Firstly, during the year an exclusive private sector development project was successfully completed, however the major revenue from it was earned during the previous year; secondly, the current financial year started under a stabilization programme, resulting in high interest rates and an attempt to document the economy, which resulted in an overall slowdown in real estate sector. Furthermore, in the last quarter the operations and sales were severely affected due to the outbreak of COVID-19 and imposition of lock-downs. However, the construction package announced by the Federal Government will provide some stimulus for the real sector which will have a trickledown effect on our industry/company, therefore, it is expected that the profit of the Company will increase. Consequently the investment is expected to add value to AHL shareholders. Performance of SMCPL can be referred in Point 10 to 12 above.

Sales of Rs. 1,565 million, being part of the trial production, have been classified in Capital Work in Progress. Overall gross sales revenue of your Company increased by 16 % as compared to last year whereas net sales revenue increased by 7 % in line with the improved sales volume during the period primarily due to surge in exports on the back of superior quality production of the Company. The Earnings per Share dropped during the year (loss of Rs. 3.40) as compared to earnings of Rs. 0.55 per share in the comparative year) The Company's declining profitability was mainly attributable to higher debt burden on account of mark-up expenses accrued on Line III debts. The Government has incentivized the construction sector by legislating a package announced by the Prime Minister to increase the cement consumption in the country in the wake of the coronavirus pandemic. The government has approved an industry status for the construction sector after announcing establishment of a Construction Industry Development Board. If effectively implemented, this construction policy would play a significant role in paving the way for the government's promise of providing 10 million employment opportunities and 5 million houses to the nation. 19	In case an investment in associated company has already been made, the performance review of such investment including complete information / justification for any impairments / write-offs	FY20 saw some extra ordinary developments that not only affected the current global business, but also will leave its mark for foreseeable future. It comprised of crises and challenges both at international and local front. Locally ASL witnessed application of tight monetary and fiscal policies to counter the rising inflation, sharp devaluation, and depleting current account balance, with re-entry into the IMF program leading to major macroeconomic adjustments. Interest rates during the period July 2019 to February 2020 were as high as 13.25%. The PKR exchange rate vis-à-vis the USD depreciated substantially and the growth stalled. Although some signs of economic recovery emerged towards the end of the calendar year, but they were cut short by the emergence of COVID-19 pandemic. Moving forward the outlook of the business of the Company looks healthy, and will further strengthen with continuity of business-friendly policies of the government. Consequently the investment is expected to add value to AHL shareholders. Performance of ASL can be referred in Point 10 to 12 above.

The profitability over the period has declined mainly on account of deficit of PKR 238 million recognised on development cost incurred and development cost recovered from allottees of Phase 1 and increase in finance cost. For Real Estate Sector the announced construction package by the Federal Government should provide some stimulus to the sector to restore normalcy earlier than, otherwise, expected.
