### 5) RISK FACTORS

#### 5.1 RISK ASSOCIATED WITH THE RIGHT ISSUE

##### **Undersubscription Risk**

There is a risk that the right issue may get undersubscribed due to lack of interest from shareholders of the Company. The Right Issue of the Company is being carried out at a price which is less than the current share price in the market and hence there is no major investment risk associated with the Right Issue. The substantial shareholder and directors of the Company have confirmed that they shall subscribe to (or arrange the subscription of) their respective right entitlements, while the balance portion of the Right Issue will be underwritten in accordance with the applicable laws.

#### 5.2 RISK ASSOCIATED WITH ISSUER

##### 1. Internal Risk Factors

##### **Operational Risk**

Operational risk summarizes the uncertainties and hazards a business faces when it attempts to conduct its day-to-day business activities specifically in relation to plant operation. It can result from breakdowns in internal procedures, people and systems. A high turnover ratio of skilled staff, disruption in the Company's supply chain or inappropriate planning could be a major determinant to operational risk for the Company.

##### **Financial Risk**

Financial risk involves potential uncertainties and adverse events related to financial assets and liabilities. It is imperative that this is diligently managed to secure financial stability and stakeholder interests. The Company maintains a limited overall risk exposure concerning its financial assets and liabilities. It firmly believes that there is no significant concentration of credit risk to which it is exposed. Any potential exposure to credit risk is proactively managed through the prudent application of credit limits to its customers.

##### **Credit Risk**

Credit risk is the risk which arises with the possibility that one party to a financial instrument will fail to discharge its obligation and cause the other party to incur a financial loss. The Company attempts to control

credit risk by monitoring credit exposure, limiting transactions with specific counter parties and continually assessing the credit worthiness of counter parties.

#### **Liquidity Risk**

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The company manages liquidity risk by maintaining adequate reserves and the availability of funding through an adequate amount of banking facilities.

#### **Risk of Non-compliance with Regulations of SECP and PSX**

In the event of non-compliance with any regulatory requirements of SECP or PSX, the Company may be placed on the Defaulter Segment of PSX which may potentially hamper trading in the Company's shares leading to potential suspension in trading of its shares as well as delisting. The Company has instituted a strong governance and legal framework to ensure compliance at all times with applicable laws and regulations

## **2. External Risk Factors**

#### **Business Risk**

Business risk refers to the chance that the Company might report profits that fall below expectations or incur losses and this can occur due to various factors including

- Reduction in demand due to overall macro-economic slowdown
- Increase in input costs of Cotton (Raw material)
- Increase in utility costs

#### **Interest Rate Risk**

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest / mark-up rates. Sensitivity to interest / mark-up rate risk arises from mismatches of financial assets and liabilities that mature or re-price in a given period.

#### **Foreign Exchange Risk**

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies. The Company is not exposed to foreign currency risk arising from currency exposures.

#### **Risk in the Global Economic and Financial Markets**

Ongoing geopolitical disruptions have led to elevated commodity prices, impacting major economies worldwide, including the USA, UK, and European nations, with rising inflationary pressures. Some prominent global financial institutions are detecting indications of potential recessions in major countries, introducing volatility in international financial markets. This turbulence may have adverse repercussions on the Pakistani

economy and financial markets, potentially influencing the overall macroeconomic situation in the country. Additionally, it may limit the government's capacity to secure fresh debt from global markets, with potential consequences for the PKR/USD exchange rate.

### **Regulatory Risk**

Regulatory risk pertains to the possibility of future changes in government policies and regulations which could potentially impact the various business segments the Company operates in. Modifications in the regulatory landscape, such as the introduction of stricter tariffs on imported materials, have the potential to notably impact the industry's overall performance.

### **Confirmation Statement**

We, the undersigned of Allawayasa Textile and Finishing Mills Limited certify and hereby solemnly affirm and state that whatever is stated above and in the corresponding annexures with respect to the risk factors associated with the proposed Rights Issue is true and correct to the best of our knowledge and belief, and nothing has been concealed thereto.
