THE **DIRECTORS' REVIEW**

For the six months period ended June 30, 2020

The Directors are pleased to present before you the unaudited financial statements for the half-year ended 30th June 2020.

Overview

The half-year ending June 2020 has been quite challenging in terms of business and economic environment. The lock down by the government to contain the spread of Covid-19 has affected almost all businesses in the Country. The timely intervention by SBP and the Government has provided the much needed support to the businesses and industries.

Company Performance

Under challenging business environment your Company's performance has been reasonably satisfactory. Profit before Tax for the first six months of the year amounted to PKR 793.9 million, primarily due to significant increase in investment income (including Window Takaful Operations). This was achieved through prudent and proactive investment management during the period.

The overall insurance industry's written premium/ contribution declined during first quarter of the year 2020 and this trend is expected to continue in the second quarter as well. While business lines such as marine, motor, and engineering were negatively affected in particular, your Company was able to restrict the decline in Gross Written Premium (GWP), including Contribution written in Takaful Operations to around 3% (PKR 5.33 billion Vs. PKR 5.50 billion in the corresponding period of 2019); correspondingly the combined Net Premium / Contribution reduced by 4% (PKR 2.77 billion; against PKR 2.89 billion). The combined technical profit for the period under review was PKR 143.98 million (2019: PKR 229.97 million). The decline is mainly due to higher claims reported in the conventional business.

Conventional Insurance Operations

The adverse market conditions resulted in GWP contracting by 4% in the half year under review to PKR 4.72 billion (2019: PKR 4.92 billion). Correspondingly, the Net Premium also declined (by 6%) to PKR 2.46 billion (2019: PKR 2.61 billion). The underwriting results for this period declined to PKR 57.35 million (2019: PKR 196.76 million) due to higher than normal claims. The shortfall from the insurance operations was more than offset from the investment side of the business; the investment income increased by 80% to PKR 658.66 million (2019: PKR 366.46 million).

The summarized results of the Company's insurance business for the half year ended 30th June 2020 are as under:

	June 30	June 30
	2020	2019
	(Rupees	in '000)
Gross Premium Net Premium Revenue Underwriting Result Investment Income including	4,715,300 2,462,585 57,350	4,920,337 2,614,781 196,759
Capital Gain and Rent Profit Before Tax Profit After Tax for the period Earnings Per Share of	658,658 793,913 563,362	366,464 671,198 477,347
PKR 10 each	2.84	2.40

Window Takaful Operations

Window Takaful Operations maintained the growth momentum, although the growth was a modest 6% in Gross Written Contribution, PKR 614 million (2019: PKR 579 million). Net Contribution grew more

robustly by 10% to PKR 305 million (2019: PKR 278 million). We expect the Company to maintain the growth momentum in Takaful Operations during second half of the year.

The Participant's Takaful Fund Surplus increased to PKR 80.37 million (2019: PKR 0.23 million), while the Operator's Profit after tax during the half year under review was PKR 36.82 million (2019: PKR 40.78 million).

The summarized results of Company's Window Takaful Operations for the half year under review are as follows:

	June 30	June 30
	2020	2019
Participant's Fund	(Rupees	s in '000)
Gross Contribution Net Contribution Surplus/Deficit before	613,831 305,199	578,698 278,200
Investment Income Investment Income Surplus for the period	55,313 31,349 80,373	(16,052) 20,367 228
Operator's Fund Revenue Account Investment Income Profit Before Tax Profit after tax for the period	31,314 22,052 51,865 36,824	49,259 8,618 57,443 40,785

Outlook

The COVID-19 pandemic continues to affect economic and business activities; however, Pakistan has done much better than most other countries in containing the spread and we expect reduced impact in the second half of 2020. Partial resumption of economic activities across almost all sectors is already visible, and we remain optimistic of a speedy recovery in economic activities, and a further improvement in the Company's performance.

Acknowledgement

Your Directors wish to place on record their strong appreciation for Mr. Towfiq H. Chinoy who retired from the Board in June 2020 after 23 years serving as Chairman of the Board. He was the longest serving member of the Board and during his tenure the Company has gone from strength to strength. Your Directors also place on record their appreciation for Mr. Tahir Ahmed who retired from the Board in June 2020 after more than 15 years, he was also the Managing Director and Chief Executive till 31 December 2019.

We would also like to acknowledge all our stakeholders and more so in particular the entire staff of the Company who managed the operations in very trying circumstances brought about by the COVID-19 pandemic.

Report on review of Interim Financial Statements

Introduction

We have reviewed the accompanying condensed interim statement of financial position of **Jubilee General Insurance Company Limited ("the Company")** as at June 30, 2020 and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim statement of cash flows, condensed interim statement of changes in equity, and notes to the condensed interim financial statements for the six-month period then ended (here-in-after referred to as the "condensed interim financial statements"). Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review. The figures for the quarters ended June 30, 2020 and June 30, 2019 in the condensed interim profit and loss account, condensed interim statement of comprehensive income and relevant notes have not been reviewed and we do not express a conclusion on them.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the review resulting in this independent auditor's review report is Noman Abbas Sheikh.

23. CONTINGENCIES

The status of the contingencies remains unchanged as disclosed in the annual audited financial statements as at December 31, 2019 except for the following:

- During the period, the Additional Commissioner Inland Revenue (ACIR) has passed an order under section 122(5A) for tax year 2019 and made certain disallowances / additions mainly on account of property related expenses, commission payable, claims payable and super tax, thereby creating a demand of Rs. 22,858 thousands. Subsequently, the Company has filed an appeal against these disallowances with the Commissioner of Inland Revenue (Appeals) (CIRA) which is pending at adjudication. Based on the tax advisor's opinion, the management is confident of favourable outcome of an appeal. Hence, no provision has been made in these condensed interim financial statements.
- During the period, the Punjab Revenue Authority (PRA) vide notification No. SO(TAX)1-110/2020 (COVID-19) dated April 2, 2020 has revised the rate of sales tax on health insurance to zero percent for the period from April 2, 2020 till June 30, 2020. However, in view of the matter already taken up by the insurance industry with the Punjab Revenue Authority regarding exemption available from the applicability of the sales tax on health insurance in other provinces and in federal territory as well, the Company has not yet billed their customers for health insurance services provided in the province of Punjab for the provincial sales tax for the period from November 1, 2018 to April 1, 2020. The amount not yet billed by the Company would be recoverable from the customers accordingly.

33. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

33.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Company to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

The following table shows the carrying amount and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

These condensed interim financial statements have been authorised for issue in accordance with a resolution of the Board of Directors on August 20, 2020.

35. GENERAL

35.1 All figures have been rounded off to the nearest thousand of rupees, unless otherwise stated.

35.2 Effects of COVID-19 pandemic

On March 11, 2020, the World Health Organisation made an assessment that the outbreak of a coronavirus (COVID-19) can be characterised as a pandemic. As a result, businesses have subsequently been affected amongst others with temporary suspension of travel, and closure of recreation public facilities.

To alleviate the negative impact of the COVID-19 pandemic, the Government of Pakistan, Central Bank and the SECP have taken measures and issued directives to support businesses, including extensions of deadlines, facilitating continued business through social-distancing and easing pressure on credit and liquidity in the market.

The Company has made an assessment in order to evaluate the impact of COVID-19 pandemic over the business, operations and profitability of the Company as well as a going concern assessment. As a result of such assessment, the management has not identified any material adverse impact on the business continuity of the Company due to COVID-19 pandemic situation.

Management is responsible for the preparation and presentation of these condensed interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these condensed interim financial statements based on our review. The figures for the quarters ended June 30, 2020 and June 30, 2019 in the condensed interim profit and loss account, condensed interim statement of comprehensive income and relevant notes have not been reviewed and we do not express a conclusion on them.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of condensed interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

The engagement partner on the review resulting in this independent auditor's review report is **Noman Abbas Sheikh**.

Actual results may differ from these estimates. In preparing these condensed interim financial statements, the significant judgments made by the management in applying the Operator's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited financial statements of the Operator as at and for the year ended December 31, 2019.

27. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Operator is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Operator to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

29.2 Effects of COVID-19 pandemic

On March 11, 2020, the World Health Organisation made an assessment that the outbreak of a coronavirus (COVID-19) can be characterised as a pandemic. As a result, businesses have subsequently been affected amongst others with temporary suspension of travel, and closure of recreation public facilities.

To alleviate the negative impact of the COVID-19 pandemic, the Government of Pakistan, Central Bank and the SECP have taken measures and issued directives to support businesses, including extensions of deadlines, facilitating continued business through social-distancing and easing pressure on credit and liquidity in the market.

The Operator has made an assessment in order to evaluate the impact of COVID-19 pandemic over the business, operations and profitability of the Operator as well as a going concern assessment. As a result of such assessment, the management has not identified any material adverse impact on the business continuity of the Operator due to COVID-19 pandemic situation.
