# **Experts for ensuring** flow of water downstream of Kotri

RECORDER REPORT HYDERABAD: downstream of Kotri in ment, which will prove beneregard had not been taken, Sindh could face an unimag-

ined loss in the years to come, due to sea erosion. They recommended that

the government of Pakistan, especially the Sindh government must devise a durable policy regarding constant water flow in the Indus River otherwise, a tens of thousands people hinging on the fisheries for their livelihood

would be badly affected.

This they said while addressing a seminar organized to mark the World Fish Migration Day (WFMD) on Tuesday at the University of Sindh by the Department of Freshwater Biology and Fisheries to mark the interna-

tional day.

The experts raised awareness among the masses about the significance of river flow and migratory fish for human lives. They urged the announced theme titled and People'

Studies (CCDS), Sindh added.

University Campus Thatta The Prof. Dr Mukhtiar Ahmed water and fish experts have Mahar said that the first ever drawn the attention of the awareness program regardgovernment of Pakistan to ing the fish migration had ensure the flow of water been observed in the depart-Indus River and warned that ficial for the conservation of if serious measures in this the assets and resources. "The recommendations of this seminar must be shared with the Sindh government for implementation", he said.

Director Inland Fisheries Sindh Bashir Ahmed Dogar said that Sindh University's Department of Freshwater Biology and Sindh Fisheries could jointly earry out research and awareness projects for the development of the province and the coun-

Deputy Director Inland Fisheries Sindh Khaleeq Ahmed Soomro stated that the initiatives should be taken to ensure research collaboration between the varsity and the Sindh government for the welfare and advancement of fisheries in Sindh.

Professor Dr Anila Naz Soomro said that during her research project in Japan, it was proved that juveniles of shrimp were in a higher popgovernment to save water ulation at the tail of rivers and fish as per the globally that entered into the Sea. "It is therefore, proved that the "Connecting Fish, Rivers flow of rivers is most important for the population of On the occasion, director aquatic animals for their Centre for Coastal & Deltaic growth and survival", she
