DIRECTORS' REVIEW

Dear Shareholders

The Directors present the unaudited condensed interim unconsolidated financial statements for the third quarter and nine months ended September 30, 2023.

Economy:

Pakistan's economy weathered a very difficult fiscal year in recent times and a series of economic shocks; historic high inflation, a highly contractionary monetary policy, depleting reserves, surging commodity prices and import rationing. Turning to current fiscal year, the economy has started showing signs of recovery post approval of 'Stand-By Arrangement' with the IMF in July 2023 that helped avert a balance of payments crisis and unlock external funding prospects. The upturn in global economy coupled with marginal easing of import restrictions is mitigating supply side disruptions and supporting export-oriented industries. The better input situation is also paving the way for LSM growth prospects. The major recovery in cotton crop is encouraging for the agriculture sector and for the export outlook.

CPI inflation recorded at 31.4 percent year-on-year in September is showing a 2.0 percent increase over the previous month. Major drivers contributing to this rise are food and energy prices. Overall, the average CPI inflation for the current nine months at 31.7 percent compares with 18.0 percent for the corresponding period last year. The inflation will likely maintain a downward trajectory owing to easing of supply constraints from better agriculture output, rupee appreciation and commodity prices, amid high base effect. The Monetary Policy Committee of the SBP maintained Policy Rate at 22 percent during the meeting held in September.

On the external front, recent data reflects improvement in trade deficit that declined by 12.6 percent in the month of August 2023. Remittances also recorded an increase of 3.2 percent in August. The administrative measures to discipline foreign exchange market have yielded results and will further support remittances, trade and the current account balance. SBP has also implemented measures to stabilize PKR including structural reforms aimed at regulating exchange companies and curbing the dollar's ascent. Pakistan's main export markets are showing rising trends that improves export growth prospects. However, as imports increase gradually to stimulate economic activity, it is expected that the current account will remain within a sustainable limit.

Looking ahead, Pakistan's GDP growth is expected to remain below potential in short to medium term as recent indicators remain fragile due to persistent core inflation, elevated interest rates and lingering geopolitical uncertainties. The economic managers have implemented certain prior actions in pursuit of the IMF-SBA and have a tough agenda on hand to comply with program conditionalities including much needed energy reforms, improved governance in SOEs and widening of tax base. Improvement in investments and exports, careful economic management - including exchange rate flexibility, fiscal restraint remains key

imperatives for macroeconomic stability, it is expected that the economic revival plans and prudent actions – policies including Special Investment Facilitation Council (SIFC) and Information Technology policy, will attract new investments to create a multiplier effect for a higher and inclusive economic growth in coming periods.

Financial Performance:

The financial results of the Bank for the quarter and nine months ended September 30, 2023 reflect continued growth momentum in line with the Bank's strategy, summarized as under:

	(Rupees in million)		
	Nine months ended	September 30,	
	2023	2022	
Net mark-up and non fund income	50,418	38,128	
Administrative and other expenses	(21,355)	(16,896)	
Operating profit	29,063	21,232	
Provisions and write offs - net	(690)	(181)	
Profit before taxation	28,373	21,051	
Taxation	(13,809)	(10,302)	
Profit after taxation	14,564	10,749	
		Restated	
Basic earning per share - Rupees	10.05	7.42	

Profit before taxation for the current nine months at Rs.28.4 billion is showing a growth of 35 percent year-on-year while profit after taxation grew by 35 percent. The earnings per share at Rs.10.05 for the current period compares with Rs.7.42 (restated) for last year.

Askari Bank's revenues increased by 32 percent over the same period last year. Key contribution was from mark-up income which grew by 39 percent and stood at Rs.40.5 billion. The increase in mark-up income was mainly driven by a combination of earning assets growth and favourable repricing of asset book. Aggregate non-markup income increased by 10 percent year-on-year; fee and commission income increased by 37 percent contributed by increase in trade, guarantee and credit related fees while foreign exchange income declined by 18 percent due to lesser market volatility. Operating expenses for the current nine months increased by 27 percent over the corresponding period mainly due to the effect of inflation and Rupee devaluation, and also due to additional costs of 37 new branches added to the nation-wide network during the last twelve months. The Bank continues to manage costs prudently while investing in technologies and infrastructure to support revenue streams. The operating expense to income ratio improved to 41 percent for the current nine months from 43 percent for the same period last year.

The Bank's deposits closed at Rs.1.28 trillion at September 30, 2023, with a year-on-year growth of 12 percent. Current and saving accounts recorded a growth of 14 percent, contributing 82 percent of the total deposit at period end. Gross advances registered a decline

of 10 percent from Rs. 615 billion at year end 2022 to Rs 556 billion at September 30, 2023 as the Bank strategized its sectoral exposures in view of rising borrowing costs to unprecedented levels. The economic stress on certain borrowers warranted classifications that resulted in a 5 percent increase in non-performing advances during the period in review. The increase in NPLs also caused slight erosion of coverage ratio from 99.9 to 96.6 percent at September 30, 2023.

The Bank's entity rating was reaffirmed at 'AA+' (Double A Plus) for the long-term by Pakistan Credit Rating Agency Limited (PACRA), with outlook assigned as 'Stable'. The Bank's strong brand and affiliation with Fauji Foundation are recognized as the key rating drivers, supported by Bank's experienced management team, prudent risk management policies, and deep-rooted relationship with clients. The short-term rating was maintained at 'A1+' (A One Plus).

Askari Bank is strategically positioned for sustainable growth and remains committed towards building long-term shareholder value, despite macroeconomic challenges. The Bank is focused on expanding its footprint, providing unparallel services to the customers and to grow market share in retail segment, particularly low-cost and saving deposits. Emphasis will remain on supporting trade volumes with primary focus on middle market segment while pursuing digital transformation and process improvements. To this end, the Bank will continue to invest in talent and technology enabling its teams to do more to help our customers achieve their ambitions and in-turn drive Askari Bank to grow in the future.

Acknowledgment:

On behalf of the Board, we would like to place on record our gratitude to our valued customers and shareholders for their continued patronage to the Askari brand; our profound thanks to the State Bank of Pakistan, Securities and Exchange Commission of Pakistan and other regulatory authorities for their guidance and assistance. We would also like to place on record our appreciation for the efforts of the Sharia Board for strengthening sharia compliance and governance framework for Askari Ikhlas Islamic Banking. Lastly, we express our deepest appreciation and gratitude to our staff for the hard work and dedication.

معلشت:

پاکستان کی معیشت کے لئے رواں مالی سال انتہائی مشکل رہا۔ جس میں معاشی اتار چڑھاؤ، بلندترین افراط زر، اس کے ساتھ ساتھ تحقیقی مانیٹری پالیسی، کم ہوتے ذخائر، اجناس کی قیمتوں میں اضافہ اور درآ مدات پر کنٹرول جیسے مسائل کا سامنا بھی رہا۔ رواں مالی سال کے دوران جولائی 2023 میں آئی ایم الیف کے ساتھ 'اسٹینڈ بائی انتظامات' کی منظوری کے بعد معیشت میں بحالی کے امکانات نظر آرہے ہیں۔ جس سے ادائیگیوں کے توازن کے بحران کورو کنے اور بیرونی فنڈنگ کے امکانات بڑھانے میں مدد ملی ہے۔ درآ مدی پابند یوں میں معمولی نرمی کے ساتھ ساتھ عالمی معیشت میں بہتری سپلائی سائیڈکی رکاوٹوں کو کم اور برآ مدی صنعتوں کی مدد کررہی ہے۔ مواقع کی بہتر صورتحال بھی ایل ایس ایم کی ترقی کے امکانات کی راہ ہموار کررہی ہے۔ کیاس کی فصل میں بڑی بحالی زرعی شعبے اور برآ مدی منظر نامے کے لئے حوصلہ افزا ہے۔

گزشته سال کی نسبت اس سال ماہ تمبر میں سی پی آئی افراط زر 1.4 فیصدر یکارڈ کیا گیا جوگزشته ماہ کے مقابلے میں 2.0 فیصداضا فی ظاہر کررہا ہے۔اس اضافے میں اہم کر دارا دا کرنے والے عوامل خوراک اور توانائی کی فیمتیں ہیں۔ مجموعی طور پر روال نو ماہی کے دوران اوسط سی پی آئی افراط زر 7.1 فیصدر ہا جوگزشته سال کی اسی مدت میں 18.0 فیصد تھا۔ بہتر زرعی پیداوار، روپے کی قدر میں اضافے اور اجناس کی قیمتوں میں بہتری کی وجہ سے افراط زر میں کی کا امکان ہے۔اسٹیٹ بینک کی مانیٹری پالیسی تمیٹی نے ستمبر میں جونے والے اجلاس کے دوران پالیسی ریٹ کو 22 فیصد پر برقر اررکھا تھا۔

حالیہ اعدادو شار میں بہتری کی وجہ اگست 2023 کے تجارتی خسارے میں 12.6 فیصد کی ہے۔ اگست کے مہینے میں ترسیلات زر میں 3.2 فیصد اضافہ دیکھا گیا۔ فارن ایکیچنئے مارکیٹ میں انتظامی بہتری کی وجہ سے ترسیلات زر، تجارت اور کرنٹ اکاؤنٹ بیلنس کومزید سہارا ملے گا۔ اسٹیٹ بینک نے بھی پاکستانی روپے کے استحکام کے لیے اقد امات کیے ہوئے ہیں ، جن میں ایکیچینئے کمپنیوں کوریگولیٹ کرنے اور ڈالر کی قدر میں اضافے کورو کئے کی مشحکم اصلاحات بھی شامل ہیں۔ پاکستان کی اہم برآ مدی منڈیوں میں بڑھتے ہوئے رجحانات نظر آ رہے ہیں جس سے برآ مدات میں اضافہ ہو، بیتو قع کی جاتی ہے کہ کرنٹ اکاؤنٹ ایک یائیدار حدکے اندررہے گا۔

پاکتان کی جی ڈی پی گروتھ مستقبل قریب میں موجودہ حالات کے پیش نظر کم رہنے کی توقع ہے جس کی وجہ بنیادی افراط زر میں مسلسل اضافہ، بندشر ح سوداور طویل جغرافیا کی سیاسی غیر نقینی صور تحال ہے۔ اقتصادی منیجرنے آئی ایم ایف – ایس بی اے عمطابق بچھ پیشگی اقدامات کیے ہیں اور پروگرام کی شرائط پڑمل کرنے کے لئے ایک سخت ایجبنڈ اتر تیب دیا ہے جس میں توانائی کی انتہائی ضروری اصلاحات، ایس اوا بی میں بہتر گورنس اور ٹیکس ہیں کو وسیع کرنا شامل ہے۔ سرماید کاری اور برآ مدات میں بہتری، مختاط معاشی انتظام، بشمول زرمبادلہ کی شرح میں لیک، مالی پابندیاں، بڑے اقتصادی استحکام کے لئے ضروری ہیں، توقع ہے کہ معاشی بحالی کے منصوبے اور دانشمندانہ اقدامات – سیشل انویسٹمنٹ فیسل (ایس آئی ایف سی) اور انفار میش ٹیکنالوجی پالیسی، نئی سرماید کاری کوراغب کریں گی تا کہ آنے والے ادوار میں اعلی اور جامع معاشی ترقی کے لئے کثیر الجہتی اثر سیدا کیا جاسکے۔

- 9.2.3 The above includes general provision of Bank's Bahrain branch of Rs 1,495,595 thousand (December 31, 2022: Rs 1,116,864 thousand) against investments in accordance with ECL requirement of IFRS 9.
- 9.3 The market value of securities classified as held to maturity as at September 30, 2023 is Rs. 46,944,606 thousand (2022: Rs. 101,813,767 thousand).
- 9.4 The Honorable Sindh High Court vide its order dated March 13, 2023 approved the scheme of arrangement for amalgamation of Askari Securities Limited (ASL) inclusive of all properties, assets, rights, liabilities, trademarks, patents and obligations with and into Foundation Securities (Private) Limited (FSL), wholly owned by Fauji Foundation, as of the effective date of scheme i.e. July 01, 2021 against issuance of 27,140,000 ordinary shares of Rs. 10 each of FSL at par value (1.18 shares of FSL) against 1 share of ASL held by the Bank.

Earlier, the amalgamation was approved by the State Bank of Pakistan subject to the Bank holding atleast 51% equity stake in the post amalgamated FSL. Accordingly, subsequent to merger the Bank acquired 2,236,031 ordinary shares of Rs. 10 each of FSL to hold 51% equity stake in FSL.

Since FSL and the Bank are under common control of Fauji Foundation before and after this transaction therefore, the transaction has been recorded by restating the comparative figures in accordance with the requirements of SECP's approved Accounting Standard on "Accounting of Common Control Transactions". However, this restatement has no impact on the net assets, EPS and cash flows presented in these condensed interim unconsolidated financial statements. As on September 30, 2023 investment in FSL has been classified as investment in subsidiary due to 51% shareholding, while comparative information has been restated and classified as investment in associate being 47.12% interest in FSL under approved scheme of arrangement.

- 31.1 i) The Bank has filed tax returns for and up to tax year 2022. The assessments for and up to tax year 2022 were amended by the tax authorities creating accumulated additional tax demand, mainly in the matters of admissibility of recoveries against doubtful debts for Rs 1,086 million, provision for diminution in the value of investments for Rs 2,425 million, bad debts written off for Rs 86.558 million, provision for substandard advances for Rs 74.95 million, Provision against other assets/fixed assets for Rs 118.455 million, disallowance of employee benefit expenses Rs 205.225 Million and Other disallowances of expenses/credits for Rs 321.489 million. Bank's Appeals against these orders are currently pending before Commissioner Appeals, Appellate Tribunal and Islamabad High Court. The management and tax advisor of the Bank are confident that these matters will be decided in favor of the Bank and consequently no provision has been made thereon. Tax payments by the Bank against certain matters are being carried forward as receivable, as management and tax advisor of the Bank are confident of their realization.
 - ii) Consequent upon the amalgamation with and into the Bank, the outstanding tax issues relating to Askari Leasing Limited (ALL) are as follows:

Tax returns of ALL have been filed for and up to tax year 2010. The returns for the tax years 2003 to 2010 were amended by the tax authorities mainly in the matter of admissibility of initial allowance claimed on leased vehicles. On appeals filed by ALL, partial relief was provided by the CIR(A) by allowing initial allowance on commercial vehicles. Re-assessment has not yet been carried out by the tax department. A tax demand is however not likely to arise after re-assessment.

For and up to the assessment years 2002-2003, reference applications filed by the tax authorities in the matter of computation of lease income are pending decisions by the High Court. However, the likelihood of an adverse decision is considered low due to a favorable decision of the High Court in a parallel case.

33. FAIR VALUE MEASUREMENTS

The fair values of traded investments are based on quoted market prices. The fair values of unquoted equity investments are estimated using the break-up value of the investee company.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these consolidated financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

33.1 Fair value of financial assets

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets (Pakistan Stock Exchange) for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) available at MUFAP and Reuters page.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

Valuation techniques used in determination of fair values within level 2 and level 3

Federal Government Securities	The fair values of Federal Government Securities are determined on the basis of rates / prices sourced from Reuters.
Non Government Debt Securities	Non Government Debt Securities are valued on the basis of rates announced by Mutual Fund Association of Pakistan (MUFAP).
Foreign Government Debt Securities	Foreign Government Debt Securities are valued on the basis of rates taken from custodian of the securities which are usually drawn from Bloomberg.
Unit of Mutual Funds	Fair values of mutual funds are determined based on their net asset values as published at the close of reporting period.
Forward foreign exchange contracts and Forward Government securities transactions	The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward pricing calculations.
Fixed Assets and Non Banking Assets Acquired in Satisfaction of Claims	Land and Non Banking assets acquired in satisfaction of claims are valued on a periodic basis using professional valuers. The valuation is based on their assessments of the market value of the assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty. Accordingly, a qualitative disclosure of sensitivity has not been presented in these condensed interim unconsolidated financial statements.

The following table provides the fair values of those of the Bank's financial assets and liabilities that are recognized or disclosed at fair value in these unconsolidated condensed interim financial statements:

- 31.1 i) The Group has filed tax returns for and up to tax year 2022. The assessments for and up to tax year 2022 were amended by the tax authorities creating accumulated additional tax demand, mainly in the matters of admissibility of recoveries against doubtful debts for Rs 1,086 million, provision for diminution in the value of investments for Rs 2,425 million, bad debts written off for Rs 86.558 million, provision for substandard advances for Rs 74.95 million, Provision against other assets/fixed assets for Rs 118.455 million, disallowance of employee benefit expenses Rs 205.225 Million and Other disallowances of expenses/credits for Rs 321.489 million. Group's Appeals against these orders are currently pending before Commissioner Appeals, Appellate Tribunal and Islamabad High Court. The management and tax advisor of the Group are confident that these matters will be decided in favor of the Group and consequently no provision has been made thereon. Tax payments by the Group against certain matters are being carried forward as receivable, as management and tax advisor of the Group are confident of their realization.
 - ii) Consequent upon the amalgamation with and into the Group, the outstanding tax issues relating to Askari Leasing Limited (ALL) are as follows:

Tax returns of ALL have been filed for and up to tax year 2010. The returns for the tax years 2003 to 2010 were amended by the tax authorities mainly in the matter of admissibility of initial allowance claimed on leased vehicles. On appeals filed by ALL, partial relief was provided by the CIR(A) by allowing initial allowance on commercial vehicles. Re-assessment has not yet been carried out by the tax department. A tax demand is however not likely to arise after re-assessment.

For and up to the assessment years 2002-2003, reference applications filed by the tax authorities in the matter of computation of lease income are pending decisions by the High Court. However, the likelihood of an adverse decision is considered low due to a favorable decision of the High Court in a parallel case.

33. FAIR VALUE MEASUREMENTS

The fair values of traded investments are based on quoted market prices. The fair values of unquoted equity investments are estimated using the break-up value of the investee company.

The fair value of unquoted debt securities, fixed term advances, fixed term deposits and borrowings, other assets and other liabilities cannot be calculated with sufficient reliability due to the absence of a current and active market for such assets and liabilities and reliable data regarding market rates for similar instruments.

In the opinion of the management, the fair value of the remaining financial assets and liabilities are not significantly different from their carrying values since they are either short-term in nature or, in the case of customer advances, deposits and certain long term borrowings, are frequently repriced.

All assets and liabilities for which fair value is measured or disclosed in these consolidated financial statements are categorized within the fair value hierarchy based on the lowest level input that is significant to the fair value measurement.

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

33.1 Fair value of financial assets

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets (Pakistan Stock Exchange) for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) available at MUFAP and Reuters page.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

Valuation techniques used in determination of fair values within level 2 and level 3

Federal Government Securities	The fair values of Federal Government Securities are determined on the basis of rates / prices sourced from Reuters.
Non Government Debt Securities	Non Government Debt Securities are valued on the basis of rates announced by Mutual Fund Association of Pakistan (MUFAP).
Foreign Government Debt Securities	Foreign Government Debt Securities are valued on the basis of rates taken from custodian of the securities which are usually drawn from Bloomberg.
Unit of Mutual Funds	Fair values of mutual funds are determined based on their net asset values as published at the close of reporting period.
Forward foreign exchange contracts and Forward Government securities transactions	The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward pricing calculations.
Fixed Assets and Non Banking Assets Acquired in Satisfaction of Claims	Land and Non Banking assets acquired in satisfaction of claims are valued on a periodic basis using professional valuers. The valuation is based on their assessments of the market value of the assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty. Accordingly, a qualitative disclosure of sensitivity has not been presented in these condensed interim consolidated financial statements.

The following table provides the fair values of those of the Group's financial assets and liabilities that are recognized or disclosed at fair value in these consolidated condensed interim financial statements:
