Directors' Report to the members

The Directors of Zephyr Textiles Limited are pleased to present the Reviewed interim financial statements for the half year ended December 31, 2023. These interim financial statements are presented in accordance with the requirements of the Companies Act, 2017.

Operating Financial Results

During the first half year ended December 31, 2023, the Company earned a gross profit of PKR 585.862 million on sales of PKR 3,975.718 million compared to gross profit of PKR 413.818 million on sales of PKR 3,661.790 million for the corresponding period of previous financial year. During the period under review, the Company recorded a net profit of PKR 270.049 million compared to net profit of PKR 23.680 million in the corresponding period last year.

Financial Highlights	Half year ended 31 December		Increase/ (Decrease) %	Quarter ended 31 December		Increase/ (Decrease) %
	2023 (Rupees)	2022 (Rupees)		2023 (Rupees)	2022 (Rupees)	
Sales – net	3,975,718,425	3,661,790,470	8.57%	1,643,844,731	1,688,259,684	(4.44)%
Gross Profit	585,862,368	413,818,265	41.57%	233,973,689	149,336,209	36.27%
Profit before tax	314,331,126	70,575,804	345.38%	89,438,317	(31,067,466)	387.88%
Profit after tax	270,048,914	23,679,509	1040.43%	68,908,034	(59,081,223)	210.24%
Gross Profit (%)	14.74%	11.30%		14.23%	8.85%	
Profit after tax (%)	6.79%	0.65%		4.19%	(3.50)%	

The topline increased by PKR 314 million (8.57%) from PKR 3.662 billion in the corresponding period last year to PKR 3.976 billion in the current period under review. Gross profit increased by 41.57% whereas net profit increased by 1040.43% in current period of six months as compared to corresponding period of last year six months. The reason of exceptional gross margin is switching to value added export business from local market. Export market absorbs increasing cost of productions whereas local market don't. Increasing trend of USD is also helpful to the export industry to make higher margins and to cope with increasing cost of production. Extra-ordinary increase in profit after tax is due to gain on sale of fabric looms. These looms were being used for local fabric business and sold for quitting local grey fabric market and entering in export garment market.

Related Party Transaction

The Company acquired 46.29 acres of land, having fair value of PKR 231.47 million, adjacent to the factory from its three directors after getting approval from members of the Company in extra ordinary general meeting held on April 13, 2023. Acquisition of further 9.84 acres, having value of PKR 72.750 million is also in process after approval from board of directors in its meeting held on September 5, 2023 at its registered office. The board accorded this acquisition due to strategic importance of this land for the smooth operations and future expansion of the towel manufacturing facility situated at Jumber. The fair market value of this land is higher than the land acquired in last year due to its location near to the Multan Road. The transfer of land is under process and will be completed soon.

Current and Future Outlook

The textile industry is facing numerous challenges that are making it increasingly difficult to compete both locally and globally. These hurdles include reduced global demand, surging inflation, high cost of production, expensive imports and raw materials, uncertain currency fluctuations, costly bank financing, delayed tax refunds and elevated government taxation. As a result many small to medium-sized textile units are being forced to shut down. On the other hand, some larger and vertically integrated production units are establishing resilience in this challenging environment. Despite these challenges, the management of the

Company remains optimistic about achieving profitability by prioritizing cost saving measures. The government must also prioritize export oriented textile sector to achieve sustainable growth. The provision of regionally competitive energy tariffs for electricity and gas is essential to achieve the desired goals.

The Company has already commenced work on a knit garment unit which is expected to start production in next financial year with an estimated capacity of 5,000 garments per day. This will enable the Company to get into the knit garments export market in Europe and USA and enhance the profitability. This production facility will be backed by existing dyeing and finishing production facility which will also be increased to 25 metric tons per day, from current 20 metric tons per day, by the end of financial year 2025. The Company has also increased its solar plant capacity from 450 kwh to 960 kwh at its towel manufacturing unit. Now further installation of 358 kwh solar plant is also in process at its weaving unit. This shows the Company's commitment towards environment protection and cheap, continuous and safe energy availability.

Acknowledgement

The board places on record its profound gratitude for its esteemed shareholders, banks, financial institutions, customers and vendors, whose cooperation, continued support and patronage have empowered the Company to make progress towards consistent improvement. During the period under review, relations between the management and employees remained cordial and we wish to put on record our appreciation for the dedication perseverance and steadiness of the employees of the Company.

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements are not prepared, in all material respects, in accordance with accounting and reporting standards as applicable in Pakistan for interim financial reporting.

These condensed interim financial statements do not include all the information and disclosures required for full annual financial statements and should be read in conjunction with the annual financial statements of the Company as at and for the year ended June 30, 2023 which have been prepared in accordance with approved accounting standards as applicable in Pakistan. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Company's financial position and performance since the last annual financial statements.

The comparative statement of financial position presented in these condensed interim financial statements have been extracted from the annual audited financial statements of the Company for the year ended June 30, 2023, whereas the comparative condensed interim statement of profit or loss, condensed interim statement of comprehensive income, condensed interim statement of cash flows and condensed interim statement of changes in equity are extracted from the unaudited condensed interim financial statements for the half year ended December 31, 2022.

3.2 Basis of measurement

These financial statements have been prepared under the historical cost convention except for staff retirement benefits - gratuity which is carried at present value of defined benefit obligation and certain items of property, plant and equipment at revalued amounts. In these financial statements, except for the amounts reflected in the statement of cash flows, all transactions have been accounted for on accrual basis.

3.3 Functional and presentation currency

These condensed interim financial statements have been presented in Pak Rupees, which is the functional and presentation currency of the Company.

4 MATERIAL ACCOUNTING POLICY INFORMATION AND CHANGES THERE IN

4.1 The accounting policies adopted and methods of computation followed in the preparation of these condensed interim financial statements are same as those for the preceding annual financial statements for the year ended June 30, 2023.

4.2 Initial application of standards, amendments or an interpretation to existing standards

The following amendments to existing standards have been published that are applicable to the Company's financial statements.

The Company adopted the narrow-scope amendments to the International Accounting Standard (IAS) 1, Presentation of Financial Statements which have been effective for annual reporting periods beginning on or after 1 January 2023. Although the amendments did not result in any changes to accounting policy themselves, they will impact the accounting policy information disclosed in the annual financial statements.

The amendments aim to make accounting policy disclosures more informative by replacing the requirement to disclose 'significant accounting policies' with 'material accounting policy information'. The amendments also provide guidance under what circumstance, the accounting policy information is likely to be considered material and therefore requiring disclosure.

These amendments had no effect on the interim condensed financial statements of the Company as they relate to disclosures of accounting policies in the annual financial statements rather than interim financial statements. The amendments are expected to be applicable for the accounting policy disclosures in the annual financial statements of the Company.

4.2.1 Standards, amendments and interpretations to accounting standards that are effective in the current period

Certain standards, amendments and interpretations to accounting standards are effective for accounting periods beginning on July 1, 2023 but are considered not to be relevant or to have any significant effect on the Company's operations (although they may affect the accounting for future transactions and events) and are, therefore, not detailed in these condensed interim financial statements.

4.2.2 Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company

There are certain standards, amendments to the accounting standards and interpretations that are mandatory for the Company's accounting periods beginning on or after January 1, 2024 but are considered not to be relevant or to have any significant effect on the Company's operations and are, therefore, not detailed in these condensed interim financial statements.

5 TAXATION

The provisions for taxation for the half year and quarter ended December 31, 2023, have been made using the estimated effective tax rate applicable to expected total annual earnings. The applicable income tax rate for the Tax Year 2024 is 29%. Income tax expense is recognized in each interim period based on best estimate of the weighted average annual income tax rate expected for the full financial year. Amounts accrued for income tax expense in one interim period may have to be adjusted in a subsequent interim period of that financial year if the estimate of the annual income tax rate changes.

6 ESTIMATES

The preparation of condensed interim financial statements requires management to make certain judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. The significant judgments made by management in applying the Company's accounting policies and key sources of estimation of uncertainty are the same as those that were applied to the financial statements for the year ended June 30, 2023.

33 FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying values of all financial assets and liabilities reflected in the financial statements approximate their fair values. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

Underlying the definition of fair value is the presumption that the Company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted price is readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and that price represents actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Quoted prices (unadjusted) in active markets for identical assets or liabilities that entity can access at measurement date (Level 1)

Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (Level 2)

Inputs for the asset or liability that are not based on observable market data (i.e. unobservable) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognised at the end of the reporting period during which the changes have occurred. However, there were no transfers between levels of fair value hierarchy during the year.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

موجودہ اور مستقبل کا نقطہ نظر

ٹیکسٹائل کی صنعت کو متعدد چیلنجز کا سامنا ہے جس کی وجہ سے مقامی اور عالمی سطح پر مقابلہ کرنا بے حد مشکل ہوتا جا رہا ہے۔ ان رکاوٹوں میں عالمی طلب میں کمی، بڑھتی ہوئی افراط زر، بلند پیداواری لاگت، مہنگی درآمدات اور خام مال، غیر یقینی کرنی کا اُتار چڑھاؤ، مہنگی بینک فنانسنگ، ٹیکس کی واپسی میں تاخیر اور حکومتی ٹیکسوں میں بے پناہ اضافہ شامل ہیں۔ اس کے نتیجے میں متعدد چھوٹے سے درمیانے درجے کے ٹیکسٹائل یونٹس بند ہونے پر مجبور ہو رہے ہیں۔ دوسری طرف، کچھ بڑے اور عمومی طور پر مربوط پیداواری یونٹس ہی اس مشکل ماحول میں ٹھیک پیدا کر رہے ہیں۔ ان تمام چیلنجز کے باوجود کمپنی کی انتظامیہ لاگت میں بچت کے اقدامات کو ترجیح دے کر منافع کے حصول کے بارے میں پرامید ہے۔ حکومت کو پائیدار ترقی کے حصول کے لیے برآمدات پر مبنی ٹیکسٹائل سیکٹر کو بھی ترجیح دینی چاہیے۔ مطلوبہ اہداف کے حصول کے لیے بجلی اور گیس کے لیے علاقائی سطح پر مسابقتی توانائی کے نرخوں پر فراہمی ضروری ہے۔

کمپنی نے پہلے ہی ایک نٹ گارمنٹس یونٹ پر کام شروع کر دیا ہے جس سے اگلے مالی سال میں روزانہ کی بنیاد پر 5000 گارمنٹس کی تعمیر صلاحیت کے ساتھ پیداوار شروع ہونے کی توقع ہے۔ اس سے کمپنی کو یورپ اور امریکہ میں نٹ گارمنٹس ایکسپورٹ مارکیٹ میں داخل ہونے اور اپنے منافع میں اضافہ کرنے میں مدد حاصل ہوگی۔ اس پیداواری سہولت کو موجودہ ڈائمنگ اور فٹنگ پروجیکشن کی سہولت فراہم کی جائے گی، جسے مالی سال 2025ء کے اختتام تک موجودہ پیداوار کو 20 میٹرک ٹن یومیہ سے 25 میٹرک ٹن تک بڑھا دیا جائے گا۔ کمپنی نے اپنے تولیہ میٹو فیکچرنگ یونٹ پر موجود ٹیکسٹائل توانائی کے پلانٹ کی صلاحیت میں 450 کلو واٹ سے 960 کلو واٹ تک کا اضافہ کیا ہے۔ مزید برآں کمپنی اپنے یونگ یونٹ پر بھی 358 کلو واٹ کے شمسی توانائی کے پلانٹ کی بھی تنصیب جاری رکھے ہوئے ہے۔ یہ ماحولیات کے تحفظ اور سستی، مسلسل اور محفوظ توانائی کی دستیابی کے لیے کمپنی کے عزم کو ظاہر کرتی ہے۔

منافع میں ٹاپ لائن اضافہ 314 ملین روپے ہے۔ گزشتہ برس 3,662 ارب روپے خالص فروخت کے مقابلے میں زیر جائزہ مدت میں 3,976 ارب روپے کی خالص فروخت میں 8.57 فیصد کا اضافہ ہے۔ مجموعی منافع میں 41.57 فیصد کا اضافہ ہوا ہے۔ جبکہ خالص منافع میں گزشتہ برس کے چھ ماہ کی اسی مدت کے مقابلے میں موجود چھ ماہ میں 1040.43 فیصد اضافہ ہوا ہے۔ غیر معمولی مجموعی مارجن کی وجہ مقامی مارکیٹ سے ویلیو ایڈڈ ایکسپورٹ کاروبار کی طرف منتقل ہونا ہے۔ ایکسپورٹ مارکیٹ پیداوار کی بڑھتی ہوئی لاگت کو جذب کر لیتی ہے جبکہ مقامی مارکیٹ ایسا نہیں کر پاتی۔ امریکی ڈالر کا بڑھتا ہوا رجحان برآمدی صنعت کے لیے زیادہ مارجن بنانے اور بڑھتی ہوئی پیداواری لاگت سے نمٹنے کے لیے بھی مددگار ثابت ہوا ہے۔ بعد از ٹیکس منافع میں غیر معمولی اضافہ کپڑا بنانے والی لومز کی فروخت سے ہوا ہے۔ یہ لومز مقامی کپڑے کے کاروبار کے لیے استعمال کی جارہی تھیں۔ اور مقامی کورے کپڑے کی مارکیٹ کو چھوڑ کر ایکسپورٹ گارمنٹس کے کاروبار میں قدم جمانے کے لیے ان لومز کو فروخت کر دیا گیا ہے۔
