The General Manager,
Pakistan Stock Exchange Limited,
Stock Exchange Building,
Stock Exchange Road,
Karachi.

Dear Sir,

DISCLOSURE OF MATERIAL INFORMATION

As required under clause No. 5.6.1 of the Rule Book of Pakistan Stock Exchange (PSX) and sections 96 and 131 of the Securities Act, 2015 read with Notification SRO. No. 143(I)/2012, we wish to inform you that High Speed Diesel (HSD) upliftment by OMCs from ARL has remained low during the last two months due to multiple reasons including the possible inflow of smuggled product in our supply envelope.

Presently, HSD stocks in the refinery have reached to a high level with very little/no ullage in storage tanks. Consequently, we are left with no option except to go for shut down of our main distillation unit of 32,400 BPD to manage the critically high HSD stocks and carry out essential maintenance including that of allied downstream units for a period of five (5) days.

The refinery will partially operate at around 25% capacity during the said period. However, adequate inventories of products are available to meet the current requirements. This has been intimated to the Ministry of Energy (Petroleum Division) and Oil & Gas Regulatory Authority (OGRA) accordingly.

The Disclosure Form as prescribed under Notification SRO. No. 143(I)/2012 is enclosed herewith as **Annexure - A.**

You are requested to disseminate the information to the TRE Certificate Holders of the Exchange accordingly.

Yours truly,

**For and on behalf of
ATTOCK REFINERY LIMITED**
