## Average LME of Copper & Aluminium US\$ / Ton

July 2021 – June 2022

Avg. LME of Copper in 2021-22 was \$9,645 per MT vs.\$7,971 in 2020-21

Avg. LME of Aluminium in 2021-22 was \$2,890 per MT vs \$2,029 in 2020-21

#### FINANCIAL PERFORMANCE

#### **SALES**

- Sales increased 13% over SPLY despite challenging market circumstances and slowing demand
- Demand from Utilities remains strong but other segments are slowing down
- Copper prices declined compared to SPLY but this was offset by devaluation of the rupee. During the month of Jan, copper prices have started to spike (avg. ~ USD 8,900 / MT and max during the month is > USD 9,400 / MT

#### **PROFIT**

- GP% higher in H1 was 13.5%, which is in-line with SPLY
- This was offset by higher Finance cost in H1 vs. SPLY (Rs. 431 million vs. Rs. 140 million)

#### **OTHER**

- During H1 the company faced some delays in opening LCs for raw material but overall supply chain issues were manageable
- In the last few weeks, we have started facing challenges from banks on opening LCs for raw materials

## **FUTURE PROSPECTS**

 A general slowdown in demand is expected to continue, as can also be gauged from depressed cement and steel sales.

• Import restrictions on plant and equipment is expected to depress the demand for cables in the industrial sector.

• Utilities demand will remain active as long as govt. funding is available to DISCOs ad K-Electric continues to invest in its grid.

 Availability of raw material and parts for equipment due to LC restrictions may impact fluent continuity of operations.
