Economic Review

Global economic recovery remained subdued especially in emerging markets and developing economies amid geopolitical conflicts and post pandemic challenges. Disruptions in energy and food markets, driven by global uncertainties, along with efforts to contain inflation through tightened monetary policies, have impacted the global economic recovery process. However, measures taken by most of the economies in the world to pacify inflation, decelerated headline inflation. Resultantly, International Monetary Fund (IMF) has revised projection of headline inflation to 5.9% in 2023 and 4.8% in 2024 in October 2023, against earlier estimates of 6.8% and 5.2% in July 2023 respectively, whereas IMF has maintained earlier projection of Global GDP growth at 3.0% for 2023.

Pakistan's economy is struggling against stressed macroeconomic environment, lingering effects of severe floods, global price shocks and political instability. Accordingly, in October 2023 update, IMF has maintained July 2023 projection of GDP growth at negative 0.5% which was revised from earlier projection of positive 0.5% in April 2023.

Inflation has decreased to 31.4% in September 2023 after reaching peak at 38.0% in May 2023 as the result of administrative measures and tight monetary policy stance adopted by State Bank of Pakistan (SBP). IMF has estimated the domestic Consumer Price Index (CPI) at 29.2% in 2023 and 23.6% in 2024.

Large Scale Manufacturing (LSM) witnessed negative growth due to buildup of macroeconomic stress. On year on year (YoY) basis, LSM declined by 1.09% in the month of July 2023, while on Month on Month (MoM) basis, it decreased by 3.62%. During the period, 9 out of 22 sectors witnessed growth including Food, Tobacco, Wearing Apparel, Chemicals, Pharmaceuticals, Rubber Products, Non-Metallic Mineral Products, Machinery and Equipment and others (Football).

According to the Pakistan Cotton Ginner's Association (PCGA), a remarkable growth of 80% as of 15th September 2023, has been observed in arrival of Cotton bales. Main imported commodities were Petroleum Products, Petroleum Crude, Liquefied Natural Gas, Palm Oil, Plastic materials, Iron & Steel and Medicinal products.

The higher decline in Imports as compared to reduction in Exports resulted in reduced Trade deficit. Trade deficit during Jul-Sep FY24 stood at US\$ 6,130 million as compared to US\$ 9,280 million in the comparative period last year, depicting a decrease by 33.9%.

During Jul-Sep FY24, Workers' remittances decreased by 19.8% to reach at US\$ 6,330 million as compared to US\$ 7,897 million during Jul-Sep FY23. Future Outlook:

The risks to global economic recovery remain elevated. Challenges and drawbacks stemming from international conflicts, slower economic rebound in China and inflationary pressures continued to weigh on the global economy. Hence, IMF has projected the global growth at 2.9% in 2024 against 3.0% projected in July 2023 and 3.1% in 2028.

On the domestic front, SBP has projected the real GDP growth in the range of 2.0% to 3.0% for FY24. However, IMF has anticipated the GDP growth of Pakistan at 2.5% in 2024 and 5.0% in 2028.

Recent administrative measures aimed at improving the availability of essential food commodities, expected ease in supply constraints, aggressive monetary policy stance and regulatory action for curbing illegal activities in the foreign exchange market have improved the inflation outlook. Accordingly, IMF has projected the annual average consumer prices in Pakistan at 23.6% in 2024 and 6.5% in 2028.

23.3.2 The income tax assessments of the Bank have been finalized upto and including tax year 2022 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2022, income tax authorities made certain add backs with aggregate tax impact of Rs. 34,841 million (2022: 32,741 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals / references before higher forums against unfavorable decisions. Pending finalization of appeals / references no provision has been made by the Bank on aggregate sum of Rs.34,841 million (2022: 32,741 million). The management is confident that the outcome of these appeals / references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2019 and created an arbitrary demand of Rs. 2,029 million (2022: 1,700 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 2,029 million (2022: 1,700 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 thereby creating arbitrary aggregate demand of Rs. 1,144 million (2022: 1,144 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 1,144 million (2022: 1,144 million).

23.3.3 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs.2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank had filed appeals before the Appellate Board and Constitutional Petitions (CP) in the High Court of Sindh, Karachi. The Honorable High Court granted relief to the Bank by way of interim orders. Meanwhile, alongwith other banks, Bank filed a further CP whereby vires of section 23C of the Foreign Exchange Regulations Act, 1947 was sought to be declared ultra vires. On November 8, 2018, the Honorable court was pleased to order that the Appellate Board shall not finally decide the appeals. Subsequently, the earlier CP was disposed of vide order dated January 15, 2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department has been restrained from taking any coercive action against the Bank. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

35 FAIR VALUE OF FINANCIAL INSTRUMENTS

35.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities. Financial instruments included in level 1 comprise of investments in Listed Ordinary Shares.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Financial instruments included in level 2 comprise of Sukuk Bonds, Units of Mutual Funds, Pakistan Investment Bonds, Market Treasury Bills. Term Finance Certificates and Forward Government & Exchange Contracts.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs). Currently, no financial instruments are classified in level 3.

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

Given the modified effective date of the Standard, the Bank will reassess the impact of the Standard in due course as required under the relevant regulatory requirements.

23.3.2 The income tax assessments of the Bank have been finalized upto and including tax year 2022 for local, Azad Kashmir and Gilgit Baltistan operations. While finalizing income tax assessments upto tax year 2022, income tax authorities made certain add backs with aggregate tax impact of Rs. 34,841 million (2022: 32,741 million). As a result of appeals filed by the Bank before appellate authorities, most of the add backs have been deleted. However, the Bank and Tax Department are in appeals / references before higher forums against unfavorable decisions. Pending finalization of appeals / references no provision has been made by the Bank on aggregate sum of Rs.34,841 million (2022: 32,741 million). The management is confident that the outcome of these appeals / references will be in favor of the Bank.

Tax Authorities have conducted proceedings of withholding tax audit under section 161/205 of Income Tax Ordinance, 2001 for tax year 2003 to 2006 and tax year 2008 to 2019 and created an arbitrary demand of Rs. 2,029 million (2022: 1,700 million). The Bank's appeals before CIR(A)/Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that these appeals will be decided in favor of the Bank; therefore, no provision has been made against the said demand of Rs. 2,029 million (2022: 1,700 million).

Tax authorities have also issued orders under Federal Excise Act, 2005 / Sales Tax Act, 1990 and Sindh Sales Tax on Services Act, 2011 for the year 2008 to 2017 thereby creating arbitrary aggregate demand of Rs. 1,144 million (2022: 1,144 million). The Bank's appeals before CIR(A) / Appellate Tribunal Inland Revenue (ATIR) are pending for adjudication. The management is confident that aforesaid demand will be deleted by appellate authorities and therefore no provision has been made against the said demand of Rs. 1,144 million (2022: 1,144 million).

23.3.3 While adjudicating foreign exchange repatriation cases of exporter namely: Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court (FEAC) of the State Bank of Pakistan (SBP) has arbitrarily adjudicated penalties against various banks including Rs.2,173 million in aggregate against Allied Bank Limited (the Bank). Against the said judgments, the Bank had filed appeals before the Appellate Board and Constitutional Petitions (CP) in the High Court of Sindh, Karachi. The Honorable High Court granted relief to the Bank by way of interim orders. Meanwhile, alongwith other banks, Bank filed a further CP whereby vires of section 23C of the Foreign Exchange Regulations Act, 1947 was sought to be declared ultra vires. On November 8, 2018, the Honorable court was pleased to order that the Appellate Board shall not finally decide the appeals. Subsequently, the earlier CP was disposed of vide order dated January 15, 2019 with a direction to the Appellate Board to first decide the stay application of the Bank and till then, the Foreign Exchange Regulation Department has been restrained from taking any coercive action against the Bank. Based on merits of the appeals, the management is confident that these appeals shall be decided in favor of the Bank and therefore no provision has been made against the impugned penalty.

35 FAIR VALUE OF FINANCIAL INSTRUMENTS

35.1 Fair value of financial assets

Open ended mutual funds

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities. Financial instruments included in level 1 comprise of investments in Listed Ordinary Shares.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices). Financial instruments included in level 2 comprise of Sukuk Bonds, Units of Mutual Funds, Pakistan Investment Bonds, Market Treasury Bills, Term Finance Certificates and Forward Government & Exchange Contracts.
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs). Currently, no financial instruments are classified in level 3.

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:
