مستقبل پر ایک نگاہ

موجودہ منظر نامے میں کاروباری ترقی کافی مشکل ہے۔ توانائی کے نرخوں میں اضافہ، خوراک کی بڑھتی ہوئی قیمتوں، سیلاب کے بعد کی صورتحال اور ممکنہ توسیعی پالیسیوں کی وجہ سے آنے والے مہینوں میں مہنگائی بلند رہنے کا امکان ہے۔ اگرچہ وقت مشکل ہے اس لیے جرات مندانہ اور زیادہ تخلیقی سوچ ضروری ہے۔ ہمیں یقین ہے کہ ہماری ٹیم کوئی کسر نہیں چھوڑے گی اور مثبت نتائج لانے کی کوشش کرے گی۔

ہم کمپنی کے کاروباری امور کو بہتر بنانے کے لیے بورڈ آف ڈائریکٹرز کی قیمتی رہنمائی اور تجاویز کے لیے شکر گزار ہیں۔ ساتھ ہی اپنے قابل قدر کاموں کو ان کی سرپرستی اور مدد کے لیے اور تمام ری انشورنس، سیکورٹیز اینڈ ایکسچینج کمیشن آف پاکستان اور اسٹیٹ بینک آف پاکستان نے کمپنی کی رہنمائی اور مدد کے لیے بھی شکر گزار ہیں۔

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Standards, interpretations and amendments effective during the current period

There are certain new and amended standards, interpretations and amendments that are mandatory for the companies accounting periods beginning on or after January 01, 2022 but are considered not to be relevant or do not have any significant effect on companies operations and therefore not detailed in the unconsolidated condensed interim financial statements. During the period, certain new standards and amendments to existing standards became effective.

Standards or interpretations not yet effective

IFRS 9 'Financial Instruments' is effective for reporting period / year ending on or after June 30, 2019. It replaces the existing guidance in IAS 39 'Financial Instruments: Recognition and Measurement'. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39.

Amendment to IFRS 4 'Insurance Contracts' - Applying IFRS 9 'Financial Instruments' with IFRS 4 addresses issue arising from the different effective dates of IFRS 9 and the forthcoming new standard IFRS 17 'Insurance Contracts'. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9. The overlay approach allows an entity applying IFRS 9 from July 01, 2018 onwards to remove from profit or loss account the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied.

The Company has determined that it is eligible for the temporary exemption option since the Company has not previously applied any version of IFRS 9, its activities are predominantly connected with insurance as the percentage of the total carrying amount of its liabilities connected with insurance relative to the total carrying amount of all its liabilities is greater than 90 percent and the Company doesn't engage in significant activities unconnected with insurance based on historical available information. Under the temporary exemption option, the Company can defer the application of IFRS 9 until the application IFRS 17.

To determine the appropriate classification of financial assets under IFRS 9, an entity would need to assess the contractual cash flows characteristics of any financial asset. Indeed, the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding ("SPPI") i.e. cash flows that are consistent with a basic lending arrangement. In a basic lending arrangement, consideration for the time value of money and credit risk are typically the most significant elements of interest.

IFRS 9 defines the terms "principal" as being the fair value of the financial asset at initial recognition, and the "interest" as being compensation for (i) the time value of money, and (ii) the credit risk associated with the principal amount outstanding during a particular period of time.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN AUDITED)

FOR THE NINE MONTHS PERIOD ENDED SEPTEMBER 30, 2022

The tables below set out the fair values as at the end of reporting period and the amount of change in the fair value during that period for the following two groups of financial assets separately:

- a) Financial assets with contractual terms that give rise on specified dates to cash flows that are solely payment of principal and interest ('SPPI') on the principal amount outstanding, excluding any financial asset that meets the definition of held for trading in IFRS 9, or that is managed and whose performance is evaluated on a fair value basis, and
- b) All other financial assets

Fair value of financial assets as at September 30, 2022 and change in fair value during the period

Financial assets with contractual cash flows that meet the SPPI criteria excluding those held for trading

Debt securities - Held to maturity

Opening fair value	71,050,000
Addition / (disposal) during the period-net	-
Decrease in fair value	(70,000)
Closing fair value	<u>70,980,000</u>

Financial assets that do not meet the SPPI criteria Equity Securities - Available for sale

Opening fair value	302,665,245
Addition during the period-net	158,407,910
Disposal during the year-net	(136,084,295)
Impairment	(3,506,025)
Decrease in fair value	(184,518)
Closing fair value	<u>321,298,317</u>

Carrying value of all other financial assets approximates to their fair values since these either have short term maturity or are frequently repriced.

3.1 Critical accounting estimates and judgements

Preparation of the condensed interim financial statements requires management to make judgements, estimates and assumptions that effect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing the condensed interim financial statements, the significant judgments made by the management in applying the Company accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended December 31, 2022.

25. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

All assets and liabilities for which fair value is measured or disclosed in the condensed interim financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

2. BASIS OF PREPARATION AND STATEMENT OF COMPLIANCE

2.1 Statement of compliance

These condensed interim financial statements are prepared in accordance with the approved accounting standards as applicable in Pakistan for interim financial reporting. Approved accounting and reporting standards as applicable in Pakistan for Interim Financial Reporting, comprise of:

International Accounting Standard (IAS) 34, "Interim Financial Reporting" issued by International Accounting Standards Board (IASB), as notified under the Companies Act, 2017; and

Provisions of and directives issued under the Companies Act, 2017, the Insurance Ordinance, 2000, the Insurance Rules, 2017, Insurance Accounting Regulations 2017, SECP Takaful Rules, 2012 and General Takaful Accounting Regulations, 2019.

In case requirements differ, the provisions or directives of the Companies Act, 2017, the Insurance Ordinance, 2000, the Insurance Rules, 2017, the Insurance Accounting Regulations 2017, SECP Takaful Rules, 2012 and the General Takaful Accounting Regulations, 2019 shall prevail.

These condensed interim financial statements reflect the financial position and results of operations of both the operator and PTF in a manner that the assets, liabilities, income and expenses of the operator and PTF remain separately identifiable.

These condensed interim financial statements does not include all the information and disclosures required in the annual financial statements. Accordingly, these condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended December 31, 2021.

2.2 Basis of measurement

These condensed interim financial statements have been prepared under the historical cost basis except for certain financial assets and liabilities which are stated at fair value or at amortized cost.

These condensed interim financial statements have been prepared under the accrual basis of accounting except for cash flow statement.

2.3 Functional and presentation currency

This condensed interim financial statements has been prepared and presented in Pakistan Rupees, which is the Operator's functional and presentation currency. All financial information presented has been rounded off to the nearest rupees unless otherwise stated.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN AUDITED)

FOR THE NINE MONTHS PERIOD ENDED SEPTEMBER 30, 2022

3.1 STANDARDS INTERPRETATIONS AND AMENDMENTS

Standards, interpretations and amendments effective during the current period

There are certain new and amended standards, interpretations and amendments that are mandatory for the companies accounting periods beginning on or after January 01, 2022 but are considered not to be relevant or do not have any significant effect on companies operations and therefore not detailed in the unconsolidated condensed interim financial statements. During the period, certain new standards and amendments to existing standards became effective.

Standards or interpretations not yet effective

IFRS 9 'Financial Instruments' is effective for reporting period / year ending on or after June 30, 2019. It replaces the existing guidance in IAS 39 'Financial Instruments: Recognition and Measurement'. IFRS 9 includes revised guidance on the classification and measurement of financial instruments, a new expected credit loss model for calculating impairment on financial assets, and new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39.

Amendment to IFRS 4 'Insurance Contracts' - Applying IFRS 9 'Financial Instruments' with IFRS 4 addresses issue arising from the different effective dates of IFRS 9 and the forthcoming new standard IFRS 17 'Insurance Contracts'. The amendments introduce two alternative options for entities issuing contracts within the scope of IFRS 4, notably a temporary exemption and an overlay approach. The temporary exemption enables eligible entities to defer the implementation date of IFRS 9. The overlay approach allows an entity applying IFRS 9 from July 01, 2018 onwards to remove from profit or loss account the effects of some of the accounting mismatches that may occur from applying IFRS 9 before IFRS 17 is applied.

The Company has determined that it is eligible for the temporary exemption option since the Company has not previously applied any version of IFRS 9, its activities are predominantly connected with insurance as the percentage of the total carrying amount of its liabilities connected with insurance relative to the total carrying amount of all its liabilities is greater than 90 percent and the Company doesn't engage in significant activities unconnected with insurance based on historical available information. Under the temporary exemption option, the Company can defer the application of IFRS 9 until the application IFRS 17.

To determine the appropriate classification of financial assets under IFRS 9, an entity would need to assess the contractual cash flows characteristics of any financial asset. Indeed, the contractual terms of the financial asset give rise, on specified dates, to cash flows that are solely payments of principal and interest on the principal amount outstanding ("SPPI") i.e. cash flows that are consistent with a basic lending arrangement. In a basic lending arrangement, consideration for the time value of money and credit risk are typically the most significant elements of interest.

IFRS 9 defines the terms "principal" as being the fair value of the financial asset at initial recognition, and the "interest" as being compensation for (i) the time value of money, and (ii) the credit risk associated with the principal amount outstanding during a particular period of time.

The tables below set out the fair values as at the end of reporting period and the amount of change in the fair value during that period for the following two groups of financial assets separately:

- a) Financial assets with contractual terms that give rise on specified dates to cash flows that are solely payment of principal and interest ('SPPI') on the principal amount outstanding, excluding any financial asset that meets the definition of held for trading in IFRS 9, or that is managed and whose performance is evaluated on a fair value basis, and
- b) All other financial assets

Carrying value of all other these financial assets approximates to their fair values since these either have short term maturity or are frequently repriced.

The Company expects that the adoption of the other amendments and interpretations of the standards will not have any material impact and therefore will not affect the Company's financial statements in the period of initial application.

3.2 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Preparation of the condensed interim financial statements requires management to make judgements, estimates and assumptions that effect the application of accounting policies and the reported amounts of assets and liabilities, income and expenses. Actual results may differ from these estimates.

In preparing the condensed interim financial statements, the significant judgments made by the management in applying the Operator's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the financial statements as at and for the year ended December 31, 2021.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UN AUDITED)

FOR THE NINE MONTHS PERIOD ENDED SEPTEMBER 30, 2022

22. INSURANCE AND FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks: market risk (including foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk.

There have been no significant changes in the risk management policies since the year end.

The condensed interim financial statements does not include all financial risk management information and disclosures required in the annual financial statements and should be read in conjunction with the Company's audited annual financial statements for the year ended December 31, 2021.

The Company's financial risk management objective and policies are consistent with that disclosed in the annual financial statements for the year ended December 31, 2021.

23. FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

All assets and liabilities for which fair value is measured or disclosed in the condensed interim financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable
