There had been a downward trend in the demand of sugar consumption due to the spread of COVID-19 pandemic and the resultant lockdown in the country, which has led to closure of restaurants and bans on social gatherings which has severely affected national and global economics. Due to scarcity of sugar cane in surrounding areas of mills and current liquidity crunch resulting from persistent losses. The company is striving hard to be fully operational in next financial year subject to the availability of sugar cane.

The Board would like to place on record its appreciation of all the employees of the company for their dedication and hard work.

For and on behalf of the Board of Directors

Muhammad Dawood
Chief Executive Officer

1) STATUES AND NATURE OF COM PANY

The Company was incorporated in Pakistan on February 25, 1984 as a Private Limited Company and was subsequently converted into a Public Limited Company on February 11, 1990. The Company is listed in Pakistan Stock Exchange. The principal business of the Company is manufacturing and selling of refined sugar and by products.

2) BASIS OF PREPARATION

2.1) Statement of Compliance

These financial statements have been prepared in accordance with the approved accounting standards as applicable in Pakistan. Approved accounting standards comprise of such International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) and Islamic Financial Accounting Standars (IFAS) issued by the Institute of Chartered Accountants of pakistan as are notified under the Companies Ordinance, 1984, the requirements of the Companies Ordinance, 1984 and the directives issued by the Securities and Exchange Commission of Pakistan (SECP). Wherever the requirements of the Companies Ordinance, 1984, or directives issued by the SECP differ with the requirements of IFRSs, the requirements of the Companies Ordinance 1984 or the said directives issued by the SECP prevail.

2.2) Accounting Convention

These financial statements have been prepared under the "historical cost convention" except of certain classes of property, plant and equipments which are stated at revalued amount and employee retirement benefits which are stated at fair value.

3) SIGNIFICANT ACCOUNTING JUDGM ENTS, ESTIMATES AND ASSUM PTIONS

The preparation of financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors involving a higher degree of expectations of future events that are believed to be reasonable under the circumstances.

3.1) Employee Benefits

The cost of defined benefit retirement plan (gratuity) is determined using actuarial valuations (projected unit credit method) performed by independent actuaries. The actuarial valuation involves making assumptions about discount rates, future salary increases, and mortality rates. All assumptions are reviewed at each reporting date.

3.2) Taxation

In making the estimate for income tax payable by the Company, the Company takes into account the applicable tax laws and the decision by appellate authorities on certain issues in the past.

3.3) Property, Plant and Equipment

The Company reviews appropriateness of the rate of depreciation and useful life used in the calculation of depreciation. Further, where applicable, an estimate of the recoverable amount of assets is made for possible impairment on an annual basis. In making these estimates, the Company uses the technical resources available with the Company. Any change in the estimates in the future might affect the carrying amount of respective item of property, plant and equipment, with corresponding effects on the depreciation charge and impairment.

3.4) Inventories

The Company reviews the net realizable value of stock in trade and stores and spare parts to assess any diminution in the respective carrying values. Net realizable value is estimated with reference to the estimated selling price in the ordinary course of business less the estimated cost necessary to make the sale.

- c) Negotiations with all the secured creditors and financial institutions to restructure the liabilities on long-term basis are underway and some financial institutions have restructured their facilities and management expects that the remaining will alsol turnout successful; and
- d) There will be a persistent financial support from sponsors to enable Company to survive as a 'going concern'.
- e) Further, the management is actively pursuing a plan to reduce cost and to increase the efficiency of mills. Accordingly the going concern assumption used in preparation of these financial statements is justified.
