Revival Business Plan

Hashimi Can Company Limited

Situation Analysis

Hashimi Can Company Limited (the Company) was incorporated in Pakistan as a public Limited company and its shares are quoted on Pakistan Stock Exchange (PSX). Its main business was to undertake manufacturing of tin containers and processing of canned foods. Its registered office is situated at B-24, S.I.T.E Karachi.

The operations of the Company were halted due to workers issues/strikes and the Company closed down its operations. Various court cases of workers are ongoing.

Trading in shares of the Company was suspended on February 15, 2012 by the Stock Exchange due to non-compliances with respect to listing regulations (now the PSX Rule Book).

PSX Trading Symbol: HACC

Market Price : Rs. 8.00 per Share

Trading Status : Suspended

Company's share (HACC) is placed on the defaulters' counter by PSX, and subsequently trading in the share was suspended, due to defaulting clauses under Regulations 5.11.1.(b)(f)(i)(l) of the PSX Rule Book that are impugned against the Company, as highlighted as under:

- 5.11.1 b It has suspended commercial production/ business operations in its principal line of business for a continuous period of one year;
- 5.11.1 f It for any reason whatsoever has failed to join CDS after its security has been declared eligible security;
- 5.11.1 i Its statutory auditor has issued a qualified opinion on the going concern assumption or has issued a disclaimer or an adverse opinion in the audit report;
- 5.11.1 I A show cause notice for winding up has been issued to the Company by the Commission. However, winding up petition is not yet filed by the Commission against the Company. Trading in the share (at PSX) was suspended due to this show-cause.

Later, the SECP initiated the winding up proceedings via a show cause notice against the Company and the winding up order was passed on June 25, 2012, on the grounds that the Company had failed to hold two consecutive Annual General Meetings for the year ended June 30, 2010 and June 30, 2011 and that the operations of the Company had been closed since November 2010. The Company filed a revision application with the SECP under Section 484 of the Companies Ordinance, 1984 on September 12, 2012 against this order.

On December 01, 2021, the SECP finally set aside its Impugned Order of June 25, 2012, because the Company had made good on the defaults of holding the past years AGMs and had also published its financial statements. The SECP in its restoration order directed the directors of the Company to expedite the revival of the Company. The Company had intended to buy-back the shares from minority shareholders through escrow account to be maintained with the bank(s) for the purpose, but now the Company aims to revive itself through another line of business.

SWOT analysis of the Company is presented below:

SWOT Analysis

Strength

- Listed shell Company having capacity to raise funds from the Market.
- Assets and liabilities are clean enough i.e. assets are disposed of and secured liabilities are paid off.
- Reasonable cash resources are in hand to initiate the Revival Business Plan.

Weaknesses

- Company has discontinued its operations since November 2010 due to workers issues.
- Low free float makes it difficult for the Company to raise funds from other than sponsors.
- Buy-back (from the minority shareholders) would require payment to the shareholders instead of investment in the Company.
- Lack of collateral to generate funding from banks.
- Minority shareholders are stuck due to suspension of trading at PSX.

Opportunities

- Capital market can act as a catalyst to grow of the Company. Despite its "shell" status, the Company's listing status gives it the requisite fund-raising power to harness its future diversification plan, if any.
- Free float can be created by disposing off sponsors' shareholding in the market once shares trading are resumed.
- Possibility for joint venture with renowned group(s) for revival of the Company and to create diversified entrepreneurial interest.
- Company can revamp and reposition itself into emerging fields and can create value

for the shareholders.

• The continued listed status, instead of converting the Company into an unlisted Company, would be good for the market and the shareholders.

Threats

- The Company may not be able to get its suspension and default removed in time.
- The company is unable to find JV partner and unable to raise requisite funds.
- Even upon revival, the intended business venture fails to materialize.
- The Company may face some contingent liabilities due to ongoing cases.

Current Pattern of Shareholding is as under: Pattern of Shareholding

	No. of Snares	%nolaing

The HealthCare Technology Business Project Scope and Key Activities

HACC is targeting to reposition itself in the "HealthCare Technology Business" that includes but not limited to technology devices, medical care, diagnostics, pharmacies and pharmaceuticals. In the first phase, HACC is going to invest in Ensmile (Private) Limited (the "Ensmile"), a company that deals in invisible dental aligners that are:

- Invisible
- Removable
- No change in diet and lifestyle
- Easy to maintain
- Smooth and comfortable
- Shorter Appointment
- Very few visits only required
- Results can be visualized before starting the treatment

Ensmile is coined on technological innovation based on 3-D printing and resultant braces are convenient, affordable, precise and fast. Ensmile is already exporting almost 100% of its production to some global markets. An investment in Ensmile shall enable HACC to earn returns based on foreign exchange. Target market of Ensmile is export market that includes but not limited to Germany, Portugal, UK, Singapore, UAE, Turkey etc. It is fast growing coming with potential of exponential growth.

Strategy & Expected Outcome

HACC is to make equity investment of Rs. 300.00 million for 1/3rd (33.33%) stake in **Ensmile** with the right to appoint 03 directors (or 40% directors on Board whichever is higher) and jointly control and run the Accounts, Finance and Corporate Departments of the Company in order to exercise effective financial and administrative controls.

Risk Factors

1. Dentures comes under latest health-care technology that require registration with multiple agencies to be eligible for export which may take time. The Company already has sufficient approvals, and is awaiting FDA registration for export to USA, which may take time.

- 2. Increased competition from domestic and regional players may not result in sufficient business growth for the company.
- 3. Risk of under-subscription of the right issue.

Projected Financial Statements

Disclaimer:

The success of any investment depends on many factors some of which may be under the control of the management, but many of which rely on the markets and general business environment. The management of the Modaraba has made these projections on the best estimate basis. However, actual results and outcome may be different due to changed market and business environment and factors beyond the control and anticipation of the management.
