Economic Outlook

Economic policy-making influenced the need to meet the IMF's prerequisites urgently, in contrast to political foot-dragging, which was aggravated by the forthcoming elections. The government conceded to the IMF's demands after the SBP FX reserves declined to critical levels which included raising POL/electricity/gas prices, announcement of a mini budget and devaluing PKR (Q/Q: 25%). Despite the country managing to meet most of the IMF's prerequisites, the absence of confirmation on bilateral financial assurances made it challenging to obtain the elusive IMF tranche.

The Policy Rate has been raised by the SBP to 21%, the highest ever recorded, which coincides with the latest CPI report indicating an unprecedented 35% increase, triggered by recent measures such as the hike in fuel and energy prices. Nonetheless, there remain risks of further PKR devaluation, exacerbated by delays in resuming the IMF program, and the second-round effects of increased wages. The average inflation in FY23 is now expected in the range of 27-29% against the Nov-22 projection of 21-23%. In this context, the MPC emphasized that anchoring inflation expectations is critical.

Headline inflation for March reached 35.4%Y/Y, highest level since 1965. While on a monthly basis, CPI rose by 370bp chiefly due to higher food (Ramadan effect) and tobacco (higher taxes) prices. Manifesting broad basing of inflationary pressures, March NFNE core inflation increased to 20.4%Y/Y with rural core and urban core inflation rates rising to 23.1% and 18.6%, respectively. We expect inflationary pressures to remain elevated over the next few months as the impact of increase in wheat prices, higher tariffs and retail fuel rates, PKR devaluation and new taxes pass through other prices. We anticipate inflation to start abating by year-end (June) due to reversal of base effect, expected exchange rate stability, softer demand, improving supply constraints and stable commodity prices. In its latest monetary policy review meeting, SBP has increased its policy rate by 100bps to 21% to anchor inflationary expectations. Barring any unexpected development, we think the interest rate tightening cycle has nearly run its course.

In the past, expansionary fiscal policies have been implemented during election years. However, with limited fiscal space and a precarious FX position, it would be challenging to increase spending. The ever-expanding fiscal deficit remains a significant obstacle to the country's economic growth prospects, worsened by a narrow tax base and expenditure slippages, including significant markup payments and elevated security expenditures amid rising terrorism threats. Our estimate suggests that the fiscal deficit would cross 7% of GDP, well above the official target of 4.9%. Despite imposition of additional taxes of PKR 170 billion, the FBR suffered a massive shortfall of PKR 304 billion in 9MFY23 collecting PKR 5,156 billion against the assigned target of PKR 5,460 billion. We estimate tax collection to remain below revised target due to partial collection of super tax and further slowdown in economic activity going forward.

According to the latest data released by the Pakistan Bureau of Statistics (PBS), the output of Large Scale Manufacturing Industries (LSMI) declined by 4.4% Y/Y FYTD. This decline in LSMI is attributed to the measures taken by monetary and fiscal authorities to slow down aggregate demand and supply constraints along with the rising cost of doing business, which resulted in decreased production numbers for various industries such as textile, paper, machinery and automobile.

In Feb-23, Pakistan's Balance of Payments (BOP) recorded a positive figure of USD 0.92 billion, and the Current account deficit (CAD) reported at a 24-month low of USD 74 million. The account reported almost breakeven over steady trade deficit, with marginal improvement in remittances (+5% M/M). Imports for the month remained under strict vigilance following administrative controls with a prioritized list. To maintain a break-even current account balance, controlled imports will be essential due to slower exports and remittances resulting from slower global economic activity. OPEC's surprise production cut announcement along with payment of external debt servicing may keep the current account in a flux. We estimate CAD to arrive between 1.5-2.0% of GDP in FY23.

Debt Market Review

On account of rising inflation and depleting FX reserves, SBP raised the policy rate by 625 bps cumulatively to 20% during 9MFY23.

Tenors	PKRV as at 31st Mar 2023	PKRV as at 30th June 2022	Change (9MFY23)

6 Months	21.10	15.15	5.95
1 Year	21.18	15.3	5.88

5 Years	15.19	12.93	2.26
10 Years	14.98	12.92	2.06

Market appetite for treasury bills remained strong during 9MFY23. Heavy participation amounting to PKR ~25.8 trillion was observed, out of which the government accepted ~PKR 14.7 trillion. Due to monetary tightening, a clear preference was observed in the 3M T-Bills. During 9MFY23, the market participated PKR ~18.7 trillion in 3M T-Bills which constituted 73% of the total participation followed by 12M T-Bills and 6M T-Bills with the participation of PKR ~3.8 trillion (15% of the total participation) and PKR 3.1 trillion (12% of the total participation) respectively.

In fixed rate PIB auctions, the market participated PKR 3.31 trillion, the government made close to target acceptance in fixed rate PIBs. Total accepted amount was ~PKR 968 billion. Despite the heavy participation, the market demanded relatively higher yields. The government proactively managed the cost of borrowing and the maturity profile simultaneously. However, since the significant monetary tightening, government reluctant to accept bids at higher levels. 4 out of 5 last PIB auctions were rejected and around PKR 25.075 billion was accepted in the last auction.

For floater rate PIBs, the rising interest rate scenario made investment more favorable. A significant participation was observed in floater rate PIBs, a participation of PKR 7.1 trillion took place in the floater rate PIB auctions, out of which the government accepted PKR 4.8 trillion. Out of PKR 4.8 trillion, PKR 2155 billion accepted in the 2Y floater PIB, PKR 1301 bn was accepted in the 3Y floater PIB, PKR 1244 billion was accepted in 5Y floater PIB and 101 billion was accepted in 10Y floater PIB.

On the Islamic front, the market remained skewed towards variable rate Ijara sukuk. Total participation was ~PKR 705 billion in the variable rate Ijara sukuk auction out of which the government accepted ~PKR 380 billion against the total target of PKR 835 billion. However, PKR 89.8 billion participation was witnessed in the fixed rate Ijara sukuk and the government accepted ~PKR 21 billion against the total target of PKR 295 billion.

Stock Market Review

Adverse economic conditions evidenced by the plunging PKR against USD and monetary tightening at unprecedented levels plagued the local bourse throughout the quarter with the benchmark KSE 100 Index closing at a flattish 40,000 points (+0.6%). Notwithstanding extremely attractive valuations, an already precarious balance of payments position further exacerbated by delays in completion of IMF's preconditions for program resumption unnerved investors. The mismatch of external inflows and outflows reduced FX reserves to under USD 5.0bn by March-end.

Commodity Outlook

The outlook for global economic growth has improved as of the end of Q1 2023 compared to the previous quarter, with positive developments stemming from the reopening of China, the alleviation of the European natural gas crisis, and continued strong demand from US consumers. With a gradual decline in global oil inventories expected over the course of 2023, this could potentially provide support to oil prices. However, supply concerns are likely to persist, particularly due to potential production disruptions in key oil-producing countries. Overall, oil prices are likely to remain sensitive to geopolitical developments, supply and demand imbalances, and shifts in energy policy.

Gold prices are expected to remain relatively stable in the latter half of 2023. Demand is set to emanate from Central bank purchases and investment demand for gold is expected to continue, which could support prices. However, inflation expectations, interest rate movements, and currency fluctuations are likely to remain key drivers of gold prices. Geopolitical risks, particularly those related to ongoing tensions between major global powers, could continue to support gold prices as a safe haven asset. Overall, gold prices are likely to be influenced by a range of economic and political factors, and may experience periods of volatility in response to changing market conditions.

Future Outlook

Talks with IMF have hit a new road block as the Fund is now demanding partial materialization of commitments from friendly countries before SLA could be signed. Moreover, the government is contemplating another fuel subsidy without consulting IMF, creating further uncertainty on program resumption. On the political front, negating Supreme Court (SC) decision, the Election Commission (ECP) postponed Punjab and KPK elections from April to October. Further, the government passed a bill to curb Chief Justice's suo moto powers. In a latest development, the SC ruled that ECP's decision to postpone polls was unconstitutional and fixed May 14 as the date for polls. We believe the aforesaid macroeconomic concerns are balanced against ultra-cheap valuations. To highlight, market's forward P/E of 3.2x is at a steep 62% discount to the 10yr average. However, in the short-term, the market will take direction from any progress on stalled IMF program and clarity on political situation.

16. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

	Fair Value			
	Level 1	Level 2	Level 3	Total
	----- (Rupees) -----			
<u>March 31, 2023</u>				
Financial assets measured at fair value				
Investments in debt securities	53,467	41,720	-	95,187
Government securities	-	47,690	-	47,690
Quoted equity securities	166,567	-	-	166,567
	220,034	89,410	-	309,444

	Fair Value			
	Level 1	Level 2	Level 3	Total
	----- (Rupees) -----			
<u>June 30, 2022</u>				
Financial assets measured at fair value				
Investments in debt securities	-	130,827	-	130,827
Government securities	-	100,000	-	100,000
Quoted equity securities	206,021	-	-	206,021
	206,021	230,827	-	436,848

During the period ended March 31, 2022 there were no transfers between level 1 and level 2 fair value measurements, and no transfer into and out of level 3 fair value measurements.

The Fund has not disclosed the fair values of other financial assets and financial liabilities, as these are either short term in nature or repriced periodically. Therefore, their carrying amounts are a reasonable approximation of their fair values.

17. GENERAL

17.1 Prior period's figures have been rearranged / reclassified wherever necessary for better presentation and comparison. However, there were no material reclassifications to report.

11 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at March 31, 2023 and June 30, 2022.

12 TOTAL EXPENSE RATIO

The total expense ratio (TER) of the Fund based on the current period results is 1.25% (March 31, 2022: 1.19%) which includes 0.13% (March 31, 2022: 0.09%) representing Government Levy, Sindh Workers' Welfare Fund, and the SECP fee. This ratio is within the maximum limit of 2.5% prescribed under the NBFC Regulations for a collective investment scheme categorised as a exchange traded fund.

13 TAXATION

The income of the Fund is exempt from income tax under Clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the Management Company intends to distribute at least 90% of the Fund's accounting income for the year ending June 30, 2023 as reduced by capital gains (whether realised or unrealised) to its unit holders, therefore no provision for taxation has been made in this condensed interim financial information.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

14 EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as, in the opinion of the Management Company, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

15 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

15.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

	Carrying Amount			Fair value		
	As at March 31, 2023			As at March 31, 2023

17. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

17. Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

'Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

'Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at reporting date, the Fund does not hold any financial instruments which are measured at fair value. The estimated fair value of all financial assets and liabilities at amortised cost is considered not significantly different from the carrying value as the items are short-term in nature.

IFRS 13, 'Fair Value Measurements' requires the Fund to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date (level 1).
- Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly (level 2)
- Unobservable inputs for the asset or liability (level 3).

As at reporting date, the Fund does not hold any financial instruments which are measured at fair value. The estimated fair value of all financial assets and liabilities at amortised cost is considered not significantly different from the carrying value as the items are short-term in nature.

- 12.1** As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015 the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, is required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by the Mutual Funds Association of Pakistan (MUFAP) with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that mutual funds should be excluded from the ambit of SWWF Act as these were not industrial establishments but were pass-through investment vehicles and did not employ workers. The MUFAP had taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF. In view of the above developments and based on the legal opinion obtained by MUFAP, regarding the applicability of SWWF on CISs / mutual funds, MUFAP had recommended that as a matter of abundant caution provision in respect of SWWF should be made on a prudent basis with effect from the date of enactment of the Sindh WWF Act, 2014 (i.e. starting from May 21, 2015). The Funds have accordingly made provision in respect of SWWF as recommended by MUFAP.

'During the period, SRB through its letter dated August 12, 2021 has intimated MUFAP that the mutual funds do not qualify as Financial Institutions / Industrial Establishments and are therefore, not liable to pay the SWWF contributions. This development was discussed at MUFAP level and has also been taken up with the SECP and all the Asset Management Companies, in consultation with SECP, have reversed the cumulative provision for SWWF recognised in the financial statements of the Fund amounting to Rs. 0.242 million, for the period from May 21, 2015 to August 12, 2021, on August 13, 2021. Accordingly, going forward, no provision for SWWF would be recognised in the financial statements of the Fund.

13. CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at March 31, 2023 and June 30, 2022.

14. TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2023 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

16. FAIR VALUE MEASUREMENT

- 16.1** IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

The following table shows financial instruments recognised at fair value, analysed between those whose fair value is based on:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

- 16.2** The Fund has not disclosed the fair values for other financial assets and financial liabilities, as these are either short term in nature or repriced periodically. Therefore, their carrying amounts are reasonable approximation of fair value.
- 16.3** There were no transfers between various levels of fair value hierarchy during the period.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RISK MANAGEMENT POLICIES

- 3.1** The preparation of these condensed interim financial statements in conformity with approved accounting standards requires management to make estimates, assumptions and use judgements that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision.

3.2 New / Revised Standards, Interpretations and Amendments

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Fund's accounting periods beginning on or after July 01, 2022 but are considered not to be relevant or do not have any significant effect on the Fund's operations and therefore not detailed in these condensed interim financial statements.

Standards	IASB Effective date (annual periods beginning on or after)
IFRS 1 - First-time Adoption of International Financial Reporting Standards	July 01, 2009
IFRS 17 – Insurance Contracts	January 01, 2023

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RISK MANAGEMENT POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below.

4.1 Cash and cash equivalents

Cash and cash equivalents comprise balances with banks and short-term highly liquid investments with original maturities of three months or less.

4.2 Financial assets

4.2.2 Debt instruments

IFRS 9 has provided a criteria for debt securities whereby these debt securities are either classified as:

- at amortised cost
- at fair value through other comprehensive income (FVOCI)
- at fair value through profit or loss (FVPL)

based on the business model of the entity.

- The determination of business model within which a financial asset is held.

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognised at FVPL. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore, the management considers its investment in debt securities as being managed as a group of assets and hence has classified them as FVPL.

The Fund classifies its financial assets in the following categories:

4.2.3 Impairment

The Fund assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets (other than debt instruments) carried at amortised cost and FVOCI. The Fund recognises loss allowances for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecast of future economic conditions.

4.2.3.1 Impairment loss on debt securities

Provision for non-performing debt securities is made on the basis of time-based criteria as prescribed by the SECP and based on management's assessment made in line with its provisioning policy approved by the Board of Directors of the Management Company in accordance with the guidelines issued by the SECP. Impairment losses recognised on debt securities can be reversed through the income statement.

As allowed by the SECP, the Management Company may make provision against debt securities over and above the minimum provision requirement prescribed by the SECP in accordance with the provisioning policy duly approved by the Board of Directors. The provisioning policy approved by the Board of Directors has been placed on the Management Company's website as required by the SECP's circular.

4.3. Regular way contracts

Regular purchases and sales of financial assets are recognised on the trade date - the date on which the Fund commits to purchase or sell the asset.

4.4. Initial recognition and measurement

The Fund initially recognises financial assets at FVTPL on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. Other financial assets are recognised on the date on which they are originated.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

4.5. Derecognition

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. Any gain or loss on derecognition of financial assets is taken to the income statement.

4.6 Financial liabilities

Financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair values and subsequently stated at amortised cost.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Any gain or loss on derecognition of financial liabilities is taken to the income statement.

4.7 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realise the assets and settle the liabilities simultaneously.

4.8 Derivatives

Derivative instruments are initially recognised at fair value and subsequent to initial measurement each derivative instrument is remeasured to its fair value and the resultant gain or loss is recognised in the income statement.

4.9 Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

4.10. Financial liabilities - classification and subsequent measurement

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value at net gains and losses, including any interest expense, are recognised in profit or loss.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Any gain or loss on derecognition is also recognised in profit or loss.

4.11. Deferred formation cost

This represents expenses incurred on the formation of the Fund. As permitted in the Non-Banking Finance Companies and Notified Entities Regulations, 2008, these expenses are being amortised to the income statement.

4.12. Unitholders' fund

Unitholders' fund representing the units issued by the Fund, is carried at the redemption amount representing the investors' right to a residual interest in the Fund's assets.

4.13 Issuance and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received, by the distributors / Management Company during business hours, as of the close of the previous day on which the applications were received. The offer price represents the net assets value per unit as of the close of previous day plus the allowable sales load, provision for transaction costs and any provision for duties and charges, if applicable.

Units redeemed are recorded at the redemption price, applicable to units as of the close of the previous day. The redemption price represents the net assets value per unit as of the close of the previous day on which the applications were received less any back-end load, any duties, taxes, charges on redemption and any provision for transaction costs, if applicable.

4.14 Element of income

Element of Income represents the difference between net assets value on the issuance or redemption date, as the case may be, of units and the Net asset Value (NAV) at the beginning of the relevant accounting period.

Element of Income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund; however, to maintain same ex-dividend net asset value of all units outstanding on accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units (refund of capital) in the same proportion as dividend bears to accounting income available for distribution. As per guideline provided by MUFAP (MUFAP Guidelines consented upon by SECP) the refund of capital is made in the form of additional units at zero price.

MUFAP, in consultation with the SECP, has specified methodology for determination of income paid on units redeemed (income already paid) during the year under which such income is paid on gross element received and is calculated from the latest date at which the Fund achieved net profitability during the year. The income already paid (Element of Income) on redemption of units during the year are taken separately in statement of movement in unitholders' fund.

4.15 Provisions

Provisions are recognised when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

4.16 Net asset value per unit

The net asset value per unit as disclosed on the Statement of Assets and Liabilities is calculated by dividing the net assets of the Fund by the number of units outstanding at the year end.

4.17 Taxation

The Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001, subject to the condition that not less than ninety percent of its accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed among the unit holders. Provided that for the purpose of determining distribution of at least ninety percent of its accounting income for the year, the income distributed through bonus units shall not be taken into account.

The Fund provides for deferred taxation using the balance sheet liability method on all major temporary differences between the amounts used for financial reporting purposes and amounts used for taxation purposes. In addition, the Fund also records deferred tax asset on unutilised tax losses to the extent that it is no longer probable that the related tax benefit will be realised. However, the Fund has not recognised any amount in respect of taxation in these financial statements as the Fund distributes more than ninety percent of its accounting income for the current period and intends to continue availing the tax exemption in future years by distributing at least ninety percent of its accounting income for the year as reduced by capital gains, whether realised or unrealised, to its unit holders' every year.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

4.18. Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on July 1, 2022. However, these do not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

4.19. Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain new amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on or after July 1, 2022. However, these will not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

The principal accounting policies applied in the preparation of these financial statements are set out below.

4.1 Cash and cash equivalents

Cash and cash equivalents comprise balances with banks and short-term highly liquid investments with original maturities of three months or less.

4.2 Financial assets

4.2.2 Debt instruments

IFRS 9 has provided a criteria for debt securities whereby these debt securities are either classified as:

- at amortised cost
- at fair value through other comprehensive income (FVOCI)
- at fair value through profit or loss (FVPL)

based on the business model of the entity.

- The determination of business model within which a financial asset is held.

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognised at FVPL. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore, the management considers its investment in debt securities as being managed as a group of assets and hence has classified them as FVPL.

The Fund classifies its financial assets in the following categories:

4.2.3 Impairment

The Fund assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets (other than debt instruments) carried at amortised cost and FVOCI. The Fund recognises loss allowances for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecast of future economic conditions.

4.2.3.1 Impairment loss on debt securities

Provision for non-performing debt securities is made on the basis of time-based criteria as prescribed by the SECP and based on management's assessment made in line with its provisioning policy approved by the Board of Directors of the Management Company in accordance with the guidelines issued by the SECP. Impairment losses recognised on debt securities can be reversed through the income statement.

As allowed by the SECP, the Management Company may make provision against debt securities over and above the minimum provision requirement prescribed by the SECP in accordance with the provisioning policy duly approved by the Board of Directors. The provisioning policy approved by the Board of Directors has been placed on the Management Company's website as required by the SECP's circular.

4.3. Regular way contracts

Regular purchases and sales of financial assets are recognised on the trade date - the date on which the Fund commits to purchase or sell the asset.

4.4. Initial recognition and measurement

The Fund initially recognises financial assets at FVTPL on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. Other financial assets are recognised on the date on which they are originated.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

4.5. Derecognition

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. Any gain or loss on derecognition of financial assets is taken to the income statement.

4.6 Financial liabilities

Financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair values and subsequently stated at amortised cost.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Any gain or loss on derecognition of financial liabilities is taken to the income statement.

4.7 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realise the assets and settle the liabilities simultaneously.

4.8 Derivatives

Derivative instruments are initially recognised at fair value and subsequent to initial measurement each derivative instrument is remeasured to its fair value and the resultant gain or loss is recognised in the income statement.

4.9 Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

4.10. Financial liabilities - classification and subsequent measurement

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value at net gains and losses, including any interest expense, are recognised in profit or loss.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Any gain or loss on derecognition is also recognised in profit or loss.

4.11. Deferred formation cost

This represents expenses incurred on the formation of the Fund. As permitted in the Non-Banking Finance Companies and Notified Entities Regulations, 2008, these expenses are being amortised to the income statement.

4.12. Unitholders' fund

Unitholders' fund representing the units issued by the Fund, is carried at the redemption amount representing the investors' right to a residual interest in the Fund's assets.

4.13 Issuance and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received, by the distributors / Management Company during business hours, as of the close of the previous day on which the applications were received. The offer price represents the net assets value per unit as of the close of previous day plus the allowable sales load, provision for transaction costs and any provision for duties and charges, if applicable.

Units redeemed are recorded at the redemption price, applicable to units as of the close of the previous day. The redemption price represents the net assets value per unit as of the close of the previous day on which the applications were received less any back-end load, any duties, taxes, charges on redemption and any provision for transaction costs, if applicable.

4.14 Element of income

Element of Income represents the difference between net assets value on the issuance or redemption date, as the case may be, of units and the Net asset Value (NAV) at the beginning of the relevant accounting period.

Element of Income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund; however, to maintain same ex-dividend net asset value of all units outstanding on accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units (refund of capital) in the same proportion as dividend bears to accounting income available for distribution. As per guideline provided by MUFAP (MUFAP Guidelines consented upon by SECP) the refund of capital is made in the form of additional units at zero price.

MUFAP, in consultation with the SECP, has specified methodology for determination of income paid on units redeemed (income already paid) during the year under which such income is paid on gross element received and is calculated from the latest date at which the Fund achieved net profitability during the year. The income already paid (Element of Income) on redemption of units during the year are taken separately in statement of movement in unitholders' fund.

4.15 Provisions

Provisions are recognised when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

4.16 Net asset value per unit

The net asset value per unit as disclosed on the Statement of Assets and Liabilities is calculated by dividing the net assets of the Fund by the number of units outstanding at the year end.

4.17 Taxation

The Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001, subject to the condition that not less than ninety percent of its accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed among the unit holders. Provided that for the purpose of determining distribution of at least ninety percent of its accounting income for the year, the income distributed through bonus units shall not be taken into account.

The Fund provides for deferred taxation using the balance sheet liability method on all major temporary differences between the amounts used for financial reporting purposes and amounts used for taxation purposes. In addition, the Fund also records deferred tax asset on unutilised tax losses to the extent that it is no longer probable that the related tax benefit will be realised. However, the Fund has not recognised any amount in respect of taxation in these financial statements as the Fund distributes more than ninety percent of its accounting income for the current period and intends to continue availing the tax exemption in future years by distributing at least ninety percent of its accounting income for the year as reduced by capital gains, whether realised or unrealised, to its unit holders' every year.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

4.18. Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on July 1, 2022. However, these do not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

4.19. Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain new amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on or after July 1, 2022. However, these will not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

2.3 In compliance with Schedule V of the NBFC Regulations, the directors of the Management Company declare that these condensed interim financial statements give a true and fair view of the state of affairs of the Fund as at March 31, 2023.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RISK MANAGEMENT POLICIES

3.1 The preparation of these condensed interim financial statements in conformity with approved accounting standards requires management to make estimates, assumptions and use judgements that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision.

3.2 New / Revised Standards, Interpretations and Amendments

There are certain new and amended standards, issued by International Accounting Standards Board (IASB), interpretations and amendments that are mandatory for the Fund's accounting periods beginning on or after July 01, 2022 but are considered not to be relevant or do not have any significant effect on the Fund's operations and therefore not detailed in these condensed interim financial statements.

3.3 Standards, interpretations and amendments to the published accounting and reporting standards that are not yet effective

The following standards, amendments and interpretations with respect to the approved accounting standards as applicable in Pakistan would be effective from the dates mentioned below against the respective standard or interpretation:

Standards	IASB Effective date (annual periods beginning on or after)
IFRS 1 - First-time Adoption of International Financial Reporting Standards	July 01, 2009
IFRS 17 – Insurance Contracts	January 01, 2023

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RISK MANAGEMENT POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below.

4.1 Cash and cash equivalents

Cash and cash equivalents comprise balances with banks and short-term highly liquid investments with original maturities of three months or less.

4.2 Financial assets

4.2.2 Debt instruments

IFRS 9 has provided a criteria for debt securities whereby these debt securities are either classified as:

- at amortised cost
- at fair value through other comprehensive income (FVOCI)
- at fair value through profit or loss (FVPL)

based on the business model of the entity.

- The determination of business model within which a financial asset is held.

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognised at FVPL. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore, the management considers its investment in debt securities as being managed as a group of assets and hence has classified them as FVPL.

The Fund classifies its financial assets in the following categories:

4.2.3 Impairment

The Fund assesses on a forward-looking basis the expected credit losses (ECL) associated with its financial assets (other than debt instruments) carried at amortised cost and FVOCI. The Fund recognises loss allowances for such losses at each reporting date. The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecast of future economic conditions.

4.2.3.1 Impairment loss on debt securities

Provision for non-performing debt securities is made on the basis of time-based criteria as prescribed by the SECP and based on management's assessment made in line with its provisioning policy approved by the Board of Directors of the Management Company in accordance with the guidelines issued by the SECP. Impairment losses recognised on debt securities can be reversed through the income statement.

As allowed by the SECP, the Management Company may make provision against debt securities over and above the minimum provision requirement prescribed by the SECP in accordance with the provisioning policy duly approved by the Board of Directors. The provisioning policy approved by the Board of Directors has been placed on the Management Company's website as required by the SECP's circular.

4.3. Regular way contracts

Regular purchases and sales of financial assets are recognised on the trade date - the date on which the Fund commits to purchase or sell the asset.

4.4. Initial recognition and measurement

The Fund initially recognises financial assets at FVTPL on the trade date, which is the date on which the Fund becomes a party to the contractual provisions of the instrument. Other financial assets are recognised on the date on which they are originated.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

4.5. Derecognition

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or have been transferred and the Fund has transferred substantially all risks and rewards of ownership. Any gain or loss on derecognition of financial assets is taken to the income statement.

4.6 Financial liabilities

Financial liabilities are recognised at the time when the Fund becomes a party to the contractual provisions of the instruments. These are initially recognised at fair values and subsequently stated at amortised cost.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Any gain or loss on derecognition of financial liabilities is taken to the income statement.

4.7 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realise the assets and settle the liabilities simultaneously.

4.8 Derivatives

Derivative instruments are initially recognised at fair value and subsequent to initial measurement each derivative instrument is remeasured to its fair value and the resultant gain or loss is recognised in the income statement.

4.9 Reclassifications

Financial assets are not reclassified subsequent to their initial recognition unless the Fund were to change its business model for managing financial assets, in which case all affected financial assets would be reclassified on the first day of the first reporting period following the change in the business model.

4.10. Financial liabilities - classification and subsequent measurement

Financial liabilities are classified as measured at amortised cost or FVTPL.

A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value at net gains and losses, including any interest expense, are recognised in profit or loss.

Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Any gain or loss on derecognition is also recognised in profit or loss.

4.11. Deferred formation cost

This represents expenses incurred on the formation of the Fund. As permitted in the Non-Banking Finance Companies and Notified Entities Regulations, 2008, these expenses are being amortised to the income statement.

4.12. Unitholders' fund

Unitholders' fund representing the units issued by the Fund, is carried at the redemption amount representing the investors' right to a residual interest in the Fund's assets.

4.13 Issuance and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received, by the distributors / Management Company during business hours, as of the close of the previous day on which the applications were received. The offer price represents the net assets value per unit as of the close of previous day plus the allowable sales load, provision for transaction costs and any provision for duties and charges, if applicable.

Units redeemed are recorded at the redemption price, applicable to units as of the close of the previous day. The redemption price represents the net assets value per unit as of the close of the previous day on which the applications were received less any back-end load, any duties, taxes, charges on redemption and any provision for transaction costs, if applicable.

4.14 Element of income

Element of Income represents the difference between net assets value on the issuance or redemption date, as the case may be, of units and the Net asset Value (NAV) at the beginning of the relevant accounting period.

Element of Income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund; however, to maintain same ex-dividend net asset value of all units outstanding on accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units (refund of capital) in the same proportion as dividend bears to accounting income available for distribution. As per guideline provided by MUFAP (MUFAP Guidelines consented upon by SECP) the refund of capital is made in the form of additional units at zero price.

MUFAP, in consultation with the SECP, has specified methodology for determination of income paid on units redeemed (income already paid) during the year under which such income is paid on gross element received and is calculated from the latest date at which the Fund achieved net profitability during the year. The income already paid (Element of Income) on redemption of units during the year are taken separately in statement of movement in unitholders' fund.

4.15 Provisions

Provisions are recognised when the Fund has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are reviewed at each balance sheet date and are adjusted to reflect the current best estimate.

4.16 Net asset value per unit

The net asset value per unit as disclosed on the Statement of Assets and Liabilities is calculated by dividing the net assets of the Fund by the number of units outstanding at the year end.

4.17 Taxation

The Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001, subject to the condition that not less than ninety percent of its accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed among the unit holders. Provided that for the purpose of determining distribution of at least ninety percent of its accounting income for the year, the income distributed through bonus units shall not be taken into account.

The Fund provides for deferred taxation using the balance sheet liability method on all major temporary differences between the amounts used for financial reporting purposes and amounts used for taxation purposes. In addition, the Fund also records deferred tax asset on unutilised tax losses to the extent that it is no longer probable that the related tax benefit will be realised. However, the Fund has not recognised any amount in respect of taxation in these financial statements as the Fund distributes more than ninety percent of its accounting income for the current period and intends to continue availing the tax exemption in future years by distributing at least ninety percent of its accounting income for the year as reduced by capital gains, whether realised or unrealised, to its unit holders' every year.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

4.18. Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on July 1, 2022. However, these do not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

4.19. Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain new amendments to the published accounting and reporting standards that are mandatory for the Fund's accounting period beginning on or after July 1, 2022. However, these will not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

16 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below provides information on financial assets or liabilities carried at fair values, by valuation methods.

16. FAIR VALUE MEASUREMENT

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value.

The following table shows financial instruments recognised at fair value, analysed between those whose fair value is based on:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2023 and June 30, 2022, the Fund held the following instruments measured at fair values:

	Fair value			
	Level 1	Level 2	Level 3	Total

- Government securities - Pakistan Investment Bonds	-	-	-	-
	50,178	188,777	-	238,955

During the period ended March 31, 2023, there were no transfers between level 1 and level 2 fair value measurements, and no transfer into and out of level 3 fair value measurements.

The Fund has not disclosed the fair values of other financial assets and financial liabilities, as these are either short term in nature or repriced periodically. Therefore, their carrying amounts are a reasonable approximation of their fair values.

16.1 Valuation techniques used in determination of fair values within level 2

16.1.1 Fair values of Pakistan Investment Bonds and Market Treasury Bills are derived using PKRV and PKFRV rates as announced by Mutual Funds Association of Pakistan (MUFAP).

16.1.2 Investments in term finance and sukuk certificates issued by a company or a body corporate for the purpose of raising funds in the form of redeemable capital, are valued on the basis of the rates announced by the Mutual Funds Association of Pakistan (MUFAP) in accordance with the methodology prescribed by the Securities and Exchange Commission of Pakistan.

Had the provision not been maintained, the net assets value per unit would have been higher by Re. 5.82 (June 30, 2022: Re.4.99 per unit).

11. CONTINGENCIES

Collective Investment Schemes (CIS) are required to withhold tax being a withholding tax agent as it is a prescribed person under sub section 7 of section 153 of Income Tax Ordinance 2001 (Ordinance) and is required to deduct and deposit withholding tax on payments made by the CIS under the various tax provisions of the ordinance

During the year ended June 30, 2019, Deputy Commissioner Inland Revenue (DCIR) issued a show cause notice for tax year 2016 dated November 14, 2018 claiming that CIS failed to deduct and deposit withholding tax on payments made by the CIS. Tax counsel on behalf of the CIS responded to show cause notice along with reconciliation and supporting evidence/records on November 23, 2018; however, after change of jurisdiction, the Assessing Officer (AO) without looking into the details already available on the record, passed an ex-parte Order under section 161, 205 & 182 of the Ordinance dated November 29, 2019 whereby an arbitrary demand of Rs.83.413 million including default surcharge of Rs.8.204 million and Penalty of Rs.6.837 million was created against the Fund.

Aggrieved from the order of AO the CIS filed an appeal before the Learned Commissioner Inland Revenue (Appeals-III) (CIR(A)), Karachi on both legal & factual grounds dated December 30, 2019. The said appeal was listed for hearing on January 07, 2021. The Learned CIR(A) vide Appellate Order dated January 15, 2021 annulled the Monitoring Order and remanded the matter to the AO with the direction to pass speaking and judicious order after providing sufficient opportunity of being heard.

In pursuance thereof, appeal effect monitoring proceedings under section 124 & 129 read with sections 161, 205 and 182 of the Ordinance were initiated by the DCIR, which was duly complied with and provided reconciliation along with all supporting documents and records.

The DCIR passed Appeal Effect Monitoring Order under section 124 & 129 read with Sections 161, 205 and 182 of the Ordinance dated December 31, 2021 whereby a default of Tax under section 161 amounting to Rs.4.03 million at rate of 25% under section 150 of the Ordinance along with Default Surcharge of Rs.2.418 million under section 205 and Penalty of Rs.0.403 million under section 182 was created on the alleged ground that no appropriate explanation or documentary evidence (i.e. exemption certificates) in respect of identified parties (as reproduced in the impugned Appeal Effect Order) was furnished by the Fund.

The said Appeal Effect Order was further challenged in appeal before the Learned Commissioner Inland Revenue (Appeals-III), Karachi on both legal and factual grounds. The main appeal was heard on January 14, 2022; however, no appellate order has been issued / received till date.

During the period, Deputy Commissioner Inland Revenue (DCIR) issued a show-cause notice for the tax years 2017 and 2018 dated December 20, 2021, claiming that CIS failed to deduct and deposit withholding tax on payments made by the CIS. On March 30, 2022, DCIR issued orders, based on the reply submitted by our tax advisor, demanding tax amounting to Rs 151,553 and Rs 527,227 for the tax years 2017 and 2018 respectively. DCIR's orders were based on factual inaccuracies; therefore, the CIS filed appeals for tax year 2017 and 2018 with Commissioner (Appeals) against the said orders. As a matter of abundant caution and on the advice of our tax advisor legal counsel, payment against the said orders was made; however, no provision is made in these condensed interim financial statements as the Management Company is confident that the outcome of the appeals will be in favor of the CIS.

11.2 Commitments

There were no commitments as at March 31, 2023 (June 30, 2022: Nil).

12. TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2023 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

13. EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as in the opinion of the Management Company, the determination of the cumulative weighted average number of outstanding units is not practicable.

14. TOTAL EXPENSE RATIO

16. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value.

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyse financial instruments measured at the end of the period by the level in the fair value hierarchy into which the fair value measurement is categorised:

	Fair value			
	Level 1	Level 2	Level 3	Total
	----- (Rupees in '000) -----			
<u>March 31, 2023 (Un-audited)</u>				
Financial assets measured at fair value				
Government securities - Market Treasury Bills	-	247,376	-	247,376
Government Securities - Pakistan Investment bonds	-	659,354	-	659,354
	<u>-</u>	<u>906,730</u>	<u>-</u>	<u>906,730</u>
<u>June 30, 2022 (Audited)</u>				
Financial assets measured at fair value				
Government securities - Market Treasury Bills	-	-	-	-
Government Securities - Pakistan Investment bonds	-	1,025	-	1,025
	<u>-</u>	<u>1,025</u>	<u>-</u>	<u>1,025</u>

During the period ended March 31, 2023, there were no transfers between level 1 and level 2 fair value measurements, and no transfer into and out of level 3 fair value measurements.

The Fund has not disclosed the fair values of other financial assets and financial liabilities, as these are either short term in nature or repriced periodically. Therefore, their carrying amounts are a reasonable approximation of their fair values.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

14. **TAXATION**

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2022 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

15. **EARNINGS PER UNIT**

This ratio is within the maximum limit of 2% prescribed under the NBFC Regulations for a collective investment scheme categorised as a money market fund.

17. **FAIR VALUE MEASUREMENT**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

17.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at reporting date, the Fund does not hold any financial instruments which are measured at fair value. The estimated fair value of all financial assets and liabilities at amortised cost is considered not significantly different from the carrying value as the items are short-term in nature.

16. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The Fund does not hold any financial assets or liabilities carried at fair value as at March 31, 2023.

17. GENERAL

Figures have been rounded off to the nearest thousand of rupees unless otherwise stated.

Auditor's remuneration payable	882	402
Capital gain tax payable	42	2,923

Other payables	4,520	5,597
	<u>57,619</u>	<u>60,616</u>

- 10.1** This includes provision for Federal Excise Duty (FED) as at 31 March 2023 amounting to Rs.45.195 million (30 June 2022: Rs.45.195 million). There is no change in the status of the legal proceeding on this matter, which has been fully disclosed in note 14.1 to the annual audited financial statements for the year ended 30 June 2022. As a matter of abundant caution, the Management company has maintained full provision for FED aggregating to Rs. 45.195 million. Had the provision not been provided for, the net assets value per unit would have been higher by Rs.0.64 (30 June 2022: Rs.0.56).

11. CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at March 31, 2023 and June 30, 2022.

12. TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2023 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

13. EARNING PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as, in the opinion of the Management Company, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

14. TOTAL EXPENSE RATIO

The total expense ratio (TER) of the Fund based on the current period results is 3.89% (March, 2022: 3.47%) which includes 0.32% (March, 2022: 0.31%) representing Government Levy, Sindh Workers' Welfare Fund, and the SECP fee. This ratio is within the maximum limit of 4.5% prescribed under the NBFC Regulations for a collective investment scheme categorised as a equity scheme.

15. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

ASSETS	(Un-audited) March 31, 2023

Further, the Fund is exempt under clause 47(B) of Part IV of Second Schedule of ITO 2001 from withholding tax under section 150, 150A, 151 and 233 of ITO 2001. 17. FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The Fund classifies fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- Fair value measurements using Inputs for assets or liabilities that are not based on observable market data (i.e. unobservable inputs) (level 3).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

13. TAXATION

The Fund's income is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Further, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001. Since the Management Company intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2023 to the unit holders in the manner as explained above, no provision for taxation has been made in this condensed interim financial information.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

17. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

17.1 FAIR VALUE HIERARCHY

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy.

Directors' Report

The Board of Directors of UBL Fund Managers Limited is pleased to present the quarterly report of its Al-Ameen series represented by Al-Ameen Islamic Sovereign Fund (AISF), Al-Ameen Islamic Aggressive Income Fund (AIAIF) including Al-Ameen Islamic Aggressive Income Plan-I (AIAIP-I), Al-Ameen Shariah Stock Fund (ASSF), Al-Ameen Islamic Dedicated Equity Fund (AIDEF), Al-Ameen Islamic Cash Fund (AICF) including Al-Ameen Islamic Cash Plan – I (AICP-I), Al-Ameen Islamic Asset Allocation Fund (AIAAF) and Al-Ameen Islamic Energy Fund (AIEF) for the period ended March 31, 2023.

Economic Outlook

Economic policy-making influenced the need to meet the IMF's prerequisites urgently, in contrast to political foot-dragging, which was aggravated by the forthcoming elections. The government conceded to the IMF's demands after the SBP FX reserves declined to critical levels which included raising POL/electricity/gas prices, announcement of a mini budget and devaluing PKR (Q/Q: 25%). Despite the country managing to meet most of the IMF's prerequisites, the absence of confirmation on bilateral financial assurances made it challenging to obtain the elusive IMF tranche.

The Policy Rate has been raised by the SBP to 21%, the highest ever recorded, which coincides with the latest CPI report indicating an unprecedented 35% increase, triggered by recent measures such as the hike in fuel and energy prices. Nonetheless, there remain risks of further PKR devaluation, exacerbated by delays in resuming the IMF program, and the second-round effects of increased wages. The average inflation in FY23 is now expected in the range of 27-29% against the Nov-22 projection of 21–23%. In this context, the MPC emphasized that anchoring inflation expectations is critical.

Headline inflation for March reached 35.4%Y/Y, highest level since 1965. While on a monthly basis, CPI rose by 370bp chiefly due to higher food (Ramadan effect) and tobacco (higher taxes) prices. Manifesting broad basing of inflationary pressures, March NFNE core inflation increased to 20.4%Y/Y with rural core and urban core inflation rates rising to 23.1% and 18.6%, respectively. We expect inflationary pressures to remain elevated over the next few months as the impact of increase in wheat prices, higher tariffs and retail fuel rates, PKR devaluation and new taxes pass through other prices. We anticipate inflation to start abating by year-end (June) due to reversal of base effect, expected exchange rate stability, softer demand, improving supply constraints and stable commodity prices. In its latest monetary policy review meeting, SBP has increased its policy rate by 100bps to 21% to anchor inflationary expectations. Barring any unexpected development, we think the interest rate tightening cycle has nearly run its course.

In the past, expansionary fiscal policies have been implemented during election years. However, with limited fiscal space and a precarious FX position, it would be challenging to increase spending. The ever-expanding fiscal deficit remains a significant obstacle to the country's economic growth prospects, worsened by a narrow tax base and expenditure slippages, including significant markup payments and elevated security expenditures amid rising terrorism threats. Our estimate suggests that the fiscal deficit would cross 7% of GDP, well above the official target of 4.9%. Despite imposition of additional taxes of PKR 170 billion, the FBR suffered a massive shortfall of PKR 304 billion in 9MFY23 collecting PKR 5,156

billion against the assigned target of PKR 5,460 billion. We estimate tax collection to remain below revised target due to partial collection of super tax and further slowdown in economic activity going forward.

According to the latest data released by the Pakistan Bureau of Statistics (PBS), the output of Large Scale Manufacturing Industries (LSMI) declined by 4.4% Y/Y FYTD. This decline in LSMI is attributed to the measures taken by monetary and fiscal authorities to slow down aggregate demand and supply constraints along with the rising cost of doing business, which resulted in decreased production numbers for various industries such as textile, paper, machinery and automobile.

In Feb-23, Pakistan's Balance of Payments (BOP) recorded a positive figure of USD 0.92 billion, and the Current account deficit (CAD) reported at a 24-month low of USD 74 million. The account reported almost breakeven over steady trade deficit, with marginal improvement in remittances (+5% M/M). Imports for the month remained under strict vigilance following administrative controls with a prioritized list. To maintain a break-even current account balance, controlled imports will be essential due to slower exports and remittances resulting from slower global economic activity. OPEC's surprise production cut announcement along with payment of external debt servicing may keep the current account in a flux. We estimate CAD to arrive between 1.5-2.0% of GDP in FY23.

Debt Market Review

On account of rising inflation and depleting FX reserves, SBP raised the policy rate by 625 bps cumulatively to 20% during 9MFY23.

Tenors	PKRV as at 31st Mar 2023	PKRV as at 30th June 2022	Change (9MFY23)
3 Months	21.41	14.98	6.43
6 Months	21.10	15.15	5.95
1 Year	21.18	15.3	5.88
3 years	18.24	13.45	4.79
5 Years	15.19	12.93	2.26
10 Years	14.98	12.92	2.06

Market appetite for treasury bills remained strong during 9MFY23. Heavy participation amounting to PKR ~25.8 trillion was observed, out of which the government accepted ~PKR 14.7 trillion. Due to monetary tightening, a clear preference was observed in the 3M T-Bills. During 9MFY23, the market participated PKR ~18.7 trillion in 3M T-Bills which constituted 73% of the total participation followed by 12M T-Bills and 6M T-Bills with the participation of PKR ~3.8 trillion (15% of the total participation) and PKR 3.1 trillion (12% of the total participation) respectively.

In fixed rate PIB auctions, the market participated PKR 3.31 trillion, the government made close to target acceptance in fixed rate PIBs. Total accepted amount was ~PKR 968 billion. Despite the heavy participation, the market demanded relatively higher yields. The government proactively managed the cost of borrowing and the maturity profile simultaneously. However, since the significant monetary tightening, government reluctant to accept bids at higher levels. 4 out of 5 last PIB auctions were rejected and around PKR 25.075 billion was accepted in the last auction.

For floater rate PIBs, the rising interest rate scenario made investment more favorable. A significant participation was observed in floater rate PIBs, a participation of PKR 7.1 trillion took place in the floater rate PIB auctions, out of which the government accepted PKR 4.8 trillion. Out of PKR 4.8 trillion, PKR 2155 billion accepted in the 2Y floater PIB, PKR 1301 bn was accepted in the 3Y floater PIB, PKR 1244 billion was accepted in 5Y floater PIB and 101 billion was accepted in 10Y floater PIB.

On the Islamic front, the market remained skewed towards variable rate Ijara sukuk. Total participation was ~PKR 705 billion in the variable rate Ijara sukuk auction out of which the government accepted ~PKR 380 billion against the total target of PKR 835 billion. However, PKR 89.8 billion participation was witnessed in the fixed rate Ijara sukuk and the government accepted ~PKR 21 billion against the total target of PKR 295 billion.

Stock Market Review

Adverse economic conditions evidenced by the plunging PKR against USD and monetary tightening at unprecedented levels plagued the local bourse throughout the quarter with the benchmark KSE 100 Index closing at a flattish 40,000 points (+0.6%). Notwithstanding extremely attractive valuations, an already precarious balance of payments position further exacerbated by delays in completion of IMF's preconditions for program resumption unnerved investors. The mismatch of external inflows and outflows reduced FX reserves to under USD 5.0bn by March-end.

Future Outlook

Talks with IMF have hit a new road block as the Fund is now demanding partial materialization of commitments from friendly countries before SLA could be signed. Moreover, the government is contemplating another fuel subsidy without consulting IMF, creating further uncertainty on program resumption. On the political front, negating Supreme Court (SC) decision, the Election Commission (ECP) postponed Punjab and KPK elections from April to October. Further, the government passed a bill to curb Chief Justice's suo moto powers. In a latest development, the SC ruled that ECP's decision to postpone polls was unconstitutional and fixed May 14 as the date for polls. We believe the aforesaid macroeconomic concerns are balanced against ultra-cheap valuations. To highlight, market's forward P/E of 3.2x is at a steep 62% discount to the 10yr average. However, in the short-term, the market will take direction from any progress on stalled IMF program and clarity on political situation.

5.1.1 The Finance Act, 2014 introduced amendments to the Income Tax Ordinance, 2001 as a result of which companies are liable to withhold five percent of the bonus shares to be issued. The shares so withheld shall only be released if the Fund deposits tax equivalent to five percent of the value of the bonus shares issued to the Fund including the bonus shares withheld, determined on the basis of day-end price on the first day of closure of books of the issuing company.

In this regard, a constitutional petition has been filed by Collective Investment Schemes (CISs) through their Trustees in the Sindh High Court, challenging the applicability of withholding tax provisions on bonus shares received by CISs. The petition was based on the fact that because CISs are exempt from deduction of income tax under Clause 99 Part I to the Second Schedule to the Income Tax Ordinance, 2001, the withholding tax provision should also not be applicable on bonus shares received by CISs. A stay order had been granted by the Sindh High Court in favour of CISs.

During the year ended June 30, 2018, the Supreme Court of Pakistan (SCP) passed a judgment on June 27, 2018 whereby the suits which are already pending or shall be filed in future must only be continued / entertained on the condition that a minimum of 50 percent of the tax calculated by the tax authorities is deposited with the authorities. Accordingly, CISs were required to pay minimum 50% of the tax calculated by the tax authorities for the case to remain continued. The CISs failed to deposit the minimum 50% of the tax liability and accordingly the stay got vacated automatically in 2019. During the year ended June 30, 2020, CISs filed a fresh constitutional petition vide CP 4653 dated July 11, 2019. In this regard, on July 15, 2019, the Sindh High Court issued notices to the relevant parties and ordered that no third party interest on bonus shares, issued to the Funds in lieu of their investments, be created in the meantime. The matter is still pending adjudication and the Fund has included these shares in its portfolio, as the management is confident that the decision of the constitutional petition will be in favour of the CISs.

Further, the Finance Act, 2018 effective from July 1, 2018 has omitted Section 236M of Income Tax Ordinance, 2001 requiring every company quoted on stock exchange issuing bonus shares to the shareholders of the company, to withhold five percent of the bonus shares to be issued. Therefore, bonus shares issued to the Fund during the period were not withheld by the investee companies.

12.1 According to the instructions of the Shariah Advisory Board of the Fund, any income earned by the Fund from investments / portion of investments made in non-shariah compliant avenues should be donated for charitable purposes directly by the Fund. An amount of Rs. 1.17 million (March 31, 2022: 2.818) has been recognised by the Fund as charity expense in these condensed interim financial statements. The dividend income is recorded net of amount given in charity.

12.2 The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration and sales load were already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan (SCP) which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 1, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 4.56 million (June 30, 2022: Rs 4.56 million) is being retained in these condensed interim financial statements of the Fund as the matter is pending before the SCP. Had the provision for FED not been made, the Net Asset Value of the Fund as at March 31, 2023 would have been higher by Re 0.5336 per unit (June 30, 2022: Re 0.3423 per unit).

13 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments as at March 31, 2023 and as at June 30, 2022.

14 TAXATION

The income of the Fund is exempt from tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of income earned by the Fund for the year ending June 30, 2023 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

15 EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as, in the opinion of the Management Company, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

16 TOTAL EXPENSE RATIO

The annualised total expense ratio (TER) of the Fund as at March 31, 2023 based on the current period results is 2.78% (March 31, 2022: 3.71%) which includes 0.24% (March 31, 2022: 0.32%) representing government levies on the Fund such as sales taxes, annual fee to the SECP etc. This ratio is within the maximum limit of 3.7% as prescribed under the NBFC Regulations for a collective investment scheme categorised as an 'Asset Allocation Scheme'.

18 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

18.1 Fair value hierarchy

International Financial Reporting Standard (IFRS) 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2023 and June 30, 2022, the Fund held the following financial instruments measured at fair value:

16. FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

16.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

12.2 This includes provision for Federal Excise Duty (FED) as at March 31, 2023 amounting to Rs. 7.812 million (June 30, 2022: Rs. 7.812 million). There is no change in the status of the legal proceeding on this matter, which has been fully disclosed in note 12.1 to the annual audited financial statements of the Fund for the year ended June 30, 2022. Had the provision not been maintained, the net assets value per unit would have been higher by Re. 0.11 (June 30, 2022: Re. 0.13).

12.2 As a consequence of the 18th amendment to the Constitution of Pakistan, in May 2015 the Sindh Workers' Welfare Fund Act, 2014 (SWWF Act) had been passed by the Government of Sindh as a result of which every industrial establishment located in the Province of Sindh, the total income of which in any accounting year is not less than Rs 0.50 million, is required to pay Sindh Workers' Welfare Fund (SWWF) in respect of that year a sum equal to two percent of such income. The matter was taken up by the Mutual Funds Association of Pakistan (MUFAP) with the Sindh Revenue Board (SRB) collectively on behalf of various asset management companies and their CISs whereby it was contested that mutual funds should be excluded from the ambit of SWWF Act as these were not industrial establishments but were pass-through investment vehicles and did not employ workers. The MUFAP had taken up the matter with the Sindh Finance Ministry to have CISs / mutual funds excluded from the applicability of SWWF. In view of the above developments and based on the legal opinion obtained by MUFAP, regarding the applicability of SWWF on CISs / mutual funds, MUFAP had recommended that as a matter of abundant caution provision in respect of SWWF should be made on a prudent basis with effect from the date of enactment of the Sindh WWF Act, 2014 (i.e. starting from May 21, 2015). The Funds have accordingly made provision in respect of SWWF as recommended by MUFAP.

12.3 During the period, SRB through its letter dated August 12, 2021 has intimated MUFAP that the mutual funds do not qualify as Financial Institutions / Industrial Establishments and are therefore, not liable to pay the SWWF contributions. This development was discussed at MUFAP level and has also been taken up with the SECP and all the Asset Management Companies, in consultation with SECP, have reversed the cumulative provision for SWWF recognised in the financial statements of the Fund amounting to Rs. 44.896 million, for the period from May 21, 2015 to August 12, 2021, on August 13, 2021. The SECP has given its concurrence for prospective reversal of provision for SWWF. Accordingly, going forward, no provision for SWWF would be recognised in the financial statements of the Fund.

13 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at March 31, 2023 or June 30, 2022.

14 TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2022 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

15 EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as, in the opinion of the Management Company, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

16 TOTAL EXPENSE RATIO

The annualised total expense ratio (TER) of the Fund based on the current period results is 0.75% (March 31, 2022: 0.82%) which includes 0.10% (March 31, 2022: 0.08%) representing Government Levy and the SECP fee. This ratio is within the maximum limit of 2% prescribed under the NBFC Regulations for a collective investment scheme categorised as a money market scheme.

21 FAIR VALUE OF FINANCIAL INSTRUMENTS

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying value and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

21.1 Fair value hierarchy

International Financial Reporting Standard (IFRS) 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2023 and June 30, 2022, the Fund held the following financial instruments measured at fair value:

* The carrying value of these securities approximate their fair value since these are short term in nature and are placed with counter parties which have high credit ratings.

** The valuation of commercial papers and Bai Muajjal receivable has been done based on amortised cost to their face value as per the guidelines given in Circular 33 of 2012 since the residual maturities of these investments are less than six months and these are placed with counterparties which have high credit rating.

15 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

15.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at the reporting date, the Fund held the following financial instruments measured at fair value:

2 BASIS OF PREPARATION

2.1 Statement of compliance

- 2.1.1** These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan for interim financial reporting. The accounting and reporting standards applicable in Pakistan for interim financial reporting comprise of:

- International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;

Where provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the requirements of the Trust Deed differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and the requirements of the Trust Deed have been followed.

- 2.1.2** The disclosures made in these condensed interim financial statements have, however, been limited based on the requirements of the International Accounting Standard 34: 'Interim Financial Reporting'. These condensed interim financial statements do not include all the information and disclosures required in a full set of financial statements and should be read in conjunction with the annual audited financial statements of the Fund for the year ended June 30, 2021.

3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, ACCOUNTING ESTIMATES AND RISK MANAGEMENT POLICIES

3.1 The accounting policies applied and the methods of computation of balances used in the preparation of these condensed interim financial statements are the same as those applied in the preparation of the annual financial statements of the Fund for the year ended June 30, 2022.

3.2 The preparation of these condensed interim financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires management to make estimates, assumptions and use judgments that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. Estimates, assumptions and judgments are continually evaluated and are based on historical experience and other factors, including reasonable expectations of future events. Revisions to accounting estimates are recognised prospectively commencing from the period of revision. In preparing these condensed interim financial statements, the significant judgments made by the management in applying the Fund's accounting policies and the key sources of estimation and uncertainty were the same as those applied to the financial statements as at and for the year ended June 30, 2022. The Fund's financial risk management objectives and policies are consistent with those disclosed in the financial statements of the Fund for the year ended June 30, 2022.

3.3 Standards, interpretations and amendments to the published accounting and reporting standards that are effective in the current period

There are certain amendments to the published accounting and reporting standards that are mandatory for the Fund's annual accounting period beginning on July 1, 2022. However, these do not have any significant impact on the Fund's operations and, therefore, have not been detailed in these condensed interim financial statements.

During the current period and previous period, prior to receiving tax exemption certificate(s) from CIR, withholding agent had deducted advance tax under section 150 and 151 of the ITO, 2001. Management is confident that the same shall be refunded to the fund.

12.1 The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration and sales load were already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan (SCP) which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 1, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs.16.613 million (June 30, 2022: Rs. 16.613 million) is being retained in these condensed interim financial statements of the Fund as the matter is pending before the SCP. Had the provision for FED not been made, the Net Asset Value of the Fund as at March 31, 2023 would have been higher by Re. 0.8505 per unit (June 30, 2022: Re. 0.5645 per unit).

13 CONTINGENCIES AND COMMITMENTS

There were no contingencies and commitments outstanding as at March 31, 2023 and June 30, 2022.

14 TOTAL EXPENSE RATIO

The annualised total expense ratio (TER) of the Fund based on the current period results is 1.77% (March 31, 2022: 1.71%) which includes 0.16% (March 31, 2022: 0.16%) representing government levies such as sales tax, Sindh Workers' Welfare Fund and annual fee payable to the SECP. This ratio is within the maximum limit of 2.5% (March 31, 2022: 2.5%) prescribed under the NBFC Regulations for a collective investment scheme categorised as an "income scheme".

15 TAXATION

The income of the Fund is exempt from tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of Fund's net accounting income for the year ending June 30, 2023 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

16 EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed in these condensed interim financial statements as, in the opinion of the Management Company, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

19 FAIR VALUE MEASUREMENT

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Consequently, differences can arise between carrying values and the fair value estimates.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

19.1 Fair value hierarchy

International Financial Reporting Standard 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2023 and June 30, 2022, the Fund held the following financial instruments measured at fair value:

- 5.3** Investments include 238,634 shares (June 30, 2022: 238,634 shares) of Lucky Cement Limited having market value of Rs. 90.036 million (June 30, 2022: Rs. 109.543 million) as at March 31, 2023, which have been pledged with National Clearing Company of Pakistan Limited for guaranteeing settlement of the Fund's trades in accordance with Circular No. 11 dated October 23, 2007 issued by the SECP.

The Finance Act, 2014 introduced amendments to the Income Tax Ordinance 2001 as a result of which companies were liable to withhold five percent of the bonus shares to be issued. The shares so withheld were only to be released if the Fund deposits tax equivalent to five percent of the value of the bonus shares issued to the Fund including bonus shares withheld, determined on the basis of day-end price on the first day of closure of books of the issuing company.

In this regard, a constitutional petition had been filed by Collective Investment Schemes (CISs) through their Trustees in the High Court of Sindh, challenging the applicability of withholding tax provisions on bonus shares received by CISs. The petition was based on the fact that because CISs are exempt from deduction of income tax under Clause 99 Part I to the Second Schedule of the Income Tax Ordinance 2001, the withholding tax provision should also not be applicable on bonus shares received by CISs. A stay order had been granted by the Honourable High Court of Sindh in favour of CISs.

During the year ended June 30, 2018, the Supreme Court of Pakistan passed a judgement on June 27, 2018 whereby the suits which are already pending or shall be filed in future must only be continued / entertained on the condition that a minimum of 50 percent of the tax calculated by the tax authorities is deposited with the authorities. Accordingly, the CISs were required to pay minimum 50% of the tax calculated by the tax authorities for the case to remain continued. The CISs failed to deposit the minimum 50% of the tax liability and accordingly the stay got vacated automatically during the year ended June 30, 2019. During the year ended June 30, 2020, the CISs had filed a fresh constitutional petition via CP 4653 dated July 11, 2019. In this regard, on July 15, 2019, the Honourable High Court of Sindh had issued notices to the relevant parties and had ordered that no third party interest on bonus shares issued to the Funds in lieu of their investments be created in the meantime. The matter is still pending adjudication and the Funds have included these shares in their portfolio, as the management is confident that the decision of the constitutional petition will be in favour of the CISs.

Further, the Finance Act, 2018 effective from July 1, 2018 has omitted Section 236M of Income Tax Ordinance, 2001 requiring every company quoted on stock exchange issuing bonus shares to the shareholders of the company, to withhold five percent of the bonus shares to be issued. Therefore, bonus shares issued to the Fund during the period were not withheld by the investee companies.

Below are the details of such shares as at March 31, 2023:

As per clause 47(B) of part IV of the Second Schedule to the Income Tax Ordinance, 2001, payments made to collective investment schemes (CISs) are exempt from withholding tax under section 150 and 151. However, withholding tax on profit on savings accounts and dividend paid to the Fund has been deducted by various withholding agents based on the interpretation issued by FBR vide its letter C. no.1(43) DG (WHT)/2008-Vol.II-66417-R dated May 12, 2015 which requires every withholding agent to withhold income tax at applicable rates in case a valid exemption certificate under section 159(1) issued by the concerned Commissioner of Inland Revenue (CIR) is not produced before him by the withholder. The tax withheld on profit on savings accounts and dividend amounts to Rs. 4.305million (June 30, 2022: Rs. 4.305 million).				
For this purpose, the Mutual Funds Association of Pakistan (MUFAP) on behalf of various mutual funds (including the Funds being managed by the Management Company) had filed a petition in the Sindh High Court (SHC) challenging the above mentioned interpretation of the Federal Board of Revenue (FBR) which was decided by the SHC in favour of FBR. A petition was filed in the Supreme Court of Pakistan (SCP) by the Funds together with other CISs (managed by the Management Company and other Asset Management Companies) whereby the SCP granted the petitioners leave to appeal from the initial judgment of the SHC. Pending resolution of the matter, the amount of withholding tax deducted on profit on savings accounts and dividend has been shown as advance tax under assets as at March 31, 2023 as, in the opinion of the management, the amount of tax deducted at source is likely to be refunded.

12.1 According to the instructions of the Shariah Advisory Board of the Fund, any income earned by the Fund from investments / portion of investments made in non-shariah compliant avenues should be donated for charitable purposes directly by the Fund. An amount of Rs. 16.12 million (June 30, 2022: Rs. 25.13 million) has been recognised by the Fund as charity expense in these condensed interim financial statements. The dividend income is recorded net of amount given in charity.

12.2 The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from June 13, 2013. The Management Company was of the view that since the remuneration and sales load were already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on September 4, 2013, a constitutional petition was filed with the Honourable Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from July 1, 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended June 30, 2017, SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan (SCP) which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from July 1, 2016. However, as a matter of abundant caution the provision for FED made for the period from June 13, 2013 till June 30, 2016 amounting to Rs 54.504 million (June 30, 2022: Rs 54.504 million) is being retained in these condensed interim financial statements of the Fund as the matter is pending before the SCP. Had the provision for FED not been made, the Net Asset Value of the Fund as at March 31, 2023 would have been higher by Rs 1.33 per unit (June 30, 2022: Re 1.044 per unit).

13 CONTINGENCIES

ACIR issued demand notice along with an Order u/s 122(1) dated October 29, 2021 to pay tax liability of Rs 11.052 million for Tax Year 2016, on account of Super Tax. As per assessing officer, Fund's income for TY 2016 is more than Rs. 500 million and thereby liable to pay Super tax. The Fund has filed an Appeal before the CIR-A to vacate the Order or any other relief deemed

14 TAXATION

The income of the Fund is exempt from tax under clause (99) of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90 percent of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per regulation 63 of the NBFC Regulations, the Fund is required to distribute not less than 90 percent of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management intends to distribute the required minimum percentage of income earned by the Fund for the year ending June 30, 2022 to the unit holders in the manner as explained above, no provision for taxation has been made in these condensed interim financial statements.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

15 EARNINGS PER UNIT

16 TOTAL EXPENSE RATIO

The total expense ratio (TER) of the Fund based on the current period results is 3.47% (March 31, 2022: 3.47%) which includes 0.31% (March 31, 2022: 0.31%) representing government levy and the SECP fee. The prescribed limit for the ratio is 4.5% (March 31, 2022: 4.5%) excluding government levies under the NBFC Regulations for a collective investment scheme categorised as a equity scheme.

FAIR VALUE OF FINANCIAL INSTRUMENTS

18

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Fund is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

Financial assets which are tradeable in an open market are revalued at market prices prevailing on the statement of assets and liabilities date. The estimated fair value of all other financial assets and liabilities is considered not to be significantly different from the respective book values.

18.1 Fair value hierarchy

International Financial Reporting Standard (IFRS) 13, 'Fair Value Measurement' requires the Fund to classify assets using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2: inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3: inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

As at March 31, 2023 and June 30, 2022, the Fund held the following financial instruments measured at fair value:
