Empowering Networks

Supernet Limited Signs Agreement for Services to European Customer

Supernet Limited ('Supernet'), one of Pakistan's leading Telecommunications Service Provider and Systems Integrator, has been operating since 1995. Supernet offers a full portfolio of local-to-global integrated communications infrastructure solutions to Telecoms, Defense, Enterprise and Government Entities.

Supernet's declared strategy is to start provision of its services to customers outside of Pakistan. The intention behind this strategy is to benefit from a substantial base of expertise that Supernet and its subsidiaries have developed over a long period of time in the core areas of telecom network and infrastructure design, implementation, operation and maintenance, software and business process automation and outsourcing, cyber security operations and maintenance, power systems management, etc. and generate revenues from such activities from outside of Pakistan where the market size and growth opportunities are much larger.

In this context, Supernet has been making determined efforts over the last few months to actualize this strategy, and now the company is happy to report that it has signed a partnership agreement with a European Satellite Operator for providing services to the European Satellite Operator and its end customers internationally. The scope of the services includes network design and implementation, operations and maintenance, project management, warehousing, inventory management and equipment repair. The services will be provided through a combination of in-country and remote arrangements. An initial order has also been placed, under the agreement, and more orders are expected to follow in the future.

In addition, Supernet is also working on developing other such opportunities, and expects more such agreements and business to materialize in the near future. Supernet will share details of such businesses as and when these materialize.
