Market Review and Future Prospects

The first quarter of this fiscal year has shown a positive trend, and an improvement over the losses incurred during the previous financial year, ending on 30 June 2023. The main driver behind the better results is improved gross profit margin, which increased from 11.24% in the corresponding quarter of last financial year to 13.69% in this quarter. Exorbitant costs of borrowing and high raw material costs, in combination with already expensive energy are making it difficult for the Pakistani textile industry to be competitive with the regional competitors.

The unprecedented forex rate fluctuations and the ongoing political instability are turning out to be very challenging for the industry. Macro indicators like the current account deficit, rupee devaluation, and record-high inflation, suggest that a high policy rate will maintain, which will slow down the economy even further. As we head into a global recession, timely policy making will be required by the Government if we are to rein in its impact.

Subsidiary Companies and Consolidated Financial Statements

The Company's portfolio of subsidiary companies includes Nishat Chunian Properties (Private) Limited, Nishat Chunian USA Inc., Sweave Inc., and TLC Middle East Trading LLC. Therefore, the Company has annexed consolidated condensed interim financial information in addition to its separate condensed interim financial information, in accordance with the requirements of International Financial Reporting Standards and applicable provisions of the Companies Act, 2017.

Acknowledgment

The Directors wish to express their appreciation to the dedicated employees who continue to play a pivotal role in the operations of the company.

For and on behalf of the Board,

Chief Executive

Director

International Accounting Standard (IAS) 34, Interim Financial Reporting, issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and

Provisions of and directives issued under the Companies Act, 2017. Where the provisions of and directives issued under the Companies Act, 2017 differ with the requirements of IAS 34, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 These unconsolidated condensed interim financial statements do not include all the information and disclosures required in annual financial statements and should be read in conjunction with the annual audited financial statements of the Company for the year ended 30 June 2023. These unconsolidated condensed interim financial statements are un-audited.

3 ACCOUNTING POLICIES

The accounting policies and methods of computations adopted for the preparation of these unconsolidated condensed interim financial statements are the same as those applied in the preparation of the preceding audited annual published financial statements of the Company for the year ended 30 June 2023.

3.1 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of this unconsolidated condensed interim financial information in conformity with the approved accounting standards requires the use of certain critical accounting estimates. It also requires the management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

During preparation of this unconsolidated condensed interim financial information, the significant judgments made by the management in applying the Company's accounting policies and the key sources of estimation and uncertainty were the same as those that applied in the preceding audited annual published financial statements of the Company for the year ended 30 June 2023.

12. RECOGNIZED FAIR VALUE MEASUREMENTS - FINANCIAL INSTRUMENTS

(i) Fair value hierarchy

Judgements and estimates are made in determining the fair values of the financial instruments that are recognised and measured at fair value in this unconsolidated condensed interim financial information. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the following three levels. An explanation of each level follows underneath the table.

Recurring fair value measurements At 30 September 2023	Level 1	Level 2	Level 3	Total
		Rup	ees	
Financial assets				
Investment in quoted shares - FVTPL	17,746,588	-	-	17,746,588
Derivative financial assets	-	20,470,713	-	20,470,713
Total financial assets	17,746,588	20,470,713	-	38,217,301
Financial liabilities				
Derivative financial liabilities	-	-	-	-
Total financial liabilities	-	-	-	-
Recurring fair value measurements At 30 June 2023	Level 1	Level 2	Level 3	Total
		Rup	ees	
Financial assets				
Investment in quoted shares - FVTPL	13,185,639	-	-	13,185,639
Derivative financial assets	-	19,326,849	-	19,326,849
Total financial assets	13,185,639	19,326,849	-	32,512,488
Financial liabilities				
Derivative financial liabilities	-	-	-	-
Total financial liabilities	-	-	-	-

The above table does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amounts are a reasonable approximation of fair value. Due to short term nature, carrying amounts of certain financial assets and financial liabilities are considered to be the same as their fair value. For the majority of the non-current receivables, the fair values are also not significantly different to their carrying amounts.

There were no transfers between levels 1 and 2 for recurring fair value measurements during the year. Further, there was no transfer in and out of level 3 measurements.

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period.

Level 1: The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the Company is the current bid price. These instruments are included in level 1.

FOR QUARTER ENDED SEPTEMBER 30, 2023

Level 2: The fair value of financial instruments that are not traded in an active market (for example, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

(ii) Valuation techniques used to determine fair values

Specific valuation techniques used to value financial instruments include the use of quoted market prices or dealer quotes for similar instruments.

13. TRANSACTIONS WITH RELATED PARTIES

The related parties comprise subsidiary companies, associated undertakings, other related companies, key management personnel and post employment benefit plan. The Company in the normal course of business carried out transactions with various related parties. Details of transactions with related parties are as follows:
