**CLOVER PAKISTAN LIMITED**  
**NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS**  
**FOR THE NINE MONTHS PERIOD ENDED MARCH 31, 2020**

**5 SIGNIFICANT ACCOUNTING INFORMATION AND POLICIES**

5.1 The accounting policies and methods of computation adopted for the preparation of these condensed interim financial statements are the same as those applied in the preparation of the financial statements for the year ended June 30, 2019, except for the adoption of IFRS 16 "Leases". The accounting policy adopted by the Company is as follows:

5.1.1 IFRS 16 'Leases' replaces the previous lease standard "IAS 17 Leases". It will result in almost all leases being recognised on the statement of financial position, as the distinction between operating and finance leases has been removed. Under the new standard, an asset (the right to use the leased item) and a financial liability to pay rentals are recognised. The only exceptions are short term and low value leases. The associated Right-of-use (RoU) for finance leases were measured on a retrospective basis as if the new rules had always been applied.

Management of the Company has assessed the changes laid down by these standards and determined that these do not have any significant impact on these condensed interim financial statements of the Company.

The change in accounting policy affected the following items in the condensed interim statement of financial position and it has no effect on profit and loss account :

	<b>(Un-audited)</b>	(Audited)
	<b>March 31,</b>	June 30,
	<b>2020</b>	2019
	<b>(Rupees in '000')</b>	
Operating fixed assets – decreased by	(7,494)	(5,457)
Right-of-use asset – increased by	7,494	5,457
Liability against assets subject to finance lease - decreased by	(4,977)	(4,809)
Lease liabilities - increased by	4,977	4,809

The above figures have been reclassified wherever necessary to reflect more appropriate presentation.

**5.1.2 LEASE LIABILITY AND RIGHT-OF-USE ASSET**

At inception of a contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

From 1 July 2019, leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Company.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate

Lease payments include fixed payments, variable lease payments that are based on an index or a rate expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

**CLOVER PAKISTAN LIMITED**

**NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS  
FOR THE NINE MONTHS PERIOD ENDED MARCH 31, 2020**

---

The lease liability is subsequently measured at amortised cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the condensed interim statement of profit or loss and condensed interim statement of comprehensive income if the carrying amount of right-of-use asset has been reduced to zero.

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received. The right-of-use asset is depreciated on a straight line method at the rates given in note 6 to the annual financial statements for the year ended June 30, 2019. The right-of-use asset is reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The Company has elected to apply the practical expedient not to recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low-value assets. The lease payments associated with these leases is recognised as an expense on a straight line basis over the lease term.

**6 USE OF JUDGEMENTS AND ESTIMATES AND FINANCIAL RISK MANAGEMENT**

The estimates / judgments and associated assumptions used in the preparation of these condensed interim financial statement are consistent with those applied in the preparation of the financial statements of the Company for the year ended June 30, 2019.

The Company's financial risk management objectives and policies are consistent with those disclosed in the financial statements as at and for the year ended June 30, 2019.

**7 FUNCTIONAL AND PRESENTATION CURRENCY**

These condensed interim financial statements are presented in Pakistani Rupees which is also the Company's functional currency.

14.1 In the year 2009, the Federal Government issued SRO 787(1)/2008 dated July 26, 2008 under Section 19 of Customs Act, 1969 (the Act) whereby, the customs duty on import of crystalline sugar was brought down to zero, as against 25% given in First Schedule to the Act. The Company had imported crystalline sugar from July 26, 2008 to October 15, 2008 and paid custom duty of Rs.17.012 million and Rs.3.986 million without availing the benefit of subject SRO. Thereafter, the refund claims were filed by the Company with the custom Authorities and recognized the same in books of account during the year ended June 30, 2009. The refund claims were rejected by the Additional Collectorate on the ground that the incidence of duty and taxes has been passed on to the end consumers by incorporating it in the cost of the product.

Being aggrieved with decision of Additional Collectorate, the Company had filed appeals before the Collector of Customs as well as before the Appellate Tribunal in the year ended June 30, 2010 and 2011 respectively, which were also rejected on the same grounds. The Company later filed references in the Honorable High Court of Sindh (SHC) against the judgments of the Appellate Tribunal. Regarding the reference of Rs.17.012 million, the SHC vide its order dated May 28, 2015 had allowed the reference application and remanded the case to the Customs Appellate Tribunal for decision afresh on the basis of the evidence produced before the Tribunal to establish that the burden of tax under Section 19-A of the Act has not been passed on to the end consumer. The Customs Appellate Tribunal vide its order dated June 17, 2016 has decided the case in favor of the Company and has directed the tax department to refund the claim to the Company. The custom authorities have subsequently filed an appeal in the SHC which is pending.

**CLOVER PAKISTAN LIMITED**  
**NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS**  
**FOR THE NINE MONTHS PERIOD ENDED MARCH 31, 2020**

On the other hand, the Divisional Bench of the SHC dismissed the reference for Rs.3.986 million in 2012. The Company filed appeal against the decision of the SHC before the Honorable Supreme Court of Pakistan (SCP) on the grounds that none of the forums above, including the SHC, had examined the evidence produced to establish that the burden of duty and taxes has not been passed on to the end consumer. The SCP in order to examine this question granted leave in the petition.

The management, based on the view of its legal counsel, is confident that the issue raised by the Customs Authorities is without any basis and the ultimate decision of refund will be in favor of the Company. Accordingly, the Company has maintained the already recognised refund claims of Rs. 20.998 million and is of the view that no provision for impairment loss is required to be made in these condensed interim financial statements.
