Directors' Report

On behalf of the Board of Directors of Sindh Modaraba Management Limited, we are presenting the 7th annual report of Sindh Modaraba together with Audited Accounts for the year ended June 30, 2021.

1. Economy

Pakistan's economy had a volatile growth pattern over the years marked by regular boom-and-bust cycles, which posed challenges in achieving long-term and inclusive growth. The present government focused on an economic vision of securing sustainable economic growth through improved efficiency, reduced cost of doing business, better regulatory environment, enhanced productivity, and increased investment.

The impact of government's timely and appropriate measures is very much visible in the form of an economic recovery on the back of broad-based growth across all sectors. Home remittances by overseas Pakistanis grew significantly, current account balance showed improvement and country's exports also showed an appreciable turnaround. However, despite substantial improvements in various key economic indicators, the rising inflation across the country has become cause of concern for economic decision makers.

Going forward, the rapidly evolving situation in Afghanistan and the mass COVID vaccination drive across the world can affect the shape of our economy. Besides evolving geo-political situation, deteriorating current account and external account number due to significant rise in import bill is another cause of concern. Next few months can prove to be critical as the resumption of IMF negotiation, FATF review plus international economies picking up the pace can shape Pakistan's fiscal and monetary policy.

2. Operating Results and Business Overview

The Modaraba earned a net profit of Rs. 75.82 million during the year under review as compared to profit of Rs. 107.885 million earned during the year ended June 30, 2020. As stated in our quarterly reports, the main reason for decline in profitability was 625 bps decline in policy rate by SBP, which not only affected earnings from financing portfolio but also our income on the funds placed with the banks. Another important reason contributing to decline in earnings is more stringent Modaraba regulatory regime with respect to the classification of non-performing financing resulting in more provisions on NPLs. Further, the difficulties faced by the businesses due to COVID-19 and resultant inability to timely discharge their financial liabilities had greatly affected the entire lending sector of the country and Modaraba is not an exception. The management is making all efforts to contain the adverse effects to a minimal level. The operating results for the year ending June 30, 2021 are summarized in the table below:

	June 30, 2021	June 30, 2020

Directors' Report

3. Outlook

The economic momentum that became evident in FY-21 is expected to further strengthen in FY-22. The ongoing roll out of vaccines coupled with continuation of economic activities during second and third wave offers some optimism. The government has introduced various measures in the recent budget to boost economic activities. The private sector credit that picked up the pace since the start of the year 2021 is expected to continue its growth momentum in FY-2022.

The Modaraba is well positioned to take the benefit of situation and intends to quickly deploy the available funds in the financing business without compromising on the quality of the portfolio. All efforts will be made to keep the operational expenses at sustainable level. However, the government's decision to withdraw the tax exemptions available to the Modarabas shall largely affect the profitability of FY-2022 and onwards.

4. Profit distribution

The Board of Directors has approved a cash dividend @ 10.00% (2020:13.50%) i.e.Rs. 1.00 (2020: Rs.1.35) per certificate for the year ended 30th June 2021.

As per Modaraba Regulations issued by Securities & Exchange Commission of Pakistan, Modarabas are required to transfer a minimum 20% and maximum 50% post-tax profit to statutory reserves. The Board of Directors has appropriated Rs.26,537,818/- (35%) towards the Statutory Reserve.

ڈائریکٹرز کی رپورٹ

سندھ مضاربہ مینجمنٹ لمیٹڈ کے بورڈ آف ڈائریکٹرز کی جانب سے، ہم سندھ مضاربہ کی ساتویں سالانہ رپورٹ 30 جون، 2021 کو مکمل ہونے والے سال کے آڈٹ شدہ اکاؤنٹس کے ہمراہ پیش کر رہے ہیں۔

۱۔ معیشت

پاکستان کی معاشی ترقی گذشتہ کئی سالوں کے دوران غیر مستحکم رہی، جس میں تیزی اور مندی کے مسلسل رجحان کی وجہ سے جو طویل مدتی اور جامع ترقی کا حصول چیلنجوں کا باعث بنا۔ موجودہ حکومت نے بہتر کارکردگی، کاروبار کرنے کی لاگت میں کمی، بہتر ریگولیٹری ماحول، بڑھتی ہوئی پیداواری صلاحیت اور سرمایہ کاری کے ذریعے پائیدار معاشی نمو حاصل کرنے کے معاشی وژن پر توجہ دی۔

حکومت کے بروقت اور مناسب اقدامات کے اثرات تمام شعبوں میں وسیع پیمانے پر ترقی کے ساتھ معاشی بحالی کی صورت میں بہتر نظر آتے ہیں۔ بیرون ملک مقیم پاکستانیوں کی جانب سے ترسیلات زر میں نمایاں اضافہ ہوا، کرنٹ اکاؤنٹ بیلنس میں بہتری آئی اور ملک کی برآمدات میں بھی قابل ذکر تبدیلی آئی۔ تاہم، مختلف اہم معاشی اشاریوں میں خاطر خواہ بہتری کے باوجود، ملک بھر میں بڑھتی ہوئی مہنگائی معاشی فیصلہ سازوں کے لیے تشویش کا باعث ہے۔

افغانستان میں تیزی سے بدلتی ہوئی صورتحال اور دنیا بھر میں بڑے پیمانے پر COVID-19 کیسینیشن مہم کی معیشت کو اثر انداز کر سکتی ہے۔ جغرافیائی سیاسی صورتحال کے علاوہ درآمدی بل میں نمایاں اضافے کی وجہ سے گھٹتا ہوا کرنٹ اکاؤنٹ اور ایکسٹرنل اکاؤنٹ نمبر تشویش کی ایک اور وجہ ہے۔ اگلے چند مہینے اہم ثابت ہو سکتے ہیں کیونکہ آئی۔ ایم۔ ایف پروگرام کی بحالی، ایف۔ اے۔ ٹی۔ ایف کا جائزہ اور بین الاقوامی معیشتوں کی رفتار میں اضافہ پاکستان کی مالیاتی اور مانیٹری پالیسی کو اثر انداز کر سکتی ہے۔

۲۔ آپریٹنگ نتائج اور کاروبار کا جائزہ

30 جون، 2020 کو ختم ہونے والے سال میں 107,885 ملین روپے منافع کے مقابلے میں زیرِ غور سال کے دوران 75.82 ملین روپے کمائے۔ جیسا کہ ہماری سہ ماہی رپورٹس میں بتایا گیا ہے کہ منافع میں کمی کی بنیادی وجہ اسٹیٹ بینک کی پالیسی کی شرح میں 625 بی۔ پی۔ ایس کی کمی تھی، جس نے نہ صرف فنانسنگ پورٹ فولیو سے ہونے والی آمدنی کو متاثر کیا بلکہ بینکوں کے پاس رکھے گئے فنڈز پر ہماری آمدنی بھی متاثر ہوئی۔ آمدنی میں کمی کی ایک اور اہم وجہ نان پرفارمنگ فنانسنگ کی درجہ بندی کے حوالے سے زیادہ سخت مضاربہ ریگولیٹری قوانین ہیں جس کے نتیجے میں این۔ پی۔ ایل پر اضافی پروویژنز ہیں۔ مزید یہ کہ، COVID-19 کی وجہ سے کاروبار کو درپیش مشکلات اور ان کی مالی ذمہ داریوں کو بروقت ادا کرنے میں ناکامی نے ملک کے سارے قرض فراہم کرنے والے اداروں کو بہت متاثر کیا اور مضاربہ بھی اس سے مستثنیٰ نہیں ہے۔

انتظامیہ منفی اثرات کو کم سے کم سطح پر رکھنے کے لیے تمام کوششیں کر رہی ہے۔ 30 جون 2021 کو ختم ہونے والے سال کے آپریٹنگ نتائج درج ذیل ہیں۔

۳۔ امید مستقبل

مالی سال 2021 میں واضح ہونے والی معاشی رفتار مالی سال 2022 میں مزید مضبوط ہونے کی توقع ہے۔ دوسری اور تیسری لہر کے دوران موجودہ ویکسینیشن سرگرمی کے ساتھ معاشی سرگرمیوں کو جاری رکھنا خوش آئند ہے۔ حکومت نے اقتصادی سرگرمیوں کو فروغ دینے کے لیے حالیہ بجٹ میں مختلف اقدامات متعارف کرائے ہیں۔ پرائیویٹ سیکٹر قرضات جس میں سال 2021 کے آغاز کے بعد سے تیزی آئی ہے توقع ہے کہ مالی سال 2022 میں اس میں مزید تیزی ہوگی۔ مضاربہ اس صورتحال کا فائدہ اٹھانے کے لیے اچھی پوزیشن میں ہے اور پورٹ فولیو کے معیار پر سمجھوتہ کیے بغیر فنانسنگ کے کاروبار میں دستیاب فنڈز کو تیزی سے تعینات کرنے کا ارادہ رکھتی ہے۔ آپریشنل اخراجات کو پائیدار سطح پر رکھنے کے لیے تمام کوششیں کی جائیں گی۔ تاہم، مضاربہ کو دستیاب ٹیکس چھوٹ واپس لینے کے حکومتی فیصلے سے مالی سال 2022 اور اس کے بعد کے منافع پر بڑی حد تک اثر پڑے گا۔

۴۔ منافع کی تقسیم

بورڈ آف ڈائریکٹرز نے 30 جون 2021 کو ختم ہونے والے سال کے لیے ڈیویڈنڈ 10 فیصد (13 اعشاریہ 50 فیصد: 2020) یعنی 1 روپیہ (1 روپیہ 35 پیسے: 2020) فی سرٹیفکیٹ کا اعلان کیا ہے۔ سکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان کے جاری کردہ مضاربہ ریگولیشنز کے مطابق مضاربہ کے لیے لازم ہے وہ بعد از ٹیکس منافع کا کم سے کم 20 فیصد اور زیادہ سے زیادہ 50 فیصد دستوری ذخائر کے لیے مختص کرے۔ بورڈ آف ڈائریکٹرز نے دستوری ذخائر کے لیے 26,537,818 روپے (35 فیصد) مختص کئے ہیں۔

Shari'ah Advisor's Report

I have conducted the *Shari'ah* review of Sindh Modaraba managed by Sindh Modaraba Management Limited for the financial year ended June 2021 in accordance with the requirements of the ***Shari'ah* Compliance and *Shari'ah* Audit Mechanism for Modarabas** issued by SECP and report that except the observations as reported hereunder, in my opinion:

- i. The Modaraba has introduced a mechanism which has strengthened the *Shari'ah* compliance, in letter and spirit and the systems, procedures and policies adopted by the Modaraba are in line with the *Shari'ah* principles;
- ii. During the year, the financings were mainly done on Diminishing Musharakah mode which is a Shariah Compliant mode of financing.

The Modaraba has organized trainings on the Islamic Law of Contract and its practical implementation & challenges in the modern day financial industry.

- iii. The agreement(s) entered into by the Modaraba during the period are *Shari'ah* compliant and the financing agreement(s) have been executed on the formats as approved by the Religious Board of SECP and all the related conditions have been met;
- iv. To the best of my information and according to the explanations given to me, the business transactions undertaken by the Modaraba and all other matters incidental thereto are in conformity with the *Shari'ah* requirements as well as the requirements of the Prospectus, Islamic Financial Accounting Standards as applicable in Pakistan, specific AAOIFI Shariah Standards which have been adopted by SECP and the *Shari'ah* Compliance & *Shari'ah* Audit Regulations for Modarabas.

Observation(s)

1. The Modaraba has most of its portfolio of financing assets covered through Takaful arrangements. However, a small portion is still covered through the conventional insurance companies. It must be fully converted into Takaful as soon as possible upon the next renewal.

Notes

1. During the year, an amount of Rs. 250,000/- has been realized as charity on account of delay in payment by customers.
2. It is recommended that the Modaraba emphasizes and focus more towards capacity building of its staff and management on Islamic Finance & its products and in this regard frequent trainings should be organized for this purpose

Conclusion

In my opinion and to the best of my knowledge and information provided by the Modaraba, I am of the view that during the period overall business activities of the Modaraba are Shariah Compliant.

And Allah knows best.

Auditors' Review Report To The Members On The Statement Of Compliance With The Listed Companies (Code Of Corporate Governance) Regulations, 2019 And Public Sector Companies (Corporate Governance) Rules, 2013

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Listed Companies (Code of Corporate Governance) Regulations, 2019 and Public Sector Companies (Corporate Governance) Rules, 2013 (both herein after referred to as 'Codes') prepared by the Board of Directors of **Sindh Modaraba Management Limited** (the Management Company) for the year ended June 30, 2021 to comply with the requirements of regulation 36 of Listed Companies (Code of Corporate Governance) Regulations, 2019 and the provisions of Public Sector Companies (Corporate Governance) Rules, 2013.

The responsibility for compliance with the Code and the Rules is that of the Board of the Management Company. Our responsibility is to review, to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Rules and report if it does not and to highlight any non-compliance with the requirements of the Code or the Rules. A review is limited primarily to inquiries of the Management Company's personnel and review of various documents prepared by the Management Company to comply with the Code and the Rules.

As a part of our audit of the financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board's statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Modaraba's corporate governance procedures and risks.

Further, the Code and the Rules requires the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arm's length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. Further, all such transactions are also required to be separately placed before the audit committee. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Modaraba's compliance, in all material respects, with the best practices contained in the Code and the Rules as applicable to the Modaraba for the year ended June 30, 2021.

The accounting and reporting standards applicable in Pakistan comprise of International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017, the Islamic Financial Accounting Standards (IFASs) issued by the Institute of Chartered Accountants of Pakistan, the requirements of the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980, the Modaraba Companies and Modaraba Rules, 1981, Prudential Regulations for Modarabas and the directives issued by the Securities and Exchange Commission of Pakistan (SECP). During the current year, the SECP has deferred the applicability of all requirements of IFRS 9 for modarabas upto June 30, 2022. The Modaraba had already adopted all the requirements of IFRS 9 in the financial statements in the year ended June 30, 2019 with the exception of determining the provision against financing portfolio. The provision against financing portfolio has been determined in accordance with the requirements of Modaraba Regulations issued by the SECP.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for recognition of staff retirement benefits at present value based on actuarial valuation at the balance sheet date.

2.3 Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Modaraba operates. The financial statements are presented in Pakistani Rupees, which is the Modaraba's functional and presentational currency. Figures have been rounded off to the nearest Rupee, unless stated otherwise.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

2.4 Use of significant estimates and judgments

The preparation of financial statements in conformity with the approved accounting standards requires the management to make estimates, judgments and assumptions that affect the reported amounts of assets and liabilities, income and expenses. It also requires the management to exercise judgment in application of the Modaraba's accounting policies. The estimates, judgments and associated assumptions are based on the management's experience and various other factors that are believed to be reasonable under the circumstances. These estimates and assumptions are reviewed on an on-going basis.

Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both the current and future periods. The areas where various assumptions and estimates are significant to the Modaraba's financial statements or where judgment was exercised in the application of accounting policies are as follows:

- a) estimates of residual values, useful lives and depreciation methods of fixed assets in own use (note 3.3) and Ijarah assets (note 3.4);
- b) estimates of useful lives and amortization charge for its intangibles (note 3.3.2)
- c) certain actuarial assumptions have been adopted as disclosed in these financial statement for actuarial valuation of present value of defined benefit obligation (note 3.11);
- d) investments & loans, advances, prepayments and other receivables (note 3.1 and 3.6); and
- e) provision for taxation (note 3.7).

2.5 New and amended standards and interpretations**2.5.1 Standards, interpretations and amendments to published approved accounting standards that are effective and relevant**

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for accounting periods beginning on or after July 01, 2020. However, these do not have any significant impact on the Modaraba's financial statements.

2.5.2 Standards, interpretations and amendments to published approved accounting standards that are effective but not relevant

There are certain amendments and interpretations that are mandatory for accounting periods beginning on or after July 01, 2020 are considered not to be relevant for the Modaraba's financial statements and hence have not been detailed here.

2.5.3 Standards, interpretations and amendments to published approved accounting standards that are not yet effective

The new standard, certain amendments and interpretations that are mandatory for accounting periods beginning on or after July 01, 2021 are considered not to be relevant for the Modaraba's financial statements and hence have not been detailed here.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies adopted and applied in the preparation of these financial statements as set out below. These policies have been consistently applied to all years presented unless other wise stated.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

3.1 Financial instruments

3.1.1 Recognition, initial measurement and derecognition

Financial assets and financial liabilities are recognised when the Modaraba becomes a party to the contractual provisions of the financial instrument and are measured initially at fair value adjusted for transactions costs, except for those carried at fair value through profit or loss, which are measured initially at fair value.

Financial assets are derecognised when the contractual rights to the cash flows from the financial asset expire, or when the financial asset and all substantial risks and rewards are transferred.

A financial liability is derecognised when it is extinguished, discharged, cancelled or has expired.

3.1.2 Subsequent measurement of financial assets

Financial assets at amortized cost

Financial assets are measured at amortized cost if the assets meet the following conditions (and are not designated as FVTPL):

- they are held within a business model whose objective is to hold the financial assets and collect its contractual cash flows;
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and profit on the principal amount outstanding.

After initial recognition, these are measured at amortised cost using the effective profit rate method. Discounting is omitted where the effect of discounting is immaterial. The Modaraba's cash and cash equivalents and short term investments fall into this category of financial instruments.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit and loss. Further, irrespective of business model financial assets whose contractual cash flows are not solely payments of principal and profit are accounted for at FVTPL. All financial assets are classified and measured at fair value through profit or loss unless the Modaraba makes an irrevocable election on initial recognition to present gains and losses on equity instruments in other comprehensive income.

Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch.

Financial assets at fair value through other comprehensive income (FVOCI)

The Modaraba accounts for financial assets at FVOCI if the assets meet the following conditions:

- they are held under a business model whose objective it is "hold to collect and sell"; and
- the contractual terms of the financial assets give rise to cash flows that are solely payments of principal and profit on the principal amount outstanding.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

3.1.3 Equity instruments

At initial recognition, the Modaraba may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value of an investment in an equity instrument within the scope of this standard that is not held for trading.

The Modaraba subsequently measures all equity investments at fair value for financial instruments quoted in an active market, the fair value corresponds to a market price (level 1). For financial instruments that are not quoted in an active market, the fair value is determined using valuation techniques including reference to recent arm's length market transactions or transactions involving financial instruments which are substantially the same (level 2), or discounted cash flow analysis including, to the greatest possible extent, assumptions consistent with observable market data (level 3).

Where the Modaraba's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVTOCI are not reported separately from other changes in fair value.

Changes in the fair value of equity investments at fair value through profit or loss are recognised in other income/ (other expenses) in the profit and loss account as applicable.

Dividends from such investments continue to be recognised in profit or loss as other income when the Modaraba's right to receive payments is established.

Any gains or losses on derecognition of financial instruments that is measured at fair value shall be recognized in profit and loss account unless it is an investment in an equity instrument and the Modaraba has elected to present gains and losses on that investment in other comprehensive income.

3.1.4 Impairment of financial assets

IFRS 9's impairment requirements use more forward-looking information to recognise expected credit losses – the 'expected credit loss (ECL) model'. This replaces IAS 39's 'incurred loss model'. Instruments within the scope of the new requirements included loans and other debt-type financial assets measured at amortised cost and FVOCI that are not measured at fair value through profit or loss.

Recognition of credit losses is no longer dependent on the Modaraba first identifying a credit loss event. Instead the Modaraba considers a broader range of information when assessing credit risk and measuring expected credit losses, including past events, current conditions, reasonable and supportable forecasts that affect the expected collectability of the future cash flows of the instrument.

In applying this forward-looking approach, a distinction is made between:

- financial instruments that have not deteriorated significantly in credit quality since initial recognition or that have low credit risk ('Stage 1') and
- financial instruments that have deteriorated significantly in credit quality since initial recognition and whose credit risk is not low ('Stage 2').

Stage 3' would cover financial assets that have objective evidence of impairment at the reporting date.

12-month expected credit losses' are recognised for the first category while 'lifetime expected credit losses' are recognised for the second and third category.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

Measurement of the expected credit losses is determined by a probability-weighted estimate of credit losses over the expected life of the financial instrument.

3.1.5 Classification and subsequent measurement of financial liabilities

Financial liabilities comprise trade and most other payables, amount due to a related party and borrowings.

Financial liabilities are measured subsequently at amortised cost using the effective profit rate method. Discounting is omitted if the impact is immaterial.

3.1.6 Off-setting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realize the assets and settle the liabilities simultaneously.

3.2 Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at amortized cost. These include balances with banks in deposit and current accounts, short term investment and stamps in hand.

3.3 Fixed assets - In own use

3.3.1 Tangible assets

These are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the assets carrying amounts or recognised as separate assets, as appropriate, only when it is probable that future economic benefits associated with the items will flow to the Modaraba and the cost of the items can be measured reliably.

All other repairs and maintenance expenses are charged to the profit and loss account as and when incurred. Depreciation on all fixed assets is charged to income on a straight - line basis in accordance with the specified rates.

The useful lives and depreciation methods are reviewed and adjusted, if appropriate, at each reporting date. Depreciation is charged on additions from the month the asset is available for use and on disposals upto the month preceding the month of disposal.

Gains and losses on disposals are determined by comparing the sale proceeds with the carrying amounts. These are recorded in the profit and loss account in the period in which these arise.

3.3.2 Intangible assets

Intangible assets having a finite useful life are stated at cost less accumulated amortisation and accumulated impairment losses, if any. Subsequent costs are included in the assets' carrying amounts or recognised as separate assets, as appropriate, only where it is probable that the future economic benefits associated with the assets will flow to the Modaraba and the cost of the items can be measured reliably.

Amortisation is charged to income using the straight line method in accordance with the specified rates. The useful lives and amortisation method are reviewed and adjusted, as appropriate, at each reporting date. Amortisation is charged from the month the asset is available for use while in the case of assets disposed of, it is charged till the month preceding the month of disposal.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

Intangible assets having an indefinite useful life are stated at cost less accumulated impairment losses, if any.

Gain or loss on disposal of intangible assets, if any, is taken to the profit and loss account in the period in which these arise.

3.3.3 Capital work-in-progress

Capital work-in-progress, if any, is stated at cost less accumulated impairment losses, if any, and represents expenditure on fixed assets in the course of installation and advances for capital expenditure. Transfers are made to the relevant category of tangible/intangible assets as and when the assets are available for intended use.

3.4 Ijarah assets given to customers under agreement

Assets leased out under Ijarah are recorded as Ijarah assets and are stated at cost less accumulated depreciation and accumulated impairment losses (if any). Depreciation is charged to income by applying the straight line method whereby the cost of an asset less salvage value is written off over the lease term, which is considered to be the estimated useful life of the asset.

- Muj'ir (lessors) presents the assets subject to Ijarah in their balance sheet according to the nature of the asset, distinguished from the assets in own use.
- Costs, including depreciation on the assets given on Ijarah, incurred in earning the Ijarah income are recognised as expenses.
- Initial direct costs incurred specifically to earn revenues from Ijarah are recognised as an expense in the profit and loss account in the period in which they are incurred.

3.5 Murabaha Finance

Funds disbursed for purchase of goods are recorded as 'Advance for Murabaha'. On culmination of Murabaha i.e. sale of goods to customers, Murabaha financings are recorded at the deferred sale price. Goods Purchased but remaining unsold at the balances sheet date are recorded as inventories. Profit on Murabaha Financings is recognised on accrual basis. Profit on Murabaha transactions for the period from the date of disbursement to the date of culmination of Murabaha is recognised immediately upon the later date. Profit unearned at balance sheet date is deferred and recorded as deferred murabaha income. Financing are stated net of specific and general Provisions against non- performing financings, if any, which are charged to the profit and loss account.

3.6 Loans, advances, prepayments and other receivables

These are stated at cost less estimates made for doubtful receivables based on a review of all outstanding amounts at the reporting date. Balances considered bad and irrecoverable are written off when identified.

3.7 Taxation

Current

Provision for current taxation is based on taxable income for the year at the current rates of taxation after taking into account applicable tax credits, rebates and exemptions available, if any. The income of modaraba, except from trading and manufacturing activities, is exempt from tax provided that not less than 90% of their profits for the period as reduced by amount transferred to a mandatory reserve as required under the provisions of the Modaraba Companies and Modaraba (Floatation and Control) Ordinance, 1980 (XXXI of 1980) are distributed to the certificate holders.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

Deferred

Deferred tax is recognised using the balance sheet liability method, on all temporary differences arising between the tax bases and carrying amounts of assets and liabilities appearing in the financial statements. Deferred tax liability is recognised for all taxable temporary differences. Deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that the temporary differences will reverse in the future and taxable profits will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax asset is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax asset and liability is measured at the tax rate that is expected to apply to the year when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted by the reporting date. However, the Modaraba has not recognised any amount in respect of deferred tax in these financial statements as the Modaraba intends to continue availing the tax exemption in future years by distributing at least 90% of its profits to its certificate holders every year.

3.8 Impairment of non-financial assets

The carrying amounts of the Modaraba's assets are reviewed at each reporting date to determine whether there is any indication of impairment loss. Impairment loss determined as the difference between carrying value and recoverable amount being higher of asset's fair value less cost to sell and value in use. If such an indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss. The resulting impairment loss is recognised in the profit and loss account.

3.9 Creditors, accrued and other liabilities

These are carried at amortized cost, which is the fair value of the consideration to be paid in the future for goods and services.

3.10 Provisions

Provisions are recognised when the Modaraba has a present, legal or constructive obligation as a result of past obligating events, and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are reviewed at each reporting date and adjusted to reflect the current best estimates.

Provision is maintained as per the regulatory requirement or 0.5% of the ijarah rental receivables, murabaha finance and diminishing musharaka, whichever is higher. Such provision is charged to profit and loss account.

3.11 Staff retirement benefits

Defined contribution plan - employees provident fund

The Modaraba operates a recognised provident fund for all eligible employees and equal contributions by the employer and employee to the provident fund are made at the rate of 10% of the basic salaries of employees.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

Defined benefit plan - employees gratuity fund

The Modaraba operates a gratuity fund for all eligible employees who have completed the minimum three years of service. The fund is administered by the trustee nominated under the Trust Deed. The contributions to the Fund are made in accordance with the actuarial valuation using Projected Unit Credit Method. Actuarial gains and losses arising at each valuation date are recognized immediately.

3.12 Revenue recognition

The revenue recognition of the Modaraba is based on the following policies:

- For Ijarah arrangements, Ijarah rentals are recognised as income on accrual basis, as and when rentals become due. In case of Ijarah arrangements with staggered rentals, the income is recognised on a straight line basis over the Ijarah term.
- Income in respect of non-performing Ijarah finance is held in suspense account, where necessary, in accordance with the requirements of the Prudential Regulations for Modarabas issued by the SECP.
- Documentation charges, front end fees and other Ijarah related income are taken to the profit and loss account on an accrual basis.
- Profit on Diminishing Musharaka arrangements is recognised under the effective mark-up rate method based on the Amount outstanding.
- Mark-up / return on deposits / investments is recognised on accrual basis using the effective profit rate method.
- Other income is recognised on an accrual basis.

3.13 Proposed profit distribution to certificate holders

Dividends declared made subsequent to the reporting date are considered as non-adjusting events and are recognised in the financial statements in the period in which such dividends are declared.

3.14 Earnings per certificate

Basic earnings per certificate is calculated by dividing the profit after taxation for the period by the weighted average number of certificates outstanding during the period. Diluted earnings per certificate is determined by adjusting the profit or loss attributable to ordinary certificate holders by taking into account the conversion of any dilutive potential ordinary certificates.

3.15 Foreign currency transactions

27. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The activities of the Modaraba expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Board of Directors of the Management Company has the overall responsibility for the establishment and oversight of the Modaraba's risk management framework.

27.1 Market risk

Market risk is the risk that the fair value or the future cash flows of a financial instrument may fluctuate as a result of changes in market prices. Market risk comprises of three types of risks: currency risk, profit rate risk and other price risk.

27.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises mainly where receivables and payables exist in foreign currencies. As at June 30, 2021, Modaraba has no financial assets and liabilities in foreign currencies.

27.1.2 Profit rate risk

Profit rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in the market profit rates. The Modaraba has adopted appropriate policies to minimise its exposure to this risk.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

27.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from profit rate risk or currency risk) whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. As on June 30, 2021, the Modaraba did not hold any instruments which exposed it to price risk.

27.2 Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. The risk generally emanates from balances with banks, Ijarah rentals receivable, Investments and Diminishing Musharaka arrangements, deposits and other receivables.

The maximum exposure to credit risk at the end of the reporting period without taking into account any collateral held or other credit enhancement amounts are as follows:

	June 30, 2021	June 30, 2020
	----- Rupees -----	-----
Cash and bank balances	475,524,291	883,707,855
Short term investments	320,000,000	-
Diminishing Musharaka	814,612,511	784,788,663
Advances and other receivables	36,467,843	18,767,965
Long term loan	1,480,500	4,593,500
	<u>1,648,085,145</u>	<u>1,691,857,983</u>

As at June 30, 2021, there were no financial assets which were pledged as collateral for liabilities or contingent liabilities of the Modaraba.

27.2.1 Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors affect groups of counterparties whose aggregate credit exposure is significant in relation to the Modaraba's total credit exposure. Concentrations of credit risk indicate the relative sensitivity of the Modaraba's performance to developments affecting a particular industry.

The Modaraba manages credit risks and its concentration through diversification of activities to avoid undue concentration of risk with individuals, groups or specific industry segments. For this purpose, the Modaraba has established exposure limits for individuals and industrial sectors.

Liquidity risk arises because of the possibility that the Modaraba will be required to pay its liabilities earlier than expected or will face difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Modaraba's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Modaraba's reputation. NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

28. CAPITAL RISK MANAGEMENT

The Board's policy is to maintain a sound capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board of Directors monitors the return on capital, which the Modaraba defines as net profit for the year divided by total Certificate holders' equity. The Board of Directors also monitors the level of dividend to ordinary certificate holders.

The Modaraba is not subject to externally imposed capital requirements.

The Modaraba finances its operations through equity and management of working capital with a view to maintain an appropriate mix between various sources of finance to minimize risk. There is no borrowing made by the Modaraba as at the balance sheet date, therefore, no gearing ratio is calculated.

29. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the amount for which an asset could be exchanged, or liability settled, between knowledgeable willing parties in an arm's length transaction. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Modaraba is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

International Financial Reporting Standard (IFRS) 13, 'Fair value measurements' requires the Modaraba to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices) (level 2); and
- inputs for the assets or liability that are not based on observable market data (i.e., unobservable inputs) (level 3).

As at 30 June 2021, there were no financial instruments which were measured at fair values in the financial statements.

30. SEGMENT INFORMATION

As per IFRS 8: "Operating Segments", segments are reported in a manner consistent with the internal reporting used by the chief operating decision-maker. The Chief Executive Officer has been identified as the chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments.

The Chief Executive Officer is responsible for the Modaraba's entire product portfolio and considers the business to have a single operating segment. The Modaraba's asset allocation decisions are based on a single integrated investment strategy and the Modaraba's performance is evaluated on an overall basis.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2021

The internal reporting provided to the Chief Executive Officer for the Modaraba's assets, liabilities and performance is prepared on a consistent basis with the measurement and recognition principles of approved accounting standards as applicable in Pakistan.
