### **DIRECTORS' REPORT**

The directors of your Company are pleased to present the condensed interim financial statements of the Company for the nine months ended 30 June 2024.

### Financial and Operational Performance:

During the last quarter there were no significant activity however, costs were added up in various heads such as salaries and wages, depreciation etc. Very difficult season was experienced as sugarcane procurement prices were sky rocketed during the season without corresponding increase in sugar selling price. Business environments were such that the Company was compelled to crush sugarcane with heavy losses. Sugarcane support price at the start of the season was increased to Rs. 400 per 40 kg as notified by the Panjab Government. However, farmer was not ready to supply sugarcane at this rate and mills were compelled to buy sugarcane at prices even beyond Rs. 500 per 40 kg. Due to non-availability of sugarcane at feasible prices, the crushing campaign was closed on 12 February 2024 at Bhone Division and on 23 February 2024 in Jhang Division. The crushing season lasted for only 91 days starting from 25 November 2023. Inspite of very challenging situation, your Company managed to crush 778,454 MT of sugarcane as compared to 1,019,181 MT of sugarcane in the corresponding period.

Due to above situation, there is a big challenge because the sugar price was never fixed rather adversely controlled by Government by taking various measures. Sugarcane was procured at considerably higher price resulting tough competition among the mills. Our Biofuel business had also suffered due to lower demands in international market and non-availability of molasses at feasible prices. Our textile business has also affected adversely due to overall situation in the yarn market as the difficult business environments continued in the textile sector, therefore, the plant could not be operated during this period.

Due to above mentioned factors, the Company incurred gross loss of Rs. 1,511 million as compared to gross profit of Rs. 111 million during corresponding period last year. Loss from operations was Rs. 1,906 million compared to loss from operations of Rs. 269 million during corresponding period last year. Company incurred loss before tax of Rs. 2,062 million and after-tax loss of Rs. 2,422 million as compared to after tax loss of Rs. 30 million in the corresponding period of last year. The Company accounted for its share of profit in equity accounted investment in Shakarganj Food Products Limited amounting to Rs. 36 million as compared to profit of Rs. 148 million in the corresponding period.

### **Business Segments:**

### Sugar Division:

Sugar Division revenue net of tax for the nine months of Fiscal 2024 was Rs. 7,507 million and intersegment sale of this division was Rs. 357 million as against net sales revenue of Rs. 7,698 million and intersegment sale of Rs. 1,391 million during corresponding period of last year. The Sugar Division crushed 778,454 MT (9MFY23: 1,019,181 MT) of sugarcane to produce 72,213 MT (9MFY23: 104,540 MT) of sugar at an average recovery rate of 9.29 percent (9MFY23: 10.26 percent). Average recovery was reduced due to quality of sugarcane available during the season.

The gross loss margin remained 13.92% during the current period compared to gross loss of 0.34% during the corresponding period of last year. The bottom-line resulted in loss before tax of Rs. 1,380.286 million as compared to loss before tax of Rs. 257.407 million for the corresponding period last year.

### **Biofuel Division**:

Net sales revenue of Biofuel Division during the period amounted to Rs. 959 million with inter segment sale of Rs. 5 million as compared to net sales revenue of Rs. 1,363 million with inter segment sale of Rs. 32 million during the corresponding period. There was gross loss for the period of Rs. 367.55 million as compared to gross profit of Rs. 190.55 million in corresponding period last year. Due to reasons mentioned above, the bottom-line resulted in loss before tax of Rs. 431.845 million as compared to profit before tax of Rs. 81.766

million for the corresponding period last year. The production of this division was 2.23 million litres (9MFY23: 9.93 million litres).

### Textile Division:

During the period under review due to no operations there was no production in Textile Division as the same was case in previous period.

### Unconsolidated Financial Position

Balance sheet footing stood at Rs. 18,519.90 million as of 30 June 2024 compared to Rs. 19,023.52 million on 30 September 2023. Total shareholders' fund decreased to Rs. 7,686.69 million from Rs. 10,171.60 million as at 30 September 2023. Break-up value per share was Rs. 61.49.

### Consolidated Financial Performance

On a consolidated basis, operating loss before other income, finance costs and taxation amounted to Rs. 1,591.87 million (9MFY23: operating profit Rs. 406.10 million). Consolidated loss after tax for the Group for the period was Rs. 2,379.89 million as compared to profit after tax of Rs. 104.14 million in 9MFY23.

During period under review, profit after tax of Shakarganj Food Products Limited – the subsidiary company, amounted to Rs. 68.72 million (9MFY23: profit after tax Rs. 282.50 million). We are hopeful, with the rise in demands, for further improvements in the performance of the group as a whole in the remaining part of fiscal year.

On a Group basis, the consolidated balance sheet footing stood at Rs. 26,982.52 million, compared to Rs. 27,396.47 million as at 30 September 2023. Total equity decreased to Rs. 9,434.42 million from Rs. 11,856.47 million as at 30 September 2023.

### Financial Review

As reported earlier, Shakarganj Limited has been included in Defaulters List by Pakistan Stock Exchange, because its current liabilities have exceeded its currents assets by Rs. 4,791.22 million. However, the Company remains committed to improve its liquidity scenario. Various steps have been planned to overcome the liquidity crunch as details given in Note 1.2 to the condensed interim financial statements attached herewith. All out efforts are being made to improve the production and profitability of the Company through efficiency, effectiveness, and reducing production cost. The management considers that the measures explained might result in availability of adequate financial resources for the Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. However, as mentioned above, the business environments were such that the Company was compelled to crush sugarcane with heavy losses which factor affected the progress seriously. But still the management of the Company s determined to take chance wherever opportunities arise in future.

### Future Outlook:

Due to short season, raw material for our biofuel operations was not available at feasible prices. As the future outlook of our distilleries operations is always depending on continuous availability of good quality molasses however, operations at Biofuel Division are not expected to improve its performance with limited availability of molasses. Difficult business environments in the textile business due to high cost of raw material, the operations could not be started yet. As mentioned in our last report, management is taking steps to overcome the liquidity crunch and we are hopeful that the Company would continue its operations. Inspite of all the challenges, we remain committed to navigating through the challenging times.

Finally, we would like to thank all stakeholders for their patronage and look forward to their continued support.

On behalf of Board of Directors

# SELECTED NOTES TO THE UNCONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

For The Nine Months Ended 30 June 2024 (Un-Audited)

### 1 THE COMPANY AND ITS OPERATIONS

1.1 Shakarganj Limited ("the Company") is a public limited company incorporated in Pakistan under the repealed Companies Act, 1913 (now the Companies Act, 2017). The shares of the Company are listed on Pakistan Stock Exchange Limited. The Company is principally engaged in the business of production, purchase and sale of sugar, biofuel, yarn and by-products. Its registered office is situated at E-Floor, IT Tower, 73-E/1, Hali Road, Gulberg-III, Lahore, whereas its mill / plant is situated at Jhang and Bhone.

### 1.2 Going concern assumption

The Company has incurred a huge loss after taxation of Rs. 2,421.899 million (2023: Loss after tax Rs. 30.353 million) and its accumulated losses stood at Rs. 4,829.460 million (2023: Rs. 2,839.278 million) along with adverse current ratio as at 30 June 2024. Moreover, the Company has certain overdue statutory obligations. Furthermore Textile segment of the Company remained closed during the whole period. Certain shareholders of the Company have applied to Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective courts regarding the approval of disposal of certain agricultural land of the Company. These factors indicate the existence of material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. However, these unconsolidated condensed interim financial statements have been prepared on going concern basis due to following reasons:

- The Company is making arrangement to sell its agriculture land having market value of Rs. 755.550 million. For this purpose, approval of share holders has already been obtained in Annual General Meeting of the company held on 28 February 2022 subject to the orders of Lahore High Court, Lahore and Sindh High Court, Karachi along with no objection certificates from lenders. The proceeds thereof will be utilized by the company to pay to sugarcane growers and to settle other liabilities of the company as well as upgradation of plant & machinery of textile and sugar divisions at Jhang.
- The management of the Company has firmed up a turnaround plan based on disposal of the Bhone Unit of the Company which includes Sugar and Biofuel divisions. Book value of freehold land, building and plant and machinery as at 30 September 2023 is Rs. 7.64 billion. Price discovery by the management for the whole Bhone Unit of the Company including related licenses / rights when built in the future plan results in debt free business, surplus funds and profits for the Company. The management has planned to seek required approvals for roll out of the turnaround plan before the end of financial year 30 September 2024.
- The Company is in the process of installing the falling film evaporators. Falling film evaporators are alternative to Robert type evaporators and help to improve the optimization of the evaporator's station and energy efficiency of the plant. The percentage of steam's usage will be reduced by 9%. It would increase the recovery ratio accordingly.
- The Company remains committed to its best efforts to improve liquidity position. The financial projections of the Company show improvements in cash generation and profits.

The management considers that the measures as explained above would result in availability of adequate financial resources for the Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. Accordingly, these financial statements have been prepared on a going concern basis which assumes that the Company will continue to operate its business, realize its assets, and discharge its liabilities, in the normal course of business.

#### 20. FINANCIAL RISK MANAGEMENT

#### 20.1 Financial risk factors

The Company's financial risk management objectives and policies are consistent with those disclosed in the preceding audited annual published financial statements of the Company for the year ended 30 September 2023.

#### 20.2 Fair values of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

Level 1- Quoted prices (unadjusted) in active markets for identical assets or liabilities.

- Level 2 Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (that is, derived from prices).
- Level 3 Inputs for the asset or liability that are not based on observable market data (that is, unadjusted) inputs.

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

During the year, there were no transfers between level 1 and level 2 fair value measurements, and no transfers into and out of level 3 fair value measurement.

The Company has not disclosed the fair values of the financial assets and financial liabilities because their carrying amounts are reasonable approximation of fair values, except fair value of equity instruments.

#### Valuation techniques used to determine fair values

The table analyses financial assets measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorized:

# SELECTED NOTES TO THE CONSOLIDATED CONDENSED INTERIM FINANCIAL STATEMENTS

For the Nine Months Ended 30 June 2024 (Un-Audited)

## 1 THE GROUP AND ITS OPERATIONS

The Group consists of Shakarganj Limited (the Holding Company) and its Subsidiary Company, Shakarganj Food Products Limited. Brief profiles of the Holding Company and its Subsidiary Company are as follows:

## 1.1 Shakarganj Limited

Shakarganj Limited (the Holding company SML) is a public limited company incorporated on 20 September 1967 in Pakistan under the Companies Act, 1913 (Now Companies Act, 2017) and is listed on Pakistan Stock Exchange Limited. It is principally engaged in manufacture, purchase and sale of sugar, biofuel and yarn. SML has its principal manufacturing facilities at Jhang and satellite manufacturing facilities at Bhone. The registered office of SML is situated at E-Floor, IT Tower, 73-E/1, Hali Road, Gulberg-III, Lahore.

- 1.2 The Holding Company has incurred a huge loss after taxation of Rs. 2,421.899 million (2023: Loss after tax Rs. 30.353 million) and its accumulated losses stood at Rs. 4,829.460 million (2023: Rs. 2,839.278 million) along with adverse current ratio as at 30 Jun 2024. Moreover, the Holding Company has certain overdue statutory obligations. Furthermore Textile segment of the Holding Company remained closed during the whole period. Certain shareholders of the Holding Company have applied to Sindh High Court, Karachi and Lahore High Court, Lahore and obtained stay on 29 November 2021 and 25 February 2022 respectively from the respective courts regarding the approval of disposal of certain agricultural land of the Holding Company. These factors indicate the existence of material uncertainty which may cast significant doubt about the Holding Company's ability to continue as a going concern and, therefore, that it may be unable to realize its assets and discharge its liabilities in the normal course of business. However, these consolidated condensed interim financial statements have been prepared on going concern basis due to following reasons:
  - The Holding Company is making arrangement to sell its agriculture land having market value of Rs. 755.550 million. For this purpose, approval of share holders has already been obtained in Annual General Meeting of the Holding company held on 28 February 2022 subject to the orders of Lahore High Court, Lahore and Sindh High Court, Karachi along with no objection certificates from lenders. The proceeds thereof will be utilized by the Holding company to pay to sugarcane growers and to settle other liabilities of the Holding company as well as upgradation of plant & machinery of textile and sugar divisions at Jhang.
  - The management of the Holding Company has firmed up a turnaround plan based on disposal of the Bhone Unit of the Holding Company which includes Sugar and Biofuel divisions. Book value of freehold land, building and plant and machinery as at 30 September 2023 is Rs. 7.64 billion. Price discovery by the management for the whole Bhone Unit of the Holding Company including related licenses / rights when built in the future plan results in debt free business, surplus funds and profits for the Holding Company. The management has planned to seek required approvals for roll out of the turnaround plan before the end of financial year 30 September 2024.

- The Holding Company is in the process of installing the falling film evaporator at principal unit, as well as at satellite unit too. Falling film evaporators are alternative to Robert type evaporators and helps to improve the optimization of the evaporator's station and energy efficiency of the plant. The percentage of steam's usage will be reduced by 9%. It would also increase the recovery ratio accordingly.
- The Holding Company remains committed to its best efforts to improve liquidity portion. The financial projections of the Holding Company show improvements in cash generation and profits.

The management and the Board considers that the measures as explained above would result in availability of adequate financial resources for the Holding Company to sustain the continuity of its business for the foreseeable future and thus maintain its going concern status. Accordingly, these financial statements have been prepared on a going concern basis which assumes that the Holding Company will continue to operate its business, realize its assets, and discharge its liabilities, in the normal course of business.
