Tons of sugar at the recovery rate of 10.263% as compared with 61,785.000 M. Tons of sugar produced at the recovery rate of 10.635% in the previous crushing period. Crushing & Production is low due to low recovery & low crop of sugar cane.

This season is also started with carry forward stock of sugar in your Company as well as in the Country. Due to low cane, crushing was delayed by 10 to 15 days in the Province of Sindh.

Financial Results

The key financial figures of the financial results of the Company for the nine months period ended June 30, 2023 along with the comparatives for the corresponding period are summarized as under:

	Oct. Jun. 2023 (Rupe	Oct. Jun. 2022 es '000)
(Loss) / Profit before taxation	(81,266)	164,529
Taxation	23,724	(91,969)
(Loss) / Profit after taxation	(104,990)	72,560
(Loss) / Earning per share basic and diluted (Rupees)	(8.79)	6.07

Review of Financial Results

During the period, the Company has incurred loss before taxation amounted to Rs. 81,266 thousand compared with profit before taxation amounted to Rs. 164,529 thousand mainly due to the fact that the Company manufactured the lower quantity of sugar as compared with the corresponding period and significantly enhanced procurement cost of sugarcane together with increasing other overhead expenses, mismatching prices of sugar and carry over stock of sugar as compared with the corresponding period were the main factors that had directly affected the financial results of the Company for the nine months period ended June 30, 2023. Further, increase in Monetary Policy Rate by the State Bank of Pakistan, as compared to the corresponding period, has adversely affected the financial results through high finance cost on borrowings.

However, export of some sugar through export quota approved by the Government has benefited the Company to some extent which resulted in the profit before and after tax for the third quarter results.

The Government has continued the long debated 'mismatch' in the policy while fixing the minimum price of sugarcane whereas adopting a free market policy with regard to price of sugar. This is evident from the fact that though prices of sugar crashed, the Government enhanced the price of sugarcane and Government of Sindh has announced the minimum price of cane at Rs. 302 per 40 k.g. which affected the cost of production.

Sale of by-products i.e. molasses & baggasse has considerably contributed in lowering the cost of production of the Company despite decrease in quantity.

Future Prospects

The Company has paid prices of sugarcane to cane growers above the minimum prices while compared with minimum price announced by the Government of Sindh, which results in an increase in the overall cost of production. The rising trend of procurement cost of sugarcane along with increasing other overhead expenses, mismatching sale prices of sugar with its cost of production and other unpredictable circumstances prevailing in the sugar industry might affect the profitability of the Company in the future.

Subsequent to the period end, the Government has allowed the Company and other sugar mills to export some more sugar which will give benefits to the Company, industry and economy of the Country, as a whole.

As reported previously, the matter related to the subsidy receivable from the Provincial Government, the Honorable High Court of Sindh passed the judgment/order in favor of the Company and the petitions stand disposed off with the directions to the Finance Department, Government of Sindh to re-allocate funds in the forthcoming budget and make payment to Sugar Mills within the first quarter of forthcoming Financial Year (by September 2023) and this decision will give benefit of positive cash flows to the Company.

Acknowledgement

Your Directors place on record their appreciation for devotion of duty, loyalty and hard work of the executives, officers, staff members and workers for smooth running of the Company's affairs and hope that they will continue for enhancement of productivity with great zeal and spirit under the blessings of Almighty Allah.

The Directors would like to thank all the government functionaries, banking and non-banking financial institutions, suppliers and shareholders for their continued support and cooperation for the betterment and prosperity of the Company.

16 FINANCIAL RISK MANAGEMENT / FAIR VALUES / MEASUREMENT

These condensed interim financial statements do not include all financial risk management information and disclosures which are required in the annual financial statements and should be read in conjunction with the Company's annual financial statements for the year ended September 30, 2022. There have been no significant changes in any risk management policies since the year end.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

A number of the Company's accounting policies and disclosure require the measurement of fair values, for both financial, if any and non-financial assets and liabilities. When measuring the fair value of an asset or a liability, the Company uses valuation techniques that are appropriate in the circumstances and uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Financial assets and liabilities of the Company are either short term in nature or are repriced periodically therefore; their carrying amounts approximate their fair values.

----- IMPORTANT NOTICE -----

IMPLEMENTATION OF SECTION 72 OF THE COMPANIES ACT, 2017

CONVERSION OF PHYSICAL SHARES INTO BOOK-ENTRY FORM

Section 72 of the Companies Act, 2017 (the "Act") requires every company having share capital to have its shares in book-entry form only, from the date notified by the Securities & Exchange Commission of Pakistan (the Commission). Further, every existing company is required to replace its physical shares with book-entry form. A period of four years is specified in the Act for implementation of this provision and the deadline will end on May 30, 2021. Section 72 is reproduced below for ready reference:

"72. Issuance of shares in book-entry form.(1) After the commencement of this Act from a date notified by the Commission, a company having share capital, shall have shares in book-entry form only.

(2) Every existing company shall be required to replace its physical shares with book-entry form in a manner as may be specified and from the date notified by the Commission, within a period not exceeding four years from the commencement of this Act:

Provided that the Commission may notify different dates for different classes of companies:

Provided further that the Commission may, if it deems appropriate, extend the period for another two years besides the period stated herein.

(3) Nothing contained in this section shall apply to the shares of such companies or class of companies as may be notified by the Commission."

Furthermore, Regulation 17 of the Companies (General Provisions and Forms) Regulations, 2018 states as under:-

"17. Issuance of shares in book-entry form. Subsequent to the notification under section 72 of the Act, all companies required to replace its physical shares with book-entry form shall apply to a Central Depository in terms of the relevant Regulations for declaration of company's shares as eligible securities and comply with the requirements of the Central Depository for issuance of shares in book entry form."

In view of the above-mentioned requirements of the Act and as a step further towards digitization, the Securities and Exchange Commission of Pakistan (SECP) is considering to make it obligatory for all public listed, public unlisted, public interest and private limited companies to have their shares in book-entry form in compliance with Section 72 of the Companies Act, 2017. Shares held in book-entry form shall have the same rights and privileges as shares held in physical certificate form. However, rights and privileges of shares held in physical form may be restricted at a future date due to non-compliance with the provision of section 72 of the Companies Act, 2017. Once notified, all companies required to replace their physical shares with book-entry form shall apply to a central depository licensed by the SECP for conversion of existing physical shares and further issuance of shares in the book entry form. The central depository shall prescribe procedures for such conversion and issuance of shares including documentation required, process to be followed and applicable fee and charges.

Further, the conversion of shares into book-entry form will make the process of share handling more efficient, risk free and would help to minimize shareholding disputes. Handling of shares in case of corporate actions i.e. issue of bonus/right shares and transfer or selling of shares would be much easier, if shares are converted into book-entry form. Book entry securities can be pledged to a bank to obtain financing against them. Furthermore, it would help to reduce the risks and costs associated with storing of physical share certificates, which are susceptible to be lost, stolen and /or damaged and conversion of shares would help to avoid such problems.

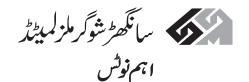

Therefore, it is requested to all the Shareholders (who have shares in physical form) of Sanghar Sugar Mills Limited to convert their physical shares in to bookentry form, on immediate basis. Otherwise, the Shareholders (who have shares in physical form) and the Company would be unable to comply with the requirement of the Commission as mentioned above.
