BUSINESS REVIEW

In the first quarter of FY 2023/24, the modaraba experienced a remarkable improvement in its financial performance. It achieved a net profit after tax of Rs. 73 million, a significant turnaround from the net loss of Rs. 112 million in the same period last year. It is important to note that the net loss in the previous year included a loss from discontinued operations of Rs. 177 million due to the demerger of the battery segment. One of the key drivers behind this improvement was the notable increase in sales. Overall sales grew by 31% compared to the same period last year. This growth was primarily fueled by the exceptional performance of the soap segment, which experienced a remarkable increase of 121%. Additionally, the corrugation segment also saw a respectable 8% increase in sales. Furthermore, the modaraba's gross margin exhibited a robust increase of 10% compared to the corresponding period last year, depicting our strategy of improving margin by manage costs and adjusting the sale price to pass on the impact of inflation, thus improving its profitability. Overall, these financial results demonstrate the modaraba's ability to successfully navigate challenges and capitalize on growth opportunities. The significant increase in net profit, along with the impressive sales growth and improved gross margin, showcases the modaraba's strong performance in the first quarter of FY 2023/24.

FTMM PROFITABILITY ANALYSIS RUPEES IN MILLIONS

Last year battery segment was demerged from FTMM and became Treet Battery Limited, as a results of that, loss from discontinued operation of Rs. 177 is separately mentioned in Profit & loss.

DIRECTORS' REVIEW

SEGMENT WISE SALES IS AS FOLLOWS:

(Rupees in Millions)

Business Segment	Sales			
	Quarter Ended		Increase / (Decrease)	% Change
	30-Sep-23	30-Sep-22		
Corrugation	806	747	59	8%

1) CORRUGATION:

During the period under review, the corrugation segment generated a net revenue of Rs. 806 million, reflecting an 8% increase compared to the same period last year. This growth in revenue signifies the corrugation segment's ability to attract and retain customers, despite the challenges in the market. To address the existing economic challenges, the corrugation segment is actively implementing strategies to broaden its customer base through market diversification. Additionally, the corrugation segment is also rationalizing prices in line with the increased costs, ensuring that pricing remains competitive while also maintaining profitability.

It is important to acknowledge that the impact of these efforts may not be immediately apparent due to the time lag associated with implementing and realizing the full benefits of these strategies. However, the corrugation segment remains committed to these initiatives and expects them to have a positive impact on its financial performance in the long run. By diversifying the customer base and rationalizing prices, the corrugation segment aims to mitigate the impact of increased costs and position itself for sustainable growth and profitability.

2) SOAP:

In the current period, the soap segment achieved a remarkable increase in net revenue, reaching Rs. 422 million. This represents a substantial growth of 121% compared to the same period last year. This impressive surge in revenue demonstrates the soap segment's ability to effectively capture market opportunities and drive sales.

Furthermore, the soap segment's gross profit for this period amounted to Rs. 76 million, showing a remarkable increase of 122% compared to the gross profit of Rs. 34 million achieved in the same period last year. This significant improvement in gross profit highlights the soap segment's success in managing costs, optimizing operations, and maximizing profitability. These outstanding financial results reflect the soap segment's strong performance and effective strategies in capturing market share and generating higher revenues. The substantial increase in net revenue and gross profit signifies the soap segment's ability to meet customer demands, deliver value, and maintain a competitive edge in the market. Moving forward, the soap segment will continue to leverage its strengths, such as market diversification and price rationalization, to sustain this positive momentum and drive further growth. By capitalizing on its current success, the soap segment is well-positioned to achieve continued financial success and deliver value to its stakeholders.
