

Systems Limited Named in Forbes *Asia's Best Under A Billion* Companies

November 23, 2020 – Systems Limited has become the only technology organization from Pakistan to be named under Forbes Asia's list of *Best Under A Billion* companies. The virtual forum and awards ceremony celebrated the success of the companies that made it to the well-researched list of 200 organizations from the Asia-Pacific region with less than \$1 billion in revenue and consistent top- and bottom-line growth. The companies have demonstrated exceptional performance and scored above their peers in a composite score that includes sales and profit growth, low debt levels, and robust governance. While making the selections, diversity of companies across the region was also ensured.

“This is an extremely proud moment for the entire team including all the employees, stakeholders, partners, principals, and our shareholders who have trusted us in our leadership. I would like to congratulate all the employees who have put their heart and soul in delivering success to us,” said Mr. Asif Peer, CEO and Managing Director of Systems Limited. “This only happened because of our customer centricity, culture, values, and employee ownership, and we are extremely proud to generate employment in Pakistan and being recognized on the global map, as we truly believe Pakistan and us have humongous potential. I truly believe that we can achieve the heights that we envision,” he further added.
