We are pleased to share the implementation report of the projects mentioned above.

Denim Division — Implementation Update

The denim division is located at 8 km Manga Raiwind Road, Lahore and has been functional since November 2019 as originally planned. Building & Infrastructure for the entire project is fully completed.

Phase 1:

We have successfully completed first phase of the project by installing capacity of 20,000 units per day. The project started its commercial operation since Second Quarter FY2020. However, the project is gradually making its place in European and North American markets.

Phase 2:

In second phase, it is planned to enhance the capacity to 40,000 units per day. The project is completed in terms of infrastructure since nearly 83% of the budget has already been consumed. The management is striving to bring the first phase into profit before going in to second phase of the Denim Project.
