Directors' Review

On behalf of the Board of Directors, we are pleased to present the unconsolidated condensed interim financial statements of Bank Alfalah Limited for the half year ended June 30, 2020.

Economic Review

In line with global trends, Pakistan economy too reflected strong under-currents of the Covid 19 pandemic during 1H 2020. The expectations at the start of 2020 regarding Pakistan emerging out of the stabilization phase and heading towards managed growth, took a dent with the onset of the pandemic. Economic activity hit a historic low after imposition of lockdown towards the end March 2020, where policy measures and key economic data points reflected impact of the same.

The government and regulators remained alert and responsive to the emerging economic situation. State Bank of Pakistan (SBP) continued an accommodative monetary policy stance with a cumulative easing of 625bp, bringing the policy rate down to 7%. In addition, the SBP also announced a number of relief measures to facilitate businesses (additional subsidized funding lines) and banks (CAR, financial reporting and provisions-related relaxations). The government launched the largest social protection program (Ehsaas) and offered different economic packages, including a customized package for the construction industry to revive economic activity.

As per the key data points released so far, the COVID slowdown has dragged GDP growth rate for FY20 to negative 0.38%, which is one of the lowest reported in Pakistan's history. Leading the decline was contraction in Large Scale Manufacturing (LSM) by 5.4%. Global lockdowns and economic lull means that exports of goods and services for 1H2020 clocked in at US\$12.7bn, down 17% YoY. Imports too reflected a decline to US\$24bn (down 19% YoY), bringing the trade deficit down 21% to US\$11.3bn for 1H2020.

Remittances remained firm despite the pandemic, reporting a growth of 9% YoY to US\$11.8bn in 1H2020. The interplay between different components of the external account saw Current Account Deficit for 1H2020 shrink 82% YoY to US\$934mn.

In terms of market movements, the currency posted a depreciation of only 0.8% to PKR 168/ USD during 2Q 2020, as the varied forms of global assistance received from IMF, World Bank and G-20, offsetting the drag from COVID.

Equity markets reported a V shaped path correcting sharply towards the end of 1Q (down 28% for the year at one point). The gradual lifting of the lockdown also reflected in market sentiments as well, with the KSE100 rebounding off its lows, resulting in a total reported decline of 16% by 1H2020.

Looking ahead, the move from 'total lockdown' to 'smart-lockdown', as COVID infection rates ease, has initiated a recovery phase. A gradual return to normal however will also bring other key variables to the limelight. For instance, while the package for individual and corporate borrowers is expected to ease the near term asset quality pressures, a sustained across-the-board economic recovery is important to ensure that medium to long term asset quality pressures remain under control for banks. In addition, a rebound in international oil prices and pass through of the same in retail petroleum prices carry implications for inflation and monetary policy going forward. How different variables pan out in 3Q2020 will hence be critical in offering a glimpse into the shape and pace of economic recovery from the COVID lows.

Our Response to COVID-19 Pandemic

The COVID-19 virus has caused a convulsive shock to the world economy including Pakistan. There remains considerable uncertainty around the pathway of the pandemic, the means and speed of any economic recovery and what structural changes it will bring in the longer-term. A board level Coronavirus-Crisis Management Committee was setup at very outset, which continues to closely monitor the situation and developments on local and international fronts and prepare appropriate response measures.

As we adapt to the new challenges presented by this outbreak, we keep the safety and health of our people a topmost priority. The majority of our employees continue to work remotely (while maintaining strong IT security) to increase social distancing for our colleagues in office critical role. We are working to keep our distribution channels open while ensuring compliance with social distancing measures. We are helping our customers to make better use of existing digital and remote channels, and building new experiences to help them manage debt and make full use of SBP loan restructuring programs.

The Bank will continue to play its due role and take concrete steps to support the employees, customers and communities while balancing medium to long term positioning.

Review of the Bank's Performance

The highlights of the financial results of the Bank for the half year ended June 30, 2020 are presented as follows:

	30th June, 2020	31st December, 2019	
Financial Position	Rupees in Millions		
Shareholders' Equity	92,503	88,028	
Total Assets	1,221,046	1,065,311	
Deposits	808,090	782,284	
Advances – net	514,452	511,236	
Investments – net	492,528	299,098	
	Half year ended	Half year ended	
	30th June, 2020	30th June, 2019	
Financial Performance	Rup	ees in Millions	
Net Interest Income and Non Markup Income	30,243	26,647	
Non Markup Expenses	15,857	14,253	
Provisions and write offs (net)	4,788	980	
Profit before tax	9,597	11,415	
Profit before tax Profit after tax	9,597 5,584	11,415 6,209	
		· ·	

The bank reported profit after taxation of Rs. 5.584 billion for the half year ended June 30, 2020 as compared to Rs. 6.209 billion for the corresponding period, which translate into earning per share of Rs. 3.14 (Jun 2019: Rs. 3.50). In view of economic impact of pandemic, the bank has adopted more conservative view for provision built up against advances which is reflected in this decline. Further impairment provision was also booked upfront instead of taking benefit of SBP relaxation. Operating profit of the bank is higher by 16.1% and stood at Rs. 14.386 billion as compared to Rs. 12.395 billion during same period last year.

On the revenue front, net markup income and non-markup income showed combined growth of 13.5%. Net interest income was 7.8% higher than the corresponding period last year and closed at Rs. 23.361 billion. Despite a sharp decline of 625 basis points in policy rate and certain covid action including early repricing of loans to SMEs/ individuals and suspension of markup in overseas operations as per their central banks' requirements, higher average earning assets along with effective balance sheet management contributed to this rise in the net interest income. Non-markup income stood at Rs. 6.882 billion, higher by 38.2%, with strong contribution from capital gains of Rs. 1.733 billion and FX income of Rs. 2.009 billion due to favorable exchange rate movement. Fee and commission income declined due to low transaction volume amid the lockdown in the country.

Non-markup expenses were contained at 11.3% compared to same period last year. This increase was largely driven by staff costs, IT support and maintenance fee, full year impact of new branches opened last year along with overall impact of inflation and rupee devaluation. The cost to income ratio of the Bank improved to 51.4% as compared to 52.1% during the corresponding period last year.

A net provision charge of Rs. 4.788 billion has been booked against advances and equity investments, versus Rs. 0.980 billion during the same period last year. During the period, the bank in addition to subjective provisioning against clients showing credit weakening has taken a general provision of Rs. 2.0 billion. Given an uncertain economic environment, the bank expects that several borrowers will be impacted due to the pandemic. Many of such borrowers have availed SBP enabled deferment / restructuring and rescheduling relief and since the full potential effect of the economic stress is difficult to predict, the bank has created this general provision. The Bank is continuously reviewing the portfolio to identify accounts susceptible to higher risk resulting from the COVID-19 outbreak. Based on macroeconomic environment, this additional provision will be subsequently reviewed on quarterly basis. The bank also took a conservative view on impairment against equity securities in Q1 2020, booking 100% applicable impairment of Rs. 958.671 million, despite the central bank allowing banks to stagger the impairment over the year. The rebound in the equity markets during Q2 2020 allowed the bank to book reversals of Rs. 576.984 million on disposal of impaired securities, while the benefit of the rebound also reflects in unrealized gain on equities (AFS) of Rs. 2.340 billion at the end of the half year.

Despite having realized significant capital gains on securities during the first six months, total unrealized gain on available for sale investments at the half year end stood at Rs 9.504 billion against Rs. 6.461 billion as at Dec 31, 2019. The gain is majorly on the federal qovernment securities and listed shares.

The Bank's focus remains on re-profiling its deposit base. Total deposits have been reported at Rs. 808.090 billion. The current accounts stood at Rs. 373.892 billion with a growth of 10% compared to December 2019 position. Our CASA ratio improved to 81.25% which remains a leading indicator for the Bank in the industry. The Bank's gross advances were reported at Rs. 537.540 billion and our gross advances to deposits ratio stood at 66.5%.

The Bank is in process of issuing Medium Term Note (MTN) in the form of Rated, Secured, Listed, Redeemable Fixed Rate Term Finance Certificates ("TFCs") of up to PKR 50 billion in multiple tranches having individual instrument maturity of 3 year or more. The instrument will be secured against Government Securities. The issue has been assigned a rating of AAA (Triple-A) by PACRA. The primary purpose behind the issuance of the TFCs is to hedge the Bank's fixed rate assets.

At the close of the half year, the Bank remains adequately capitalized with CAR at 17.67%.

Dividend

The Bank has been assigned an Entity Rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term by PACRA, with outlook assigned as 'Stable'. During the period, the unsecured subordinated debt (Term Finance Certificates) of the Bank was redeemed by exercising call option; as at the previous reporting period, it was assigned a credit rating of 'AA' (Double A), with Outlook assigned as 'Stable'.

Furthermore, VIS Credit Rating Company Limited (formerly JCR-VIS) also assigned an entity rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term to the Bank, with outlook assigned as 'Stable'. The unsecured Tier 1 Capital (Term Finance Certificate) of the Bank has been awarded a credit rating of 'AA-' (Double A Minus), with 'Stable' Outlook.

The assigned ratings reflect the Bank's diversified operations, healthy financial risk profile, strong sponsors and existing market presence. These ratings denote a very low expectation of credit risk, a strong capacity for timely payment of financial commitments in the long term and the highest capacity for timely repayment in the short term, respectively.

Future Outlook

Bank Alfalah remains well positioned for sustainable growth and building long-term shareholder value in these testing times. We will continue to invest in Digital Banking, our technology infrastructure, human capital and strengthening our compliance and controls environment. In these challenging times, we are there for our staff, clients, customers and communities. Our actions during this global crisis are essential to keeping the economy going. Being an essential service provider, Bank Alfalah continues to play a lead role in the economic growth and providing financial services to the masses. We are working very closely with our customers to assist them in their banking needs and minimize the risk of credit headwinds in these unprecedented times. At the same time, we will continue to focus on building a low cost deposit base, improving the return on capital on risk assets, optimising returns from the banking book, enforcing a strong cost discipline across the bank and maximizing value for our stakeholders.

Acknowledgment

On behalf of the Board, we would like to thank the State Bank of Pakistan, the Securities and Exchange Commission of Pakistan, the Ministry of Finance and other regulatory authorities for their continuous guidance and support. At the same time, we would like to express our gratitude to our shareholders, our customers and business partners for their continued patronage. We are pleased with the performance of the bank's management and employees who serve our clients, communities and shareholders with distinction and dedication.

30 جون 2020 کو ختم ہونے والے نصف سال کے لیے بینک نے 5.584 بلیں روپے بعد از ٹیکس منافع کا اظہار کیا ، جو که پچھلے سال کی اسی مدت کے لیے 6.290 بلیں روپے تھا ۔ اس طرح فی شینر آمدنی 3.14 روپے رہی (جون201،3.50 روپے) ۔ وبانی بیماری کےباعث معیشت پر پڑنے والے اثر کے حوالے سے ، بینک نے ایڈوانسز کے لیے بننے والے پرویژن پر مزید احتیاط اختیار کی ہے جو اس کمی کا باعث بنی ۔ اسٹیٹ بینک آف پاکستان کی طرف سے ملنے والی رعایت سے فائدہ اٹھانے کے بجانے متصان کے مزید پرویژن بھی پیشگی بُک کیے گئے ۔ بینک کا عملی منافع 1.5 تک بڑھا اور13.68 بلین روپے پر قائم ہوا جبکہ پچھلے سال اسی مدت کے دوران1.395 بلین روپے تھا ۔

رپرپینیو کی سطح پر اصل مارك اپ آمدنی اور نان مارك اپ آمدنی کوملا کر 23.6% کی ترقی دیکھنے میں آئی۔ اصل سودی آمدنی 7.8% تھی جو کہ پچھلے سال کی اسی مدت کے مقابلے میں زیادہ رہی اور 23.66 بلندہ رہی اور 23.66 بلندہ رہی اور 23.66 بلندہ رہی اور 13.6% بلند رہی اور کورونا کے وجہ سے پڑنے والے اثر بشسول ایس ایم ایز / انفرادی افراد کے قرضه جات کی وقت سے پہلے دوبارہ قیمت لگائی گئی اور اور سیز آپریشنز کے لیے ، اُن کے سینٹرل بینکوں کی مطلوبات کے مطابق مارك اپ کو معطل کیا گیا ، پھر بھی اصل سودی آمدنی میں اس اضافے کی وجہ بلند اوسط آمدنی کے اثاثے اور مؤثر بیلنس شیٹ مینجمنٹ ہیں۔ نان مارك اپ آمدنی مطابق مارك اپ کو معطل کیا گیا ، پھر بھی اصل سودی آمدنی میں اس اضافے کی وجہ سے 1733 بلین روپے کے سرمایہ جاتی منافع اور 2009ء روپے کے فارن کرنسی آمدنی کی مضبوط حصه داری ہے۔ ملک میں لاک ڈاؤن کے دوران ٹرانزیکشن کی تعداد کم ہونے کی وجہ سے فیس اور کمیشن کی آمدنی بھی کم رہی۔

ڈائریکٹر کا جائزہ

ہم بورڈ آف ڈانریکٹرز کی جانب سے 30 جون 2020کو ختم ہونے والی ششما ہی کے لیے بینک الفلاح لمیٹڈ کے غیر انضمام شدہ کنڈ ینسڈ عبوری مالیاتی گوشوار ہے پیش کرنے میں خوشی محسوس کرتے ہیں .

معاشى جائزه

عالمی رجحانات کے مطابق، 2020 کی پہلی ششماہی کے دوران وہانی بیماری 19 - COVID کی طاقتور روانی کا اثر پاکستان کی معاشی حالت پر بھی پڑا . 2020 کے آغاز پر پاکستان استحکامی صورت حال سے باہر آرہا تھا اور منظم ترقی کی طرف رواں دواں تھا ،اور پھر وہائی بیماری کے حملے نے ضرب لگائی ۔ مارچ 2020 کے اختتام پر لاك ڈاؤن کے نقاذ کے بعد معاشی سرگرمی میں ایک تاریخی کمی دیکھنے میں آئی ، جس سے پالیسی کے اقدامات اور اہم معاشی ڈیٹا پواننٹس بھی اس سے متاثر ہوئے .

اس طرح کی معاشی صورت حال کے لیے حکومت اور ضابطہ کار چوکس اور جوابدہ رہے . اسٹیٹ بینک آف پاکستان نے 625p کی مجموعی سہولت کے ساتھ ایک سازگار مالیاتی پالیسی کا انداز جاری رکھا جس سے پالیسی کی شرح 7% تک کم ہو گئی . مزید یہ که ، اسٹیٹ بینک آف پاکستان نے کئی امدادی اقدامات کا بھی اعلان کیا جس سے کاروباروں (اضافی امدادی رقوم کی فراہمی) اور بینکوں (CAR ، فینانشل رپورٹنگ اور پرویژنز سے متعلق رعایات) کو سہولت فراہم کی گئی . حکومت نے معاشرتی تعنظ فراہم کرنے کے لیے سب سے بٹرے پروگرام (احساس) کا آغاز کیا جس کے تحت معاشی سرگرمی کی بحالی کے لیے مختلف معاشی پیکیجز آفر کیے گئے ، جن میں تعمیراتی صنعت کو دیا گیا ایک کسٹمائزڈ پیکیج بھی شامل ہے .

اب تک کے سامنے آنے والے اہم ڈیٹا پوائنٹس کے مطابق ، COVID نے مالی سال 2020 کے لیے جی ڈی بی کے گروتھ کی شرح کو منفی %0.38 تک گرا دیا ہے جو کہ پاکستان کی تاریخ میں سب سے کم ریکارڈ ہونے والی شرح ہے ۔ لارج اسکیل مینو فیکچرنگ میں کمی سب سے زیادہ رہی جوکہ %5.4 ہے ۔ عالمی لاك ڈاؤن اور معاشی مندی سے مراد ہے کہ 2020 کی پہلی ششماہی کے لیے اشیاء اور خدمات کی برآمدات میں بھی کمی دیکھی گئی جو کہ 24 بلین ڈالر رہی (سال به سال 198% کے ، جس سے 2020 کی پہلی ششماہی کے لیے ٹریڈ ڈیفیسٹ 218 یعنی 113 بلین ڈالر کم ہوا ۔

وبنانی بیماری کے باوجود ترسیلات زر میں استحکام رہا اور 2020 کی پہلی ششماہی میں 9% کی سال به سال گروتھ یعنی 1.18بلین ڈالر ریکارڈ کی گئی . بیرونی اکاؤنٹ کے مختلف حصوں کے درمیان تعامل میں2020 کی پہلی ششماہی کے لیے کرنٹ اکاؤنٹ ڈیفیسٹ میں سال به سال %82 کمی ہونی جو کہ934 ملین ڈالر رہے .

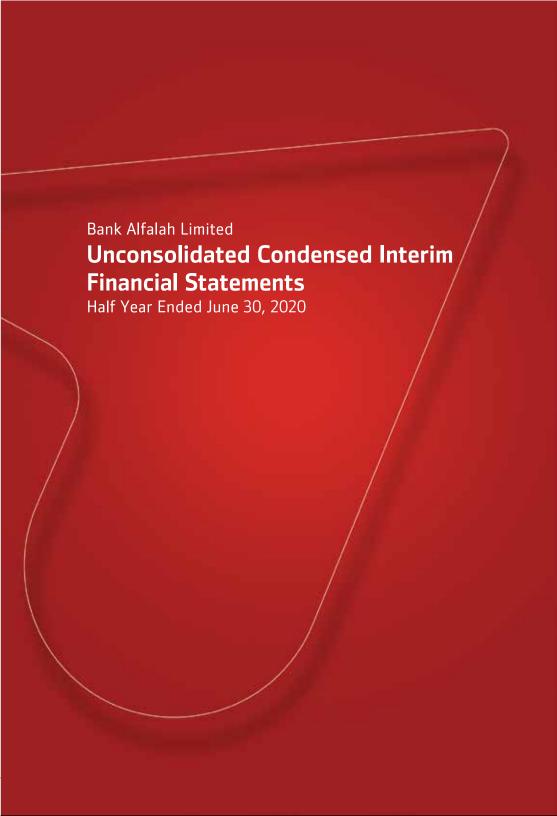

مارکیٹ کے محرکات کے لحاظ سے ، 2020 کی دوسری سه ماہی کے دوران کرنسی میں صرف 8.8، یعنی 168 روپے فی ڈالر تک کی کمی دیکھی گئی کیونکہ آئی ایم ایف ، ورلڈ بینک اور20ء کی طرف سے کئی طرح کی عالمی امداد موصول ہوئی تھیں ، جس سے COVID کے باعث ہونے والے نقصان کی تلافی ہوئی ۔

ایکونٹی مارکیٹ نے ۷کی شکل کا راستہ اختیار کیا جس سے پہلی سہ ماہی کے اختتام پر تیزی سے درستگی کی گئی (سال کے لئے ایک نقطے پر 28% کی کمی). لاك ڈاؤن میں بتدریج کمی نے مارکیٹ کے رجحانات پر بھی اثر ڈالا، کے ایس ای 100 کے نقصان میں کمی ہوئی ، جس کے نتیجے میں 2020 کی پہلی سہ ماہی تک 16% کی کُل کمی ریکارڈ ہوئی .

مستتبل پر جانزہ لیتے ہونے ،'مکمل لاك ڈاؤن' كو تبدیل كر كے 'اسمارٹ لاك ڈاؤن 'كردیا گیا ، كیونكہ COVID كے پھیلنے كى شرحوں میں كمی آئی جس سے صحت یابى كے دور كا آغاز ہوا . تناہم ، نارمل زندگى كى طرف بتدریج واپسى عوام كى توجه میں دیگر اہم تغیرات بھی لانے گى . مثال كے طور پر ، انفرادى اور كارپوریٹ قرضداروں كے ليے پہكیج میں قریب مدت كے ایسیٹ كوالٹی كے دباؤ میں سہولت متوقع كى جاتى ہے ، جو معاشى بحالى كے ليے سب كو برداشت كر نا ضرورى ہے تاكہ اس بات كو يقينى بنايا جاسكے كه درمیاني سے طویل مدتى ایسیٹ كوالٹی كے دباؤ بہنكوں كے قابو میں رہیں . مزید یہ كه ، تیل كى قیمتوں میں بین الاقوامى سطح پر واپسى ہوئى اور یہى پھٹرول كى جاسكے كه درمیاني سے متاثرہ معاشى حالت كى ریٹیل قیمتوں میں بہنى ہوا ، جس سے آنے والى مہنگانى اور مالیاتى پالیسى كے ليے ایک اشارہ ہے . 2020 كى تیسرى سه ماہى میں COVID سے متاثرہ معاشى حالت كى جنیت اور رفتار میں كتنے مختلف تغیرات سامنے آنیں گے اس كا اندازہ لگانا بہت مشكل ہے .

وبائی مرض19 - COVID کے حوالے سے ہمارے اقدامات

0-COVID وانرس نے پاکستان سمیت دنیا کی معیشت کو ایک بڑا دھچکا دیا ہے .اس وبانی مرض کے پھیلاؤ ، اس کے باعث کسی بھی معاشی بحالی کے ذرائع اور رفتار اور طویل مدت میں کیا کیا ساختی تبدیلیاں آئیں گی ، ان سب حوالوں سے کافی غیر یقینی صورت حال کا سامنا ہے . اس سلسلے میں ، ایک بورڈ لیول کی کورونا وائرس کرانسز مینجمنٹ کمیٹی تشکیل دی گئی جو اس صورت حال اور اس حوالے سے مقامی اور بین الاقوامی محاذ وں پر بونے والی ڈیویلپمنٹس کا بہت قریب سے جائزہ لیتی ہے اور بچاؤ کے لیے موزوں اقدامات تیار کرتی ہے .

Independent Auditors' Review Report

TO THE MEMBERS OF BANK ALFALAH LIMITED REPORT ON REVIEW OF INTERIM FINANCIAL STATEMENTS

Introduction

We have reviewed the accompanying unconsolidated condensed interim statement of financial position of **Bank Alfalah Limited** (the Bank) as at **30 June 2020** and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim statement of changes in equity, condensed interim cash flow statement and notes to the accounts for the six-months' period then ended (here-in-after referred to as the "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review. The figures of the condensed interim profit and loss account and condensed interim statement of comprehensive income for the three months ended 30 June 2020 and 30 June 2019 have not been reviewed, as we are required to review only the cumulative figures for the six months period ended 30 June 2020.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the audit resulting in this independent auditor's review report is Omer Chughtai.

2 BASIS OF PRESENTATION

2.1.1 STATEMENT OF COMPLIANCE

These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards comprise of:

- International Financial Reporting Standard 34 "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB) as notified under Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the ICAP and notified by the SECP, vide their S.R.O 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS).

SBP vide its BPRD Circular No. 04 of 2019 dated 23 October 2019 has directed banks in Pakistan to implement IFRS 9 with effect from 01 January 2021. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the quidance on recognition and derecognition of financial instruments from IAS 39.

Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated condensed interim financial statements; except for overseas branches where such standards are applicable.

- 2.1.2 These unconsolidated condensed interim financial statements represent separate financial statements of Bank Alfalah Limited in which investment in subsidiaries and associates are accounted for on the basis of direct equity interest rather than on the basis of reported results.
- 2.1.3 Key financial figures of the Islamic Banking branches are disclosed in note 40 to these unconsolidated condensed interim
- 2.1.4 The disclosures made in these condensed interim unconsolidated financial statements have been limited based on the format prescribed by the SBP vide BPRD Circular Letter No. 5 dated March 22, 2019 and IAS 34. These condensed interim unconsolidated financial statements do not include all the information and disclosures required for annual unconsolidated financial statements and should be read in conjunction with the unconsolidated financial statements for the year ended December 31, 2019.

2.2 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current period:

There are certain interpretations and amendments that are mandatory for the Bank's accounting periods beginning on or after January 1, 2020 but are either considered not to be relevant or do not have any significant effect on the Bank's operations and therefore not detailed in these unconsolidated condensed interim financial statements.

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These unconsolidated condensed interim financial statements have been prepared under the historical cost convention except for certain fixed assets and non banking assets acquired in satisfaction of claims which are stated at revalued amounts; held for trading, available for sale investments and derivative financial instruments which are measured at fair value and defined benefit obligations which are carried at present value.

3.2 Functional and Presentation Currency

Standard, Interpretation or Amendment

These unconsolidated financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation

The amounts are rounded off to the nearest thousand rupees except as stated otherwise.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the financial statements of the Bank for the year ended December 31, 2019.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of this condensed interim unconsolidated financial information is the same as that applied in the preparation of the unconsolidated financial statements for the year ended December 31, 2019, except for the calculation of general provision stated in note 6.1.1.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the unconsolidated financial statements for the year ended December 31, 2019, except for the following additional considerations due to the COVID - 19.

Effective date (annual periods

The COVID - 19 and the measures to reduce its spread has impacted the economy of Pakistan significantly. Regulators and governments across the globe have introduced fiscal and economic stimulus measures to mitigate its impact.

The State Bank of Pakistan (SBP) has responded to the crisis by cutting the policy rate by 625 basis points to 7 percent and by introducing regulatory measures to maintain banking system soundness and to sustain economic activity. These include (i) reducing the capital conservation buffer by 100 basis points to 1.5 percent; (ii) increasing the regulatory limit for retail asset classification by 44 percent to Rs 180 million, thus resulting in reduced risk weighted assets; (iii) relaxing the debt burden ratio for consumer loans from 50 percent to 60 percent; (iv) allowing banks to defer clients' payment of principal rol loan obligations by one year; and (v) relaxing regulatory criteria for restructured/rescheduled loans for borrowers who require relief beyond the extension of principal repayment for one year.

COVID 19 has impacted the banks in Pakistan from various facets which includes increase in overall credit risk pertaining to loans and advances portfolio in certain sectors, reduced fee income due to slowdown in economic activity, operational issues such as operations of Branches, managing cyber security threat and managing investment banking activities including arrangement of syndicate loans, debt and capital advisory services etc. Major aspects of COVID 19 on the Bank is discussed below:

6.1.1 Assets quality and credit risk

The Risk department of the Bank is regularly conducting assessments to identify borrowers operating in various sectors which are most likely to get affected. Since many of such covid affected borrowers have availed the SBP enabled deferment / restructuring & rescheduling relief, the full potential effect of the economic stress is difficult to predict given the uncertain economic environment. The Bank anticipates that it is appropriate to maintain a general loan loss reserve given the uncertainty that may prevail until the pandemic is over. Accordingly, the management of the Bank has estimated a general provision of Rs. 2,000 million which approximates to 1.5% of the restructured portfolio as at June 30, 2020. Had this change of estimate not been made, advances and the profit after tax for the half year ended would have been higher by Rs. 2,000 million and Rs. 1,163 million respectively.

The Bank has further strengthened its credit review procedures in the light of COVID 19. The Bank has also conducted various stress tests on the Credit portfolio and is confident that the CAR buffer currently maintained is sufficient.

6.1.2 Liquidity management

Bank has received applications for deferral of principal and / or restructuring / rescheduling and is expected to receive further such applications. These applications are being reviewed by the bank as per its established policies. The Asset and Liability Committee (ALCO) of the Bank is continuously monitoring the liquidity position and is taking due precautionary measures where needed. The Bank has conducted various stress testing on its liquidity ratios and is confident that the liquidity buffer currently maintained by the Bank is sufficient to cater any adverse movement in cash flow maturity profile.

6.1.3 Equity investments

The Bank has investment in equity securities and despite SBP relaxation, has taken the full impact of impairment in these unconsolidated condensed interim financial statements.

6.1.4 Foreign Exchange Risk

Due to recent economic slowdown, the PKR has been devalued against USD significantly from December 31, 2019 and the USD / PKR parity stood at Rs 168.05 as at June 30, 2020. The exchange rate is expected to remain volatile till the uncertainty around COVID 19 resolves. The Bank has reviewed the Net Open Position of the bank and has had no significant impact on P&L.

6.1.5 Operations

The Bank is closely monitoring the situation and has invoked required actions to ensure safety and security of Bank staff and an uninterrupted service to our customers. The senior management of the Bank is continuously monitoring the situation and is taking timely decisions to resolve any concerns. Business Continuity Plans (BCP) for respective areas are in place and tested. The Bank has significantly enhanced monitoring for all cyber security risk during these times from its information security protocols. The remote work capabilities were enabled for staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network ("VPN") connections. Further, the Bank has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber attacks.

The Bank is communicating with its customers on how they can connect with the Bank through its full suite of channels including digital and online channels. The Bank has taken all measures to ensure that service levels are maintained, customer complaints are resolved as per SLAs and the Bank continues to meet the expectations of their clients as they would in a normal scenario.

6.1.6 Capital Adequacy Ratio

Under the current scenario, the Banks are under pressure to extend further credit to its borrowers, while overall deteriorating credit risk and increased NPL may also put additional pressures on the Bank from Capital Adequacy Ratio perspective. The SBP has relaxed the Capital Conversion Buffer (CCB) requirements for the Banks to 1.5%, resulting in an overall CAR requirement of 11.5%. The reduced CCB has also provided an additional limit to the Bank for its tier 2 capital. Further, the regulatory limit for retail loans has also increased by SBP to 180 million, which will now result in reduced Risk Weighted Assets for some of its loans. In addition to the measures by SBP, the Senior management of the Bank is continuously monitoring the impacts of various decisions of its CAR and taking further lending decisions based on the overall impacts on RWA. The Bank also believes that it has sufficient buffer in its CAR requirement to meet any adverse movements in credit, market or operational risks.

22.2.4.1 These represent commitments that are irrevocable because they cannot be withdrawn at the discretion of the Bank without the risk of incurring significant penalty or expense.

22.3 Other contingent liabilities

22.3.1 Claims against the Bank not acknowledged as debts

10,777,592 10,150,887

These mainly represents counter claims filed by the borrowers for restricting the Bank from disposal of collateral assets (such as hypothecated / mortgaged / pledged assets kept as security), damage to reputation and cases filed by Ex. employees of the Bank for damages sustained by them consequent to the termination from the Bank's employment. Based on legal advice and / or internal assessment, management is confident that the matters will be decided in Bank's favour and the possibility of any outcome against the Bank is remote and accordingly no provision has been made in these financial statements.

22.4 Contingency for tax payable

22.4.1 There were no tax related contingencies other than as disclosed in note 33.1.

23 DERIVATIVE INSTRUMENTS

Derivatives are a type of financial contract, the value of which is determined by reference to one or more underlying assets or indices. The major categories of such contracts include futures, swaps and options. Derivatives also include structured financial products that have one or more characteristics of forwards, futures, swaps and options.

30 WORKERS WELFARE FUND

Through Finance Act 2008, the Federal Government introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged and conflicting judgments were rendered by various courts. Appeals against these orders were filed in the Honourable Supreme Court.

The Honourable Supreme Court of Pakistan vide its order dated November 10, 2016 held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue filed review petitions against the above judgment. These petitions are currently pending with the Honourable Supreme Court of Pakistan.

A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petition is decided. Accordingly, the amount charged for Workers Welfare Fund since 2008 has not been reversed.

33.1 a) The income tax assessments of the Bank have been finalized upto and including tax year 2019. Matters of disagreement exist between the Bank and tax authorities for various assessment years and are pending with the Commissioner of Inland Revenue (Appeals), Appellate Tribunal Inland Revenue (ATIR), High Court of Sindh and Honourable Supreme Court of Pakistan. These issues mainly relate to addition of mark up in suspense to income, taxability of profit on government securities, bad debts written off and disallowances relating to profit and loss expenses.

In respect of tax years 2008, 2014, 2017 and 2019, the tax authorities have raised certain issues including default in payment of WWF, allocation of expenses to dividend and capital gains, dividend income from mutual funds not being taken under income from business, disallowance of Leasehold improvements and provision against other assets resulting in additional demand of Rs.667.746 million (December 31, 2019: Rs.857.729 million). As a result of appeals filed before Commissioner Appeals against these issues, relief has been provided for tax amount of Rs.184.218 million appeal effect orders are pending. Bank has filed appeals on these issues which are pending before Commissioner Appeals and Appellate Tribunal. The management is confident that these matters will be decided in favour of the Bank and consequently has not made any provision in respect of these amounts.

- b) The Bank has received an order from a provincial tax authority wherein tax authority has disallowed certain exemptions of sales tax on banking services and demanded sales tax and penalty amounting to Rs.77.592 million (December 31, 2019: Rs.77.592 million) (excluding default surcharge) for the period from July 2011 to June 2014. Bank's appeal against this order is currently pending before Commissioner Appeals. The Bank has not made any provision against this order and the management is of the view that the matter will be settled in Bank's favour through appellate process.
- c) Bank has received an order from a provincial tax authority wherein tax authority has demanded sales tax on banking services and penalty amounting to Rs.410.619 million (excluding default surcharge) allegedly for short payment of sales tax for the year 2012. Bank has filed appeal before Commissioner Appeals after consultation with tax advisor. The Bank has not made any provision against this order and the management is of the view that the matter will be settled in Bank's favour through appellate process.

36 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

36.1 Fair value of financial instruments

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 36.2 Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 14. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of State Bank of Pakistan.
- 36.3 The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the current period.

36.4 Valuation techniques used in determination of fair values:

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, Overseas Government Sukuks, Overseas and Euro Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

ltem	Valuation approach and input used
Forward foreign exchange contracts	The valuation has been determined by interpolating the FX revaluation rates announced by State Bank of Pakistan.
Interest rate swaps	The fair value of interest rate swaps and futures is determined using prices and curves through Bloomberg.
Market Treasury Bills(MTB) / Pakistan Investment Bonds(PIB), and GoP Sukuks (GIS)	The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates.
Overseas Government Sukuks, Overseas and Euro Bonds	The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of price available on Bloomberg.
Debt Securities (TFCs) and Sukuk other than Government	Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Ordinary shares - listed	The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Operating fixed assets and non banking assets acquired in satisfaction of claims	The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations can not be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements.

40.9 Pls Pool Management- Islamic Banking Group (IBG)

40.9.1 The pools, their key features and risk and reward characteristics.

The profit and loss sharing between the Rabbul Maal (depositor) and Mudarib (Bank - IBG) is based upon the underlying principles of Mudaraba, where Bank also contributes its equity to general pool of funds, and becomes the capital provider.

Currently IBG is managing following pools:

- 1) General Pool for LCY Depositors
- 2) FCY Pool for Foreign Currency (USD, GBP and EURO) depositors
- 3) Fls Pool for Treasury Purposes
- 4) IERS Pool for Islamic Export Refinance Scheme facilities
- 5) Special pool

All the Mudaraba based Remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBG's own share of equity, which is also commingled in the pool. The applications of these funds are on Advances, Investments, and Placements for generating profits to be shared among the depositors as per the Weightage system.

The IERS pool is maintained as per the guideline under SBP IERS Scheme.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

40.9.3 The major components of Profit distribution and charging of the expenses.

Profit is distributed among the Mudaraba deposits on the basis of underlying principles of weightage mechanism which are announced before the beginning of the concerned period. Only direct attributable expenses such as depreciation on ijarah assets, brokerage, CIB Charges, bad debts write off on advances and loss on sale of investments etc are charged to the pool. Expenses of pool(s) do not include general and specific provisioning created against non-performing financings and diminution in the value of investments.

- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act. 2017 and the said directives shall prevail.

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.0 411(I)/2008 dated April 28, 2008. However, investments have been classified and valued in accordance with the requirements prescribed by the State Bank of Pakistan through PARD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the ICAP and notified by the SECP, vide their S.R.0 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS).

SBP vide its BPRD Circular No. 04 of 2019 dated 23 October 2019 directed the banks in Pakistan to implement IFRS 9 with effect from 01 January 2021. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the quidance on recognition and derecognition of financial instruments from IAS 39.

Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated condensed interim financial statements; except for overseas branches and subsidary where such standards are applicable.

2.2.1 Basis of consolidation

Subsidiaries are entities controlled by the Group. Control exists when the Group is exposed, or has rights, to variable returns from its investment with investee and has the ability to effect those return through its power over the investee.

These consolidated condensed interim financial statements incorporate the financial statements of subsidiaries from the date that control commences until the date that control ceases.

Associates are those entities on which the Group has significant influence, but not control, over the financial and operating polices. Associates as well as investment in mutual funds established under trust structure (not consolidated as subsidiaries) are accounted for using the equity method.

Non-controlling interests are that part of the net results of operations and of net assets of subsidiaries which are not owned by the Holding Company. Material intra-group balances and transactions are eliminated.

Key financial figures of the Islamic Banking branches are disclosed in note 40 to the unconsolidated condensed interim financial statements.

2.3 The disclosures made in these condensed interim consolidated financial statements have been limited based on the format prescribed by the SBP vide BPRD Circular Letter No. 5 dated March 22, 2019 and IAS 34. These condensed interim consolidated financial statements do not include all the information and disclosures required for annual consolidated financial statements and should be read in conjunction with the unconsolidated financial statements for the year ended December 31, 2019.

2.4 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current period

There are certain new and amended standards, interpretations and amendments that are mandatory for the Group's accounting periods beginning on or after January 1, 2020 but are considered not to be relevant or do not have any significant effect on the Group's operations and therefore not detailed in these consolidated condensed interim financial statements.

2.5 Standards, interpretations of and amendments to published approved accounting standards that are not yet effective

The following standards, amendments and interpretations of approved accounting standards will be effective for the accounting periods as stated below:

Standard, Interpretation or Amendment	Effective date (annual periods beginning on or after)

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These consolidated condensed interim financial statements have been prepared under the historical cost convention except for certain fixed assets and non banking assets acquired in satisfaction of claims which are stated at revalued amounts; held for trading, available for sale investments and derivative financial instruments which are measured at fair value and defined benefit obligations which are carried at present value.

3.2 **Functional and Presentation Currency**

These consolidated financial statements are presented in Pakistani Rupees, which is the Group's functional and presentation currency.

The amounts are rounded off to the nearest thousand rupees except as stated otherwise.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated condensed interim financial statements are consistent with those applied in the preparation of the financial statements of the Group for the year ended December 31, 2019.

5 **CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

The basis for accounting estimates adopted in the preparation of this condensed interim consolidated financial information is the same as that applied in the preparation of the consolidated financial statements for the year ended December 31, 2019 except for the calculation of general provision stated in note 6.1.1.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the consolidated financial statements for the year ended December 31, 2019, except for the following additional considerations due to the COVID - 19:

6.1 Risk management in the current economic scenario

The COVID - 19 and the measures to reduce its spread has impacted the economy of Pakistan significantly. Regulators and governments across the globe have introduced fiscal and economic stimulus measures to mitigate its impact.

The State Bank of Pakistan (SBP) has responded to the crisis by cutting the policy rate by 625 basis points to 7 percent and by introducing regulatory measures to maintain banking system soundness and to sustain economic activity. These include (i) reducing the capital conservation buffer by 100 basis points to 1.5 percent; (ii) increasing the regulatory limit on extension of credit to SMEs by 44 percent to Rs 180 million; (iii) relaxing the debt burden ratio for consumer loans from 50 percent to 60 percent; (iv) allowing banks to defer clients' payment of principal on loan obligations by one year; and (v) relaxing regulatory criteria for restructured/rescheduled loans for borrowers who require relief beyond the extension of principal repayment for one year.

COVID 19 has impacted the banks in Pakistan from various facets which includes increase in overall credit risk pertaining to loans and advances portfolio in certain sectors, reduced fee income due to slowdown in economic activity, operational issues such as operations of Branches, managing cyber security threat and managing investment banking activities including arrangement of syndicate loans, debt and capital advisory services etc. Maior aspects of COVID 19 on the Bank is discussed below:

6.1.1 Assets quality and credit risk

The Risk department of the Bank is regularly conducting assessments to identify borrowers operating in various sectors which are most likely to get affected. Since many of such covid affected borrowers have availed the SBP enabled deferment / restructuring & rescheduling relief, the full potential effect of the economic stress is difficult to predict given the uncertain economic environment. The Bank anticipates that it is appropriate to maintain a general loan loss reserve given the uncertainty that may prevail until the pandemic is over. Accordingly, the management of the Bank has estimated a general provision of Rs. 2,000 million which approximates to 1.5% of the restructured portfolio as at June 30, 2020. Had this change of estimate not been made, advances and the profit after tax for the half year ended would have been higher by Rs. 2,000 million and Rs. 1.163 million respectively.

The Bank has further strengthened its credit review procedures in the light of COVID 19. The Bank has also conducted various stress tests on the Credit portfolio and is confident that the CAR buffer currently maintained is sufficient.

6.1.2 Liquidity management

The Bank has received applications for deferral of principal and / or restructuring / rescheduling and is expected to receive further such applications. These applications are being reviewed by the bank as per its established policies. The Asset and Liability Committee (ALCO) of the Bank is continuously monitoring the liquidity position and is taking due precautionary measures where needed. The Bank has conducted various stress testing on its liquidity ratios and is confident that the liquidity buffer currently maintained by the Bank is sufficient to cater any adverse movement in cash flow maturity profile.

6.1.3 Equity investments

The Bank has investment in equity securities and despite SBP relaxation, has taken the full impact of impairment in these consolidated condensed interim financial statements.

6.1.4 Foreign Exchange Risk

Due to recent economic slowdown, the PKR has been devalued against USD significantly from December 31, 2019 and the USD / PKR parity stood at Rs 168.05 as at June 30, 2020. The exchange rate is expected to remain volatile till the uncertainty around COVID 19 resolves. The Bank has reviewed the Net Open Position of the bank and has had no significant impact on P&L.

6.1.5 Operations

The Bank is closely monitoring the situation and has invoked required actions to ensure safety and security of Bank staff and an uninterrupted service to our customers. The senior management of the Bank is continuously monitoring the situation and is taking timely decisions to resolve any concerns. Business Continuity Plans (BCP) for respective areas are in place and tested. The Bank has significantly enhanced monitoring for all cyber security risk during these times from its information security protocols. The remote work capabilities were enabled for staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network ("VPN") connections. Further, the Bank has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber attacks.

The Bank is communicating with its customers on how they can connect with the Bank through its full suite of channels including digital and online channels. The Bank has taken all measures to ensure that service levels are maintained, customer complaints are resolved as per SLAs and the Bank continues to meet the expectations of their clients as they would in a normal scenario.

6.1.6 Capital Adequacy Ratio

Under the current scenario, the Banks are under pressure to extend further credit to its borrowers, while overall deteriorating credit risk and increased NPL may also put additional pressures on the Bank from Capital Adequacy Ratio perspective. The SBP has relaxed the Capital Conversion Buffer (CCB) requirements for the Banks to 1.5%, resulting in an overall CAR requirement of 11.5%. The reduced CCB has also provided an additional limit to the Bank for its tier 2 capital. Further the regulatory limit for retail loans has also increased by SBP to 180 million, which will now result in reduced Risk Weighted Assets for some of its loans. In addition to the measures by SBP, the Senior management of the Bank is continuously monitoring the impacts of various decisions of its CAR and taking further lending decisions based on the overall impacts on RWA. The Bank also believes that it has sufficient buffer in its CAR requirement to meet any adverse movements in credit, market or operational risks.

30 WORKERS WELFARE FUND

Through Finance Act 2008, the Federal Government introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged and conflicting judgments were rendered by various courts. Appeals against these orders were filed in the Honourable Supreme Court.

The Honourable Supreme Court of Pakistan vide its order dated November 10, 2016 held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue filed review petitions against the above judgment. These petitions are currently pending with the Honourable Supreme Court of Pakistan.

A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petition is decided. Accordingly, the amount charged for Workers Welfare Fund since 2008 has not been reversed.

33.1 a) The income tax assessments of the Bank have been finalized upto and including tax year 2019. Matters of disagreement exist between the Bank and tax authorities for various assessment years and are pending with the Commissioner of Inland Revenue (Appeals), Appellate Tribunal Inland Revenue (ATIR), High Court of Sindh and Supreme Court of Pakistan. These issues mainly relate to addition of mark up in suspense to income, taxability of profit on government securities, bad debts written off and disallowances relating to profit and loss expenses.

In respect of tax years 2008, 2014, 2017 and 2019, the tax authorities have raised certain issues including default in payment of WWF, allocation of expenses to dividend and capital gains, dividend income from mutual funds not being taken under income from business, disallowance of Leasehold improvements and provision against other assets resulting in additional demand of Rs.667.746 million (December 31, 2019: Rs.857.729 million). As a result of appeals filed before Commissioner Appeals against these issues, relief has been provided for tax amount of Rs.184.218 million appeal effect orders are pending. Bank has filed appeals on these issues which are pending before Commissioner Appeals and Appellate Tribunal. The management is confident that these matters will be decided in favour of the Bank and consequently has not made any provision in respect of these amounts.

- b) The Bank has received an order from a provincial tax authority wherein tax authority has disallowed certain exemptions of sales tax on banking services and demanded sales tax and penalty amounting to Rs.77.592 million (December 31, 2019: Rs.77.592 million) (excluding default surcharge) for the period from July 2011 to June 2014. Bank's appeal against this order is currently pending before Commissioner Appeals. The Bank has not made any provision against this order and the management is of the view that the matter will be settled in Bank's favour through appellate process.
- c) Bank has received an order from a provincial tax authority wherein tax authority has demanded sales tax on banking services and penalty amounting to Rs.410.619 million (excluding default surcharge) allegedly for short payment of sales tax for the year 2012. Bank has filed appeal before Commissioner Appeals after consultation with tax advisor. The Bank has not made any provision against this order and the management is of the view that the matter will be settled in Bank's favour through appellate process.

36 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

36.1 Fair value of financial instruments

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- **36.2** Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 14. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of State Bank of Pakistan.
- **36.3** The Group's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date of the event or change in circumstances that caused the transfer, occurred. There were no transfers between levels 1 and 2 during the current period.

36.4 Valuation techniques used in determination of fair values:

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, Overseas Government Sukuks, Overseas and Euro Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

ltem	Valuation approach and input used
Forward foreign exchange contracts	The valuation has been determined by interpolating the FX revaluation rates announced by State Bank of Pakistan.
Interest rate swaps	The fair value of interest rate swaps and futures is determined using prices and curves through Bloomberg.
Market Treasury Bills(MTB) / Pakistan Investment Bonds(PIB), and GoP Sukuks (GIS)	The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates.
Overseas Government Sukuks, Overseas and Euro Bonds	The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of price available on Bloomberg.
Debt Securities (TFCs) and Sukuk other than Government	Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.
Ordinary shares - listed	The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange.
Operating fixed assets and non banking assets acquired in satisfaction of claims	The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations can not be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these condensed interim consolidated financial statements.

40 NON-ADJUSTING EVENT

- 40.1 The State Bank of Pakistan, vide its circular BPRD/BA&CPD/006315/20 dated April 22, 2020, has advised the banks to suspend dividend for the quarters ended March 31, 2020 and June 30, 2020. This is a precautionary measure to conserve capital and enhance the lending and loss absorption capacity of the banks caused due to COVID-19 pandemic. Last year, the Board of Directors had declared an interim cash dividend of 20% (Rs. 2 per share).
- 40.2 The Bank is in process of issuing Medium Term Note (MTN) in the form of Rated, Secured, Listed, Redeemable Fixed Rate Term Finance Certificates ("TFCs") of up to PKR 50,000 million in multiple tranches having individual instrument maturity of 3 year or more. The instrument will be secured against Government Securities. The bond is rated AAA (Triple A) by Pakistan Credit Rating Company Limited ("PACRA"). The primary purpose behind the issuance of the TFCs is to hedge the Bank's fixed rate assets. These consolidated condensed interim financial statements do not include the effect of these TFCs which will be accounted for subsequent to the period code.

41 DATE OF AUTHORISATION
