# **Director's Report**

On behalf of the Board, I present my review on the performance of the Company during the half year ended June 30, 2021.

#### The Economy

Government introduced number of credit incentives and fiscal measures for revival of economy and limiting the economic damage on businesses. Since third quarter of 2020, post lockdown environment in Pakistan witnessed positive signs in key economic indicators. Large-scale manufacturing (LSM) sector witnessed growth around 15% during financial year 2020-21 over 2019-20. Exports during financial year 2020-21 achieved more than US\$ 25 billion, registering a handsome growth of 11%. Further, remittances have performed strongly on the back of supportive policy steps taken by the SBP under the Digital Pakistan account. However, sharp depreciation in Pak Rupee against US dollar was noticed as trade deficit widens from June 2021. Inflation for Financial Year 2020-21 was recorded at 8.9%. Given uncertainty persisting amid the fourth wave of COVID-19, we expect SBP to continue with its existing strategy of supporting economic activity with no change in interest rates in calendar year 2021.

#### **Industry Outlook**

Recovery in auto sales volumes was witnessed from 4th quarter of 2020. Overall economic condition of country showed signs of recovery. Main factors contributing to recovery of automobile sector were increase in car financing volumes driven by low interest rates, increase in disposable income in the hand of customers due to increase in foreign remittances and improved agricultural income.

During the period (January – June 2021), sales volume of auto industry for cars and light commercial vehicles was recorded at 94,059 units compared to 44,134 units in corresponding period of last year, registering an improvement of 113%. Sales volume of your Company during the half year January - June 2021 increased by 135% from 21,269 units to 50,131 units, outperforming industry trend by more than 20%. The total sales volume of the Company represented 53% market of cars and light commercial vehicles within PAMA member companies. Your Company adjusted its production according to demand and achieved production volume of 54,538 units. Capacity utilization remained at 72%.

During the period under review, the organized market (PAMA member companies) for motorcycles and three wheelers increased from 570,185 units to 953,061 units. Increase of 382,876 units represents 67% improvement in sales volume over same period of last year. Your Company achieved sales volume of 14,333 units as compared to sales volume of 5,937 units in corresponding period of last year, registering an increase of 120%.

#### **Operating Results of your Company**

The Company earned net profit of Rs 1,197 million compared to net loss of Rs 2,463 million in same period of last year. Net sales revenues increased by Rs 38,631 million from Rs 27,479 million (Jan-Jun 2020) to Rs 66,110 million (Jan- Jun 2021). Sales revenue increased by 141% in

# **Director's Report**

current period due to recovery in sales volume. Gross profit increased in absolute terms by Rs 3,994 million from gross loss of Rs 40 million (Jan-Jun 2020) to gross profit of Rs 3,955 million (Jan-Jun 2021). Gross profit margins as a percentage of net sales improved from negative margin of 0.14% to positive margin of 6%. Further, improvement in liquidity position of the Company contributed to reduction in financial charges and increase in interest income. Financial charges reduced by Rs. 1,649 million from Rs. 1,941 million in 2020 to Rs. 292 million in 2021.

#### **Future Outlook & Conclusion**

We appreciate the incentives announced in Federal Budget 2021-22 for auto industry. Major incentives were allowed to vehicles up to 1000cc which includes removal of Federal Excise Duty (FED), reduction in sales tax rate to 12.5% and abolishment of Additional Customs Duty (ACD). For higher segment vehicles, FED reduced by 2.5% and ACD reduced to 2%. Consequently, OEMs passed on above incentives to customers by reducing the prices. Another relief is reduction in minimum income tax from 1.5% to 1.25% of turnover to support low margin companies. Conducive macro environment coupled with single-digit interest rate, reduction in prices of vehicles and influx of new models will contribute for robust demand of vehicles.

Long term consistent policies are vital for growth of auto industry. Current auto policy was applicable for the period 2016 to 2021 and new auto policy is expected to be announced in near future. It is expected that new auto policy will be industry-friendly by offering incentives to OEMs and vendors.

Uncertainty still prevails due to fourth wave of COVID-19. Yet the Company is endeavoring to improve sales, profitability and diversity in its operations by upgrading the existing products and offers quality products to customers at competitive prices through an efficient network of authorized dealers.

#### **Report on Review of Interim Financial Statements**

#### **Independent Auditor's Review Report**

#### To the members of Pak Suzuki Motor Company Limited

#### Introduction

We have reviewed the accompanying condensed interim statement of financial position of Pak Suzuki Motor Company Limited ("the Company") as at 30 June 2021 and the related condensed interim statement of profit or loss, the condensed interim statement of comprehensive income, the condensed interim statement of changes in equity, the condensed interim statement of cash flows and notes to the financial statements for the six months period then ended (here-in-after referred to as "interim financial statements"). Management is responsible for the preparation and presentation of these interim financial statements in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on these interim financial statements based on our review.

#### **Scope of Review**

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

#### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting.

#### For the six months period ended 30 June 2021

#### 1. STATUS AND NATURE OF BUSINESS

1.1 Pak Suzuki Motor Company Limited ("the Company") was incorporated in Pakistan as a public limited company in August 1983 and started commercial production in January 1984. The Company was formed in accordance with the terms of a joint venture agreement concluded between Pakistan Automobile Corporation Limited ("PACO") and Suzuki Motor Corporation (SMC), Japan (the Holding Company) having registered address of 300 Takatsuka-Cho, Minami-Ku, Hamamatsu City. In 1996, the joint venture agreement was ended and PACO divested its entire shareholding to SMC. The Company is engaged in the assembling, progressive manufacturing and marketing of Suzuki cars, pickups, vans, 4x4s and motorcycles and related spare parts. The Company is listed on Pakistan Stock Exchange Limited. The registered office of the Company is situated at DSU – 13, Pakistan Steel Industrial Estate. Bin Qasim, Karachi.

#### 1.2 Tecno Auto Glass Limited

Tecno Auto Glass Limited ("TAG") is a company incorporated in Pakistan as a public limited company under the repealed Companies Ordinance, 1984 (now Companies Act, 2017) on 16 March 2017. The registered office of TAG is situated at 255 A, Block 6, P.E.C.H.S, Shahrah-e-Faisal, Karachi. The manufacturing plant of TAG is set up at Bin Qasim National Industrial Parks - Special Economic Zone for manufacturing of auto glass. TAG had entered into a technical assistance agreement with Asahi India Glass Limited ("AIS") under which AIS has granted to TAG a right and license to use technical information to manufacture its products.

TAG is a joint venture of Tecno Pack Telecom (Private) Limited, which owns 60% of the shares of TAG, while remaining 40% of the shares were acquired by the Company.

#### 2. BASIS OF PREPARATION

#### 2.1 Statement of compliance

These condensed interim financial statements for the six months period ended 30 June 2021 have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards as applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standards (IAS) 34 "Interim Financial Reporting" issued by the
   International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

#### For the six months period ended 30 June 2021

2.2 These condensed interim financial statements do not include all the information and disclosures as required in the annual financial statements, and should be read in conjunction with the Company's annual audited financial statements for the year ended 31 December 2020. However, selected explanatory notes are included to explain the events and transactions that are significant to an understanding of the changes in Company's financial position and performance since the last annual financial statements.

#### 2.3 Basis of measurement

These condensed interim financial statements have been prepared under the historical cost convention except as otherwise disclosed.

#### 2.4 Functional and presentation currency

These condensed interim financial statements are presented in Pakistan Rupees which is also the Company's functional and presentational currency. Figures in these condensed interim financial statements have been rounded off to the nearest thousand rupees, unless stated otherwise.

# 2.5 Standards, interpretations and amendments to accounting and reporting standards that are not yet effective

The following International Financial Reporting Standards (IFRS Standards) as notified under the Companies Act, 2017 and the amendments and interpretations thereto will be effective for accounting periods beginning on or after 01 July 2021:

- Interest Rate Benchmark Reform Phase 2 which amended IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 is applicable for annual financial periods beginning on or after 1 January 2021, with earlier application permitted. The amendments introduce a practical expedient to account for modifications of financial assets or financial liabilities if a change results directly from IBOR reform and occurs on an 'economically equivalent' basis. In these cases, changes will be accounted for by updating the effective interest rate. A similar practical expedient will apply under IFRS 16 for lessees when accounting for lease modifications required by IBOR reform. The amendments also allow a series of exemptions from the regular, strict rules around hedge accounting for hedging relationships directly affected by the interest rate benchmark reforms. The amendments apply retrospectively with earlier application permitted. Hedging relationships previously discontinued solely because of changes resulting from the reform will be reinstated if certain conditions are met.
- COVID-19-Related Rent Concessions (Amendment to IFRS 16) the International Accounting Standards Board (the Board) has issued amendments to IFRS 16 (the amendments) to provide practical relief for lessees in accounting for rent concessions. The amendments are effective for periods beginning on or after 1 June 2020, with earlier application permitted. Under the standard's previous requirements, lessees assess whether rent concessions are lease modifications and, if so, apply the specific guidance on accounting for lease modifications. This generally involves remeasuring the lease liability using the revised lease payments and a revised discount rate. In light of the effects of the COVID-19 pandemic, and the fact that many lessees are applying the standard for the first time in their financial statements, the Board has provided an optional practical expedient for lessees. Under the practical expedient, lessees are not required to assess whether eligible rent concessions are lease modifications, and instead are permitted to account for them as if they were not lease modifications.

#### For the six months period ended 30 June 2021

The practical expedient introduced in the 2020 amendments only applied to rent concessions for which any reduction in lease payments affected payments originally due on or before 30 June 2021. In light of persistence of economic challenges posed by the COVID-19 pandemic, the Board has extended the practical expedient for COVID-19 related rent concessions by one year i.e. permitting lessees to apply it to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022.

Rent concessions are eligible for the practical expedient if they occur as a direct consequence of the COVID-19 pandemic and if all the following criteria are met:

- the change in lease payments results in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;
- any reduction in lease payments affects only payments originally due on or before 30 June 2022.
- there is no substantive change to the other terms and conditions of the lease.
- Onerous Contracts Cost of Fulfilling a Contract (Amendments to IAS 37) effective for the annual periods beginning on or after 01 January 2022 amends IAS 1 by mainly adding paragraphs which clarifies what comprises the cost of fulfilling a contract. Cost of fulfilling a contract is relevant when determining whether a contract is onerous. An entity is required to apply the amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments (the date of initial application). Restatement of comparative information is not required, instead the amendments require an entity to recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate, at the date of initial application.

The following annual improvements to IFRS standards 2018-2020 are effective for annual reporting periods beginning on or after 01 January 2022:

- IFRS 9 The amendment clarifies that an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other's behalf, when it applies the '10 per cent' test in paragraph B3.3.6 of IFRS 9 in assessing whether to derecognize a financial liability.
- IFRS 16 The amendment partially amends Illustrative Example 13 accompanying IFRS 16 by excluding the illustration of reimbursement of leasehold improvements by the lessor. The objective of the amendment is to resolve any potential confusion that might arise in lease incentives.
- IAS 41 The amendment removes the requirement in paragraph 22 of IAS 41 for entities to exclude taxation cash flows when measuring the fair value of a biological asset using a present value technique.
- Property, Plant and Equipment: Proceeds before Intended Use (Amendments to IAS 16) effective for annual periods beginning on or after 01 January 2022 clarifies that sales proceeds and costs of items produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management e.g. when testing etc., are recognized in profit or loss in accordance with applicable standards. The entity measures the cost of those items applying the measurement requirements of IAS 2. The standard also removes the requirement of deducting the net sales proceeds from cost of testing. An entity shall apply those amendments retrospectively, but only to items of property, plant and equipment that are brought to the location and condition necessary for them to be capable of operating in the manner intended by management on or after the beginning of the earliest period

#### For the six months period ended 30 June 2021

presented in the financial statements in which the entity first applies the amendments. The entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of that earliest period presented.

- Reference to the Conceptual Framework (Amendments to IFRS 3) Reference to the Conceptual Framework, issued in May 2020, amended paragraphs 11, 14, 21, 22 and 23 of and added paragraphs 21A, 21B, 21C and 23A to IFRS 3. An entity shall apply those amendments to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1 January 2022. Earlier application is permitted if at the same time or earlier an entity also applies all the amendments made by Amendments to References to the Conceptual Framework in IFRS Standards, issued in March 2018.
- Classification of liabilities as current or non-current (Amendments to IAS 1) amendments apply retrospectively for the annual periods beginning on or after 1 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2) the Board has issued amendments on the application of materiality to disclosure of accounting policies and to help companies provide useful accounting policy disclosures. The key amendments to IAS 1 include:
  - requiring entities to disclose their material accounting policies rather than their significant accounting policies;
  - clarifying that accounting policies related to immaterial transactions, other events or conditions are themselves immaterial and as such need not be disclosed; and
  - clarifying that not all accounting policies that relate to material transactions, other events or conditions are themselves material to an entity's financial statements.
- The Board also amended IFRS Practice Statement 2 to include guidance and two additional examples on the application of materiality to accounting policy disclosures. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.
- Definition of Accounting Estimates (Amendments to IAS 8) The amendments introduce a new definition for accounting estimates clarifying that they are monetary amounts in the financial statements that are subject to measurement uncertainty. The amendments also clarify the relationship between accounting policies and accounting estimates by specifying that a company develops an accounting estimate to achieve the objective set out by an accounting policy. The amendments are effective for periods beginning on or after 1 January 2023, and will apply prospectively to changes in accounting estimates and changes in accounting policies occurring on or after the beginning of the first annual reporting period in which the company applies the amendments.
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12) The amendments narrow the scope of the initial recognition exemption (IRE) so that it does not apply to transactions that give rise to equal and offsetting temporary differences. As a result, companies will need to recognise a deferred tax asset and a deferred tax liability for temporary differences arising on initial recognition of a lease and a decommissioning provision.

#### For the six months period ended 30 June 2021

For leases and decommissioning liabilities, the associated deferred tax asset and liabilities will need to be recognised from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. The amendments are effective for annual reporting periods beginning on or after 1 January 2023 with earlier application permitted.

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture (Amendments to IFRS 10 and IAS 28) – The amendment amends accounting treatment on loss of control of business or assets. The amendments also introduce new accounting for less frequent transaction that involves neither cost nor full step-up of certain retained interests in assets that are not businesses. The effective date for these changes has been deferred indefinitely until the completion of a broader review.

The above improvements are not likely to have significant impact on these condensed interim financial statements.

#### 3. ACCOUNTING ESTIMATES, JUDGEMENTS AND FINANCIAL RISK MANAGEMENT

The preparation of these condensed interim financial statements in conformity with accounting and reporting standards, as applicable in Pakistan, requires management to make estimates, assumptions and use judgements that affect the application of policies and reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates. Estimates, assumptions and judgements are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. During the preparation of these condensed interim financial statements, the significant judgements made by the management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited financial statements for the year ended 31 December 2020.

The Company's financial risk management objectives and policies are consistent with those disclosed in the audited financial statements for the year ended 31 December 2020.

#### 4. SIGNIFICANT ACCOUNTING POLICIES

Except as described below, the accounting policies applied in these condensed interim financial statements are the same as those applied in the Company's financial statements for the year ended 31 December 2020.

During the period Company availed State Bank of Pakistan's (SBP) Refinance Scheme for Temporary Economic Refinance Facility ('TERF') at markup of SBP rate plus 1%. As this rate was below the Company's borrowing rate, the difference has been classified as a government grant. For the government grant following accounting policy has been adopted.

#### 4.1 Government grants

Government grants related to assets are initially recognized as deferred income at fair value if there is a reasonable assurance that they will be received and the Company will comply with the conditions associated with the grant; they are then recognized in profit or loss as other income on a systematic basis over the useful life of the asset. Details are included in note 17.

#### **DEFERRED GOVERNMENT GRANT** 17.

This represents deferred government grant recognised in respect of the benefit of below-market interest rate on long-term finances as referred to in note 16. The benefit has been measured as the difference between the fair value of the loan and the proceeds received. The Company has used the prevailing market rate of mark-up for similar instruments to calculate fair values of respective loans. The discount rate used is 7.5% per annum.

<sup>18.2</sup> Sindh Infrastructure Development Cess was levied in the province of Sindh in 1994 vide section 9 of the Sindh Finance Act on the goods entering or leaving the province from or for outside the country, ostensibly for services rendered in respect of development and maintenance of infrastructure. Levy is applicable on imported goods and it is charged at the time of custom clearance. Group of importers challenged the levy on the grounds that imposing levy on 'import and export' does not fall within legislative competence of the provincial legislature. In 2011, Sindh High Court (SHC) through its order granted an interim relief to all the petitioners directing that the future imports of the petitioners will be

cleared on payment of 50% of the disputed Cess while for remaining 50% bank guarantee is to be submitted till the final decision by Court.

In May 2014, the Company filed a petition in SHC against Government of Sindh and Court granted same interim relief as was available to other petitioners, i.e., the Company continue to make payment for 50% Cess and provide bank guarantee for 50% balance payable. As a matter of prudence, the Company fully charged the Sindh Infrastructure Development Cess to cost by providing provision for 50% balance payable.

On 4 June 2021 SHC announced its decision in favour of Sindh Government and against 482 petitioners from the industry. The decision validated the SIDC levy and "The Sindh Development and Maintenance of Infrastructure Cess Act, 2017", retrospectively. However, operation of the judgment has been suspended for 90 days from the date of the judgment.

#### 29. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Company classifies fair value measurements of its investments using a hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market date (i.e. unobservable inputs).

#### معیشت۔۔

کومت نے معیشت کی بحالی اور کاروبار کو معاثی نقصان کو محدود کرنے کے لیے متعدد کریڈٹ مراعات اور مالی اقد امات متعارف کرائے۔2020 کی تیسر کی سہ ماہی کے بعد سے ، پاکستان میں لاک ڈاؤن کے بعد کے ماحول نے اہم معاشی اشاریوں میں مثبت علامات دیکھی ہیں۔ بڑے پیانے پر مینوفیکچرنگ (ایل ایس ایم) کے شعبے نے مالی سال 2020-21 کے دوران برآمدات نے 25 بلین امر کی ڈالر سے زیادہ عاصل سال 2020-21 کے دوران برآمدات نے 25 بلین امر کی ڈالر سے زیادہ عاصل کیا ، جس میں 18 فیصد کی خوبصورت نمو ہوئی۔ مزید ہے کہ ترسیلات زر نے اسٹیٹ بینک کی جانب سے ڈبجیٹل پاکستان اکاؤنٹ کے تحت اٹھائے گئے معاون پالیسی اقدامات کی پشت پر مضبوط کارکردگی کا مظاہرہ کیا ہے۔ تاہم ، امر کی ڈالر کے مقابلے میں پاکستانی روپے میں تیزی سے کی دیکھی گئی کیونکہ تجارتی خسارہ جون 2021 سے بڑھتا جا رہا ہے۔مالی سال 2020-21 کے لیے افراط زر 8.9 فیصد ریکارڈ کیا گیا۔ کووڈ -19 کی چوتھی لہر کے درمیان بدستور غیر یقینی صور تحال کے پیش نظر ، ہم توقع کرتے ہیں کہ اسٹیٹ بینک کیلنڈر سال 2021 میں شرح سود میں تبدیلی کے بغیر معاشی سرگرمیوں کی جمایت کی اینی موجودہ حکمت عملی کو جاری رکھے گا۔
