#### Economic Review

Emerging economic tailwinds instigated by a broad-based shift towards an accommodative monetary policy stance, subsiding US-China trade tensions and finalization of the Brexit deal indicated recovery in global activity in 2020. However, the outbreak of coronavirus (COVID-19) pandemic has adversely affected the global economy. According to International Monetary Fund, global growth is projected to contract by 3 percent in 2020 with repercussions far worse than the global financial crisis during 2008-09.

Lockdowns in all parts of the world have led towards significant economic and social disruptions; impacting supply and value chains and consequently weakening consumer demand. Sectors involving physical interactions including retail trade, automobiles, tourism, aviation, maritime, transportation, construction, real estate, financial services, education, and oil have been severely impacted by the confinement measures. Global containment efforts along with monetary stimulus are directed to reduce systemic stress, support confidence and contain the amplification of the shock.

On the domestic front in Pakistan, emergence of COVID-19 pandemic has dampened the country's economic growth horizon, unfolding realization of downside risks posed by a hampered consumer demand amidst temporary business shutdowns and delayed harvest of crops to control the pandemic. State Bank of Pakistan (SBP) has projected the county's economic growth to contract by 1.5 percent for FY 2019-20, despite witnessing strength in economic fundamentals during the first eight months of FY 2019-20.

Decisive policy actions and stabilization measures undertaken to combat trade imbalances have yielded positive results to date. The current account deficit contracted by 71% to US\$ 2.76 billion during the first eight months of FY 2019-20 as compared to US\$ 9.46 billion in the corresponding period of FY 2018-19; the improvement driven primarily by 16% contraction in imports and a modest growth of 1% and 6% in exports and workers remittances respectively.

However, during the month of March, reinvigorated hopes of revival in country's exports witnessed a setback as the adverse impacts of global trade contraction spilled over. Uptrend in exports, hence witnessed a slowdown and closed the month with a decline of 7.6% compared to the preceding month despite transition towards a flexible market-oriented exchange rate, availability of low-cost funding for export-oriented sectors under SBP's refinancing facilities and an improving "ease of doing" business metric.

During the third quarter of FY 2019-20 foreign portfolio investment has witnessed a trend reversal, with outflows crossing US\$ 2 billion in March 2020.

The aforementioned divestment also led towards increased market volatility and depreciation in the domestic foreign exchange market; PKR falling by more than 8% against the US\$ in March to close the quarter at a parity of Rs. 166.40 per US\$. Notwithstanding the recent market volatility, a narrowing current account deficit extended much needed support to the improving SBP's foreign exchange (FX) reserves which closed the quarter at a healthy level of US\$ 17.387 billion.

In view of the prevailing uncertainty, investor sentiments remained bearish as the KSE-100 index closed end March at 29,232 points against 40,735 points as at end December 2019 witnessing a cumulative decline of 28%.

Money supply (M2) witnessed a growth of 3% during the quarter ended March 2020, mainly driven by a 6% increase in currency in circulation which stood at Rs. 5,622 billion at end March 2020. The industry deposits registered a growth of 3.4% during the quarter ended March 2020 to close at Rs. 15,069 billion.

Consumer Price Index for the month of March 2020 clocked in at 10.2% on a year on year (YoY) basis, depicting a significant dip of 2.2% from the preceding month of February 2020; the decline attributable primarily to a downward trajectory witnessed in non-perishable food item prices amidst realization of administrative actions taken by the Government of Pakistan (GoP), leeway provided by a 4.4% MoM decline in transportation index on the back of sharp fall in global oil prices and slowdown in external and domestic debt due to the ongoing COVID-19 pandemic.

The evolving macroeconomic scenario amidst the ongoing COVID-19 outbreak has primarily laid the foundation for prompting the monetary easing process; the State Bank of Pakistan hence reducing the policy rate by a cumulative 425 bps to bring the policy rate down to 9%.

#### Financial Review

Amidst heightened customer expectations, emerging competition from FinTech's and operational disruptions as a result of the ongoing COVID-19 outbreak are setting the stage for radically reshaping the global banking landscape.

Advancements in e-banking technology are enabling businesses and individuals to remotely access key banking services, thus shifting the horizon from traditional banking towards increased familiarity and adoption of improved and advanced e-banking avenues. Therefore, the banks' ability to manifest opportunities by leveraging technological progressions, insights and intelligent analytics shall eventually determine their ability to foster future growth and improve global competitiveness.

Pakistan's banking sector is also navigating through an enigmatic economic and operating scenario which encompasses multi-faceted challenges emanating from changing business models, increasing regulatory compliance requirements, disruptive technological advancements, looming cyber security threats and rising risk of asset quality deterioration amidst low business generation and private sector credit demand due to the ongoing COVID-19 outbreak.

Under the current challenging circumstances, Your Bank, while remaining fully cognizant of the high downside risks to the economic and operating outlook, given the uncertainty about the duration, magnitude and persistence of measures to contain the outbreak, has invoked its business continuity policy. Banking being an essential service to the nation remained the prime focus of Your Bank under these testing times. The main thrust remained on offering free of cost services to the nation through all digital banking channels in addition to the physical branch network.

COVID-19 pandemic related precautionary directives, announced by the Government of Pakistan in the last ten days of March 2020, have disrupted social and economic activity throughout the country. The quarter under review, however, largely witnessed business as usual. As a result positive volumetric growth in average earning assets, improving spreads within an upward rising yield curve that led to 308bps increase in the average policy rate, effective management of repricing gaps, availing interbank lending opportunities and sizeable growth achieved in low cost and no cost deposits has enabled Your Bank's to increase net interest income by 21%, which aggregated to reach Rs. 11,616 million compared to Rs. 9,585 million posted in the corresponding period of 2019.

Improved branch banking services in a highly competitive operating environment along with diversification of revenue streams through continuous enrichment of the service suite, strategic business arrangements with leading technology platforms including an agreement entered into with the National Institutional Facilitation Technologies (NIFT), during the quarter, for enabling transaction of payments through NIFT's digital financial services platform under the brand name "NIFT ePay" to allow customers to conduct e-commerce transactions directly through their accounts (CASA) or wallets and rising customer confidence amidst concrete steps undertaken to circumvent emerging cyber security and data governance threats has enabled Your Bank to post a double digit growth of 11% in fee income which thereby reached Rs. 1,543 million.

Continued active participation as a Primary Dealer (PD) along-with prudent disposal of Pakistan Investment Bonds amidst the evolving yield curve expectations and staggered derecognition of equity portfolio within an uncertain macro-economic scenario, while observing a 12% reduction in dividend income, has resulted in capital gains of Rs. 1,101 million realized during the quarter. Correspondingly, non-markup income stood at Rs. 2,850 million as against Rs. 2,537 million in the corresponding period of 2019; reflecting a growth of 12%.

Digitization space in Pakistan is transforming rapidly towards more convenient and flexible ways of Banking. Your Bank while maintaining its resolve in contributing towards SBP's Financial Inclusion agenda, stayed conscious of the evolving operating scenario and emerging technological developments, hence resorting more focus on e-banking and digital channels; ATM network thereby expanded to 1,549 ATMs consisting of 1,201 on-site, 345 off-site and 3 Mobile Banking Units (MBU) offering banking services of cash collection and cash payment while also operating as an ATM on wheels. Branch outreach, which expanded to 1,395 branches as at December 2019, is undergoing optimization and closed at 1,388 in March 2020; including 1,271 conventional and 117 Islamic Banking Branches.

Continued spending towards technological uplift for the "Digital Age", investment in human resource, regulatory compliance costs amidst FATF related rising KYC and AML/CFT requirements and cybersecurity measures have predominantly escalated the operating cost. As a result, operating expenses increased 19% during the quarter.

Existing systematic risks amidst the ensuing economic slowdown were further compounded by the unfolding implications of COVID-19 outbreak; increasing market uncertainty outlineated into a lack luster performance by the Pakistan Stock Exchange (PSX) and the Bank prudently recognized a net charge of Ps. 579 million for diminution in value of investments.

Your Bank's Profit Before Tax increased to Rs. 6,581 million for the quarter ended March 2020, compared to Rs. 6,250 million in corresponding period of 2019; registering growth of 5%.

Profit after tax stood at Rs. 4,018 million as against Rs. 2,985 million achieved in the corresponding period thereby depicting a growth rate of 35%. Consequently, EPS of Your Bank stood at Rs. 3.51 per share against an EPS of Rs.2.61 per share in the corresponding period.

In line with the stagnancy witnessed in overall industry advances, gross advances portfolio closed at Rs. 476,758 million. Persistent focus on maintaining a robust risk management framework, enabled Your Bank to further reduce its Non-Performing Loan portfolio to Rs. 15,841 million at end March 2020 from Rs. 15,854 million as at December 2019.

Infection and coverage ratio of Your Bank at end March 2020 stood at 3.3% and 96.2% respectively; significantly outperforming the December 2019 industry infection and coverage ratio of 8.1% and 84.7% respectively. No FSV benefit was availed while determining the provision against Non-Performing advances, allowed under guidelines of the State Bank of Pakistan.

Total deposits of Your Bank stood at Rs. 1,041,881 million at end March 2020; depicting a 7% market share of the total industry deposits.

Proactively monitoring investment portfolio in the backdrop of enhanced market volatility and changing interest rates scenario, duration was optimized and overall portfolio reduced to close the quarter at Rs. 673,808 million; Accordingly, the totals assets of Your Bank closed at Rs. 1,362,830 million while the Bank's equity base closed at Rs.113,298 million.

Capital Adequacy Ratio of the Bank stood at 23% against the statutory requirement of 11.5% which is indicative of a strong capital positioning of Your Bank.

#### Future Outlook

The economic adversities emanating from the ongoing COVID-19 outbreak continue to mount across the globe as countries grapple with the emerging pandemic situation; tracking sharp rise in new infections and enforcing containment measures to flatten the rising curve.

Amidst the ensuing uncertainty, it remains of paramount importance for the Government of Pakistan to try and assess the possible economic scenarios given the country's pre-existing conditions of limited fiscal space, declining economic activity, exogenous pressures and constrained resources while concurrently undertaking measures to promptly respond to the unfolding developments.

# **Director's Review**

While the fall in global oil prices and a weaker import demand due to COVID-19 outbreak manifests into a positive impact on the current account balance; the country's Balance of Payment dynamics remain strained as the recently gained traction in export growth is hampered due to a waning external demand, remittances decline due to deteriorating economic indicators in Gulf Cooperation Council countries and external financing needs emerge amidst rising fiscal imbalances and foreign capital outflows.

Amidst the evolving macroeconomic scenario, realization of US\$ 1.4 billion fund credit under IMF's Rapid Financing Instrument (RFI) and materialization of envisaged IMF debt rescheduling and financial support committed by multilateral partners shall assist in fulfilling the potential financing gap while also extending imperative support to SBP's FX reserves and a deteriorating US\$/PKR parity.

The downwards trajectory witnessed in inflationary pressures, as aforementioned, is expected to persist with projections for the current fiscal year being downgraded to the lower end of the earlier envisaged range of 11%-12% and expected to fall further in the next fiscal year, notwithstanding any unforeseen shocks to headline inflation due to supply side disruptions and rupee depreciation; hence remaining in line with SBP's medium term objective of bringing inflation to within a range of 5%-7%.

The recently announced financial stimulus package of Rs 1,200 billion, by the Government of Pakistan, entailing steep cut in domestic fuel prices, stipend for daily wage earners, expansion in scope of cash assistance under Ehsas program, immediate release of export refunds by Federal Board of Revenue, deferment of utility bill payments and additional allocation for the utility stores corporation shall cushion the impact of COVID-19 outbreak on the most vulnerable social segments while also extending much needed support to the affected businesses.

The SBP while reducing the policy rate by a cumulative 425 bps has also swiftly undertaken measures to support liquidity and credit conditions and to safeguard financial stability by facilitating access to financial services, improving credit flows to borrowers, easing loan repayments, expanding refinancing facilities to stimulate investment in the manufacturing sector, assist hospitals and medical centers in purchase of COVID-19 testing and treating equipment and support payment of worker's wages to incentitize businesses against workforce layoffs and simplifying procedures for exporters and importers including withdrawal of advance payment limits on COVID-19 related imports, extension in export performance periods for Long Term Financing Facility and extension in realization of export proceeds and arrival of goods under advance payments.

In these testing times, Your Bank continues to play its positive role as a responsible corporate citizen by contributing towards supporting vulnerable social segments, through charitable donations and provision of necessary medical supplies, disseminating awareness on controlling measures for combating the spread of COVID-19 pandemic, promoting the use of digital channels for fulfilling banking needs, while striving to deliver uninterrupted banking services. Resultantly Your Bank successfully ensured payment of Rs. 20 billion worth of salary and pension funds during the first 10 days of lockdown.

Your Bank would continue to provide utmost facilitation to the deserving obligors under various SBP financial relief schemes and keep a close watch on advances portfolio to mitigate the credit risk. The year 2020 would be a challenging year for the banking industry in terms of contraction in growth and earnings. The Bank's strategy to further enhancing digital banking services would continue while remaining cautious to optimize operating efficiency according to the unusual circumstances.

23.3.2 The income tax assessments of the Bank are finalized upto and including tax year 2019 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2019, income tax authorities made certain add backs with aggregate tax impact of Rs.25,455 million (December 31, 2019: 25,455 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals and references before higher forums against unfavorable decisions. Pending finalization of appeals and references no provision is made by the Bank on aggregate sum of Rs. 25,455 million (December 31, 2019: 25,455 million). The management is confident that the outcome of these appeals and references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2018 and created an arbitrary demand of Rs. 1,700 million (December 31, 2019: 1,700 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision is made against the said demand of Rs. 1,700 million (December 31, 2019: 1,700 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 thereby creating arbitrary aggregate demand of Rs. 963 million (December 31, 2019: 963 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 963 million (December 31, 2019: 963 million).

23.3.3 As a result of default by Fateh Textile Mills in complying with the terms of compromise decree passed in August 2002 by the Honourable High Court of Sindh, 16,376,106 shares of ABL were sold in accordance with section 19 (3) of the Financial Institutions (Recovery of Finances) Ordinance, 2001, after complying with the due and complete transparent process. Sealed bids were invited from interested parties. The bidding process was scheduled for July 23, 2004 and Rs. 25 per share was fixed reserve price. On the bid date, the highest offer for these shares was received at a rate of Rs. 25.51 per share. The bid was approved and the successful bidder had deposited an amount of Rs. 417.75 million with the Bank.

Fateh Textile Mills Limited filed suit in the High Court of Sindh challenging the above sale of shares. The High Court had not granted a stay order against the said sale. The sale of shares was, therefore; concluded.

23.3.4 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs. 2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank had filed appeals before the Appellate Board and Constitutional Petitions (CP) in the High Court of Sindh, Karachi. The Honorable High Court granted relief to the Bank by way of interim orders. Meanwhile, alongwith other banks, Bank filed a further CP whereby vires of section 23C of the FE Regulations Act, 1947 was sought to be declared ultra vires. On November 8, 2018, the Honorable court was pleased to order that the Appellate Board shall not finally

decide the appeals. Subsequently, the earlier CPs were disposed of vide order dated January 15, 2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department was restrained from taking any coercive action against the Bank. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision is made against the impugned penalty.

23.3.2 The income tax assessments of the Group have been finalized up to and including tax year 2019 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments up to tax year 2018, income tax authorities made certain add backs with aggregate tax impact of Rs.25,467 million (December 31, 2018: Rs.24,344 million). As a result of appeals filed by the Group before appellate authorities, most of the add backs have been deleted. However, the Group and Tax Department are in appeals / references before higher forums against unfavorable decisions. Pending finalization of appeals / references no provision has been made by the Group on aggregate sum of Rs.25,467 million (December 31, 2018: Rs.24,344 million). The management is confident that the outcome of these appeals / references will be in favor of the Group.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2018 and created an arbitrary demand of Rs.1,720 million (December 31, 2018: Rs.1,556 million). The Group's appeals before CIR(A)/ Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Group; therefore, no provision has been made against the said demand of Rs.1,720 million (December 31, 2018: Rs.1,556 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 thereby creating arbitrary aggregate demand of Rs.963 million (December 31, 2018: Rs.900 million). The Group's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs.963 million (December 31, 2018: Rs.900 million).

23.3.3 As a result of default by Fateh Textile Mills in complying with the terms of compromise decree passed in August 2002 by the Honourable High Court of Sindh, 16,376,106 shares of ABL were sold in accordance with section 19 (3) of the Financial Institutions (Recovery of Finances) Ordinance, 2001, after complying with the due and complete transparent process. Sealed bids were invited from interested parties. The bidding process was scheduled for July 23, 2004 and Rs. 25 per share was fixed reserve price. On the bid date, the highest offer for these shares was received at a rate of Rs. 25.51 per share. The bid was approved and the successful bidder had deposited an amount of Rs. 417.75 million with the Bank.

Fateh Textile Mills Limited filed suit in the High Court of Sindh challenging the above sale of shares. The High Court had not granted a stay order against the said sale. The sale of shares was, therefore; concluded.

On November 8, 2018, the Honorable court was pleased to order that the Appellate Board shall not finally decide the appeals. Subsequently, the earlier CPs were disposed of vide order dated January 15, 2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department was restrained from taking any coercive action against the Bank.
