Overview:

The period under review has also been proved difficult. Challenges like severe energy crises coupled with on-going financial barriers have obstructed the optimum utilization of production capacities. Inaccessibility to the working capital facilities caused underutilization of production capacities, due to which the Company could not efficiently procure essential raw materials on time. This hindered the Company's plan to run the mills according to the installed capacities and resultantly could not achieve the desired production targets which further affected sales turnover as well as profitability. In spite of the ongoing adverse eventualities, the Management has attempted to use maximum probabilities to keep the Mills operational.

The Management is conscious of the issues that are affecting our operations and are committed to plans to turn Company into profitable entity by taking serious decisions for better financial position, strengthening our operations through proficient acumen, improving manufacturing processes and offering better service to our customers.

Future Outlook:

We have been conscious of the issues that are affecting our production and are committed to turn the Company into a profitable organization by implementing the restructuring process for better financial position, strengthening our operations through proficient acumen, improving manufacturing processes and offering better service to our customers. In spite of continued load shedding, the management is trying to implement its best efforts to ensure regain its growth, operational efficiency and optimum results for the Company and its valued stakeholders. This impediment is expected to be over in near future as the restructuring process is expected to be completed soon once the ongoing reconciliation & restructuring process is completed, we would be in better position to embark upon timely better priced procurement of the required raw materials. To increase profitability and improve performance, wide ranging and significant measures are being implemented by the Company focusing on cost reduction and increase in margins.

We appreciate the efforts and with thanks place on record the continued support extended to us by our customers, suppliers and bankers. The valuable services rendered by our team of employees are gratefully acknowledged.
