## MACRO PERSPECTIVE

The year FY24 brought fresh tides of hope for Pakistan as the economy stepped on the path to recovery. Pakistan saw a major decline in imports as high inflation coupled with record interest rates led to demand compression coupled with progressive efforts like restoring the balance to the exchange rate via stopping illegal channels. On the monetary front, SBP kept the policy rate status quo reaffirming market consensus that the monetary tightening cycle had perhaps come to an end, while relaying optimism of monetary easing during 2HFY24 on the back of high base effect and average inflation peaking at 29% levels. Pakistan is also likely to receive the remaining two tranches in line with the IMF Stand-by Agreement following key measures undertaken as required under the said Program. In addition, Reportedly, Pakistan is also scheduled to hold National Elections in January 2024 which will fill the void created by political uncertainty over the past couple of years, ensuring much needed political clarity.

The Current Account Deficit for the month of September 2023 clocked in at USD 8 million, from a Current Account Deficit of USD 164 million (*revised*) in August 2023 taking the 1QFY24 CAD to USD 0.95 billion against USD 2.26 billion, down -58% YoY during the same period last year primarily due to a decline in imports.

The total Imports witnessed a hefty decline of -19% YoY from USD 18.38 billion to USD 14.86 billion during 3MFY24 whereas the total exports also declined by -4% YoY from USD 8.73 billion to USD 9.10 billion. Furthermore, foreign workers continued to support the external account which also declined -20% YoY from USD 7.90 billion to USD 6.33 billion. The decline is achieved mostly due to the import restrictions that were placed during most of the year.

The SBP in its Monetary Policy Committee on October 30, 2023, decided to keep the policy rate unchanged at 22% which was in line with the market consensus. The SBP premised their decision based on the forward looking inflation projections and the already on-going declining inflationary trend from 29%>28%>27% in the months June>July>August considering September's 31% as an outlier. Moreover, the SBP believes that despite global oil prices soaring recently, its impact will in principle be passed onto the consumers through subsequent price increases, while inflation is like to remain overall on a downward trajectory from 2HFY24. Additionally, the expected ease in supply constraints owing to better agriculture output and the recent administrative measures against speculative activity in the FX and commodity markets would also support the inflation outlook.

The SBP's medium term target for inflation is 5-7% by FY25. The next MPC meeting is due to be held on December 12, 2023, where we expect the interest rates to remain unchanged despite early expectations of rate cuts. The change in our stance from declining interest rates to holding the interest rates at record high levels of 22% is that the incumbent government continues facing economic headwinds despite improvement in CAD and FX reserves.

The Government's resilient efforts to attract investments from Non-Resident Pakistanis continued to yield results, with an impressive inflow of USD 6.76 billion through Roshan Digital Accounts (RDA) with more than 610,000 accounts till September 2023.

Moreover, the FBR collected revenues worth PKR 2.04 trillion during 1QFY24 against the target of 1.98 trillion during same period last year exceeding the target by PKR 63 billion. Moreover, FBR also achieved the target for the month of September 2023 by collecting PKR 834 billion (*PKR 688 billion SPLY*) against a target of PKR 794 billion.

As per the SBP Country-wise Remittances data for FY24, Pakistan has received remittances of USD 767 million from USA, USD 947 million from UK, USD 1,516 million from KSA and USD 1,024 million from UAE. The SBP reserves currently stands at USD 7.49 billion (*total liquid FX reserves USD 12.66 billion*) as at October 20, 2023 representing an import cover of mere 7 weeks.

The NCPI during the month of September 2023 clocked in at 31.44% YoY as compared to 27.38% YoY in July 2023 and 23.18% in September 2022. This took the 3MFY24 average NCPI to 29.04% compared to 25.11% during the SPLY.

The Large Scale Manufacturing (*LSMI*) sector, which accounts for about 80% of the country's industrial output, increased by 2.52% YoY in August 2023 compared to same period last year after 13 months of consecutive decline as a result of expensive raw material costs in the light of currency devaluation, high interest rates, and global recession.

## **EQUITY MARKET REVIEW**

The Equity market witnessed an aggressive come back during 1QFY24 closing in at 46,232.59 level, gaining 4,779.90 points (*11.53% YoY*). During the quarter, investors celebrated improving macros with an appreciating currency while withering hard but necessary steps taken by the caretaker setup to ensure sustainability for the country. In addition, the market also celebrated the unchanged interest rate stance of the SBP which is signaling the end of the tightening era.

During 1QFY24, investor participation improved as volumes increased by 29% YoY to 280 million shares from 217 million shares recorded during last year. Surprisingly, after five years of outflows from FY18 to FY22, foreigners were net buyers in FY23 with USD 1.53 million and another massive USD 22 million was attracted in 1QFY24. Foreigner's interest was majorly caught in Commercial Banks (*USD 16 million*) and Technology and Communication (*USD 8 million*).

The sectors that performed during 1QFY24 are Commercial Banks (*19.58%*), Oil & Gas Exploration Companies (*15.10%*), Chemical (*11.21%*), Power Generation & Distribution (*17.10%*), and Food & Personal Care Products (*4.11%*). While the sectors that kept the bulls in check are Fertilizer (*-7.61%*),

Synthetic & Rayon (-5.30%), Pharmaceuticals (-2.08%), Modarabas (-15.41%), Paper & Board (-4.23%) as panic swayed away local investors to safer havens and fixed income given that interest rates are almost at record highs.

On a 10Y period, the KSE - 100 index yielded an annualized return of 7.79% (-2.48% *annualized in USD terms*). The persistent decline in the local currency against the US Dollar has kept foreign investors at bay despite extremely compelling valuations. While foreigners have been on the sell side for several years now; frontier market investors are likely to turn net buyers given the unprecedented currency adjustment and cheap valuations provided that Pakistan implement key economic and policy reforms.

The KSE-100 index continues to trade at exceedingly attractive multiples with PE and PB of 4.21x and 0.67x with a healthy dividend yield of 10.54%. Pakistan is witnessing perhaps one of the highest interest rate environments since independence with yields on government securities crossing 22%. Our pro-equity stance stems from the fact that the government in lieu with the newly appointed COAS have dedicated their tireless efforts towards combating corruption, hoarding of gold/dollars, banning of items under Afghan Transit Trade and have remarkably managed to control exchange devaluation and default risk till now. In the future, we may see inflation tipping off due to high base effect in 2HFY24 and expect monetary easing eventually. Looking ahead the caretaker's performance in stabilizing the currency and economy broadly while staying in line with the IMF Program is indeed encouraging and positioned the market for a likely re-rating.

## **FIXED INCOME REVIEW**

During 1QFY24, the State Bank of Pakistan maintained the interest rate at decade high levels of 22% in response to un-abating inflationary pressures, with the average NCPI for 1QFY24 soaring to 29.04%, and the pressing need to fortify the country's deteriorating external account.

The heightened policy rate played a significant role in driving up the rates of government securities, attracting substantial investments into these instruments as investors sought improved returns offered by government debt securities.

During the quarter, the State Bank of Pakistan conducted a total of six (6) Market Treasury Bill (MTB) auctions, where the government managed to raise PKR 7.84 trillion against the auction target of PKR 8.70 trillion. Notably, the weighted average yields for 3, 6 and 12 month MTBs were 22.81%, 22.99% and 23.12%, respectively, up by 717 bps, 735 bps, and 736 bps compared to the same period last year.

To further address the need for liquidity, SBP also conducted three (3) auctions of fixed-rate Pakistan Investment Bond (PIB) and was successful in raising PKR 0.19 trillion. The weighted average yields for 3Y, 5Y and 10Y PIBs increased by 541 bps, 68 bps, whereas, the weighted average yield of 10Y PIB decreased by 8 bps, respectively, to stand at 19.33%, 13.98% and 12.99%.

In the market for Shariah Compliant instruments, the SBP conducted a total of five (5) auctions of GOP Ijara Sukuk, both Variable Rental Rate (VRR) and Fixed Rental Rate (FRR). These auctions successfully raised PKR 579.70 billion against the auction target of PKR 540.00 billion.

Moreover, the State Bank of Pakistan carried out 24 Open Market Operations (OMOs) with varying maturities, injecting PKR 10.85 trillion into the market at an average cut-off yield of 22.10% and mopped up PKR 4.38 trillion at an average cut-off yield of 21.99%.

Looking ahead to the auction target calendars for October through December 2023, the State Bank of Pakistan aims to raise PKR 7.91 trillion by issuing 3 to 12-month MTBs against the maturing amount of PKR 8.95 trillion. Additionally, the SBP targets to raise PKR 480 billion through 3 to 30-year fixed-rate PIBs and PKR 2,280 billion.

## **FUTURE OUTLOOK**

As the Country paves its way through FY24, the caretaker government has introduced essential reforms that will help the economy get back on track to stability. Some of these steps include increase of gas tariffs to address the issue of burgeoning gas sector circular debt, privatize loss making SOEs such as PSM and PIA, and improve the governance in the power sector especially the DISCOs. Moreover, the Caretaker setup has also been making continuous efforts to bring Foreign Investments in different sectors of the economy under the forum of Special Investment Facilitation Centre (SIFC). We believe that all these structural changes and reforms are necessary to turn around the current economic state and back to a path of sustainable growth. While market consensus suggests foreseeably that the Central Bank has reached its monetary tightening cycle for now, both the fiscal and external accounts are likely to remain very challenging for the Government in the coming year. On the other hand, notably inflation is expected to come off sharply starting from 2HFY24 as the high base affect plays out, perhaps providing much needed respite in the form of a reduction in interest rates as debt servicing remains challenging .

We believe that the support from IMF under the new agreement has largely subsided the default risk that the country was adamantly facing and has also ensured inflows in the form of grants and aids from other bilateral and multilateral partners.

Pakistan's first IMF review under the new Standby Arrangement reached with the Fund in June 2023 scheduled in early November is likely to be one of the key drivers of the market direction ahead. Notably, the Government has carefully chalked out an economic revival plan and is envisaging massive fiscal consolidation to bring down its expenditures to record a primary balance surplus for the fiscal year 2024 for which the Government is contemplating a cut in the Public Sector Development Programme (PSDP) or imposing additional taxes. On the political front, developments regarding the holding of general elections in January 2024 will also be particularly eyed by market participants.

Lastly, we believe that the market continues to trade at attractive multiples with a PE of 4.41x while offering a healthy dividend yield of 11.28% as at September 28, 2023.

**AKD INDEX TRACKER FUND  
NOTES TO THE CONDENSED INTERIM FINANCIAL INFORMATION (UN-AUDITED)  
FOR THE FIRST QUARTER ENDED SEPTEMBER 30, 2023**

**1. LEGAL STATUS AND NATURE OF BUSINESS**

AKD Index Tracker Fund ("The Fund") was established under a Trust Deed, dated May 2, 2007 executed between AKD Investment Management Limited (AKDIML) as Asset Management Company and Central Depository Company of Pakistan Limited (CDC) as the Trustee. The Trust Deed was executed on May 02, 2007 and was approved by the Securities and Exchange Commission of Pakistan (SECP) on April 12, 2007 in accordance with the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules) as an open-ended mutual fund. The Fund commenced its operations from October 11, 2005.

The Management Company of the Fund has been registered as a Non - Banking Finance Company (NBFC) under the NBFC Rules and has obtained a requisite license from SECP to undertake Asset Management services. The registered office of the Management Company is situated at 216-217, Continental Trade Centre, Block-8, Clifton, Karachi, in the province of Sindh.

The Fund is an open-ended mutual fund and offers units for public subscription on a continuous basis. The units are transferable and can be redeemed by surrendering the same to the Fund. The Fund is listed on the Pakistan Stock Exchange Limited

The Fund is categorised as Index Tracker Scheme as per circular 7 of 2009 by SECP. As per the circular, the Fund shall strive to remain fully invested in accordance with the stated index (i.e. KSE-100 index), however, under no circumstances shall it be invested less than 85% of its net assets in securities covered in the index or its subsets during the year based on monthly average investment calculated on daily basis. The units invested amount shall be kept in cash and / or near cash instrument where near cash instrument include deposits with bank (excluding TDRs), and treasury bills not exceeding 90 days maturity.

The title to the assets of the Fund are held in the name of the Central Depository Company of Pakistan Limited as Trustee of the Fund.

The Management Company has been assigned a quality rating of "AM3++" by the Pakistan Credit Rating Agency Limited (PACRA) on June 27, 2023. Due to specialised nature of the Fund, performance rating has not been taken, as the comparable benchmark is not available.

The Fund has registered on August 23, 2021 with assistant director of industries and commerce (Trust Wing) Government of Sindh under Section 12 of the Sindh Trusts Act, 2020.

**2. BASIS OF PRESENTATION**

**2.1 Statement of compliance**

These condensed interim financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;

Federal excise duty on management fee	7.4	<b>1,357</b>	<b>1,357</b>
		<b>1,724</b>	<b>1,686</b>

**7.1** The Management Company has charged remuneration at the rate of 0.75% per annum (June 30, 2023: 0.75%) of the average daily net assets. The remuneration is paid to the Management Company on a monthly basis in arrears.

**7.2** Sindh sales tax on services at the rate of 13% (June 30, 2023: 13%) on gross value of management fee under the provisions of Sindh Sales Tax on Services Act, 2011.

**7.3** The Management Company has charged expenses at the rate of 0.1% (June 30, 2023: 0.1%) per annum of the average annual net assets of the Fund.

**7.4** As per the requirements of the Finance Act, 2013, Federal Excise Duty (FED) at the rate of 16% on the remuneration of the Management Company was applied with effect from June 13, 2013. The Management Company is of the view that since the remuneration is already subject to the provincial sales tax, further levy of FED results in double taxation, which does not appear to be the spirit of the law. The matter was collectively taken up by the Management Company jointly with other Asset Management Companies and Trustees of respective Collective Investment Schemes (CISs), through a Constitutional Petition filed in the Sindh High Court (SHC) during September 2013. In this respect, the SHC had issued a stay order against the recovery of FED due to which the Fund has not made any payments for FED since June 13, 2013.

On June 30, 2016, the Sindh High Court had passed a judgment that after 18th amendment in the Constitution of Pakistan, the Provinces alone have the legislative power to levy a tax on rendering or providing services, therefore, chargeability and collection of FED after July 01, 2011 is ultra vires to the Constitution of Pakistan. On September 23, 2016, the Federal Board of Revenue (FBR) filed an appeal in the Supreme Court of Pakistan (SCP) against above judgement, which is pending adjudication. Management Company, as a matter of abundant caution, has maintained full provision for FED aggregating to Rs. 1.357 million (June 30, 2023: Rs. 1.357 million) until the matter is resolved. Had the provision not been retained, the net asset value per unit of the Fund as at September 30, 2023 would have been higher by Re. 0.039 per unit (June 30, 2023: Re. 0.040 per unit).

Through Finance Act, 2016, FED on services rendered by Non-Banking Financial Institutions (NBFIs) including Asset Management Companies, which are already subject to provincial sales tax, has been withdrawn.

Therefore, provision for FED has not been recorded in these financial statements from July 01, 2016 onwards.

There are no contingencies and commitments outstanding as at September 30, 2023 and June 30, 2023.

**12. TOTAL EXPENSE RATIO**

The total expense ratio of the Fund is 0.38% (September 30, 2022: 0.38%) and this includes 0.06% (September 30, 2022: 0.04%) representing government levies on the Fund such as sales taxes, annual fee payable to the SECP, etc. This ratio is within the maximum limit of 2.5% prescribed under the NBFC Regulations for a Collective Scheme categorised as a "Index Scheme".

**13. TAXATION**

The Fund's income is exempt from Income Tax as per clause (99) of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed to the unit holders in cash.

Since the management has distributed the required minimum percentage of income earned by the Fund for the year ended June 30, 2022 to the unit holders in the manner as explained above, therefore; no provision for taxation has been made in these financial statements during the period.

The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

**14. EARNINGS PER UNIT**

Earnings per unit (EPU) has not been disclosed as in the opinion of the management, determination of weighted average units for calculating EPU is not practicable.

**15. TRANSACTIONS WITH CONNECTED PERSONS / RELATED PARTIES**

Related parties / connected persons of the Fund include the Management Company, other collective investment schemes managed by the Management Company, the Trustee, AKD Securities Limited, directors, officers, key management personnel, other associated undertakings and unit holders holding more than 10% units of the Fund.

The transactions with connected persons / related parties are in the normal course of business and are carried out on agreed terms at contracted rates.

Remuneration payable to the Management Company and the Trustee is determined in accordance with the provision of the NBFC Regulations 2008 and Constitutive documents of the Fund.

## 16. FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. period end date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.

The following table shows financial instruments recognised at fair value based on:

**Level 1:** quoted prices in active markets for identical assets or liabilities;

**Level 2:** those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

**Level 3:** those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).

	<b>As At September 30, 2023</b>
