REPORT OF THE DIRECTORS OF THE MANAGEMENT COMPANY

The Board of Directors of ABL Asset Management Company Limited, the management company of ABL Islamic Income Fund (ABL-IIF), is pleased to present the Condensed Interim Financial Statements (un-audited) of ABL Islamic Income Fund for the nine months ended March 31, 2023.

ECONOMIC PERFORMANCE REVIEW

Country posted current account deficit (CAD) of USD ~3.9bn in the first 9MFY23 against the deficit of USD ~12.1bn in the same period last year (SPLY). This reduction in CAD could be attributed to ~29.8% YoY decline in trade deficit which is primarily driven by substantial curtailment in import bill. Delay in IMF staff level agreement which is linked with the assurance of friendly countries financial support, country's foreign exchange reserves remained under pressure during the said period, by providing ~1.0 month of import cover. Worker's remittance has also declined by 10.9% YOY in first 8MFY23 and clocked in at USD~18.0 bn. On the fiscal side, FBR managed to collect 5,156bn in fist 9MFY23 against collection of 4,382bn in the corresponding period last year.

During the period, average Consumer price index (CPI) clocked in at 27.2% YoY against 10.7%YoY in SPLY. Skyrocketing Fuel prices and electricity tariff backed by depreciating exchange rate amid devastating flood in the country are the key elements in inching up the prices. Supply shocks in agricultural products due to unprecedented flood and higher fuel prices reflected in the food price index which contributed most in pushing up the consumer price index. Within food index perishable items witnessed significant increase post flood. To tackle the inflation SBP hiked the policy rate by 625 basis points during the said period. We believe that average CPI will remain in range of 29%-31% in FY23.

Going forward economic situation may remain under pressure due to uncertainty regarding IMF staff level agreement amidst political turmoil which became severe after premier court's decision regarding elections in Punjab & KPK provinces. World bank has also shown concern regarding its initial forecast of \sim 2% GDP growth rate and has revised its estimate of around 0.6% in FY23.

MUTUAL FUND INDUSTRY REVIEW

Total assets under management (AUMs) of the open-end mutual fund industry posted a growth of 22.3%YoY (from PKR 1274bn to PKR 1558bn) in the said period. The major inflow came in Islamic money market (up 77.4%YoY) and Islamic Income (up 39.1%YoY) to close the period at PKR 417.5bn and PKR 177.3bn respectively, during the said period. Whereas, AUMs of equity funds have declined by 24%YoY and clocked in at PKR 91bn. Fixed Rate return scheme saw an exponential growth in the said period to clock at PKR 62bn. Decline in equity funds may be attributable to political turmoil and financial situation in country.

Islamic Money Market Review

During the period under review, money market yields continued their upwards trajectory due to expectations of a further increase in policy rate. SBP continued to announce longer tenor OMO injections in order to keep the market stabilized.

Lack of clarity resulted in the market participating heavily in floating rate Ijarah Sukuks as compared to Fixed Rate Ijarah Sukuks. Despite the healthy participation the government ended up borrowing much less than the target amounts.

FUND PERFORMANCE

For the period ended 3QFY23, ABL Islamic Income Fund posted an annualized return of 11.01% against the benchmark return of 5.82%, reflecting an outperformance of 519 bps.

At the end of Mar'23, fund had 47.17% exposure in Corporate Sukuk, 13.36% of the funds assets were placed with DFIs/Banks while 31.70% of the fund's assets was placed as Cash. During the period, the fund maintained majority exposure in cash in order to benefit from attractive rates offered by Islamic Banks.

AUMs of ABL Islamic Income Fund closed at PKR 1,480.54 million at Mar'31, 2023 from PKR 3,532.28 million at the end of Jun'22.

AUDITORS

M/s. A.F. Fergusons & Co. (Chartered Accountants), have been re-appointed as auditors for the year ending June 30, 2023 for ABL Islamic Income Fund (ABL-IIF).

FUND STABILITY RATING

On December 30, 2022: VIS Credit Rating Company (VIS) has reaffirmed the Fund Stability Rating (FSR) of ABL Islamic Income Fund (ABL IIF) at 'A+ (f)' (Single A plus (f)).

MANAGEMENT QUALITY RATING

On October 26, 2022: The Pakistan Credit Rating Agency Limited (PACRA) has upgraded the Management Quality Rating (MQR) of ABL Asset Management Company (ABL AMC) at 'AM1' (AM-One). Outlook on the assigned rating is 'Stable'.

FUTURE OUTLOOK

We expect the rising interest rate cycle to continue during the last quarter of FY23 however we expect that the pace of increase may slow down. The cumulative increase in policy rate during 3QFY23 has been 400bps.

The (MPC) decision of aggressively increasing the policy rate was aimed at ensuring inflationary pressures and risk to financial stability were contained. Inflation is expected to remain on the higher side as a result of higher energy prices and PKR devaluation. The lack of fresh financial inflows and ongoing debt repayments have led to a continuous drawdown in official reserves. Global economic and financial conditions broadly remain uncertain in the near-to-short term, leading to mixed implications for the domestic economy. The expected slowdown in

global demand could negatively impact the outlook of exports and worker's remittances for Pakistan. This would partly offset the gains from the import contraction. On the flip side, some moderation in the international commodity prices may help reduce inflation, and the improvement in global financial conditions may also provide some relief on the external sector.

In addition to the above, restoration of IMF program has been of paramount importance as other bilateral lending has been linked to it. Untimely signing of a SLA with the IMF has resulted in a fear of an eminent default.

Keeping the above in view, going forward, the fund will maintain the strategy of keeping the portfolio's duration on the lower side with maximum placement in defensive instruments such as bank deposits, Bai Muajjal and high credit quality Short Term Corporate Sukuks.

ACKNOWLEDGEMENT

We thank our valued investors who have placed their confidence in us. The Board is also thankful to Securities & Exchange Commission of Pakistan, the Trustee (Central Depository Company of Pakistan Limited) and the management of Pakistan Stock Exchange Limited for their continued guidance and support. The Directors also appreciate the efforts put in by the management team.

6.1 As per regulation 61 of the NBFC Regulations, 2008, the Management Company is entitled to a remuneration equal to an amount not exceeding the maximum rate of management fee as disclosed in the Offering Document subject to the total expense ratio limit. Keeping in view the maximum allowable threshold, the Management Company has charged its remuneration under the following rates:

Rate applicable from July 1, 2021 to September 27, 2021	Rate applicable from September 28, 2021 to June 30, 2022	Rate applicable from July 1, 2022 to March 31, 2022
1.00% of average daily net assets	8% of gross earning subject to minimum floor of 0.40% of net assets per annum and maximum cap of 1.00% of net assets per annum.	8% of gross earning subject to minimum floor of 0.40% of net assets per annum and maximum cap of 1.00% of net assets per annum.

The remuneration is payable to the Management Company monthly in arrears.

- 6.2 During the period, an amount of Rs. 2.826 million (March 31, 2022: Rs 4.893 million) was charged on account of sales tax on management fee levied through Punjab Sales Tax on Services Act, 2012 at the rate of 16% (June 30, 2022: 16%).
- 6.3 The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 01, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 19.142 million is being retained in these financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provision for FED not been made, the Net Asset Value of the Fund as at March 31, 2023 would have been higher by Re 0.063 (June 30, 2022: Re 0.024) per unit.

6.4 In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses related to registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).

The Management Company based on its own discretion has currently fixed a maximum capping of 0.10% (2021: 0.10%) of the average annual net assets of the scheme for allocation of such expenses to the Fund.

6.5 In accordance with Circular 11 dated July 5, 2019 with respect to charging selling and marketing expenses, the Management Company, based on its own discretion, has charged selling and marketing expenses at the rate of 0.15% (June 30, 2022: 0.15%) of the average annual net assets of the Fund.

8 CONTINGENCIES AND COMMITMENTS

There were no other contingencies and commitments outstanding as at March 31, 2023 and June 30, 2022.

9 TAXATION

The income of the Fund is exempt from income tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unitholders. Since the management intends to distribute the required minimum percentage of income earned by the Fund for the year ending June 30, 2022 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements during the period.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

13 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using quoted price (unadjusted) in an active market for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurement using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2023 and June 30, 2022, the Fund held the following financial instruments measured at fair value:

ہم توقع کرتے ہیں کہ شرح سود کابڑھتا ہوا سلسلہ مالی سال 23 کی آخری سہ ماہی کے دوران جاری رہے گا تاہم ہم توقع کرتے ہیں کہ اضافے کی رفتار کم ہوسکتی ہے۔ QFY233 کے دوران یالیسی ریٹ میں مجموعی اضافہ bps 400رہاہے۔

(MPC) پالیسی کی شرح میں جار حانہ طور پر اضافہ کرنے کے فیصلے کا مقصد افراط زر کے دباؤاور مالیاتی استحکام کو لا حق خطرات کو یقینی بنانا تھا۔
توانائی کی بلند قیمتوں اور PKR کی قدر میں کمی کے نتیج میں افراط زر کی بلندی پر رہنے کی توقع ہے۔ تازہ مالی رقوم کی کمی اور قرضوں کی جاری ادائیگیوں نے سرکاری ذخائر میں مسلسل کمی کا باعث بنا ہے۔ عالمی اقتصادی اور مالی حالات قریب سے مختصر مدت میں بڑے پیانے پر غیر یقینی رہنے ہیں، جس کے نتیج میں ملکی معیشت پر ملے جلے اثرات مرتب ہوتے ہیں۔ عالمی طلب میں متوقع کمی پاکستان کے لیے بر آمدات اور کارکنوں کی ترسیلات زرکے آؤٹ لک پر منفی اثر ڈال سکتی ہے۔ یہ جزوی طور پر درآمد کے سنگین سے حاصل ہونے والے فوائد کو پوراکرے گا۔ دوسری طرف،اشیاء کی بین الا قوامی قیمتوں میں کچھ اعتدال سے افراط زر کو کم کرنے میں مدد مل سکتی ہے، اور عالمی مالیاتی حالات میں بہتری سے بیرونی شعبے کو بھی کچھ ریلیف مل سکتا ہے۔

مذکورہ بالا کے علاوہ آئی ایم ایف پروگرام کی بحالی انتہائی اہمیت کی حامل رہی ہے کیونکہ دیگر دو طرفہ قرضے اس سے منسلک ہیں۔ IMF کے ساتھ SLA پر غیر وقتی دستخط کے نتیجے میں ایک نامور ڈیفالٹ کا خدشہ پیدا ہو گیاہے۔

مندر جہ بالا کو مد نظر رکھتے ہوئے، آگے بڑھتے ہوئے، فنڈ پورٹ فولیو کی مدت کو ٹیلی طرف رکھنے کی حکمت عملی کوبر قرار رکھے گا جس میں بینک ڈپازٹس، بائی مواجل اور اعلیٰ کریڈٹ کوالٹی شارٹ ٹرم کار پوریٹ سکوک جیسے د فاعی آلات میں زیادہ سے زیادہ جگد کا تعین کیاجائے گا۔
