DIRECTORS' REPORT

To the Shareholders

Dear shareholders

The Directors of Siddiqsons Tin Plate Limited are pleased to present the annual report of your company along with the audited financial statements for the financial year ended June 30, 2019, together with the auditor's report thereon.

Global business scenario

The rise in packaged food sales, rising demand for metal packaging in beverages industry, increasing urbanization, increasing demand for aerosol products, and increasing consumption of canned vegetables and foods are the primary drivers of global tinplate packaging market. The market is also driven by growth of pharmaceuticals and cosmetics industry which is expected to propel the growth of the tinplate packaging market. Tinplate is also used in applications other than containers; which include making electrical machinery parts and many other products. Tinplate offers 100 percent recyclability and is an eco-friendly packaging material and recent eco-awareness drives being carried out internationally are making the metal packaging, the preferred choice for consumers. According to the global Tinplate Packaging Market report published by Value Market Research, the market is expected to touch USD 9.5 BN by 2025, with a CAGR of 2.2% growing from valued USD 8.2 BN (by revenue) in 2018. However, this growth is largely linked with the limitations and dynamics of steel manufacturing sector, which is itself quite volatile in nature. During the year the steel industry shows a moderate growth rate of 1.5% (approx.).

Pakistan's Economic Scenario

Macro-economic scenario of Pakistan, during the year, largely characterized by volatility and uncertainty. The increase in interest rate by 6% and devaluation of Pak Rupee by 35% resulted in higher cost of doing business and increased working capital requirement for businesses.

Business Performance Overview & Financial Highlights

	2019	2018	2017
Net Sales	3,408,743,813	2,646,260,757	2,537,686,396
Gross Margin	334,806,834	165,694,478	309,972,014
Profit/(Loss) before taxation	128,924,764	(40,645,514)	159,069,982
Profit/(Loss) after taxation	86,890,505	(67,733,341)	128,329,628
Earnings/(Losses) per share	0.39	(0.86)	1.63

The year under review posed a lot of volatilities and marked some unprecedeted fluctuations. The biggest effect on profitability, remained the highest ever finance cost, which rose by 33% on YOY basis. On the other hand, the protection measures being taken to support local flat steel industry is restricting the supply chain of the Company. However, your company has managed to explore the alternate sources of raw material.

On the competitive front, the imposition of anti-dumping duty on import of Electrolytic Tin Plate (ETP) is a sigh of relief and helped to curb the under invoicing and dumping of ETP in Pakistani market. This also helped in providing a level playing field for locally produced ETP.

The price trend of Tin Mill Black Plate (TMBP) also witnessed a mix trend. The first two quarters of current financial year shows a declined trend, however this trend moderately reversed during last two quarters. Hence the second half of the financial year put a lot of pressure on direct cost of operations, since the rupee devaluation and rising discount rates were also adversely impacting the cost of doing business.

The continuous development of export markets is one of the prime focus of your company and is critical to the growth and sustainability in the long run. However, the opportunities available in the export market cannot be fully availed until the time CRC plant is fully operational. Realizing this fact the management is fully committed to make the new CRC plant operational by the end of calendar year 2020.

بورڈ آف ڈائریکٹرز میں تدبیلیاں

سال کے دوران ایک انتقالی آسامی پر بورڈ آف ڈائریکٹرز نے تقریبی کی۔ جناب جیلن پیر گلنا م کی جگہ جناب اشرف محمود واقر ایوب بورڈ سے واپسی ہوئے۔

مستقبل کی پیش بینی

نئے CRC پلانٹ کا قیام کمپنی کی طویل مدتی منافع کاری اور پائیدار نمو کے لئے بنیادی حیثیت رکھتا ہے۔ اس پلانٹ کا بنیادی مقصد موجودہ ETP پلانٹ کی پیداوار میں اضافہ کرنا ہے جس سے مقامی گاہوں کو عالمی میعاد کی ETP کی بروقت ترسیل میں مدد ملے گی۔ مزید برآں کمپنی کی برآمدی مسابقاتی صلاحیت میں بھی اضافہ ہو گا۔ پروجنکٹ کا سنگ بنیاد 21 اپریل 2019 کو رکھا گیا۔ تجارتی پیداوار نومبر 2020 تک شروع کرنے کی منصوبہ بندی کی گئی ہے۔

مساچتی لاحظ سے ایکٹرولائٹ ٹن پلیٹ (ETP) کی درآمدات پر اینٹی ڈیپنگ ڈیوٹی عائد ہونے کی وجہ سے کچھ اٹیٹیان بخش صورتحال رہی اور انڈرانوائنس اور پاکستانی مارکیٹ میں ETP کی بھرمار ووکتے میں مددگاری۔ اس وجہ سے ETP کی مقامی پیداوار کی طلب میں اضافہ ہوا۔

ٹن مل بلیک پلیٹ (TMBP) کی قیتوں میں بھی ملا جلا رجحان دیکھا گیا۔ موجودہ مالیاتی سال کی پہلی دو سہ ماہیوں میں کمی کا رجحان رہا تاہم آخري دو سہ ماہیوں میں یہ رجحان معمکوس ہو گیا۔ لہذا مالیاتی سال کی دوسری ششماہی میں بالواسطہ کاروباری لاگتوں پر بہت زیادہ دباؤ رہا کیونکہ روپے کی قدر میں کمی اور بڑھتے ہوئے رعایتی نرخ نے کاروباری لاگتوں پر منفی اثرات مرتب کئے تھے۔

ہر آمدی مارکیٹوں میں مسلسل ترقی آپ کی کمپنی کی بنیادی مرکز نگاہ ہے اور طویل مدتی پاسیدناری اور خوب کرنے انتہائی بنیادی حیثیت رکھتی ہے۔ تاہم ہر آمدی مارکیٹ میں دستیاب موقعوں سے اس وقت تک استفادہ نہیں کیا جاسکتا جب تک کہ ہمارا CRC پلانٹ مکمل پیداوار شروع نہ کر دے۔ اس حقیقت کو تسلیم کرتے ہوئے انتظامیہ پر عزم ہے کہ ٹیکارا CRC پلانٹ کو کیلئہ رسال 2020 تک آپریشن ہو جائے گا۔

فروخت

کمپنی کی فروخت میں 29 فیصد اضافہ ہوا تاہم فروخت شدہ مقدار میں 2.5 فیصد کی ہوئی۔

پیداوار

موجودہ سال کی پیداوار گزشتہ سال کی بہ نسبت 10 فیصد زیادہ رہی۔ پیداواری مقدار 20,288 میٹرک ٹن رہی جبکہ گزشتہ سال 18,211 میٹرک ٹن تھی۔ پیداواری گنجائش سے استفادہ 17 فیصد رہا۔

کاروباری جائزہ

مالیت فروخت میں 29 فیصد اضافہ ہوا اور EBTIDA (غیر متوازنی اخراجات ہٹا کر) 284,310 میلین روپے (8.3 فیصد) رہی جبکہ گزشتہ سال (5 فیصد) تھی۔ EBTIDA منافع میں اضافہ سے کاروباری نتیجہ خیری اور کارگزاری کی عکاسی ہوتی ہے۔ لاگت فروخت میں گزشتہ سال کی بہ نسبت 24 فیصد اضافہ ہوا۔

تفصیلی اور انتظامی اخراجات میں 8 فیصد کا اعتدالی اضافہ ہوا جس کی بنیادی وجہ تجوہ ہوں اور اجرتوں میں سالانہ بڑھوٹری اور قانونی اور پیشہ ور انہ اخراجات میں اضافہ تھا۔ تاہم مالیاتی لاجت میں گزشتہ سال کی بہ نسبت 33 فیصد کا قبل ذکر اضافہ ہوا جس کی وجہ SBP کے رعایتی نرخ میں اضافہ تھی۔ سال کا خالص بعد از ٹکیں منافع 86.89 میلین روپے رہا جبکہ گزشتہ سال 67.7 میلین روپے کا خسارہ ہوا تھا۔

فی حصہ آمدن

فی حصہ آمدن 0.39 روپے رہی جبکہ گزشتہ سال فی حصہ خسارہ (0.22) روپے رہا۔

قومی خزانے کو ادا یگیاں

کمپنی نے انکمیکس، سیلز ٹکیں، کشم ڈیوٹیوں اور دیگر محصولات کی میں 1,056 میلین روپے قومی خزانے میں جمع کرائے۔

ڈائریکٹر ان کی رپورٹ

معزز حصص یافتگان!

صدیق سائز پلیٹ لمبینڈ کے ڈائریکٹر ان آپ کی کمپنی کی سالانہ رپورٹ کے ساتھ آٹھ شدہ مالیاتی گوشوارے برائے سال اختتامی 30 جون 2019 بیج آڈیٹر رپورٹ پیش کرتے ہوئے اظہار مسرت کرتے ہیں۔

عامی کاروباری منظر نامہ

پیک شدہ غذاوں کی فروخت میں اضافہ، بشر و بات میں دھاتی پیکینگ کی بڑھتی ہوئی شہری آبادی، ایریو سول مصنوعات کی بڑھتی ہوئی طلب اور ڈبیوں میں بند بزرگوں اور غذاوں کا بڑھتا ہوا استعمال عامی ٹن پلیٹ پیکینگ کی مارکیٹ کو آگے بڑھانے والے بنیادی عناصر ہیں۔ ٹن پلیٹ کے ڈبیوں کے علاوہ ٹن پلیٹ برتنی مشینی کے پرزوں اور کئی دیگر مصنوعات کو بنانے میں استعمال ہوتی ہے۔ ٹن پلیٹ 100 فیصد دوبارہ قابل استعمال ہے اور ماحول دوست پیکینگ مادہ ہے اور عامی سطح پر ماحولیاتی آگاہی کی حالیہ میں نے دھاتی پیکینگ کو صارفین کے لئے ایک پسندیدہ انتخاب بنادیا ہے۔ عامی ٹن پلیٹ پیکینگ کی مارکیٹ پروڈیو مارکیٹ ریسرچ کی شائع کردہ رپورٹ کے مطابق توقع ہے کہ یہ مارکیٹ 2025 تک 9.5 بلین یوائیس ڈالر تک پہنچ جائے گی، جس کے CAGR میں 2018 کے 8.2 بلین یوائیس ڈالر کے مقابلے میں 2.2 فیصد نمو ہوئی۔ تاہم اس نمو کی بڑی وجہ اسیل کے پیداواری شعبے کی قوت محکمہ اور حدود و قبود ہیں جو کہ بذات خود قدرتی طور پر اتار چڑھاؤ کا شکار ہے۔ سال کے دوران اسیل کی صنعت میں اعتمادی نمو ہوئی جو کہ (تقریباً) 1.5 فیصد تھی۔

پاکستان کا معاشری منظر نامہ

سال کے دوران پاکستان کا معاشری منظر نامہ بڑے پیمانے پر نازک اور غیر یقینی صورتحال کا شکار رہا۔ شرح سود میں 6 فیصد اضافہ اور پاکستان روپے کی قدر میں 35 فیصد کی کمی کے نتیجے میں کاروباری لاگنیں بلند ہو گئیں اور جاری سرمائے کی ضروریات میں اضافہ ہوا۔

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF SIDDIQSONS TIN PLATE LIMITED

Review Report on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2017

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2017 (the Regulations) prepared by the Board of Directors of **SIDDIQSONS TIN PLATE LIMITED** for the year ended June 30, 2019 in accordance with the requirements of Regulation 40 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions and also ensure compliance with the requirements of section 208 of the Companies Act, 2017. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out procedures to assess and determine the Company's process for identification of related parties and that whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2019.

Further, we highlight below instances of non-compliance with the requirements of the Regulations as reflected in the paragraph reference where these are stated in the Statement of Compliance:

Sr #	Paragraph reference	Description
I	18 (a)	The Board of Directors has not maintained a complete record of significant policies along with their date of approval or updates as required by regulation 10 (4) of the Listed Companies (Code of Corporate Governance) Regulations, 2017.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF SIDDIQSONS TIN PLATE LIMITED

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **SIDDIQSONS TIN PLATE LIMITED** (the Company), which comprise the statement of financial position as at June 30, 2019, and the statement of profit or loss account and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2019 and of the profit, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following are the key audit matters:

S.No	Key audit matter	How our audit addressed the key audit matter
I.	Revenue from Contracts with Customers Effective July 1, 2018, the Company changed its accounting policy due to the mandatory application of IFRS 15 which supersedes the requirements of IAS 18 "Revenue".	<p>Our audit procedures to assess the recognition of revenue, included the following:</p> <ul style="list-style-type: none">Considered the appropriateness of revenue recognition policy and compared it with the applicable accounting standards.

S.No	Key audit matter	How our audit addressed the key audit matter
	<p>IFRS 15 introduces a new five step model for recognition of revenue which is primarily based on the transfer of control to the customers, which was analysed by Management to identify the changes required to be made to existing accounting policies and to determine if any changes are required particularly in connection with the separation of different performance obligations that may exist.</p> <p>Management also assessed the additional disclosures required to be made by the new accounting standard in the financial statements.</p> <p>Due to the adoption of policies of revenue recognition as a result of the new accounting standard and revenue being one of the key performance indicator of the Company we have identified this as a key audit matter.</p> <p>Refer notes 4.1, 4.12 and note 23 to the financial statements.</p>	<ul style="list-style-type: none"> Obtained an understanding of and assessed the design, implementation and operating effectiveness of controls around recognition of revenue; Checked on sample basis relevant underlying supporting documents for ensuring that management has complied with the revenue recognition criteria as introduced by IFRS 15; Tested timeliness of revenue recognition by comparing individual sales transactions before and after the year end to underlying documents and by checking significant credit notes issued after year-end; and Evaluated the adequacy and appropriateness of disclosures made in the financial statements in relation to adoption of the new accounting standard.
2.	<p>Valuation of Stock-in-trade</p> <p>Stock-in-trade has been valued following an accounting policy as stated in note 4.5 and the related value of stock-in-trade are disclosed in note 8 to the financial statements. Stock-in-trade forms material part of the Company's assets comprising of 27% of total assets.</p> <p>The valuation of finished goods within stock-in-trade at cost has different components, which includes judgment in relation to the allocation of overhead costs, which are incurred in bringing the finished goods to its present location and condition. Judgments are also involved in determining the net realizable value (estimated selling price in the ordinary course of business less estimated cost of completion and estimated costs necessary to make the sale) of stock-in-trade items in line with accounting policy.</p> <p>Due to the above factors, we have considered the valuation of stock-in-trade as key audit matter.</p>	<p>Our audit procedures to address the valuation of stock-in-trade, included the following:</p> <ul style="list-style-type: none"> obtained an understanding of mechanism of recording purchases and valuation of stock-in-trade; tested on a sample basis purchases with underlying supporting documents; verified the calculations of the actual overhead costs and checked allocation of labor and overhead costs to the finished goods; obtained an understanding of management's process for determining the net realizable value and checked: future selling prices by performing a review of sales close to and subsequent to the year-end; and determination of cost necessary to make the sale. checked the calculations of net realizable value of itemized list of stock-in-trade, on a sample basis and compared the net realizable value with the cost to ensure that valuation of stock-in-trade is in line with the accounting policy.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- the statement of financial position, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980)

The engagement partner on the audit resulting in this independent auditors' report is Nadeem Yousuf Adil.

3. BASIS OF PREPARATION

The principal accounting policies applied in the preparation of these financial statements are set out below:

3.1 Statement of compliance

These financial statements have been prepared in accordance with the accounting and recording standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS Standards, the provisions of and directives issued under the Companies Act. 2017 have been followed.

3.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except that certain financial instruments are stated at fair value.

3.3 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are presented in Pakistani Rupees, which is the Company's functional and presentation currency.

3.4 Use of estimates and judgments

The preparation of financial statements in conformity with approved accounting and reporting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The estimates underlying the assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The areas where various assumptions and estimates are significant to the Company's financial statements or where judgment was exercised in application of accounting policies are as follows:

- Useful lives and impairment of property, plant and equipment (note 4.3) ;
- Provision against slow moving stores, spares and loose tools (note 4.4) ;
- Provision against slow moving stock in trade (note 4.4) ;
- Provision against doubtful debts and receivables (note 4.6) and
- Provision for taxation and deferred tax (note 4.13)

- IFRS 17 'Insurance Contracts'

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted in the preparation of these financial statements are the same as those applied in the preparation of the financial statements of the Company for the year ended June 30, 2018 except for the change in the policy for revenue recognition as disclosed in note 4.5 and financial assets' recognition and measurement as disclosed in note 4.10 due to adoption of IFRS 15 "Revenue from Contracts with Customers" and IFRS 9 "Financial Instruments" respectively.

4.1 IFRS 15 "Revenue from Contracts with Customers"

On 28 May 2014, the International Accounting Standards Board ("IASB") issued International Financial Reporting Standards ("IFRS") 15 "Revenue From Contracts with Customers" which provides a unified five-step model for determining the timing, measurement and recognition of revenue. The focus of the new standard is to recognize revenue as performance obligations are made rather than solely based on the transfer of risk and rewards. IFRS 15 includes a comprehensive set of disclosure requirements including qualitative and quantitative information about contracts with customers to understand the nature, amount, timing and uncertainty of revenue. The standard supersedes IAS 18 Revenue, IAS 11 "Construction Contracts" and the number of revenue related interpretations. The changes laid down by this standard do not have any significant impact on these financial statements of the Company.

The Company manufactures and contracts with customers for the sale of Tin Plates and canning which generally include single performance obligation. The management has concluded that revenue from sale of goods be recognised at the point in time when control of the asset is transferred to the customer, which is when the goods are dispatched to the customer. Invoices are generated and revenue is recognised at that point in time, as the control has been transferred to the customers. The above is generally consistent with the timing and amounts of revenue the Company recognised in accordance with the previous standard, IAS 18. Therefore, adoption of IFRS 15 at 01 July 2018, did not have an effect on the financial statements of the Company.

4.2 IFRS 9 'Financial Instruments'

IFRS 9 - Financial Instruments (IFRS 9) replaced the majority of IAS 39 - Financial Instruments: Recognition and Measurement (IAS 39) and covers the classification, measurement and de-recognition of financial assets and financial liabilities and requires all fair value movements on equity investments to be recognised either in the profit or loss or in other comprehensive income, on a case-by-case basis, and also introduced a new impairment model for financial assets based on expected losses rather than incurred losses and provides a new hedge accounting model.

The Company has adopted IFRS 9 by applying the modified retrospective approach according to which the Company is not required to restate the prior year results. There is no impact of adoption of IFRS 9 on opening equity of the Company.

The impact of the adoption of IFRS 9 has been in the following areas:

(i) Classification and measurement of financial assets and financial liabilities

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. However, it replaces the previous IAS 39 categories for financial assets i.e. loans and receivables, fair value through profit or loss (FVTPL), available for sale and held to maturity with the categories such as amortised cost, fair value through profit or loss (FVTPL) and fair value through other comprehensive income (FVTOCI).

There is no significant impact of IFRS 9 on the classification and measurement of financial assets for the year ended June 30, 2019 other than as follows:

- loans and receivables and held to maturity are classified under the category of amortised cost and equity investments which were classified as available for sale are now classified as FVTOCI. Under IFRS 9, the classification of financial assets is based on the objective of the entity's business model.

Equity investments in listed equity securities which were classified as held for trading are now classified as FVTPL.

Disclosures in relation to the initial application of IFRS 9

The table below shows impact of change in accounting policies due to adoption of IFRS 9:

Financial assets and financial liabilities	Original classification as per IAS 39	New classification as per IFRS 9	Carrying amount as per IAS 39 as on June 30, 2018	Carrying amount on initial adoption of IFRS 9 on July 01, 2018	Effect on July 01, 2018 on Retained Earnings

- "AC" is amortised cost
- "HTM" is held to maturity
- "OFL" is other financial liabilities
- "AFS" is available for sale
- "FVTOCI" is fair value through other comprehensive income

(ii) Impairment of financial assets

IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' (ECL) model. IFRS 9 introduces a forward 'looking expected credit losses model, rather than the current incurred loss model, when assessing the impairment of financial assets in the scope of IFRS 9. The new impairment model applies to financial assets measured at amortized cost, contract assets and debt investments at FVTOCI, but not to investments in equity instruments.

The Company has trade debts, loans and advances, other receivables, term deposit certificates, bank balances on which the Company had to revise its impairment methodology.

The Company applies the IFRS 9 simplified approach to measuring expected credit losses which uses a lifetime expected loss allowance for trade receivables. Impairment losses related to trade receivables, are presented separately in the statement of profit or loss. Trade receivables are written off when there is no reasonable expectation of recovery. Given the Company's experience of collection history and historical loss rates and normal receivable aging, the move from an incurred loss model to an expected loss model has not had a material impact on the financial position and / or financial performance of the Company.

(iii) Accounting policies applied until June 30, 2018

Investments and other financial assets

Regular way purchase or sale of investments

All purchases and sales of investments are recognised using trade date accounting. Trade date is the date on which the Company commits to purchase or sell the investment.

Investment at fair value through profit or loss

These are investments designated at fair value through profit or loss at inception or held for trading. These are initially measured at fair value and changes on re-measurement are taken to statement of profit or loss and other comprehensive income.

A financial asset other than a financial asset held for trading may be designated as at fair value through profit or loss and other comprehensive income upon initial recognition if:

- * such designation eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise; or
- * the financial asset forms part of a group of financial assets or financial liabilities or both, which is managed and its performance is evaluated on a fair value basis, in accordance with the Company's risk management; or
- * it forms part of a contract containing one or more embedded derivatives, and IAS 39 Financial Instruments: Recognition and Measurement permits the entire combined contract (asset or liability) to be designated as at fair value through statement of profit or loss and other comprehensive income.

Available-for-sale financial assets

Investments intended to be held for an indefinite period of time, which may be sold in response to need for liquidity, or changes to interest rates or equity prices are classified as available for sale. After initial recognition, investments which are classified as available for sale are measured at fair value. Gains or losses on available for sale investment are recognized directly in other comprehensive income until the investment is sold, derecognized or is determined to be impaired, then the cumulative gain or loss previously reported in other comprehensive income is included in statement of profit or loss and other comprehensive income. These are sub-categorized as follows:

Quoted

For investments that are actively traded in organized capital markets, fair value is determined by reference to stock exchange quoted market at the close of business on the reporting date.

Un-quoted

Investments in unquoted equity instruments are stated at cost less any identified impairment losses.

Held-to-maturity

Held-to-maturity Investments are initially recognized at acquisition cost, which includes transaction cost associated with the investment. Subsequently these are measured at amortized cost using the effective interest rate method, less any impairment loss recognized to reflect irrecoverable amounts.

Loans and advances

Loans and advances are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than twelve months after the reporting date, which are classified as non-current assets. Loans and receivables comprise trade receivables, loans, advances, deposits, other receivables and cash and bank balances in the statement of financial position.

Derecognition

All investments are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership.

4.3 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment, if any.

Assets residual values, if significant and their useful lives are reviewed and adjusted, if appropriate, at each reporting date.

Depreciation is charged using reducing balance method over its estimated useful life at the rates specified in note 5.1. Depreciation is charged from the month in which asset is available for use and up to the month preceding the month of disposal.

Maintenance and normal repairs are charged to statement of profit or loss as and when incurred. Major renewals and improvements are capitalised.

Gains or losses on disposal of property, plant and equipment, if any, are recognised as and when incurred, to statement of profit or loss account.

Capital work in progress (CWIP) is stated at cost less impairment loss (if any).

All expenditure connected with specific assets incurred during installation and construction period are carried under capital work-in-progress. These are transferred to specific assets as and when these assets are available for use.

4.4 Stores, spares and loose tools

These are stated at cost. Cost is determined using moving average basis less allowance for obsolete and slow moving items, if any. Stores and spares in transit are stated at invoice value plus other charges incurred thereon until the reporting date.

4.5 Stock-in-trade

Stock-in-trade are valued at the lower of cost or net realisable value on the following basis: -

Raw material	At weighted average cost
Finished goods	At average manufacturing cost
Waste	At net realisable value

Cost in relation to items in transit represent invoice value and other charges incurred upto reporting date.

Average cost signifies, in relation to finished goods, the average manufacturing cost including related direct overheads.

Net realisable value signifies the estimated selling prices in the ordinary course of business less estimated cost of completion and the estimated cost necessary to make the sale.

4.6 Trade debts and other receivables

Trade debts and other receivables are recognised initially at fair value and subsequently measured at amortised cost less loss allowance, if any. The Company always measures the loss allowance for trade debts at an amount equal to lifetime expected credit losses (ECL). The expected credit losses on trade debts are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

Trade debts and other receivables considered irrecoverable are written off."

4.7 Cash and cash equivalents

Cash and cash equivalents for cash flow purposes comprises of cash in hand, current and deposit accounts held with banks. Short term borrowings (except export re-finance) availed by the Company which are payable on demand and form an integral part of the Company's cash management are included as part of cash and cash equivalents for the purpose of the statement of cash flows.

4.8 Employee benefit cost

Defined Contribution Plan

The Company operates an approved funded contributory provident fund scheme for all its employees eligible for benefit. Equal monthly contributions are made both by the Company and its employees at the rate of 10% per annum of the basic salary. The Company's contribution to the fund is charged to statement of profit or loss for the year.

4.9 Trade and other payables

Liabilities for trade and other amounts payable are recognised initially at fair value and are subsequently measured at amortised cost.

4.10 Provisions

Provisions are recognised when the Company has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

4.11 Borrowings and their costs

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently at amortised cost. Borrowing costs are recognised as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs, if any, are capitalised as part of the cost of that asset.

4.12 Revenue recognition

Revenue is measured based on the consideration specified in a contract with a customer. Revenue from operations of the Company are recognised when the goods are provided, and thereby the performance obligations are satisfied. Revenue consists of tin plates and canning. The Company's contract performance obligations are fulfilled at the point in time when the goods are dispatched to the customer. Invoices are generated and revenue is recognised at that point of time, as the control has been transferred to the customers. The Company assesses its revenue arrangements against specific criteria that must be met before revenue is recognised:

4.13 Taxation

Current

The charge for current taxation is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date. Management periodically evaluates position taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred

Deferred tax is provided using the liability method for all temporary differences at the reporting date between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax asset is recognised for all deductible temporary differences and carry forward of unused tax losses, if any, to the extent that it is probable that taxable profit or taxable temporary differences will be available against which such temporary differences and tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rate that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the reporting date.

4.14 Foreign currencies

Foreign currency transactions are translated into Pak. Rupees using the rates of exchange prevailing on the dates of the transaction. At each reporting date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the reporting date except where forward exchange contracts have been entered into for repayment of liabilities, in that case, the rates contracted for are used.

Gains and losses arising on retranslation are included in net profit or loss for the year.

4.15 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

4.16 Financial Assets

Classification

From July 1, 2018 the Company classifies its financial assets in to following three categories:

- Financial assets measured at amortised cost

Financial assets at amortised cost are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets, impairment losses, foreign exchange gains and losses, and gain or loss arising on derecognition are recognised directly in the statement of profit or loss and other comprehensive income.

- Financial assets at fair value through other comprehensive income (FVTOCI)

Financial assets at fair value through other comprehensive income are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

- Financial assets at fair value through profit or loss (FVTPL)

Financial assets at fair value through profit or loss are those financial assets which are either designated in this category or not classified in any of the other categories. A gain or loss on debt investment that is subsequently measured at fair value through profit or loss is recognised in the statement of profit or loss and other comprehensive income in the period in which it arises.

The classification depend on entity's business model and contractual terms of the cash flows.

Recognition and Derecognition

For assets measured at fair value, gains and losses will either be recorded in profit or loss or OCI. For investments in equity instruments that are not held for trading, this will depend on the irrevocable option made by the Company at initial recognition to account for equity instruments at FVTOCI.

All purchases and sales of securities that require delivery within the time frame established by regulation or market conventions are recognised at trade receivables, which is the date, company counts the purchase or sell.

Financial assets are derognised when rights to receive contractual cashflows have expired or have been transferred and company has transferred substantially all risks and rewards of ownership.

Measurement

At initial recognition, the Company measures a financial asset at its fair value plus in case of an asset not at FVTPL, transaction costs that are directly attributable to the acquisition of a financial asset. Transaction cost on FVTPL financial asset are expensed in the statement of profit or loss and other comprehensive income.

Subsequent measurement

Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company's classifies its debt instruments:

Amortised cost:

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other gains / (losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss and other comprehensive income.

FVTOCI:

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains / (losses). Interest income from these financial assets is included in finance income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains / (losses) and impairment expenses are presented as separate line item in the statement of profit or loss and other comprehensive income.

FVTPL:

Assets that do not meet the criteria for amortised cost or FVTOCI are measured at FVTPL. A gain or loss on a debt investment that is subsequently measured at FVTPL is recognised in the statement of profit or loss and other comprehensive income and presented net within other gains/(losses) in the period in which it arises.

Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in other gains / (losses) in the statement of profit or loss as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

Other financial assets measured at amortised cost

These assets are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest / markup income, foreign exchange gains and losses and impairment are recognised in the statement of profit or loss and other comprehensive income.

Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with a financial asset measured at amortised cost or a debt instrument measured at FVTOCI. The impairment methodology applied depends on whether there has been significant increase in credit risk. For trade receivables, the Company applies simplified approach which requires expected lifetime losses to be recognised from initial recognition of trade receivables. The Company recognises in profit or loss the amount of expected losses (or reversed) that is required to adjust the loss allowances at the reporting date.

The Gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering of a financial asset in its entirety or a portion thereof. The Company individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Company expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

Impairment of non-financial assets

The carrying amount of the Company's non-financial assets are reviewed at each reporting date to determine whether there is an objective evidence that an asset or group of assets may be impaired. If any such evidence exists, the asset's or group of assets' recoverable amount is estimated. An impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Recoverable amount is the higher of value in use and fair value less cost to sell. Impairment losses are recognized in the statement of profit or loss.

4.17 Financial liabilities

Financial liabilities are classified as measured at amortized cost or 'at fair value through profit or loss' (FVTPL). A financial liability is classified as at FVTPL if it is classified as held for trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in the statement of profit or loss and other comprehensive income.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in the statement of profit or loss and other comprehensive income. Any gain or loss on de-recognition is also recognized in the statement of profit or loss and other comprehensive income.

Financial liabilities are derecognised when obligation under the liability is discharged, cancelled or expired.

4.18 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is legally enforceable right to set-off the recognised amounts and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously.

4.19 Dividend and other appropriations

The dividend is recognised as liability in the year in which it is approved. Appropriations of profit are reflected in the statement of changes in equity in the year in which such appropriations are made.

4.20 Share Capital

Share capital Ordinary shares are classified as equity and recognised at their face value. Discount on issue of shares is separately reported in statement of changes in equity. Transaction costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

4.21 Segment Reporting

Segment information is presented on the same basis as that used for internal reporting purposes by the Chief Operating Decision Maker (CODM). The Company considers Chief Executive as its CODM who is responsible for allocating resources and assessing performance of the operating segments. On the basis of its internal reporting structure, the Company considers itself to be a single reportable segment; however, certain information about the Company's products, as required by the approved accounting standards, is presented in note 35 to these financial statements.

11.1 This includes an amount of Rs. 31 million, paid as advance for import of raw material to Centurion Tetra SL (Supplier) through Letter of Credit (LC). The supplier has forfeited the amount of advance and did not supply raw material due to delay in providing advance as per the terms of the contract. Company filed a case in International Court of Arbitration (ICA) due to cross border trade for refund of the said Rs. 31 million. The supplier has claimed an amount of \$ 346,000 in lieu of loss incurred due to revocation of contract by the Company. Subsequent to the year end, the Company has won the case and the recovery proceedings are being initiated. The management in consultation with its legal advisor is of the view that the amount will be recovered.

12.1 An application was filed in the National Tariff Commission of Pakistan (NTC), by Cold Rolled Coils (CRC) manufacturers in Pakistan, to impose anti-dumping duty on import of CRC from selected countries, which happened to be the raw material of the Company . The NTC imposed an anti-dumping duty at the rate of 19.5% on such imports from selected countries. The Company challenged the decision of the Commission in the Appellate Tribunal of the Commission (Tribunal) as well as in the High Court of Sindh. The court had granted stay order against decision of the Commission and directed the Company to issue 100% cash margin guarantee for the anti-dumping duty. Subsequent to the year end, the High Court of Sindh has passed an order and directed the Company to deposit 50% of the amount of duty till such time final decision of the court is made. Considering this recent development and on a prudent basis the company has recognised 50% of the provision in respect of accumulated amount of import duty. The Tribunal later on, has upheld the imposition of Anti-dumping Duty. The Company than challenged the decision of the Tribunal in the Islamabad High Court.

12.2 These includes margin against bank guarantees issued in favour of excise and taxation department for infrastructure cess and antidumping duty.

14.1 This amount relates to an advance paid to a foreign supplier against which the Company has filed a suit in a Court in Malaysia. In 2013, the Court passed a decree in favour of the Company. However, based on assessment of irrecoverability of the amount, the Company has made full provision against this amount.

14.2 An amount of Rs.75.6 million was given by the Company as advance for purchase of land to National Industrial Park (NIP). Due to delay in handing over the land to the Company, the agreement was cancelled and as per terms of the contract, 10% amount of the total amount was forfeited by NIP amounting to Rs. 7.56 million. Management is of view that it was due to fault of NIP therefore forfeit amount should be refunded to the entity underwhich negotiations are in process. However, a provision for this amount has been recorded.

19.2 This represents provision for Sindh Development and Infrastructure Fee and Duty which was levied by the Excise and Tax Department on goods entering or leaving the province through air or sea at prescribed rate under Sindh Finance Ordinance, 2001. The levy was initially challenged by the Company along with other companies in the High Court of Sindh after which several proceedings were held. Through the interim order passed on May 31, 2011 the High Court of Sindh has ordered that for every consignment cleared after December 28, 2006, 50% of the value of infrastructure fee should be paid in cash and a bank guarantee for the remaining amount should be submitted until the final order is passed. The management is confident for a favourable outcome however, as a matter of prudence Company has paid 50% of the value of infrastructure fee in cash and recorded liability for the remaining amount which is supported by a bank guarantee.

Contingencies

22.1 Tax assessments of the Company has been amended for the tax years 2003, 2005, 2006 and 2008 under Section 122 of the Ordinance by the tax department. The Company contested the levy of tax by department on the ground that the Company was enjoying exemption under Clause 126 of Part I of Second Schedule to the Ordinance as levy of minimum tax is not applicable on the Company. Appeals are pending before Sindh High Court, Income Tax Appellate Tribunal (ITAT) and CIT (Appeals) respectively. The Company is confident that outcome will be in its favour. However, as a matter of prudence, tax provision of Rs. 7,791,094, Rs. 17,654,223, Rs. 15,710,252 and Rs. 18,472,182 for the respective tax years has been made in the financial statements under Section 113 of the Ordinance.

34.2 Financial risk management

The Board of Directors has overall responsibility for the establishment and oversight of the Company's financial risk management. The responsibility includes developing and monitoring the Company's risk management policies. To assist the Board in discharging its oversight responsibility, management has been made responsible for identifying, monitoring and managing the Company's financial risk exposures. The Company's exposure to the risks associated with the financial instruments and the risk management policies and procedures are summarised as follows:

34.2.1 Credit risk and concentration of credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. The Company does not have any significant exposure to customers from any single country or single customer.

Credit risk of the Company arises principally from trade debts, trade deposits, term deposit certificates and bank balances. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date is as follows:

	2019 Rupees	2018 Rupees
Trade debts	614,193,549	523,859,123
Loans and advances	654,260	843,960
Trade deposits	42,331,427	30,575,370
Other receivables	-	4,110,181
Bank balances	26,689,128	22,048,071
Term deposit certificates	620,650,000	20,650,000
Other financial assets	287,822	405,877
	<u>1,304,806,186</u>	<u>602,492,582</u>

Trade debts are due from local and foreign customers for sales. Management assesses the credit quality of local customers, taking into account their financial position, past experience and other factors. As at the reporting date, there are past due trade debt balances which in management view are recoverable as disclosed in the notes. For bank balances and significant trade deposits, financial institutions with strong credit ratings are accepted, credit risk on bank balances and term deposit certificates are limited as these are placed with banks having good credit ratings.

34.2.2 Credit risk related to receivables

Customers' credit risk is managed subject to the Company's established policy, procedures and control relating to customer credit risk management. The management monitors and limits the Company's exposure of credit risk by limiting transactions with specific counter parties and continually assessing their credit worthiness. Outstanding customer receivables are regularly monitored and any shipments to major export customers are generally covered by letters of credit.

In determining the recoverability of a trade debts, the Company considers any change in the credit quality of the trade debt from the date credit was initially granted up to the reporting date. The customer base is large and unrelated and does not have credit risk concentration.

The average age of receivables is 61 days (2018: 72 days).

The Company is not exposed to major concentration on credit risk. At June 30, 2019, the Company has approximately customers 17 (2018: 18 customers) that owed more than Rs. 10 million each and accounted for approximately 74% (2018: 65%) of all trade debts.

The Company does not hold collateral as security.

34.2.3 Credit risk related to financial instruments and cash deposits

The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings i.e. A1 + to A1 in short term and AAA to A for long term.

34.3 Liquidity risk management

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or would have difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The Company manages liquidity risk by maintaining sufficient cash and bank balances and availability of financing through banking arrangements, which includes short-term borrowings. The following are the contractual maturities of financial liabilities, including interest payments, excluding the impact of netting agreements.

Financial liabilities in accordance with their contractual maturities are presented below:

34.4 Market risk management

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of currency risk, interest rate risk, and other price risk.

34.4.1 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company is exposed to equity price risks arising from equity investments. Equity investment are held for trading purpose. At the year end Company's equity investment balance is of insignificant amount.

Yield / Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate risk arises from long and short term borrowings from financial institutions. At the reporting date the interest rate risk profile of the Company's interest-bearing financial instruments is:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate risk arises from long and short term borrowings from financial institutions. At the reporting date the interest rate risk profile of the Company's interest-bearing financial instruments is:

	2019 Rupees	2018 Rupees
Variable rate instruments		
Financial assets		
- Term deposit certificates	620,650,000	20,650,000
Financial liabilities		
- KIBOR / SBP base rate	1,383,740,332	1,325,142,557

Sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the reporting date would not affect statement of profit or loss account.

Sensitivity analysis for variable rate instruments - Financial Liabilities

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the Company's profit before taxation for the year ended would increase / decrease by Rs. 6,918,702 (2018: Rs. 6,625,713). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Sensitivity analysis for variable rate instruments - Financial Assets

If interest rates had been 50 basis points higher or lower and all other variables were held constant, the Company's profit before taxation for the year ended would increase / decrease by Rs. 3,103,250 (2018: Rs. 103,250). This is mainly attributable to the Company's exposure to interest rates on its variable rate borrowings.

Currency risk

Foreign currency risk arises mainly where receivables and payables exist due to transactions with foreign undertakings. As at June 30, 2019, Rs. 83,716,395 (2018: 55,289,760) were receivable in respect of foreign debtors.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term balances.

	2019	2018	2019	2018
	USD		PKR	
Trade debts	83,716,395	55,289,760	530,477,154	468,569,363
Foreign currency bank balances	1,228,360	920,809	25,460,768	21,127,262

The following significant exchange rates applied during the year:

	Average rates		Reporting date rates	
	2019	2018	2019	2018
US Dollars to PKR	136.40	109.91	163.50 / 163.00	121.60 / 121.40

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Foreign currency sensitivity analysis

At June 30, 2019, if the Rupee had strengthened / weakened by 5% against the US dollar with all other variables held constant, profit before taxation (2018: loss before taxation) for the year would have been decrease/increase by Rs. 18,849,713 (2018: Rs. 18,849,713). This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis as in previous year.

35. FAIR VALUE OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The carrying value of all the financial instruments reported in the financial statements approximates their fair value as the items are short term in nature.

Fair value hierarchy

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

As at June 30, 2019, the Company has no financial instruments that falls into any of the above category.

There were no transfers between Level 1 and 2 in the year.

Other financial assets are classified as fair value through profit or loss and are classified as level 1 securities.

36. OPERATING SEGMENTS

Chief Executive considers the business as a single operating segment as the Company's assets allocation decisions are based on a single, integrated business strategy, and the Company's performance is evaluated on an overall basis.

Out of total sales of the Company 96.29% (2018: 96.92%) relates to customers in Pakistan.

All non-current assets of the Company as at June 30, 2019 are located in Pakistan.

37. PROVIDENT FUND RELATED DISCLOSURE

The investments out of provident fund have been made in accordance with the provisions of section 218 of Companies Act, 2017 and the rules formulated for the purpose.

38. CAPITAL RISK MANAGEMENT

The Company's objectives, policies and processes for managing capital are as follows:

- The Company is not subject to any externally imposed capital requirements.
- The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.
- Consistently with others in the industry, the Company monitors capital on the basis of the debt-to-adjusted capital ratio. This ratio is calculated as net debt divided by adjusted capital. Net debt is calculated as total debt (as shown in the balance sheet) less cash and bank balances. Adjusted capital comprises of net debts and all components of equity (i.e. share capital and unappropriated profit).
- The Company's strategy is to maintain its debt-to-adjusted capital ratio between 50% to 60%. The debt-to-adjusted capital ratios at June 30, 2019 and June 30, 2018 were as follows:

	2019 Rupees	2018 Rupees
Total debts	1,383,740,332	1,325,142,557
