Directors' Review

On behalf of the Board of Directors, we are pleased to present the unconsolidated condensed interim financial statements of Bank Alfalah Limited for the period ended September 30, 2020.

Economic Review

2020 has so far been a year of distinct phases for Pakistan and its economy. While 1Q 2020 could be termed as pre-COVID and continuation of the government's stabilisation programme; 2Q 2020 saw the impact of COVID unfold on all fronts. The proactive approach of the government and the regulators led to 3Q 2020 showing signs of recovery from the COVID shock, cushioning the impact on 9M 2020 numbers.

In terms of key data points, the improvement on the external account continued as the Current Account Deficit for 8MCY20 was only USD 129mn compared to a deficit of USD 6.3bn during the same period last year. The primary reasons behind the improvement remained an 18% YoY decline in total imports to USD 32bn; along with a 15% YoY rise in remittances to USD 16.6bn. However, total exports also declined by 17% YoY to USD 16.9bn.

FDI in Pakistan clocked in at USD 1.4bn during 8MCY20, compared to USD 1.0bn recorded in the same period last year, marking an increase of 40%. Power and communication sectors remain the largest recipients, while China was the largest source of FDI during the period.

The positive readings of key data points combined with the initiative of Roshan Digital Account, aim to facilitate investments by overseas Pakistanis, and this was reflected in currency markets as well. Pak Rupee appreciated by 1.4% during 3Q20 to PKR 165.7/USD, capping the decline for 9M 2O20 to 7%.

On the growth front, the government reported that GDP growth for the fiscal year ended June 2020 had clocked in marginally negative due to COVID. While still early days for ongoing fiscal year, the initial readings provide some optimism as Large Scale Manufacturing (LSM) output witnessed an increase of 5.0% YoY during Jul '20. On MoM basis, it went up by 9.5%, as government's supportive monetary policy (625bp YTD easing, subsidised credit lines and other relaxations) started to bear fruit. Inflationary pressures, as measured by the CPI have receded significantly from about 15% in 1Q 2020, stood at 9.04% in September 2020.

Equity markets have also depicted the gradual improvement in the economy. The markets have rebounded more than 50% of its lows during the pandemic and the benchmark KSE-100 index closed September 2020 almost at par with the beginning of the year.

Looking ahead, the biggest threat remains a second wave of COVID infections, which could jeopardise the nascent recovery. In addition, the global pandemic also carries implications for Pakistan as the rebound in the global economy will influence the import bill (due to oil prices) and trajectory of exports. The same will also influence foreign inflows into Pakistan via capital markets or bilateral and multilateral sources. The headlines are likely to be focused on a smooth revival of the IMF Programme, which will be key to domestic and international sentiments.

Pakistan has achieved notable success in containing the dual health and economic challenges posed by COVID-19. As the infection curve flattens and business activity resumes, the economy is showing signs of recovery. Pakistan's growth is forecast to recover to 2.1% in fiscal year 2020-21 as economic sentiments improve with the containment of COVID-19 and the resumption of structural reform. Supported by improved growth in agriculture and industry, coupled with an expected improvement in domestic demand overall, services should also contribute to growth in the current fiscal year. How different variables pan out will offer a glimpse into the shape and pace of economic recovery from the COVID lows.

Our Response to COVID-19 Pandemic

From the outset, our priority has been to continue to provide uninterrupted service to our customers, while supporting and providing a safe work environment for our employees and helping those communities hit hard by the pandemic.

To help our customers during the pandemic, we made access to SBP debt relief programme convenient. So far, we have provided assistance to over 6,387 customers through deferment/rescheduling of loans. Furthermore, fresh loans backed by SBP refinance scheme (wage and salaries) were given to over 300 customers.

We are partnering with renowned non-profit organisation in the country to help some of the hardest hit communities get through the pandemic. So far, cash donations, groceries and household need items worth of Rs. 27.3 million were distributed to support vulnerable communities. This amount includes Bank employees' contribution of Rs. 12.2 million.

The Bank will continue to play its due role and take concrete steps to support the employees, customers and communities while balancing medium to long-term positioning.

Review of the Bank's Performance

The highlights of the financial results of the Bank for the period ended September 30, 2020 are presented as follows:

| | September 30, 2020 | December 31, 2019 |
|----------------------|--------------------|--------------------|
| Financial Position | | Rupees in Millions |
| Shareholders' Equity | 93,733 | 88,028 |
| Total Assets | 1,243,782 | 1,065,311 |
| Deposits | 820,066 | 782,284 |
| Advances – net | 495,888 | 511,236 |
| Investments – net | 539,707 | 299,098 |

| | Period ended September 30, 2020 | Period ended September 30, 2019 |
|---|------------------------------------|------------------------------------|
| Financial Performance | | Rupees in Millions |
| Net Interest Income and Non-Markup Income | 44,491 | 40,417 |
| Non-Markup Expenses | 23,877 | 21,908 |
| Provisions and Write-offs (net) | 6,279 | 2,012 |
| Profit before Tax | 14,335 | 16,496 |
| Profit after Tax | 8,331 | 9,242 |
| Basic earnings per share – Rupees | 4.69 | 5.20 |
| Diluted earnings per share – Rupees | 4.69 | 5.20 |

The Bank reported an operating profit of Rs. 20.614 billion for the period ended September 30, 2020, which is higher by 11.4% as compared to same period last year. Profit after taxation stood at Rs. 8.331 billion as compared to Rs. 9.242 billion for the corresponding period, translating into earning per share of Rs. 4.69 (Sep 2019: Rs. 5.20). In view of economic impact of the pandemic, the Bank has adopted more conservative view for provision built up against advances, which is reflected in this decline. Further equity impairment was also booked upfront instead of taking benefit of SBP relaxation.

On the revenue front, net markup income and non-markup income showed combined growth of 10.1%. Net interest income was 3.4% higher than the corresponding period last year and closed at Rs. 34.467 billion. Despite a sharp decline of 625 basis points in the policy rate, certain COVID actions, including early repricing of loans to SMEs/individuals and interest rate corridor made symmetric around policy rate, the net interest income rose due to higher average earning assets along with effective balance sheet management. Last year's markup income also includes significant recovery from old non-performing loans. Non-markup income stood at Rs. 10.024 billion, higher by 41.7%, with strong contribution from capital gains of Rs. 2.185 billion mainly on the government securities. Fee and commission income declined due to low transaction volume amid the lockdown in the country and regulatory waivers such as interbank funds transfer fee, SMS alerts fee, etc.

Non-markup expenses were contained at 9.0% compared to same period last year. This increase was largely driven by staff costs, IT support and maintenance fee, full year impact of new branches opened last year along with overall impact of inflation and rupee devaluation. The cost to income ratio of the Bank is 52.6% slightly better than the corresponding period last year.

During the period, the Bank in addition to subjective provisioning against clients showing credit weakening has taken a general provision of Rs. 3.5 billion. Given an uncertain economic environment, the Bank expects that several borrowers will be impacted due to the pandemic. Many of such borrowers have availed SBP enabled deferment/restructuring and rescheduling relief and since the full potential effect of the economic stress is difficult to predict, the Bank has created this general provision. The Bank is continuously reviewing the portfolio to identify accounts susceptible to higher risk resulting from the COVID-19 outbreak. Based on macroeconomic environment, this additional provision will be subsequently reviewed on quarterly basis.

Despite having realised significant capital gains on securities during the period, total unrealised gain on available for sale investments as at September 30, 2020 stands at Rs 7.463 billion against Rs. 6.461 billion as at December 31, 2019. The gain is majorly on the federal government securities and listed shares.

The Bank's focus remains on re-profiling its deposit base. Total deposits have been reported at Rs. 820.066 billion. The current accounts stood at Rs. 376.991 billion with a growth of 10.9% compared to December 2019 position. Our CASA ratio improved to 82.3%, which remains a leading indicator for the Bank in the industry. The Bank's gross advances were reported at Rs. 520.475 billion and our gross advances to deposits ratio stood at 63.5%.

The Bank is in process of issuing Medium Term Note (MTN) in the form of Rated, Secured, Listed, Redeemable Fixed Rate Term Finance Certificates (TFCs) of up to PKR 50 billion in multiple tranches having individual instrument maturity of 3 year or more. The first tranche is of Rs. 10 billion with a green sho e option of Rs. 2 billion. The instrument will be secured against Government Securities. The issue has been assigned a rating of 'AAA' (Triple-A) by PACRA. The primary purpose for this TFC issuance is to hedge the Bank's fixed rate assets.'

At the close of this period, the Bank remains adequately capitalised with CAR at 18.35%.

We are at the forefront of launch of Bank Alfalah Roshan Digital Account. Roshan Digital Account is a major initiative of State Bank of Pakistan, in collaboration with commercial banks operating in Pakistan. These accounts will provide innovative banking solutions for millions of Non-Resident Pakistanis (NRPs) seeking to undertake banking, payment and investment activities in Pakistan. Bank Alfalah also supports Government of Pakistan's and State Bank of Pakistan's initiatives and policy reforms for affordable housing in Pakistan. We are on verge of launch of Alfalah Ghar Asaan product, a low cost housing finance product under Mera Pakistan Mera Ghar initiative. Alfalah Ghar Asaan product will provide housing finance facility to low income segment including informal sector for purchase and construction of new houses at subsidised markup rates.

Dividend

The Board of Directors has declared an interim cash dividend of 20% i.e. Rs. 2.0 per share (YTD September 30, 2019: Rs. 2.0 per share).

Credit Rating

The Bank has been assigned an Entity Rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term by PACRA, with outlook assigned as 'Stable'. During the period, the unsecured subordinated debt (Term Finance Certificates – TFC V) of the Bank was redeemed by exercising call option; as at the previous reporting period, it was assigned a credit rating of 'AA' (Double A), with Outlook assigned as 'Stable'.

Furthermore, VIS Credit Rating Company Limited (formerly JCR-VIS) also assigned an entity rating of 'AA+' (Double A Plus) for the long-term and 'A1+' (A-One Plus) for the short-term to the Bank, with outlook assigned as 'Stable'. The unsecured Tier 1 Capital (Term Finance Certificate) of the Bank has been awarded a credit rating of 'AA-' (Double A Minus), with 'Stable' Outlook.

The assigned ratings reflect the Bank's diversified operations, healthy financial risk profile, strong sponsors and existing market presence. These ratings denote a very low expectation of credit risk, a strong capacity for timely payment of financial commitments in the long-term and the highest capacity for timely repayment in the short-term, respectively.

Future Outlook

Bank Alfalah remains well-positioned for sustainable growth and building long-term shareholder value in these testing times. We will continue to invest in Digital Banking, our technology infrastructure, human capital and strengthening our compliance and controls environment. In these challenging times, we are there for our staff, clients, customers and communities. Our actions during this global crisis are essential to keeping the economy going. Being an essential service provider, Bank Alfalah continues to play a lead role in the economic growth and providing financial services to the masses. We are working very closely with our customers to assist them in their banking needs and minimise the risk of credit headwinds in these unprecedented times. At the same time, we will continue to focus on building a low cost deposit base, improving the return on capital on risk assets, optimising returns from the banking book, enforcing a strong cost discipline across the Bank and maximising value for our stakeholders.

Acknowledgment

On behalf of the Board, we would like to thank the State Bank of Pakistan, the Securities and Exchange Commission of Pakistan, the Ministry of Finance and other regulatory authorities for their continuous guidance and support. At the same time, we would like to express our gratitude to our shareholders, our customers and business partners for their continued patronage. We are pleased with the performance of the Bank's management and employees who serve our clients, communities and shareholders with distinction and dedication.

رپوپنیو کی سطح پر اصل مارک آپ آمدنی اور نان مارک آپ آمدنی کوملا کر %10.1 کی ترقی دیکھنے میں آئی۔ اصل سودی آمدنی %3.8 تھی جوکہ پچپلے سال کی اسی مدت کے مقابلے میں زیادہ رہی اور 34.467 بلین روپے پر بند ہوئی۔ باوجود اس کے کہ بالیسی کی شرح میں 625 بنیادی پوائنٹس کی تیزی سے کمی ہونی اور کورونا کے وجہ سے پڑنے والے اثر بشمول ایس ایم اور آپ آباد نمیں اس اضافے کی وجہ بلند اوسط ایم ایم نازی فراد کے قرضہ جات کی وقت سے پہلے دوبارہ قیمت لگائی گئی اور شرح سود پالیسی کی شرح کے متوازن رہی ، اصل سودی آمدنی میں اس اضافے کی وجہ بلند اوسط آمدنی کی شرح کے متوازن رہی ، اصل سودی آمدنی میں پرائے نان پر فارمنگ لونز کی وصولیاں بھی شامل ہیں . نان مارک آپ آمدنی 10.04 ہوئی جس میں %41.7 کا اضافہ ہے جوکہ حکومتی سیکیورٹیز پر حاصل کردہ 21.15 بلیس روپے کے کیپیٹل گین کی مستحکم حصہ داری شامل ہے . ملک میں لاک ڈاؤن اور ریگولیٹٹری چھوٹ جیسے انٹر بینک فنڈز ٹرانسفر فیس ، ایس ایم ایس الرٹس فیس ، وغیرہ کے باعث ٹرانزیکشن کی تعداد کم ہونے کی وجہ سے فیس اور کمیشن کی آمدنی بھی کم

پچھلے سال اسی مدت کے مقابلے میں نان مارگ اپ اخراجات %9.0 پر قائم ہوئے ، یہ اضافہ بڑی حد تک عملے پر آنے والی لاگت ، آنی ٹی کی معاونت اور مینٹیننس فیس ، پچھلے سال کھولمی گئی نئی برانچوں کے باعث ہور ہے سال پر پڑنے والے اثرات بمع مہنگانی اور روپے کی مالیت میں کمی سے ہونے والے تمام تر اثر کے باعث ممکن ہوا ۔ بینک کی آمدنی کے تناسب کی لاگت ،52.6 ہے جو کہ پچھلے سال اسی مدت کے مقابلے میں تھوڑی بہتر ہے ۔

اس مدت کے دوران ، بینک نے کلاننٹس کے کریڈٹ میں کمی کے عوض سبجیکٹیو پرویژننگ میں اضافے کے ساتھ 3.5 بلین روپے کا جنرل پرویژن حاصل کیا . غیریقینی معاشی ماحول میں ، بینک توقع رکھتا ہے کہ وباء کے باعث کئی قرضدار متاثر ہونگے . ان میں سے بہت سے قرضداروں نے اسٹیٹ بینک آف پاکستان کا ڈیئر منٹ / ری اسٹر کچرنگ / ری شیڈ ولنگ ریلیف حاصل کر لیا ہے اور کیونکہ معاشی دباؤ کے مکمل متوقع اثر کی پیش گوئی کرنا مشکل ہے ، اس لیے بینک نے یہ جنرل پرویژن قائم کیا ہے . بینک ، پورٹلولیو کا مسلسل جائزہ لے

ہم ہورڈ آف ڈائریکٹرز کی جانب سے بینک الفلاح لمیٹڈ کے لیے 30 ستمبر، 2020کو ختم ہونے والی مدت کی غیر انضمام شدہ کنٹینسڈ انٹرم مالیاتی گوشوار کے پیش کرنے میں خوشی محسوس کرتے ہیں.

معاشى جائزه

سال 2020، پاکستان اور اس کی معیشت کے لیے اب تک ایک ایسا سال رہا جس میں مختلف مراحل دیکھنے میں آنے . اس طرح 2020کی پہلی سه ماہی کو پری کوویڈ کہا جاسکتا ہے جس میں حکومت کی طرف سے استحکامی پروگرام جای رہے ،2020 کی دوسری سه ماہی میں کوویڈ کے اثرات ہر سطح پر نظر آنے . حکومت اور ضابطہ کاروں کی پیش قدمی کے باعث 2020 کی تیسری سه ماہی میں کوویڈ سے ہونے والے 9 ماہ کے نقصان میں بحالی نظر آنے لگی .

اہم ڈیٹا پوائنٹس کے لحاظ سے بیرونی آکاؤنٹ میں ترقی 8MCY20 کے لیے بطور کرنٹ آکاؤنٹ ڈیفیسٹ جاری رہی جو که صرف 129 ملین یو ایس ڈالر تھی جبکہ پچھلے سال اسی مدت کے لیے ڈیفیسٹ 6.3 بدلین یو ایس ڈالر تھے ۔ ترقی کی بنیادی وجوہات میں کُل درآمدات میں 18 سال به سال کمی ہے جوکه 32 بدلین یو ایس ڈالر ہے ، ساتھ ہی ریسیٹینسز میں سال به سال 15% ترقی ہے جوکه 16.6 بلین یو ایس ڈالر ہے ۔ تاہم ، کُل برآمدات بھی سال به سال 717کم ہونے جو کہ 15.9 بلین یو ایس ڈالر رہے ۔

8MCY20 کے دوران ، پاکستان میں ایف ٹی آئی 1.4 بسلین یو ایس ڈالسر پر پہنچی ، جبکہ پچھلے سال اسی مدت میں 1.0 بسلین یو ایس ڈالر رہی تھی ، یعنی %40 اضافه ہوا ۔ پاور اور کسیونیکیشن سیکٹرز سب سے بڑے وصول کنندگان رہے ، جبکہ اس مدت کے دوران چین ایف ڈی آئی کا سب سے بڑا ذریعہ رہا .

اہم ڈیٹا پواننٹس کی مثبت ریڈ نگز کو روشن ڈیجیٹل اکاؤنٹ کے اقدام کے ساتھ ملایا گیا ، اس کا متصد بیرون ملک متیم پاکستانیوںسے سرمایه کاری کا حصول تھا اور اس کا اثر کرنسی مارکیٹ میں بھی دیکھا گیا ۔ 2020 کی تیسری سه ماہی کے دوران پاکستانی روپے میں 1.4%کی ترقی ہونی جو کہ 165.7پاکستانی روپے فی یو ایس ڈالر رہی ، 2020 کے 9 ماہ میں 7%کی کسی ہوئی ۔

ترقی کے محاذ پر حکومت نے مطلع کیا کہ جوں 2020 کو ختم ہونے والے صالی سال کے لیے جی ڈی پی گروتھ کوویڈ کی وجہ سے منٹی رہی، جبکہ رواں مالی سال کے ابتدائی دنوں میں ابتدائی ریڈ نگز نے کچھ امید دلائی کیونکہ بڑے پیمانے پر ہونے والی مینو فیکچرنگ کے نقیجے میں جولائی 2020 کے دوران سال به سال 5000اضافہ دیکھنے میں آیا۔ ماہ به ماہ کی بنیاد پر یہ 5.9 تک گیا کیونکہ حکومت کی سپورٹیو مانیٹری پالیسی (625bp TD اسان، سبسیڈانزڈ کریڈ ٹ لاننز اور دیگر رعایتیں) نے نقع حاصل کرنا شروع کردیا تھا۔ مہنگائی کے دباؤ، جیسا کہ سی بی آئی کی طرف سے اس کی پیمائش کی جاتی ہے ،2020 کی پہلی سہ ماہی میں 15% سے نمایاں طور پر کم ہوچکا ہے ، ستمبر 2020 میں یہ 9.044 رہا۔

ایکونٹی مارکیٹس نے بھی معیشت میں بتدریح ترقی کی نشاندہی کی . مارکیٹس نے وہائی بیماری کے دوران ہونے والے نقصانات کے 50% سے زیادہ کا نقع واپس حاصل کیا اور کے ایس ای 100 انڈیکس ستمبر 2020 میں تتریباً اسی قیمت پر بند ہوا جو کہ سال کے آغاز پر تھی .

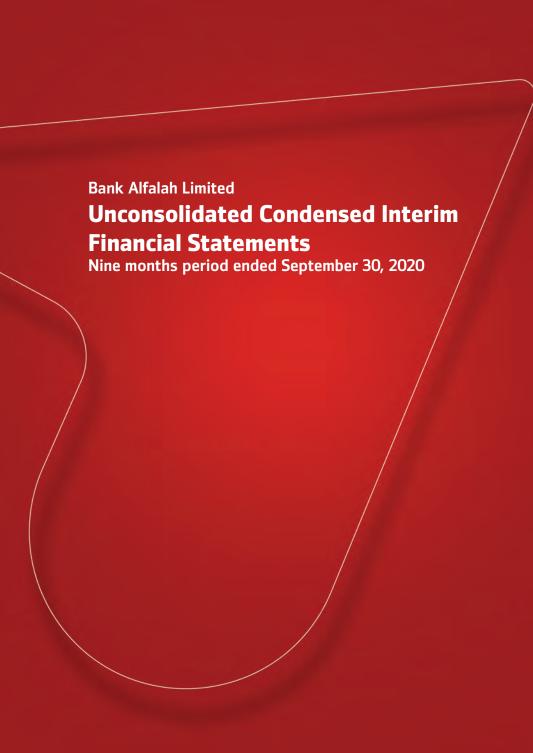

آگے بڑھتے ہونے ، کوویڈ انقیکشنز کی دوسری لہر کی آمد جو که سب سے بڑا خطرہ ہے ، حال ہی میں ہونے والی بحالی کو خطرے میں ڈال سکتا ہے . اس کے علاوہ ، عالمی وبائی مرض ، پاکستان کے لیے تقصانات بھی لاتا ہے کیونکه عالمی معیشت میں ری باؤنڈ ، درآمدی بل (تیل کی قیمتوں کی وجه سے) اور بر آمدات کی رفتار پر اثر انداز ہوگا ، بذریعه کیپیٹل مارکیٹس یا باہمی اور متعدد ذرائع ، یہ پاکستان میں بیرونی ان فلوز پر بھی اثر انداز ہوگا . خبروں کی توجہ آئی ایم ایف پروگرام کی رواں بحالی پر رہے گی جو که مقامی اور بین الاقوامی سینٹیمنٹس کر لیر اہم ہر .

پاکستان نے کوویڈ۔ 19کے باعث درپیش صحت اور معاشی چیلنجز دونوں میں قابل ذکر کامیابی حاصل کی ہے ۔کیونکہ انٹیکشن اب کم ہوا ہے اور کاروباری سرگرمیاں معمول پر آگئی ہیں ، معیشت میں بحالی کی علامات واضح نظر آ رہی ہیں ۔ مالی سال20-2020 میں پاکستان کی ترقی میں 21گروتھ کی پیشگرنی ہے کیونکہ کوویڈ ۔ 19کی روگ تھام اور ساختی اصطلاح کی بحالی کے باعث معیشت میں ترقی آئی ہے ۔زراعت اور صنعت میں بڑھتی ترقی کی معاونت اور متامی طلب میں مترقع بہتری کے ساتھ موجودہ مالی سال میں سروسز کے معیار میں بھی اضافہ ملے گا۔ کس طرح کے مختلف تغیرات سامنے آئیں گے جن سے کوویڈ سے ہونے والے بتصانات میں کمی اور معاشی بحالی کی مثبت ساخت اور رفتار ملے گی .

وبائی مرض کوویڈ . 19 کے حوالے سے ہمارے اقدامات

وبانی مرض کے دوران اپنے صارفین کی مدد کرنے کے لیے ہم نے اسٹیٹ بینک آف پاکستان کے قرض ریلیف پروگرام کو باسہولت بنایا . اب تک ، ہم نے قرضوں کے التواء / رئ شیڈولنگ کے ذریعے 6,387 سے زائد صارفین کو رہنمانی فراہم کی ۔ مزید یہ کہ ، اسٹیٹ بینک آف پاکستان کی ری فنانس اسکیم (اجرت اور تنخواہیں) کے تحت 300 سے زائد صارفین کوننے قرضے دیئے گئے ۔

- International Financial Reporting Standard 34 "Interim Financial Reporting" issued by the International Accounting Standards Board (IASB) as notified under Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan (ICAP) as are notified under the Companies Act, 2017;
- Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
- Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Whenever the requirements of the Banking Companies Ordinance, 1962, Companies Act, 2017 or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

The SBP has deferred the applicability of International Accounting Standard (IAS) 40, 'Investment Property' for banking companies through BSD Circular Letter No. 10 dated August 26, 2002 till further instructions. Further, the SECP has deferred the applicability of International Financial Reporting Standard (IFRS) 7, 'Financial Instruments: Disclosures' on banks through its notification S.R.O 411(I)/2008 dated April 28, 2008. The State Bank of Pakistan through BPRD Circular No. 04 of 2015 dated February 25, 2015 has deferred applicability of Islamic Financial Accounting Standard-3 for Profit and Loss Sharing on Deposits (IFAS-3) issued by the ICAP and notified by the SECP, vide their S.R.O 571 of 2013 dated June 12, 2013 for Institutions offering Islamic Financial Services (IIFS).

IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39.

Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated condensed interim financial statements; except for overseas branches where such standards are applicable.

- 2.1.2 These unconsolidated condensed interim financial statements represent separate financial statements of Bank Alfalah Limited in which investment in subsidiaries and associates are accounted for on the basis of direct equity interest rather than on the basis of reported results.

3 BASIS OF MEASUREMENT

3.1 Accounting convention

These unconsolidated condensed interim financial statements have been prepared under the historical cost convention except for certain fixed assets and non banking assets acquired in satisfaction of claims which are stated at revalued amounts; held for trading, available for sale investments and derivative financial instruments which are measured at fair value and defined benefit obligations which are carried at present value.

3.2 Functional and Presentation Currency

These unconsolidated financial statements are presented in Pakistani Rupees, which is the Bank's functional and presentation currency.

The amounts are rounded off to the nearest thousand rupees except as stated otherwise.

4 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the financial statements of the Bank for the year ended December 31, 2019.

5 CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The basis for accounting estimates adopted in the preparation of this unconsolidated condensed interim financial information is the same as that applied in the preparation of the unconsolidated financial statements for the year ended December 31, 2019, except for the calculation of general provision as stated in note 6.1.1.

6 FINANCIAL RISK MANAGEMENT

The financial risk management objectives and policies adopted by the Bank are consistent with those disclosed in the unconsolidated financial statements for the year ended December 31, 2019, except for the following additional considerations due to the COVID - 19.

6.1 Risk management in the current economic scenario

The COVID - 19 and the measures to reduce its spread has impacted the economy of Pakistan significantly. Regulators and governments across the globe have introduced fiscal and economic stimulus measures to mitigate its impact.

The State Bank of Pakistan (SBP) has responded to the crisis by cutting the policy rate by 625 basis points to 7 percent and by introducing regulatory measures to maintain banking system soundness and to sustain economic activity. These include (i) reducing the capital conservation buffer by 100 basis points to 1.5 percent; (ii) increasing the regulatory limit for retail asset classification by 44 percent to Rs.180 million, thus resulting in reduced risk weighted assets; (iii) relaxing the debt burden ratio for consumer loans from 50 percent to 60 percent; (iv) allowing banks to defer clients' payment of principal on loan obligations by one year; and (v) relaxing regulatory criteria for restructured/rescheduled loans for borrowers who require relief beyond the extension of principal repayment for one year.

COVID 19 has impacted the banks in Pakistan from various facets which include increase in overall credit risk pertaining to loans and advances portfolio in certain sectors, reduced fee income due to slowdown in economic activity, operational issues such as operations of Branches, managing cyber security threat and managing investment banking activities including arrangement of syndicate loans, debt and capital advisory services etc. Major aspects of COVID 19 on the Bank are discussed below:

6.1.1 Assets quality and credit risk

The Credit & Risk Management Group of the Bank is regularly conducting assessments to identify borrowers operating in various sectors which are most likely to get affected. Since many of such covid affected borrowers have availed the SBP enabled deferment / restructuring & rescheduling relief, the full potential effect of the economic stress is difficult to predict given the uncertain economic environment. The Bank anticipates that it is appropriate to maintain a general loan loss reserve given the uncertainty that may prevail until the pandemic is over. Accordingly, the management of the Bank has estimated a general provision of Rs. 3,500 million which approximates to 2.3% of the restructured portfolio as at September 30, 2020. Had this change of estimate not been made, advances and the profit after tax for the nine months period ended would have been higher by Rs. 3,500 million and Rs. 2,275 million respectively.

The Bank has further strengthened its credit review procedures in the light of COVID 19. The Bank has also conducted various stress tests on the Credit portfolio and is confident that the CAR buffer currently maintained is sufficient.

6.1.2 Liquidity management

The Bank has received applications for deferral of principal and / or restructuring / rescheduling and is expected to receive further such applications. These applications are being reviewed by the bank as per its established policies. The Asset and Liability Committee (ALCO) of the Bank is continuously monitoring the liquidity position and is taking due precautionary measures where needed. The Bank has conducted various stress testing on its liquidity ratios and is confident that the liquidity buffer currently maintained by the Bank is sufficient to cater any adverse movement in cash flow maturity profile.

6.1.3 Equity investments

The Bank has investment in equity securities and despite SBP relaxation, has taken the full impact of impairment in these unconsolidated condensed interim financial statements.

6.1.4 Foreign Exchange Risk

Due to recent economic slowdown, the PKR has been devalued against USD significantly from December 31, 2019 and the USD / PKR parity stood at Rs 165.70 as at September 30, 2020. The exchange rate is expected to remain volatile till the uncertainty around COVID 19 resolves. The ALCO continuously monitors Net Open Positions and believes that it has no significant impact on profit and loss account.

6.1.5 Operations

The Bank is closely monitoring the situation and has invoked required actions to ensure safety and security of staff and an uninterrupted service to our customers. The senior management of the Bank is continuously monitoring the situation and is taking timely decisions to resolve any concerns. Business Continuity Plans (BCP) for respective areas are in place and tested. The Bank has significantly enhanced monitoring for all cyber security risk during these times from its information security protocols. The remote work capabilities were enabled for staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network ("VPN") connections. Further, the Bank has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber attacks.

The Bank is communicating with its customers on how they can connect with the Bank through its full suite of channels including digital and online channels. The Bank has taken all measures to ensure that service levels are maintained, customer complaints are resolved as per SLAs and the Bank continues to meet the expectations of their clients as they would in a normal scenario.

6.1.6 Capital Adequacy Ratio

Under the current scenario, the Banks are under pressure to extend further credit to its borrowers, while overall deteriorating credit risk and increased NPL may also put additional pressures on the Bank from Capital Adequacy Ratio perspective. The SBP has relaxed the Capital Conversion Buffer (CCB) requirements for the banks to 1.5%, resulting in an overall CAR requirement of 11.5%. The reduced CCB has also provided an additional limit to the Bank for its tier 2 capital. Further, the regulatory limit for retail loans has also been increased by SBP to Rs.180 million, which will now result in reduced Risk Weighted Assets for some of its loans in this asset class. In addition to the measures by SBP, the Senior management of the Bank is continuously monitoring the impacts of various decisions on the Bank's CAR and taking further lending decisions based on the overall impacts on RWA. The Bank also believes that it has sufficient buffer in its CAR requirement to meet any adverse movements in credit, market or operational risks.

6.1.7 Impacts of Covid 19 on statement of financial position & profit and loss account

Impacts of Covid 19 on statement of financial position & profit and loss account is disclosed in note 6.1.1.

30 WORKERS WELFARE FUND

Through Finance Act 2008, the Federal Government introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged and conflicting judgments were rendered by various courts. Appeals against these orders were filed in the Honourable Supreme Court.

The Honourable Supreme Court of Pakistan vide its order dated November 10, 2016 held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue filed review petitions against the above judgment. These petitions are currently pending with the Honourable Supreme Court of Pakistan.

A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petition is decided. Accordingly, the amount charged for Workers Welfare Fund since 2008 has not been reversed.

36 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

36.1 Fair value of financial instruments

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 36.2 Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 14. The valuations are conducted by the valuation experts appointed by the Bank who are on the panel of State Bank of Pakistan.
- 36.3 The Bank's policy is to recognise transfers into and out of the different fair value hierarchy levels at the date the event or change in circumstances that caused the transfer occurred. There were no transfers between levels 1 and 2 during the current period.

36.4 Valuation techniques used in determination of fair values:

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, Overseas Government Sukuks, Overseas and Euro Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

| ltem | Valuation approach and input used |
|--|--|
| Forward foreign exchange contracts | The valuation has been determined by interpolating the FX revaluation rates announced by State Bank of Pakistan. |
| Interest rate swaps | The fair value of interest rate swaps and futures is determined using prices and curves through Bloomberg. |
| Market Treasury Bills(MTB) / Pakistan Investment Bonds(PIB), and GoP Sukuks (GIS) | The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates. |
| Overseas Government Sukuks, Overseas and Euro Bonds | The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of price available on Bloomberg. |
| Debt Securities (TFCs) and Sukuk other than Government | Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. |
| Ordinary shares - listed | The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange. |
| Operating fixed assets and non banking assets acquired in satisfaction of claims | The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations can not be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements. |

40.9 Pls Pool Management- Islamic Banking Group (IBG)

40.9.1 The pools, their key features and risk and reward characteristics.

The profit and loss sharing between the Rabbul Maal (depositor) and Mudarib (Bank - IBG) is based upon the underlying principles of Mudaraba, where Bank also contributes its equity to general pool of funds, and becomes the capital provider.

Currently IBG is managing following pools:

- 1) General Pool for LCY Depositors
- 2) FCY Pool for Foreign Currency (USD, GBP and EURO) depositors
- 3) Fls Pool for Treasury Purposes
- 4) IERS Pool for Islamic Export Refinance Scheme facilities
- 5) Special pool

All the Mudaraba based Remunerative deposits shall be considered as an investment from Rabbul Maal in the pool, along with IBG's own share of equity, which is also commingled in the pool. The applications of these funds are on Advances, Investments, and Placements for generating profits to be shared among the depositors as per the Weightage system.

The IERS pool is maintained as per the guideline under SBP IERS Scheme.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

EINANCIAI DISK MANAGEMENT

The financial risk management objectives and policies adopted by the Group are consistent with those disclosed in the consolidated financial statements for the year ended December 31, 2019, except for the following additional considerations due to the COVID - 19:

6.1 Risk management in the current economic scenario

The COVID - 19 and the measures to reduce its spread has impacted the economy of Pakistan significantly. Regulators and governments across the globe have introduced fiscal and economic stimulus measures to mitigate its impact.

The State Bank of Pakistan (SBP) has responded to the crisis by cutting the policy rate by 625 basis points to 7 percent and by introducing regulatory measures to maintain banking system soundness and to sustain economic activity. These include (i) reducing the capital conservation buffer by 100 basis points to 1.5 percent; (ii) increasing the regulatory limit on extension of credit to SMEs by 44 percent to Rs 180 million; (iii) relaxing the debt burden ratio for consumer loans from 50 percent to 60 percent; (iv) allowing banks to defer clients' payment of principal on loan obligations by one year; and (v) relaxing regulatory criteria for restructured/rescheduled loans for borrowers who require relief beyond the extension of principal repayment for one year.

COVID 19 has impacted the banks in Pakistan from various facets which includes increase in overall credit risk pertaining to loans and advances portfolio in certain sectors, reduced fee income due to slowdown in economic activity, operational issues such as operations of Branches, managing cyber security threat and managing investment banking activities including arrangement of syndicate loans, debt and capital advisory services etc. Major aspects of COVID 19 on the Bank is discussed below:

6.1.1 Assets quality and credit risk

The Credit & Risk Management Group of the Bank is regularly conducting assessments to identify borrowers operating in various sectors which are most likely to get affected. Since many of such covid affected borrowers have availed the SBP enabled deferment / restructuring & rescheduling relief, the full potential effect of the economic stress is difficult to predict given the uncertain economic environment. The Bank anticipates that it is appropriate to maintain a general loan loss reserve given the uncertainty that may prevail until the pandemic is over. Accordingly, the management of the Bank has estimated a general provision of Rs. 3,500 million which approximates to 2.3% of the restructured portfolio as at September 30, 2020. Had this change of estimate not been made, advances and the profit after tax for the nine months period ended would have been higher by Rs. 3,500 million and Rs. 2,275 million respectively.

The Bank has further strengthened its credit review procedures in the light of COVID 19. The Bank has also conducted various stress tests on the Credit portfolio and is confident that the CAR buffer currently maintained is sufficient.

6.1.2 Liquidity management

The Bank has received applications for deferral of principal and / or restructuring / rescheduling and is expected to receive further such applications. These applications are being reviewed by the bank as per its established policies. The Asset and Liability Committee (ALCO) of the Bank is continuously monitoring the liquidity position and is taking due precautionary measures where needed. The Bank has conducted various stress testing on its liquidity ratios and is confident that the liquidity buffer currently maintained by the Bank is sufficient to cater any adverse movement in cash flow maturity profile.

6.1.3 Equity investments

The Bank has investment in equity securities and despite SBP relaxation, has taken the full impact of impairment in these consolidated condensed interim financial statements.

6.1.4 Foreign Exchange Risk

Due to recent economic slowdown, the PKR has been devalued against USD significantly from December 31, 2019 and the USD / PKR parity stood at Rs 165.70 as at September 30, 2020. The exchange rate is expected to remain volatile till the uncertainty around COVID 19 resolves. The ALCO continously monitors Net Open Positions and believes that it has no significant impact on profit and loss account...

6.1.5 Operations

The Bank is closely monitoring the situation and has invoked required actions to ensure safety and security of Bank staff and an uninterrupted service to our customers. The senior management of the Bank is continuously monitoring the situation and is taking timely decisions to resolve any concerns. Business Continuity Plans (BCP) for respective areas are in place and tested. The Bank has significantly enhanced monitoring for all cyber security risk during these times from its information security protocols. The remote work capabilities were enabled for staff and related risk and control measures were assessed to make sure they are fully protected using virtual private network ("VPN") connections. Further, the Bank has also ensured that its remote access systems are sufficiently resilient to any unwanted cyber attacks.

The Bank is communicating with its customers on how they can connect with the Bank through its full suite of channels including digital and online channels. The Bank has taken all measures to ensure that service levels are maintained, customer complaints are resolved as per SLAs and the Bank continues to meet the expectations of their clients as they would in a normal scenario.

6.1.6 Capital Adequacy Ratio

Under the current scenario, the Banks are under pressure to extend further credit to its borrowers, while overall deteriorating credit risk and increased NPL may also put additional pressures on the Bank from Capital Adequacy Ratio perspective. The SBP has relaxed the Capital Conversion Buffer (CCB) requirements for the banks to 1.5%, resulting in an overall CAR requirement of 11.5%. The reduced CCB has also provided an additional limit to the Bank for its tier 2 capital. Further, the regulatory limit for retail loans has also been increased by SBP to Rs.180 million, which will now result in reduced Risk Weighted Assets for some of its loans in this asset class. In addition to the measures by SBP, the Senior management of the Bank is continuously monitoring the impacts of various decisions on the Bank's CAR and taking further lending decisions based on the overall impacts on RWA. The Bank also believes that it has sufficient buffer in its CAR requirement to meet any adverse movements in credit, market or operational risks.

6.1.7 Impacts of Covid 19 on statement of financial position & profit and loss account

Impacts of Covid 19 on statement of financial position & profit and loss account is disclosed in note 6.1.1.

30 WORKERS WELFARE FUND

Through Finance Act 2008, the Federal Government introduced amendments to the Workers' Welfare Fund (WWF) Ordinance, 1971 whereby the definition of industrial establishment was extended. The amendments were challenged and conflicting judgments were rendered by various courts. Appeals against these orders were filed in the Honourable Supreme Court.

The Honourable Supreme Court of Pakistan vide its order dated November 10, 2016 held that the amendments made in the law introduced by the Federal Government for the levy of Workers Welfare Fund were not lawful. The Federal Board of Revenue filed review petitions against the above judgment. These petitions are currently pending with the Honourable Supreme Court of Pakistan.

A legal advice was obtained by the Pakistan Banking Association which highlights that consequent to filing of these review petitions, a risk has arisen and the judgment is not conclusive until the review petition is decided. Accordingly, the amount charged for Workers Welfare Fund since 2008 has not been reversed.

36 FAIR VALUE MEASUREMENTS

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted securities classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available financial statements. The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments. In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since these are either short-term in nature or, in the case of customer loans and deposits, are frequently repriced.

36.1 Fair value of financial instruments

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

- 36.2 Certain categories of fixed assets (land and buildings) and non banking assets acquired in satisfaction of claims are carried at revalued amounts (level 3 measurement) determined by professional valuers based on their assessment of the market values as disclosed in notes 12 and 14. The valuations are conducted by the valuation experts appointed by the Bank which are also on the panel of State Bank of Pakistan.
- **36.3** The Group's policy is to recognize transfers into and out of the different fair value hierarchy levels at the date of the event or change in circumstances that caused the transfer, occurred. There were no transfers between levels 1 and 2 during the current period.

36.4 Valuation techniques used in determination of fair values:

(a) Financial instruments in level 1

Financial instruments included in level 1 comprise of investments in ordinary shares of listed companies.

(b) Financial instruments in level 2

Financial instruments included in level 2 comprise of Market Treasury Bills, Pakistan Investment Bonds, GoP Sukuks, Overseas Government Sukuks, Overseas and Euro Bonds, Term Finance Certificates, and other than Government Sukuks, forward foreign exchange contracts, and interest rate swaps.

(c) Financial instruments in level 3

Currently, no financial instruments are classified in level 3.

The fair value of unquoted debt securities, fixed term loans, other assets, other liabilities, fixed term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

| ltem | Valuation approach and input used |
|--|---|
| Forward foreign exchange contracts | The valuation has been determined by interpolating the FX revaluation rates announced by State Bank of Pakistan. |
| Interest rate swaps | The fair value of interest rate swaps and futures is determined using prices and curves through Bloomberg. |
| Market Treasury Bills(MTB) / Pakistan Investment Bonds(PIB), and GoP Sukuks (GIS) | The fair value of MTBs and PIBs are derived using PKRV rates. GIS are revalued using PKISRV rates. Floating rate PIBs are revalued using PKFRV rates. |
| Overseas Government Sukuks, Overseas and Euro Bonds | The fair value of Overseas Government Sukuks, and Overseas Bonds are valued on the basis of price available on Bloomberg. |
| Debt Securities (TFCs) and Sukuk other than Government | Investment in WAPDA Sukuks, debt securities (comprising term finance certificates, bonds and any other security issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan. |
| Ordinary shares - listed | The fair value of investments in listed equity securities are valued on the basis of closing quoted market price available at the Pakistan Stock Exchange. |
| Operating fixed assets and non banking assets acquired in satisfaction of claims | The valuation experts used a market based approach to arrive at the fair value of the Bank's properties. The market approach used prices and other relevant information generated by market transactions involving identical or comparable or similar properties. These values are adjusted to reflect the current condition of the properties. The effect of changes in the unobservable inputs used in the valuations can not be determined with certainty accordingly a qualitative disclosure of sensitivity has not been presented in these condensed interim consolidated financial statements. |
