COMPANY PROFILE

Mughal Iron & Steel Industries Limited ("Mughal Steel") was incorporated in 2010 as a public limited company. The Company took over the running business of a partnership concern by the name of "Mughal Steel" which had been in the steel business for over 50 years and was being run by the major sponsors of the Company. Today, the Company is one of the leading companies involved in both ferrous and non-ferrous operations in Pakistan. At Mughal Steel we work with passion and expertise to develop high-quality diversified portfolio of quality products. This means we create value for our customers and can successfully exploit the diverse opportunities in the markets of the future. Depth of technical and managerial expertise, reputation for reliability and a sharply defined business focus, has forged the organization into a modern, highly competitive supplier of quality products. The Company's ability to generate profits throughout the fluctuations of various economic and business cycles is testimony to the strategic initiatives to continuously reinvest, modernize and diversify.

The management team is being led by Mr. Khurram Javaid, Director and CEO.

The Company's main product range comprises of the following products:

- Steel re-bars (G60 / Mughal Supreme)
- Girders
- Billets
- Copper ingots

DIRECTORS' REVIEW

Dear valued shareholders,

On behalf of the Board of Directors of MUGHAL IRON & STEEL INDUSTRIES LIMITED, we are pleased to present the un-audited condensed interim financial statements of the Company for the nine months period ended March 31, 2023, the financial results of which are summarized below:

			(Rs. in Millions)
	Nine months Marcl	Variation %	
Financial highlights	2023	2022	
Sales - net	48,479.316	47,221.428	2.66%
Gross profit	6,614.322	7,504.943	(11.87%)
Profit before taxation	2,979.637	4,741.991	(37.16%)
Taxation	(332.138)	(371.988)	(10.71%)
Profit for the period	2,647.499	4,370.002	(39.42%)
Earnings per share – Basic & Diluted	7.89	13.02	(39.42%)

Business, financial & operational Review

During the period, political tensions, floods, rains, current account deficit, depreciating currency, struggling foreign exchange reserves and import restrictions, rising inflation, high discount rates and increase in energy cost, impacted the overall performance of the Company. Amidst the prevailing adversities, despite the fact, that there was decline in volumes as compared to corresponding nine months period and overall gross margins also witnessed decline as compared to the corresponding nine months period both within the ferrous and non-ferrous segments, the Company managed to register its highest topline in absolute terms, and reported highest ever EBITDA of Rs. 6,220.515 million as compared to Rs. 6,176.110 million in corresponding nine months period. Export commission decreased since entire exports was to existing parties.

Sales and marketing expenses decreased by 28.62% mainly on account of reduction in advertisement expenses. Rs. 65.604 million was recorded on account of allowance for expected credit losses in respect of trade debts. Other charges decreased by 19.04% mainly due to decrease in provision for workers profit participation fund and workers welfare fund. Other income increased by 62.038% mainly on account of increase in foreign exchange gains in respect of exports. Finance cost increased significantly by 64.36% mainly due to significant hike in base discount rate. Resultantly, the Company posted profit for the period amounting to Rs. 2,647.499 million as compared to Rs. 4,370.002 million in corresponding period resulting in decrease of Rs. 1,722.503 million. Earnings per share (EPS) for the current period stood at Rs. 7.89 as compared to EPS of Rs. 13.02 in the corresponding period.

Additions in property, plant and equipment mainly represented additions in capital work-in-progress relating to installation of induction furnaces and non-ferrous expansion. Cash and bank balances decreased by 37.73%. mainly due to utilization of funds reserved for repayment of Islamic Commercial Paper (ICP). Accrued profit / interest / mark-up increased mainly due to increase in base rate by SBP. Trade debts increased significantly by 55.83% mainly due to increase sale rates and temporary increase in credit days in the quarter. Loans and advances increased mainly on account of advances to local raw material suppliers. Resultantly, the statement of financial position footing stood at Rs. 55,378.178 million as of March 31, 2023, compared to Rs. 53,085.460 million as of June 30, 2022. Breakup value per share increased to 69.58 as of March 31, 2023 from Rs 62.11 as at June 30, 2022.

Current ratio as at March 31, 2023 stood at 1.53:1 as compared to 1.45:1 as at June 30, 2022.

Future outlook

Going forward, the impact of curtail on imports and increase in base discount rate will continue to impact the performance of the Company. It is expected that increase in construction activities, post floods will improve demand for long-rolled products, but this will again be dependent upon raw-material imports. In-addition the non-ferrous expansion is expected to come online in June quarter 2023.

Acknowledgement

The Board remains committed to provide sustained returns to our shareholders, in addition to maintaining our reputation for good governance. Lastly, we would like to thank all stakeholders for their patronage and look forward to their continued support.

For and on behalf of the Board of Directors

Mirza Javed Iqbal (Chairman of the Board)

Khurram Javaid (CEO/Director)

Management has assessed the changes laid down by the amendments / interpretations that became effective during the period and determined that they do not have any significant impact on these condensed interim financial statements.

Taxes on income in the interim periods are accrued using tax rate that would be applicable to expected annual profit or loss. Actuarial valuations are carried out on annual basis. The last actuarial valuation was carried out on June 30, 2022. The impact of remeasurement of retirement benefit plan has not been incorporated in the condensed interim financial statements.

5. CRITICAL ACCOUNTING ESTIMATES & JUDGEMENTS

The preparation of condensed interim financial statements in conformity with the approved accounting standards requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates. In preparing these condensed interim financial statements, the significant judgements made by management in applying the Company's accounting policies and key sources of estimation of uncertainty were the same as those applied to the annual audited financial statements of the Company for the year ended June 30, 2022, except as disclosed otherwise in respective notes.

17. FINANCIAL RISK MANAGEMENT

These condensed interim financial statements do not include all financial risk management information and disclosures, which are required in the annual financial statements and should be read in conjunction with the Company's annual financial statements for the year ended June 30, 2022. There has been no change in any risk management policies since the year end.

18. FAIR VALUE DISCLOSURES

Except for long-term loans to employees, long-term deposits and long-term loans under SBP refinance schemes, the fair value of financial assets and financial liabilities recognized in these condensed interim financial statements equals the transaction price at initial recognition. The fair value of the long-term loans under SBP refinance schemes has been determined using discounting techniques. However, due to immaterial effect and impracticalities, the fair value of long-term loans to employees and long-term deposits has not been determined and their carrying value has been assumed to be equal to their fair value. Accordingly, the carrying amount of financial assets and financial liabilities recognized in these condensed interim financial statements approximate their respective fair values and there were no transfers amongst level of fair value analysis of financial assets during the period.

Information about the fair value hierarchy of items of property, plant and equipment as at the end of the reporting period are as follows:

Rupees	Note	Level 1	Level 2	Level 3	Fair value as at March 31, 2023	Fair value as at June 30, 2022
Property, plant and equi	ipment:				(Unaudited)	(Audited)

		-	13,189,531,511	254,446,335	13,443,977,846	13,641,634,978

The above table shows assets recognized at fair value, analyzed between those whose fair value is based on:

- Level 1: quoted prices in active markets for identical assets or liabilities;

- Level 2: those involving Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either

directly (as prices) or indirectly (derived from prices); and

- Level 3: Inputs for the asset or liability that are not based on observable market data.
