AHCL is the holding company of Arif Habib Group, having diversified businesses consisting mainly of fertilisers, financial services, and energy. AHCL is also invested in cement, steel, real estate and other listed securities.

#### THE ECONOMY

The year under review, particularly the second half, was challenging for Pakistan's economy which faced high Current Account Deficit and inflation mainly due to commodities super-cycle fuelled by Russia-Ukraine war. This caused a sharp decline in value of rupee and rising interest rates. The growth in GDP, exports, remittances and FBR revenue was satisfactory but the Government delaying in meeting IMF conditions mainly in respect of withdrawing various subsidies resulting in high fiscal deficit in FY-2022. Budget for FY-2023 contained sharp increase in taxation of formal corporate sector whereas no efforts were made to widen the tax net. These factors are responsible for dampening business sentiments and decline in corporate profitability in last quarter of the financial year under review.

# CRITERIA TO EVALUATE BOARD'S PERFORMANCE

At a time when accountability and performance assessment have become key metrics, self-evaluation can be a difficult proposition. However, a high-performing company's success is a function of the capacity of its directors to provide a strategy and the way forward that is commensurate with the overall vision in order to expand and flourish. The company, hence, endeavours to develop the capacity of its Board of directors to improve both their personal and collective contributions to the overall development of the company as well as the society. A quality Board that really adds value is not just a panel of high-performing individuals but a balanced team that utilises its diverse skill sets and a culture that allows them to function as one unit to make the most effective decisions for the betterment of the company and environment it operates in. The Board of Directors acts as a custodian of the shareholders' money as well as their priorities, and translates the same into the Company's mission and goals. In order to uphold the trust of stakeholders, the Board of Directors' performance warrants assessment.

The Board of AHCL has established a mechanism to self-evaluate and has been doing so for several years as a part of good governance. The main focus of the evaluation remains on strategic growth, business opportunities, risk management, Board composition and providing oversight to the management, the global economic environment and competitive context, amongst other areas.

#### Information Other than the Unconsolidated and Consolidated Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the unconsolidated and consolidated financial statements and our auditor's reports thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Responsibilities of Management and Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

#### Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether
  due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a
  material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based
  on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that
  may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a
  material uncertainty exists, we are required to draw attention in our auditor's report to the related
  disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our
  opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
  However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- the unconsolidated statement of financial position, the unconsolidated statement of profit or loss, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

#### **Other Matter**

The unconsolidated financial statements of the Company for the year ended June 30, 2021, were audited by another auditor who expressed an unmodified opinion on those statements on October 01, 2021.

The engagement partner on the audit resulting in this independent auditor's report is Farrukh Rehman.

#### 2.4 Use of estimates and judgments

The preparation of unconsolidated financial statements in conformity with the accounting and reporting standards, as applicable in Pakistan, requires management to make judgments, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Information about judgments made in applying accounting policies that have the most significant effect on the amounts recognised in these unconsolidated financial statements, and about assumptions and estimation uncertainties that have a significant risk of material adjustment to carrying amounts of assets and liabilities in the future period are included in the following notes:

- Provision for taxation (note 3.3)
- Fair value and classification of investments (note 3.7)
- Impairment of non-financial assets (note 3.8)
- Investment property (note 3.9)

#### 2.5 Changes in accounting standards, interpretations and pronouncements

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Company's annual accounting period which began on July 1, 2021. However, these do not have any significant impact on the Company's financial reporting.

#### b) Standard and amendments to accounting and reporting standards that are not yet effective

There is a standard and certain amendments and interpretations to the accounting and reporting standards that will be mandatory for the Company's annual accounting periods beginning on or after July 1, 2022. However, these will not have any impact on the Company's financial reporting and, therefore, have not been disclosed in these unconsolidated financial statements.

#### 3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies set out below are consistently applied for all periods presented in these unconsolidated financial statements.

For the year ended 30th June 2022

#### 3.1 Right of use assets and related lease liabilities

#### 3.1.1 Right of use assets

The Company recognises right-of-use assets (ROU assets) at the commencement date of the lease (i.e., the date the underlying asset is available for use). ROU assets are measured at cost less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities, if any. The cost of ROU assets includes the amount of lease liabilities recognised, initial direct costs incurred, if any, and lease payments made at or before the commencement date less any lease incentives received. Unless the Company is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised ROU assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

#### 3.1.2 Lease Liabilities

The Company assess at contract inception whether a contract is, or contain a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company acts as a lessee and applies a single recognition and measurement approach for all the leases except for short-term leases and leases of low value assets. The Company recognises lease liability to make lease payments and right-of-use assets representing the right to use the underlying assets. At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The Company applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option) for real estate. It also applies the lease of low-value assets recognition exemption to leases that are considered of low value.

In calculating the present value of lease payments, the Company uses the incremental borrowing rate at the lease commencement date. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

The Company determines the lease term as the non-cancellable term of the lease, together with any periods affected by an option to extend or terminate the lease. After the commencement date, the Company reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise (or not to exercise) the option to renew the lease. Any change is accounted for as a change in estimate and applied prospectively with corresponding change in right-of-use assets and lease liabilities.

#### 3.2 Staff retirement benefits

Defined contribution plan

The Company operates a recognised provident fund for all its eligible permanent employees. Equal monthly contributions are made by the Company and employees to the fund at the rate of 12.50% of basic salary.

#### 3.3 Taxation

Income tax expense comprises of current, prior year and deferred tax. Income tax expense is recognised in the statement of profit or loss except to the extent that it relates to items recognised in other comprehensive income or directly in equity, in which case it is recognised in statement of other comprehensive income or equity respectively.

#### Current

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustments to tax payable in respect of prior years.

#### Deferred

Deferred tax is accounted for using the liability method in respect of all temporary differences at the reporting date between the tax base and carrying amount of assets and liabilities for financial reporting purposes.

For the year ended 30th June 2022

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and carried forward unused tax losses, to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and carried forward unused tax losses can be utilised. Carrying amount of all deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled.

#### 3.4 Property and equipment

Property and equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Cost includes expenditures that are directly attributable to the acquisition of the asset including borrowing cost incurred on qualifying assets. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. Cost incurred to replace a component of an item of property and equipment is capitalised and the asset so replaced is retired from use and its carrying amount is derecognised. Normal repairs and maintenance are charged to the statement of profit or loss in the period in which they are incurred.

Depreciation on all property and equipment are charged to the statement of profit or loss using the reducing balance method over the asset's useful life at the rates specified in respective note. The depreciation is charged full in the month of acquisition and no depreciation is charged in the month of disposal. Gains or losses on disposal of an item of property and equipment are recognised in the statement of profit or loss. The assets' residual value and useful life are reviewed at each reporting date, and adjusted if appropriate. Further, when the written down value of the asset falls below Rs. 10,000 the same is charged directly to the statement of profit or loss.

#### 3.5 Intangible assets

These are stated at cost less accumulated amortisation and impairment losses, if any. Amortisation is charged using the straight line method over assets' estimated useful life at the rates stated therein, after taking into account residual value, if any. The residual values, useful lives and amortisation methods are reviewed and adjusted, if appropriate, at each reporting date.

Amortisation on additions is charged from the month the assets are put to use while no amortisation is charged in the month in which the assets are disposed off. Gain and losses on disposal of such assets, if any, are included in the statement of profit or loss.

#### 3.6 Investments in Subsidiaries and Associates

Subsidiaries are entities controlled by the Company. The Company controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The Company considers its associates to be such entities in which the Company has significant influence as defined in IAS 28 'Investments in Associates and Joint Ventures', but not control or has joint control, over the financial and operating policies.

Investment in subsidiaries are carried at cost less impairment losses if any. Investments in associates are accounted for under 'IFRS 9 - Financial instruments' considering each investment individually.

Associates classified as at fair value through profit or loss are measured at fair value, and changes therein are recognised in the statement of profit or loss except associates classified at fair value through other comprehensive income, the changes of which are recognised in statement of comprehensive income.

Investment in the shares of associated companies carried at fair values listed on the stock exchange are valued to the reporting end trade rates, whereas investments in the shares of unlisted associated companies carried at fair values are valued at the values ascertained under the discounted cashflow model or on the basis of some other relevant valuation methodology according to the sector / business fundamentals. Subsequently, changes in fair value are recognized in 'Other Comprehensive Income' and are never recycled to profit and loss, even if the asset is sold or impaired.

For the year ended 30th June 2022

#### Fair value measurement

The fair value of financial instruments traded in active markets at the reporting date is based on their quoted market prices or dealer price quotation without any deduction for transaction costs. If there is no active market for a financial asset, the Company establishes fair value using valuation techniques. These include the use of recent arms length transaction, discounted cash flow analysis and other revaluation techniques commonly used by market participants.

#### 3.7 Financial Instruments

#### 3.7.1 Financial assets

All financial assets are recognized at the time when the Company becomes a party to the contractual provisions of the instrument. Regular purchases and sales of financial assets are recognized on trade-date – the date on which the Company commits to purchase or sell the asset.

#### 3.7.1.1 Classification

The Company classifies its financial assets in the following measurement categories:

- at amortised cost;
- at fair value through other comprehensive income (FVOCI) with recycling of cumulative gains and losses, in case of debt instruments;
- at FVOCI with no recycling of cumulative gains and losses upon derecognition, in case of equity instruments; and
- at fair value through profit or loss (FVTPL).

#### a) At amortised cost

The Company measures financial assets at amortised cost if the financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured as described in note 3.7.1.2. Gains and losses are recognised in the statement of profit or loss when the asset is derecognised, modified or impaired.

#### b) At fair value through other comprehensive income (FVOCI) with recycling of cumulative gains and losses in case of debt instruments

The Company measures financial assets at FVOCI if the financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through other comprehensive income (OCI), except for the recognition of impairment losses or reversals, recognised and measured as described in note 3.7.1.2, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognised in the statement of profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the statement of profit or loss.

#### c) At FVOCI with no recycling of cumulative gains and losses upon derecognition - equity instruments

Upon initial recognition, the Company can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Gains and losses on these financial assets are never recycled to the statement of profit or loss. Dividends are recognised in the statement of profit or loss when the right of payment has been established, except when the Company benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

For the year ended 30th June 2022

#### d) Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for classification at amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a financial asset that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the statement of profit or loss in the period in which it arises.

#### 3.7.1.2 Impairment

The Company assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets carried at amortised cost and FVOCI. The Company recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Company applies the IFRS 9 simplified approach to measure expected credit losses for all of its financial assets (receivables, advances, deposits, etc.). For all other financial assets, a life time ECL is recorded in which there has been Significant Increase in Credit Risk (SICR) from the date of initial recognition and for financial assets which are credit impaired as on reporting date. A 12 months ECL is recorded for all other financial assets which do not meet the criteria for SICR or "credit impaired" as at reporting date.

#### 3.7.1.3 Initial recognition

Financial assets are recognised at the time the Company becomes a party to the contractual provisions of the instrument. These are initially recognised at fair value plus transaction costs except for financial assets carried at FVTPL. Financial assets carried at FVTPL are initially recognised at fair value and transaction costs associated with these financial assets are taken directly to the statement of profit or loss.

#### 3.7.1.4 Derecognition

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either:

- (i) the Company transfers substantially all the risks and rewards of ownership; or
- (ii) the Company neither transfers nor retains substantially all the risks and rewards of ownership and the Company has not retained control.

#### 3.7.1.5 Business model

The business model reflects how the Company manages the assets in order to generate cash flows. That is, whether the objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Company in determining the business model for a Company of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

For the year ended 30th June 2022

#### 3.7.1.6 Solely Payment of Principal And Interest

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Company assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Company considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at FVTPL.

#### 3.7.1.7 Reclassifications

The Company reclassifies financial assets when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

#### 3.7.1.8 Write-offs

The gross carrying amount of a financial asset is written off when the Company has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. Against each outstanding exposure which stands as impaired, the Company makes an assessment with respect to the timing and amount of write-off based on the expectation of recovery. However, financial assets that are written off remain subject to legal enforcement activities for recovery of amounts due.

#### 3.7.1.9 Subsequent measurement

Subsequent to initial recognition, financial assets are valued as follows:

#### a) Financial assets at fair value

Financial assets 'at fair value through profit or loss' are marked to market using the closing market rates and are carried on the balance sheet at fair value. Net gains and losses arising on changes in fair values of these financial assets are taken to the statement of profit or loss in the period in which these arise.

Financial assets at fair value through 'Other Comprehensive Income' are marked to market using the closing market rates and are carried on the balance sheet at fair value. Net gains and losses arising on changes in fair values of these financial assets are recognised in statement of comprehensive income.

Fair value of the investments in listed shares is determined on the basis of the trade rates quoted at the reporting date.

Fair value of unquoted investments is determined under the discounted cashflow model or on the basis of some other relevant valuation methodology according to the sector / business fundamentals.

#### b) Financial assets held at amortised cost

These are subsequently measured at amortised cost.

#### 3.7.2 Financial liabilities

Financial liabilities are recognised at the time the Company becomes a party to the contractual provisions of the instrument. These are initially recognised at fair value less any directly attributable transaction cost.

Financial liabilities are subsequently measured at amortised cost except for:

- Financial liabilities at fair value through profit or loss; and
- Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition, whereby a
  financial liability is recognised for the consideration received for the transfer.

For the year ended 30th June 2022

#### 3.7.2.1 Derecognition

Financial liabilities are derecognised at the time when these are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expires. Any gain or loss on derecognition of financial assets and financial liabilities is taken to the profit and loss account.

#### 3.7.3 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the unconsolidated financial statements only when the Company has currently legally enforceable right to set-off the recognised amounts and the Company intends either to settle on a net basis or to realise the assets and to settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in normal course of business and in the event of default, insolvency or winding up of the Company or the counter parties.

#### 3.8 Impairment of Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets, (other than investment property and deferred tax assets), to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generated units (CGU).

The Company considers evidence of impairment for these assets at both, an individual asset and a collective level. All individually significant assets were individually assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that had been incurred but not yet individually identified. Assets that were not individually significant are collectively assessed for impairment. Collective assessment is carried out by grouping together assets with similar risk characteristics.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in statement of profit or loss.

Impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### 3.9 Investment property

Investment property is measured initially at cost. Subsequent to initial recognition, investment property is stated at fair value. Gains or losses arising from changes in the fair values are included in the statement of profit or loss in the period in which they arise.

Any gain or loss on disposal of an investment property (calculated as the difference between the net proceeds from disposal and the carrying amount of the item) is recognised in the statement of profit or loss. When investment property that was previously classified as property plant and equipment is sold, any related amount included in revaluation reserve is transferred to retained earnings.

#### 3.10 Purchase under resale agreement

Transactions of purchase under resale (Reverse-repo) of marketable securities are entered into at contracted rates for specified periods of time. Securities purchased with a corresponding commitment to resale at a specified future date (Reverse-repo) are not recognised in the statement of profit or loss. Amounts paid under these agreements in respect of reverse repurchase transactions are included in assets.

The difference between purchase and resale price is treated as income from reverse repurchase transactions in marketable securities and accrued on a time proportion basis over the life of the reverse repo agreement.

For the year ended 30th June 2022

#### 3.11 Off Balance Sheet Obligations

The Company issues financial guarantee contracts in return for fees (i.e. commission on guarantee) to associated concerns. Under a financial guarantee contract, the Company undertakes to meet counter party's obligations under the terms of a debt instrument, if the counter party fails to do so.

#### 3.12 Short term borrowings

Mark-up bearing borrowings are recognised initially at fair value, less any directly attributable transaction cost. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the statement of profit or loss over the period of the borrowings on an effective interest basis.

#### 3.13 Share capital

Ordinary shares are classified as equity and recognised at their face value. Incremental costs are directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, if any.

#### 3.14 Earnings per share

The Company presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Parent Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

#### 3.15 Revenue recognition

- Gain / loss on sale of investments are recognised in the statement of profit or loss on the date of transaction. All purchases and sales of securities that require delivery within the timeframe established by regulation or market conventions such as 'T+2' 'purchases and sales are recognised at the trade date. Trade date is the date on which the Company commits to purchase or sell the financial assets.
- Dividend income is recognised when the Company's right to receive such dividend is established.
- Put option fee is recognised on time proportion basis over the period of its tenor.
- Interest income on bank deposits and loans are recognised on time proportion basis that takes into account the
  effective yield.
- Unrealised gains / (losses) arising on remeasurement of investments classified as at fair value through profit or loss are included in the statement of profit or loss in the period in which they arise.
- Guarantee commission is recognised in income over the period of the guarantee.

#### 3.16 Provisions

Provision is recognised when, as a result of past event, the Company has a present legal or constructive obligation that can be estimated reliably and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Subsequently, provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

#### 3.17 Foreign currency

Foreign currency transactions are translated into Pakistan Rupees using the exchange rates prevailing at the date of the transactions. All the monetary assets and liabilities in foreign currencies, at the reporting date, are translated into Pakistan Rupees at the exchange rates prevailing on that date. Foreign exchange gains and losses on translation are recognised in the statement of profit or loss.

#### 3.18 Cash and cash equivalents

For the year ended 30<sup>th</sup> June 2022

- 28.1 The provision for current year tax represents tax on taxable income under final tax regime as per the applicable rate and minimum tax per annum under normal tax regime. The Company computes current tax expense based on the generally accepted interpretation of the tax laws to ensure that sufficient provision for the purpose of taxation is available. According to management, the tax provision made in these audited unconsolidated financial statements is sufficient.
- 28.2 During the financial year 2021, the petition filed by the Company against the imposition of super tax for rehabilitation of temporarily displaced persons under section 4B of the Income Tax Ordinance, 2001 for the tax years 2015 to 2019 in the Honourable High Court of Sindh was rejected vide order dated July 21, 2020. The Company, in consultation with its legal and tax advisors, has filed an appeal against the decision of the Honourable High Court of Sindh in the Supreme Court of Pakistan.

Consequent to the High Court judgement, the tax authorities issued notices to the Company and subsequently framed orders for the recovery of super tax for the relevant tax years. An appeal has been filed against these orders with the Commissioner Inland Revenue (Appeals) along with stay against recovery of demand based on certain contentious and factual grounds. Further, through an interim order dated 26 November 2020, the Honourable Supreme Court of Pakistan has ordered for no coercive action against the petitioners who deposit 50% of outstanding tax demand, accordingly the Company had made the required deposit. The management has assessed the sufficiency of tax provision on account of super tax and considers that these sufficient for the purpose.

28.3 Further, the deemed assessments for the tax years 2016 to 2019 were subsequently modified by the Additional Commissioner Inland Revenue (AdCIR) by issuing amended assessment orders (Orders), mainly attempting to reclassify Company's normal business income to income from other sources. The Company had filed appeal before the CIR (Appeals) against the Orders, who have remanded back the cases to AdCIR for re-examination and re-consideration of the facts of the cases. For tax year 2019, the Company and AdCIR are contesting the case in Appellate Tribunal Inland Revenue.

The risk management system is designed to promote a balanced approach to risks at all organizational levels, identify and analyse the opportunities and risks at an early stage, their measurement and the use of suitable instruments to manage and monitor risks.

#### Credit risk management

It is the Company's policy to enter into financial contracts with reputable, diverse and creditworthy counterparties and, wherever possible or deemed necessary, obtain collaterals in accordance with internal risk management policies and investment guidelines designed for credit risk management. Management closely monitors the creditworthiness of the Company's counterparties.

#### 34.2 Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset, or that such obligations will have to be settled in a manner disadvantageous to the Company. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of adequate funds through committed credit facilities. The Company finances its operations through equity, borrowings and working capital with a view of maintaining an appropriate mix between various sources of finance to minimize risk. The management aims to maintain flexibility in funding by keeping regular committed credit lines.

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

#### 34.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company is exposed to currency risk, interest rate risk and price risk.

#### a) Foreign exchange risk management

Foreign currency risk arises mainly where receivables and payables exist due to transactions in foreign currencies. Currently, the Company's foreign exchange risk exposure is restricted to cash and bank balances in foreign currency. Management believes that the Company's exposure emanating from any fluctuations in the foreign currencies is not required to be hedged.

#### c) Price risk

sensitivity gap

Cumulative interest rate

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest / mark-up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. The Company is exposed to equity price risk since it has investments in quoted securities.

(809,726,042) (794,228,702) (677,199,183) (677,199,183)

The Company's strategy is to hold its strategic equity investments for a longer period of time. Thus, management is not concerned with short term price fluctuations with respect to its strategic investments provided that the underlying business, economic and management characteristics of the investee company remain viable. The Company manages price risk by monitoring exposure in quoted equity securities and implementing strict discipline in internal risk management and investment policies.

The carrying value of investments subject to equity price risk are, in almost all instances, based on quoted market prices as of the reporting date except for unquoted associates which are carried at fair value determined through valuation techniques. Market prices are subject to fluctuation and consequently the amount realised in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, amount realised in the sale of a particular security may be affected by the relative quantity of the security being sold.

#### Sensitivity analysis

The table below summarises the Company's equity price risk as of June 30, 2022 and 2021 and shows the effects of a hypothetical 30% increase and a 30% decrease in market prices as at the year end. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Accordingly, the sensitivity analysis prepared is not necessarily an indication of the effect on Company's net assets of future movement in the level of PSX

#### 35. FAIR VALUE MEASUREMENTS

A number of the Company's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and financial liabilities.

Fair value' is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Management engage independent external experts / valuers to carry out valuation of its non-financial assets (i.e. Investment Property) and financial assets where prices are not quoted or readily available in the market. Involvement of external valuers is decided upon by management. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

When measuring the fair value of an asset or a liability, the Company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair values of financial assets that are traded in active markets are based on quoted market prices. For all other financial instruments the Company determines fair values using valuation techniques unless the instruments do not have a market quoted price in an active market and whose fair value cannot be reliably measured.

Valuation techniques used by the Company include discounted cash flow model for valuation of unquoted equity securities. Assumptions and inputs used in valuation techniques include risk-free rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the reporting date that would have been determined by market participants acting at arm's length.

Valuation models for valuing securities for which there is no active market requires significant unobservable inputs and a higher degree of management judgment and estimation in the determination of fair value. Management judgment and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued and selection of appropriate discount rates, etc.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognised in these unconsolidated financial statements at fair value on a recurring basis, the management recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers between different levels of fair values mentioned above.

For the year ended 30<sup>th</sup> June 2022

35.1 Management assessed that the fair values of loans and advances, other receivables, mark-up receivable, cash and bank balances, trade and other payables, short term borrowings, mark-up accrued on borrowings and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments. For long term deposits and other receivables, long term loan to related party and other non-current liabilities, management consider that their carrying values approximates fair value.

# AUDITED CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30TH JUNE 2022

# INDEPENDENT AUDITOR'S REPORT

#### To the members of Arif Habib Corporation Limited

#### **Opinion**

We have audited the annexed consolidated financial statements of Arif Habib Corporation Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at June 30, 2022, the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at June 30, 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

#### **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### Following are the Key audit matters

| S No | Key audit matters  | How the matters were addressed in our audit  |
|------|--|--|
| 1.   | Investments  (Refer note 10, 11 and 18 to the consolidated financial statements)  As at 30 June 2022, the Group has investments classified as "Associates – measured using equity accounting method ", "other equity securities - designated as Fair value through other comprehensive income" and "other equity securities designated as Fair value through profit and loss" amounting to Rs. 26.94 billion which in aggregate represent 49.65% of the total assets of the Group. Investments are carried at fair value or using the equity accounting method in accordance with the Group's accounting policy relating to their recognition and subsequent measurement.  The valuation of investment is significant to the consolidated financial statements and involves management's judgment and use of key assumptions and estimates and therefore we have considered this to be a key audit matter. | <ul> <li>Our audit procedures amongst others included the following:</li> <li>Tested the design, implementation and operating effectiveness of key controls over the valuation process, including the Group's review and approval of the estimates and assumptions used for the valuation;</li> <li>Tested, on a sample basis, specific purchases and sale transactions recorded during the year by reference to its source;</li> <li>In case of quoted securities, tested the valuation of such securities by agreeing the prices to the externally quoted market prices;</li> <li>In case of unquoted securities, tested the valuation of such securities by involving valuation specialist to evaluate valuation techniques, assumptions and methodologies used by management;</li> <li>Assessed the appropriateness of impairment policy in accordance with the requirements of accounting and reporting standards; and</li> <li>Assessed the relevant disclosures made in the consolidated financial statements to determine whether these complied with the accounting and reporting standards as applicable in Pakistan.</li> </ul> |

| S No | Key audit matters   | How the matters were addressed in our audit   |
|------|---|---|
| 2.   | (Refer note 9 to the consolidated financial statements)  As at June 30, 2022, the Group had an investment in open plots of land / offices amounting, in aggregate, to Rs. 1,592 million. This mainly includes the investment in residential and commercial plots situated at Naya Nazimabad, Deh Manghopir, Gadap Town, Karachi (a real estate project being managed by M/s. Javedan Corporation Limited, a related party).  In relation to the above, during the year, the Group recognized a realized gain on sale of investment property amounting to Rs. 940 million (which, as per note 9.1.4 to the consolidated financial statements, includes an unrealized gain previously recognized as at June 30, 2021 amounting to Rs. 575 million). In addition to this, as at June 30, 2022, the Group recognized an unrealized gain on investment property held as of that date, amounting to Rs. 646 million (as disclosed in note 9.1.4 to the consolidated financial statements). It is the Group's policy to state the investment property at fair value determined by an independent external valuation expert.  Due to the significance of the estimate and the basis of assessment for valuation made by the valuer and the amount of gain realized on disposal, we considered this as the key audit matter. | <ul> <li>Our audit procedures amongst others included the following:</li> <li>We assessed the competence, capability and objectivity of the external valuation expert engaged by the management;</li> <li>We read the property valuation report issued by the management's expert and confirmed the valuation approach followed by the valuer was in accordance with the applicable financial reporting framework and suitable for use in determining the fair value for the purpose of the consolidated financial statements;</li> <li>We have satisfied ourselves that the valuation methodology used by the management's expert has been applied consistently to all the properties valued.</li> <li>We compared the carrying amount of the properties in the consolidated financial statements to the fair value of such properties reflected in the valuation report issued by the management's expert;</li> <li>We performed necessary procedures to ascertain whether the values assigned to the properties by the valuer are closely aligned to those determined through independent sources; and</li> <li>We evaluated whether disclosures in the consolidated financial statements relating to the investment properties were in accordance with the applicable financial reporting framework.</li> </ul> |

#### Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and unconsolidated financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan and Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether
  due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
  evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a
  material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve
  collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based
  on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that
  may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a
  material uncertainty exists, we are required to draw attention in our auditor's report to the related
  disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our
  opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
  However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business
  activities within the Group to express an opinion on the consolidated financial statements. We are
  responsible for the direction, supervision and performance of the group audit. We remain solely responsible
  for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matter**

The consolidated financial statements of the Group for the year ended June 30, 2021, were audited by another auditor who expressed an unmodified opinion on those statements on October 01, 2021.

The engagement partner on the audit resulting in this independent auditor's report is Farrukh Rehman.

Actual results may differ from these estimates.

## 3.2 Standard and amendments to accounting and reporting standards that are not yet effective

However, these will not have any impact on the Group's financial reporting and, therefore, have not been disclosed in these consolidated financial statements.

## 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies set out below have been consistently applied for all periods presented in these consolidated financial statements.

#### 4.1 Right of use assets and related lease liabilities

## 4.1.1 Right of use assets

The Group recognises right-of-use assets (ROU assets) at the commencement date of the lease (i.e., the date the underlying asset is available for use). ROU assets are measured at cost less any accumulated depreciation and accumulated impairment losses, 'and adjusted for any remeasurement of lease liabilities, if any. The cost of ROU assets includes the amount of lease liabilities recognised, initial direct costs incurred, if any, and lease payments made at or before the commencement date less any lease 'incentives received. Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognised ROU assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the 'lease term.

For the year ended 30th June 2022

In respect of Sachal Energy Development (Private) Limited (SEDPL), a subsidiary company referred in note 1.1.4, on transition to IFRS 16, SEDPL elected to apply the practical expedient to grandfather the assessment of which transactions are leases. It applied IFRS 16 only to contracts that were previously identified as leases. Contracts that were not identified as leases under IAS 17 and IFRIC 4 were not reassessed. Therefore, the definition of a lease under IFRS 16 has been applied only to contracts entered into or changed on or after January 01, 2019. The Securities and Exchange Commission of Pakistan (SECP) vide its notification dated 2 September 2019 has granted exemption from the requirement of IFRS 16 to extent the power purchase agreements were executed before 1 January 2019.

#### 4.1.2 Lease Liabilities

The Group assess at contract inception whether a contract is, or contain a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Group acts as a lessee and applies a single recognition and measurement approach for all the leases except for short-term leases and leases of low value assets. The Group recognises lease liability to make lease payments and right-of-use assets representing the right to use the underlying assets. At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The Group applies the short-term lease recognition exemption to its short-term leases (i.e. those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option) for real estate. It also applies the lease of low-value assets recognition exemption to leases that are considered of low value.

In calculating the present value of lease payments, the Group uses the incremental borrowing rate at the lease commencement date. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

The Group determines the lease term as the non-cancellable term of the lease, together with any periods affected by an option to extend or terminate the lease. After the commencement date, the Group reassess the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to excercise (or not to excercise) the option to renew the lease. Any change is accounted for as a change in estimate and applied prospectively with corresponding change in right-of-use assets assets and lease liabilities.

#### 4.2 Basis of consolidation and equity accounting

#### 4.2.1 Business Combination

Business combinations are accounted for using the acquisition method when control is transferred to the Group. The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Goodwill arising on acquisition date is measured as the excess of the purchase consideration, including the acquisition date fair value of the acquirer's previously held equity interest in the acquiree in case of step acquisition, over the fair value of the identifiable assets acquired and liabilities assumed including contingent liabilities less impairment losses, if any. Any goodwill that arises is not amortized and tested annually for impairment. Any gain on bargain purchase is recognised immediately in consolidated statement of profit or loss. Transaction cost are expensed as incurred, except if related to the issue of debt or equity securities. Any contingent consideration payable is measured at fair value at the acquisition date. If the contingent consideration is classified as equity, then it is not remeasured and settlement is accounted for within equity. Otherwise, subsequent changes in the fair value of the contingent consideration are recognised in consolidated statement of profit or loss.

#### 4.2.2 Subsidiaries

Subsidiaries are entities controlled by the Parent Company. Control exists when the Parent Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date on which control ceases.

For the year ended 30th June 2022

These consolidated financial statements have been prepared using uniform accounting policies for the like transactions and other events in similar circumstances and the accounting policies of subsidiaries have been changed when necessary to align them with the accounting policies adopted by the Parent Company. The assets and liabilities of subsidiary companies have been consolidated on a line-by-line basis. The carrying value of investments held by the Parent Company is eliminated against the subsidiary's shareholders' equity in these consolidated financial statements.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners in their capacity as owners.

Upon the loss of control, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in consolidated statement of profit or loss. Any retained interest in the former subsidiary is measured at fair value where control is lost.

The financial year of the Parent Company and its subsidiaries are the same and also audited.

#### 4.2.3 Non-controlling interests

Non-controlling interest is that portion of equity in a subsidiary that is not attributable, directly or indirectly, to the Parent Company. Non-controlling interests are measured at their proportionate share of the subsidiaries' identifiable net assets. They are presented as a separate item in the consolidated financial statements.

#### 4.2.4 Associates

The Parent Company considers its associates to be such entities in which the Group has ownership, of not less than twenty percent but not more than fifty percent, of the voting power and / or has significant influence, but not control, over the financial and operating policies.

Investments in associates are accounted for under the equity method, less impairment losses, if any. Such investments are carried in consolidated statement of financial position at cost (including transaction cost), plus post-acquisition changes in the Group's share of net assets of the associate, less any impairment in value. The consolidated statement of profit or loss reflects the Group's share of the results of its associate and consolidated statement of other comprehensive income reflect Group's shares in other comprehensive income of equity accounted investee. The equity method for investments in associates is applied from the date when significant influence commence until the date that significant influence ceases. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of investment. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

#### 4.2.5 Transactions eliminated on consolidation

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised gains arising from transactions with equity accounted investees are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### 4.3 Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the date on which the derivative contract is entered into and are subsequently remeasured at fair value with resulting fair values changes recognised in consolidated statement of profit or loss. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative.

For the year ended 30th June 2022

#### 4.4 Purchase / Sold under resale / repurchase agreement

Transactions of purchase under resale (reverse-repo) of marketable securities are entered into at contracted rates for specified periods of time. Securities purchased with a corresponding commitment to resale at a specified future date (reverse-repo) are not recognised in the consolidated statement of financial position. Amounts paid under these agreements in respect of reverse repurchase transactions are included in assets. The difference between purchase and resale price is treated as income from reverse repurchase transactions in marketable securities and accrued on a time proportion basis over the life of the reverse repo agreement.

Transactions of sale under repurchase (repo) of marketable securities are entered into at contracted rates for specified periods of time. Securities sold with a simultaneous commitment to repurchase at a specified future date (repo) continue to be recognised in the consolidated statement of financial position and are measured in accordance with accounting policies for investments. The counterparty liabilities for amounts received under these transactions are recorded as liabilities. The difference between sale and repurchase price is treated as finance cost and accrued over the life of the repo agreement.

#### 4.5 Staff retirement benefits

The Group operates following retirement and other benefit schemes:

#### 4.5.1 Defined contribution plan

AHCL, AHL and AHCPL operates a recognised provident fund for all its eligible permanent employees. Equal monthly contributions are made by the Group companies and it's employees to the fund at the rate of 12.50% of basic salary per annum.

#### 4.5.2 Gratuity

SEDPL operates an unfunded gratuity scheme under which all employees are entitled to gratuity payment at the time of completion of service or termination, equivalent to one last drawn salary for every one year of service performed with SEDPL. For the purpose of any part of a completed year the gratuity payment will be calculated on monthly prorate basis. The partial month will be deemed as full month if the number of days served are more than fifteen and for any less number of days served that month will not be counted.

## 4.6 Taxation

Income tax expense comprises of current, prior year and deferred tax. Income tax expense is recognised in consolidated statement of profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

#### Current

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustments to tax payable in respect of prior years.

However, in case of SEDPL, a wind power generation company, the profits and gains of the SEDPL derived from electric power generation and sale of clean development mechanism credits are exempt from tax subject to the conditions and limitations provided for in terms of clause (132) of Part I and clause (65) of Part IV of the Second Schedule to the Income Tax Ordinance, 2001 respectively. However, full provision is made in the statement of profit or loss on Income from sources not covered under the above clause at current rates of taxation after taking Into account, tax credits and rebates available, If any, and any adjustment to tax payable in respect of previous years. Further, SEDPL is also exempt from minimum tax on turnover.

#### **Deferred**

Deferred tax, except for those relating to SEDPL, is accounted for using the balance sheet liability method in respect of all temporary differences at the reporting date between the tax base and carrying amount of assets and liabilities for financial reporting purposes.

For the year ended 30th June 2022

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and carry forward of unused tax losses, to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and carry forward of unused tax losses can be utilised. Carrying amount of all deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled.

However, in case of SEDPL, deferred tax has not been provided in these consolidated financial statements as the Group's management believes that the temporary differences will not be reversed in the foreseeable future due to the fact that the profits and gains of SEDPL derived from electric power generation and sale of clean development mechanism credits are exempt from tax subject to the conditions and limitations provided for In terms of clause (132) of Part I and clause (65) of Part IV of the Second Schedule to the Income Tax Ordinance, 2001).

## 4.7 Property, Plant and Equipment

#### **Owned**

Operating fixed assets, except capital work-in-progress, are stated at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditure that are directly attributable to the acquisition of the asset. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and its cost can be measured reliably. Cost incurred to replace a component of an item of operating fixed assets is capitalized, the asset so replaced is retired from use and its carrying amount is derecognised. Normal repairs and maintenance are charged to consolidated statement of profit or loss during the period in which they are incurred.

Further as mentioned in note 2.1 to the financial statements, Securities and Exchange Commission of Pakistan have granted exemption from the requirements of International Accounting Standards (IAS - 21 effects of changes in Foreign Exchange Rates) to the extent of the capitalisation of exchange differences to all the companies that have executed their power purchase agreements before 1 July 2019. Accordingly the exchange loss incurred by the group (represented by the power purchase agreements executed before the above date) are also included in the cost of its plant and machinery (refer note 5.1 for details).

Depreciation on all operating fixed assets are charged to the consolidated statement of profit or loss using the straight line and reducing balance method over the asset's useful life at the rates specified in note 5.1. The depreciation is charged full in the month of acquisition and no depreciation is charged in the month of disposal. Gains or losses on disposal of an item of operating fixed assets are recognised in the consolidated statement of profit and loss. The assets' residual value and useful life are reviewed at each financial year end, and adjusted if appropriate.

Where parts of an item of property, plant and equipment have different useful lives, the cost of the item is allocated on a reasonable basis between the parts and each part is depreciated separately. Both the useful life of an asset and its residual value, if any, are reviewed annually.

Capital work in progress is stated at cost less impairment and consists of expenditure incurred and advances made in respect of assets in the course of their construction and installation. Transfers are made to relevant asset's category as and when assets are available for intended use.

#### Leased

Leases in terms of which the Group companies assumes substantially all the risks and rewards of ownership are classified as finance lease. Asset acquired by way of finance lease is stated at an amount equal to the lower of its fair value and the present value of minimum lease payments at the inception of the lease less accumulated depreciation and impairment losses, if any. The corresponding liability to the lessor is included in the consolidated statement of financial position as liabilities against assets subject to finance lease.

For the year ended 30th June 2022

Leased assets which are obtained under Ijarah agreement are not recognised in the consolidated statement of financial position and are treated as operating lease based on Islamic Financial Accounting Standard (IFAS) 2 issued by the Institute of Chartered Accountants of Pakistan and notified by Securities and Exchange Commission of Pakistan vide S.R.O. 43(1) / 2007 dated 22 May 2007. Payments made under operating lease are charged to consolidated statement of profit or loss on a straight line basis over the lease term.

#### **Major stores and spares (Capital Spares)**

Spare parts, stand-by equipment and servicing equipment which qualify as property, plant and equipment when an entity expects to use them during more than one year are classified as operating fixed assets under category of major stores and spares.

### 4.8 Investment properties

Investment property comprises land and building, held either to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the supply of services or for administrative purposes.

Investment property is initially measured at its cost, including related transaction costs and borrowing costs, if any and subsequently carried at fair value with any change therein recognised in consolidated statement of profit or loss.

For the purpose of subsequent measurement, the fair value of the investment property is determined with sufficient regularity based on available active market prices, adjusted, if necessary, for any difference in the nature, location or condition of the specific asset. Valuations wherever needed are performed as of the reporting date by professional valuers who hold recognised and relevant professional qualifications and have recent experience in the location and category of the investment property being valued. These valuations form the basis for the carrying amounts in the consolidated financial statements.

An investment property is derecognised either when disposed and any gain / (loss) on disposal is recognised in consolidated statement of profit or loss.

When the use of a property changes from owner-occupied to investment property, the property is remeasured to fair value and reclassified accordingly. Any gain arising on this remeasurement is recognised in consolidated statement of profit or loss to the extent that it reverses a previous impairment loss on the specific property, with any remaining gain presented in the surplus on revaluation reserve. Any loss is recognised in consolidated statement of profit or loss. When investment property that was previously classified as property, plant and equipment is sold, any related amount included in the revaluation reserve is transferred to retained earnings.

#### 4.9 Intangible assets

These are stated at cost less accumulated amortisation and impairment losses, if any. Subsequent expenditure is capitalized only if when it increases the future economic benefits embodied in the specific assets to which it relates. Other expenditure is recognised in consolidated statement of profit or loss. Amortisation is charged using the straight line and reducing balance method over assets' estimated useful life at the rates stated in respective note, after taking into account residual value, if any. The residual values, useful lives and amortisation methods are reviewed and adjusted, if appropriate, at each reporting date.

Amortisation on additions is charged from the month the assets are put to use while no amortisation is charged in the month in which the assets are disposed off. Gain and losses on disposal of such assets, if any, are included in the consolidated statement of profit or loss.

## 4.9.1 Trading right entitlement certificate, membership card and offices

These are held by Arif Habib Limited (AHL), Arif Habib Commodities (Private) Limited (AHCPL) and Arif Habib 1857 (Private) Limited (AH1857) and are stated at cost less impairment losses, if any. The carrying amount is reviewed at each reporting date to assess whether it is in excess of its recoverable amount, and where the carrying value exceeds estimated recoverable amount, it is written down to its estimated recoverable amount.

For the year ended 30th June 2022

#### 4.10 Discontinued operation

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which:

- represents a separate major line of business or geographic area of operations;
- is part of a single co-ordinated plan to dispose of a separate major line of business or geographic area of operations; or
- is a subsidiary acquired exclusively with a view to re-sale.

Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held-for-sale.

#### 4.11 Assets held for sale

Non-current assets, or disposal group comprising assets and liabilities, are classified as held-for-sale if it is highly probable that they will be recovered primarily through sale rather than through continuing use.

Such assets, or disposal groups, are generally measured at lower of their carrying amount and fair value less costs to sell. Any impairment loss on a disposal group is allocated first to goodwill, and then to the remaining assets and liabilities on pro rata basis, except that no loss is allocated to inventories, financial assets, deferred tax assets, employee benefit assets, investment property or biological assets, which continue to be measured in accordance with the Group's other accounting policies. Impairment losses on initial classification as held-for-sale or held-for-distribution and subsequent gains and losses on remeasurement are recognised in consolidated statement of profit or loss.

Once classified as held-for-sale; intangible assets and property, plant and equipment are no longer amortized or depreciated and any equity accounted investee is no longer equity accounted.

#### 4.12 Trade receivables

Trade debts are stated at original invoice amount as reduced by appropriate provision for impairment. Trade debts are amount receivable from customer for goods transferred for services performed in the ordinary course of business. Other receivables generally arise from the transactions outside the usual operating activities of the Company. If collection is expected in one year or less, they are classified as current assets. If not, presented as non-current assets.

## 4.13 Trade and other payables

Trade and other payables are carried at cost, which is the fair value of the consideration to be paid, in consideration for goods and services received.

## 4.14 Trade debts and receivables against margin financing

These are carried at their transaction price less any allowance for lifetime expected credit losses. A receivable is recognized on the settlement date as this is the point in time that the payment of the consideration by the customer becomes due.

## 4.15 Borrowings

Mark-up bearing borrowings are recognised initially at fair value, less attributable transaction cost. Subsequent to initial recognition, mark-up bearing borrowings are stated at amortized cost with any difference between cost and redemption value being recognised in the consolidated statement of profit or loss over the period of the borrowings on an effective interest basis.

For the year ended 30th June 2022

#### 4.17 Earnings per share

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Parent Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

#### 4.18 Revenue recognition

- Gain / loss on sale of investments are recognised in the statement of profit or loss on the date of transaction. All purchases and sales of securities that require delivery within the timeframe established by regulation or market conventions such as 'T+2' 'purchases and sales are recognised at the trade date. Trade date is the date on which the Company commits to purchase or sell the financial assets.
- Brokerage, consultancy and advisory fee, etc. are recognised as and when such services are provided.
- Commission revenue arising from sales / purchase of securities on clients' behalf is recognized on the date of settlement of the transaction by the clearing house.

- Guarantee commission is recognised in income over the period of the guarantee.
- Reverse repo income is recorded on an accrual basis over the period of the deal under the effective interest rate method.
- Revenue on the sale of energy represents fair value of the consideration received or receivable on account of regular energy, shortfall energy, bonus energy, and also includes late payment charges to CPPA-G, net of sales tax. Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Group and the amount of revenue, and the associated cost incurred, or to be incurred, can be measured reliably.

Revenue is recognized when the Group satisfies the performance obligation by transferring a promised good or service to a customer. A good or service is transferred when the customer obtains control of that good or service. The Group principally satisfies its performance obligation by ensuring availability of the complex for power generation. Revenues from delivered energy, non-project missed volume ("NPMV"), shortfall energy and bonus energy are recognized as per the mechanism specified in the Energy Purchase Agreement ("EPA"), however, tariffs are determined by National Electric Power Regulatory Authority ("NEPRA").

Effect of adjustment, If any, arising from revision in sale price is reflected as and when the tariffs are approved by NEPRA.

For the year ended 30th June 2022

## 4.19 Provisions and contingencies

Provision is recognised when, as a result of past event, the Group has a present legal or constructive obligation that can be estimated reliably and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation. Subsequently, provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. The un-winding of discount is recognized as finance cost, if any. Where it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation can not be measured with sufficient reliability, it is disclosed as contingent liability.

#### 4.20 Financial instruments

#### 4.20.1 Financial assets

All financial assets are recognized at the time when the Group becomes a party to the contractual provisions of the instrument. Regular purchases and sales of financial assets are recognized on trade-date – the date on which the Group commits to purchase or sell the asset.

#### 4.20.1.1 Classification

The Group classifies its financial assets in the following measurement categories:

- at amortised cost;
- at fair value through other comprehensive income (FVOCI) with recycling of cumulative gains and losses, in case of debt instruments;
- at FVOCI with no recycling of cumulative gains and losses upon derecognition, in case of equity instruments;
   and
- at fair value through profit or loss (FVTPL).

#### a) At amortised cost

The Group measures financial assets at amortised cost if the financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets at amortised cost are subsequently measured using the effective interest rate (EIR) method. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured as described in note 4.20.1.2. Gains and losses are recognised in the profit and loss account when the asset is derecognised, modified or impaired.

# b) At fair value through other comprehensive income (FVOCI) with recycling of cumulative gains and losses in case of debt instruments

The Group measures financial assets at FVOCI if the financial asset is held within a business model with the objective of both holding to collect contractual cash flows and selling and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through other comprehensive income (OCI), except for the recognition of impairment losses or reversals, recognised and measured as described in note 4.20.1.2, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognised in the profit and loss account. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to the profit and loss account.

For the year ended 30th June 2022

## c) At FVOCI with no recycling of cumulative gains and losses upon derecognition - equity instruments

Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at fair value through OCI when they meet the definition of equity under IAS 32 Financial Instruments: Presentation and are not held for trading. The classification is determined on an instrument-by-instrument basis. Gains and losses on these financial assets are never recycled to the profit and loss account. Dividends are recognised in the profit and loss account when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at fair value through OCI are not subject to impairment assessment.

#### d) Fair value through profit or loss (FVTPL)

Assets that do not meet the criteria for classification at amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a financial asset that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in the profit and loss account in the period in which it arises.

#### 4.20.1.2 Impairment

The Group assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets carried at amortised cost and FVOCI. The Group recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at The reporting date about past events, current conditions and forecasts of future economic conditions.

The Group applies the IFRS 9 simplified approach to measure expected credit losses for all of its financial assets (receivables, advances, deposits, etc.). For all other financial assets, a life time ECL is recorded in which there has been Significant Increase in Credit Risk (SICR) from the date of initial recognition and for financial assets which are credit impaired as on reporting date. A 12 months ECL is recorded for all other financial assets which do not meet the criteria for SICR or "credit impaired" as at reporting date.

#### 4.20.1.3 Initial recognition

Financial assets are recognised at the time the Group becomes a party to the contractual provisions of the instrument. These are initially recognised at fair value plus transaction costs except for financial assets carried at FVTPL. Financial assets carried at FVTPL are initially recognised at fair value and transaction costs associated with these financial assets are taken directly to the profit and loss account.

## 4.20.1.4 Derecognition

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either:

- (i) the Group transfers substantially all the risks and rewards of ownership; or
- (ii) the Group neither transfers nor retains substantially all the risks and rewards of ownership and the Group has not retained control.

For the year ended 30th June 2022

#### 4.20.1.5 Business model

The business model reflects how the Group manages the assets in order to generate cash flows. That is, whether the objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVTPL. Factors considered by the Group in determining the business model for a Group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated.

#### 4.20.1.6 Solely Payment of Principal And Interest

Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at EVTPL.

#### 4.20.1.7 Reclassifications

The Group reclassifies financial assets when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

#### 4.20.1.8 Write-offs

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering a financial asset in its entirety or a portion thereof. Against each outstanding exposure which stands as impaired, the Group makes an assessment with respect to the timing and amount of write-off based on the expectation of recovery. However, financial assets that are written off remain subject to legal enforcement activities for recovery of amounts due.

## 4.20.1.9 Subsequent measurement

Subsequent to initial recognition, financial assets are valued as follows:

## a) Financial assets at fair value

Financial assets 'at fair value through profit or loss' are marked to market using the closing market rates and are carried on the balance sheet at fair value. Net gains and losses arising on changes in fair values of these financial assets are taken to the profit and loss account in the period in which these arise.

Financial assets at fair value through 'Other Comprehensive Income' are marked to market using the closing market rates and are carried on the balance sheet at fair value. Net gains and losses arising on changes in fair values of these financial assets are recognised in other comprehensive income.

Fair value of the investments in listed shares is determined on the basis of the trade rates quoted at the reporting date.

## b) Financial assets held at amortised cost

These are subsequently measured at amortised cost.

For the year ended 30th June 2022

## 4.20.2 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are only offset and the net amount reported in the balance sheet when there is a legally enforceable right to set off the recognised amount and the Group intends to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### 4.20.3 Financial liabilities

**4.20.3.1** Financial liabilities are recognised at the time the Group becomes a party to the contractual provisions of the instrument. These are initially recognised at fair value less any directly attributable transaction cost.

Financial liabilities are subsequently measured at amortised cost except for:

- Financial liabilities at fair value through profit or loss; and
- Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition, whereby a financial liability is recognised for the consideration received for the transfer.

## 4.20.3.2 Derecognition

Financial liabilities are derecognised at the time when these are extinguished i.e. when the obligation specified in the contract is discharged, cancelled or expires. Any gain or loss on derecognition of financial assets and financial liabilities is taken to the profit and loss account.

#### 4.21 Impairment of Non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than investment property and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generated units (CGU).

The Group considers evidence of impairment for these assets at both, an individual asset and a collective level. All individually significant assets were individually assessed for impairment. Those found not to be impaired are then collectively assessed for any impairment that had been incurred but not yet individually identified. Assets that were not individually significant are collectively assessed for impairment. Collective assessment is carried out by grouping together assets with similar risk characteristics.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognised in statement of profit or loss.

Impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

## 4.22 Off balance sheet obligations

The Group issues financial guarantee contracts in return for fees (i.e. commission on guarantee) to associated concerns. Under a financial guarantee contract, the Group undertakes to meet counter party's obligations under the terms of a debt instrument, if the counter party fails to do so.

For the year ended 30th June 2022

## 4.23 Foreign currency transaction and foreign operations

Foreign currency transactions are translated into Pakistan Rupees using the exchange rates prevailing at the date of the transactions. All the monetary assets and liabilities in foreign currencies, at the reporting date, are translated into Pakistan Rupees at the exchange rates prevailing on that date. Foreign exchange gains and losses on translation are recognised in the consolidated statement of profit or loss except in case of SEDPL, subsidiary company, which has availed the exemption as allowed by the SECP vide S.R.O 24(1)/2012 dated 16 January 2012 for the power sector companies, such gain or loss to be capitalized as part of plant which is departure from the requirement of International Accounting Standard (IAS) 21 'The Effects of Changes in Foreign Exchange Rates'.

Non-monetary assets and liabilities, denominated in foreign currency that are measured at fair value are translated using exchange rate at the date the fair values are determined. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction.

The assets and liabilities of foreign operations, are translated to Pakistan Rupees at exchange rates at the reporting date. The income and expenses of foreign operations, are translated to Pakistan Rupees at exchange rates at the dates of the transactions. Foreign currency differences are recognised in consolidated statement other comprehensive income, and presented in the foreign currency translation reserve (translation reserve) in equity except to the extent that the translation differences is allocated to Non Controlling Interest (NCI). When a foreign operation is disposed off in its entirety or partially such that control or significant influence is lost, the cumulative amount in translation reserve related to that foreign operation is reclassified to consolidated statement of profit or loss as part of gain or loss on disposal. If group retain control then it is reattributed to NCI. When group retain significant influence the relative portion of cumulative amount is reclassified to consolidated statement of profit or loss.

#### 4.24 Borrowing costs

Borrowing costs incurred on short term and long term borrowings are recognised as an expense in the period in which these are incurred, except that those which are directly attributable to the acquisition, construction or production of a qualifying asset (i.e. an asset that necessarily takes a substantial period of time to get ready for its intended use or sale) are capitalized as part of the cost of that asset.

#### 4.25 Cash and cash equivalents

Cash and cash equivalent for the purpose of consolidated statement of cash flow comprises of cash in hand, share transfer stamps, banking instruments, cash at bank and short term running finance.

#### 4.26 Other receivables

Other receivables are stated initially at amortised cost using the effective interest rate method. Provision is made on the basis of lifetime ECLs that result from all possible default events over the expected life of the trade debts and other receivables. Bad debts are written off when considered irrecoverable.

#### 4.27 Segment reporting

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Group's other components. As per IFRS 8 'Operating Segment', Operating segment are reported in a manner consistent with the internal reporting used by the Chief Operating Decision Makers. All operating segments' results are reviewed regularly by the Group's management to make decisions about resources to be allocated to the segment and to assess its performance.

A business segment is a distinguishable component of the Group that is engaged in providing related product or services and which is subject to risks and rewards that are different from thereof other segments. The Group's primary reporting segment is based on business segments as the Group conduct its business in Pakistan only. Segment results that are reported to the Group's management include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. #### 7.2 Impairment testing of goodwill relating to Sachal Energy Development (Private) Limited (SEDPL)

The recoverable amount of the business operations of SEDPL (cash generating unit) have been determined by dividend discount model which is a quantitative method used for predicting the price of a Company's stock based on the theory that its present-day price is worth the sum of all of its future dividend payments when discounted back to their present value covering period from 2023 to 2037.

The calculation of 'dividend discount model' for the business operations is most sensitive to the following assumptions:

#### Revenue growth (Tariff rate)

Revenue growth assumptions have been derived from the projections prepared by management taking into account the tariff fixed by regulatory authority. Management is of the view that these assumptions are reasonable considering the current market conditions.

#### Cost of supply of services and gross margins

Cost of supply of power has been projected on the basis of multiple strategies planned by management to ensure profitable operations. These strategies include cost cutting mechanism such as reducing maintenance cost, and increasing efficiency of power supply etc. resulting in improved gross margins over the forecasted period.

## **Financial charges**

Financial cost has projected based on the long term and short term financing arrangement made by the SEDPL. Finance cost is expected to be reduced due to payments of semi-annually instalments.

## **Discount rate**

Discount rates reflect management's estimate of the rate of return required for the business and are calculated after taking into account the prevailing risk free rate, industry risk and business risk. Discount rate (cost of equity) is calculated by using the Capital Asset Pricing Model (CAPM). The Group has applied discount rate of 20.25% to estimated future dividends.

For the year ended 30th June 2022

#### Sensitivity to changes in other assumptions

Management believes that reasonable possible changes in other assumptions used to determine the recoverable amount of the cash generating units will not result in an impairment of goodwill.

However, since Mr. Arif Habib and his sons, Mr. Samad Habib and Mr. Kashif Habib, by virtue of their direct investment as well as the indirect investment held through the subsidiary company are in a position to exert control over SCL and because of the fact that AHL has not appointed any person on the Board of Directors of SCL, the management is of the view that the Group is not able to exercise significant influence over SCL. Hence, SCL cannot be regarded as an 'associate' of the Group within the meaning of the term 'associate' defined in the International Accounting Standard (IAS) 28 Investments in Associates and Joint Ventures.

- 41.3 During the financial year 2021, the petition filed by the Parent Company against the imposition of super tax for rehabilitation of temporarily displaced persons under section 4B of the Income Tax Ordinance, 2001 for the tax years 2015 to 2019 in the Honourable High Court of Sindh was rejected vide order dated July 21, 2020. The Parent Company, in consultation with its legal and tax advisors, has filed an appeal against the decision of the Honourable High Court of Sindh in the Supreme Court of Pakistan.

Consequent to the High Court judgement, the tax authorities issued notices to the Parent Company and subsequently framed orders for the recovery of super tax for the relevant tax years. An appeal has been filed against these orders with the Commissioner Inland Revenue (Appeals) along with stay against recovery of demand based on certain contentious and factual grounds. Further, through an interim order dated November 26, 2020, the Honourable Supreme Court of Pakistan has ordered for no coercive action against the petitioners who deposit 50% of outstanding tax demand, accordingly the Parent Company had made the required deposit. The management has assessed the sufficiency of tax provision on account of super tax and considers that these sufficient for the purpose.

41.4 Further, the deemed assessments for the tax years 2016 to 2019 were subsequently modified by the Additional Commissioner Inland Revenue (AdCIR) by issuing amended assessment orders (Orders), mainly attempting to reclassify Parent Company's normal business income to income from other sources. The Parent Company had filed appeal before the CIR (Appeals) against the Orders, who have remanded back the cases to AdCIR for re-examination and reconsideration of the facts of the cases. For tax year 2019, the Parent Company and AdCIR are contesting the case in Appellate Tribunal Inland Revenue.

#### 46.2 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or that such obligations will have to be settled in a manner disadvantageous to the Group. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of adequate funds through committed credit facilities. The Group finances its operations through equity, borrowings and working capital with a view of maintaining an appropriate mix between various sources of finance to minimize risk. Management aims to maintain flexibility in funding by keeping regular committed credit lines.

The following are the contractual maturities of financial liabilities, based on undiscounted cash flow basis:

#### 46.3 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. The Group is exposed to currency risk, interest rate risk and price risk.

#### a) Foreign exchange risk management

Foreign currency risk arises mainly where receivables and payables exist due to transactions in foreign currencies. Currently, the Group's foreign exchange risk exposure is restricted to cash and bank balances which is denominated in foreign currency. The Group's management believes that the Group's exposure emanating from any fluctuations in the foreign currencies is not required to be hedged.

#### Transactional exposure in respect of non functional currency monetary Items

Monetary items in SEDPL, a subsidiary company, including financial assets and liabilities, denominated in currencies other than the functional currency are periodically translated to PKR equivalent, and the associated gain or loss is capitalized based on SECP's S.R.O. 986/(1)/2019. The foreign currency risk related to monetary items is managed as part of the Group's risk management strategy.

Sensitivity analysis of above financial assets

A 10 percent strengthening / (weakening) of the Pakistan Rupee against various foreign currencies at 30 June would have (decreased) / increased the consolidated profit by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis as for 2021.

#### Sachal Energy Development (Private) Limited (SEDPL) - subsidiary company

The potential currency exposures are discussed below:

i) Transactional exposure In respect of non functional currency monetary Items

Monetary items, including financial assets and liabilities, denominated in currencies other than the functional currency of SEDPL are periodically translated to PKR equivalent, and the associated gain or loss is capitalized based on SECP's S.R.O. 986/(1)/2019 dated September 02, 2019. The foreign currency risk related to monetary items is managed as part of the risk management strategy. SEDPL is also covered under the EPA to recover the forex loss under the tariff.

ii) Transactional exposure In respect of non functional currency expenditure and revenues

Certain operating and capital expenditure is incurred by SEDPL in currencies other than the functional currency. Certain receipts are received in currency other than the functional currency of SEDPL. These currency risks are managed as a part of overall risk management strategy. SEDPL does not enter into forward exchange contracts.

iii) Exposure to foreign currency risk

SEDPL is not exposed to currency risk due to the mechanism for indexation of tariff available to it. Had this mechanism been not available to SEDPL, then its exposure to currency risk would have been as follows based on notional amount:

(US Dollar)

50,000,000 60,000,000
404,782 328,563

The following significant exchange rates applied during the year:

|           | Average rate |        | Rate on 30 June |        |
|-----------|--------------|--------|-----------------|--------|
|           | 2022         | 2021   | 2022            | 2021   |
|           | Rupees       | Rupees | Rupees          | Rupees |
| US Dollar | 176.47       | 163.29 | 204.17          | 157.80 |

The exchange differences on foreign currency borrowings to the extent of construction are capitalized. Remaining exchange differences are also being capitalized based on SECP's S.R.O. 986/(1)/2019 dated September 02, 2019. The Company is also covered under the EPA to recover the forex loss under the tariff.

#### Sensitivity

Had the mechanism for Indexation of tariff not been available to SEDPL, then an increase of 1% in exchange rate at the reporting date would have decreased the consolidated profit or loss by the amounts shown below.

| Profit      | or Loss    |
|-------------|------------|
| 2022        | 2021       |
| (Ru         | pees)      |
| 103,843,367 | 96,246,499 |

US Dollar balance

A 1% decrease in exchange rate would have had an equal but opposite effect to the amount shown above.

#### b) Interest / mark-up rate risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The majority of the interest rate exposure arises from financial assets and financial liabilities as stated below.

At the reporting date, the interest rate profile of the Group's significant interest-bearing financial instruments was as follows:

|   | Note             | 2022   | 2021   |

#### Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore a change in interest rates at the reporting date would not affect the consolidated statement of profit or loss.

#### Cash flow sensitivity analysis for variable rate instruments

For cash flow sensitivity analysis of variable rate instruments a hypothetical change of 100 basis points in interest rates would have decreased / (increased) profit and other comprehensive income for the year by the amounts shown below.

For the year ended 30th June 2022

| As at 30 June 2022                  | Profit and loss 100 bps |              |  |  |
|-------------------------------------|-------------------------|--------------|--|--|

|                                     | Rupees                  | Rupees       |  |  |
| Variable rate financial liabilities | (139,207,635)           | 139,207,635  |  |  |
| Variable rate financial assets      | 25,364,795              | (25,364,795) |  |  |
| As at 30 June 2021                  |                         |              |  |  |
| Variable rate financial liabilities | (124,573,148)           | 124,573,148  |  |  |
| Variable rate financial assets      | 41,568,416              | (41,568,416) |  |  |

The above sensitivity is not necessarily indicative of the actual effect of changes in interest rate as those are based on management's best estimate of possible change of interest rate in future.

### c) Price risk

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest/mark-up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. The Group is exposed to equity price risk since it has investments in quoted equity securities.

The carrying value of investments subject to equity price risk are, in almost all instances, based on quoted market prices as of the reporting date except for unquoted securities which are carried at fair value determined through valuation techniques. Market prices are subject to fluctuation and consequently the amount realised in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, amount realised in the sale of a particular security may be affected by the relative quantity of the security being sold.

In addition to the above, the Group also has investments in unquoted securities, values of which are determined as mentioned in note 12.2.

### Sensitivity analysis

The table below summarizes the Group's equity price risk as of 30 June 2022 and 2021 and shows the effects of a hypothetical 30% increase and a 30% decrease in market prices as at the year end. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Accordingly, the sensitivity analysis prepared is not necessarily indication of the effect on Group's net assets of future movement in the level of PSX 100 index / trade rates.

Dataile of the financial instruments exposed to price rick are as follows:

#### 47. FAIR VALUE MEASUREMENTS

A number of the Group's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and financial liabilities.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Group management engage independent external experts / valuers to carry out valuation of its non-financial assets (i.e. Investment Property) and financial assets where prices are not quoted or readily available in the market. Involvement of external valuers is decided upon by management. Selection criteria include market knowledge, relevant experience, reputation, independence and whether professional standards are maintained.

When measuring the fair value of an asset or a liability, the Group uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair values of financial assets that are traded in active markets are based on quoted market prices. For all other financial instruments the Group determines fair values using valuation techniques unless the instruments do not have a market / quoted price in an active market and whose fair value cannot be reliably measured.

Valuation techniques used by the Group include discounted cash flow model for valuation of unquoted equity securities. Assumptions and inputs used in valuation techniques include risk-free rates, bond and equity prices, foreign currency exchange rates, equity and equity index prices. The objective of valuation techniques is to arrive at a fair value determination that reflects the price of the financial instrument at the balance sheet date that would have been determined by market participants acting at arm's length.

Valuation models for valuing securities for which there is no active market requires significant unobservable inputs and a higher degree of management judgement and estimation in the determination of fair value. Management judgement and estimation are usually required for selection of the appropriate valuation model to be used, determination of expected future cash flows on the financial instrument being valued and selection of appropriate discount rates, etc.

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

For assets and liabilities that are recognised in the consolidated financial statements at fair value on a recurring basis, the management recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred. There were no transfers between different levels of fair values mentioned above.

The fair values of financial assets and liabilities, together with the carrying amounts shown in the consolidated statement of financial position, are as follows:

اور یہان واقعات اور پیشقد میول کو شاخت کرنے کی اہلیت رکھتا ہے جو کہ کپنی کے چلتے ہوئے ادارے کی حیثیت کو نقصان پہنچا سکتے ہیں۔
خطرات سے نمٹنے کا نظام اس طرح ڈیز ائن کمیا گیا ہے کہ ادارے میں ہرسطح پر خطرات سے نمٹنے کے لیے متوازن طریقہ کاراختیار کمیا جائے،
خطرات اور مواقعوں کی ابتدائی مرحلے ہی میں شاخت اور تجزیہ کمیا جائے، ان کی شدت کو ناپینے اور ان کی نگر انی اور انتظام کے لیے
موزوں تدابیر کی جائیں۔

چونکہ پینی کابنیادی کارو بارسر مایہ کاری ہے،اس لیے جیسے جیسے سر مایہ کاری حکمت عملی میں تبدیلیاں آتی ہیں خطرات سے نمٹنے کے نظام کو بھی اسی کی روشنی میں کارو باری خطرات کا مجموعی طور پر سالانہ جائزہ لیا جا تا ہے تا کہ یقینی بنایا جائے کہ انتظامیہ خطرات کی شناخت،خطرات کے انتظام،ا ثاثوں،وسائل،سا کھاور کپنی اور حصص یا فتگان کے مفادات کے تحفظ کے لیے متعلقہ انتظامی اور کئی کا درونی کنٹرول کاموزوں نظام برقر ارکھتی ہے۔

کارو باری فیصلے پروجیکٹ کے جامع تجزیوں کے بعد کیے جاتے ہیں جن میں ممکنہ خطرات اور مواقعوں کی نشان دہی ہوتی ہے۔خطرات سے نمٹنے کے لیے کپنی کی توجہ بنیادی ہملوؤں جیسے بورڈ اور اعلیٰ انتظام میہ کے ذریعے انتظام کاری، پالیمیوں اور طریقہ کار کی تیاری اور نفاذ، خطرات کی نگر انی، انتظامی معلوماتی نظام اور اندرونی کنٹرول پر ہے۔ کپنی خود کارغمل کے ذریعے خطرات اور ان کے کنٹرول کی تشخیص اور شاخت کرتی ہے اور جہال ضروری ہوتا ہے ان طریقوں کو اپنایا جاتا ہے جن سے خطرات کو قابو کیا جاسکے ۔بطور ایک جاری عمل اور سال میں کم از کم ایک مرتبہ انتظامیہ مالیاتی گوشواروں کی رپورٹوں اور اس کے علاوہ خطرات سے نمٹنے، کار پوریٹ سماجی ذمیداری شمولیت اور میں کم از کم ایک مرتبہ انتظامیہ مالیاتی گوشواروں کی رپورٹوں اور اور اور قواعد وضوابط کی پاسداری کی رپورٹوں کا جائزہ لیتی ہے۔

اس سال عائشه اسٹیل ملزلمیٹڈ کابعدازٹیکس منافع 1,146 ملین رویے رہاجو کہ گزشتہ سال 6,368 ملین رویے تھا۔منافع میں کمی کی وجہ بنیادی طور پر HRC کی عالمی قیمتوں میں کمی کارجحان تھاجبکی و جہ سے سامان ذخائر میں خیارہ اورطلب میں کمی رونما ہوئی ۔عائشہ اسٹیل ملز لمیٹیڈ سے عمومی حصص کو بطورتر جیجی منافع منقسہ حاصل کرنے کے علاوہ زیرِ جائزہ مالیاتی سال میں AHCL کو 58.145 ملین رویے نقد منارفع منقسمه بھی موصول ہوا۔

# منتقبل کی پیش بینی

بلند شرح سود، ٹیکس نرخ اور افراط زر کے ساتھ رویے کی قدر میں کمی نے نئے مالیاتی سال کے آغاز میں کاروباری ماحول کو انتہائی د شوار گزار بنادیا ہے۔ شدید بارشوں اور سیلاب کی وجہ سے جولائی سے تمبر 2022 کے دوران پاکستان کے بڑے جھے کے متاثر ہونے سے پاکتان کی معیشت کو شدیدنقصانات ہوئے اور نئے مالیاتی سال کے آغاز میں کار پورٹ سیکٹر کے منافع میں کمی ہوئی۔اگر جہ کہ IMF پروگرام درست سمت میں ہے، تاہم رجحان انتہائی کمز ورہے اورتو قع ہے کہاس دشوار گز ارمدت سے نگلنے میں کچھروقت لگے گا۔ آپ کی کپنی کامتنوع پورٹ فولیومعاشی جھٹکوں کے خلاف ایک ڈھال ہے۔کھاد، ہوائی توانائی اور ریل اسٹیٹ کے کاروبارسے توقع بورڈ نے تی نقد منافع منقسمہ برائے سال 30 جون 2022 کے لیے 4 روپے فی حصص یعنی 40 فیصد کی سفارش کی ہے۔ یہ منافع منقسمہ ان حصص یافتگان کو دیاجائے گاجن کے نام 21 استوبر 2022 کو دفتری اوقات ختم ہونے پر حصص یافتگان کے رجسڑ میں درج ہونگے۔
