Directors' Review

I am pleased to present the interim unaudited financial statements of Millat Tractors Limited (the 'Company') for the nine months ended March 31, 2023, along with consolidated interim unaudited financial information of the Millat Group of Companies (the 'Group').

The economy of Pakistan continues to face strong headwinds. Average inflation has climbed to 31.6% from 12.2% in February 2022, on account of higher domestic energy prices, weaker currency, flood-related disruptions to supply, and restraints on imports caused by the balance of payment crisis. Nevertheless, your Company has been able to make sales of 13,775 units during the nine months ended March 31, 2023, against the sales of 25,866 units in the comparative period, representing a decrease of 46.7% from the previous period. Accordingly, the sales revenue has also decreased from Rs. 38.361 billion to Rs. 30.297 billion, representing a dip of 21%. Resultantly, the earnings per share (EPS) of the nine months ended March 31, 2023, witnessed a decline to Rs. 16.63 in contrast with EPS of Rs. 36.57 (restated) for the corresponding period, last year.

The rise in central banks' rates to curb inflation by most of the countries and Russia's war in Ukraine, continue to weigh on global economic activity. The global growth is projected to fall from an estimated 3.4% in 2022 to 2.9% in 2023, and the global inflation is expected to fall from 8.8% in 2022 to 6.6% in 2023. In most economies, amid the cost-of-living crisis, the priority remains achieving sustained disinflation. Although the energy cost has declined, the recent decision by OPEC+ to cut production, would likely result in an increase in the oil prices globally.

The parity of Pak Rupee against US Dollar is declining, which has resulted in higher input costs and inflation. The restrictions on import due to shrinking foreign reserves by the commercial banks has also caused supply chain disruptions. However, on a positive note, the fiscal deficit is projected to narrow down slightly to the equivalent of 6.9% of the gross domestic product (GDP) in FY 2023. The government has been able to restrict the fiscal deficit in terms of GDP at the same level as last year while primary balance remained in surplus. If the International Monetary Fund program remains on track, the deficit will likely continue to shrink in the medium term.

The economic outlook will be shaped largely by the restoration of political stability and the continued implementation of reforms. The management remains optimistic about its future, keeping in view the fiscal tightening measures adopted by the Government for the revival of Pakistan's economy. Increase in exports is the only option left to sustain the growth.

The Company has remained resilient in the face of adversity with an aim to sustain its long term growth and maximize the stakeholder value. This has been made possible due to the Company's relations with its vending associates, and the untiring efforts made by the Company's employees, vendors and all other stakeholders for sustaining the operations.

Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

12.1 Investment held at cost adjustment - restatement

The Company in financial year ended June 30, 2013, acquired 75% investment in TIPEG Intertrade DMCC, a limited liability company registered with Dubai Multi Commodities Centre Authority, at an amount of AED 1500 thousand equivalent to Rs. 40,020 thousand and recorded this in separate financial statements as investment in subsidiary at cost in accordance with IAS 27. Subsequently, the Company has erroneously treated this investment as a monetary asset and at each reporting period retranslated and recognized exchange gain / loss in respective periods accumulating to Rs. 44,505 thousand as at 30 June 2022 (30 June 2021: Rs. 24,885 thousand). Under the measurement principle of IAS 21 The Effects of Changes in Foreign Exchange Rates, investment in subsidiary is a non-monetary asset and should be translated at the exchange rate of the transaction date.

The Company, considering requirement of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors, corrected this error by retrospective restatement whereby the previously recognized exchange gains on the above-mentioned investment have been reversed.

Similarly, exchange gain recorded on the investment during the year ended 30 June 2022, amounting to Rs. 19,620 thousand (30 June 2021: Rs. 4,020 thousand) has also been reversed in statement of

total comprehensive income and which resulted in decrease in profit for the year ended 30 June 2022 by Rs. 19,620 thousand.

The restatement has impacted the statement of financial position and statement of changes in equity as at and for the year ended 30 June 2022, however, since this error is not considered by management to be material to overall financial statements, therefore, a third statement of financial position is not being presented.

- 12.2** During the period, Hyundai Nishat Motors (Private) Limited issued 159,813 thousand fully paid ordinary shares of Rs. 10 each to the Company against right issue at amount of Rs. 1,598,126 thousand.
