DIRECTORS' REVIEW

On behalf of the Board of Directors of Habib Metropolitan Bank, I am pleased to present the un-audited accounts for the quarter ended 31st March, 2020.

The quarter under review saw Corona virus become a widespread epidemic and then a pandemic. COVID-19 is a global challenge that has severely impacted economic activity across the world, causing the IMF to significantly downgrade its global growth outlook for 2020 from 3.3 percent to below zero. There has been a sharp reduction in international trade, with physical borders, transportation and travel either operating with extreme restrictions or undergoing temporary bans. Global oil prices also plummeted, contributing towards an improvement in current account and inflation, locally.

Pakistan's fiscal consolidation was on-track with tax revenues exhibiting healthy increase of 17.1 percent year-on-year during Jul-Feb FY20. Going forward, revenue targets could be missed due to slowdown in economic activity and increased expenditures in health/social sectors for combatting the impact of the COVID-19 pandemic.

Real GDP growth for FY20, which was previously forecasted at around 2.4 percent, is likely to undergo a downward revision due to a significant slowdown in domestic demand and weakened demand for major exports, which could be further exacerbated by a negative impact on remittances and investor confidence. Regardless of this, the current account is expected to mildly improve due to low oil prices.

The current account deficit contracted to USD 2.77 billion during July-March FY20 (at 1.3 percent GDP versus 4.7 percent in the previous year), driven primarily by a reduction in imports, and facilitated by a modest growth in exports and remittances. This contributed to the State Bank of Pakistan (SBP) maintaining strong growth in FX reserves, which increased to USD 11.18 billion at the end of March 2020 from USD 7.28 billion at the end of June 2019.

Weak economic activity was reflected in private sector credit growth of 3.6 percent during the period of July 2019 to first week of March 2020, which was less than half of the growth experienced in the corresponding period of the previous year.

CPI Inflation which had surged to 14.6 percent year-on-year in January 2020, decelerated to 12.4 percent in February 2020. Average CPI marked at 11.5 percent during July-March FY20 compared to 6.7 percent in the corresponding period in the previous year. Inflation in March 2020 marked at 10.2 percent. Inflationary pressures are likely to subside in light of the COVID-19.

It is pertinent to note that COVID-19 has started to impact the economy in the month of March 2020. This negative impact is likely to continue in the coming quarters till the situation normalizes.

To mitigate the financial impact of decreased economic activity, depletion in borrowing/repayment capacity and liquidity contraction in economy, the SBP has introduced various measures including:

- Re-finance scheme for payment of wages/salaries to workers/employees of businesses.
- · Relaxed credit, payment and FX regulations for exporters and importers.

- Re-scheduling/re-structuring of credit and deferment of payment for businesses (applicable SBP concessional financing schemes as well).
- Temporary Economic Re-Financing Facility (TERF) for businesses lending at a fixed 7 percent for new projects.
- Re-finance/concessional facility and relaxation for hospitals catering to COVID-19.

In addition to this, the SBP reduced the policy rate by 75 bps to 12.50 percent on 17th March 2020. This was further reduced by another 150 basis points to 11 percent on 24th March 2020.

By the Grace of Allah, HabibMetro continues to maintain its performance. The Bank's investments and advances grew to Rs. 452,115 million and Rs. 279,802 million, respectively as at 31st March 2020, while deposits amounted to Rs. 578,560 million are in line with the strategy to reduce cost of funds. The Bank's current deposits, however, increased by 22 percent year-on-year to Rs. 194,469 million. The Bank posted a profit-after-tax of Rs. 1,527 million for the first quarter ended 31st March 2020, compared to Rs. 1,466 million for the first quarter of 2019 - an increase of 4.13 percent, which translates into earnings per share of Rs. 1.46. The Bank's Net Equity stands at Rs. 49,999 million with a strong capital adequacy level of 16.07 percent.

The Bank maintained AA+ (Double A Plus) ratings for long term and A1+ (A one plus) ratings for short term by the Pakistan Credit Rating Agency Limited (PACRA) for the eighteenth consecutive year. These ratings denote a high credit quality, with a low expectation of credit risk, and a strong capacity for timely payment of financial commitments.

With a network of 398 branches in 134 cities across Pakistan, including 31 Islamic banking branches, and 224 Islamic banking windows, HabibMetro provides a comprehensive spectrum of banking services and products. These include specialized trade finance products and an array of digital products and services including secured SMS, Internet and Mobile Banking services, globally accepted Visa Cards and nationwide network of ATMs.

In conclusion, I would like to place on record our sincere gratitude to the Ministry of Finance, the State Bank of Pakistan, and the Securities and Exchange Commission of Pakistan for their continued support and guidance to the Bank. I would also like to thank our valued customers for the trust and patronage that they continue to extend to us. Lastly, I would like to acknowledge the unwavering dedication of the staff of HabibMetro Bank, who continue to work tirelessly to provide uninterrupted financial services in these uncertain times. Their efforts enable the Bank to grow from strength to strength.

میں نہایت مسرت کے ساتھ صبیب میٹر و پولیٹن بینک کے یورڈ آف ڈائر کیٹرز کی جانب سے 31 مارچ 2020 کوختم ہونے والی پہلی سہ ماہی کیلیخ غیرآ ڈٹ شدہ اکا وَنکش پیش کر رہا ہوں۔

زیرِ جائزہ مدت کے دوران کورونا وائرس نے وسیح پیانے پرایک وہائی صورت اختیار کی اور پوری ونیا کو لیٹ میں لےلیا۔ 19-COVID-19 ایک عالمی چینج ہے جس کے دنیا بحر میں اقتصادی سرگرمیوں پر انتہائی مطراثر ات مرتب ہوئے اور آئی ایم ایف کو 2020 کیلئے عالمی شرح نمو کو 3.3 فیصد ہے کم کر کے صفر ہے بھی نیچے لانا پڑا۔ عالمی تجارت میں نمایاں حد تک کی آئی جس کی وجہ سرحدی حدود بقل وحمل اور آمدور فت میں عارضی یا انتہائی پابندیاں ہیں۔ تیل کے عالمی نرخوں میں بھی نمایاں کی آئی جس ہے کرنٹ اکا ؤنٹ اور افراطِ زر میں مقامی سطح پر بہتری ظاہر ہوئی۔

پاکتان کی مالیاتی کنسالیڈیشنٹریک پرآنے کے ساتھ ٹیکس ریونیو میں بھی صحتندانہ بہتری آ رہی تھی اور مالی سال 2020 میں جولائی۔ فروری کے دوران سال بیسال کے کحاظ سے 77.1 فیصداضافہ ہوا تھا۔ تاہم آ کندہ آنے والے عرصے میں معاثی سرگرمیوں میں سست روی اور COVID-19 کی وہائی صورتحال سے نمٹنے کیلئے صحت/ساجی شعبوں میں بڑھتے ہوئے اخراجات کے باعث آ مدنی کے اہداف حاصل نہیں کئے حاسکیں گے۔

مالیاتی سال 2020 کیلئے حقیقی تی ڈی پی گروتھ، جس کا تخمینہ پہلے 2.4 فیصد کے لگ بھگ لگایا گیاتھا، میں مقامی طلب میں ست روی اور نمایاں برآ مدات کیلئے طلب میں کمی کے باعث کچل سطح پرنظر ثانی کاامکان ہے جس میں ترسیلاتِ زراورسر ماییکاروں کےاعناد میں منفی رجحان کے باعث مزید کمی کا امکان ہے۔ جبکہ تیل کے زخوں میں کمی ہے کرنٹ اکاؤنٹ میں کچھ بہتری کی توقع ہے۔

کرنٹ اکاؤنٹ خسارہ مالیاتی سال 2020 کے ماہ جولائی۔مارچ کے دوران کم ہوکر 2.77 بلین امریکی ڈالررہا (بی ڈی پی کا 1.3 فیصد جو کہ گزشتہ سال 4.7 فیصد تھا) جس میں بنیا دی طور پر درآ مدات میں کی کے ساتھ برآ مدات اور ترسیلاتِ زرمیں معمولی اضافے ہے مدد لی۔اس سے اسٹیٹ بینک آف پاکستان کو غیر ملکی زرمبادلہ کے ذخائر میں مشحکم گروتھ برقر اررکھنے میں مدد لی جو مارچ 2020 کے آخر تک بڑھ کر 11.18 بلین امریکی ڈالرہوگئے۔مذرم الدکے ذخائر مارچ 2019 کے آخر میں 7.28 بلین امریکی ڈالرستے۔

جولائی 2019 سے مارچ 2020 کے پہلے ہفتے کی مدت میں خی شعبے کی کریڈٹ گروتھ میں 3.6 فیصداضا فی ممتر اقتصادی سر گرمیاں ظاہر کرتا ہے جو کہ گزشتہ سال کی اس مدت کی گروتھ کے نصف سے کم ہے۔

سی پی آئی افراطِ زرجوجنوری2020 میں سال برسال کی سطح پر 14.6 فیصد تک بڑھ گئ تھی فروری2020 میں 12.4 فیصد تک گرگئے۔ مالی سال 2020 کے ماہ جولائی۔ مارچ کے دوران اوسطاً سی پی آئی 11.5 فیصد تک رہی جو گزشتہ سال کی اسی مدت کے دوران 6.7 فیصد تھے۔ مارچ 2020 میں افراطِ زرکی شرح 10.20 فیصد ہی۔ COVID کے باعث افراطِ زرکے دباؤمیں کمی متوقع ہے۔

اس امر کو مدنظر رکھنا ہوگا کہ COVID-19 نے مارچ 2020 کے ماہ میں معیشت پر اثرات مرتب کرنا شروع کردیئے تھے بیٹنی اثرات آئندہ سہاہیوں میں بھی مکنۂطور پر برقرار میں گے تھی کہ صورتحال معمول پر آ جائے۔

معاشی سرگرمیوں میں منفی رجحان ، قرضہ جات/ ادائیگی کی استعداد میں کمی اور معیشت میں لیکویڈیٹی میں کمی کے مالیاتی اثرات کے تدارک کیلئے ایس بی بی نے درج ذیل سمیت مختلف اقدامات کئے ہیں:

10.3.3 Consideration of forced sales value (FSV) for the purposes of provisioning against non-performing loans

During the current year, the Bank availed additional forced sale value (FSV) benefit under BSD Circular No. 1 of 21 October 2011. This has resulted in reduction of provision against non-performing loans and advances by Rs. 28,359 thousand (31 December 2019: Rs. 315,348 thousand). Further, as of 31 March 2020, had the benefit of FSVs (including those availed into previous year) not been taken by the Bank, the specific provision against non-performing advances would have been higher by Rs. 1,511,469 thousand (31 December 2019: Rs. 1,598,972 thousand) and accumulated profit would have been lower by Rs. 982,455 thousand (31 December 2019: Rs. 1,039,332 thousand). This amount of Rs. 982,455 thousand (31 December 2019: Rs. 1,039,332 thousand) is not available for distribution of cash and stock dividend to the shareholders and bonus to employees.

The above represents provision against certain letters of credit and guarantees.

18.2 Under the Workers' Welfare Ordinance 1971, the Bank is liable to pay workers' welfare fund (WWF) @ 2% of accounting profit before tax or taxable income, whichever is higher. The Bank has made full provision for WWF based on profit for the respective years.

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of WWF were not lawful. The Federal Board of Revenue has filed review petitions against this order which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive. Accordingly the Bank maintains its provision in respect of WWF.

20.3.1 Foreign exchange repatriation case

While adjudicating Foreign Exchange repatriation cases of exporters, the Foreign Exchange Adjudicating Court of the State Bank of Pakistan has adjudicated penalty of Rs. 106,056 thousand, arbitrarily on the Bank. The Bank has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgment. The Honorable High Court has granted relief to Bank by way of interim orders. Based on merits of the appeals, management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

21. DERIVATIVE FINANCIAL INSTRUMENTS

The Bank deals in derivative financial instruments namely forward foreign exchange contracts and foreign currency swaps with the principal view of hedging the risks arising from its trade business.

As per the Bank's policy, these contracts are reported on their fair value at the statement of financial position date. The gains and losses from revaluation of these contracts are included under "income from dealing in foreign currencies". Mark to market gains and losses on these contracts are recorded on the statement of financial position under "other assets / other liabilities".

These products are offered to the Bank's customers to protect from unfavourable movements in foreign currencies. The Bank hedges such exposures in the inter-bank foreign exchange market.

These positions are reviewed on a regular basis by the Bank's Asset and Liability Committee (ALCO).

32. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than investment in subsidiaries and those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

32.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the assets or liabilities that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

10.4.3 Consideration of forced sales value (FSV) for the purposes of provisioning against non-performing loans

During the current period, the holding company availed additional forced sale value (FSV) benefit under BSD Circular No. 1 of 21 October 2011. This has resulted in reduction of provision against non-performing loans and advances by Rs. 28,359 thousand (31 December 2019: Rs. 315,348 thousand). Further, as of 31 March 2020, had the benefit of FSVs (including those availed into previous years) not been taken by the holding company, the specific provision against non-performing advances would have been higher by Rs. 1,511,469 thousand (31 December 2019: Rs. 1,598,972 thousand) and accumulated profit would have been lower by Rs. 982,455 thousand (31 December 2019: Rs. 1,039,332 thousand). This amount of Rs. 982,455 thousand (31 December 2019: Rs. 1,039,332 thousand) is not available for distribution of cash and stock dividend to the shareholders and bonus to employees.

The above represents provision against certain letters of credit and guarantees.

18.2 Under the Workers' Welfare Ordinance 1971, the Bank is liable to pay workers' welfare fund (WWF) @ 2% of accounting profit before tax or taxable income, whichever is higher. The Bank has made full provision for WWF based on profit for the respective years.

The Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of WWF were not lawful. The Federal Board of Revenue has filed review petitions against this order which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive. Accordingly the Bank maintains its provision in respect of WWF.

20.3.1 Foreign exchange repatriation case

While adjudicating Foreign Exchange repatriation cases of exporters, the Foreign Exchange Adjudicating Court of the State Bank of Pakistan has adjudicated penalty of Rs. 106,056 thousand, arbitrarily on the Bank. The Bank has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgment. The Honorable High Court has granted relief to Bank by way of interim orders. Based on merits of the appeals, management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

21. DERIVATIVE FINANCIAL INSTRUMENTS

The holding company deals in derivative financial instruments namely forward foreign exchange contracts and foreign currency swaps with the principal view of hedging the risks arising from its trade business.

As per the holding company's policy, these contracts are reported on their fair value at the statement of financial position date. The gains and losses from revaluation of these contracts are included under "income from dealing in foreign currencies". Mark to market gains and losses on these contracts are recorded on the statement of financial position under "other assets / other liabilities".

These products are offered to the holding company's customers to protect from unfavourable movements in foreign currencies. The Bank hedges such exposures in the inter-bank foreign exchange market.

These positions are reviewed on a regular basis by the Bank's Asset and Liability Committee (ALCO).

32. FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

32.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the assets or liabilities that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:
