties in various sectors and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. As a result any change in economic, political or other conditions would affect their ability to meet contractual obligations in a similar manner. The Company's credit risk exposure is not significantly different from that reflected in these unconsolidated financial statements. The management monitors and limits the Company's exposure and makes conservative estimates of provisions for doubtful assets, if any. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

	2018	2017
	-----Rupees in thousand-----	
The carrying amount of financial assets represents the maximum credit exposure, as specified below:		
Investments	24,114,124	23,749,454
Loans and other receivable	275,875	331,884
Due from insurance contract holders	6,190,747	5,776,344
Due from other insurers / reinsurers	843,230	994,623
Reinsurance recoveries against outstanding claims	6,046,905	7,709,161
Salvage recoveries accrued	350,340	347,289
Bank deposits	2,205,141	2,270,938
	40,026,362	41,179,693

Provision for impairment is made for doubtful receivables according to the Company's policy. The impairment provision is written off when the Company expects that it cannot recover the balance due. The movement in the provision for doubtful debt account is shown in note 12.2 and 12.3 to these unconsolidated financial statements.

	2018	2017
	-----Rupees in thousand-----	
Age analysis of due from insurance contact holders (net of provision) is as follows:		
Upto one year	5,477,499	5,001,846
Above one year	1,342,916	1,150,299
	6,820,415	6,152,145
Less: provision for doubtful balances	(629,668)	(375,801)
	<u>6,190,747</u>	<u>5,776,344</u>

The credit quality of Company's bank balance can be assessed with reference to external credit rating as follows:

	Rating		Rating	2018	2017
	Short Term	Long Term	Agency	-----Rupees in thousand-----	
Abu Dhabi Commercial Bank				193,688	450,450
Allied Bank Limited	A1+	AAA	PACRA	1,841	-
Askari Bank Limited	A1+	AA+	PACRA	46	46

				<u>2,205,141</u>	<u>2,270,938</u>

The credit quality of amount due from other insurers (gross of provisions) can be assessed with reference to external credit rating as follows:

	Amounts due from other insurers / reinsurers	Reinsurance and other recoveries against outstanding claims	2018	2017
	----- Rupees in thousand -----			
A or Above (including PRCL)	1,035,793	4,001,428	5,037,221	7,097,232
BBB	-	1,193,004	1,193,004	1,208,639
Others	8,739	852,473	861,212	549,215
Total	<u>1,044,532</u>	<u>6,046,905</u>	<u>7,091,437</u>	<u>8,855,086</u>

37.4 Capital risk management

The Company's goals and objectives when managing capital are :

- To be an appropriately capitalized institution in compliance with the paid-up capital requirement set by the SECP. Minimum paid-up capital requirement for non-life insurers as at 31 December 2018 is Rs. 500,000 thousands. The Company's current paid-up capital is well in excess of the limit prescribed by the SECP;
- To safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for the other stakeholders;
- To provide an adequate return to shareholders by pricing insurance contracts commensurately with the level of risk;
- To maintain strong ratings and to protect the Company against unexpected events / losses; and
- To ensure a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

	Excess in Net Admissible Assets over minimum requirement		1,942,337

38.1 During the year, the Company's UAE branch has held up to AED 100 million under lien in favour of the Insurance Authority in accordance with Article 42 of Federal Law No. (6) of 2007 on Establishment of the Insurance Authority and Organization of the Insurance Operations, relating to insurance companies and brokers. The deposit held in UAE is of similar nature as of the one deposited with SBP under section 29 of the Ordinance (i.e. minimum deposit to settle any future insurance related liabilities, and not against any specific provision). Further, current insurance liabilities related to UAE Branch amounts to AED 129.98 million. Accordingly, in order to avoid mismatch of admissible assets with liabilities, the deposit held in lieu of minimum capital requirement in UAE are considered inadmissible however the related insurance liabilities of UAE branch have been reduced by the amount of deposit with UAE bank.

38.2 The law is silent with regard to the inadmissibility of the "Prepaid reinsurance premium ceded" and "Deferred commission expense in Section 32(2) of the Insurance Ordinance, 2000 and, hence, these have been treated as admissible assets for the purpose of this statement.

39 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

39.1 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

	100.0%	100.0%	951,849	994,223

41.2 The above investments / placement of funds in a special bank account has been made in accordance with the provisions of section 218 of the Companies Act, 2017 and the rules formulated for this purpose.

42 Non - Adjusting events after the balance sheet date

42.1 As per Extra Ordinary General Meeting ("EOGM") held on 25 February 2019, the shareholders of the Company authorized the Company to invest further up to Rs. 401.20 million in Adamjee Life Assurance Company Limited by acquiring its 24,059,855 ordinary shares of par value of Rs. 10 each at a purchase price of approximately Rs. 16.68 per share from IVM Intersurer B.V. and its three nominee directors, subject to fulfillment of all applicable legal and regulatory requirements.

42.2 The Board of Directors of the Company in their meeting held on 03 April 2019 proposed a final cash dividend for the year ended 31 December 2018 @ 15% i.e. Rupees 1.5/- share (2017: 10% i.e. Rupee 1/- share). This is in addition to the interim cash dividend @ 10% i.e. Rupees 1/- per share (2017: 15% i.e. Rupees 1.5/- per share) resulting in a total cash dividend for the year ended 31 December 2018 of Rupees 2.5 / - share (2017: Rupees 2.5/- share). The approval of the members for the final dividend will be obtained at the forthcoming Annual General Meeting. The financial statements for the year ended 31 December 2018 do not include the effect of final dividend which will be accounted for in the financial statements for the year ending 31 December 2019.

43 Number of employees

The total average number of employees during the year and as at 31 December 2018 and 2017, are as follows:

	2018	2017
At year end	968	945
Average during the year	962	914

44 Date of authorization for issue

These unconsolidated financial statements were approved and authorized for issue on 03 April 2019 by the Board of Directors of the Company.

45 General

- 45.1 The effect of changes stated in note 3.1.1 have been accounted for retrospectively in accordance with IAS-8 'Accounting Policies, Change in Accounting Estimates and Errors' resulting in restatement of unconsolidated financial statements of prior years. Resultantly, the cumulative effect of adjustment that arose as at 01 January 2018 and 01 January 2017 have been presented and disclosed as part of statement of changes in equity, while the corresponding period adjustment through other comprehensive income is restated and disclosed as part of statement of comprehensive income. The statement of financial position also presents the prior number restated, due to said change.
- 45.2 Significant reclassification / rearrangement of corresponding figures have been made in this unconsolidated financial statements wherever necessary.
- 45.3 Figures in these unconsolidated financial statements have been rounded off to the nearest thousand of rupees unless otherwise stated.

(15,317)	(60,227)
(715,317)	(1,460,227)
12,521,272	11,955,927

	31 December 2018	31 December 2017 <i>Restated</i>
	Rupees	
Earnings per share	3.66	3.13

Review of Operating Results

The gross premium recorded this year was Rs.33.711 billion (excluding Rs.1.1 billion of premiums generated through Window Takaful Operations) as compared to Rs.32.303 billion in the year 2017

with a growth of 4.4%. The Net premium was Rs.26.593 billion as against Rs.24.844 billion in 2017 depicting a growth of 7%. The underwriting profits decreased from Rs.762 million in the preceding year to Rs.558 million in the current year. During the year under review, a profit before tax of the company increased to Rs.2.246 billion as compared to Rs.1.879 billion last year while the profit after tax increased to Rs.1.295 billion as compared to Rs.1.051 billion in the last year, exhibiting an increase of 23.2% over last year.

Modifications in Auditors' Report on Consolidated Financial Statements

The external auditors, Messrs KPMG Taseer Hadi & Co. Chartered Accountants, have issued a qualified audit opinion on the consolidated financial statements together with an emphasis of matter paragraph, on the following basis:

1. The external auditors of the Company have issued a qualified audit opinion on the Company's financial statements on account of Sales Tax on Health Insurance Premiums; and
2. The external auditors of the Company's subsidiary, Adamjee Life Assurance Company Limited have issued a qualified audit opinion on account of Sales Tax on Life Insurance Premiums and mentioned an emphasis of matter paragraph in the audit report on account of shortfall in admissible assets for solvency purposes in case of Unit Linked Business and Individual Family Takaful Business on which the external auditors' opinion is not modified.

Company's Response to modifications in Auditors' Report on Consolidated Financial Statements

1. As explained in detail in Note 26.1(a) to the consolidated financial statements of the Company, under the Sindh Sales Tax Act, 2011, sales tax is payable on premium on corporate health insurance policies written in the province of Sindh. 'The Insurance Association of Pakistan' (IAP) on behalf of the insurance companies has taken up the matter with the Sindh Revenue Board (SRB) and has also approached the Honorable Chief Minister, Sindh, for a favorable resolution of the matter. The matter is still in the process of review. The Company and other insurance companies carrying out corporate health insurance have not yet billed their customers for the Sindh Sales Tax. The amount not yet billed by the Company, works out at Rs. 130.106 million and Rs. 93.675 million for the period from 1 July 2016 to 31 December 2017 and from 1 January 2018 to 31 December 2018, respectively (collectively Rs. 223.781 million).
2. As explained in detail in Note 26.1(i) to the consolidated financial statements of the Company, Sales tax imposed on premium from life insurance business was exempt up to 30 June 2018. However, further exemption on this matter had not been given and the matter was also raised with the Sindh Revenue Board (SRB). The matter for renewal of the exemption was taken up at the collective level of the Insurance Association of Pakistan (IAP) with the SRB through its consultants. The discussions on the matter has been conducive and the management is hopeful based on the consultant's positive feedback, that it will be concluded in favor of the industry. Representation from the SECP Commissioner level has also been made to the Chairman, Sindh Revenue Board, to help enable a favorable outcome. In view of the fact that the matter is still under the process of review and negotiations are being made with provincial tax authorities to seek an exemption and to agree the portion of premium which should be subject to sales tax, the Company and other life insurance companies carrying out life insurance business have not yet billed their customers for Sindh Sales Tax (SST) for the period

from 01 July 2018 to 31 December 2018 on premium from life insurance coverage since the matter of the renewal of exemption is under discussion with sales tax authorities.

Further, the Company has obtained a legal opinion regarding the basis for the calculation of sales tax under the Rules framed under the Sindh Sales Tax on Services Act, 2011, based on which it is of the view that sales tax is chargeable on gross premium charged on 'risk covered' and not on the gross amount received from the policy holders in terms of Rule 31 of the Sindh Sales Tax on Services Rules, 2011.

The aggregate amount of sales taxes not yet billed based on the total gross amount of premium collected during the period from 1 July 2018 to 31 December 2018 is Rs. 522 million whereas based on the legal opinion, liability for Sindh Sales Tax as of 31 December 2018 has been estimated at Rs. 54 million as per the Company's calculation of the premium on risk coverage.

Resultantly, the management considers that it is premature to estimate the liability for sales tax on life insurance at this stage.

On Behalf of the Board of Directors

Muhammad Umar Virk
Director

Muhammad Ali Zeb

Chief Executive Officer

Lahore: 3 April 2019

INDEPENDENT AUDITORS' REPORT

To the members of Adamjee Insurance Company Limited

Report on the Audit of the Consolidated Financial Statements

Qualified Opinion

We have audited the annexed consolidated financial statements of **Adamjee Insurance Company Limited and its subsidiary (the "Group")**, which comprise the consolidated statement of financial position as at 31 December 2018, and the consolidated profit and loss account, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2018, and (of) its consolidated financial performance and its consolidated cash flow statement for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

Basis for qualified opinion

We draw attention to note 25.1 (i) to the consolidated financial statements, which more fully explains the fact that life insurance business was exempt from the applicability of Sindh Sales tax up to 30 June 2018. However the exemption was not extended subsequent to that date. The Group has neither billed its customers nor recorded the liability for Sindh Sales tax. The estimated liability for Sindh sales tax based on gross premium as at 31 December 2018 amounts to Rs.522 million. However the Group has obtained a legal opinion regarding the basis for the calculation of sales tax under the Rules framed under the Sindh Sales Tax on Services Act, 2011, based on which it is of the view that sales tax is chargeable on gross premium charged on 'risk covered' and not on the gross amount received from the policy holders in terms of Rule 31 of the Sindh Sales Tax on Services Rules, 2011. Based on the legal opinion liability for Sindh Sales tax as of 31 December 2018 has been estimated at Rs.54 million as per the Group's calculation of the premium on risk coverage. However the Group along with Insurance Association of Pakistan currently are in negotiations with provincial tax authorities to seek an exemption and to seek clarity as well on interpretation of Rule 31 of the Sales Tax on Services Rules, 2011 with regard to term 'risk covered'.

Resultantly, the Group considers that it is premature to estimate the liability for sales tax on life insurance at this stage. Therefore, it was impracticable for us to quantify the possible effect of provincial sales tax on the financial statements of the Group for the year ended 31 December 2018.

Further, the possible effect of above stated matter on the solvency requirement as required under the Insurance Ordinance, 2001 could not be quantified.

Further, as more fully explained in note 25.1 (a) to the consolidated financial statements, sales tax liability of Rs. 223.78 million has not been recorded in the consolidated financial statements as of 31 December 2018. This amount has not been charged by the Group to its health customers of health insurance since the matter of the renewal of exemption is under discussion with the sales tax authorities. IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' requires that provision should be recognized when the entity has a present legal obligation as a result of past event. Accordingly, had the sales tax liability been recorded, profit after tax for the year and equity of the Group as of 31 December 2018 would have reduced by Rs. 223.78 million, while the sales tax liability as of the year end would have increased by the same amount (excluding the amount of penalty, if levied).

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of the Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Emphasis of matter

We draw attention to note 38.1.1, which mentions that under the Insurance Ordinance 2001 a company is required to have at all times admissible assets in Pakistan in excess of its liabilities in Pakistan of an amount greater than or equal to the minimum solvency requirement. However, at 31 December 2018, in case of Unit Linked Business and Individual Family Takaful Business for reasons explicitly mentioned in note 38.1.1, admissible assets were short of the solvency requirement by Rs. 80.398 million and Rs. 43.77 million respectively which however, in the latter case was subsequently met.

Our opinion is not modified in this respect.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Basis for Qualified Opinion section we have determined the matters described below to be the key audit matters to be communicated in our report.

Following are the key audit matters:

S. #	Key audit matter(s)	How the matter was addressed in our audit
1	Changes in accounting policies due to introduction of Insurance Rules, 2017 and Insurance Accounting Regulations, 2017 Refer notes 3.1.1 and 3.1.2 to the consolidated financial statements for changes in accounting policies due to introduction of Insurance Rules, 2017 and Insurance Accounting Regulations, 2017. Insurance Rules, 2017 and Insurance Accounting Regulations, 2017 became effective for the year ended 31 December 2018. These regulations contained a new format of consolidated financial statements and changed the presentation basis. These changes also required changes in basis of valuation of various investments. Because of the significance of the 'change', this was identified as key audit matter.	Our audit procedures in respect of this matter included the following: Evaluated the adequacy and completeness of the disclosures relating to changes in accounting policies and adjustments required in accordance with accounting and reporting standards as applicable in Pakistan; and Evaluated the adequacy and completeness of additional disclosures as required under new accounting regulations.
2	Classification, Valuation and Impairment of Investments Refer notes 3.10, 8, 9 and 10 to the consolidated financial statements relating to Classification, Valuation and Impairment of Investments. The Group's investment portfolio comprise of government debt securities, equity securities (quoted and unquoted), other fixed income securities and term deposits.	Our audit procedures in respect of this matter included the following: Obtained an understanding, evaluated the design and tested the operating effectiveness of controls designed for classification and valuation of investments and; for impairment of investments classified as available for sale; Tested, on a sample basis, specific investments buying and selling transactions and classification recorded with underlying documentation;

S. #	Key audit matter(s)	How the matter was addressed in our audit
	Investments classified as available for sale represent 36.65 % of the total investments, fair value through profit and loss represent 33.07 % of the total investments and held to maturity represent 30.27 % of total investments. We identified the classification, valuation and impairment of investments as key audit matter because of the significance of investments and management's judgment involved in classification, valuation (for unquoted investment only) and impairment.	Assessed the methodology used and evaluated the valuation of debt securities using the market yield pricing methodology based on interpolation of relevant rates and valuation of quoted equity securities and mutual fund units by comparing the quoted prices of Pakistan Stock Exchange and Mutual Fund Association of Pakistan (MUFAP) respectively for the securities; Evaluated the professional valuer's competence, capabilities and objectivity and assessed the appropriation of methodology used by the professional valuer engaged by the Company to estimate the fair value of unquoted investment; Assessed the reasonableness of the input data provided by management to the professional valuer and tested the mathematical accuracy of the model; Involved our internal valuation specialist to assist us in evaluating the assumptions and judgements adopted by the professional valuer in its discounted cash flow analysis used to derive the fair value of investment in unquoted equity; and Assessed the appropriateness of impairment in the value of available for sale securities held by the Group in accordance with accounting and reporting standards as applicable in Pakistan.
3	Revenue Recognition Risk Refer notes 3.3.1, 3.4.1, 26 and 30 to the consolidated financial statements relating to revenue recognition. The Group receives its revenue primarily from two main sources namely; premiums and investments income. Premiums from insurance policies comprise of 88.14 % of the total revenue. We identified revenue recognition as a key audit matter as it is one of the key performance indicators of the Group and because of the potential risk that revenue transactions may not be recognized in the appropriate period.	Our audit procedures in respect of this matter included the following: Obtained the understanding, evaluated the design and tested the controls over the process of capturing, processing and recording of premiums and investment income; Assessed the appropriateness of the Group's accounting policy for recording of premiums and investment income in line with requirements of applicable accounting and reporting standards; Tested the policies on sample basis where premium was recorded close to year end and subsequent to year end, and evaluated that these were recorded in the appropriate accounting period; and Tested the investment income transaction on sample basis where investment income was recorded close to year end and subsequent to year end, and evaluated that these were recorded in the appropriate period.
4	Valuation of Claim Liabilities Refer note 3.3.7, 3.4.1, 19.1, 19.2 and 27 to the consolidated financial statements for accounting policies and details in respect of claim liabilities. . The Group's claim liabilities represents 18.81 % of its total liabilities. Valuation of	Our audit procedures in respect of this matter included the following: Obtained an understanding, evaluate the design and test the controls over the process of capturing, processing and recording of information related to the claims;

S. #	Key audit matter(s)	How the matter was addressed in our audit
	these claim liabilities involves significant management judgment regarding uncertainty in the estimation of claims payments and assessment of frequency and severity of claims. Claim liabilities are recognized on intimation of the insured event based on management judgment and estimate. The Group maintains provision for claims incurred but not reported (IBNR) based on the advice of an independent actuary. The actuarial valuation process involves significant judgment and the use of actuarial assumptions. We have identified the valuation of claim liabilities as key audit matter because estimation of claims liabilities involves a significant degree of judgment.	Obtained an understanding, evaluated the design and tested the controls related to recoveries from reinsurance arrangements; Inspected significant arrangements with reinsurer to obtain an understanding of contracts terms and assessed on sample a basis that recoveries from reinsurance on account of claims reported has been accounted for based on terms and conditions; Assessed the appropriateness of the Group's accounting policy for recording of claims in line with requirements of applicable accounting and reporting standards; Tested claims transactions on a sample basis with underlying documentation to evaluate whether the claims reported during the year are recorded in accordance with the requirements of the Group's policy and insurance regulations; Assessed the sufficiency of reserving of claim liabilities, by testing calculations on a sample basis the relevant data including recoveries from reinsurers based on their respective arrangements; Tested specific claims transactions on sample basis recorded close to year end and subsequent to year end with underlying documentation to assess whether claims had been recognized in the appropriate accounting period; Used an external actuarial specialist to assist us in evaluation of general principles, actuarial assumptions and methods adopted for actuarial valuations by the actuary of the Group for determination of IBNR; and Considered the adequacy of Group's disclosures about the estimates used and the sensitivity to key assumptions.
5	Valuation of insurance / reinsurance receivables Refer notes 3.3.6 and 12 to the consolidated financial statements for accounting policies and details in respect of Valuation of insurance / reinsurance receivables. The Group's insurance / reinsurance receivables represents 8.84 % of its total assets which are stated net of provision for impairment of Rs. 830.97 million. Valuation of these receivables involves significant judgement regarding uncertainty in determining impairment / provisions. We identified the valuation of insurance / reinsurance receivables as a key audit matter as the estimation involves a significant degree of judgment.	Our audit procedures in respect of this matter included the following: Obtained an understanding, evaluated the design and tested the operating effectiveness of controls designed for the recognition and valuation of receivables; Tested the accuracy of insurance / reinsurance receivables aging report, on a sample basis, by comparing individual balances in the report with underlying documentation to evaluate that the balances appearing in the ageing report were classified within appropriate ageing bucket; Assessed the appropriateness of assumptions and estimates made by the management for the provision for impairment by comparing, on a sample basis, past experience and historical trends of collection, the financial

S. #	Key audit matter(s)	How the matter was addressed in our audit
		circumstances of counter parties; their credit ratings; and actual write offs and receipts and settlement from/with customers and reinsurer subsequent to the financial year end; Assessed on a sample basis the reinsurance share of claims outstanding against the terms of the reinsurance contracts and the related recorded liabilities; and Assessed the historical accuracy of provisions for bad debt recorded by examining the utilization or release of previously recorded provisions.
6	Insurance Liabilities Refer notes 3.4.1, 3.4.2, 3.4.3, 3.4.4, 3.4.5 and 19 to the consolidated financial statements relating to insurance liabilities. The Group's insurance liabilities relating to life insurance business represent 52.06 % of its total liabilities. Approximately 95.93 % of these liabilities are for unit linked business. Valuation of insurance / takaful contract liabilities involve significant judgment, actuarial assumptions such as; mortality, persistency, morbidity, investment returns, expense levels and inflation, and the use of methods adopted for actuarial valuations.	Our procedures in respect of this matter included the following: Obtained an understanding, assessed the design and tested the operating effectiveness of controls established for unit linked business for allocation and surrender of units and calculation of bid value per unit; Assessed the adequacy of the reserve for bid value of allocated units of unit linked business, by applying the bid value to the total number of units extracted from the system; Assessed the adequacy of reserving of various components of Insurance liabilities, other than bid value reserves including reserves of non-linked businesses, by testing calculations on the relevant data obtained from system generated reports; Obtained an understanding, evaluated the design and tested the controls related to reinsurance arrangements; Obtained understanding of the work performed by the appointed actuary; Used an external actuarial specialist to assist us in challenging the general principles, actuarial assumptions and methods adopted for actuarial valuations by the appointed actuary of the subsidiary company; and Challenged the assumptions used for incurred but not reported claims of businesses where fully credible experience is not available with the Group's historical data of claims.

Information Other than the Consolidated Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Group's Annual Report but does not include the consolidated financial statements and our auditors' report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material

misstatement of this other information, we are required to report that fact. We have concluded that the Other Information is materially misstated for the same reason with respect to the amounts or other items in the Group's Annual Report affected by the matter described in the Basis for Qualified Opinion section of our report.

Responsibilities of Management and Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the requirements of Insurance Ordinance, 2000 and, Companies Act, 2017 (XIX of 2017), and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The board of directors is responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit, in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Bilal Ali.

Notes to the Consolidated Financial Statements

For the year ended 31 December 2018

1 The group and its operations:

1.1 The group comprises of:

	2018 (Holding percentage)	2017
<i>Holding Company</i>		
Adamjee Insurance Company Limited	100%	100%
<i>Subsidiary Company</i>		
Adamjee Life Assurance Company Limited	74.28%	74.28%

Adamjee Insurance Company Limited (Holding Company)

Adamjee Insurance Company Limited is a public limited company incorporated in Pakistan on 28 September 1960 under the Companies Act, 1913 (now the Companies Act, 2017). The Holding Company is listed on Pakistan Stock Exchange and is engaged in the general insurance business. The registered office of the Holding Company is situated at Tanveer Building, 27-C-III, MM Alam Road, Gulberg III, Lahore.

The Holding Company also operates branches in the United Arab Emirates (UAE) and the Export Processing Zone (EPZ).

The Holding Company was granted authorization on 23 December 2015 under Rule 6 of the Takaful Rules, 2012 to undertake Window Takaful Operations in respect of general takaful products by Securities and Exchange Commission of Pakistan (SECP) and commenced Window Takaful Operations on 01 January 2016.

Adamjee Life Assurance Company Limited (Subsidiary Company)

Adamjee Life Assurance Company Limited was incorporated in Pakistan on 4 August 2008 as a public unlisted company under the Companies Act, 2017. The Subsidiary Company started its operations from 24 April 2009. Registered office of the Subsidiary Company is at 1st floor, Islamabad Stock Exchange Towers, 55-B, Jinnah Avenue, Blue Area, Islamabad while its principal place of business is at 3rd Floor, The Forum, Khayaban-e-Jami, Clifton, Karachi. Adamjee Life Assurance Company Limited is a subsidiary of Adamjee Insurance Company Limited and an associate of IVM Intersurer B.V, each having a holding of 74.28% and 25.72% (2017: 74.28% and 25.72%) respectively in the share capital of the Subsidiary Company. IVM Intersurer B.V. has nominated Hollard Life Assurance Subsidiary Company Limited ("HLA"), an associate company of IVM Intersurer B.V. to act on its behalf in respect of matters relating to the Subsidiary Company. HLA is South Africa's largest private sector insurance company.

The Subsidiary Company is engaged in life assurance business carrying on non-participating business only. In accordance with the requirements of the Insurance Ordinance, 2000, the Subsidiary Company has established a shareholders' fund and the following statutory funds in respect of each class of its life assurance business:

- Conventional Business
- Accident and Health Business
- Individual Life Non-unitised Investment Linked Business
- Individual Life Unit Linked Business
- Individual Family Takaful Business

The Subsidiary Company was granted authorization on 4 May 2016 under Rule 6 of Takaful Rules, 2012 to undertake Takaful Window Operations in respect of family takaful products by the Securities and Exchange Commission of Pakistan (SECP) and subsequently the Subsidiary Company commenced Window Takaful Operations from 14 July 2016. The Subsidiary Company formed a Waqf Fund namely the Adamjee Life Assurance Company Limited - Window Takaful Operations Waqf Fund (here-in-after referred to as the Participant Takaful Fund (PTF)) on 22 December 2015 under a Waqf deed executed by the Subsidiary Company with the cede amount of Rs. 500,000. The cede money is required to be invested in Shariah compliant investments and any profit thereon can be utilized only to pay benefits to participants or defray PTF expenses. Waqf deed also governs the relationship of the Subsidiary Company and policyholders for the management of Takaful operations, investment of policyholders' funds and shareholders' funds as approved by the Shariah Advisor appointed by the Subsidiary Company.

IVM Intersurer B.V is in the process of selling its holding in the company to Holding Company after relevant legal formalities.

2 Basis of preparation and statement of compliance

2.1 These consolidated financial statements have been prepared in accordance with accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017 and the Insurance Ordinance, 2000, the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017 and the Takaful Rules, 2012.

In case requirements differ, the provision of and directives issued under the Companies Act, 2017, the Insurance Ordinance, 2000 the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017 and the Takaful Rules, 2012 shall prevail.

The Security and Exchange Commission of Pakistan (SECP) vide its S.R.O 89(1) 2017 dated 9 February 2017 has prescribed format of the presentation of annual financial statements for general insurance companies. These financial statements have been prepared in accordance with the format prescribed by the SECP (note 3.1.1).

As per the requirements of the SECP Takaful Rules, 2012 and SECP Circular No. 25 of 2015 dated 09 July 2015, the assets, liabilities and profit and loss account of the Operator's Fund of the General Takaful Operations of the Holding Company have been presented as a single line item in the statement of financial position and profit and loss account of the Holding Company respectively.

2.2 Consolidation

2.2.1 Subsidiary Company

Subsidiary Company is the entity in which Holding Company directly or indirectly controls, beneficially owns or holds more than 50% of the voting securities or otherwise has power to elect and appoint more than 50% of its directors. The financial statements of the Subsidiary Company are included in the consolidated financial statements from the date the control commences until the date that control ceases.

The assets and liabilities of Subsidiary Company have been consolidated on a line by line basis and carrying value of investments held by the Holding Company is eliminated against Holding Company's share in paid up capital of the Subsidiary Company. Intergroup balances and transactions have been eliminated.

Non-controlling interests are that part of net results of the operations and of net assets of Subsidiary Company attributable to interest which are not owned by the Holding Company. Non-controlling interests are presented as separate item in the consolidated financial statements.

2.2.2 Associates

Associates are the entities over which the Group has significant influence but not control. Significant influence is generally considered where shareholding percentage is between 20% to 50% of the voting shares. However, such significant influence can also arise where shareholding is lesser than 20% but due to other factors e.g. Group's representation on the Board of Directors of investee Company, the Group can exercise significant influence. Investments in these associates are accounted for using the equity method of accounting and are initially recognized at cost. The Group's investment in associate includes goodwill identified on acquisition, net of any accumulated impairment loss, if any.

The Group's share of its associate's post-acquisition profits or losses, movement in other comprehensive income, and its share of post-acquisition movements in reserves is recognized in the consolidated profit and loss account, consolidated statement of comprehensive income and reserves respectively. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. Distributions received from an associate reduce the carrying amount of the investment.

However, there was no associate during the year required to be accounted for under equity method.

2.3 Basis of measurement

These consolidated financial statements have been prepared under historical cost convention except for certain foreign currency translation adjustments, certain financial instruments carried at fair value, and defined benefit obligations under employees benefits carried at present value. All transactions reflected in these financial statements are on accrual basis except for those reflected in cash flow statements.

2.4 Functional and presentation currency

Items included in the consolidated financial statements are measured using the currency of the primary economic environment in which the Group operates ("the functional currency"). The financial statements are presented in Pak Rupees, which is the Group's functional and presentation currency. All the financial information presented in Rupees has been rounded off to the nearest thousand in rupee, unless otherwise stated.

2.5 Standards, interpretations and amendments to accounting and reporting standards as applicable in Pakistan that are effective in current year

There are certain new and amended standards, interpretations and amendments that are mandatory for the Group's accounting periods beginning on or after 01 January 2018 but are considered not to be relevant or do not have any significant effect on the Group's operations and therefore not stated in these consolidated financial statements.

Securities and Exchange Commission of Pakistan ("SECP") vide S.R.O 88(1)/2017 and S.R.O 89(1)/2017 dated 9 February 2017 has issued the Insurance Rules, 2017 Insurance Accounting Regulations, 2017 (the Rules and Accounting Regulations 2017) which prescribed a new format for the financial statements of Insurance Companies. Accordingly, these consolidated financial statements are prepared in accordance with the new format.

In addition, Companies Act 2017 also became effective for the financial statements for the year ended 31 December 2018. As the Company's consolidated financial statements are prepared in accordance with the format prescribed by SECP, it did not have a direct impact on the consolidated financial statements.

2.6 Standards, interpretations and amendments to accounting and reporting standards as applicable in Pakistan that are not yet effective

2.6.1 The following standards, amendments and interpretations of accounting and reporting standards as applicable in Pakistan will be effective for accounting periods beginning on or after 01 January 2019:

- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after 1 January 2019) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The application of interpretation is not likely to have an impact on Group's consolidated financial statements.
- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after 1 July 2018). IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 'Revenue', IAS 11 'Construction Contracts' and IFRIC 13 'Customer Loyalty Programmes'. The Group is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.
- IFRS 9 'Financial Instruments' and amendment - Prepayment Features with Negative Compensation (effective for annual periods beginning on or after 1 July 2018 and 1 January 2019 respectively). IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. The Group is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.
- IFRS 16 'Leases' (effective for annual period beginning on or after 1 January 2019). IFRS 16 replaces existing leasing guidance, including IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC-15 'Operating Leases- Incentives' and SIC-27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. IFRS 16 introduces a single, on-balance sheet lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases. The Group is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.

- Amendment to IAS 28 'Investments in Associates and Joint Ventures' - Long Term Interests in Associates and Joint Ventures (effective for annual period beginning on or after 1 January 2019). The amendment will affect companies that finance such entities with preference shares or with loans for which repayment is not expected in the foreseeable future (referred to as long-term interests or 'LTI'). The amendment and accompanying example state that LTI are in the scope of both IFRS 9 and IAS 28 and explain the annual sequence in which both standards are to be applied. The amendments are not likely to have an impact on Group's consolidated financial statements.
- Amendments to IAS 19 'Employee Benefits'- Plan Amendment, Curtailment or Settlement (effective for annual periods beginning on or after 1 January 2019). The amendments clarify that on amendment, curtailment or settlement of a defined benefit plan, a company now uses updated actuarial assumptions to determine its current service cost and net interest for the period; and the effect of the asset ceiling is disregarded when calculating the gain or loss on any settlement of the plan and is dealt with separately in other comprehensive income. The application of amendments is not likely to have an impact on Group's consolidated financial statements.
- Amendment to IFRS 3 'Business Combinations' - Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 1 January 2020). The IASB has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test. The standard is effective for transactions in the future and therefore would not have an impact on past consolidated financial statements.
- Amendment to IFRS 4 'Insurance Contracts'- Applying IFRS 9 'Financial Instruments' with IFRS 4 (effective for annual periods beginning on or after 1 July 2018). The amendment address issue arising from the different effective dates of IFRS 9 and the forthcoming new standard IFRS 17 'Insurance Contracts'. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9. The overlay approach allows an entity applying IFRS 9 from 1 July 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied. The Group has adopted the temporary exemption which allows the Group to defer the application of both IFRS 9 and IFRS 17 until 31 December 2021.
- Amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (effective for annual periods beginning on or after 1 January 2020). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the IASB has also issued guidance on how to make materiality judgments when preparing their general purpose financial statements in accordance with IFRS Standards.

Annual Improvements to IFRS Standards 2015-2017 Cycle - the improvements address amendments to following approved accounting standards:

- IFRS 3 Business Combinations and IFRS 11 Joint Arrangement - the amendment aims to clarify the accounting treatment when a company increases its interest in a joint operation that meets the definition of a business. A company remeasures its previously held interest in a joint operation when it obtains control of the business. A company does not remeasure its previously held interest in a joint operation when it obtains joint control of the business.

- IAS 12 Income Taxes - the amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognized consistently with the transaction that generates the distributable profits.
- IAS 23 Borrowing Costs - the amendment clarifies that a company treats as part of general borrowings any borrowing originally made to develop an asset when the asset is ready for its intended use or sale.

The above amendments are effective from annual period beginning on or after 1 January 2019 and are not likely to have an impact on Group's consolidated financial statements.

3 Summary of significant accounting policies

The significant accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, except for change in accounting policies as disclosed in notes below.

3.1 Change in accounting policies

3.1.1 Holding Company

Application of Insurance Rules 2017 and Insurance Accounting Regulation 2017

Securities and Exchange Commission of Pakistan ("SECP") vide S.R.O 88(1)/2017 and S.R.O 89(1)/2017 dated 9 February 2017 has issued the Insurance Rules, 2017, Insurance Accounting Regulations, 2017 ("the Rules and Accounting Regulations, 2017"). The application of these Rules and Accounting Regulations, 2017 for the purpose of preparation and presentation of the financial statements was effective from 1 April 2017. SECP had granted Holding Company exemption from application of Rules and Accounting Regulations 2017 to the Company till 31 December 2017. Therefore, the application of Rules and Accounting Regulations 2017 became effective from the accounting year commencing from 01 January 2018.

The Rules and Accounting Regulations, 2017 require significant disclosures / requirements, which are relevant to the Holding Company, includes but not limited to: Presentation and disclosure of financial statements prescribed in Annexure II of the Insurance Rules, 2017, recognition of available-for-sale investments at fair value as per IAS 39 "Financial Instruments: Recognition and Measurement", recognition of premium receivable under an insurance policy / cover note as written from the date of attachment of risk to the policy / cover note.

The effect of each of the above change is given below:

(a) Available for sale investments

Previously, the Holding Company recorded its 'available for sale' investments at cost and remeasured them at lower of cost or market value (market value being taken as lower of the reduction other than temporary) in accordance with the requirements of the SEC (Insurance) Rules, 2002. As per Insurance Rules 2017, 'available for sale' investments are now initially measured at cost and subsequently remeasured at fair value at each reporting date. The unrealized gains and losses arising from changes in fair values are directly recognized in equity in the year in which these arise. When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognized in equity are included in the profit and loss account as gains and losses from investment securities.

The Holding Company assesses at each statement of financial position date whether there is an objective evidence that the financial asset is impaired. If any such evidence exists for an 'available for sale' asset, the accumulated loss is removed from equity and recognized in the profit and loss account. Impairment loss recognized in the profit and loss account on equity instruments is not reversed through the profit and loss account.

(b) Presentation of financial statements

The Holding Company has adopted format for preparation and presentation of its unconsolidated financial statements in line with the requirements of the Rules and Accounting Regulations, 2017. Significant changes in presentation are rearrangements in sequence of assets / liabilities in the statement of financial position; presentation of single profit or loss account instead of segment wise (classes of business) presentation and discontinuation of separate statements of Premiums, Claims, Expense and Investment Income. The segment wise premiums, claims and expenses and investment income is now included in notes to the consolidated financial statements. Furthermore term deposits are now included in investments instead of cash and cash equivalent in line with the requirements of Insurance Rules and Accounting Regulations, 2017.

(c) Premium income

The Insurance Accounting Regulations, 2017, requires the Holding Company, to recognize premium receivable under an insurance policy/ cover note as written from the date of attachment of risk to the policy/ cover note. Accordingly, the Holding Company is required to account for cover notes which are effective as at reporting date. In previous years, the Holding Company recognized premium under a policy as written at the time of issuance of policy in accordance with the SEC (Insurance) Rules, 2002. The change is considered to be a change in accounting policy in accordance with IAS - 8. The impact of the same is not considered to be material to the consolidated financial statements and accordingly the comparative restated consolidated financial statements has not been restated for this change.

3.1.2 Subsidiary Company

Application of Insurance Rules 2017 and Insurance Accounting Regulation 2017

As explained in note 3.1.1, Securities and Exchange Commission of Pakistan ("SECP") vide S.R.O 88(1)/2017 and S.R.O 89(1)/2017 dated 9 February 2017 has issued the and Insurance Rules, 2017, Insurance Accounting Regulations, 2017 ("the Rules and Accounting Regulations, 2017"). Accordingly, following changes have been made in accounting policies of Subsidiary Company:

- A new format of financial statements has been prescribed where statement of comprehensive income has been added and revenue account, statement of premiums / contributions, statement of claims, statement of expenses and statement of investment income have been done away with;
- Full premiums and claims of insurance business are now being recorded in profit and loss account. Previously only surplus as recommended by the appointed actuary was included in profit and loss account; and
- The accounting policies for investments have been brought in line with requirements of IAS 39 Financial Instruments. Previously these investments were valued at lower of cost or market value.

The said change in accounting policy has been made in accordance with the requirements of IAS 8 'Accounting Policies, change in accounting estimates and errors' as disclosed in note 3.1.3 of these consolidated financial statements.

3.1.3 Financial impact of change in accounting policy

The significant effects of changes in accounting policies as stated above has been applied retrospectively in accordance with the requirement of IAS - 8 'Accounting Policy, Change in Accounting Estimates and Error' and comparatives have been restated to conform to the changed policies. The summary of the effects are as follows:

	31 December 2017			1 January 2017		
	As previously reported	Adjustment	After adjustment	As previously reported	Adjustment	After adjustment
<u>Effect on statement of financial position</u>	----- (Rupees in thousand) -----					
Assets						
Investments in equity securities	26,078,010	5,110,551	31,188,561	22,053,279	7,096,661	29,149,940
Decrease in insurance liabilities	27,455,163	(3,377)	27,451,786	21,489,648	(2,202)	21,487,446
Total assets from takaful operations - OTF	241,121	128	241,249	99,157	121	99,278
Liability						
Deferred taxation	30,218	1,561,539	1,591,757	35,362	2,298,759	2,334,121
Total liabilities from takaful operations - OTF	141,312	38	141,350	46,366	38	46,404
	31 December 2017			1 January 2017		
	Effect of Adjustment			Effect of Adjustment		
	----- (Rupees in thousand) -----			----- (Rupees in thousand) -----		

Equity:

Fair value reserves

- attributable to equity holders of the parent	3,573,725	4,889,942
- non-controlling interest	1,193	6,472

Retained earnings:

(a) Increase in Equity - Ledger Account D balance

- attributable to equity holders of the parent	51,216	172,708
- non-controlling interest	17,734	59,801

(b) Increase in unappropriated profits and reserves

- attributable to equity holders of the parent	2,581	485
- non-controlling interest	894	168

Further the balance of Rs. 230.57 million of Subsidiary Company as at 01 January 2017 representing the ledger D retained earnings balance earlier included in statutory funds have now been included in equity. In addition, due to the change in format of the statement of financial position, interfund receivable and payable balances of Rs. 323.86 million have been netted off against each other.

	31 December 2017
	Effect of Adjustment
	----- (Rupees in thousand) -----
<u>Effect on profit and loss account</u>	
Gain / loss on other than participating business (Ledger Account D)	(234,538)
Net change in insurance liabilities (other than outstanding claims)	1,175
Management expenses	17,681
Investment income (loss on available for sale investment)	2,617
Income tax expense	64,704
	<u>(148,361)</u>

	31 December 2017

Increase / (decrease) in EPS - Rupees per share	3.44	(0.31)	3.13

3.2 Insurance contracts

Insurance contracts are those contracts where the Group (the insurer) has accepted significant insurance risk from another party (the policyholders) by agreeing to compensate the policyholders if a specified uncertain future event (the insured event) adversely affects the policyholders.

Once a contract has been classified as an insurance contract, it remains an insurance contract for the remainder of its life time, even if the insurance risk reduces significantly during this period, unless all rights and liabilities are extinguished or expired.

Insurance contracts issued by the Group are generally classified in ten basic categories among them five categories are covered by the Holding Company i.e. Fire and property, Marine, aviation and transport, Motor, Health and Miscellaneous and five categories i.e. Conventional Business, Accident and Health Business, Non-Unitised Investment Link Business, Unit Link Fund and Individual Family Takaful Unit Linked Business are covered by the Subsidiary Company. These are issued to multiple types of clients with businesses in engineering, automobiles, cement, power, textiles, paper, agriculture, services and trading sectors etc. and individuals as well. The tenure of these insurance contracts depends upon terms of the policies written and vary accordingly.

Holding Company - Non Life Business

- Fire and property insurance contracts generally cover the assets of the policy holders against damages by fire, earthquake, riots and strike, explosion, atmospheric disturbance, flood, electric fluctuation and impact, burglary, loss of profit followed by the incident of fire, contractor's all risk, erection all risk, machinery breakdown and boiler damage, etc.
- Marine aviation and transport insurance contracts generally provide cover for loss or damage to cargo while in transit to and from foreign land and inland transit due to various insured perils including loss of or damage to carrying vessel, etc.
- Motor insurance contracts provide indemnity for accidental damage to or loss of insured vehicle including loss of or damage to third party and other comprehensive car coverage.
- Accident and health insurance contracts mainly compensate hospitalization and out patient medical coverage to the insured.
- Miscellaneous insurance contracts provide variety of coverage including cover against burglary, loss of cash in safe, cash in transit and cash on counter, fidelity guarantee, personal accident, workmen compensation, travel and crop, etc.

Subsidiary Company - Life Business

- The Conventional Business includes individual life, group life and group credit life assurance.
- Accident and Health Business provides fixed pecuniary benefits or benefits in the nature of indemnity or a combination of both in case of accident or sickness to individuals. The risk underwritten is mainly related to medical expenses relating to hospitalization and death by accidental means. This business is written through direct sales by the head office as well as through tele-sales.
- Individual Life Non-unitised Investment Linked Business provides life assurance coverage to individuals under universal life policies issued by the Subsidiary Company. Benefits are expressed in terms of account value of the policyholder account which is related to the market value of the underlying assets of the investment fund. The risk underwritten is mainly death and disability. This business is written through bancassurance channel.

- Individual Life Unit Linked Business provides life assurance coverage to individuals under unit-linked investment policies issued by the Subsidiary Company. Benefits are expressed in terms of account value of the policyholder account which is related to the market value of the underlying assets of the investment fund. Various types of riders (Accidental death, family income benefits etc.) are also sold along with the basic policies. Some of these riders are charged through deductions from policyholders fund value, while others are not charged i.e. additional premium is charged there against. The risk underwritten is mainly death and disability. This business is written through bancassurance channel and Subsidiary Company's own agency distribution channel.
- Unit Linked Takaful Plans provide Shariah Compliant financial protection and investment vehicle to individual participants. These plans carry cash value, and offer investment choices to the participants to direct their investment related contributions based on their risk / return objectives. The investment risk is borne by the participants.

In addition to direct insurance, the Group also participates in risks under co-insurance contracts from other companies and also accepts risks through re-insurance inward by way of facultative acceptance on case to case basis provided such risks are within the underwriting policies of the company. The nature of the risks undertaken under such arrangement is consistent with the risks in each class of business as stated above.

Since the nature of insurance contracts entered in to by the Holding Company and its Subsidiary Company are different, the respective accounting policies have separately been disclosed here under.

3.3 Holding Company - Non-life business

3.3.1 Revenue recognition

3.3.1.1 Premiums

Premiums including administrative surcharge under an insurance contract are recognized as written from date of issuance to the date of attachment of risk to the policy / cover note. Where premium for a policy is payable in installments, full premium for the duration of the policy is recognized as written at the inception of the policy and related asset is recognized for premium receivable.

Revenue from premiums is determined after taking into account the unearned portion of premiums. The unearned portion of premium income is recognized as a liability.

Reinsurance premium is recognized as expense after taking into account the proportion of deferred premium expense which is recognized as a proportion of the gross reinsurance premium of each policy, determined as the ratio of the unexpired period of the policy and the total period, both measured to the nearest day. The deferred portion of premium expense is recognized as a prepayment.

3.3.1.2 Commission Income

Commission and other forms of revenue (apart from recoveries) from reinsurers are deferred and recognized as liability and recognized in the profit and loss account as revenue in accordance with the pattern of recognition of the reinsurance premiums.

3.3.2 Deferred commission expense / acquisition cost

Commission expense incurred in obtaining and recording policies is deferred and recognized as an expense in accordance with pattern of recognition of premium revenue.

Other acquisition costs are charged to profit and loss account at the time the policies are accepted.

3.3.3 Unearned premium

As explained in 4.2 of these consolidated financial statements, the Holding Company has changed its methodology for determining unearned premium whereby instead of 1/365 method, premium income under a policy is determined as the ratio of the unexpired period of the policy and the total policy period, both measured to the nearest day except:

- for marine cargo, as a ratio of the unexpired shipment period to the total expected shipment period, both measured to the nearest day.
- for crop business, as a ratio of the unexpired crop period to the total expected crop period, both measured to the nearest day.

Administrative surcharge is recognized as premium at the time the policies are written and is included in above mentioned calculations.

3.3.4 Premium deficiency

The Holding Company maintains a provision in respect of premium deficiency (also called unexpired risk reserve) for the class of business where the unearned premium liability is not adequate to meet the expected future liability, after reinsurance, from claims and other supplementary expenses expected to be incurred after the statement of financial position date in respect of the unexpired policies in that class of business at the reporting date.

For this purpose, premium deficiency reserve is determined by independent actuaries. The actuary determines the prospective loss ratios for each class of business and applies factors of unearned and earned premiums and uses assumptions appropriate to arrive at the expected claims settlement cost which when compared with unearned premium reserve (UPR) shows whether UPR is adequate to cover the unexpired risks. If these ratios are adverse, premium deficiency is determined.

Based on actuary's advice the management creates a reserve for the same in these unconsolidated financial statements. The movement in the premium deficiency reserve is recorded as an expense / income in profit and loss account for the year.

3.3.5 Reinsurance contracts held

The Holding Company enters into reinsurance contracts in the normal course of business in order to limit the potential for losses arising from certain exposures. Outward reinsurance premiums are accounted for in the same period as the related premiums for the direct or accepted reinsurance business being reinsured.

Reinsurance liabilities represent balances due to reinsurance companies. Amounts payable are estimated in a manner consistent with the related reinsurance contract. Reinsurance assets represent balances due from reinsurance companies. Amounts recoverable from reinsurers are estimated in a manner consistent with the provision for outstanding claims or settled claims associated with the reinsurance policies and are in accordance with the related reinsurance contract.

Reinsurance assets are not offset against related insurance liabilities. Income or expenses from reinsurance contract are not off set against income or expenses from related insurance assets.

Reinsurance assets or liabilities are derecognized when the contractual rights or obligations are extinguished or expired.

The Holding Company assesses its reinsurance assets for impairment on reporting date. If there is an objective evidence that the reinsurance asset is impaired, the Holding Company reduces the carrying amount of the reinsurance asset to its recoverable amount and recognizes the impairment loss in the profit and loss account.

The portion of reinsurance premium not recognized as an expense is shown as a prepayment.

Commission income from reinsurers is recognized at the time of issuance of the underlying insurance policy by the Holding Company. This income is deferred and brought to profit and loss account as revenue in accordance with the pattern of recognition of the reinsurance premium to which it relates. Profit commission, if any, which the Holding Company may be entitled to under the terms of reinsurance, is recognized on accrual basis.

3.3.6 Receivables and payables related to insurance contracts

Receivables including premium due but unpaid, relating to insurance contracts are recognized when due. The claim payable is recorded when intimation is received. These are recognized at cost, which is the fair value of the consideration given less provision for impairment, if any. Premium received in advance is recognized as liability till the time of issuance of insurance contract there against.

If there is an objective evidence that any premium due but unpaid is impaired, the Holding Company reduces the carrying amount of that insurance receivable and recognizes the loss in profit and loss account.

3.3.7 Provision for outstanding claims including IBNR

The Holding Company recognizes liability in respect of all claims incurred up to the reporting date which is measured at the undiscounted value of the expected future payments. The claims are considered to be incurred at the time of the incident giving rise to the claim except as otherwise expressly indicated in the insurance contract. The liability for claims include amounts relating to unpaid reported claims, claims incurred but not reported (IBNR), expected claims settlement costs, a reduction for the value of salvage and other recoveries, and any adjustments to claims outstanding from previous years.

Securities and Exchange Commission of Pakistan through its circular 9 of 2016 dated 9 March 2016 issued "Guidelines for estimation of incurred but not reported (IBNR) claims reserve 2016" for non-life insurance Companies and required to comply with all provisions of these guidelines with effect from 1 July 2016.

The Guidelines require that estimation for provision for claims incurred but not reported (IBNR) for each class of business, by using prescribed Method "Chain Ladder Method" and other alternate method as allowed under the provisions of the Guidelines. The Chain Ladder Method involves determination of development factors or link ratios for each period. These are then subsequently combined to determine Cumulative Development Factor (CDF) which represents the extent of future development of claims to reach their ultimate level to derive an IBNR estimate.

The actuarial valuation as at 31 December 2018 has been carried out by independent firm of actuaries for determination of IBNR for each class of business. The actuarial valuation is based on a range of standard actuarial claim projection techniques, based on empirical data and current assumptions as explained in preceding paragraph that may include a margin for adverse deviation as required / allowed by the circular 9 of 2016. The methods used, and the estimates made, are reviewed regularly.

3.4 Subsidiary Company - Life business

3.4.1 Conventional Business

The Conventional Business includes individual life, group life and group credit life assurance.

3.4.1.1 Individual life

The individual life business segment provides coverage to individuals against deaths and disability under conventional policies issued by the Subsidiary Company. Additional riders are included on the discretion of the policyholder. The business is written through bancassurance, tele-sales and direct sales made by head office.

Revenue recognition

Premiums are recognized once the related policies have been issued and the premiums have been received.

Recognition of policyholders' liabilities

Policyholders' liabilities included in the statutory fund are determined based on the appointed actuary's valuation conducted as at the date of financial statement, in accordance with section 50 of the Insurance Ordinance, 2000.

Claim expenses

Claims expenses are recognised on the earlier of the policy expiry or the date when the intimation of the insured event giving rise to the claim is received. Surrender of conventional business policies is made after these have been approved in accordance with the Subsidiary Company's Policy.

Liability for outstanding claims includes amounts in relation to unpaid reported claims and is stated at estimated claims settlement cost. Full provision is made for the estimated cost of claims incurred and reported to the date of the financial statements.

Liability for claims "Incurred But Not Reported" (IBNR) is included in the insurance / policyholders' liabilities in accordance with the estimates recommended by the appointed actuary.

3.4.1.2 Group life and group credit life

Group Life contracts are mainly issued to employers to insure their commitments to their employees as required under the West Pakistan Industrial and Commercial Employment (Standing Orders) Ordinance, 1968.

The group life business segment provides coverage to members / employees of business enterprises and corporate entities, against death and disability under group life assurance schemes issued by the Company. The group credit life business segment provides coverage to a group of members or subscribers registered under a common platform against death and disability. The business is written mainly through direct sales force and bancaassurance channel.

Revenue recognition

Premiums are recognised as and when due. In respect of certain group policies the Company continues to provide insurance cover even if the premium is received after the grace period. Provision for unearned premiums is included in the policyholders' liabilities.

Recognition of policyholders' liabilities

Policyholders' liabilities included in the statutory fund are determined based on the appointed actuary's valuation conducted as at the date of financial statement, in accordance with section 50 of the Insurance Ordinance, 2000.

Claim expenses

Claims expenses are recognised on the date the insured event is intimated.

Liability for outstanding claims includes amounts in relation to unpaid reported claims and is stated at estimated claims settlement cost. Full provision is made for the estimated cost of claims incurred and reported to the date of the balance sheet.

Liability for claims "Incurred But Not Reported" (IBNR) is included in the insurance / policyholders' liabilities in accordance with the estimates recommended by the appointed actuary.

Experience refund of premium

Experience refund of premium payable to policyholders' is included in policyholders' liability in accordance with the policy of the Company and the advice of the appointed actuary.

3.4.2 Accident and Health Business

Accident and Health Business provides fixed pecuniary benefits or benefits in the nature of indemnity or a combination of both in case of accident or sickness to individuals. The risk underwritten is mainly related to medical expenses relating to hospitalisation and death by accidental means. This business is written through direct sales by the head office as well as through tele-sales.

Revenue recognition

Premiums are recognised once the related policies have been issued and the premiums have been received.

Recognition of policyholders' liabilities

Policyholders' liabilities included in the statutory fund are determined based on the appointed actuary's valuation conducted as at the date of financial statement, in accordance with section 50 of the Insurance Ordinance, 2000.

Claim expenses

Claims expenses are recognised after the date the insured event is intimated and a reliable estimate of the claim amount can be made.

Liability for outstanding claims includes amounts in relation to unpaid reported claims and is stated at estimated claims settlement cost. Full provision is made for the estimated cost of claims incurred and reported to the date of the financial statements.

Liability for claims "Incurred But Not Reported" (IBNR) is included in the insurance / policyholders' liabilities in accordance with the estimates recommended by the appointed actuary.

3.4.3 Non-unitised Investment Linked Business

Individual Life Non-unitised Investment Linked Business provides life assurance coverage to individuals under universal life policies issued by the Company. Benefits are expressed in terms of account value of the policyholder account which is related to the market value of the underlying assets of the investment fund. The risk underwritten is mainly death and disability. This business is written through bancassurance channel.

Revenue recognition

Premiums (including first year, renewal and single premium) are recognised once the related policies have been issued and the premiums have been received.

Recognition of policyholders' liabilities

Policyholders' liabilities included in the statutory fund are determined based on the appointed actuary's valuation conducted as at the date of financial statement, in accordance with section 50 of the Insurance Ordinance, 2000.

Claim expense

Claim expenses are recognised on the earlier of the policy expiry or the date when the intimation of the event giving rise to the claim is received.

Surrender of non-unitised investment linked business policies is made after these have been approved in accordance with the Company's Policy.

Liability for outstanding claims includes amounts in relation to unpaid reported claims and is stated at estimated claims settlement cost. Full provision is made for the estimated cost of claims incurred and reported to the date of the financial statements.

Liability for claims "Incurred But Not Reported" (IBNR) is included in the insurance / policyholders' liabilities in accordance with the estimates recommended by the appointed actuary.

3.4.4 Unit Linked Business

Individual Life Unit Linked Business provides life assurance coverage to individuals under unit-linked investment policies issued by the Company. Benefits are expressed in terms of account value of the policyholder account which is related to the market value of the underlying assets of the investment fund. Various types of riders (Accidental death, family income benefits etc.) are also sold along with the basic policies. Some of these riders are charged through deductions from policyholders' fund value, while others are not charged i.e. additional premium is charged there against. The risk underwritten is mainly death and disability. This business is written through bancassurance channel and Company's own agency distribution channel.

Revenue recognition

Premiums (including first year, renewal and single premiums) are recognised once the related policies have been issued / renewed against receipt and realization of premiums.

Recognition of policyholders' liabilities

Policyholders' liabilities included in the statutory fund are determined based on the appointed actuary's valuation conducted as at the date of financial statement, in accordance with section 50 of the Insurance Ordinance, 2000.

Claim expenses

Claim expenses are recognised on the earlier of the policy expiry or the date when the intimation of the event giving rise to the claim is received.

Surrender of unit linked business policies is made after these have been approved in accordance with the Company's Policy.

Liability for outstanding claims includes amounts in relation to unpaid reported claims and is stated at estimated claims settlement cost. Full provision is made for the estimated cost of claims incurred and reported to the date of the financial statements.

Liability for claims "Incurred But Not Reported" (IBNR) is included in the insurance / policyholders' liabilities in accordance with the estimates recommended by the appointed actuary.

3.4.5 Individual Family Takaful Unit Linked Business

The Company offers Family Takaful Contracts. Family Takaful Contract is an arrangement which rests on key Shariah principles of mutual cooperation, solidarity and well being of a community, and is based on the principles of Wakala Waqf Model. Under a Takaful arrangement, individuals come together and contribute towards the common objective of protecting each other against financial losses by sharing the risk on the basis of mutual assistance.

The obligation of Waqf for Waqf participants' liabilities is limited to the amount available in the Waqf fund. In case there is a deficit in the Waqf Fund, the Window Takaful Operator shall grant Qard-e-Hasna to make good the deficit. Although Qard-e-Hasna shall be repayable from the future surpluses generated in the Waqf Fund, without any excess of the actual amount given to it and repayment of Qard-e-Hasna shall receive priority over surplus distribution to Participants from the Waqf Fund, the amount so given is not reflected as an asset for the benefit of the participant.

The Company offers Unit Linked Takaful Plans which provide Shariah Compliant financial protection and investment vehicle to individual participants. These plans carry cash value, and offer investment choices to the participants to direct their investment related contributions based on their risk / return objectives. The investment risk is borne by the participants.

Revenue recognition

Contribution (including first year, renewal and single contributions) are recognized once the related policies are issued against receipt of contribution.

Recognition of policyholders' liabilities

Policyholders' liabilities included in the statutory fund are determined based on the appointed actuary's valuation conducted as at the date of financial statement , in accordance with section 50 of the Insurance Ordinance, 2000.

Claim expenses

Claim expenses are recognised on the earlier of the policy expiry or the date when the intimation of the event giving rise to the claim is received.

Surrender of unit linked business policies is made after these have been approved in accordance with the Subsidiary Company's Policy.

Liability for outstanding claims includes amounts in relation to unpaid reported claims and is stated at estimated claims settlement cost. Full provision is made for the estimated cost of claims incurred and reported to the date of the financial statements.

Liability for claims "Incurred But Not Reported" (IBNR) is included in the insurance / policyholders' liabilities in accordance with the estimates recommended by the appointed actuary.

3.4.6 Reinsurance / Retakaful contracts held

Individual policies (including joint life policies underwritten as such) are reinsured under an individual life reinsurance / retakaful agreement whereas group life and group credit life policies are reinsured under group life and group credit life reinsurance agreements respectively.

3.4.6.1 Conventional

Reinsurance premium

Reinsurance premium expense is recognised at the same time when the related premium income is recognised. It is measured in line with the terms and conditions of the reinsurance treaties.

Claim Recoveries

Claim recoveries from reinsurers are recognised at the same time when the claim is intimated and giving rise to the right of recovery is recognised in the books of accounts of the Subsidiary Company.

Experience Refund

Experience refund receivable for re-insurance is included in the re-insurance recoveries of claims.

Amount due from / to reinsurer

All receivables (reinsurer's share in claims, commission from reinsurer and experience refund) and payables (reinsurance premium) under reinsurance agreements are recognised on net basis in the Subsidiary Company's financial statements, only under the circumstances that there is a clear legal right of off-set of the amounts.

Amounts due from / to reinsurers are carried at cost which is the fair value of the consideration to be received / paid in the future for services rendered / received, less provision for impairment, if any.

3.4.6.2 Takaful

Retakaful Contribution

These contracts are entered into by the Subsidiary Company with the retakaful operator under which the retakaful operator cedes the takaful risk assumed during normal course of its business, and according to which the Waqf is compensated for losses on contracts issued by it.

Retakaful contribution is recorded at the time the retakaful is ceded. Surplus from retakaful operator is recognized in the Revenue Account.

Retakaful liabilities represent balances due to retakaful companies. Amount payable are calculated in a manner consistent with the associated retakaful treaties.

Retakaful Expense

Retakaful expenses are recognized as a liability.

Retakaful assets represent balances due from retakaful operator. Recoverable amounts are estimated in a manner consistent with the associated retakaful treaties.

Retakaful assets are not offset against related Retakaful liabilities. Income or expenses from retakaful contract are not offset against expenses or income from related Retakaful contracts as required by the Insurance Ordinance, 2000. Retakaful assets and liabilities are derecognized when the contractual rights are extinguished or expired.

3.4.7 Receivables and payables relating to insurance contracts

These include amounts due to and from agents and policyholders' which are recognised when due.

3.4.8 Statutory funds

The Subsidiary Company maintains statutory funds in respect of each class of life assurance business in which it operates. Assets, liabilities, revenues and expenses of the Subsidiary Company are referable to the respective statutory funds. However, where these are not referable to statutory funds, these are allocated to shareholders' fund on the basis of actuarial advice. Apportionment of assets, liabilities, revenues and expenses, whenever required between funds are made on the basis certified by the appointed actuary of the Subsidiary Company. Policyholders' liabilities have been included in statutory funds on the basis of the actuarial valuation carried out by the appointed actuary of the Subsidiary Company on the date of financial statement as required under section 50 of the Insurance Ordinance, 2000.

3.4.9 Policyholders' liabilities

3.4.9.1 Conventional Business

Individual Life

Insurance liabilities constitute the liabilities for basic plans and riders attached to the basic plans and reserves for IBNR Claims.

Policy reserves pertaining to the primary plans are based on Full Preliminary Term - Net Premium method using SLIC (2001-05) Individual Life Ultimate Mortality Table and a discounting factor interest rate of 3.75% per annum. This table reflects the recent mortality experience in Pakistan and in line with the requirements of Circular No: 17 of 2013 issued by the SECP Insurance Division on 13 September 2013. The interest rate is considerably lower than the actual investment return the Company is managing on its conventional portfolio. The difference between the above and actual investment return is intended to be available to the Company for meeting administrative expense and for providing margins against adverse deviations. Policy reserves for both waiver of premium and accidental death riders are based on net unearned premiums.

- Incurred But Not Reported (IBNR) claims

IBNR liability for riders are held as a percentage of rider premium earned in the valuation year in view of grossly insufficient claims experience.

Group Life and Group Credit Life

Policy reserves for these plans are based on the unearned premium method net of allowances made for acquisition expenses, unexpired reinsurance premium and profit commission. Consideration is also given to the requirement for a Premium Deficiency Reserve. The reserves also comprise allowance for "Incurred But Not Reported" (IBNR) claims. The provision for 'Incurred But Not Reported' (IBNR) claims as included in policyholders' liability is estimated as 25% of the unearned premium for the year. The appointed actuary of the Company determine IBNR in accordance with the claim log patterns for each line of business separately. Appropriate margins will be added to ensure that the reserve set aside are resilient to changes in the experience.

3.4.9.2 Accident and Health Business

Currently there are no policyholders' liabilities to consider in this statutory fund.

3.4.9.3 Non-unitised Investment Linked Business

Policyholders' liabilities constitute the account value of investment linked contracts as well as non-investment or risk reserves of these contracts. Risk reserves constitute liabilities held to account for risks such as death and risk only riders (accidental death and disability, monthly income benefit, waiver of premium, etc.). Reserves for risk only contracts where premiums are level over the term of the contract are based on the Net Premium Method whereas reserves for age related risk contracts are based on net unearned premiums.

- Incurred But Not Reported (IBNR) claims

IBNR liability for riders are held as a percentage of rider premium earned in the valuation year in view of grossly insufficient claims experience.

3.4.9.4 Unit Linked Business

Policyholders' liabilities constitute the fund value of unit linked contracts as well as non-investment or risk reserves of these contracts. Risk reserves constitute liabilities held to account for risks such as death and risk only riders (accidental death and disability, monthly income benefit, waiver of premium, etc.). Reserves for risk only contracts where premiums are level over the term of the contract are based on the Net Premium Method whereas reserves for age related risk contracts are based on net unearned premiums.

- Incurred But Not Reported (IBNR) claims

IBNR liability for riders are held as a percentage of rider premium earned in the valuation year in view of grossly insufficient claims experience.

3.4.9.5 Individual Family Takaful Unit Linked Business

Policyholders' liabilities constitute the fund value of unit linked contracts as well as non-investment or risk reserves of these contracts. Risk reserves constitute liabilities held to account for risks such as death and risk only riders (accidental death and disability, monthly income benefit, waiver of contribution, etc.). Reserves for risk only contracts where contribution are level over the term of the contract are based on the Net Premium Method whereas reserves for age related risk contracts are based on net unearned contribution.

- Incurred But Not Reported (IBNR) claims

IBNR liability for riders are held as a percentage of rider contribution earned in the valuation year in view of grossly insufficient claims experience.

3.4.10 Acquisition costs

These are costs incurred in acquiring insurance policies/ takaful contracts, maintaining such policies/ takaful contracts, and include without limitation all forms of remuneration paid to insurance agents/ takaful agents.

Commission and other expenses are recognised as expense in the earlier of the financial year in which they are paid and the financial year in which they become payable, except that commission and other expenses which are directly referable to the acquisition or renewal of specific contracts are recognised not later than the period in which the premium to which they refer is recognised as revenue.

3.4.11 Takaful Operator Fee

The shareholders of the Subsidiary Company manage the Window takaful Operations for the participants. Accordingly, the Subsidiary Company is entitled to takaful Operator's Fee for the management of Window Takaful Operations under the Waqf Fund, to meet its general and administrative expenses. The Takaful Operator's Fee, termed Wakala fee, is recognised upfront.

3.4.12 Investment Property

Investment property is the property which is held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the supply of services or for administrative purposes. Investment property acquired for Investment-Linked (Unit Linked business statutory fund) is initially measured at cost and subsequently at fair value with any change therein recognised in the related profit and loss account.

Cost includes expenditure that is directly attributable to the acquisition of the investment property.

The fair value of investment property is determined by external, independent property valuer (K.G. Traders Private Limited) having appropriate recognised professional qualifications.

3.5 Property and equipment

Owned fixed assets, other than freehold land which is not depreciated and capital work-in-progress, are stated at cost, signifying historical cost, less accumulated depreciation and any provision for accumulated impairment. Freehold land and capital work-in-progress are carried at cost less accumulated impairment losses, if any. Depreciation is charged to income applying reducing balance method depending upon the nature of the asset, at the rates specified for calculation of depreciation after taking into account residual value, if any. The useful lives, residual values and depreciation method are reviewed, and adjusted if appropriate, at each reporting date.

Assets subject to finance lease are accounted for by recording the assets at the lower of present value of minimum lease payments under lease agreements and the fair value of asset at the inception of the lease contract. The related obligation under the lease is accounted for as liability. Finance charges are allocated to accounting period in a manner so as to provide a constant periodic rate of charge on the outstanding liability.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to profit and loss account as and when incurred.

Depreciation on additions is charged from the month the assets are available for use while on disposals, depreciation is charged up to the month in which the assets are disposed off.

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate that this carrying value may not be recoverable. If any such indications exist and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount of the assets disposed off. These are taken to profit and loss account.

3.6 Intangible assets

These are stated at cost less accumulated amortization and any provision for accumulated impairment, if any.

Amortization is calculated from the month the assets are available for use using the straight-line method, whereby the cost of the intangible asset is amortized over its estimated useful life over which economic benefits are expected to flow to the Group. The useful life and amortization methods are reviewed, and adjusted if appropriate, at each reporting date.

Software development costs are only capitalized to the extent that future economic benefits are expected to be derived by the Group.

The carrying values of intangible assets are reviewed for impairment when events or changes in circumstances indicate that this carrying value may not be recoverable. If any such indications exist and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amount.

3.7 Segment reporting

3.7.1 Holding Company

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker who is responsible for allocating resources and assessing performance of the operating segments.

The Holding Company accounts for segment reporting using the classes of business as specified under the Insurance Ordinance, 2000 and Insurance Rules, 2017 as primary reporting format based on the Holding Company's practice of reporting to the management on the same basis.

Assets, liabilities and capital expenditures that are directly attributable to segments have been assigned to them while the carrying amount of certain assets used jointly by two or more segments have been allocated to segments on a reasonable basis. Those assets and liabilities which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated corporate assets and liabilities.

3.7.2 Subsidiary Company

A segment is a distinguishable component of the Company that is engaged in providing products or services (business segment) or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Company's primary format of reporting is based on business segments.

Operating segments are reported in a manner consistent with that provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Chief Executive Officer.

The Subsidiary Company operates in Pakistan only. The Subsidiary Company has five primary business segments for reporting purposes namely; Conventional Business, Accident and Health Business, Non-Unitised Investment Linked Business and Unit Linked Business and Individual Family Takaful Business. The Subsidiary Company accounts for segment reporting using the classes or sub-classes of business (Statutory Funds) as specified under the Insurance Ordinance 2000 and SEC (Insurance) Rules, 2002 as the primary reporting format.

3.8 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of cash flow statement, cash and cash equivalents comprise cash in hand, policy stamps and bank balances and excludes bank balance held under lien.

3.9 Investment income

- Income from held to maturity investments is recognized on a time proportion basis taking into account the effective yield on the investments. The difference between the redemption value and the purchase price of the held to maturity investments is amortized and taken to the profit and loss account over the term of the investment.
- Dividend income is recognized when the Group's right to receive the dividend is established.
- Gain / loss on sale of available-for-sale investments is recognized in profit and loss account in the year of sale.
- Return on fixed income securities classified as available for sale is recognized on a time proportion basis taking into account the effective yield on the investments.
- Return on bank deposits is recognized on a time proportion basis taking into account the effective yield.

3.10 Investments

All investments are initially recognized at cost, being the fair value of the consideration given and include transaction costs. These are recognized and classified as follows:

- Investment at fair value through profit and loss account
- Held to maturity
- Available-for-sale
- Financial assets at fair value through profit or loss

The classification depends on the purpose for which the financial assets were acquired.

3.10.1 Investment at fair value through profit and loss account

Financial assets designated at fair value through profit or loss upon initial recognition include those group of financial assets which are managed and their performance evaluated on a fair value basis and were held for active trading.

3.10.2 Held to maturity

Investments with fixed determinable payments and fixed maturity, where management has both the intent and the ability to hold to maturity, are classified as held to maturity.

Subsequently, these are measured at amortized cost less provision for impairment, if any.

Any premium paid or discount availed on government securities and term finance certificates is deferred and amortized over the period to maturity of investment using the effective yield.

3.10.3 Available-for-sale

Investments which are not eligible to be classified as "fair value through profit or loss" or "held to maturity" are classified as 'available-for-sale'. These investments are intended to be held for an indefinite period of time which may be sold in response to the need for liquidity, changes in interest rates, equity prices or exchange rates are classified as available-for-sale.

Quoted

Subsequent to initial recognition, these investments are remeasured at fair value. Gains or losses on investments on remeasurement of these investments are recognized in statement of comprehensive income.

Unquoted

Fair value of unquoted investments is determined on the basis of appropriate valuation techniques as allowed by IAS 39 'Financial Instruments: Recognition and Measurement'. Where fair value cannot be measured reliably, these are carried at cost.

3.10.4 Fair / market value measurements

For investments in Government securities and mutual funds, fair / market value is determined by reference to rates quoted by Mutual Fund Association of Pakistan (MUFAP). For investments in quoted marketable securities, other than Term Finance Certificates, fair / market value is determined by reference to Stock Exchange quoted market price at the close of business on reporting date. The fair market value of Term Finance Certificates is as per the rates issued by the Mutual Funds Association of Pakistan (MUFAP).

3.10.5 Date of recognition

Regular way purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognized at the trade date. Trade date is the date on which the Group commits to purchase or sell the investment.

3.11 Off setting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount is reported in the statement of financial position when the Group has a legally enforceable right to set-off the recognized amounts and it intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

3.12 Provisions

Provision are recognized when the Company has a present, legal or constructive obligation as a result of past events and, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

3.13 Taxation

Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. The charge for current tax also include adjustments, where considered necessary, to provision for tax made in previous years arising from assessments finalized during the current year for such years.

Deferred

Deferred tax is accounted for using the statement of financial position liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the unconsolidated financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the reporting date. Deferred tax is charged or credited in the profit and loss account, except in the case of items credited or charged to statement of comprehensive income in which case it is included in statement of comprehensive income.

3.14 Staff retirement benefits

3.14.1 Holding Company

Defined contribution plan

The Holding Company operates an approved contributory provident fund scheme for all its eligible employees. Equal monthly contributions to the fund are made by the Holding Company and the employees at the rate of 8.33% of basic salary.

Defined benefit plans

The Holding Company operates the following defined benefit plans:

- (a) an approved funded gratuity scheme for all its permanent employees in Pakistan. Annual contribution are made to this scheme on the basis of actuarial recommendations. The Company recognizes expense in accordance with IAS 19 'Employee Benefits'. The contributions have been made to gratuity fund in accordance with the actuary's recommendations based on the actuarial valuation of these funds as at 31 December 2018.
- (b) unfunded gratuity scheme covering the employees in the UAE branches as per the requirements of the applicable regulations. Provision is made in these unconsolidated financial statements on the basis of the actuarial valuation carried out by an independent actuary using the projected unit credit method. The latest valuation has been carried at 31 December 2018.

Past-service costs are recognized immediately in profit and loss account, unless the changes to the plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortized on a straight-line basis over the vesting period.

The Holding Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Holding Company, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income. The Holding Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset), taking into account any changes in the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit and loss account.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit and loss account. The Holding Company recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

3.14.2 Subsidiary Company

Defined benefit plan

The Subsidiary Company operates an approved funded gratuity scheme for all permanent, confirmed and full time employees who have completed minimum qualifying eligible service period of six months. Contribution to the fund is made and expense is recognised on the basis of actuarial valuation carried out as at each year end using the Projected Unit Credit Method. Gratuity is based on employees' last drawn gross salary. Provisions are made to cover the obligations under the scheme on the basis of actuarial assumptions.

The Subsidiary Company's obligation under the gratuity schemes are determined through actuarial valuations. Actuarial valuations are conducted annually and the latest valuation was conducted at the date of financial statement (31 December 2018). When the calculation results in a potential asset for the company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reduction in future contributions to the plan. Service costs are recognised in profit and loss in the period in which they occur. Net interest on net defined benefit liability is also recognised in profit and loss. Net of tax remeasurement comprising actuarial gain / loss, the return on plan assets (excluding interest) and the effect of the asset ceiling (excluding interest) are recognised in other comprehensive income.

3.14.3 Employees' compensated absences

The Group accounts for these benefits in the period in which the absences are earned.

3.15 Impairment of assets

Financial assets

A financial asset is considered to be impaired if objective evidence indicate that one or more events had a negative effect on the estimated future cash flow of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as a difference between its carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of available for sale financial asset is calculated with reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

Non financial assets

The carrying amounts of Group's non-financial assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized wherever the carrying amount of asset exceeds its recoverable amount. Impairment losses are recognized in profit and loss account. A previously recognized impairment loss is reversed only if there has been change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit and loss account.

3.16 Dividend distribution

Dividend distribution to the Group's shareholders and other appropriations are recognized in the Company's financial statements in the period in which these are approved.

3.17 Management expenses

Expenses of management both direct and indirect are allocated on the basis of activity in each class of business. Expenses not allocable to the underwriting business are charged as other expenses.

3.18 Foreign currencies

Transactions in foreign currencies (other than the result of foreign branches) are accounted for in Pak Rupees at the rates prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated into Pak Rupees at the rates of exchange prevailing at the reporting date. Exchange differences are taken to the profit and loss account currently.

The assets and liabilities of foreign branches are translated to Pak Rupees at exchange rates prevailing at the reporting date. The results of the foreign branches are translated to Pak Rupees at the average rate of exchange for the year. Translation gains and losses are included in the profit and loss account, except those arising on the translation of the Group net investments in foreign branches, which are taken to the capital reserves (exchange translation reserve).

3.19 Financial instruments

Financial assets and liabilities are recognized at the time when the Group becomes a party to the contractual provisions of the instrument and de-recognized when the Group loses control of contractual rights that comprise the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on the de-recognition of the financial assets and liabilities is included in the profit and loss account.

Financial instruments carried in the statement of financial position include cash and bank, loans, investments, premiums due but unpaid, amount due from other insurers / reinsurers, premium and claim reserves retained by cedants, accrued investment income, reinsurance recoveries against outstanding claims, sundry receivables, provision for outstanding claims, amounts due to other insurers / reinsurers, accrued expenses, other creditors and accruals, liabilities against asset subject to finance lease and unclaimed dividends. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

3.20 Earnings per share

The Group presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted earnings per share is calculated if there is any potential dilutive effect on the Group's reported net profits.

3.21 Window Takaful Operations - Holding Company

The accounting policies followed by Window Takaful Operations of the Holding Company are stated in the annexed financial statements of Window Takaful Operations for the year ended 31 December 2018.

4 Critical accounting estimates and judgments

4.1 Use of estimates and judgments

The preparation of these unconsolidated financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of the revision and future years if the revision affects both current and future

The areas involving a higher degree of judgment and complexity, or areas where assumptions and estimates are significant to these financial statements or judgment was exercised in application of accounting policies, are as follows:

	Note
- Provision for Unearned Premium	3.3.3
- Provision for doubtful receivables	3.3.6
- Provision for outstanding claim including claims incurred but not reported (IBNR)	3.3.7
- Premium deficiency	3.3.4
- Defined benefit plans	3.14
- Provision for taxation including the amount relating to tax contingency	3.13
- Useful lives, pattern of economic benefits and impairments - Property and Equipment	3.5
- Allocation of management expenses	3.17
- Impairment of assets	3.15
- Segment Reporting	3.7

4.2 Change in accounting estimate

During the year, the Holding Company has changed its methodology for premium income earned whereby instead of 1/365 method, premium income under a policy is determined as the ratio of the expired period of the policy and the total policy period, both measured to the nearest day. This change has been accounted for as change in accounting estimate in accordance with the "IAS 8 Accounting Policies and Changes in Accounting Estimates and Errors" whereby the change has been applied prospectively. Had the Holding Company's accounting estimate not been changed, unearned premium reserve would have been higher by approximately Rs. 91 million, prepaid reinsurance would have been higher by approximately Rs. 4 million and premium revenue would have been lowered by approximately Rs. 87 million during the year.

7 Investment Property

Subsidiary Company

Opening net book value	637,981	-
Additional cost incurred	91,513	680,414
Unrealized fair value gain / (loss)	125,900	(42,433)
Closing net book value	855,394	637,981

7.1 This represents piece and parcel of plot no. 1-A, Main Gulberg, Jail Road, Lahore, measuring 8 kanal 8 marla 203 Sq. ft. of a land bought by the Subsidiary Company for the Unit Linked investment business.

Market value of this investment property amounts to Rs. 855.394 million based on a revaluation carried out by K.G. Traders (Private) Limited as at 28 December 2018, which the management believes also approximates the value as of 31 December 2018 and revaluation gain of Rs. 125.9 million has been recognised in the profit and loss account.

The fair value of the investment property has been categorised as a Level 3 fair value (based on the inputs to the valuation technique used) and which is considered as highest and best use of investment property.

7.2 Valuation technique

The valuer has arranged enquiries and verifications from various estate agents, brokers and dealers, the location and condition of the property, size, utilization, and current trends in prices of real estate including assumptions that ready buyers are available in the current scenario and analysed through detailed market surveys, the properties that have recently been sold or purchased or offered / quoted for sale into given vicinity to determine the best estimates of the fair value.

9,681,374	9,681,374	10	Security General Insurance Company Limited [Equity held 14.224% (2017: 14.224%)] - note 8.4.1	1,926,884	2,338,633

- 8.1.4.1** This represents investment in the ordinary shares of Security General Insurance Company Limited ("SGI") which is principally engaged in general insurance business. Since SGI's ordinary shares are not listed, an independent valuer engaged by the Holding Company has estimated a fair value of Rs. 199.03 per ordinary share as at 31 December 2018 (Rs. 241.56 per ordinary share as at 31 December 2017) through a valuation technique based on discounted cash flow analysis of SGI. Hence, it has been classified under level 3 of the fair value hierarchy as further explained in note 39 to these unconsolidated financial statements. The fair value decline of Rs. 411.75 million is included in the fair value reserve (net of deferred tax) recognized during the year in other comprehensive income.

The main level 3 inputs used by the Holding Company are derived and evaluated as follows:

- Discount rate is determined using a capital asset pricing model to calculate a pre-tax rate that reflects current market assessment of the time
- Long term growth rate is estimated based in historical performance of SGI and current market information for similar type of companies.

The significant assumptions used in this valuation technique are as follows:

- Discount rate of 16% per annum.
- Growth rate in premium revenue of 8% per annum.
- Annual growth in cost is estimated @ 11 % per annum.

<i>Revenue reserves</i>			
General reserves		<u>936,500</u>	<u>936,500</u>
		<u>3,781,282</u>	<u>5,003,947</u>

17.1 The reserve for exceptional losses represents the amount set aside by the Holding Company in prior years up to 31 December 1978, in order to avail the deduction while computing the taxable income under the old Income Tax Act of 1922. Subsequent to the introduction of repealed Income Tax Ordinance, 1979, which did not permit such deduction, the Holding Company discontinued the setting aside of reserves for exceptional losses.

17.2 This amount has been set aside by the Holding Company in prior years for utilization against possible diminution in the value of investments.

17.3 The exchange translation reserve represents the gain resulted from the translation of foreign branches (having business in foreign currencies) of Holding Company into Pak Rupees. For the purpose of exchange translation reserve, the UAE and Export Processing Zone branches are treated as foreign branches since their functional currencies are AED and US Dollars, respectively.

17.4 The fair value reserve represents the net cumulative unrealized gain/(loss) on available for sale investments held by the Group as at 31 December 2018.

		<u>(5,771)</u>	<u>9,011</u>
20.2	Funded gratuity scheme		
20.2.1	The Holding Company operates an approved funded gratuity scheme for all eligible employees. The latest actuarial valuation of gratuity scheme was carried out as at 31 December 2018 under the Projected Unit Credit Method as per the requirements of approved accounting standard - International Accounting Standard 19, the details of which are as follows:		
20.2.2	The following significant assumptions have been used for valuation of this		
		2018	2017
		-----Rate per annum-----	
	- Discount rate & expected return on plan assets	12.25%	7.25%
	- Expected rate of increase in salary level	10.25%	5.25%
20.2.3	Movement in the net assets/ (liabilities) recognized in the balance sheet are as follows:		
		2018	2017
		---- Rupees in thousand----	
	Net liabilities/ assets at the beginning of the year	84,443	25,744
	Expenses recognized	22,107	16,677
	Contribution paid during the year	(3,000)	-
	Remeasurement (gain) / loss recognized - net	29,577	42,022
	Net liabilities at the end of the year	<u>133,127</u>	<u>84,443</u>
20.2.4	The amounts recognized in the profit and loss account are as follows:		
	Current service cost	16,094	15,003
	Interest cost	20,171	16,779
	Interest income on plan assets	(14,158)	(15,105)
		<u>22,107</u>	<u>16,677</u>

20.2.5 The amounts recognized in other comprehensive income are as follows:

	2018	2017
	---- Rupees in thousand----	
<i>Remeasurement of plan obligation from:</i>		
- Experience on obligation	18,105	3,589
<i>Remeasurement of plan assets:</i>		
- Actual net return on plan assets	(2,686)	23,328
- Interest income on plan assets	14,158	15,105
	11,472	38,433
	29,577	42,022

20.2.6 The amounts recognized in the balance sheet are as follows:

Fair value of plan assets	(193,756)	(199,482)
Present value of the obligation	326,883	283,925
Net asset	133,127	84,443

20.2.7 Movement in present value of defined benefit obligation

Present value of defined benefit obligation as at the beginning of the year	283,925	267,714
Current service cost	16,094	15,003
Interest cost	20,171	16,779
Actual benefits paid during the year	(11,412)	(19,160)
Remeasurement loss on obligation	18,105	3,589
Present value of defined benefit obligation as at the end of the year	326,883	283,925

20.2.8 Movement in fair value of plan assets

Fair value of plan asset as at the beginning of the year	199,482	241,970
Interest income on plan assets	14,158	15,105
Actual benefits paid during the year	(11,412)	(19,160)
Contributions made during the year	3,000	-
Net return on plan assets over interest income	(11,472)	(38,433)
Fair value of plan asset as at the end of the year	193,756	199,482

20.2.9 Actual return on plan assets

Expected return on plan assets	14,158	15,105
Net return on plan assets over interest income	(11,472)	(38,433)
	2,686	(23,328)

Benefits due	-1.30%	-1.54%	(2,523)	(3,065)
	<u>100.00%</u>	<u>100.00%</u>	<u>193,756</u>	<u>199,482</u>

20.2.12 Plan assets do not include any investment in the Holding Company's ordinary shares as at 31 December 2018 (2017: Nil).

20.2.13 Expected contribution to gratuity fund for the year ending 31 December 2019 is Rs. 33,642 thousands.

20.2.14 The expected return on plan assets is based on the market expectations and depends upon the asset portfolio of the fund, at the beginning of the year.

20.2.16 The weighted average duration of the defined benefit obligation for gratuity plan is 3.3 years (2017: 3.4 years).

These defined benefit plans expose the Holding Company to actuarial risks, such as longevity risk, currency risk, interest rate risk and market (investment) risk.

20.2.17 The main features of the gratuity schemes are as follows:

The normal retirement age for all employees is 60 years.

A member shall be entitled to gratuity on resignation, termination, retirement, early retirement, retrenchment, death and dismissal based on the Holding Company's Service rules.

The scheme is subject to the regulations laid down under the Income Tax Rules, 2002.

20.2.18 The implicit objective is that the contribution to the gratuity schemes should remain reasonably stable as a percentage of salaries, under the actuarial cost method employed.

20.2.19 Sensitivity analysis

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is as follows:

	Impact on Gratuity plans				
	Unfunded		Funded		
Change in assumptions	Increase in assumption	Decrease in assumption	Increase in assumption	Decrease in assumption	
	----- (Rupees in thousands) -----				
Discount rate	1%	(2,415)	2,663	(9,109)	9,699
Salary growth rate	1%	2,612	(2,443)	9,789	(9,351)

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit obligation recognized within the statement of financial position.

20.3 Funded gratuity scheme- Subsidiary Company

		2018	2017
	Note	---- Rupees in thousand----	
Present value of defined benefit obligations at 31 December	20.3.3	65,465	90,586
Fair value of plan assets at 31 December	20.3.4	<u>(79,886)</u>	<u>(59,080)</u>
Net liability at end of the year		<u><u>(14,421)</u></u>	<u><u>31,506</u></u>
20.3.1 The Subsidiary Company operates a funded gratuity scheme covering eligible employees who have completed the minimum qualifying eligible service period of six months. The employees are entitled to gratuity on the basis of last drawn monthly gross salary on normal retirement or on death in service on the number of years of services with the Subsidiary Company. Contribution to the fund is made and expense is recognised on the basis of actuarial valuations carried out at each year end using the projected unit credit method.			
20.3.2 Responsibility for the governance of the plans, including investment decisions and contribution schedules, lies with the Board of Trustees. The Subsidiary Company appoints the Trustees and all trustees are employees of the Subsidiary Company. Details of the Subsidiary Company's obligation under the staff gratuity scheme determined on the basis of an actuarial valuation carried out by an independent actuary as at 31 December 2018 under the Projected Unit Credit Method are as follows:			
20.3.3 Movement in present value of defined benefit obligations		2018	2017
	Note	---- Rupees in thousand----	
Present value of defined benefit obligations at beginning of the year		90,586	61,604
Current service cost	20.3.5	28,752	20,488
Interest cost on defined benefit obligation	20.3.5	11,970	8,279
Benefits paid during the year		(42,601)	(6,656)
Remeasurement loss / (gain) on obligation:			
- due to changes in financial assumptions	20.3.5	(23,242)	6,871
Present value of defined benefit obligations at end of the year		<u><u>65,465</u></u>	<u><u>90,586</u></u>
20.3.4 Movement in fair value of plan assets			
Fair value of plan assets at beginning of the year		59,080	47,243
Contributions made by the Company to the Fund		64,000	23,650
Interest income on plan assets		7,413	5,653
Benefits paid during the year		(42,601)	(6,656)
Remeasurement gain on plan assets		<u>(8,006)</u>	<u>(10,810)</u>
Fair value of plan assets at end of the year		<u><u>79,886</u></u>	<u><u>59,080</u></u>
20.3.5 Expense recognized in profit and loss and other comprehensive income			
Current service cost		28,752	20,488
Net interest cost		11,970	8,279
Interest income on plan assets		(7,413)	(5,653)
Expense for the year recognised in the profit and loss account		<u><u>33,309</u></u>	<u><u>23,114</u></u>
Remeasurement losses on defined benefit obligation		(23,242)	6,871
Remeasurement gain on fair value of plan assets		<u>8,006</u>	<u>10,810</u>
Amount recognised in the other comprehensive income		<u><u>(15,236)</u></u>	<u><u>17,681</u></u>

		2018	2017
		---- Rupees in thousand----	
20.3.6	Net recognized liability		
	Net liability at beginning of the year	31,506	14,361
	Expense recognised in profit and loss account	33,309	23,114
	Expense recognised in other comprehensive income	(15,236)	17,681
	Contributions made to the fund during the year	<u>(64,000)</u>	<u>(23,650)</u>
	Net liability at end of the year	<u><u>(14,421)</u></u>	<u><u>31,506</u></u>

20.3.7 Estimated Gratuity Cost for the year ending 31 December 2019, is as follows:

	2019 (Rupees in thousand)
Current service cost	19,306
Net interest cost	<u>(3,085)</u>
Total expense to be recognized in profit and loss / revenue account	<u><u>16,221</u></u>

20.3.8 Plan assets comprise of following:

		2018		2017	
	Note	(Rupees in thousands)	%age	(Rupees in thousands)	%age
Bank balance	20.3.9	39,356	49%	16,509	28%
Mutual Funds	20.3.9	40,529	51%	42,570	72%
Fair value of plan assets at end of the year		<u><u>79,885</u></u>	<u><u>100%</u></u>	<u><u>59,079</u></u>	<u><u>100%</u></u>

20.3.9 The plan assets are represented by cash in the Scheme's bank deposit account with Standard Chartered Bank and mutual funds with MCB Arif Habib, MCB, Al Meezan Investments, ABL, UBL Funds and JS Investments Limited.

20.3.10 The principal assumptions used in the actuarial valuations carried out as of 31 December 2018, using the 'Projected Unit Credit' method, are as follows:

	2018	2017
Gratuity fund		
Discount rate per annum	13.75%	10.75%
Expected per annum rate of return on plan assets	13.75%	10.75%
Expected per annum rate of increase in salary level	11.00%	11.00%
Expected mortality rate	LIC 94-96 Mortality table for males (rated down by 3 years for females)	LIC 94-96 Mortality table for males (rated down by 3 years for females)
Expected withdrawal rate	Age dependent	Age dependent

20.3.11 The plans expose the Company to actuarial risks such as:

Salary risks

The risks that the final salary at the time of cessation of service is higher than what was assumed. Since the benefit is calculated on the final salary, the benefit amount increases similarly.

Discount risks

The risk of volatile discount rates over the funding life of the scheme. The final effect could go either way depending on the relative of salary increases, timing of contributions, performance of investments and outgo of benefits.

Mortality / withdrawal risks

The risks that the actual mortality / withdrawal experience is different from expected. The effect depends upon the beneficiaries' service / age distribution and the benefit.

Investment risks

The risk of the investment underperforming and not being sufficient to meet the liabilities. This is managed by formulating an investment policy and guidelines based on which investments are made after obtaining approval of trustees of funds.

In case of the funded plans, the investment positions are managed within an Asset-Liability Matching (ALM) framework to ensure that long-term investments are in line with the obligation under the retirement benefit plan. The Company actively monitors how the duration and the expected yield of the investments are matching the expected cash outflows arising from the retirement benefit plan obligations. The Company has not changed the process used to manage its risks from previous periods. Investments are well

The expected return on plan assets is assumed to be the same as the discount rate (as required by International Accounting Standard IAS 19). The actual return depends on the assets underlying the current investment policy and their performance. Expected yields on fixed interest investments are based on gross redemption yields as at the balance sheet date. Expected return on equity investments reflect long-term real rates of return experienced in the market.

20.3.12 Sensitivity analysis - Subsidiary Company

	Impact on Funded Gratuity plan		
	Change in assumptions	Increase in assumption	Decrease in assumption
	--- (Rupees in thousands) ---		
Discount rate	1%	(6,998)	8,589
Salary growth rate	1%	9,247	(7,586)

The impact on defined benefit obligation due to increase in life expectancy by 1 year would be Rs. (51,384) thousands.

20.3.13 The weighted average duration of the defined benefit obligation is 17.11 years. Besides the number of employees covered in the scheme at 31 December 2018 were 765 (2017: 606).

20.3.14 Historical Information

	2018	2017	2016	2015	2014
	----- (Rupees in thousand) -----				
Present value of defined benefit obligation	65,465	90,586	61,604	41,888	28,341

23.1.1 The Finance Act 2008 introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged at various levels and conflicting judgments were rendered by the Honorable Lahore High Court, the Honorable Sindh High Court and the Honorable Peshawar High Court.

The Honorable Supreme Court of Pakistan vide its judgment dated 10 November 2016, has upheld the view of Honorable Lahore High Court and decided that WWF is not a tax and hence the amendments introduced through Finance Act, 2008 are ultra-vires to the Constitution.

The Federal Board of Revenue has filed Civil Review Petitions in respect of above judgment with the prayer that the judgment dated 10 November 2016 passed in the Civil Appeal may kindly be reviewed in the interest of justice.

The Holding Company has held a reserve of Rs. 432,246 thousands as at 31 December 2018 against WWF until the outcome of the filed Civil Review Petition.

23.2 During the year, an amount of Rs. 30,977 thousands (2017 : Rs. 29,038 thousands) has been charged to the profit and loss account in respect of the Holding Company's contribution to the employees' provident fund.

23.3 This represent the interest free and unsecured amount payable to MCB Arif Habib Limited, Adamjee Insurance Company Limited and MCB Financial Services Limited for fund management remuneration, insurance premium payable and trustee fee, etc.

24.1	This represents margin deposit on account of performance and other bond policies issued by the Holding Company.		

25.1 Contingencies

Holding Company

The Holding Company has filed appeals in respect of certain assessment years mainly on account of the following:

Sales tax

- (a) Under the Sindh Sales Tax Act, 2011, sales tax is payable on premium on corporate health insurance policies written in the province of Sindh. 'The Insurance Association of Pakistan' (IAP) on behalf of the insurance companies has taken up the matter with the SRB and has also approached the Honorable Chief Minister, Sindh, for a favorable resolution of the matter. The matter is still under the process of review. The Company and other insurance companies carrying out corporate health insurance have not yet billed their customers for SST. The amount not yet billed by the Company, works out to Rs. 130,106 thousands and 93,675 thousands for the period from 1 July 2016 to 31 December 2017 and from 1 January to 31 December 2018 respectively (cumulatively Rs. 223,782 thousands).

Income tax

- (b) Deputy Commissioner Inland Revenue passed order u/s 161/205 of the Ordinance for tax year 2013 raising an income tax demand of Rs. 9,066 thousands. The Company agitated the order before Commissioner Inland Revenue (Appeals). Commissioner Inland Revenue (Appeals) decided the case in the favor of the Company. Following the said order, the learned DCIR has passed an appeal effect order in which certain directions of the learned CIR-Appeals have not been followed for which a rectification appeal under section 221 of the Ordinance has been filed before learned DCIR which is still to be processed.
- (c) The Company received a notice from Additional Commissioner Inland Revenue pertaining to the amendment of tax year 2008. Amongst others, the Additional Commissioner raised an issue with respect to the claim of exemption claimed on capital gains on listed securities by way of incorrect application of the provisions of law. The Company preferred to contest this matter by way of filing a constitutional petition before the Honorable Sindh High Court. The Court has ordered for stay of proceedings.
- (d) The Taxation Officer has passed an order in the tax years 2005 and 2006 under section 221 of the Income Tax Ordinance, 2001 (the Ordinance) levying minimum tax liability aggregating to Rs. 38,360 thousands. An appeal was filed before the Commissioner Inland Revenue (Appeals) who upheld the order of the Taxation Officer. The Company has filed an appeal before the ATIR which is yet to be heard.
- (e) The Tax Authorities amended the assessments for tax years 2003 to 2005 on the ground that the Company has not apportioned management and general administration expenses against capital gain and dividend income. The Company filed constitutional petition in the Honorable Sindh High Court against the amendment in the assessment order. The Company may be liable to pay Rs. 5,880 thousands in the event of decision against the Company, out of which Rs. 2,730 thousands have been provided resulting in a shortfall of Rs. 3,150 thousands.
- (f) Learned Deputy Commissioner Inland Revenue has passed an order under section 161/205 of the Ordinance for tax year 2017 creating a demand of Rs. 22,105 thousands on Account of Non-Deduction of Income Tax while making payments. The Company has paid partial payment of Rs. 9,065 thousands under protest and agitated the order before learned Commissioner Inland Revenue Appeals - I and the appeal has not yet been fixed.

Pending resolution of the above-mentioned appeals filed by the Company, no provision has been made in these unconsolidated financial statements for the aggregate amount of Rs. 54,550 thousands (2017: Rs. 77,030 thousands) as the management is confident that the eventual outcome of the above matters will be in favor of the Company.

Subsidiary Company

- (g) Claims against the Company not acknowledged as debt amounts to Rs. 26,014 thousands (2017: Rs. 27,213 thousands) and represents various cases initiated against the Company concerning policyholder claims referred to Court, Federal Insurance Mohtasib and Small Dispute Resolution Committee rejected by the company on different grounds. However, the management believes that no significant liability is likely to occur in these cases.
- (h) Securities and Exchange Commission of Pakistan (SECP) had initiated a thematic review of Bancassurance business of insurers in order to check compliance of code of business with the applicable regulations and to ensure adherence towards best practice and ensuring protection of consumer interest. SECP has issued multiple show-cause letters to various companies in the industry. The Company has also received four (4) letters in this regards. These letters mainly charging the Company for deviations on commission payments/ disclosures and compliance with the requirement of maintaining minimum cover multiple. The cumulative penalty envisaged in the said letters was Rs. 4 million.

In addition to above, SECP has concluded the off-site examination of books of accounts of the Company for the year ended 31 December 2016. In this regards, SECP has issued two (2) show cause letters to the Company. The charge in these show cause letters is related to matters covered under section 56 of Insurance Ordinance, 2000 related to self insurance and pre-approval from shareholders of the company against investment made in associated undertakings. The cumulative penalty envisaged in the said letters was Rs. 1.5 million. However, matter relating to self insurance has been disposed on in favor of the Company.

Replies to aforementioned letters have been sent to SECP, to which, SECP has provided the opportunity of being heard to the Company on 28 February 2019, in which, company along with its legal advisor put the Company's view in front of the commissioner. Based on the discussion with the commissioner, management is confident that no penalty will be imposed on the Company and hence, no provision has been made in these financial statements.

- (i) Sales tax imposed on premium from life insurance business was exempt up to 30 June 2018. However further exemption on this had not been given and the matter was also raised with Sindh Revenue Board (SRB). The matter for the renewal of the exemption was taken up at the collective level of the Insurance Association of Pakistan with the SRB through its consultants. The discussions on the matter has been conducive and the management is hopeful based on the consultant's positive feedback, that it will be concluded in favor of the industry. Representation from the SECP Commissioner level has also been made to Chairman, Sindh Board of Revenue, to help enable a favorable outcome. In view of the fact that the matter is still under the process of review and negotiations are being made with provincial tax authorities to seek an exemption and to seek clarity as well on interpretation of Rule 31 of the Sales Tax on Services Rules, 2011 with regard to term 'risk covered', the Company and other life insurance companies carrying out life insurance business have not yet billed their customers for SST for the period from 01 July 2018 to 31 December 2018 on premium from life insurance coverage.

Further, the Company has obtained a legal opinion regarding the basis for the calculation of sales tax under the Rules framed under the Sindh Sales Tax on Services Act, 2011, based on which it is of the view that sales tax is chargeable on gross premium charged on 'risk covered' and not on the gross amount received from the policy holders in terms of Rule 31 of the Sindh Sales Tax on Services Rules, 2011.

The aggregate amount of sales tax not yet billed based on the total gross amount of premium collected during the period from July 1, 2018 to December 31, 2018 is Rs. 522 million whereas based on the legal opinion, liability for Sindh Sales tax as of 31 December 2018 has been estimated at Rs. 54 million as per the Company's calculation of the premium on risk coverage."

Resultantly, the management considers that it is premature to estimate the liability for sales tax on life insurance at this stage.

25.2 Commitments

Holding Company

- 25.2.1 The Holding Company has issued letter of guarantees amounting to AED 501,000 amounting to Rs. 18,940 thousands (2017: AED 832,250 amounting to Rs. 24,992 thousands) relating to UAE branch.

Subsidiary Company

- 25.2.2 Commitment in respect of capital expenditure amounting to Rs. 7.20 million (2017: Rs. 33.90 million) and operating expenditure amounting to Rs. 4.50 million (2017: nil).
- 25.2.3 Commitments in respect of ljarah rentals payable in future period as at 31 December 2018 amounted to Rs. 40.61 million (2017: Rs. 31.78 million) for vehicles.

38.1.1 Under the Insurance Ordinance, 2001 an insurance company is required to have at all times admissible assets in Pakistan in excess of its liabilities in Pakistan of an amount greater than or equal to the minimum solvency requirement. However, in case of Unit Linked Business and Individual Family Takaful Business, admissible assets were short of the solvency requirement by Rs. 80.398 million and Rs. 43.77 million, respectively. Although the deficiency related to inadmissibility of Rs. 43.77 million in Family Takaful Business was rectified subsequent to the reporting date, the deficiency in Unit Linked Business is attributable to withholding income tax deducted on various investment income, during the current and previous years, which has been claimed as adjustable in the income tax returns filed by the Company but yet to be settled by the income tax authorities. However, on an overall basis i.e all the funds combined, admissible assets of the Company are more than its liabilities.

The effect of Sales Tax on solvency position of the Subsidiary Company, could not be quantified with clarity due to the reasons as explained in note 25.1(i).

40 Management of insurance and financial risk

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest / mark-up rate risk, price risk and currency risk). The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall risks arising from the Group's financial assets and liabilities are limited. The Group consistently manages its exposure to financial risk without any material change from previous period in the manner described in notes below. The Board of Directors has overall responsibility for the establishment and oversight of Group's risk management framework. The Board is also responsible for developing the Group's risk management policies.

The individual risk wise analysis is given below :

Holding Company

40.1 Insurance risk

The principal risk that the Company faces under insurance contracts is that the actual claims and benefit payments or the timing thereof may differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the Company is to ensure that sufficient reserves are available to cover these liabilities. The above risk exposure is mitigated by diversification across a large portfolio of insurance contracts and geographical areas. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of reinsurance arrangements. Further, strict claims review policies to assess all new and ongoing claims, regular detailed review of claims handling procedures and frequent investigation of possible fraudulent claims and similar procedures are put in place to reduce the risk exposure of the Company. The Company further enforces a policy of actively managing and prompt pursuing of claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the Company.

Amounts recoverable from reinsurers are estimated in a manner consistent with the outstanding claims provision and are in accordance with the reinsurance contracts.

Although the Company has reinsurance arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to ceded insurance, to the extent that any reinsurer is unable to meet its obligations assumed under such reinsurance agreements. The Company's placement of reinsurance is diversified such that it is neither dependent on a single reinsurer nor are the operations of the Company substantially dependent upon any single reinsurance contract. Reinsurance policies are written with approved reinsurers on either a proportionate basis or non-proportionate basis. The reinsurers are carefully selected and approved and are dispersed over several geographical regions.

Experience shows that larger the portfolio is in similar reinsurance contracts, smaller will be the relative variability about the expected outcome. In addition, a more diversified portfolio is less likely to be affected across the board by a change in any subset of the portfolio. The Company has developed its insurance underwriting strategy to diversify the type of insurance risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome.

The Company principally issues the general insurance contracts e.g. property, marine and aviation, motor, and accident and health. Risks under non-life insurance policies usually cover twelve month or lesser duration. For general insurance contracts the most significant risks arise from accidental fire, atmospheric disaster and terrorist activities. Insurance contracts at times also cover risk for single incidents that expose the Company to multiple insurance risks.

40.1.1 Geographical concentration of insurance risk

To optimize benefits from the principle of average and law of large numbers, geographical spread of risk is of extreme importance. There are a number of parameters which are significant in assessing the accumulation of risks with reference to the geographical location, the most important of which is risk survey.

40.1.2 Reinsurance arrangements

Keeping in view the maximum exposure in respect of key zone aggregate, a number of proportional and non-proportional reinsurance arrangements are in place to protect the net account in case of a major catastrophe. Apart from the adequate event limit which is the multiple of the treaty capacity or the primary recovery from the proportional treaty, any loss over and above limit would be recovered from the non-proportional treaty which is very much in line with the risk management philosophy of the Company.

40.1.3 Sources of uncertainty in estimation of future claim payments

The key source of estimation uncertainty at the balance sheet date relates to valuation of outstanding claims, whether reported or not, and includes expected claims settlement costs. Considerable judgment by management is required in the estimation of amounts due to policyholders arising from claims made under insurance contracts. Such estimates are necessary based on assumptions about several factors involving varying and possibly significant degrees of judgment and uncertainty, and actual results may differ from management's estimates resulting in future changes in estimated liabilities. Qualitative judgments are used to assess the extent to which past trends may not apply in the future, for example one-off occurrence, changes in market factors such as judicial decisions and government legislation affect the estimates.

In particular, estimates have to be made both for the expected ultimate cost of claims reported at the balance sheet date and for the expected ultimate cost of claims incurred but not reported (IBNR) at the balance sheet date.

40.1.4 Key assumptions for claim estimation

The process used to determine the assumptions for calculating the outstanding claim reserves is intended to result in neutral estimates of the most likely or expected outcome. The nature of the business makes it very difficult to predict with certainty the likely outcome of any particular claim and the ultimate cost of notified claims. Each notified claim is assessed in separate, case to case basis, with due regard to claim circumstances, information available from surveyors and historical evidence of the size of similar claims. Case estimates are reviewed regularly and updated as and when new information is available.

The estimation of IBNR is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the Company, in which case the information about the claim event is available. IBNR provision is initially estimated at a gross level and a separate calculation is carried out to estimate the size of the reinsurance recoveries.

The estimation process takes into account the past claims reporting pattern and details of reinsurance programs. The premium liabilities have been determined such that the total premium liability provisions (unearned premium reserve and premium deficiency reserve) would be sufficient to service the future expected claims and expenses likely to occur on the unexpired policies as of reporting date. The expected future liability is determined using estimates and assumptions based on the experience during the expired period of the contracts and expectations of future events that are believed to be reasonable.

40.1.5 Sensitivity analysis

The risks associated with the insurance contracts are complex and subject to a number of variables which complicate quantitative sensitivity analysis. The Company makes various assumptions and techniques based on past claims development experience. This includes indications such as average claims cost, ultimate claims numbers and expected loss ratios. The Company considers that the liability for insurance claims recognized in the balance sheet is adequate. However, actual experience may differ from the expected outcome.

As the Company enters into short term insurance contracts, it does not assume any significant impact of changes in market conditions on unexpired risks. However, some results of sensitivity testing are set out below, showing the impact on profit / (loss) before tax, net of reinsurance.

Interest / mark - up rate risk

Interest / mark-up rate risk is the risk that the value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest / mark - up rates. Sensitivity to interest / mark-up rate risk arises from mismatching of financial assets and liabilities that mature or repaid in a given period. The Company manages this mismatch through risk management strategies where significant changes in gap position can be adjusted. At the reporting date the interest / mark-up rate profile of the Company's significant interest / mark-up bearing financial instruments was as follows:

	Effective interest rate (%)		Carrying amounts	
	2018	2017	2018	2017
			-----Rupees in thousand----	
<u>Fixed rate of financial instruments</u>				
<i>Financial assets:</i>				
Investments- PIBs and Treasury Bills	5.93% - 8.80%	5.91% - 12.28 %	378,029	380,738
Loans	5%	5%	5,644	7,014
<u>Floating rate financial instruments</u>				
<i>Financial assets:</i>				
Bank and term deposits	3.75% - 9.50%	3.75% - 5.90%	4,683,153	2,786,006
Investments - TFCs	-	7.72% - 9.26%	-	71,218

Sensitivity analysis

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate will not affect the fair value of any financial instruments. For cash flow sensitivity analysis of variable rate instruments, a hypothetical change of 100 basis points in interest rates at the reporting date would have decreased / (increased) profit for the year by the amounts shown below. It is assumed that the changes occur immediately and uniformly to each category of instrument containing interest rate risk. Variation in market interest rates could produce significant changes at the time of early repayments. For these reasons, actual results might differ from those reflected in the details specified below. The analysis assumes that all other variables remain constant.

	Effect on profit before tax		Effect on equity	
	Increase	Decrease	Increase	Decrease
	-----Rupees in thousand----			
As at 31 December 2018 - Fluctuation of 100 bps				
Cash flow sensitivity - variable rate financial liabilities	-	-	-	-
Cash flow sensitivity - variable rate financial assets	46,881	(46,881)	33,286	(33,286)
As at 31 December 2017 - Fluctuation of 100 bps				
Cash flow sensitivity - variable rate financial liabilities	-	-	-	-
Cash flow sensitivity - variable rate financial assets	28,839	(28,839)	20,187	(20,187)

Currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Company's principal transactions are carried out in Pak Rupees and its exposure to foreign exchange risk arises primarily with respect to AED and US dollars in respect of foreign branches. Financial assets and liabilities exposed to foreign exchange risk amounted to Rs. 11,331,852 thousands (2017: Rs. 8,971,953 thousands) and Rs. 10,416,407 thousands (2017: Rs. 8,643,425 thousands), respectively, at the end of the year.

The following significant exchange rates were applied during the year:

	2018	2017
	----Rupees in thousand----	
Rupees per US Dollar		
Average rate	121.8473	105.3792
Reporting date rate	138.8619	110.3000
Rupees per AED		
Average rate	33.1730	28.6900
Reporting date rate	37.8046	30.0300

Price risk

Price risk represents the risk that the fair value of financial instruments will fluctuate because of changes in the market prices (other than those arising from interest / mark-up rate risk or currency risk), whether those changes are caused by factors specific to individual financial instrument or its issuer, or factors affecting all or similar financial instrument traded in the market. The Company is exposed to equity price risk that arises as a result of changes in the levels of PSE - Index and the value of individual shares. The equity price risk arises from the Company's investment in equity securities for which the prices in the future are uncertain. The Company policy is to manage price risk through selection of blue chip securities.

The Company's strategy is to hold its strategic equity investments on a long term basis. Thus, Company is not affected significantly by short term fluctuation in its strategic investments provided that the underlying business, economic and management characteristics of the investees remain favorable. The Company strives to maintain above average levels of shareholders' capital to provide a margin of safety against short term equity volatility. The Company manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

The Company has investments in quoted equity securities amounting to Rs. 18,685,087 thousands (2017: Rs. 20,582,109 thousands) at the reporting date. The carrying value of investments subject to equity price risk are, in almost all instances, based on quoted market prices as of the reporting date. Market prices are subject to fluctuation which may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions.

Sensitivity analysis

As the entire investment portfolio has been classified in the 'available-for-sale' category, a 10% increase / decrease in redemption value and share prices at year end would have increased / decreased impairment loss of investment recognized in profit and loss account as follows:

	Impact on profit before tax	Impact on equity
	----Rupees in thousand----	
2018		
Effect of increase in share price	667,792	474,132
Effect of decrease in share price	(510,619)	(362,540)
2017		
Effect of increase in share price	311,405	217,983
Effect of decrease in share price	(597,241)	(418,068)

40.3 Credit risk and concentration of credit risk

Credit risk is the risk that arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control credit risk by monitoring credit exposure by undertaking transactions with a large number of counterparties in various sectors and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. As a result any change in economic, political or other conditions would affect their ability to meet contractual obligations in a similar manner. The Company's credit risk exposure is not significantly different from that reflected in these unconsolidated financial statements. The management monitors and limits the Company's exposure and makes conservative estimates of provisions for doubtful assets, if any. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

	2018	2017
	----Rupees in thousand----	
The carrying amount of financial assets represents the maximum credit exposure, as specified below:		
Investments	24,114,124	23,749,454
Loans and other receivable	275,875	331,884
Due from insurance contract holders	6,190,747	5,776,344
Due from other insurers / other reinsurers	843,230	994,623
Reinsurance recoveries against outstanding claims	6,046,905	7,709,161
Salvage recoveries accrued	350,340	347,289
Bank deposits	2,205,141	2,270,938
	40,026,362	41,179,693

Provision for impairment is made for doubtful receivables according to the Company's policy. The impairment provision is written off when the Company expects that it cannot recover the balance due. The movement in the provision for doubtful debt account is shown in note 12.2 and 12.3 to these unconsolidated financial statements.

	2018	2017
	-----Rupees in thousand-----	
Age analysis of due from insurance contact holders (net of provision) is as follows:		
Upto one year	5,477,499	5,001,846
Above one year	1,342,916	1,150,299
	6,820,415	6,152,145
Less: provision for doubtful balances	(629,668)	(375,801)
	6,190,747	5,776,344

The credit quality of Company's bank balance can be assessed with reference to external credit rating as follows:

	Rating		Rating	2018	2017
	Short Term	Long Term	Agency	-----Rupees in thousand-----	
Abu Dhabi Commercial Bank				193,688	450,450
Allied Bank Limited	A1+	AAA	PACRA	1,841	-
Askari Bank Limited	A1+	AA+	PACRA	46	46
Bank Alfalah Limited	A1+	AA+	PACRA	646,383	109,530
Bank Al Habib Limited	A1+	AA+	PACRA	7,674	3,702
Bank Al Habib Limited - Islamic				12,167	8,003
Habib Bank Limited	A-1+	AAA	JCR-VIS	52,267	63,845
Habib Metropolitan Bank	A1+	AA+	PACRA	6,826	6,531
FINCA Micro Finance Bank Limited	A1	A	PACRA	25,277	4
Khushhali Microfinance Bank Limited	A-1	A+	JCR-VIS	7,049	-
MCB Bank Limited	A1+	AAA	PACRA	401,990	764,507
Mobilink Micro Finance Bank	A1	A	PACRA	21,502	18,776
National Bank of Pakistan	A1+	AAA	PACRA	304	1,422
The Punjab Provincial Cooperative Bank Limited				201,260	223,305
Samba Bank Limited	A-1	AA	JCR-VIS	30,517	25,000
Soneri Bank Limited	A1+	AA-	PACRA	1	1
United Bank Limited	A-1+	AAA	JCR-VIS	409,106	221,969
Emirate Islamic Bank				-	-
Zarai Taraqati Bank Limited	A-1+	AAA	JCR-VIS	187,243	373,847
				2,205,141	2,270,938

The credit quality of amount due from other insurers (gross of provisions) can be assessed with reference to external credit rating as follows:

	Amounts due from other insurers / reinsurers	Reinsurance and other recoveries against outstanding claims	2018	2017
	----- Rupees in thousand -----			
A or Above (including PRCL)	1,035,793	4,001,428	5,037,221	7,097,232
BBB	-	1,193,004	1,193,004	1,208,639
Others	8,739	852,473	861,212	549,215
Total	1,044,532	6,046,905	7,091,437	8,855,086

40.4 Capital risk management

The Group's goals and objectives when managing capital are :

- To be an appropriately capitalized institution in compliance with the paid-up capital requirement set by the SECP. Minimum paid-up capital requirement for non-life insurers as at 31 December 2018 is Rs. 500,000 thousands whereas for life insurers as at 31 December 2018 is Rs. 700,000 thousands. The Company's current paid-up capital is well in excess of the limit prescribed by the SECP;
- To safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for the other stakeholders;
- To provide an adequate return to shareholders by pricing insurance contracts commensurately with the level of risk;
- To maintain strong ratings and to protect the Company against unexpected events / losses; and
- To ensure a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business.

Subsidiary Company

40.5 Conventional business

40.5.1 Individual Life

The risk underwritten is mainly death and sometimes disability. The risk of death and disability will vary in degree by age, gender, occupation, income group and geographical location of the assured person. The Company's exposure to poor risks may lead to unexpectedly high severity and frequency in claims' experience. This can be a result of anti-selection, fraudulent claims, a catastrophe or poor persistency. The Company may also face the risk of poor investment return, inflation of business expenses and liquidity issues on amount invested in the fund. The Company faces the risk of under-pricing particularly due to the fact that majority of these contracts are long term. Additionally, the risk of poor persistency may result in the Company being unable to recover expenses incurred at policy acquisition.

The Company manages these risks through its underwriting, reinsurance, claims handling policy and other related controls. The Company has a well defined medical underwriting policy and avoids selling policies to high risk individuals. This puts a check on anti-selection. The need for profit testing is reviewed on an annual basis to ensure reasonableness of premiums charged. Reinsurance contracts have been purchased by the Company to limit the maximum exposure on any one insured person. The Company is developing and intends to eventually have a good spread of business throughout the country thereby ensuring diversification of geographical risks. To avoid poor persistency the Company applies quality controls on the standard of service provided to policyholders and has placed checks to control mis-selling and to track improvements in the standard of service provided to policyholders. For this, a regular monitoring of lapsation rates is conducted. On the claims handling side, the Company has procedures in place to ensure that payment of any fraudulent claims is avoided. For this, Claims Committee with variable materiality limits review all claims for verification and specific and detailed investigation of all apparently doubtful claims (particularly of high amounts) is conducted. Further, all payments on account of claims are made after necessary approval of relevant authority as per policy of the Company. The Company maintains adequate liquidity in its fund to cater for a potentially sudden and high cash requirement.

a) Frequency and severity of claims

The Company measures concentration of risk in terms of exposure by geographical area. Concentration of risk is not currently a factor of concern as the business is developing and aims to achieve a spread of risks across various parts of the country.

There is some concentration by sum assured amounts which may have an impact on the severity of benefit payments on a portfolio basis.

The table below presents the concentration of assured benefits across five bands of assured benefits per individual life assured. The benefit assured figures are shown gross and net of the reinsurance contracts described above.

The amounts presented are showing total exposure of the Company including exposure in respect of riders attached to the main policies.

Benefits assured per life Rupees	Sum assured at the end of 2018			
	Total benefits assured			
	Before reinsurance		After reinsurance	
	(Rupees in '000)	Percentage	(Rupees in '000)	Percentage
0-200,000	7,272	15.38%	2,140	18.10%
200,000 - 400,000	4,939	10.45%	1,510	12.77%
400,001 - 800,000	2,783	5.89%	835	7.06%
800,001 - 1,000,000		0.00%		0.00%
More than 1,000,000	32,286	68.29%	7,336	62.06%
Total	47,280		11,821	

Benefits assured per life Rupees	Sum assured at the end of 2017			
	Total benefits assured			
	Before reinsurance		After reinsurance	
	(Rupees in '000)	Percentage	(Rupees in '000)	Percentage
0-200,000	2,165	4.43%	547	5.66%
200,000 - 400,000	6,136	8.86%	1,671	11.88%
400,001 - 800,000	10,740	14.52%	2,987	19.92%
800,001 - 1,000,000	1,923	3.41%	508	4.43%
More than 1,000,000	57,086	68.78%	10,212	58.10%
Total	78,050		15,925	

b) Sources of uncertainty in the estimation of future benefit payments and premium receipts

Uncertainty in the estimation of future benefit payments and premium receipts for long-term conventional assurance contracts arises from the unpredictability of long-term changes in overall levels of mortality and morbidity incidence rates.

The Company assumes the expected mortality to vary between 80% and 120% of SLIC (2001-05) since the current experience for this line of business is not credible. Morbidity incidence rates are taken as a percentage of reinsurer's risk premium rate.

c) Process used to decide on assumptions

For long-term conventional assurance contracts, long-term assumptions are made at the inception of the contract. Keeping the statutory minimum reserving basis in view, the Company determines assumptions on future mortality, morbidity, persistency, administrative expenses and investment returns. At regular intervals, profit testing is conducted on main policies. Assumptions used for profit testing of the main policies are as follows:

- The expected mortality is assumed to vary between 80% and 120% of SLIC (2001-05) since the current experience for this line of business is not credible.
- Morbidity incidence rates for morbidity are taken as a percentage of reinsurer's risk premium rate.
- Persistency: The Company exercises a periodic analysis on recent and historic experience and persistency is calculated by applying statistical methods. Persistency rates vary by products and more importantly the sales distribution channel. An allowance is then made for any trend in the data to arrive at best estimate of future persistency rates for each sales distribution channel.
- Expense levels and inflation: As the business is new, estimates from business projections have been used. Once established, a periodic study will be conducted on the Company's current business expenses and future projections to calculate per policy expenses. Expense inflation is assumed in line with assumed investment return.
- Investment returns: The investment returns are based on the historic performance of the assets and asset types underlying the fund.

d) Changes in assumptions

There have been no changes in assumptions since the last valuation carried out a year ago.

e) Sensitivity analysis

After reinsurance, the overall liability for individual life conventional business stands at less than 1% of the total policyholder liability held in respect of individual life business. Due to its immateriality, sensitivity analysis has not been conducted.

40.5.2 Group Life

The main risk written by the Company is mortality. The Company may be exposed to the risk of unexpected claim severity or frequency. This can be a result of writing business with higher than expected mortality (such as mining or other hazardous industries), writing high cover amounts without adequate underwriting, difficulty of verification of claims, fraudulent claims or a catastrophe. The Company also faces risk such as that of under-pricing to acquire business in a competitive environment and of non-receipt of premium in due time. There also exists a potential risk of asset liability term mismatch due to liabilities being very short term in nature.

The Company manages these risks through underwriting, reinsurance, effective claims handling and other related controls. The Company has a well defined medical under-writing policy and avoids writing business for groups with overly hazardous exposure. Pricing is done in line with the actual experience of the Company. The premium charged takes into account the actual experience of the client and the nature of mortality exposure the group faces. The Management undertakes to write business in line with the limits set by the appointed actuary, especially for large groups having a group assurance policy with annual premium of Rs 2 million or above in accordance with the requirements of Circular 11 of 2013 dated 14 June 2013. The Company also maintains a Management Information System (MIS) to track the adequacy of the premium charged. Reinsurance contracts have been purchased by the Company to limit the maximum exposure to any one life. At the same

time, due caution is applied in writing business in areas with a high probability of terrorism. The Company ensures writing business with good geographical spread and tries to maintain a controlled exposure to large groups which generally have poor experience. Writing business of known hazardous groups is also avoided. On the claims handling side, the Company ensures that payment of any fraudulent claims is avoided. For this, Claims Committee with variable materiality limits review all claims for verification and specific and detailed investigation of all apparently doubtful claims (particularly of high amounts) is conducted. Strict monitoring is in place at the Board of Directors level in order to keep the outstanding balances of premium at a minimum, especially the ones that are due for more than 90 days. The bulk of the assets held against liabilities of this line of business are cash to money market with short durations and high liquidity, thus mitigating the risk of asset value deterioration and liability mismatch.

a) Frequency and severity of claims

The Company measures concentration of risk in terms of exposure by geographical area. Concentration of risk arising from geographical area is not a factor of concern as the Company aims to achieve a spread of risks across various parts of the country.

The following table presents the concentration of assured benefits across five bands of assured benefits per individual life assured. The benefit assured figures are shown gross and net of the reinsurance contracts described above.

The amounts presented are showing total exposure of the company including exposure in respect of riders attached to the main policies.

Benefits assured per client	Sum assured at the end of 2018			
	Total benefits assured			
	Before reinsurance		After reinsurance	
	(Rupees in '000)	Percentage	(Rupees in '000)	Percentage
0-200,000	-	0.000%	-	0.000%
200,000 - 400,000	-	0.000%	-	0.000%
400,001 - 800,000	-	0.000%	-	0.000%
800,001 - 1,000,000	-	0.000%	-	0.000%
More than 1,000,000	492,953,829	100.000%	183,729,461	100.000%
Total	492,953,829		183,729,461	

Benefits assured per life	Sum assured at the end of 2017			
	Total benefits assured			
	Before reinsurance		After reinsurance	
	(Rupees in '000)	Percentage	(Rupees in '000)	Percentage
0-200,000	-	0.000%	-	0.000%
200,000 - 400,000	-	0.000%	-	0.000%
400,001 - 800,000	3,500	0.005%	3,500	0.012%
800,001 - 1,000,000	-	0.287%	-	0.619%
More than 1,000,000	524,734,052	99.708%	183,397,452	99.370%
Total	524,737,552		183,400,952	

b) Sources of uncertainty in the estimation of future benefit payments and premium receipts

Other than conducting a liability adequacy for Unexpired Risk Reserves (URR), there is no need to estimate mortality for future years because of the short duration of the contracts.

c) Process used to decide on assumptions

The business is too new for any meaningful investigation into the group's past experience. However, industry experience, the insured group's own past experience and reinsurer risk rates are used to determine the expected level of risk in relation to the SLIC (2001-05) Individual Life Ultimate Mortality Table.

d) Changes in assumptions

There have been no changes in assumptions since the last valuation carried out a year ago.

e) Sensitivity analysis

After reinsurance, the net unearned premium reserve for this business stands at less than 1% of the total policyholder liability. This liability will be on the Company's books for under a year. Due to its immateriality, a sensitivity analysis has not been conducted.

40.6 Non unitised Investment Linked Business

The risk underwritten is mainly death and sometimes disability. The risk of death and disability will vary in degree by age, gender, occupation, income group and geographical location of the assured person. The Company's exposure to poor risks may lead to unexpectedly high severity and frequency in claims' experience. This can be a result of anti-selection, fraudulent claims, a catastrophe or poor persistency. The Company may also face the risk of inflation of business expenses and liquidity issues on amount invested in the fund. The Company faces the risk of under-pricing particularly due to the fact that these contracts are long term. Additionally, the risk of poor persistency may result in the Company being unable to recover expenses incurred at policy acquisition.

The Company manages these risks through its underwriting, reinsurance, claims handling policy and other related controls. The Company has a well defined medical underwriting policy and avoids selling policies to high risk individuals. This puts a check on anti-selection. The need for profit testing is reviewed on an annual basis to ensure reasonableness of premiums charged. Reinsurance contracts have been purchased by the Company to limit the maximum exposure on any one insured person. The Company is developing and intends to eventually have a good spread of business throughout the country thereby ensuring diversification of geographical risks. To avoid poor persistency the Company applies quality controls on the standard of service provided to policyholders and has placed checks to control mis-selling and to track improvements in the standard of service provided to policyholders. For this, a regular monitoring of lapsation rates is conducted. On the claims handling side, the Company has procedures in place to ensure that payment of any fraudulent claims is avoided. For this, Claims Committee with variable materiality limits review all claims for verification and specific and detailed investigation of all apparently doubtful claims (particularly of high amounts) is conducted. The Company maintains adequate liquidity in its fund to cater for a potentially sudden and high cash requirement. Further, all payments on account of claims are made after necessary approval of relevant authority as per policy of the Company. The Company reserves the right to review the charges deductible under the contracts, thus limiting the risk of under pricing.

a) Frequency and severity of claims

The Company measures concentration of risk by geographical area. Concentration of risk is not currently a factor of concern as the business is developing and aims to achieve a spread of risks across various parts of the country.

There is some concentration by sum assured amounts which may have an impact on the severity of benefit payments on a portfolio basis.

The Company charges for mortality risk on a monthly basis for all insurance contracts. It has the right to alter these charges based on its mortality experience and hence minimises its exposure to mortality risk. Delays in implementing increases in charges and market or regulatory restraints over the extent of the increases may hinder its mitigating effect. The Company manages these risks through its underwriting strategy and reinsurance arrangements.

The table below presents the concentration of assured benefits across five bands of assured benefits per individual life assured. The benefit assured figures are shown gross and net of the reinsurance contracts described above. The amounts presented are showing total exposure of the Company including exposure in respect of riders attached to the main policies.

Benefits assured per life	Sum assured at the end of 2018			
	Total benefits assured			
	Before reinsurance		After reinsurance	
Rupees	(Rupees in '000)	Percentage	(Rupees in '000)	Percentage

800,001 - 1,000,000	1,165,490	19.18%	278,909	31.37%
More than 1,000,000	1,530,409	24.94%	115,640	13.19%
Total	<u>5,980,028</u>		<u>882,499</u>	

b) Sources of uncertainty in the estimation of future benefit payments and premium receipts

Uncertainty in the estimation of future benefit payments and premium receipts for long-term Non-unitised Investment Linked assurance contracts arises from the unpredictability of long-term changes in overall levels of mortality and morbidity of the insured population and variability in policyholders' behaviour.

Factors impacting future benefit payments and premium receipts are as follows:

- Mortality: The Company assumes the expected mortality to vary between 80% and 120% of SLIC (2001-05) since the current experience for this line of business is not credible.
- Morbidity: Incidence rates for morbidity are taken as a proportion of reinsurer's risk rates.
- Persistency: The Company exercises a periodic analysis on recent and historic experience and persistency is calculated by applying statistical methods. Persistency rates vary by products and more importantly the sales distribution channel. An allowance is then made for any trend in the data to arrive at best estimate of future persistency rates for each sales distribution channel.

c) Process used to decide on assumptions

For long-term Non-unitised Investment Linked assurance contracts, assumptions are made in two stages. At inception of the contract, the Company determines assumptions on future mortality, morbidity, persistency, administrative expenses and investment returns. At regular intervals, profit testing is conducted on main policies. Assumptions used for profit testing of the main policies are as follows:

- Mortality: The expected mortality is assumed to vary between 80% and 120% of SLIC (2001-05) since the current experience for this line of business is not credible.
- Morbidity: Incidence rates for morbidity are taken as a proportion of reinsurer's risk rates.
- Persistency: The Company exercises a periodic analysis on recent and historic experience and persistency is calculated by applying statistical methods. Persistency rates vary by products and more importantly the sales distribution channel. An allowance is then made for any trend in the data to arrive at best estimate of future
- Expense levels and inflation: As the business is new, estimates from business projections have been used. Once established, a periodic study will be conducted on the Company's current business expenses and future projections to calculate per policy expenses. Expense inflation is assumed in line with assumed investment
- Investment returns: The investment returns are based on the historic performance of different types of assets underlying the fund.

d) Changes in assumptions

There are no changes in assumptions.

e) Sensitivity analysis

Periodic sensitivity analyses of the Company's in-force business determine whether any reserve needs to be created or product prices for new business need to be revised in light of changing or anticipated changes in experience from that expected when pricing the existing book of business. The current nature, volume and age of in-force business does not require a detailed sensitivity analysis at this stage.

40.7 Unit Linked Business

The risk underwritten is mainly death and sometimes disability and/or critical illness. The risk of death and disability will vary from region to region. The Company may get exposed to poor risks due to unexpected experience in terms of claim severity or frequency. This can be a result of anti-selection, fraudulent claims, a catastrophe or poor persistency. The Company may also face the risk of poor investment return, inflation of business expenses and liquidity issues on monies invested in the fund. The Company faces the risk of under-pricing particularly due to the fact that these contracts are long term. Additionally, the risk of poor persistency may result in the Company being unable to recover expenses incurred at policy acquisition.

The Company manages these risks through its underwriting, reinsurance, claims handling policy and other related controls. The Company has a well defined medical under-writing policy and avoids selling policies to high risk individuals. This puts a check on anti-selection. The need for profit testing is reviewed on an annual basis to ensure reasonableness of premiums charged. Reinsurance contracts have been purchased by the Company to limit the maximum exposure on any one policyholder. The Company has a good spread of business throughout the country thereby ensuring diversification of geographical risks. To avoid poor persistency the Company applies quality controls on the standard of service provided to policyholders and has placed checks to curb mis-selling and improvement in standard of service provided to the policyholders. For this, a regular branch wise monitoring of lapsation rates is conducted. On the claims handling side, the Company has procedures in place to ensure that payment of any fraudulent claims is avoided. For this, Claims Committee with variable materiality limits review all claims for verification and specific and detailed investigation of all apparently doubtful claims (particularly of high amounts) is conducted. The Company maintains adequate liquidity in each unit fund to cater for potentially sudden and high cash requirement. Further, all payments on account of claims are made after necessary approval of relevant authority as per policy of the Company. The Company reserves the right to review the charges deductible under the contracts, thus limiting the risk of under pricing.

Frequency and severity of claims

The Company measures concentration of risk by geographical area. Concentration of risk is not currently a factor of concern as the business is developing and aims to achieve a spread of risks across various parts of the country.

However, undue concentration by amounts could have an impact on the severity of benefit payments on a portfolio basis.

The Company charges for mortality risk on a monthly basis for all insurance contracts. It has the right to alter these charges based on its mortality experience and hence minimises its exposure to mortality risk. Delays in implementing increases in charges and market or regulatory restraints over the extent of the increases may hinder its mitigating effect. The Company manages these risks through its underwriting strategy and reinsurance arrangements.

The table below presents the concentration of insured benefits across five bands of insured benefits per individual life assured. The benefit insured figures are shown gross and net of the reinsurance contracts described above. At year-end, none of these insurance contracts had triggered a recovery under the reinsurance held by the Company.

The amounts presented are showing total exposure of the Company including exposure in respect of riders attached to the main policies.

Benefits assured per life	Sum assured at the end of 2018			
	Total benefits assured			
	Before reinsurance		After reinsurance

More than 1,000,000	48,479,318	40.45%	6,794,112	21.28%
Total	119,848,242		31,927,316	

a) Sources of uncertainty in the estimation of future benefit payments and premium receipts

Uncertainty in the estimation of future benefit payments and premium receipts for long-term unit linked insurance contracts arises from the unpredictability of long-term changes in overall levels of mortality and variability in policyholder's behaviour.

b) Factors impacting future benefit payments and premium receipts are as follows:

Mortality: The expected mortality is assumed to vary between 80% and 120% of SLIC (2001-05) since the current experience for this line of business is not credible.

Persistency: The business is developing and eventually the Company intends to conduct periodic analyses on its historic book of business, using statistical methods to determine its persistency experience. Persistency rates are expected to vary by product and more importantly the sales distribution channel. Allowance will then be made for any trend in the data to arrive at best estimates of future persistency rates for each sales distribution channel.

c) Process used to decide on assumptions

For long-term unit linked insurance contracts, assumptions are made in two stages. At inception of the contract, the Company determines assumptions on future mortality, persistency, administrative expenses and investment returns. At regular intervals, profit testing is conducted on main policies. Assumptions used for profit testing of the main policies

Mortality: The Company assumes the expected mortality to vary between 80% and 120% of SLIC (2001-05) since the current experience for this line of business is not credible.

Persistency: The Company exercises a periodic analysis on recent and historic experience and persistency is calculated by applying statistical methods. Persistency rates vary by products and more importantly the sales distribution channel. An allowance is then made for any trend in the data to arrive at best estimate of future

Expense levels and inflation: As the business is new, estimates from business projections have been used. Once established, a periodic study will be conducted on the Company's current business expenses and future projections to calculate per policy expenses. Expense inflation is assumed in line with assumed investment return.

Investment returns: The investment returns are based on the historic performance of the assets and asset types underlying the fund.

d) Changes in assumptions

There are no changes in assumptions.

e) Sensitivity analysis

Periodic sensitivity analyses of the Company's in-force business determine whether any reserve needs to be created or product prices for new business need to be revised in light of changing or anticipated changes in experience from that expected when pricing the existing book of business. The current nature, volume and age of in-force business does not require a detailed sensitivity analysis at this stage.

40.8 Individual Family Takaful Unit Linked Business

The risk underwritten is mainly death and sometimes disability and/or critical illness. The risk of death and disability will vary from region to region. The Company may get exposed to poor risks due to unexpected experience in terms of claim severity or frequency. This can be a result of anti-selection, fraudulent claims, a catastrophe or poor persistency. The Company may also face the risk of poor investment return, inflation of business expenses and liquidity issues on monies invested in the fund. The Company faces the risk of under-pricing particularly due to the fact that these contracts are long term. Additionally, the risk of poor persistency may result in the Company being unable to recover expenses incurred at policy acquisition.

The Company manages these risks through its underwriting, retakaful, claims handling policy and other related controls. The Company has a well defined medical under-writing policy and avoids selling policies to high risk individuals. This puts a check on anti-selection. The need for profit testing is reviewed on an annual basis to ensure reasonableness of contribution charged. Retakaful contracts have been purchased by the Company to limit the maximum exposure on any one participant. The Company has a good spread of business throughout the country thereby ensuring diversification of geographical risks. To avoid poor persistency the Company applies quality controls on the standard of service provided to participants and has placed checks to curb mis-selling and improve standards of service provided to the participants. On the claims handling side the Company has procedures in place to ensure that payment of any fraudulent claims is avoided. The Company maintains adequate liquidity in each unit fund to cater for potentially sudden and high cash requirement. Further, all payments on account of claims are made after necessary approval of relevant authority as per policy of the Company. The Company reserves the right to review the charges deductible under the contracts, thus limiting the risk of under pricing.

a) Frequency and severity of claims

The Company measures concentration of risk by geographical area. Concentration of risk is not currently a factor of concern as the business is developing and aims to achieve a spread of risks across various parts of the country.

However, undue concentration by amounts could have an impact on the severity of benefit payments on a portfolio basis.

Benefits covered per life	Sum cover at the end of 2018			
	Total benefits covered

200,000 - 400,000	361,031	8.71%	246,767	13.46%
400,001 - 800,000	833,846	20.11%	593,506	32.37%
800,001 - 1,000,000	904,258	21.81%	472,082	25.75%
More than 1,000,000	1,935,570	46.68%	443,725	24.20%
Total	4,146,328		1,833,457	

b) Sources of uncertainty in the estimation of future benefit payments and contribution receipts

Persistency: The business is developing and eventually the Company intends to conduct periodic analyses on its historic book of business, using statistical methods to determine its persistency experience. Persistency rates are expected to vary by product and more importantly the sales distribution channel. Allowance will then be made for any trend in the data to arrive at best estimates of future persistency rates for each sales distribution channel.

c) Process used to decide on assumptions

For long-term unit linked takaful contracts, assumptions are made in two stages. At inception of the contract, the Company determines assumptions on future mortality, persistency, administrative expenses and investment returns. At regular intervals, profit testing is conducted on main policies. Assumptions used for profit testing of the main policies are as follows:

Mortality: The Company assumes the expected mortality to vary between 80% and 120% of SLIC (2001-05) since the current experience for this line of business is not credible.

Persistency: Since the Company has recently started business, it has no own experience to which it can refer. Industry standards for anticipated persistency rates have been used initially. Eventually, a periodic analysis of the Company's recent and historic experience will be performed and persistency will be calculated by applying statistical methods. Persistency rates vary by products and more importantly the sales distribution channel. An allowance will then be made for any trend in the data to arrive at best estimate of future persistency rates for each sales distribution channel.

Expense levels and inflation: As the business is new, estimates from business projections have been used. Once established, a periodic study will be conducted on the Company's current business expenses and future projections to calculate per policy expenses. Expense inflation is assumed in line with assumed investment return.

Investment returns: The investment returns are based on the historic performance of the assets and asset types underlying the fund.

d) Changes in assumptions

There are no changes in assumptions.

e) Sensitivity analysis

Periodic sensitivity analyses of the Company's in-force business determine whether any reserve needs to be created or product prices for new business need to be revised in light of changing or anticipated changes in experience from that expected when pricing the existing book of business. The current nature, volume and age of in-force business does not require a detailed sensitivity analysis at this stage.

40.9 Liability Adequacy Test

Liability adequacy test is applied to all long term contracts where necessary, especially those products where actuarial liability estimation is based on conservative assumptions. Liability adequacy test is carried out using current best estimates of assumptions and future net cash flows, including premiums receivable, benefits payable and investment income from related assets.

To determine the adequacy of liabilities, assumptions must be based on realistic best estimates. We have compared our valuation mortality assumption (SLIC mortality table) with the mortality of developing Asian countries, namely: India and Malaysia. The comparison suggests that the best estimate assumption is better than the experience reflected in SLIC mortality table.

The table below compares total policyholder liabilities under existing valuation basis with policyholder liabilities calculated using best estimate assumptions:

Assumptions	Policyholder liabilities on existing valuation basis	Policyholder liabilities using best estimate assumptions
	----- (Rupees in '000) -----	
Mortality	30,810,235	30,796,896
Investment Returns	30,810,235	30,808,326

The liabilities evaluated under the assumptions suggest the recognised liabilities are adequate and no further provision is required.

40.10 Expense risk

The risk that the Company faces is that future expenses may be higher than those used in pricing of products causing an expense overrun. The Company mitigates this risk by incorporating a certain level of acceptable conservatism in building future policy expense factors in pricing and expects to maintain its actual expenses within these limits. Regular monitoring of expenses allows the Company to adjust its pricing in time to account for higher than expected expenses.

The Company closely monitors its expenses by regularly carrying out an expense analysis for its business. The assumptions for future policy expense levels are determined from the Company's most recent annual expense analysis, with an extra margin built-in to account for variability in future expenses. A review of product pricing is carried out each year based on the latest available expense factors. Constant monitoring of expenses enables the Company to take corrective actions in time

Based on the results of expense analysis, the Company apportions its management expenses to different lines of business.

40.11 Maturity Profile

Maturity profile of financial asset and liabilities are as follows

31 December 2018							
Interest / Markup Bearing				Non Interest / Non Markup Bearing			
Maturity upto one year	Maturity after one year	Sub Total	Maturity upto one year	Maturity after one year	Sub Total	Total

31 December 2017	17,682,614	-	17,682,614	10,120,221	-	10,120,221	27,802,835

40.12 Sensitivity analysis

(a) Sensitivity analysis for variable rate instruments

Presently, the Company holds GoP Ijarah Sukuk and Term Finance Certificates exposing it to cash flow interest rate risk. In case of 100 basis points increase/decrease in interest yield on 31 December 2018 with all other variables held constant, the net assets of the statutory funds of the Company and net income of the statutory funds for the year would have been higher/lower by Rs. 13.670 million (2017: Rs. 3.221 million).

None of the financial instruments of the shareholder's fund are exposed to variable interest rate risk.

(b) Sensitivity analysis for fixed rate instruments

	2018	2017
	(Rupees in '000)	
Shareholder's Fund		
Bank balances	16,227	3,940
Investment in Government Securities (PIBs + T-bills)	148,116	154,755
	164,343	158,694
Statutory Funds		
Bank balances	3,175,183	1,277,558
Deposits maturing within 12 months	11,070,000	10,625,000
Investment in Government Securities (PIBs + T-bills+Sukuk)	1,066,709	3,688,874
Loans secured against Life Insurance Policies	34,556	31,170
	15,346,448	15,622,602

In case of a change of 100 basis points in financial instruments with all other variables held constant, the value of fixed rate financial instruments in shareholder's fund would be effected by Rs. 1.9 million (2017: Rs. 0.0049 million) and in statutory funds by Rs. 4.614 million (2017: Rs. 7.61 million).

Change of interest rate will not have any impact on bank balance and term deposits as these are not classified as fair value through profit and loss account.

40.13 Price Risk

The Company's listed securities are susceptible to market price risk arising from uncertainties about the future value of investment securities. The Company limits market risk by maintaining a diversified portfolio and by continuous monitoring of developments in equity, money market fund and term finance certificates (TFCs). In addition, the Company actively monitors the key factors that affect stock, money market and TFCs market. In the equity portfolio, the top three sectors by exposure are Oil and Gas, Banks and Mutual Funds.

In case of 5% increase in market prices of equity securities classified as:

- at fair value through profit or loss, the post tax profit would have increased by Rs. 682.765 million (2017: Rs. 367.239 million);
- available for sale, the post tax other comprehensive income would have increased by Rs. 0.9511 million (2017: Rs. 2.012 million)

In case of 5% decrease in market prices of equity securities classified as:

- at fair value through profit or loss, the post tax profit would have decreased by Rs. 682.765 million (2017: Rs. 367.239);
- available for sale, the net assets of the Company would have decreased by Rs. 0.9511 million (2017: Rs. 5.52 million).

41 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

41.1 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

Statement of Compliance with the Shariah Principles

For the year ended 31 December 2018

The financial arrangements, contracts and transactions, entered into by Window Takaful Operations of the Adamjee Insurance Company Limited (‘the Company’) for the year ended 31 December 2018 are in compliance with the Takaful Rules, 2012.

Further, we confirm that:

- The Company has developed and implemented all the policies and procedures in accordance with the Takaful Rules, 2012 and rulings of the Shariah Advisor along with a comprehensive mechanism to ensure compliance with such rulings and Takaful Rules, 2012 in their overall operations. Further, the governance arrangements including the reporting of events and status to those charged with relevant responsibilities, such as the Audit Committee / Shariah Advisor and the Board of Directors have been implemented;
- The Company has imparted trainings / orientations and ensured availability of all manuals / agreements approved by Shariah Advisor/Board of Directors to maintain the adequate level of awareness, capacity and sensitization of the staff and management;
- All the products and policies have been approved by Shariah Advisor and the financial arrangements including investments made, policies, contracts and transactions entered into by Window Takaful Operations are in accordance with the policies approved by Shariah Advisor; and
- The assets and liabilities of Window Takaful Operations (Participants’ Takaful Fund and Operator’s fund) are segregated from its other assets and liabilities, at all times in accordance with the provisions of the Takaful Rules, 2012.

This has been duly confirmed by the Shariah Advisor of the Company.

Muhammad Umar Virk

Independent Reasonable Assurance Report

To the Board of Directors on the Statement of Management’s Assessment of Compliance with the Shariah Principles

We were engaged by the Board of Directors of **Adamjee Insurance Company Limited** (“the Company”) to report on the management’s assessment of compliance of the Window Takaful Operations (“Takaful Operations”) of the Company, as set out in the annexed statement prepared by the management for the year ended 31 December 2018, with the Takaful Rules, 2012, in the form of an independent reasonable assurance conclusion about whether the annexed statement presents fairly the status of compliance of the Takaful Operations with the Takaful Rules, 2012, in all material respects.

Applicable Criteria

The criteria against which the subject matter information (the Statement) is assessed comprise of the provisions of Takaful Rules, 2012.

Responsibilities of the management

The Board of Directors / management of the Company are responsible for designing, implementing and maintaining internal controls relevant to the preparation of the annexed statement that is free from material misstatement, whether due to fraud or error. It also includes ensuring the overall compliance of the Takaful Operations with the Takaful Rules, 2012.

The Board of Directors / management of the Company are also responsible for preventing and detecting fraud and for identifying and ensuring that the Takaful Operations comply with laws and regulations applicable to its activities. They are also responsible for ensuring that the management, where appropriate, those charged with governance, and personnel involved with the Takaful Operations compliance with the Takaful Rules, 2012 are properly trained, systems are properly updated and that any changes in reporting encompass all significant business units.

Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the Code of Ethics for Chartered Accountants issued by the Institute of Chartered Accountants of Pakistan, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies International Standard on Quality Control 1 “Quality Control for Firms That Perform Audit and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements” and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our responsibilities

Our responsibility is to examine the annexed statement and to report thereon in the form of an independent reasonable assurance conclusion based on the evidence obtained. We conducted our engagement in accordance with International Standard on Assurance Engagements (ISAE) 3000, *Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* issued by the International Auditing and Assurance Standards Board. That standard requires that we plan and perform our procedures to obtain reasonable assurance about whether the annexed statement presents fairly the status of compliance of the Takaful Operations with the Takaful Rules, 2012, in all material respects.

The procedures selected depend on our judgment, including the assessment of the risks of material non-compliance with the Takaful Rules, 2012, whether due to fraud or error. In making those risk assessments, we have considered internal control relevant to the Takaful Operations compliance with the Takaful Rules, 2012, in order to design assurance procedures that are appropriate in the circumstances, but not for the purposes of expressing a conclusion as to the effectiveness of the

Company's internal control over the Takaful Operations' compliance with the Takaful Rules, 2012. Reasonable assurance is less than absolute assurance.

A system of internal control, because of its nature, may not prevent or detect all instances of non-compliance with Takaful Rules, 2012, and consequently cannot provide absolute assurance that the objective of compliance with Takaful Rules, 2012, will be met. Also, projection of any evaluation of effectiveness to future periods is subject to the risk that the controls may become inadequate or fail.

The procedures performed included:

- Evaluate the systems, procedures and practices in place with respect to the Takaful operations against the Takaful Rules, 2012 and Shariah advisor's guidelines;
- Evaluating the governance arrangements including the reporting of events and status to those charged with relevant responsibilities, such as the Audit Committee/ Shariah Advisor and the board of directors;
- Test for a sample of transactions relating to Takaful operations to ensure that these are carried out in accordance with the laid down procedures and practices including the regulations relating to Takaful operations as laid down in Takaful Rules, 2012; and
- Review the statement of management's assessment of compliance of the Takaful transactions during the year ended 31 December 2018 with the Takaful Rules 2012.

Conclusion

Our conclusion has been formed on the basis of, and is subject to, the matters outlined in this report. We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

In our opinion, the annexed statement, for the year ended 31 December 2018, presents fairly the status of compliance of the Takaful Operations with the Takaful Rules, 2012, in all material respects.

Shariah Advisor's Report to the Board of Directors

For the year ended 31 December 2018

!

I have reviewed Takaful products, details of underwriting and other related documents, as well as, the Participant Takaful Fund (PTF) Policy, PTF pool position, Investment Policy, Re-Takaful arrangements, claims details and the related transactions of Adamjee Insurance – Window Takaful Operations (hereafter referred to as “Takaful Operator”).

I acknowledge that as Shariah Advisor of Takaful Operator, it is my responsibility to approve the above mentioned document and ensure that the financial arrangements, contracts and transactions entered into by the Takaful Operator with its participants and stakeholders are in compliance with the requirements of Shariah rules and principles.

It is the responsibility of the Takaful Operator to ensure that the rules, principles and guidelines set by the Shariah Advisor are complied with, and that all policies and services being offered are duly approved by the Shariah Advisor.

The Takaful Operator's activities, operations are periodically checked and monitored by Shariah Advisor.

In my opinion and to the best of my understanding based on the provided information and explanations:

- i. Transactions undertaken by the Takaful Operator were in accordance with guidelines issued by Shariah Advisor as well as requirements of Takaful Rules 2012;
- ii. The investments have been done from the Participant's Takaful Fund and Operator's Fund into Shariah Compliant avenues with Shariah Approval. Further, all bank accounts related to Window Takaful Operations have been opened in Islamic Banking Institutions (IBIs) with Shariah Approval; and
- iii. The transactions and activities of Window Takaful Operations are in accordance with the Shariah principles in respect of the Participant's Takaful Fund (Waqf Fund) and Operator's Fund.

And Allah knows best

Mufti Muhammad Hassaan Kaleem
Shariah Advisor

Date: 03 April 2019

INDEPENDENT AUDITORS' REPORT

To the members of Adamjee Insurance Company Limited (the Company)

Report on the Audit of the Window Takaful Operations

Qualified Opinion

We have audited the annexed financial statements of **Adamjee Insurance Company Limited – Window Takaful Operations (the “Company”)**, which comprise the statement of financial position as at 31 December 2018, and the profit and loss account, the statement of comprehensive income, the statement of changes in fund and the cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, except for the effects of the matter described in the Basis for Qualified Opinion section of our report, the statement of financial position, the profit and loss account, the statement of comprehensive income, the statement of changes in fund and the cash flow statement together with the notes forming part thereof, conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of Company's affairs as at 31 December 2018 and of the profit, total comprehensive income, the changes in fund and its cash flows for the year then ended.

Basis for Qualified Opinion

As more fully explained in note 15 to the financial statements, sales tax liability of Rs. 35.42 million has not been recorded in the financial statements as of 31 December 2018. This amount has not been charged by the Company to its customers since the matter of the renewal of exemption is under discussion with the sales tax authorities. IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' requires that provision should be recognized when the entity has a present legal obligation as a result of past event. Accordingly, had the sales tax liability been recorded, profit after tax for the year and fund of the Company as of 31 December 2018 would have reduced by Rs. 35.42 million and sales tax liability would have increased by the same amount (excluding the amount of penalty, if levied).

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of the Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our qualified opinion.

Information Other than the Financial Statements and Auditors' Report Thereon

Management is responsible for the other information. The Other Information comprises the information included in the Annual Report but does not include the financial statements and our auditors' report thereon.

Our opinion on the financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the Other Information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this Other Information, we are required to report that fact. We have concluded that the Other Information is materially misstated for the same reason with respect to the amounts or other items in the Group's Annual Report affected by the matter described in the Basis for Qualified Opinion section of our report.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan and the requirements of Insurance Ordinance, 2000 and, Companies Act, 2017 (XIX of 2017), and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit, in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Insurance Ordinance, 2000 and the Companies Act, 2017 (XIX of 2017);

- b) the statement of financial position, the profit and loss account, the statement of comprehensive income, the statement of changes in fund and the cash flow statement together with the notes thereon have been drawn up in conformity with the Insurance Ordinance, 2000, the Companies Act, 2017 (XIX of 2017), and are in agreement with the books of account;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditors' report is Bilal Ali.

Adamjee Insurance Company Limited
Window Takaful Operations
Notes to the Financial Statements
For the year ended 31 December 2018

1 Legal status and nature of business

Adamjee Insurance Company Limited ("the Operator") is a public limited company incorporated in Pakistan on 28 September 1960 under the Companies Act, 1913 (now the Companies Act, 2017). The Operator is listed on Pakistan Stock Exchange and is engaged in general takaful business comprising fire & property, marine, motor, accident and health and miscellaneous. The registered office of the Operator is situated at Tanveer Building, 27-C-III, MM Alam Road, Gulberg III, Lahore.

The Operator was granted authorization on 23 December 2015 under Rule 6 of the Takaful Rules, 2012 to undertake Window Takaful Operations ("WTO") in respect of general takaful products by Securities and Exchange Commission of Pakistan ("SECP").

For the purpose of carrying on the takaful business, the Operator has formed a Waqf / Participant Takaful Fund (PTF) on 01 January 2016 under the waqf deed with a ceded money of Rs.500,000. The Waqf deed governs the relationship of Operator and Participants for management of takaful operations.

2 Basis of preparation and statement of compliance

These financial statements have been prepared in accordance with accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as are notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017 and the Insurance Ordinance, 2000, the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017 and the Takaful Rules, 2012.

In case requirements differ, the provision of and directives issued under the Companies Act, 2017, the Insurance Ordinance, 2000, the Insurance Rules, 2017, the Insurance Accounting Regulations, 2017 and the Takaful Rules, 2012 shall prevail.

2.1 Basis of measurement

These financial statements have been prepared under historical cost convention except for available for sale investments carried at fair value and defined benefit obligations under employee's benefits carried at present value. All transaction reflected in these financial statements are on accrual basis except for those reflected in cash flow statements.

2.2 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Operator operates ("the functional currency"). The financial statements are presented in Pak Rupees, which is the Operator's functional and presentation currency. All the financial information presented in Rupees has been rounded off to the nearest thousand in rupee, unless otherwise stated.

2.3 Standards, interpretations and amendments to accounting and reporting standards as applicable in Pakistan that are effective in current year

There are certain new and amended standards, interpretations and amendments that are mandatory for the Operator's accounting periods beginning on or after 01 January 2018 but are considered not to be relevant or do not have any significant effect on the Operator's operations and therefore not stated in these financial statements.

Securities and Exchange Commission of Pakistan ("SECP") vide S.R.O 88(1)/2017 and S.R.O 89(1)/2017 dated 9 February 2017 has issued the Insurance Rules, 2017 Insurance Accounting Regulations, 2017 (the Rules and Accounting Regulations 2017). The application of these Rules and Accounting Regulations, 2017 for the purpose of preparation and presentation of the financial statements was effective from 1 April 2017. SECP vide letter ID/OSM/Adamjee/2017/12269 dated 11 October 2017 has granted exemption from application of Rules and Accounting Regulations 2017 to the Operator till 31 December 2017. Therefore, the application of Rules and Accounting Regulations 2017 became effective from the accounting year commencing from 01 January 2018.

The Rules and Accounting Regulations 2017 require significant disclosures / requirements, which are relevant to the Operator includes but not limited to: Presentation and disclosure of financial statements prescribed in Annexure II of the Insurance Rules, 2017, recognition of available-for-sale investments at fair value as per IAS 39 "Financial Instruments: Recognition and Measurement", recognition of contribution receivable under an contribution policy / cover note as written from the date of attachment of risk to the policy / cover note.

The Operator has adopted these Rules and Accounting Regulations 2017 and accordingly has changed its accounting policies refer note 3.1.

In addition, Companies Act 2017 also became effective for the financial statements for the year ended 31 December 2018. As the Operator's financial statements are prepared in accordance with the format prescribed by SECP, it did not have a direct impact on the financial statements.

2.4 Standards, interpretations and amendments to approved accounting standards that are not yet effective

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 January 2019:

- IFRIC 23 'Uncertainty over Income Tax Treatments' (effective for annual periods beginning on or after 1 January 2019) clarifies the accounting for income tax when there is uncertainty over income tax treatments under IAS 12. The interpretation requires the uncertainty over tax treatment be reflected in the measurement of current and deferred tax. The application of interpretation is not likely to have an impact on Operator's financial statements.

- IFRS 15 'Revenue from contracts with customers' (effective for annual periods beginning on or after 1 July 2018). IFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognized. It replaces existing revenue recognition guidance, including IAS 18 'Revenue', IAS 11 'Construction Contracts' and IFRIC 13 'Customer Loyalty Programmes'. The Operator is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.
- IFRS 9 'Financial Instruments' and amendment – Prepayment Features with Negative Compensation (effective for annual periods beginning on or after 1 July 2018 and 1 January 2019 respectively). IFRS 9 replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. However, SECP through its notification no S.R.O 229(I)/2019 dated 14 February 2019 has deferred the applicability of IFRS 9 for reporting period/year ending on or after 30 June 2019. The Operator is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.
- IFRS 16 'Leases' (effective for annual period beginning on or after 1 January 2019). IFRS 16 replaces existing leasing guidance, including IAS 17 'Leases', IFRIC 4 'Determining whether an Arrangement contains a Lease', SIC-15 'Operating Leases- Incentives' and SIC-27 'Evaluating the Substance of Transactions Involving the Legal Form of a Lease'. IFRS 16 introduces a single, on-statement of financial position lease accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard i.e. lessors continue to classify leases as finance or operating leases. The Operator is currently in the process of analyzing the potential impact of changes required in classification and measurement of financial instruments and the impact of expected loss model on adoption of the standard.
- Amendment to IAS 28 'Investments in Associates and Joint Ventures' - Long Term Interests in Associates and Joint Ventures (effective for annual period beginning on or after 1 January 2019). The amendment will affect companies that finance such entities with preference shares or with loans for which repayment is not expected in the foreseeable future (referred to as long-term interests or 'LTI'). The amendment and accompanying example state that LTI are in the scope of both IFRS 9 and IAS 28 and explain the annual sequence in which both standards are to be applied. The amendments are not likely to have an impact on Operator's financial statements.
- Amendments to IAS 19 'Employee Benefits'- Plan Amendment, Curtailment or Settlement (effective for annual periods beginning on or after 1 January 2019). The amendments clarify that on amendment, curtailment or settlement of a defined benefit plan, the Operator now uses updated actuarial assumptions to determine its current service cost and net interest for the period; and the effect of the asset ceiling is disregarded when calculating the gain or loss on any settlement of the plan and is dealt with separately in other comprehensive income. The application of amendments is not likely to have an impact on Operator's financial statements.

- Amendment to IFRS 3 'Business Combinations' – Definition of a Business (effective for business combinations for which the acquisition date is on or after the beginning of annual period beginning on or after 1 January 2020). The IASB has issued amendments aiming to resolve the difficulties that arise when an entity determines whether it has acquired a business or a group of assets. The amendments clarify that to be considered a business, an acquired set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create outputs. The amendments include an election to use a concentration test. The amendment is effective for transactions in the future and therefore would not have an impact on past financial statements.
- Amendment to IFRS 4 'Insurance Contracts'- Applying IFRS 9 'Financial Instruments' with IFRS 4 (effective for annual periods beginning on or after 1 July 2018). The amendment address issue arising from the different effective dates of IFRS 9 and the forthcoming new standard IFRS 17 'Insurance Contracts'. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9. The overlay approach allows an entity applying IFRS 9 from 1 July 2018 onwards to remove from profit or loss the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied.
- Amendments to IAS 1 Presentation of Financial Statements and IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors (effective for annual periods beginning on or after 1 January 2020). The amendments are intended to make the definition of material in IAS 1 easier to understand and are not intended to alter the underlying concept of materiality in IFRS Standards. In addition, the IASB has also issued guidance on how to make materiality judgements when preparing their general purpose financial statements in accordance with IFRS Standards. This amendment is effective for transactions in the future and therefore would not have an impact on past financial statements.

Annual Improvements to IFRS Standards 2015–2017 Cycle - the improvements address amendments to following approved accounting standards:

- IFRS 3 Business Combinations and IFRS 11 Joint Arrangement - the amendment aims to clarify the accounting treatment when a company increases its interest in a joint operation that meets the definition of a business. A company remeasures its previously held interest in a joint operation when it obtains control of the business. A company does not remeasure its previously held interest in a joint operation when it obtains joint control of the business.
- IAS 12 Income Taxes - the amendment clarifies that all income tax consequences of dividends (including payments on financial instruments classified as equity) are recognized consistently with the transaction that generates the distributable profits.
- IAS 23 Borrowing Costs - the amendment clarifies that a company treats as part of general borrowings any borrowing originally made to develop an asset when the asset is ready for its intended use or sale.

The above amendments are effective from annual period beginning on or after 1 January 2019 and are not likely to have an impact on Operator's financial statements.

3 Summary of significant accounting policies

The significant accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented in these financial statements except for change in accounting policies as disclosed in below mentioned note 3.1 of these financial statements.

3.1 Change in accounting policies

3.1.1 Application of Insurance Rules 2017 And Insurance Accounting Regulation 2017

Securities and Exchange Commission of Pakistan ("SECP") vide S.R.O 88(1)/2017 and S.R.O 89(1)/2017 dated 9 February 2017 has issued the Insurance Rules, 2017 and Insurance Accounting Regulations, 2017 (the Rules and Accounting Regulations 2017). The application of these Rules and Accounting Regulations, 2017 for the purpose of preparation and presentation of the financial statements was effective from 1 April 2017. SECP has granted exemption from application of Rules and Accounting Regulations 2017 to the Operator till 31 December 2017. Therefore, the application of Rules and Accounting Regulations 2017 became effective from the accounting year commencing from 01 January 2018.

The Rules and Accounting Regulations 2017 require significant disclosures / requirements, which are relevant to the Operator includes but not limited to presentation and disclosure of financial statements prescribed in Annexure II of the Insurance Rules, 2017, recognition of 'available-for-sale' investments at fair value as per IAS 39 "Financial Instruments: Recognition and Measurement", recognition of contribution receivable under a takaful contract / cover note as written from the date of attachment of risk to the takaful contract / cover note.

The effect of the each of the above change is explained below.

3.1.1.1 Available for sale investments

Previously, the Operator recorded its 'available-for-sale' investments at cost and remeasured them at lower of cost or market value (market value being taken as lower of the reduction other than temporary) in accordance with the requirements of the SEC (Insurance) Rules, 2002. As per Insurance Rules 2017, 'available for sale' investments are now initially measured at cost and subsequently remeasured at fair value at each statement of financial position date. The unrealized gains and losses arising from changes in fair values are directly recognized in fund in the year in which these arise. When securities classified as available for sale are sold or impaired, the accumulated fair value adjustments recognized in fund are included in the profit and loss account as gains and losses from investment securities.

The Operator assesses at each statement of financial position date whether there is an objective evidence that the financial asset is impaired. If any such evidence exists for an 'available for sale' asset, the accumulated loss is removed from equity and recognized in the profit and loss account. Impairment loss recognized in the profit and loss account on equity instruments is not reversed through the profit and loss account. The said change in accounting policy has been made in accordance with the requirements of IAS 8 'Accounting Policies, change in accounting estimates and errors'.

Consequently to this change, investments as at 31 December 2017 have been increased by Rs. 128,000 with a corresponding increase in fair value reserve in equity and deferred taxation amounting to Rs. 90,000 and Rs. 38,000 respectively. Furthermore, fair value reserve as at 31 December 2016 has increased by Rs. 83,000 and other comprehensive income for the year ended 31 December 2017 has increased by Rs. 7,000. There is no impact on the profit of the Operator.

3.1.1.2 Presentation of financial statements

The Operator has adopted format for preparation and presentation of its financial statements in line with the requirements of the Rules and Accounting Regulations 2017. Significant changes in presentation are rearrangements in sequence of assets / liabilities in the statement of financial position; presentation of single Profit and loss account instead of segment wise (classes of business) presentation and discontinuation of separate statements of contributions, Claims, Expense and Investment Income. The segment wise contributions, claims and expenses and investment income is now included in notes to the financial statements.

3.1.1.3 Contribution revenue

The Insurance Accounting Regulations, 2017, requires the Operator, to recognize contribution receivable under a takaful contract / cover note as written from the date of attachment of risk to the takaful contract / cover note. Accordingly, the Operator is required to account for cover notes which are effective as at statement of financial position date. In previous years, the Operator recognized contribution under a takaful contract as written at the time of issuance of participant's membership document in accordance with the SEC Insurance Rules, 2002. The change is considered to be a change in accounting policy in accordance with IAS - 8. The impact of the same is not considered to be material to the financial statements and accordingly the comparative financial statements have not been restated for this change.

3.2 Property and equipment

Owned fixed assets, other than freehold land which is not depreciated and capital work-in-progress, are stated at cost, signifying historical cost, less accumulated depreciation and any provision for accumulated impairment.

Cost comprises of purchase price including import duties and non-refundable purchase taxes after deducting trade discounts, rebates and includes other costs directly attributable to the acquisition or construction including expenditures on the material, labour and overheads directly relating to constructions, erection and installation of operating fixed assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future benefits associated with the item will flow to the Operator and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to profit and loss account as and when incurred.

Depreciation is charged to income applying reducing balance method depending upon the nature of the asset, at the rates specified for calculation of depreciation after taking into account residual value, if any. The useful lives, residual values and depreciation method are reviewed, and adjusted if appropriate, at each statement of financial position date.

Depreciation on additions is charged from the month the assets are available for use while on disposals, depreciation is charged up to the month in which the assets are disposed off.

The carrying values of tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate that this carrying value may not be recoverable. If any such indications exist and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amount.

An item of equipment is derecognized upon disposals when no future economic benefits are expected from its use or disposals. Gains and losses on disposals are determined by comparing proceeds with the carrying amount of the assets disposed off. These are taken to profit and loss

3.3 Intangible

These are stated at cost less accumulated amortization and any provision for accumulated impairment, if any.

Amortization is calculated from the month the assets are available for use using the straight-line method, whereby the cost of the intangible asset is amortized over its estimated useful life over which economic benefits are expected to flow to the Operator. The useful life and amortization methods are reviewed, and adjusted if appropriate, at each statement of financial position date.

Software development costs are only capitalized to the extent that future economic benefits are expected to be derived by the Operator.

The carrying values of intangible assets are reviewed for impairment when events or changes in circumstances indicate that this carrying value may not be recoverable. If any such indications exist and where the carrying values exceed the estimated recoverable amounts, the assets are written down to their recoverable amount.

3.4 Takaful contracts

Takaful contracts are based on the principles of Wakala. Takaful contracts so agreed usually inspire concept of tabarru (to donate benefit of others) and mutual sharing of losses with the overall objective of eliminating the element of uncertainty.

Takaful contracts are those contracts whereby the Participant Takaful Fund (PTF) has accepted significant takaful risk from the participant by agreeing to compensate the participant if a specified uncertain future event (the takaful event) adversely affects the participant. Once a contract has been classified as a takaful contract, it remains a Takaful contract for the remainder of its lifetime, even if takaful risk reduces significantly during this period, unless all rights and obligations are extinguished or expired.

These contracts are provided to all types of customers based on assessment of takaful risk by the Operator. Normally personal takaful contracts e.g. vehicle, personal accident, etc. are provided to individual customers, whereas, takaful contracts of fire and property damage, marine, aviation and transport, health and other commercial line products are provided to commercial organizations.

Takaful contracts issued by the PTF are generally classified in five basic categories i.e. Fire and property, Marine, Aviation and transport, Motor, Accident and health and Miscellaneous.

- Fire and property takaful contracts generally cover the assets of the participants against damages by fire, earthquake, riots and strike, explosion, atmospheric disturbance, flood, electric fluctuation and impact, burglary, loss of profit followed by the incident of fire, contractor's all risk, erection all risk, machinery breakdown and boiler damage, etc. Customers who undertake commercial activities on their premises could also receive compensation for the loss of earnings caused by the inability to use the takaful properties in their business activities.
- Marine aviation and transport takaful contracts generally provide cover for loss or damage to cargo while in transit to and from foreign land and inland transit due to various insured perils including loss of or damage to carrying vessel, etc.

- Motor takaful contracts provide indemnity for accidental damage to or loss of insured vehicle including loss of or damage to third party and other comprehensive car coverage.
- Accident and health takaful contracts mainly compensate hospitalization and out-patient medical coverage to the participant.
- Miscellaneous takaful contracts provide variety of coverage including cover against burglary, loss of cash in safe, cash in transit and cash on counter, fidelity guarantee, personal accident, workmen compensation, travel and crop, etc.

In addition to direct takaful, the PTF also participates in risks under co-takaful contracts from other takaful funds and also accepts risks through retakaful inward by way of facultative acceptance on case to case basis provided such risks are within the underwriting policies of the Operator. The nature of the risks undertaken under such arrangement is consistent with the risks in each class of business as stated above.

3.5 Deferred commission expense/ acquisition cost

Deferred commission expense represents the portion of commission expense relating to the unexpired period of takaful contract and is recognized as an asset. It is calculated in accordance with the pattern of its related unearned contribution income.

3.6 Unearned contributions

As explained in 4.2 of these financial statements, the Operator has changed its methodology for determining unearned contribution whereby instead of 1/365 method, unearned contribution under a policy is determined as the ratio of the unexpired period of the policy and the total period, both measured to the nearest day except for marine cargo, where unearned contribution is determined as a ratio of the unexpired shipment period to the total expected shipment period, both measured to the nearest day.

Administrative surcharge is recognized as contribution at the time the policies are written and is included in above mentioned calculations.

3.7 Contribution deficiency reserve

The Operator maintains a provision in respect of contribution deficiency (also called unexpired risk reserve) for the class of business where the unearned contribution liability is not adequate to meet the expected future liability, after retakaful, from claims and other supplementary expenses expected to be incurred after the statement of financial date in respect of the unexpired takaful policies in that class of business at the statement of financial position date.

For this purpose, contribution deficiency reserve is determined by independent actuary. The actuary determines the prospective loss ratios for each class of business and applies factors of unearned and earned contributions and uses assumptions appropriate to arrive at the expected claims settlement cost which when compared with unearned contribution reserve (UCR) shows whether UCR is adequate to cover the unexpired risks. If these ratios are adverse, contribution deficiency is determined.

Based on actuary's advice the management has created a reserve for the same in these financial statements. The movement in the contribution deficiency reserve is recorded as an expense / income in profit and loss account for the year.

3.8 Retakaful contracts held

These are contracts entered into by the Operator with retakaful operators for compensation of losses suffered on takaful contracts issued. These re-takaful contracts include both facultative and treaty arrangement contracts and are classified in same categories of takaful contracts for the purpose of these financial statements. The Operator recognizes the entitled benefits under the contracts as various retakaful assets and liabilities.

Retakaful Contribution is recognized as an expense at the time the retakaful is ceded. Rebate from retakaful is recognized in accordance with the policy of recognizing contribution revenue. The portion of retakaful contribution not recognized as an expense is shown as a prepayment.

Retakaful assets represent balances due from retakaful operators and retakaful recoveries against outstanding claims. Due from retakaful operators are carried at cost less any provision for impairment. Cost represents the fair value of the consideration to be received. Retakaful recoveries against outstanding claims are measured at the amount expected to be received.

Retakaful liabilities represent balances due to retakaful operators and are primarily retakaful contributions payable for retakaful contracts and are recognized at the same time when retakaful contributions are recognized as an expense.

Retakaful assets are not offset against related takaful liabilities. Income or expense from retakaful contracts are not offset against expenses or income from related takaful contracts.

Retakaful assets/liabilities are derecognised when the contractual rights are extinguished or expired.

An impairment review of retakaful assets is performed at each statement of financial position date. If there is an objective evidence that the asset is impaired, the Operator reduces the carrying amount of that retakaful asset to its recoverable amount and recognize the impairment loss in profit and loss account.

3.9 Receivables and payables related to takaful contracts

Receivables and payables, other than claim payables, relating to takaful contracts are recognized when due. The claim payable is recorded when intimation is received. These include contributions due but unpaid, contribution received in advance, contributions due and claims payable to participants. These are recognized at cost, which is the fair value of the consideration given less provision for impairment, if any.

If there is an objective evidence that any contribution due but unpaid is impaired, the Operator reduces the carrying amount of that contribution receivable and recognize the loss in profit and loss account.

3.10 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker who is responsible for allocating resources and assessing performance of the operating segments.

A business segment is a distinguishable component of the Operator that is engaged in providing services that are subject to risks and returns that are different from those of other business segments. The Operator accounts for segment reporting of operating results using the classes of business as specified under the Insurance Ordinance, 2000, the Insurance Rules, 2017 and Insurance Accounting Regulations, 2017. The reported operating segments are also consistent with the internal reporting framework provided to Board of Directors who are responsible for allocating resources and assessing performance of the operating segments. The performance of segments is evaluated on the basis of underwriting results of each segment.

Based on its classification of insurance contracts issued, the Operator has five primary business segments for reporting purposes namely fire, marine, motor, health and others including miscellaneous. The nature and business activities of these segments are disclosed in note 3.4 of these financial statements. Since the operation of the Operator are predominantly carried out in Pakistan, information relating to geographical segment is not considered relevant.

The accounting policies of operating segment are the same as those described in the summary of significant accounting policies.

Assets, liabilities and capital expenditure that are directly attributable to segments have been assigned to them while the carrying amount of certain assets used jointly by two or more segments have been allocated to segments on a reasonable basis. Those assets and liabilities which cannot be allocated to a particular segment on a reasonable basis are reported as unallocated corporate assets and liabilities.

3.11 Cash and cash equivalents

Cash and cash equivalents are carried in the statement of Financial Position at cost. For the purpose of cash flow statement, cash and cash equivalents include cash in hand, policy stamps and bank balances and excludes bank balance under lien.

3.12 Revenue recognition

3.12.1 Contribution

Contribution including administrative surcharge under an takaful contract are recognised as written from date of issuance to the date of attachment of risk to the policy / cover note. Where contributions for a policy are payable in installments, full contribution for the duration of the policy is recognised as written at the inception of the policy and related assets is recognised for contribution receivable.

Revenue from contributions is determined after taking into account the unearned portion of contributions. The unearned portion of contribution income is recognised as a liability.

Retakaful contribution is recognised as expense after taking into account the proportion of deferred contribution expense which is recognized as a proportion of the gross retakaful contribution of each policy, determined as the ratio of the unexpired period of the policy and the total period, both measured to the nearest day. The deferred portion of contribution expense is recognised as a prepayment.

3.12.2 Rebate from retakaful operators

Rebate from retakaful operators is deferred and recognized as revenue in accordance with the pattern of recognition of the retakaful contribution ceded to which it relates.

3.12.3 Investment income

- Gain / loss on sale of available-for-sale investments is recognized in profit and loss account in the year of sale.
- Dividend income is recognized when the Operator's right to receive the dividend is established.
- Profit on saving accounts are recognised on accrual basis.

3.13 Investments

All investments are initially recognized at cost, being the fair value of the consideration given and include transaction costs. These are recognized and classified as follows:

- Investment at fair value through profit and loss account
- Held to maturity
- Available-for-sale

The classification depends on the purpose for which the financial assets were acquired. The Operator does not have any "investment at fair value through profit and loss account" and "held to maturity" at the statement of financial position date.

3.13.1 Available-for-sale

Investments which are not eligible to be classified as "fair value through profit or loss" or "held to maturity" are classified as 'available-for-sale'. These investments are intended to be held for an indefinite period of time which may be sold in response to the need for liquidity, changes in interest rates, equity prices or exchange rates are classified as available-for-sale.

Quoted

Subsequent to initial recognition, these investments are remeasured at fair value. Gains or losses on investments on remeasurement of these investments are recognized in statement of comprehensive income.

Unquoted

Fair value of unquoted investments is determined on the basis of appropriate valuation techniques as allowed by IAS 39 'Financial Instruments: Recognition and Measurement'. Where fair value cannot be measured reliably, these are carried at cost.

3.13.2 Fair / market value measurements

For investments in Government securities/mutual funds, fair / market value is determined by reference to rates quoted by Mutual Fund Association of Pakistan (MUFAP). For investments in quoted marketable securities, other than Term Finance Certificates, fair / market value is determined by reference to Stock Exchange quoted market price at the close of business on reporting date. The fair market value of Term Finance Certificates is as per the rates issued by the Mutual Funds Association of Pakistan (MUFAP).

3.13.3 Date of recognition

Regular way purchases and sales of investments that require delivery within the time frame established by regulations or market convention are recognized at the trade date. Trade date is the date on which the Operator commits to purchase or sell the investment.

3.14 Offsetting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount is reported in the statement of financial position if the Operator has legal enforceable right to set off the recognized amount and intends either to settle on a net basis or to realize the assets and settle the liability simultaneously.

3.15 Creditors, accruals, provisions and contingencies

Liabilities for creditors and other amounts payable are carried at cost which is the fair value of the consideration to be paid in the future for the goods and/or services received, whether or not billed to the Operator.

Provisions are recognized when the Operator has a legal or constructive obligation as a result of a past event and it is probable that outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of obligation. However, the provisions are reviewed at statement of financial position date and adjusted to reflect current best estimates.

Where outflow of resources embodying economic benefits is not probable, a contingent liability is disclosed, unless the possibility of outflow is remote.

3.16 Provision for outstanding claims including incurred but not reported (IBNR)

The Operator recognizes liability in respect of all claims incurred up to the statement of financial position date which is measured at the undiscounted value of the expected future payments. The claims are considered to be incurred at the time of the incident giving rise to the claim except as otherwise expressly indicated in the takaful contract. The liability for claims include amounts relating to unpaid reported claims, claims incurred but not reported (IBNR), expected claims settlement costs, and any adjustments to claims outstanding from previous years.

SECP through its circular 9 of 2016, dated 09 March 2016, issued "Guidelines for estimation of incurred but not reported (IBNR) claims reserve 2016" ("Guidelines") and required to comply with all provisions of these guidelines with effect from 01 July 2016.

The Guidelines require that estimation for provision for claims incurred but not reported for each class of business, by using prescribed method "Chain Ladder Method (CLM)" and other alternate method as allowed under the provisions of the Guidelines. The Chain Ladder Method involves determination of development factors or link ratios for each period. These are then subsequently combined to determine Cumulative Development Factor (CDF) which represents the extent of future development of claims to reach their ultimate level to derive an IBNR estimate.

As required under the guidelines, the Operator uses CLM by involving an actuary for determination of provision against IBNR. Accordingly, the actuarial valuation as at 31 December 2018 has been carried out by independent firm of actuaries for determination of IBNR for each class of business. The actuarial valuation is based on a range of standard actuarial claim projection techniques, based on empirical data and current assumptions (as explained in preceeding paragraph) that may include a margin for adverse deviation as required / allowed by the circular 9 of 2016. The methods used, and the estimates made, are reviewed regularly.

3.17 Taxation

Current

Provision for current taxation is based on taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year, if enacted. The charge for current tax also include adjustments, where considered necessary, to provision for tax made in previous years arising from assessments finalized during the current year for such years.

Deferred

Deferred tax is accounted for using the statement of Financial Position liability method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

Deferred tax is calculated at the rates that are expected to apply to the period when the differences reverse based on tax rates that have been enacted or substantively enacted by the statement of Financial Position date. Deferred tax is charged or credited in the profit and loss account, except in the case of items credited or charged to statement of comprehensive income in which case it is included in statement of comprehensive income.

3.18 Employee benefit cost

Salaries, wages and benefits are accrued in the period in which the associated services are rendered by employees of the Operator and measured on an undiscounted basis. The accounting policy for employee retirement benefits is described below:

3.18.1 Defined contribution plan

The Operator operates an approved contributory provident fund scheme for all its eligible employees at entity level. Equal monthly contributions to the fund are made by the WTO and its employees at the rate of 8.33% of basic salary.

3.18.2 Defined benefit plans

The Operator operates a funded gratuity scheme for its employees as end of service benefits. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

3.18.3 Employees' compensated absences

The Operator accounts for these benefits in the period in which the absences are earned.

3.19 Impairment of assets

Financial assets

A financial asset is considered to be impaired if objective evidence indicate that one or more events had a negative effect on the estimated future cash flow of that asset.

An impairment loss in respect of a financial asset measured at amortized cost is calculated as a difference between its carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate. An impairment loss in respect of available for sale financial asset is calculated with reference to its current fair value.

Individually significant financial assets are tested for impairment on an individual basis. The remaining financial assets are assessed collectively in groups that share similar credit risk characteristics.

Non-financial assets

The carrying amounts of Operator's non-financial assets are reviewed at each statement of financial position date to determine whether there is any indication of impairment. If such indication exists, the recoverable amount of such asset is estimated. An impairment loss is recognized wherever the carrying amount of asset exceeds its recoverable amount. Impairment losses are recognized in profit and loss account. A previously recognized impairment loss is reversed only if there has been change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit and loss account.

3.20 Claims expense

Claims are charged against PTF income as incurred based on estimated liability for compensation owed under the takaful contracts. It includes claims handling costs that are directly related to the processing and settlement of claims, a reduction for the value of salvage and other recoveries and any adjustments to claims outstanding from previous years.

3.21 Takaful Surplus

Takaful surplus attributable to the participants is calculated after charging all direct cost and setting aside various reserves. Allocation to participants, if applicable, is made after adjustment of claims paid to them during the period.

3.22 Management Expenses

Expenses of management allocated to the underwriting business represent directly attributable expenses and indirect expenses allocated to the various classes of business on the basis of gross contribution written. Expenses not allocable to the underwriting business are charged as other expenses. Management expense of the Operator are charged to the Operator's Takaful Fund.

3.23 Financial instruments

Financial assets and liabilities are recognized at the time when the Operator becomes a party to the contractual provisions of the instrument and de-recognized when the Operator loses control of contractual rights that comprise the financial assets and in the case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired. Any gain or loss on the de-recognition of the financial assets and liabilities is included in the profit and loss account.

Financial instruments carried in the statement of financial position include cash and bank, loans, investments, contribution due but unpaid, amount due from other takaful / retakaful, contribution and claim reserves retained by cedants, accrued investment income, retakaful recoveries against outstanding claims, sundry receivables, provision for outstanding claims, amounts due to other takaful / retakaful, accrued expenses, other creditors and accruals. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

3.24 Commission expense/ acquisition cost

Commission expenses incurred in obtaining and recording takaful policies is deferred and recognized in Operator Takaful Fund as an expense in accordance with pattern of recognition of contribution revenue.

3.25 Wakala fees

The Operator manages the general takaful operations for the participants and charge wakala fee to PTF on gross contribution written including administrative surcharge to meet the general and administrative expenses of the operator including commission to agents at following rates:

Class	Percentage	
	2018	2017
Fire	28.00%	32.00%
Marine	35.00%	35.00%
Motor	27.50%	32.50%
Health	25.00%	27.50%
Misc.	25.00%	30.00%

Wakala fee is recognized on issuance of takaful contract. Wakala fee is recognized as income in OTF on the same basis on which the related contribution revenue is recognized in PTF. Unearned portion of Wakala fee is recognized as a liability in OTF and an asset in PTF.

3.26 Qard-e-Hasna

If there is a deficit of admissible assets over liabilities in the PTF, the Operator from the Operators Fund may provide Qard-e-Hasna to the PTF so that the PTF may become solvent as per Takaful Rules, 2012.

Qard-e-Hasna from the PTF can be recovered by the Operator over any period of time without charging any profit.

3.27 Mudarib's fee

The Operator manages the participants' investment as Mudarib and charges 20% of the investment income earned by the PTF as Mudarib's fee. It is recognized on the same basis on which related revenue is recognized.

4 Critical accounting estimates and judgements

4.1 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The areas involving a higher degree of judgment and complexity, or areas where assumptions and estimates are significant to these financial statements or judgment was exercised in application of accounting policies, are as follows:

	<i>Note</i>
- Classification of Takaful contracts	3.4
- Impairment	3.19
- Rebate from retakaful operators	3.12.2
- Provision for unearned contributions	3.6
- Contribution deficiency reserve	3.7
- Employee benefit cost	3.18
- Provision for outstanding claims (including IBNR) and retakaful recoveries there against	3.16
- Residual values and useful lives of property and equipment	3.2
- Residual values and useful lives of intangibles	3.3
- Taxation	3.17
- Segment reporting	3.10

4.2 Change in accounting estimate

During the year, the Operator has changed its methodology for contribution income earned whereby instead of 1/365 method, contribution income earned under a policy is determined as the ratio of the expired period of the policy and the total policy period, both measured to the nearest day. This change has been accounted for as change in accounting estimate in accordance with the "IAS 8 Accounting Policies and Changes in Accounting Estimates & Errors" whereby the change has been applied prospectively. Had the Operator's accounting estimate not been changed, unearned contribution reserve would have been lower by approximately Rs. 6.87 million, prepaid retakaful would have been higher by approximately Rs. 2.59 million and contribution revenue would have been increased by approximately Rs. 9.46 million during the year.

15 Contingencies and commitments

15.1 Contingencies

Sales tax

Under the Sindh Sales Tax Act, 2011, sales tax is payable on contribution on corporate health insurance policies written in the province of Sindh. 'The Insurance Association of Pakistan' (IAP) on behalf of the insurance companies has taken up the matter with the SRB and has also approached the Honorable Chief Minister, Sindh, for a favorable resolution of the matter. The matter is still under the process of review. The Operator and other insurance companies carrying out corporate health insurance have not yet billed their customers for SST. The amount not yet billed by the Operator, works out to Rs. 19.87 million and 15.55 million for the period from 1 July 2016 to 31 December 2017 and from 1 January to 31 December 2018 respectively.

15.2 Commitment in respect of operating leases

	2018	2017
	-----Rupees in '000-----

As at 31 December	50	47
Average during the year	49	31

29 Transactions with related parties

The Operator has related party relationships with its associates, subsidiary company, entities with common directorship, employee retirement benefit plans, key management personnel and other parties. Transactions are entered into with such related parties for the issuance of policies to and disbursements of claims incurred by them and payments of rentals for the use of premises rented from them. There are no transactions with key management personnel other than those specified in their terms of employment. Contributions and accruals in respect of staff retirement benefits and other benefit plans are made in accordance with the actuarial valuations / terms of the contribution plan.

Investments and bank deposits with related parties have been disclosed in note 11 of the financial statements. Other transactions with related parties are summarized as follows:

		2018	2017

31 Management of takaful and financial risk

The Operator's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (including interest / mark-up rate risk, price risk and currency risk). The Operator's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall risks arising from the Operator's financial assets and liabilities are limited. The Operator consistently manages its exposure to financial risk without any material change from previous period in the manner described in notes below. The Board of Directors has overall responsibility for the establishment and oversight of Operator's risk management framework. The Board is also responsible for developing the Operator's risk management policies.

The individual risk wise analysis is given below :

31.1 Takaful risk

The principal risk that the Operator faces under takaful contracts is that the actual claims and benefit payments or the timing thereof may differ from expectations. This is influenced by the frequency of claims, severity of claims, actual benefits paid and subsequent development of long-term claims. Therefore, the objective of the Operator is to ensure that sufficient reserves are available to cover these liabilities. The above risk exposure is mitigated by diversification across a large portfolio of takaful contracts and geographical areas. The variability of risks is also improved by careful selection and implementation of underwriting strategy guidelines, as well as the use of retakaful arrangements. Further, strict claims review policies to assess all new and ongoing claims, regular detailed review of claims handling procedures and frequent investigation of possible fraudulent claims and similar procedures are put in place to reduce the risk exposure of the Operator. The Operator further enforces a policy of actively managing and prompt pursuing of claims, in order to reduce its exposure to unpredictable future developments that can negatively impact the Operator.

Amounts recoverable from retakaful are estimated in a manner consistent with the outstanding claims provision and are in accordance with the retakaful contracts.

Although the Operator has retakaful arrangements, it is not relieved of its direct obligations to its policyholders and thus a credit exposure exists with respect to ceded takaful, to the extent that any retakaful operator is unable to meet its obligations assumed under such retakaful agreements. The Operator's placement of retakaful is diversified such that it is neither dependent on a single retakaful operator nor are the operations of the Operator substantially dependent upon any single retakaful contract. Retakaful contracts are written with approved retakaful operators on either a proportionate basis or non-proportionate basis. The retakaful operators are carefully selected and approved and are dispersed over several geographical regions.

Experience shows that larger the portfolio is in similar retakaful contracts, smaller will be the relative variability about the expected outcome. In addition, a more diversified portfolio is less likely to be affected across the board by a change in any subset of the portfolio. The Operator has developed its takaful underwriting strategy to diversify the type of takaful risks accepted and within each of these categories to achieve a sufficiently large population of risks to reduce the variability of the expected outcome.

The Operator principally issues the general takaful contracts e.g. fire and property damage, marine, aviation and transport, motor, accident & health and other miscellaneous. Risks under non-life takaful contracts usually cover twelve month or lesser duration. For general takaful contracts the most significant risks arise from accidental fire, atmospheric disaster and terrorist activities. Takaful contracts at times also cover risk for single incidents that expose the Operator to multiple takaful risks.

31.1.1 Geographical concentration of takaful risk

To optimize benefits from the principle of average and law of large numbers, geographical spread of risk is of extreme importance. There are a number of parameters which are significant in assessing the accumulation of risks with reference to the geographical location, the most important of which is risk survey.

31.1.2 Retakaful arrangements

Keeping in view the maximum exposure in respect of key zone aggregate, a number of proportional and non-proportional retakaful arrangements are in place to protect the net account in case of a major catastrophe. Apart from the adequate event limit which is the multiple of the treaty capacity or the primary recovery from the proportional treaty, any loss over and above limit would be recovered from the non-proportional treaty which is very much in line with the risk management philosophy of the Operator.

	PTF

31.1.3 Sources of uncertainty in estimation of future claim payments

The key source of estimation uncertainty at the statement of financial position date relates to valuation of outstanding claims, whether reported or not, and includes expected claims settlement costs. Considerable judgment by management is required in the estimation of amounts due to participants arising from claims made under takaful contracts. Such estimates are necessary based on assumptions about several factors involving varying and possibly significant degrees of judgment and uncertainty, and actual results may differ from management's estimates resulting in future changes in estimated liabilities. Qualitative judgments are used to assess the extent to which past trends may not apply in the future, for example one-off occurrence, changes in market factors such as judicial decisions and government legislation affect the estimates.

In particular, estimates have to be made both for the expected ultimate cost of claims reported at the statement of financial position date and for the expected ultimate cost of claims incurred but not reported (IBNR) at the statement of financial position date.

31.1.4 Neutral assumptions for claim estimation

The process used to determine the assumptions for calculating the outstanding claim reserves is intended to result in neutral estimates of the most likely or expected outcome. The nature of the business makes it very difficult to predict with certainty the likely outcome of any particular claim and the ultimate cost of notified claims. Each notified claim is assessed in separate, case to case basis, with due regard to claim circumstances, information available from surveyors and historical evidence of the size of similar claims. Case estimates are reviewed regularly and updated as and when new information is available.

The estimation of IBNR is generally subject to a greater degree of uncertainty than the estimation of the cost of settling claims already notified to the Operator, in which case the information about the claim event is available. IBNR provision is initially estimated at a gross level and a separate calculation is carried out to estimate the size of the retakaful recoveries.

The estimation process takes into account the past claims reporting pattern and details of retakaful programs. The contribution liabilities have been determined such that the total contribution liability provisions (unearned contribution reserve and contribution deficiency reserve) would be sufficient to service the future expected claims and expenses likely to occur on the unexpired policies as of statement of financial position date. The expected future liability is determined using estimates and assumptions based on the experience during the expired period of the contracts and expectations of future events that are believed to be reasonable.

31.1.5 Sensitivity analysis

The risks associated with the takaful contracts are complex and subject to a number of variables which complicate quantitative sensitivity analysis. The Operator makes various assumptions and techniques based on past claims development experience. This includes indications such as average claims cost, ultimate claims numbers and expected loss ratios. The Operator considers that the liability for insurance claims recognized in the statement of financial position is adequate. However, actual experience may differ from the expected outcome.

As the Operator enters into short term takaful contracts, it does not assume any significant impact of changes in market conditions on unexpired risks. However, some results of sensitivity testing are set out below, showing the impact on surplus/(deficit), net of retakaful.

	Surplus/ (deficit)

31.2.1 Mark - up rate risk

Mark-up rate risk is the risk that the value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market mark - up rates. Sensitivity to mark-up rate risk arises from mismatching of financial assets and liabilities that mature or repaid in a given period. The Operator manages this mismatch through risk management strategies where significant changes in gap position can be adjusted. At the statement of financial position date the mark-up rate profile of the Operator's significant interest / mark-up bearing financial instruments was as follows:

	Effective interest rate (%)		Carrying amounts	
	2018	2017	2018	2017
	-----Rupees in thousand-----			
<u>Floating rate financial instruments</u>				
Financial assets:				
Cash at bank - saving account	3.50% - 7.00%	3.50% - 7.00%	534,374	271,986

31.2.2 Sensitivity analysis

The Operator does not have any fixed rate financial assets and liabilities. For cash flow sensitivity analysis of variable rate instruments, a hypothetical change of 100 basis points in mark-up rates at the statement of financial position date would have decreased / (increased) profit for the year by the amounts shown below. It is assumed that the changes occur immediately and uniformly to each category of instrument containing interest rate risk. Variation in market interest rates could produce significant changes at the time of early repayments. For these reasons, actual results might differ from those reflected in the details specified below. The analysis assumes that all other variables remain constant.

	Effect on profit before tax		Effect on funds	
	Increase	Decrease	Increase	Decrease
	-----Rupees in thousand----		-----Rupees in thousand----	
As at 31 December 2018 - Fluctuation of 100 bps				
Cash flow sensitivity - variable rate financial liabilities	-	-	-	-
Cash flow sensitivity - variable rate financial assets	53,437	(53,437)	37,941	(37,941)
As at 31 December 2017 - Fluctuation of 100 bps				
Cash flow sensitivity - variable rate financial liabilities	-	-	-	-
Cash flow sensitivity - variable rate financial assets	27,199	(27,199)	19,039	(19,039)

Foreign currency risk

Currency risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Operator, at present is not materially exposed to currency risk as majority of the transactions are carried out in Pak Rupees.

Price risk

Price risk represents the risk that the fair value of financial instruments will fluctuate because of changes in the market prices (other than those arising from interest / mark-up rate risk or currency risk), whether those changes are caused by factors specific to individual financial instrument or its issuer, or factors affecting all or similar financial instrument traded in the market. The Operator is exposed to equity price risk that arises as a result of changes in the net asset value of mutual funds. The equity price risk arises from the Operator's investment in equity securities of mutual funds.

The Operator's strategy is to hold its strategic equity investments on a long term basis. Thus, Operator is not affected significantly by short term fluctuation in its strategic investments provided that the underlying business, economic and management characteristics of the investees remain favorable. The Operator strives to maintain above average levels of shareholders' capital to provide a margin of safety against short term equity volatility. The Operator manages price risk by monitoring exposure in quoted equity securities and implementing the strict discipline in internal risk management and investment policies.

The Operator has investments in quoted equity securities amounting to Rs. 29,930 thousands (2017: Rs. 30,343 thousands) at the statement of financial position date. The carrying value of investments subject to equity price risk are, in almost all instances, based on quoted market prices as of the statement of financial position date. Market prices are subject to fluctuation which may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions.

31.2.3 Sensitivity analysis

As the entire investment portfolio has been classified in the 'available-for-sale' category, a 10% increase / decrease in unit prices at year end would have increased / decreased Operator's fund as follows:

	Impact on profit before tax	Impact on operator's fund
	-----Rupees in thousand----	
2018		
Effect of increase in unit price	-	2,125
Effect of decrease in unit price	-	(2,125)
2017		
Effect of increase in unit price	-	2,124
Effect of decrease in unit price	-	(2,124)

31.3 Credit risk and concentration of credit risk

Credit risk is the risk that arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Operator attempts to control credit risk by monitoring credit exposure by undertaking transactions with a large number of counterparties in various sectors and by continually assessing the credit worthiness of counterparties.

Concentration of credit risk occurs when a number of counterparties have a similar type of business activities. As a result any change in economic, political or other conditions would affect their ability to meet contractual obligations in a similar manner. The Operator's credit risk exposure is not significantly different from that reflected in these financial statements. The management monitors and limits the Operator's exposure and makes conservative estimates of provisions for doubtful assets, if any. The management is of the view that it is not exposed to significant concentration of credit risk as its financial assets are adequately diversified in entities of sound financial standing, covering various industrial sectors.

The carrying amount of financial assets represents the maximum credit exposure, as specified below:

	2018			2017
	Operator's Fund	Participants' Takaful Fund	Aggregate	Aggregate
-----Rupees in thousand-----				
Investment in equity securities	29,930	-	29,930	30,343
Loans and other receivable	3,246	8,551	11,797	4,506
Due from takaful contract holders	-	208,389	208,389	152,981
Due from other takaful / other retakaful	-	22,034	22,034	30,613
Retakaful recoveries against outstanding claims	-	46,654	46,654	34,211
Salvage recoveries accrued	-	15,881	15,881	6,800
Wakala and mudarib fee receivable	23,342	-	23,342	8,815
Bank deposits	101,885	432,489	534,374	271,986
	158,403	733,998	892,401	540,255

Provision for impairment is made for doubtful receivables according to the Operators's policy. The impairment provision is written off when the Operator expects that it cannot recover the balance due.

Age analysis of due from takaful contract holders (net of provision) other than related parties is as follows:

	2018	2017
	-----Rupees in thousand-----	
Upto one year	175,881	117,815
Above one year	15,895	5,560
	191,776	123,375
Less: provision for doubtful balances	-	-
	191,776	123,375

Age analysis of due from related parties against takaful contracts is as follows:

Upto one year	16,611	29,483
Above one year	2	123
	16,613	29,606
Less: provision for doubtful balances	-	-
	16,613	29,606

The credit quality of Operator's bank balance can be assessed with reference to external credit rating as follows:

	Rating		Rating Agency	2018	0
	Short Term	Long Term		-----Rupees in thousand-----	
Dubai Islamic Bank Limited	A-1	AA-	JCR-VIS	403,477	205,971
MCB Islamic Bank Limited	A1	A	PACRA	77,783	51,661
Meezan Bank Limited	A-1+	AA+	JCR-VIS	28,297	14,354
Bank Islami Pakistan Limited	A1	A+	PACRA	24,816	-
				534,373	271,986

The credit quality of amount due from other co-takaful/retakaful operators (gross of provisions) can be assessed with reference to external credit rating as follows:

	Amounts due from other co- takaful / retakaful operators	Retakaful and other recoveries against outstanding claims	2018	2017
	----- Rupees in thousand -----			
A or Above (including PRCL)	22,034	26,263	48,297	55,138
BBB	-	4,635	4,635	8,175
Others	-	15,756	15,756	1,511
Total	22,034	46,654	68,688	64,824

31.4 Capital adequacy risk

The Operator's objective when managing capital is to safeguard the Operator's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain a strong capital base to support the sustained development in its businesses.

32 Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset either directly (that is, derived from prices) (Level 2)
- Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

35 Corresponding figures

The effect of changes stated in note 3.1 has been accounted for retrospectively in accordance with IAS-8 'Accounting Policies, Change in Accounting Estimates and Errors' resulting in restatement of financial statements of prior years. Resultantly, the cumulative effect of adjustment that arose as at 01 January 2018 and 01 January 2017 have been presented and disclosed as part of statement of changes in fund, while the corresponding period adjustment through other comprehensive income is restated and disclosed as part of statement of comprehensive Income. The statement of financial position also presents the prior number restated, due to said change.

Significant reclassification / rearrangement of corresponding figures have been made in these financial statements wherever necessary.

36 Subsequent events - non adjusting event

There are no significant events that need to be disclosed for the year ended 31 December 2018.

37 Date of authorization for issue

These financial statements were authorized for issue on 03 April 2019 by the Board of Directors of the Operator.

38 General

Figures have been rounded off to the nearest thousand rupees unless otherwise stated.

ملاحظات (نوٹس):

- 1- سالانہ اجلاس عام میں شرکت اور رائے دی کا حق رکھنے والا ممبر کسی دوسرے ممبر کو اپنی بجائے شرکت اور حق رائے دی کے استعمال کیلئے اپنا نمائندہ (پروکسی) مقرر کر سکتا ہے۔ کوئی کارپوریشن یا کمپنی، بحیثیت کمپنی، بحیثیت کمپنی کی ممبر، اپنے افسران میں سے کسی کی تقرری بورڈ ریزولوشن کے ذریعے کر سکتی ہے۔ نمائندگی نامہ Proxy(s) اس اجلاس کے انعقاد کے مقررہ وقت سے کم از کم 48 گھنٹے قبل کمپنی کے رجسٹرڈ آفس میں وصول ہو جانا چاہیے۔
- 2- ایسے ممبران جو سینٹرل ڈپازٹری کمپنی آف پاکستان میں شیئرز جمع کروا چکے ہیں وہ اصل کمپیوٹرائزڈ قومی شناختی کارڈ اور سی ڈی سی پارٹنر آئی ڈی نمبر ساتھ لائیں۔
- 3- CDC اکاؤنٹ ہولڈرز کو سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان کی طرف سے جاری کردہ درج ذیل ہدایات کی مزید پیروی کرنا ہوگی:

(A) اجلاس میں شرکت کیلئے:

- i) افراد کی صورت میں، اکاؤنٹ یا سب اکاؤنٹ ہولڈر جس کی رجسٹریشن کی تفصیلات CDC ضوابط کے مطابق اپ لوڈ کی جا چکی ہیں، اجلاس میں شرکت کے وقت اپنی شناخت کی تصدیق کیلئے اپنا اصل کمپیوٹرائزڈ قومی شناختی کارڈ (CNIC) یا اصل پاسپورٹ دکھائے گا۔
- ii) کاروباری ادارے کی صورت میں اجلاس کے موقع پر بورڈ آف ڈائریکٹرز کی قرارداد/مختار نامہ نامہ نمائندے کے دستخط کے نمونے کے ساتھ پیش کرنا ہوگا (ماسوائے اس کے کہ وہ پہلے ہی پیش کیا جا چکا ہو)۔

(B) نمائندوں کی تقرری کیلئے:

- i) افراد کی صورت میں، اکاؤنٹ یا سب اکاؤنٹ ہولڈر جس کی رجسٹریشن کی تفصیلات CDC ضوابط کے مطابق اپ لوڈ کی جا چکی ہیں، اجلاس میں شرکت کے وقت درج بالا تقاضوں کے مطابق نمائندگی نامہ (Proxy Form) جمع کروائے گا۔
- ii) نمائندگی نامے پر دو افراد کی گواہی موجود ہونی چاہیے جن کے نام، پتے اور CNIC نمبر تقرری نامے میں درج ہوں۔
- iii) نمائندگی نامے کے ہمراہ اصل مالکان (beneficial owner) اور نمائندے کے CNIC یا پاسپورٹ کی تصدیق شدہ نقول مہیا کی جائیں۔
- iv) نمائندے کو اجلاس کے موقع پر اپنا اصل CNIC یا اصل پاسپورٹ پیش کرنا ہوگا۔
- v) کاروباری ادارے کی صورت میں، اجلاس کے موقع پر نمائندگی نامے کے ہمراہ بورڈ آف ڈائریکٹرز کی قرارداد/مختار نامہ نمائندے/انٹارنی کے دستخط کے نمونے کے ساتھ پیش کرنا ہوگا (ماسوائے اس کے کہ وہ پہلے ہی پیش کیا جا چکا ہو)۔
