

Citi Pharma Limited

Public Announcement: Citi Pharma Limited's Transition to Solar Energy

Dear Valued Member's, Investors, Customers and other Stakeholders.

we are thrilled to announce a significant milestone in our journey towards sustainability and environmental responsibility: Citi Pharma Limited is transitioning from traditional energy sources to solar power. In our continuous commitment to reducing our carbon footprint and embracing cleaner energy alternatives, we have made the decision to harness the power of the sun to fuel our operations. This transition aligns with our core values of innovation, sustainability, and corporate social responsibility.

Embracing solar power not only benefits the environment but also makes economic sense. solar energy offers cost savings compared to traditional energy sources and we anticipate annual savings exceeding 100 million rupees. This remarkable achievement underscores our dedication to maximizing operational efficiency and investing in our core business activities.

Implementation Plan:

Our transition to solar energy will be executed in phases to ensure a smooth and seamless integration into our operations. We are partnering with reputable solar energy providers and experts to design and install state-of-the-art solar panels and infrastructure tailored to our specific needs. Throughout this process, we remain committed to maintaining the highest standards of quality, reliability, and service excellence that you have come to expect from Citi Pharma Limited.

Join Us in Our Sustainability Journey:

We invite all our stakeholders to join us in celebrating this momentous occasion and support us in our transition to solar energy. Together, we can make a meaningful impact on the environment and contribute to a brighter, cleaner future for generations to come.

Thank you for your continued trust and partnership as we embark on this exciting journey towards sustainability.

Sincerely,

Director Finance.
