## IN THE NAME OF ALLAH THE MOST BENEFICENT AND MERCIFUL

The Directors are pleased to present the un-audited financial statements of your Company for the first quarter ended on September 30, 2020.

#### FINANCIA LAND OPERATIONAL OVERVIEW

The principal activity of the Company is manufacturing and sale of yarn During the period under review there has not been any material change in the Company's business activities.

During the period the Company's turnover amounted to Rs. 801.07 million as compared to Rs. 865.75 million in the same period of last year. Gross profit amounted to Rs. 73.59 million compared to Rs. 70.10 million for the corresponding period and profit after tax amounted to Rs. 9.61 million against loss after tax of Rs. 14.23 million in the comparable period earning per share amounted to Re. 0.48 as against loss per share of Re. 0.72 in the same period of last year.

By the grace of Allah, the Company closed the quarter under review in profit and the management has successfully steered the Company in the challenging economic environment prevalent in the Country post COVID-19 lockdowns. The Company's financial cost has also reduced in the first quarter of FY 21 as compared to the same period of FY20. Gross profit percentage has also improved as compared to the corresponding period. Pakistan's economy has started to rebound in the first quarter of FY21. Timely action by the Government has helped in restoring confidence of the business community. The State Bank of Pakistan (SBP) also took a number of measures to help the companies in managing their cash flows that were affected due to the lockdowns.

#### **FUTURE OUTLOOK**

We believe that the pace of Pakistan's economic revival will gain momentum in FY21 and, with a phenomenal increase in online retailing around the world, the demand for Pakistan's textile products is likely to rise substantially. A sizeable improvement in exports can give a boost to the Company's turnover and improve profitability in the coming months. We are already seeing that global retailers' demand for goods from South Asian Region is picking up and we hope to see an improvement in export orders, especially from China and we also expect greater demand from the local market. Other major factors that directly impact the financial results are; Pak Rupee vs US Dollar parity, decision on discount rate by SBP and energy tariff for the textile sector. The Company's management remains fully cognizant of the developments and is committed to ensure safeguard of stakeholders' interest.

#### **DIRECTORS' REMUNERATION**

The Company does not pay remuneration to its non-executive directors including independent directors except for meeting fee. Aggregate amount of remuneration paid to directors have been disclosed in note 12 of the annexed financial statements.

#### **ACKNOWLEDGEMENT**

The Board is thankful to all the stakeholders for their co-operation and trust

For and on behalf of the Board
