Review Report by the Chairman

The Board of Directors (the Board) of Amtex Limited has performed their duties diligently in upholding the best interest of shareholders' of the Company and has managed the affairs of the company in an effective and efficient manner. The Board has exercised its powers and has performed its duties as stated in the Companies Act 2017 and the Listed Companies (Code of Corporate Governance) Regulations.

Under review financial year 2022, Pakistan textile sector posted record exports of US\$19.3 billion during FY22, up 26% as compared to the last year. This excellent performance can be attributed to increased volumetric growth by 16% in value added segment, steep rise in global demand and record cotton prices. Among the value-added segments, knitwear emerged the top performer during FY22 due to the sharp rise in global demand especially in USA and European countries. Despite very instable political conditions, poor law and order situation and increasing prices of fuel & energy we remained focused on executing our business strategies and achieved solid growth. We were successful in achieving sales targets and there were slight increase in turnover of the company as compared to previous year.

The management is responsible for carrying out day to day business activities and transforming the Board's strategies in to actions. The Board has actively participated in strategic planning process, enterprise risk management system, policy development, and financial structure, monitoring and approval. All Directors including independent directors fully participated and contributed in the decision making process of the Board. The Board also played an important role in overseeing the management's performance and focusing on major risk area. The Board is fully involved in all types of budgeting and strategic planning process. The company has an independent internal audit department and internal audit reports are presented before the audit committee on quarterly basis.

On behalf of the board, I would like to thank our management, staff and workers for their hard work. I would like to appreciate all our valued customers for their continued confidence in the company. Not to forget, all credit to the financial institutions for their cooperation and support.

Directors' Report

The Directors of your Company present before you the annual report with audited financial statements for the year ended June 30, 2022.

Operating & Financial Results

The financial year 2022 witnessed rising cost of doing business due to devaluation of Pak rupees and significantly increased prices of fuel & energy.

The financial results for the year under review with comparative figures of previous year are presented hereunder:

	2022 Rupees	2021 Rupees
Revenue from contract with customers-Net	1,250,878,389	1,074,982,950
Cost of sales	<u>1,033,763,050</u>	<u>1,065,217,611</u>
Gross Profit	217,115,339	9,765,339
Other Income	<u>102,874,489</u>	<u>58,767,827</u>

Selling and distribution expenses	51,415,249	37,356,877
Administrative expenses	51,543,363	65,896,581
Finance cost	88,169,453	96,477,312
Workers' profit participation fund	6,443,088	-
Workers' welfare fund	2,448,374	720,506
	<u>200,019,527</u>	<u>200,451,276</u>
Profit/ (Loss)before taxation	119,970,301	(131,918,110)
Taxation	16,481,281	15,990,633
Net Profit/ (loss) for the year	<u><u>103,489,020</u></u>	<u><u>(147,908,743)</u></u>
Profit/(Loss) per share - Basic and diluted	<u><u>0.40</u></u>	<u><u>(0.57)</u></u>

During financial year ended June 30, 2022, company earned gross profit of Rupees 217.115 million on sales of Rupees 1,250.878 million as compared to Rupees 9.765 million gross profits on sales of Rupees 1,074.982 million for the previous financial year. During the FY 2022 Company earned net profit after tax of Rupees 103.489 million as compared to net loss after tax of Rupees 147.908 million during the previous financial year. The company received fresh export orders from across the globe in the FY 2022 and sales volume has increased.

Government had approved Textiles and Apparel Policy, 2020-25, with the objective of ensuring sustainability of textile sector exports. The textile sector which is the single largest consumer of domestic cotton contributes 61 percent share in the overall export of the country. The Textile sector has charted a remarkable performance in the past year despite regular interruption in gas/RLNG supply and significant increase in prices of fuel & energy. The industry can bring substantial economic benefit from enhanced exports if the stable and consistent supply of gas/RLNG is guaranteed. New plants and expansions completed since November 2021 are still awaiting gas/power supply. Pakistan registered more than 25 % increase in overall exports during FY 2022 which touched the highest ever figure of \$ 31.80 billion. Textile sector followed the trend and textile exports increased in the same proportion to close at \$19.33 billion as compared to \$15.4 billion in FY 2021.

Auditors' Observations

The auditors in paragraph (a) of audit report has provided observation regarding company's ability to continue as going concern due to accumulated losses, liquidity issue, curtailed operational activities, pending litigations, closed operations of spinning division, curtailment of employees and lease of its certain properties (land and buildings) situated at addresses provided in the audit report. Directors of the company explain that the management is making all efforts to continue operations and to run the entity as a going concern. Company's continuity of operations since last four years and increased sales volume despite global recession, increased inflation and shortage of power supply clearly indicate that management's efforts and plans are effective.

Regarding spinning division The Honorable Lahore High Court ordered auction of the mortgaged/hypothecated land and building of spinning division vide its orders dated 08-11-2021 and consequently the Spinning unit of the company was auctioned on 30-12-2021. The Company as well as the Judgment Debtor filed objections on the auction. During the pendency of the execution petition, the Decree Holder bank, the Company as well as other first charge holder banks/financial institutions reached a negotiated deal and filed an instant application to withdraw objection petitions. Resultantly, the Honorable court confirmed the auction. The Court has also ordered for distribution of sale proceeds amongst first charge holders in proportion to the value of their charge. The necessary formalities for issuance of sale certificate and distribution of sale proceeds are in process.

Moreover, the company is in process of selling certain properties and machinery, mortgaged with the banks, the entire such sale proceeds will be paid to relevant charge holder banks to reduce the debt burden and to settle the litigation with these banks. The management of the company has already taken steps for extension and restructuring of loans from the banks/financial institutions. In view of steps mentioned above, the management is confident that it will be successful in its efforts and hence the company will be able to continue as a going concern.

The auditors in paragraph (b) of audit report have provided observation that markup expense has not been fully charged. In this regard it is explained that certain banks / financial institutions have filed suit against the company for recovery of their financing and mark up so the company has not provided any markup / cost of funds on the outstanding amount as stated in notes to the accounts. Based on the legal opinion, the company feels that, after institution of the suit, bank/financial institution is only entitled to cost of funds if so awarded by the Court in case the suit is awarded against the company. The levy of cost of funds and the quantum thereof shall be contingent on passing of the decree and rate prescribed by the State Bank of Pakistan during the period of pendency of the claim and discharge of decree, if passed by the Court.

Market Review and Future Prospects

Sustainable economic growth depends upon increased private investment and enhanced export volumes. Textile sector which already contributed 61% to the total exports is capable of bringing billions of dollars of foreign exchange in the country. The sector not only foreign exchange but also provides large scale jobs in the country. The ambitious Textiles and Apparel Policy (TAP) floated by the Pakistan government aims to boost exports and make Pakistan the leading apparel sourcing point of operations in manufacturing and supply chains globally.

The cost of doing business especially fuel and energy prices have continued to show a rising trend in year under review. Management is well aware of the situation and endeavors to continue efforts to increase sales / exports volume and to settle litigations with banks in quite favorable manner. Company focuses on key measures as described in Textile and Apparel Policy like capacity building, reduce cost of doing business, DLTL / DDT schemes continuity for exports of value added products, continuation of duty free import of textile and apparel machinery, long term financing facility and Export financing schemes on lower rates. Company plans to take benefits from the aforementioned measures and has set an ambitious export target which will not only support the management to achieve higher profitability but also help to settle the litigations with banks.

Dividend

The tight cash flow position of the company does not permit dividend payout therefore the directors have not recommended any dividend for the year.

Auditors

The present auditors M/s Zahid Jamil & Company, Chartered Accountants, retire and being eligible, offer themselves for re-appointment. The Board of Directors has been suggested by the audit committee, the re-appointment of M/s Zahid Jamil & Company, Chartered Accountants, as auditors for the financial year ending June 30, 2023.

Internal Financial Controls

An effective and sound internal control has established and implemented throughout the year at all levels of the company by the Board of Directors. مالی سال 30 جون 2022 کے دوران کمپنی کی کل فروخت مبلغ 1,250.87 ملین روپے کی مد میں کل منافع مبلغ 217.115 ملین روپے ہوا جبکہ پچھلے سال کی کل فروخت مبلغ 1,074.98 ملین روپے اور کل منافع مبلغ 9.765 ملین روپے ہوا تھا۔ 30 جون 2022 کے مالی سال کے دوران کمپنی کو بعد از ٹیکس ادا کی گئی مبلغ 103.48 ملین روپے کا خالص منافع ہوا جبکہ پچھلے سال بعد از ٹیکس ادا کی گئی مبلغ 147.98 ملین روپے کا خالص نقصان ہوا تھا۔ کمپنی کو دنیا بھر سے تازہ برآمدی آرڈرز موصول ہوئے جس کی وجہ سے زیر غور مالی سال میں فروخت کے حجم

میں اضافہ ہوا ہے۔

حکومت نے ٹیکسٹائل سیکٹر کی برآمدات کی پائیداری کو یقینی بنانے کے مقصد سے ٹیکسٹائل اور ملبوسات کی پالیسی 2020-25 کی منظوری دی تھی۔ ٹیکسٹائل سیکٹر جو ملکی کپاس کا واحد سب سے بڑا صارف ہے ملک کی مجموعی برآمدات میں 61 فیصد حصہ ڈالتا ہے۔ ٹیکسٹائل سیکٹر نے گیس/آرائیل این جی کی سپلائی میں مسلسل رکاوٹ اور ایندھن اور توانائی کی قیمتوں میں نمایاں اضافے کے باوجود گزشتہ سال ایک شاندار کارکردگی کا مظاہرہ کیا ہے۔ اگر گیس/آرائیل این جی کی مستحکم اور مستقل فراہمی کی ضمانت دی جائے تو صنعت بہتر برآمدات سے خاطر خواہ معاشی فائدہ حاصل کر سکتی ہے۔ نومبر 2021 سے مکمل ہونے والے نئے پلانٹس اور توسیع ابھی تک گیس/بجلی کی فراہمی کے منتظر ہیں۔ پاکستان نے مالی سال 2022 کے دوران مجموعی برآمدات میں 25 فیصد سے زائد اضافہ ریکارڈ کیا جو 31.80 بلین ڈالر کی اب تک کی بلند ترین سطح کو چھو گیا ہے۔ ٹیکسٹائل سیکٹر نے اس رجحان کی پیروی کی اور ٹیکسٹائل کی برآمدات اسی تناسب سے بڑھ کر 19.33 بلین ڈالر پر بند ہوئیں جو کہ مالی سال 2021 میں 15.4 بلین ڈالر تھی۔

آڈیٹرز کے مشاہدات

آڈیٹر حضرات کی رپورٹ کے پیرا گراف (a) میں کمپنی کی کاروبار کو جاری رکھنے کی اہلیت کے بارے میں رائے کا اظہار کیا گیا ہے اور جمع شدہ نقصانات، سپلائنگ ڈویژن کے بند آپریشن، مالی بحران، آپریشنل سرگرمیوں کا اتوا، ذرائع امداد، ملازموں کی کمی اور کمپنی کی پراپرٹیز کو لیز پر دینے کی وجہ سے کاروبار کی عمل کو جاری رکھنے کے بارے میں تشویش کا اظہار کیا گیا ہے آپ کی کمپنی کے ڈائریکٹر حضرات وضاحت بیان کر رہے ہیں کہ کمپنی کے منتظمین کی جانب سے کاروبار کی مکمل کو جاری رکھنے کے لیے پوری کوشش کی جا رہی ہے۔ گزشتہ چار سالوں سے کمپنی کے کاموں کا تسلسل عالمی کساد بازاری بڑھتی ہوئی مہنگائی اور بجلی کی فراہمی میں کمی کے باوجود بڑھتی ہوئی فروخت کا حجم واضح طور پر ظاہر کرتا ہے کہ انتظامیہ کی کوششیں اور منصوبے کارگر ہیں۔

سپلائنگ ڈویژن کے حوالے سے معزز لاہور ہائی کورٹ نے 08-11-2021 کو اپنے احکامات کے ذریعے اسپننگ ڈویژن کی رہن/منظر وضہ اراضی اور عمارت کی نیلامی کا حکم دیا اور نتیجتاً کمپنی کا سپننگ یونٹ 30-12-2021 کو نیلام کر دیا گیا۔ کمپنی کے ساتھ ساتھ جمہوریت ڈیپارٹمنٹ نے نیلامی پر اعتراضات دائر کیے تھے۔ عمل درآمد کی درخواست کے ذرائع ہونے کے دوران، ڈیکوری ہولڈر بینک اور کمپنی کے ساتھ ساتھ دوسرے پہلے چارج ہولڈر بینک/مالیاتی ادارے گفت و شنید کے بعد ایک نتیجے پر پہنچ گئے اور اعتراضات کی درخواستیں واپس لینے کے لیے فوری درخواست دائر کی۔ نتیجتاً معزز عدالت نے نیلامی کی تصدیق کر دی۔ عدالت نے فرسٹ چارج ہولڈرز کے درمیان ان کے چارج کی قیمت کے تناسب سے فروخت کی رقم تقسیم کرنے کا بھی حکم دیا ہے۔ سیل منیقلیٹ کے اجراء اور فروخت سے حاصل ہونے والی رقم کی تقسیم کے لیے ضروری رقمی کارروائیاں جاری ہیں۔

مزید برآں کمپنی نے بینکوں کے پاس رہن شدہ کمپنی کی کچھ جائیداد اور مشینری کو فروخت کر کے حاصل ہونے والی رقم کو ان بینکوں کے قرضوں میں ایڈجسٹ کر دیا ہے تاکہ ان بینکوں کی طرف سے کیے گئے مقدمات کو سنبھال کیا جاسکے۔ کمپنی کے منتظمین کی جانب سے بینکوں کے قرضوں کی ازمنہ نو تہیب کے لیے مالی اداروں سے یہ استدعا پہلے ہی کی جا چکی ہے جبکہ دوسرے بینکوں کے ساتھ گفت و شنید جاری ہے۔ اوپر بیان کیے گئے اقدامات کے پیش نظر کمپنی کے منتظمین پر اعتماد ہیں کہ وہ اپنی کاوشوں میں کامیابی سے سرخرو ہوں گے اور کمپنی اس قابل ہو جائیگی کہ وہ اپنے کاروبار کو جاری رکھ سکے۔

کمپنی کے آڈیٹر حضرات کی جانب سے آڈٹ رپورٹ کے پیرا گراف (b) میں رائے دی گئی ہے کہ کمپنی مالی لاگت کو کاؤنٹس میں نہیں لے رہی جسکی بابت وضاحت بیان کی گئی ہے کہ کچھ بینکوں/مالی ادارہ کی جانب سے سے کمپنی سے اپنی سرمایہ کاری رقم اور مارک اپ کی رقم کو وصول کرنے کے لیے مجاز عدالتوں میں دعویٰ دائر کیا گیا ہے لہذا کمپنی ایسے بینکوں کی واجب الادا قرض اور سرمایہ کاری کی رقم کی بابت مالی

لاگت کو کاؤنٹس میں نہیں لے رہی اور اس رقم کی وضاحت کھاتہ جات کے نوٹس میں بیان کی گئی ہے۔ قانونی رائے پر انحصار کرتے ہوئے کمپنی کی جانب سے اس بات کو محسوس کیا گیا ہے کہ دعویٰ کے دائرہ ہونے کے بعد، بینک امانی ادارہ کو صرف کمپنی سے فنڈ کی لاگت کی رقم کا استحقاق حاصل ہے اگر عدالت کی جانب سے دعویٰ کی نسبت بینک کو کمپنی کے خلاف فیصلہ مل جائے۔ اسلئے عدالتی فیصلوں کے التوا اور سٹیٹ بینک آف پاکستان کی جانب سے لاگت فنڈ کی فیصلہ متعین ہونے تک ایسے بینکوں کی واجب الادا قرض کی مانی لاگت کا تخمینہ نہیں لگایا جاسکتا۔

مارکیٹ کا جائزہ اور مستقبل کے امکانات :

پائیدار اقتصادی ترقی کا دارودار بننے سرمایہ کاری میں اضافے اور برآمدی حجم میں اضافہ پر ہے۔ ٹیکسٹائل سیکٹر جو پہلے ہی کل برآمدات میں 61 فیصد حصہ ڈال رہا ہے ملک میں اربوں ڈالر کا زر مبادلہ لانے کی صلاحیت رکھتا ہے۔ یہ شعبہ نہ صرف زر مبادلہ کماتا ہے بلکہ ملک میں بڑے پیمانے پر ملازمتیں بھی فراہم کرتا ہے۔ پاکستان کی حکومت کی جانب سے متعارف کرائی گئی ambitious ٹیکسٹائل اور ملبوسات کی پالیسی (TAP) کا مقصد برآمدات کو فروغ دینا اور پاکستان کو عالمی سطح پر مینوفیکچرنگ اور سپلائی چینز میں ملبوسات کی فراہمی کا ایک اہم مقام بنانا ہے۔ کاروبار کرنے کی لاگت خاص طور پر ایندھن اور توانائی کی قیمتیں زیر جائزہ سال میں بڑھتے ہوئے رجحان کو ظاہر کرتی رہی ہیں۔ انتظامیہ صورتحال سے بخوبی واقف ہے اور فروخت/برآمدات کے حجم کو بڑھانے اور بینکوں کے ساتھ قانونی چارہ جوئی کو کافی سازگار انداز میں طے کرنے کی کوششیں جاری رکھے ہوئے ہے۔ کمپنی ٹیکسٹائل اور ملبوسات کی پالیسی میں بیان کردہ کلیدی اقدامات پر توجہ مرکوز کر رہی ہے جیسے کہ صلاحیت کی تعمیر، کاروبار کرنے کی لاگت میں کمی، ویلیو ایڈڈ مصنوعات کی برآمدات کے لیے DDT/DTL اسکیموں کا تسلسل، ٹیکسٹائل اور ملبوسات کی مشینری کی ڈیوٹی فری درآمد کا تسلسل، ہلویل مدتی فنڈنگ کی سہولت اور کم شرحوں پر ایکسپورٹ فنڈنگ اسکیمیں۔ کمپنی مذکورہ بالا اقدامات سے فائدہ اٹھانے کا ارادہ رکھتی ہے اور اس نے ایک پروجوش برآمدی بدف مقرر کیا ہے جس سے نہ صرف انتظامیہ کو زیادہ منافع حاصل کرنے میں مدد ملے گی بلکہ بینکوں کے ساتھ مقدمات کو بہتر انداز میں منسلک کیا جاسکے گا۔

Independent Auditor's Review Report to the Members of Amtex Limited

Review Report to the Members on the Statement of Compliance contained in Listed Companies (Code of Corporate Governance) Regulations, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Amtex Limited (the Company) for the year ended **June 30, 2022** in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Following instance of non-compliance with the requirement of the Regulations was observed which is not stated in the Statement of Compliance:

- i) Directors did not attend any training program / orientation course required by SECP (Regulation 18 of Listed Companies (Code of Corporate Governance) Regulations, 2019).

Based on our review, except for the above instance of non-compliance, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended 30 June 2022.

INDEPENDENT AUDITOR'S REPORT**To the members of Amtex Limited
Report on the Audit of the Financial Statements****Adverse Opinion**

We have audited the annexed financial statements of **Amtex Limited** (the Company), which comprise the statement of financial position as at June 30, 2022, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, because of the significance of the matters discussed in paragraphs (a) and (b) of "Basis for Adverse Opinion" section of our report, the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof, do not conform with the accounting and reporting standards as applicable in Pakistan and do not give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively do not give a true and fair view of the state of the Company's affairs as at June 30, 2022 and of the profit, and other comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Adverse Opinion

- (a) As at June 30, 2022 the Company's accumulated loss is Rs. 13,032.072 million (2021: Rs. 13,152.591 million) and as at that date it has negative equity of Rs. 9,092.884 million (2021: Rs. 9,198 million) and company's current liabilities exceeded its current assets by Rs. 9816.105 million (2021: Rs. 10,080.144 million). Further the company deferred the markup on long term financing instead of accruing it amounting to Rs. 1,377.014 million (2021: 1,304.671 million) till reporting date. Moreover, the Honorable Lahore High Court, Lahore has auctioned the land and building of spinning division and the company has not adjusted the same due to the facts as mentioned in note 5.1.7 to the financial statements and the company leased out its land and building of processing division as mentioned in note 6 to the financial statements. The company has curtailed the significant number of employees and is facing operational and financial crisis and is not taking any legal action to recover the past due balances. Moreover, the company is defendant / petitioner in various law suits as mentioned in note 26 to the financial statements and due to pending litigations certain long and short term liabilities, bank balances remained unconfirmed / un-reconciled in the absence of balance confirmations from related banks and financial institutions as mentioned in note 15.2, 19.1.5, 20 and 24.6 to the financial statements. Further, there is no sufficient appropriate audit evidence that the management's plans are feasible and ultimate outcome will improve the company's current situation. These factors, along with matters mentioned in paragraph (b) below, lead us to believe that going concern assumption used

Other Offices at Faisalabad, Islamabad, Karachi, Peshawar & Multan

in preparation of financial statements is inappropriate; consequently, the assets and liabilities should have been stated at their realizable and settlement amounts respectively;

- (b) mark up expense has not been fully charged in these financial statements on redeemable capital and on long and short term financing due to pending litigations with various banks. Had the mark up been fully charged, net profit for the year would have been decreased by Rs 737.278 million (2021: net loss for the year increased by Rs. 728.857 million), mark up payable and accumulated loss would have been increased by Rs. 6730.266 million (2021: Rs. 5,992.988million);

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the *Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our adverse opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current year. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matters referred in paragraphs (a) and (b) of "Basis of Adverse Opinion" section of our report, we have determined the matters below to be the key audit matters to be communicated in our report.

Following are the key audit matters:

Key audit matter	How the matter was addressed in our audit
<p>Pending litigations</p> <p>As referred in note no. 26 to the accompanying financial statements.</p> <p>The Company faces a number of pending litigations. There is a high level of judgment required in estimating the level of provisioning and/or the level of disclosure required.</p> <p>Where the impact of possible and present obligations is not probable or not reliably measurable, and thus no provision is recorded, failure to adequately disclose the nature of these circumstances within the financial statements may distort the reader's view as to the potential risks faced by the Company.</p> <p>Given the nature and amounts involved in such cases and the appellate forums at which these are pending, the ultimate outcome and the resultant</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> - circularized confirmations to relevant third-party legal representatives; - as part of our audit procedures, we have assessed management's processes to identify new possible obligations and changes in existing obligations for compliance with Company policy and IAS 37 requirements; - we have analyzed significant changes from prior periods and obtain a detailed understanding of these items and assumptions applied - assessed the adequacy of disclosure in note

<p>accounting in the financial statements is subject to significant judgment, which can change over time as new facts emerge and each legal case progresses, and therefore, we have identified this as key audit matter.</p>	<p>no. 26 to the financial statements.</p>
<p>Restructurings with financial institutions</p> <p>As referred in notes no. 19.1.2 to the accompanying financial statements.</p> <p>Company has negotiated the settlement agreements, in respect of outstanding principal liability and mark up liability of Soneri bank limited.</p> <p>Due to the level of materiality and loan covenant, this is considered to be a key audit matter.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> - obtained settlement agreement; - obtained direct confirmations from banks; - assessed management's processes to transfer restructured balances; - verified from bank statements rescheduled payments and - after getting revised agreement terms and conditions, calculated any overdue balances, where applicable.
<p>Valuation of investment property</p> <p>As referred in note no. 6 to the accompanying financial statements.</p> <p>We considered the valuation of the investment properties to be significant to the audit because the determination of fair value involves significant judgment and the use of external valuation expert.</p> <p>We identified the valuation of investment properties as a key audit matter as it covers 33.98% of total assets of company.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> - obtained valuation reports and evaluated the qualification, experience and competence of the external property valuer engaged by management and holding discussions with the external property valuer, without the presence of management, to understand their valuation methods and the assumptions applied; - obtained rental agreements signed between the Company and lessees; - Obtained EOGM's resolution for approving the lease of properties and - Assessed the adequacy of disclosures related to investment properties in notes no. 6 and 29 to the financial statements.

Valuation of stocks

As referred in Note. 9 to the accompanying Financial statements, the stock in trade constitutes 12.71% of total assets of the Company as at 30 June 2022.

Inventories were considered as a key audit matter due to the size of the balance and because inventory valuation involves management judgment. According to the financial statements' accounting principles inventories are measured at the lower of cost or net realizable value.

The company has specific procedures for identifying risk for obsolescence and measuring inventories at the lower of cost or net realizable value.

To address the risk for material error on inventories our audit procedures included the following:

- Assessing the compliance of company's accounting policies over inventory with applicable accounting standards.
- Assessing the inventory valuation processes and practices. On major locations we tested the effectiveness of the key controls and performed physical verification of inventory at year end.
- Assessing the analyses and assessment made by management with respect to slow moving and obsolete stock.
- We tested the calculations of per unit cost of finished goods and assessed the appropriateness of management's basis for the allocation of cost and production overheads.
- We also assessed the adequacy of the disclosures made in respect of the accounting policies and the details of inventory balances held by the Company at the year end.

Information other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the financial statements of the Company and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. As described in the "Basis for Adverse Opinion" section of our report, we have concluded that the other information is materially misstated for the same reason.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to

Other Offices at Faisalabad, Islamabad, Karachi, Peshawar & Multan

cease operations, or has no realistic alternative but to do so.

Board of directors is responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion, except for the effects, if any, of the matters referred to in paragraph (a) and (b) of "Basis of Adverse Opinion" of our report above:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the period were for the purpose of the Company's business; and
- d) no Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditor's report is Adeel Anwar (ACA).

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2022

1. STATUS AND ACTIVITIES

- 1.1** Amtex Limited (the Company) is a public limited company incorporated in Punjab, Pakistan under the repealed Companies Ordinance, 1984 (now the Companies Act, 2017) and listed on Pakistan Stock Exchange limited (formerly Karachi Stock Exchange Limited) in Pakistan. The registered office of the Company is situated at P-225, Tikka Gali No. 2, Montgomery Bazar, Faisalabad. The principal business of the Company is export of all kinds of value added fabrics, textile made-ups, casual and fashion garments duly processed. The Company is also engaged in the business of manufacturing and sale of yarn and fabrics on its own & conversion basis. The cloth processing unit and stitching units are located at Punj Pullian Daewoo Road, District Faisalabad and spinning unit is located at 30 KM Sheikhpura Road, Khurrianwala, District Faisalabad, in the province of Punjab.
- 1.2** Pursuant to scheme of arrangement approved by the Honorable Lahore High Court, Lahore, assets, liabilities and reserves of Amtex Spinning Limited were merged with the assets, liabilities and reserves of the Company with effect from April 01, 2003.
- 1.3** The Company has earned profit before taxation of Rs. 119.970 million . Company's performance is much better as compared last couple of years and company turned to gross profit in current financial year instead of gross loss in past couple of years. Due to unfavorable textile market conditions in the country the Company is still facing tight cash flow situation and has not been able to comply with the terms of certain loan agreements. The Company is in litigation with Sukuk unit holders and certain other banks / financial institutions have also filed suits against the company for recovery of their outstanding debts.

Regarding spinning division The Honorable Lahore High Court ordered auction of the mortgaged/hypothecated properties vide its orders dated 08-11-2021 and consequently the Spinning unit of the company was auctioned on 30-12-2021. The Company as well as the Judgment Debtor filed objections on the auction. During the pendency of the execution petition, the Decree Holder bank, the Company as well as other first charge holder banks/financial institutions reached a negotiated deal and filed an instant application to withdraw objection petitions. Resultantly, the Honorable court confirmed the auction. The Court has also ordered for distribution of sale proceeds amongst first charge holders in proportion to the value of their charge. The necessary formalities for issuance of sale certificate and distribution of sale proceeds are in process

The energy shortage has hit Pakistan's vital textile industry, which supplies everything from denim to bed linen towards markets in the US and Europe, and accounts for 60 percent of the country's exports. The textile industry is in a state of emergency, unannounced and unscheduled outages disrupt the textile supply chain, which is "causing millions of rupees of losses". Despite the nation's economic woes, textile exports surged 28 percent to a record \$17.67 billion in the fiscal year 2021/22, The Pakistani industry was buoyed by the tail end of the coronavirus pandemic, when it was freed of restrictions earlier than regional rivals India and Bangladesh. The management of the Company has already taken steps for extension and restructuring of loans. The major bankers of the Company had restructured the facilities and negotiations with other banks are in process. There is material uncertainty related to events or conditions which may cast significant doubt about the Company's ability to continue as a going concern, and therefore, it may be unable to realize its assets and discharge its liabilities in the normal course of business. The management is confident that it will be successful in its efforts and hence the Company will be able to continue as a going concern.

2. BASIS OF PREPARATION

2.1. Statement of compliance

These financial statements have been prepared in accordance with the approved accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provisions of and the directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ from the IFRS standards, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Functional and presentation currency

These financial statements are presented in Pakistan Rupee which is functional and presentational currency of the Company and figures are rounded off to the nearest rupee unless otherwise specified.

2.3 Basis of measurement

The financial statements have been prepared under the "historical cost convention" except: -

- certain property, plant and equipment items carried at revaluation.
- employee retirement benefits carried at present value.
- investment property measured at fair value.

2.4 Critical accounting estimates and judgments

The preparation of financial statements in conformity with the accounting and reporting standards requires the use of certain critical accounting estimates. It also requires management to exercise judgement in the process of applying the Company's accounting policies. Estimates and judgements are continually evaluated and are based on historic experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances. In process of applying the Company's accounting policies, the management has made following estimates and judgements which are significant to financial statements:

Useful lives, residual values and depreciation method of property, plant and equipment – Note 5.

Fair value of investment property - Note 6.

Provision for impairment of inventories - Note 9.

Provision for doubtful trade receivables – Note 10.

Obligation of defined benefit obligation - Note 21.1.

Estimation of contingent liabilities - Note 26.

Current income tax expense, provision for current tax -Note 14. and 33.

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectation of future events that are believed to be reasonable under the circumstances.

3. Changes in accounting standards and interpretations

3.1. New accounting standards, amendments and IFRS interpretations that are effective for the year ended June 30, 2022

- 3.1.1. The following standards, amendments and interpretations are effective for the year ended June 30, 2022. These standards, amendments and interpretations are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

4.1 Property, plant and equipment

Owned

Property, plant and equipment except freehold land and capital work in progress are stated at cost / revalued amount less accumulated depreciation and impairment in value, if any. Freehold land is stated at revalued amount less accumulated impairment in value, if any. Capital work-in-progress is stated at cost less accumulated impairment in value, if any.

Depreciation is charged to income applying the reducing balance method at the rates specified in the property, plant and equipment note. Assets' residual values, if significant and their useful lives are reviewed and adjusted, if appropriate, at each balance sheet date.

In respect of additions and disposals during the year, depreciation is charged from the month of acquisition or capitalisation and up to the month preceding the month of disposal respectively.

When parts of an item of property, plant and equipment have different useful lives, they are recognised as separate items of property, plant and equipment.

Normal repairs and maintenance costs are charged to income during the period in which they are incurred. Major renewals and improvements are capitalised.

Gains or losses on disposal of property, plant and equipment are included in current income.

All expenditure connected with specific assets incurred during installation and construction period are carried under capital work in progress. These are transferred to specific assets as and when these assets are available for use.

Surplus arising on revaluation of property, plant and equipment is recognized, in other comprehensive income and accumulated in reserves in shareholders' equity and is shown in equity. Revaluation is carried out with sufficient regularity to ensure that the carrying amounts of the assets does not differ materially from the fair value. Accumulated depreciation at the date of revaluation is eliminated against the cost of the asset and net amount is restated to the revalued amount of the asset. The surplus on revaluation of property, plant and equipment to the extent of incremental depreciation charged on the related property, plant and equipment during the year is part of statement of changes in equity. A decrease as a result of revaluation is recognized in the statement of profit or loss however, a decrease is recorded in statement of other comprehensive income to the extent of any credit balance in revaluation surplus in respect of same assets. The revaluation reserve is not available for distribution to the Company's shareholders.

Gains or losses on disposal of assets, if any, are recognized as and when incurred. Surplus arising on revaluation is credited to surplus on revaluation of property, plant and equipment. The surplus on revaluation of property, plant and equipment to the extent of incremental depreciation charged on the related assets is transferred by the Company to its un-appropriated profit.

4.2. Right-of-use assets

Right of use assets are initially measured at cost being the present value of lease payments, initial direct costs, any lease payments made at or before the commencement of the lease as reduced by any incentives received. These are subsequently measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation is charged on straight line basis over the shorter of the lease term or the useful life of the asset. Where the ownership of the asset transfers to the Company at the end of the lease term or if the cost of the asset reflects that the Company will exercise the purchase option, depreciation is charged over the useful life of asset in the same manner as charged for owned assets.

4.3. Asset held under Ijarah financing

Assets held under Ijarah financing are accounted for using the guidelines of Islamic Financial Accounting Standard-2 (IFAS 2), "Ijarah". The assets are not recognized on the Company's statement of financial position and payments made under Ijarah financing are recognized in the statement of profit or loss on a straight line basis over the term of the Ijarah.

4.4. Investment property

Investment properties are properties held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost including transaction costs. Subsequent to initial recognition, investment properties are measured at fair value. Gains and losses arising from the change in the fair value of investment properties are included in profit or loss in the period in which they arise.

An investment property is de-recognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from disposal. Any gain or loss arising on de-recognition of property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

Rental income

Rental income from investment property that is leased to a third party under an operating lease is recognised in the statement of profit or loss over the lease term and is included in 'other income'.

4.5 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognised in profit and loss account in the period in which these are incurred.

4.6 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

4.7 Stores, spares and loose tools

These are stated at lower of cost and net realizable value. Cost is determined using moving average method. Items in transit are stated at invoice value plus other charges incurred thereon until the reporting date.

For items that are slow moving adequate provision is made, if necessary, for any excess carrying value over estimated realizable value and charged to the statement of profit or loss.

4.8 Stock in trade

Stock in trade except waste are valued at lower of cost and net realisable value. Cost is determined as follows:

Raw material	Weighted average cost except items in transit which are valued at cost accumulated upto the balance sheet date
Work in process	Average manufacturing cost
Finished goods	Average manufacturing cost

Wastes are valued at net realisable value.

Net realizable value represents the estimated selling price in the ordinary course of business less estimated cost of completion and estimated cost to make the sales. Average manufacturing cost consists of direct materials, labor and a proportion of manufacturing overheads.

4.9 Trade debts and other receivables

Trade debts and other receivables are recognized initially at fair value and subsequently measured at amortized cost less loss allowance, if any. The Company always measures the loss allowance for trade debts at an amount equal to lifetime expected credit losses (ECL). The expected credit losses on trade debts are estimated using a provision matrix by reference to past default experience of the debtor and an analysis of the debtor's current financial position, adjusted for factors that are specific to the debtors, general economic conditions of the industry in which the debtors operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

There has been no change in the estimation techniques or significant assumptions made during the current reporting period.

Trade debts and other receivables considered irrecoverable are written off.

4.10. Cash and cash equivalents

Cash and cash equivalents are carried in the statement of financial position at cost. For the purpose of statement of cash flow, cash and cash equivalents consist of cash in hand, balances with banks, books overdrawn, highly liquid short term investments that are convertible to known amount of cash and are subject to insignificant risk of change in value.

4.11. Staff retirement benefits

The Company operates a defined benefit plan unfunded gratuity scheme covering all permanent employees. Provision is made annually on the basis of actuarial recommendation to cover the period of service completed by employees using Projected Unit Credit Method. All remeasurement adjustments are recognized in other comprehensive income as they occur.

The amount recognized in the statement of financial position represents the present value of defined benefit obligation as adjusted for remeasurement adjustments.

4.12. Trade and other payables

Trade and other payable are recorded initially at fair value and subsequently measured at amortized cost. Generally, this results in their recognition at nominal value.

4.13. Borrowings

Borrowings are initially recognised at fair value plus directly attributable cost, if any, and are subsequently stated at amortized cost.

4.14. Provisions

Provisions are recognised when the Company has a present, legal or constructive obligation as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

4.15. Provision for taxation

Current

Provision for current taxation is based on income taxable at the current tax rates after taking into account tax rebates and tax credits available under the law.

Deferred

Deferred tax is provided using the liability method for all temporary differences at the balance sheet date between tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. In this regard, the effects on deferred taxation of the portion of income subject to final tax regime is also considered in accordance with the requirement of Technical Release – 27 of the Institute of Chartered Accountants of Pakistan.

Deferred tax asset is recognised for all deductible temporary differences and carry forward of unused tax losses, if any, to the extent that it is probable that taxable profit will be available against which such temporary differences and tax losses can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantively enacted at the balance sheet date.

Deferred tax charged or credited in the income statement, except in case of items credited or charged to equity in which case it is included in equity.

4.16. Dividend and other appropriations

Dividend is recognised as a liability in the period in which it is approved. Appropriations of profits are reflected in the statement of changes in equity in the period in which such appropriations are made.

4.17. Foreign currency translation

Transactions in currencies other than Pak Rupee are recorded at the rates of exchange prevailing on the dates of transactions. At each statement of financial position date, monetary assets and liabilities that are denominated in foreign currencies are retranslated at the rates prevailing on the statement of financial position except where forward exchange contracts have been entered into for repayment of liabilities, in that case, the rates contracted for are used.

Exchange differences are included in profit or loss. All non-monetary items are translated into Pak Rupee at exchange rates prevailing on the dates of transactions.

4.18. Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument and de-recognised when the Company loses control of the contractual rights that comprise the financial assets and in case of financial liabilities when the obligation specified in the contract is discharged, cancelled or expired.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the statement of profit or loss.

4.18.1. Financial assets

All regular way purchases or sales of financial assets are recognized and derecognized on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognized financial assets are measured subsequently in their entirety at either amortized cost or fair value, depending on the classification of the financial assets.

Financial assets at amortized cost

Instruments that meet the following conditions are measured subsequently at amortized cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at fair value through profit or loss (FVTPL)

Financial assets that do not meet the criteria for being measured at amortized cost or FVTOCI are measured at fair value through the statement of profit or loss (FVTPL). Specifically:

Investments in equity instruments are classified as at FVTPL, unless the Company designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.

- Debt instruments that do not meet the amortized cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortized cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition. If such designation eliminates or significantly reduces a measurement or recognition inconsistency (so called 'accounting mismatch') that would arise from measuring assets or liabilities or recognizing the gains and losses on them on different bases. The Company has not designated any debt instruments as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognized in the statement of profit or loss.

4.18.2. Impairment of financial assets other than trade debts

For financial assets other than trade debts, the Company recognizes lifetime ECL when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month ECL. The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of on evidence of a financial asset being credit-impaired at the reporting date.

Lifetime ECL represents the ECL that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

(i) Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Company compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort.

For financial guarantee contracts, the date that the Company becomes a party to the irrevocable commitment is considered to be the date of initial recognition for the purposes of assessing the financial instrument for impairment. In assessing whether there has been a significant increase in the credit risk since initial recognition of a financial guarantee contracts, the Company considers the changes in the risk that the specified debtor will default on the contract.

The Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

The Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition if the financial instrument is determined to have low credit risk at the reporting date. A financial instrument is determined to have low credit risk if:

- (a) The financial instrument has a low risk of default,
- (b) The borrower has a strong capacity to meet its contractual cash flow obligations in the near term, and
- (c) Adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfil its contractual cash flow obligations.

(ii) Definition of default

The Company employs statistical models to analyse the data collected and generate estimates of probability of default ("PD") of exposures with the passage of time. This analysis includes the identification for any changes in default rates and changes in key macro-economic factors across various geographies of the Company.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event (see (ii) above);
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Company writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery.

(v) Measurement and recognition of ECL

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate.

Non-financial assets

The Company assesses at each reporting date whether there is any indication that assets except inventories, biological assets and deferred tax asset may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to assess whether they are recorded in excess of their recoverable amount. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is recognized in the statement of profit or loss. The recoverable amount is the higher of an asset's 'fair value less costs to sell' and 'value in use'.

Where impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of the carrying amount that would have been determined (net of amortization or depreciation) had no impairment loss been recognized. Reversal of impairment loss is recognized as income.

4.18.3. Financial liabilities

All financial liabilities are measured subsequently at amortized cost using the effective interest method or at FVTPL. Financial liabilities at FVTPL are stated at fair value, with any gains or losses arising on changes in fair value recognized in the statement of profit or loss to the extent that they are not part of a designated hedging relationship. The net gain or loss recognized in the statement of profit or loss incorporates any interest paid on the financial liability.

However, for financial liabilities that are designated as at FVTPL, the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability is recognized in statement of other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch statement of in the profit or loss. The remaining amount of change in the fair value of liability is recognized in the statement of profit or loss. Changes in fair value attributable to a financial liability's credit risk that are recognized in statement of other comprehensive income are not subsequently reclassified of the statement of profit or loss; instead, they are transferred to retained earnings upon derecognition of the financial liability.

Gains or losses on financial guarantee contracts issued by the Company that are designated by the Company as at FVTPL are recognized in the statement of profit or loss.

Financial liabilities measured subsequently at amortized cost

Financial liabilities that are not designated as FVTPL, are measured subsequently at amortized cost using the effective interest method. The effective interest method is a method of calculating the amortized cost

of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

Derecognition of financial liabilities

The Company derecognises financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognized and the consideration paid and payable is recognized in the statement of profit or loss.

4.18.4. Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the financial statements only when there is legally enforceable right to set-off the recognized amounts and the Company intends either to settle on a net basis or to realize the assets and to settle the liabilities simultaneously.

4.19. Revenue recognition

Revenue from contracts with customers for sale of yarn, fabric and madeups:

The Company recognizes revenue from contracts with customers based on a five step model as set out in IFRS-15:

Step-1: Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria for every contract that must be met.

Step-2: Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.

Step-3: Determine the transaction price: The transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.

Step-4: Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Company allocates the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Company expects to be entitled in exchange for satisfying each performance obligation.

Step-5: Recognize revenue when (or as) the Company satisfies a performance obligation.

Mentioned below are different revenue streams of the Company and their terms of recognition of revenue after satisfying all the five steps of revenue recognition in accordance with IFRS 15.

a) Sale of goods

The Company's contracts with customers for the sale of goods generally include one performance obligation and recognized at a point of time. Revenue is recognized when goods are dispatched to customers and bill of lading is prepared for local sales and exports sales respectively. It is the time when control (significant risk and rewards) relating to ownership of goods and control over these goods has been transferred to the buyer.

b) Interest income

Interest income is recognized using effective interest rate method.

Presentation and disclosure requirements

As required for the financial statements, the Company disaggregated revenue recognized from contracts with customers into categories that depict how the nature, amount, timing and uncertainty of revenue and cash flows are affected by economic factors. The Company has also disclosed information about the relationship between the disclosure of disaggregated revenue and revenue information disclosed for each reportable segment.

4.20. Related party transactions

Transactions with related parties are priced on arm's length basis. Prices for these transactions are determined on the basis of comparable uncontrolled price method, which sets the price by reference to comparable goods and services sold in an economically comparable market to a buyer unrelated to the seller.

4.21. Lease Liabilities

Lease liabilities are initially measured at the present value of the lease payments discounted using the interest rate implicit in the lease. If the implicit rate cannot be readily determined, the Company's incremental borrowing rate is used. Subsequently these are increased by interest, reduced by lease payments and remeasured for lease modifications, if any.

Liabilities in respect of short term and low value leases are not recognized and payments against such leases are recognized as expense in statement of profit or loss.

4.22. Contingent liabilities

Contingent liability is disclosed when:

- there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non occurrence of one or more uncertain future events not wholly within the control of the Company; or
- there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

4.23. Contingent assets

Contingent assets are disclosed when there is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognised until their realisation become virtually certain.

Sukuk certificates	18.1. & 18.2.	-	-

18.1. These represent balance out of 130,000 sukuk certificates of Rs. 5,000/- each privately placed with a banking company.

During the musharika, the legal title to the musharika assets will remain with the Company, however, a trustee will hold the beneficial title on behalf of the investors.

In addition, these are secured against second charge on all the present and future fixed assets excluding freehold land and building on freehold land of the Company, bank guarantee of Rs. 740 million issued in favour of the trustee and by personal guarantee of two directors of the Company. Bank guarantee of Rs. 740 million is also secured. Securities are disclosed in Note 19.1.

Sukuk certificates are redeemable in twelve equal quarterly installments commenced from January 10, 2010 and ending on October 10, 2012.

The certificate holders will be entitled to rental payments for use of musharika assets. Rental payments shall be calculated to provide return equal to the base rate plus incremental rental plus service agency charges incurred by the trustee during the previous quarter.

Base rate is defined as three months KIBOR and incremental rental is defined as margin of 2% per annum.

The effective yield rate of rental is Nil (2021: Nil).

18.2. The Company has filed suit under Financial Institutions (Recovery of Finances) Ordinance, 2001 against the sukuk unit holders in the Honorable Lahore High Court, Lahore and prayed for declaration of undertaking to purchase the sukuk units at a pre-agreed price as void, unlawful and satisfaction of obligations against the existing amounts paid. The Company has also sought relief of suspension of operation of the undertaking and the bank guarantee issued there under till the final decision of the suit.

As per two different interim orders of The Honorable Lahore High Court, Lahore guarantor has deposited the amount

of guarantee against all overdue rentals, as claimed by the sukuk unit holders amounting Rs. 529,734,801/- (refer Note No.24.4) in an escrow account opened by the Deputy Registrar (Judicial) to secure the payments due under sukuk arrangement. The payable sukuk rentals, as claimed by the sukuk holders, have been adjusted in these financial statements against the amounts paid by the guarantor, however, due to pending litigation, sukuk unit holders have not received these payments and sukuk unit holders have not acknowledged the adjustment of sukuk rentals.

Further, in its final order The Honorable Lahore High Court, Lahore has dismissed the above referred suit, with no findings on the issue and prayer of the Company, stating that this Court lacks jurisdiction under Financial Institutions (Recovery of Finances) Ordinance, 2001 and the plaint is returned to the plaintiff (Company) to be presented to the court in which the suit should have been instituted. Being aggrieved Company has filed first appeal against this order before Division Bench of Honorable Lahore High Court, Lahore and same is pending for adjudication and in its interim order Division Bench has passed stay order that no amount will be withdrawn, paid by the guarantor, from escrow account opened by the Deputy Registrar (Judicial) up till further orders in this matter.

38.2. FINANCIAL RISK MANAGEMENT

The Board of Directors has overall responsibility for the establishment and oversight of the Company's financial risk management. The responsibility includes developing and monitoring the Company's risk management policies. To assist the Board in discharging its oversight responsibility, management has been made responsible for identifying, monitoring and managing the Company's financial risk exposures. The Company's exposure to the risks associated with the financial instruments and the risk management policies and procedures are summarized as follows:

38.2.1. Credit risk and concentration of credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. The Company does not have any significant exposure to customers from any single country or single customer.

Credit risk of the Company arises principally from trade debts, loans and advances and bank balances. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date is as follows:

	2022	2021
	Rupees	Rupees
Trade debts	186,814,853	58,871,206
Loans and advances	2,625,000	2,625,000
Deposits	55,518,652	55,518,652
Accrued rentals	-	1,373,500
Bank balances	34,392,142	40,160,092
	<u>279,350,647</u>	<u>158,548,450</u>

Due to the Company's long standing relations with counter parties and after giving due consideration to their financial standing, the management do not expect non performance by these counter parties on their obligations to the company.

For trade debts credit quality of the customer is assessed, taking into consideration its financial position and previous dealings. Individual credit limits are set. The management regularly monitor and review customers credit exposure. The majority of export sales debtors of the Company are situated at USA and Europe.

The Company's most significant customers are foreign departmental stores and trading houses. The aging of trade debts as at statement of financial position date is as under:

	2022	2021
	Rupees	Rupees
Not past due	165,758,713	58,871,206

	<u>7,228,813,732</u>	<u>7,100,870,085</u>

Out of Rs. 7,228,813,732/- (2021: Rs. 7,100,870,085/-), the Company has provided Rs. 7,041,998,879 (2021: Rs. 7,041,998,879) as the amount being doubtful to be recovered from certain customers 97.42% of the past due balances has been provided.

38.2.2. Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's approach to manage liquidity is to maintain sufficient level of liquidity of the Company on the basis of expected cash flows, requirements of holding highly liquid assets and maintaining adequate reserve borrowing facilities to cover liquidity risk. This includes maintenance of balance sheet liquidity ratios through working capital management. Following are the contractual maturities of financial liabilities including interest payments as at June 30, 2022 and 2021;

38.2.4. Market risk

Market risk is the risk that changes in market prices, such as interest rates, foreign exchange rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters while optimizing returns.

i) Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. As at June 30, 2022 the Company is not exposed to price risk.

ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Majority of interest rate risk arises from redeemable capital, long and short term borrowings from banks. The interest rate profile of the Company's interest bearing financial instruments is presented in relevant notes to the financial statements.

Sensitivity analysis

Sensitivity to interest rate risk arises from mismatches of financial assets and financial liabilities that mature or reprice in a given period. The Company manages these mismatches through risk management strategies where significant changes in gap position can be adjusted.

Fair value sensitivity analysis for fixed rate instruments

The Company does not account for any fixed rate financial assets and liabilities at fair value through statement of profit and loss, therefore a change in interest rates at the reporting date would not effect statement of profit and loss .

Cash flow sensitivity analysis for variable rate instruments

Had the interest rate been increased / decreased by 1% at the reporting date with all other variables held constant, loss for the period and equity would have been Rs. 1.364 million (2021 : Rs. 14.73 million) lower / higher.

iii) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises mainly where receivables and payables exist due to transactions with foreign undertakings. The

Company is exposed to currency risk on foreign debtors. The total foreign currency risk exposure on reporting date amounted to Rs. 158.74 million (2021: Rs. 41.92 million).

At June 30, 2022, had the currency been weakened / strengthened by 10 % against the foreign currency with all other variables held constant, profit for the year and equity would have been Rs. 15.874 million (2021: Rs.4.192 million) higher / lower, mainly as a result of foreign exchange gains / losses on translation of foreign currency denominated trade debts (based on debtors not yet past due).

iv) Equity price risk

Trading and investing in equity securities give rise to equity price risk. The Company is not exposed to equity price risk.

38.2.5. Operational Risk

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the processes, technology and infrastructure supporting the Company's activities, either internally within the Company or externally at the Company's service providers, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of operation behaviour. Operational risks arise from all of the Company's activities.

The Company's objective is to manage operational risk so as to balance limiting of financial losses and damage to its reputation while achieving its business objective and generating returns for investors.

Primary responsibility for the development and implementation of controls over operational risk rests

with the management of the company. This responsibility encompasses the controls in the following areas:

- requirements for appropriate segregation of duties between various functions, roles and responsibilities;
- requirements for the reconciliation and monitoring of transactions;
- compliance with regulatory and other legal requirements;
- documentation of controls and procedures;
- periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified;
- ethical and business standards;
- risk mitigation, including insurance where this is effective.
- operational and qualitative track record of the plant and equipment suppliers and related service providers.

38.3. Determination of fair value

38.3.1. Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

The carrying values of all the financial assets and financial liabilities reported in the financial statements approximate their fair values.

38.3.2. Fair value of non financial instruments

Fair value hierarchy

The different levels have been defined as follows.

- Level 1 Quoted prices (unadjusted) in active markets for individual assets or liabilities
- Level 2 Inputs other than quoted prices included within level 1 that are observable for assets or liabilities, either directly (i.e as prices) or indirectly (i.e derived from prices)
- Level 3 Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs)

Details of the Company's revalued assets and information about fair value hierarchy as at June 30, 2022 are as follows:

38.4. Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares or obtain / repay long term financing from / to financial institutions.

The Company manages its capital risk by monitoring its debt levels and liquid assets and keeping in view future investment requirements and expectation of the shareholders. Debt is calculated as total borrowings ('redeemable capital', 'long term financing', 'liabilities against assets subject to finance lease' and 'short term borrowings' as shown in the statement of financial position). Equity comprises of shareholders' equity as shown in the statement of financial position under 'share capital and reserves'.
