# **Directors' Report - June 2020**

On behalf of the Board of Directors, we are pleased to place before you, the unconsolidated condensed interim financial statements of MCB Bank Limited (MCB) for the six months period ended June 30, 2020.

#### Introduction

During H1 2020, MCB accelerated its business momentum while overcoming the challenges posed by the COVID-19 pandemic which had an adverse impact on the economic growth the world over, including Pakistan. Following the breakout of the Covid-19 pandemic, MCB has taken all necessary steps to ensure continued and uninterrupted services to our customers in a safe environment. The State Bank of Pakistan has taken a host of measures to dilute the impact of the pandemic, including cuts in interest rates, refinance schemes for continued payment of wages and salaries, ease in debt burden ratio, rescheduling/ restructuring of financing facilities, etc.

The risks and related measures adopted by the Bank to mitigate the impact associated with the outbreak of COVID-19 are detailed in note 6 of the unconsolidated financial statements.

Interim Cash dividend at Rs. 5.0 per share - March 2020	5,925
Total Appropriations	13,171
Un-appropriated Profit Carried Forward	54,122

With strong build up in core earnings, MCB reported a profit after tax (PAT) of Rs. 13.2 billion which is up by a significant 24%, when mapped against corresponding period last year. This performance translated to Earnings Per Share (EPS) of Rs 11.15 for H1'20 (H1'19: Rs 9.01).

The Bank's net interest income for the period increased by 30% to Rs 36.01 billion. This was achieved through generation of current accounts and timely investment in the interest earning assets. The strategic shift in the maturity profiling of the investment base from short term to long term supplemented the net interest margin growth.

On the operating expenses side (excluding pension fund reversal), despite the surge in inflationary pressures and increased operational and infrastructural outreach, the Bank was able to contain the growth in administrative expenses and reported a net decrease of Rs. 138 million versus last year, with the cost to income ratio improving from 46.1 percent in H1'19 to 38.0 percent in H1'20. This was achieved through a strategic cost efficiency drive initiated in 2019 ensuring delivery through well-defined tactical plans.

The stock market has responded to the COVID-19 pandemic with worrying volatility; resultantly, Bank has recorded a charge of Rs. 1.3 billion against equity investment portfolio. With respect to advances, the full potential effect of the economic stress posed by the COVID-19 outbreak remains difficult to predict, therefore management has exercised prudence and booked General Provision of Rs 4.0 billion during the half year ended June 30, 2020, providing insulation and loss absorption capacity in case of any unforeseen deterioration in asset quality.

On the financial position side, the total asset base of the Bank on unconsolidated basis was reported at Rs. 1.67 trillion depicting an increase of 10% over December 2019. Analysis of the asset mix highlights that net investments increased by Rs. 180 billion (24%) whereas gross advances decreased by Rs 32 billion (-6%) over December 2019.

#### MCB Bank Limited

The Non-performing loan (NPLs) base of the Bank recorded an increase of Rs. 939 million and was reported at Rs. 50.4 billion. The increase was primarily on account of currency devaluation impact of foreign currency denominated NPLs with no significant accretion in the number of cases. The Bank has not taken FSV benefit in calculation of specific provision and has increased its un-encumbered general provision reserve to Rs. 4.5 billion. The coverage and infection ratios of the Bank were reported at 94.02% and 9.91% respectively.

On the liabilities side, the deposit base of the Bank registered an unprecedented increase of Rs. 129.92 billion (+11%) over December 2019, with over 50% growth from current accounts, improving the current account mix to 39.0% and CASA ratio to 94.2%.

Return on Assets and Return on Equity improved to 1.66% and 18.16% respectively, whereas book value per share was reported at Rs. 122.93.

While complying with the regulatory capital requirements, the Bank's total Capital Adequacy Ratio is 20.51% against the requirement of 11.50% (including capital conservation buffer of 1.50% as reduced under the BPRD Circular Letter No. 12 of 2020). Quality of the capital is evident from Bank's Common Equity Tier-1 (CET1) to total risk weighted assets ratio which comes to 15.23% against the requirement of 6.00%. Bank's capitalization also resulted in a leverage ratio of 6.72% which is well above the regulatory limit of 3.0%. The Bank reported Liquidity Coverage Ratio (LCR) of 227.51% and Net Stable Funding Ratio (NSFR) of 174.47% against requirement of 100.

No dividend has been announced for the second quarter ended June 30, 2020 in compliance with State Bank of Pakistan letter no. BPRD/BA&CPD/006315-2/20 dated 22 April, 2020. The first Interim Cash Dividend has already been paid at Rs.5.0 per share i.e. 50% for the quarter ended March 31, 2020.

#### **Ratings**

The Bank enjoys highest local credit ratings of AAA / A1+ categories for long term and short term respectively, based on PACRA notification dated June 26, 2020.

#### **Economy Review**

Pakistan started the year 2020 on a positive note as the tough economic measures taken by the government since the commencement of its tenure in 2018 started bearing fruit. However, the country was hit by the Covid-19 pandemic in March which led to the deterioration of the macroeconomic variables in the second guarter.

Pressure on the external account started building in March when the foreign exchange reserves of the country declined from approximately \$18bn at the start of the year to \$16.7bn mainly due to the external debt repayments. Moreover, foreign investors divested a major portion of their investments in government debt instruments under SCRA due to the uncertain economic conditions prevailing at the international and domestic front amid the Coronavirus pandemic. However, Pakistan was able to secure a loan worth \$1.4bn from IMF right in time under the IMF's Rapid Financing Instrument facility to support its reserves. Moreover, inflows received from multilateral sources, including WB, ADB and AIIB, during June also helped to reduce some of the pressure on the external account. Another development that lent support to the economy under these unprecedented times was the debt relief initiative taken by the G-20 countries. According to the WB estimates, Pakistan is expected to get a debt relief worth \$2.7bn valid till December. 2020 under the World Bank's Debt Service Suspension Initiative.

Moving on to the current account, Pakistan's exports took a larger hit as compared to the imports and declined by 18.4% during Jan-Jun FY20 as compared to the same period last year. Imports, on the other hand, declined by 16.8% despite a significant drop in international oil prices. However, current account deficit still showed a contraction of 79% due to growth in remittances.

In spite of the dollar inflows received by the State Bank and the contracting current account deficit, the USDPKR parity remained largely volatile. The Rupee started the year against the dollar at PKR 154.8476. However, it depreciated by 8.5% during the six month period before closing at PKR 168.0506.

Meanwhile, Inflation dropped to 8.59% in June after touching a high of 14.6% in January, 2020. The drop in inflation was observed due to the high base impact and the decline in demand as major parts of the economy went under lockdown.

As regards to Pakistani stock markets, the KSE-100 tumbled down to 27,229 in March after starting the year near 42,000 as the government took stringent measures to control the spread of the coronavirus in the economy. However, the index picked up again in the second quarter of the year as businesses reopened and closed the half year at 34,422.

On the fiscal side, the situation deteriorated during the last quarter of FY20 as revenue collection declined. Moreover, the government announced a relief package worth PKR 1.2 trillion, which led to an increase in the government expenditure, to combat the impact of Covid-19 on the economy. Consequently, the fiscal deficit which was initially projected to be 7.1% of GDP clocked-in at 9.1% according to the provisional figures released by the Ministry of Finance.

#### **Future Outlook**

Pakistan's economy was hit by the Covid-19 crisis at a time when it started moving towards stabilization and had to bear the brunt of the pandemic like various other economies across the globe. Moving forward, as the economy opens up, the demand is expected to pick up. However, growth will remain subdued due to the lasting impact of the virus on different sectors of the economy. On the external front, the challenge for the government remains to increase its exports as the international market recovers from the effects of the lockdown. Moreover, the expected decline in remittances due to the recent lay-offs in GCC countries will put pressure on the external front. Towards the fiscal side, the highly optimistic tax revenue target set in the budget will pose another challenge for the government. However, it's imperative that the government takes measures to meet its tax revenue target to restart the IMF program which is currently at halt.

In short, pressures arising from both the internal and external side will have to be closely watched to avoid any critical situation moving forward.

#### **Appreciation and Acknowledgements**

The Board of Directors of MCB Bank Limited would like to thank the Government of Pakistan, the State Bank of Pakistan, the Securities & Exchange Commission of Pakistan and other regulatory bodies for their continued support, all shareholders and customers of the Bank for their trust, and our employees for their continuous dedication and commitment.

#### Introduction

We have reviewed the accompanying unconsolidated condensed interim statement of financial position of the Bank as at 30 June 2020 and the related unconsolidated condensed interim statement of profit and loss account, unconsolidated condensed interim statement of comprehensive income, unconsolidated condensed interim statement of changes in equity, unconsolidated condensed interim statement of cash flows, and notes to the financial statements for the six-month period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review.

## **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## **Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

#### Other matters

The figures for the unconsolidated condensed interim profit and loss account and unconsolidated condensed interim statement of comprehensive income for the quarter ended 30 June 2020 have not been reviewed and we do not express a conclusion on them.

The engagement partner on the engagement resulting in this independent auditor's review report is M. Rehan Chughtai.

# Notes To The Unconsolidated Condensed Interim Financial Statements (Un-audited) For The Half Year Ended June 30, 2020

#### 3.6 Standards, interpretations of and amendments to approved accounting standards that are not yet effective

The following new standards and amendments to existing accounting standards will be effective from the dates mentioned below against the respective standard or amendment:

Effective date (annual periods beginning on or after)

IAS 1, Presentation of Financial Statements (Amendments)

IAS 16, Property, plant and equipment (Amendments)

IAS 37, Provisions, Contingent Liabilities and Contingent Assets (Amendments)

IFRS 17, Insurance Contracts

January 1, 2022 January 1, 2022

January 1, 2022

January 1, 2021

The SECP, through SRO 229(I)/2019 dated February 14, 2019, has notified that IFRS 9, Financial Instruments, is applicable for accounting periods ending on or after June 30, 2019. However, as per BPRD Circular No. 04 of 2019 dated October 23, 2019 of SBP, effective date of IFRS 9 implementation is January 01, 2021.

IFRS 9, Financial Instruments: Classification and Measurement, addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on an 'expected credit losses' (ECL) approach rather than the 'incurred credit losses' approach as currently followed. The ECL approach has an impact on all assets of the Bank which are exposed to credit risk. The Bank is in the process of assessing the full impact of this standard.

There are other new and amended standards and interpretations that are mandatory for the Bank's accounting periods beginning on or after January 1, 2021 but are considered not to be relevant or do not have any significant effect on the Bank's operations and are therefore not detailed in these unconsolidated condensed interim financial statements.

#### 4 SIGNIFICANT ACCOUNTING POLICIES

4.1 The significant accounting policies and methods of computation adopted in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the audited annual unconsolidated financial statements of the Bank for the year ended December 31, 2019.

#### 5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of these unconsolidated condensed interim financial statements are the same as that applied in the preparation of the unconsolidated financial statements for the year ended December 31, 2019 except as explained in note 6.1.

#### 6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the unconsolidated financial statements for the year ended December 31, 2019. These risk management policies continue to remain robust and the Bank is reviewing its portfolio regularly and conducts rapid portfolio reviews in line with emerging risks.

The COVID - 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts.

The State Bank of Pakistan (SBP) has also responded to the crisis by cutting the Policy Rate by 625 basis points during the period to 7% in June 2020. Other regulatory measures to provide an impetus to economic activity include the following:

- Reduction in the capital conservation buffer by 100 basis points to 1.5%;
- Increasing the regulatory limit on extension of credit to SMEs to Rs 180 million;
- Relaxing the debt burden ratio for consumer loans from 50% to 60%;
- Allowing banks to defer borrowers' principal loan payments by one year and or restructure / reschedule loans for borrowers who
  require relief of principal repayment exceeding one year and / or mark-up with no reflection on credit history; and
- Introduction of refinancing schemes for payment of wages and salaries.

COVID 19 has impacted the banks in Pakistan from various facets which include muted credit risk increase, reduced fee income due to slowdown in economic activity, branch closures and cyber security threat management.

#### 6.1 Credit Risk Management

The Risk Management function of the Bank is regularly conducting assessments of the credit portfolio to identify borrowers most likely to get affected due to changes in the business and economic environment. The Bank has further strengthened its risk appetite and related credit review procedures in the light of COVID-19, which would insulate the Bank from any unforeseen shock.

# Notes To The Unconsolidated Condensed Interim Financial Statements (Un-audited) For The Half Year Ended June 30, 2020

As the full potential effect of the economic stress posed by the COVID-19 outbreak is difficult to predict, the management has exercised prudence and booked General Provision of Rs 4 billion during the half year ended June 30,2020.

#### 6.2 Liquidity Risk Management

In view of the relaxation granted by SBP for deferral of principal and markup and rescheduling of loans there will be an impact on the maturity profile of the Bank. The Asset and Liability Committee (ALCO) of the Bank is continuously monitoring the liquidity position and the Bank is confident that the liquidity buffer currently maintained is sufficient to address any requirement, as reflected by the cushion in liquidity ratios above the statutory requirement.

#### 6.3 Equity Risk Management

During the first six months the Pakistan Stock Exchange fell by 15.5%, triggering an impairment of Rs 1,906.830 million. The Bank has recorded an impairment of Rs 1,336.097 million resulting from the valuation of listed equity securities held as Available for Sale in the first half and has deferred the recognition of the remaining impairment to the remainder part of the calendar year 2020 and has been taken to deficit on revaluation of investments as allowed by the State Bank of Pakistan under the Para (viii) of BPRD Circular Letter No. 13 of 2020 dated March 26, 2020.

#### 6.4 Operational Risk Management

The Bank is closely monitoring the situation and has invoked required actions to ensure the safety and security of Bank staff while ensuring uninterrupted service to customers. The senior management of the Bank is continuously monitoring the situation and is taking timely decisions to resolve any concerns.

Business Continuity Plans (BCP) for respective areas are in place and duly tested. The Bank has significantly enhanced monitoring of cyber security risk during these times. The remote work capabilities were enabled for staff, where required and related risk and control measures were assessed to ensure that the Bank's assets are protected from emerging cyber threats and comply with the regulatory protocols. The Bank is communicating with its customers for their financial transactions to be conducted through digital channel offerings. The Bank has taken all measures to ensure that service levels are maintained, customer complaints are resolved and turnaround times are monitored to meet customer requirements and expectations.

#### 6.5 Capital Adequacy Ratio (CAR)

In order to encourage Banks to continue lending, the SBP has relaxed the Capital Conversion Buffer (CCB) requirements to 1.5%, resulting in a 1% decline in CAR requirements for all Tiers.

#### 6.6 Suspension of Dividends

The SBP through its Circular Letter No. BPRD/BA & CPD/006315-2/20 dated April 22, 2020 has advised that banks which had declared dividend for the quarter ended March 31, 2020 should suspend cash dividend distribution for the next two quarters.

## Notes To The Unconsolidated Condensed Interim Financial Statements (Un-audited) For The Half Year Ended June 30, 2020

- 21.1 Under IFRS-3 a bargain purchase represents an economic gain which should be immediately recognized by the acquirer as income. However, the amount of bargain purchase gain was not been taken to the profit and loss account as the SBP, through its letter BPRD(R&PD)/2017/14330 dated June 13, 2017 recommended that the amount of gain may be routed directly into equity as a Nondistributable Capital Reserve (NCR). The NCR may become available for distribution through a stock dividend only with prior approval of the SBP. The Bank, before distribution of the gain as a stock dividend, may adjust any subsequent provisions/deficit, assessed by the Bank or recommended by the Banking Inspection Department of SBP, in the acquired assets and liabilities of NIB Bank Limited against the NCR.
- Statutory reserve represents amount set aside as per the requirements of section 21 of the Banking Companies Ordinance, 1962.

Claims against the Bank not acknowledged as debts

For assessment year 1988-89 through tax year 2018, the tax department disputed Bank's treatment on certain issues, where the Bank's appeals are pending at various appellate forums, entailing an additional tax liability of Rs. 1,487 million (2019: Rs. 1,487 million). Such issues inter alia principally include disallowance of expenses for non deduction of withholding tax and non availability of underlying records, provision for non performing loans, attribution of expenses to heads of income other than income from business and disallowance of credit for taxes paid in advance / deducted at source.

The Bank has filed appeals which are pending at various appellate forums. In addition, certain decisions made in favour of the Bank are being contested by the department at higher forums. No provision has been made in these unconsolidated condensed interim financial statements regarding the aforesaid additional tax demand and already issued favourable decisions where the department is in appeal, as the management is of the view that the issues will be decided in the Bank's favour as and when these are taken up by the Appellate Authorities.

# Notes To The Unconsolidated Condensed Interim Financial Statements (Un-audited) For The Half Year Ended June 30, 2020

#### 5. FAIR VALUE MEASUREMENTS

The fair value of traded investments is based on quoted market prices, except for tradable securities classified by the Bank as 'held to maturity'. Quoted securities classified as held to maturity are carried at amortised cost. Fair value of unquoted equity investments other than investments in associates and subsidiaries is determined on the basis of break up value of these investments as per the latest available financial statements.

Fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the financial assets and financial liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or re-priced over short term.

#### 35.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

#### Valuation techniques used in determination of fair valuation of financial instruments within level 2

Item	Valuation approach and input used
Federal Government securities	The fair values of Federal Government securities are determined using the PKRV rates.
Term Finance and Bonds	Investments in debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Foreign exchange contracts	The valuation has been determined by interpolating the mid rates announced by the State Bank of Pakistan.
Derivatives	The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant underlying parameters including foreign currency involved, interest rates, yield curves, volatilities, contracts duration etc.
Operating fixed assets (land and building) & NBA	Land and buildings are revalued every three years using professional valuers on the panel of Pakistan Banker's Association. The valuation is based on their assessment of market value of the properties.

The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the period.

#### (a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in listed ordinary shares and units of mutual funds.

#### (b) Financial instruments in level 2

The SECP, through SRO 229(I)/2019 dated February 14, 2019, has notified that IFRS 9, Financial Instruments, is applicable for accounting periods ending on or after June 30, 2019. However, as per BPRD Circular No. 04 of 2019 dated October 23, 2019 of SBP, effective date of IFRS 9 implementation is January 01, 2021.

IFRS 9, Financial Instruments: Classification and Measurement, addresses recognition, classification, measurement and derecognition of financial assets and financial liabilities. The standard has also introduced a new impairment model for financial assets which requires recognition of impairment charge based on an 'expected credit losses' (ECL) approach rather than the 'incurred credit losses' approach as currently followed. The ECL approach has an impact on all assets of the Bank which are exposed to credit risk. The Bank is in the process of assessing the full impact of this standard.

#### . SIGNIFICANT ACCOUNTING POLICIES

4.1 The significant accounting policies and methods of computation adopted in the preparation of these consolidated condensed interim financial statements are consistent with those applied in the preparation of the audited annual consolidated financial statements of the Group for the year ended December 31, 2019.

#### 5. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

#### 6. FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the consolidated financial statements for the year ended December 31, 2019. These risk management policies continue to remain robust and the Group is reviewing its portfolio regularly and conducts rapid portfolio reviews in line with emerging risks.

The COVID - 19 pandemic has taken a toll on all economies and emerged as a contagion risk around the globe, including Pakistan. To reduce the impact on businesses and economies in general, regulators / governments across the globe have introduced a host of measures on both the fiscal and economic fronts.

The State Bank of Pakistan (SBP) has also responded to the crisis by cutting the Policy Rate by 625 basis points during the period to 7% in June 2020. Other regulatory measures to provide an impetus to economic activity include the following:

- Reduction in the capital conservation buffer by 100 basis points to 1.5%;
- Increasing the regulatory limit on extension of credit to SMEs to Rs 180 million;
- Relaxing the debt burden ratio for consumer loans from 50% to 60%;
- Allowing banks to defer borrowers' principal loan payments by one year and or restructure / reschedule loans for borrowers who
  require relief of principal repayment exceeding one year and / or mark-up with no reflection on credit history; and
- Introduction of refinancing schemes for payment of wages and salaries.

COVID 19 has impacted the banks in Pakistan from various facets which include muted credit risk increase, reduced fee income due to slowdown in economic activity, branch closures and cyber security threat management.

#### 6.1 Credit Risk Management

The Risk Management function of the Group is regularly conducting assessments of the credit portfolio to identify borrowers most likely to get affected due to changes in the business and economic environment. The Group has further strengthened its risk appetite and related credit review procedures in the light of COVID-19, which would insulate the Group from any unforeseen shock.

As the full potential effect of the economic stress posed by the COVID-19 outbreak is difficult to predict, the management has exercised prudence and booked General Provision of Rs 4 billion during the half year ended June 30, 2020.

#### 6.2 Liquidity Risk Management

In view of the relaxation granted by SBP for deferral of principal and markup and rescheduling of loans there will be an impact on the maturity profile of the Group. The Group has taken all measures to ensure that service levels are maintained, customer complaints are resolved and turnaround times are monitored to meet customer requirements and expectations.

#### 6.5 Capital Adequacy Ratio (CAR)

In order to encourage Group to continue lending, the SBP has relaxed the Capital Conversion Buffer (CCB) requirements to 1.5%, resulting in a 1% decline in CAR requirements for all Tiers.

#### 6.6 Suspension of Dividends

The SBP through its Circular Letter No. BPRD/BA & CPD/006315-2/20 dated April 22, 2020 has advised that banks which had declared dividend for the quarter ended March 31, 2020 should suspend cash dividend distribution for the next two quarters.

20.1 Supreme Court of Pakistan vide its order dated November 10, 2016 has held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue has filed review petitions against this order which are currently pending.

Legal advice obtained on the matter indicates that consequent to filing of these review petitions the judgment may not currently be treated as conclusive. Accordingly, the Bank maintained its provision in respect of WWF.

- 21.1 Under IFRS-3 a bargain purchase represents an economic gain which should be immediately recognized by the acquirer as income. However, the amount of bargain purchase gain was not been taken to the profit and loss account as the SBP, through its letter BPRD(R&PD)/2017/14330 dated June 13, 2017 recommended that the amount of gain may be routed directly into equity as a Non-distributable Capital Reserve (NCR). The NCR may become available for distribution through a stock dividend only with prior approval of the SBP. The Group, before distribution of the gain as a stock dividend, may adjust any subsequent provisions/deficit, assessed by the Group or recommended by the Banking Inspection Department of SBP, in the acquired assets and liabilities of NIB Bank Limited against the NCR.
- 21.2 Statutory reserve represents amount set aside as per the requirements of section 21 of the Banking Companies Ordinance, 1962.

#### 23.4 Taxation

For assessment year 1988-89 through tax year 2018, the tax department disputed Bank's treatment on certain issues, where the Bank's appeals are pending at various appellate forums, entailing an additional tax liability of Rs. 1,487 million (2019: Rs. 1,487 million). Such issues inter alia principally include disallowance of expenses for non deduction of withholding tax and non availability of underlying records, provision for non performing loans, attribution of expenses to heads of income other than income from business and disallowance of credit for taxes paid in advance / deducted at source.

23.3.1

31,233,154

The Bank has filed appeals which are pending at various appellate forums. In addition, certain decisions made in favour of the Bank are being contested by the department at higher forums. No provision has been made in these condensed interim financial statements regarding the aforesaid additional tax demand and already issued favourable decisions where the department is in appeal, as the management is of the view that the issues will be decided in the Bank's favour as and when these are taken up by the Appellate Authorities.

## MCB Bank Limited & Subsidiary Companies

#### Notes To The Consolidated Condensed Interim Financial Statements (Un-audited) For The Half Year Ended June 30, 2020

#### 35. FAIR VALUE MEASUREMENTS

The fair value of traded investments is based on quoted market prices, except for tradable securities classified by the Group as 'held to maturity'. Quoted securities classified as held to maturity are carried at amortised cost. Fair value of unquoted equity investments other than investments in associates is determined on the basis of break up value of these investments as per the latest available financial statements

Fair value of fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to absence of current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the financial assets and financial liabilities are not significantly different from their carrying values since assets and liabilities are either short-term in nature or re-priced over short term.

#### 35.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

#### Valuation techniques used in determination of fair valuation of financial instruments within level 2

Item	Valuation approach and input used
Federal Government securities	The fair values of Federal Government securities are determined using the PKRV rates.
Term Finance and Bonds	Investments in debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital) are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Foreign exchange contracts	The valuation has been determined by interpolating the mid rates announced by the State Bank of Pakistan.
Derivatives	The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant underlying parameters including foreign currency involved, interest rates, yield curves, volatilities, contracts duration etc.
Operating fixed assets (land and building) & NBA	Land and buildings are revalued every three years using professional valuers on the panel of Pakistan Banker's Association. The valuation is based on their assessment of market value of the properties.

The Group policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the period.

#### (a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in listed ordinary shares and units of mutual funds.

#### (b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Sukuk Bonds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance certificates, FX options, Cross Currency Swaps, Interest Rate Swaps and Forward Exchange Contracts.

#### (c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

# Notes To The Consolidated Condensed Interim Financial Statements (Un-audited) For The Half Year Ended June 30, 2020

The table below analyses the financial and non-financial assets carried at fair values, by valuation methods. For financial assets, the Group essentially carries its investments in debt and equity securities at fair values. Valuation of investments is carried out as per guidelines specified by the SBP. In case of non-financial assets, the Group has adopted revaluation model (as per IAS 16) in respect of land and building.
