DIRECTORS' REVIEW

The Directors of your company are pleased to present the Condensed Interim Financial Information of your company for the first quarter ended September 30, 2020.

COMPANY PERFORMANCE

Analysis of key operating results for the current period in comparison with the previous period is given below:

September 30	
2020	2019
Rupees in thousa	
330,565	423,511
36,743	(6,087)
25,004	(28,909)
31,485	35,329
7,699	(55,348)
4,021	(55,882)

	2020 Rupees in 330,565 36,743 25,004 31,485 7,699 4,021

As stated above, the company has achieved net positive financial results during the period i.e. gross profit is 11.12% of the net revenue as compared to (1.44%) gross loss in the corresponding period. However, the decrease in revenue of the company is because of discontinuation of pharmaceutical operations at Unit - I (HUB) which was operative in corresponding period.

Despite of the obstructive impacts of Covid-19 in last quarters, the management remained successful to capture the targeted market responses and promoted the tableware glass products by offering competitive market prices with improved quality products at low weight which helped the company to achieve better retention during the period. Since the management had planned to expand the tableware glass operations at Unit - III (Kot Abdul Malik) consequently, during the period, the company has established letter of credits for the procurement of Furnace Bricks and other ancillary material including moulds and store items. Refurbishment of the second furnace would enhance the operational capacity by double of the existing capacity.

During the period, the company generated sufficient cashflows which helped to pay off its banks' liabilities by Rs 7.70 million and also reduced the overdraft limit by Rs 113.551 million.

The operations at Unit - I & II are still suspended and management intends to replan the operational strategies at these Units after successful expansion of tableware glass operations at Unit - III and subject to availability of funds. However, the management is fully committed to resolve all the operational related matters and revive these projects.

The Board of Directors appreciates the assistance and co-operation extended by our banks and other financial institutions. The Board recognizes and value dedication and commitment demonstrated by all the employees and contractors of the Company as well as support & cooperation extended by our distributors, dealers, suppliers and other stakeholders of the company

For and on behalf of Board of Directors

During the period, the Company has established letter of credit at sight for the procurement of furnance bricks to enhance the operational capacity of tableware glass production at Unit - $\rm III$ (kot abdul malik) and has paid 30% advance under this arrangement.

14 LONG TERM INVESTMENT

This represents investment in Paidar Hong Glass (Private) Limited (an associated company which is a joint venture between the Company and Chinese investors) and has been accounted for under the equity method of accounting.

During the previous years, some of the machinery items have reached the Associated Company's premises, however, the machinery has not been installed yet as the project is stagnant from previous years till period end because of non execution of contractual responsibility by Chinese investors with respect to establishing, running and functioning of project. The management has assessed that impairment on this investment is not required because the estimated recoverable value of machinery is covering the carrying amount of the machinery and majority of the funds are still available in savings bank accounts of the investee company.

The management has also assessed that the expected fair value of the investment does not materially differ from the carrying amount of the investment at period-end and therefore, the Company has not accounted for its share of profit from the associated company. Further, audited financial statements of the associated company is also not available.
