The Directors of your Company are pleased to present the financial results of the Company for the quarter ended Sept 30, 2023.

#### **Operational Performance**

Summarized operating performance of the Company for the Quarter is as follows:

	Quarter Ended Sept 30, 2023	Quarter Ended Sept 30, 2022			
	(Rupees in '000)				
Turnover	1,061,935	1,590,251			
Operating (Loss) / Profit	(742,416)	255,144			
Net (Loss) / Profit	(903,625)	136,371			
EPS / (LPS) (Rs./Share)	(2.41)	0.45			

In first quarter of this fiscal year, the company's turnover has decreased as compared to the same period last year. The main reason is that exports have declined significantly due to several macroeconomic factors affecting both, business volume and margins. The gross margins remained under pressure due to the challenges on account of economic and global inflation. Unprecedented increase in finance cost, material prices coupled with rising cost of utilities & logistics had impacted our margins in this period. The major impact on bottom line is also due to the impact of IFRS 9's Expected Credit Loss model against trade receivables which resulted in provisioning of approx. PKR 484 million.

#### **Future Outlook**

To address the overall financial and business challenges faced by the Company, the Company has devised a new business model, which will be focusing on large institutional customers (local/international franchises), in addition to Export. Furthermore, the Company will continue to work with optimized resources to ensure efficiencies and positive results.

#### Acknowledgment

The Board is thankful to its valuable stakeholders for their trust and continued support to the Company. The Board would also like to place on record its appreciation to all employees of the Company for their dedication, diligence and hard work.
